### PROXY STATEMENT

This proxy statement is being furnished by Tidelands Oil & Gas Corporation (the "Company") on, or about February 7, 2006 in connection with the solicitation of a written consent from shareholders, seeking approval by a majority in capital interest, of a proposed amendment of the company's Certificate of Incorporation to increase authorized capital stock from 100,000,000 shares to 250,000,000 shares.

As of February 7, 2006, the record date for determining the holders of stock entitled to notice of the proposed solicitation of written consent, there were 79,495,815 shares (1) of common stock outstanding; constituting all the voting stock of the Company entitled to vote at any meeting.

The execution of a written consent by the holders of a majority in capital interest of the outstanding stock of the Company's common stock, viewed as a single class, is necessary to effectuate shareholders approval by written consent.

Note 1: This number of shares does not include 1,000,000 shares which are the subject matter of pending Company litigation.

### PERSONS MAKING THE SOLICITATION

This solicitation of proxies is made on behalf of our Board of Directors and the cost will be borne by the Company. Our directors, officers and employees (none of whom will receive any compensation in addition to his or her regular compensation) may solicit written consents from stockholders by mail, telephone, telegrams, facsimile and other electronic communication, and from personal interviews. We will reimburse banks, brokers and nominees for their expenses in forwarding proxy materials and form of written consent to our beneficial owners.

### VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

The Company has approximately 79,495,815 shares of common stock outstanding. Each share is entitled to one vote on all matters to come before the shareholders.

The Company will solicit a written consent of shareholders of the Company, seeking approval of a majority in capital interest of the Company's outstanding stock for an amendment to the Company's Certificate of Incorporation to increase authorized Capital Stock from 100,000,000 shares to 250,000,000 shares.

### DISSENTERS RIGHTS

Stockholders have no dissenters rights with respect to the matters referred to in this Proxy Statement.

### PROPOSAL 1

#### PROPOSAL TO AMEND CERTIFICATE OF INCORPORATION

On January 20, our Board of Directors adopted, subject to stockholder approval, an amendment to our Certificate of Incorporation to increase the total authorized shares from 100,000,000 shares to 250,000,000 shares. Such increase would be effectuated by amending current Article III of the Certificate of Incorporation of the Company to read as follows:

"Article III: The total number of shares of stock which this corporation shall have authority to issue is 250,000,000 shares of common stock, par value \$0.001 per share."

The additional shares of common stock for which authorization is sought herein would be part of the existing class of common stock and, if and when issued, would have the same rights and privileges as the shares of common stock presently outstanding.

As of January 20, 2006, 79,495,815 shares of Common stock were issued and outstanding.

On January 20, 2006, the Company entered into a series of Securities Purchase and related agreements ("Purchase Agreements") with seven purchasers. The Purchase Agreements require the reservation of additional common stock. The required reservation presently exceeds our authorized common stock capitalization. Presently, we have reserved approximately 1,225,237 shares for general corporate purposes, 9,278,948 shares reserved for outstanding warrant exercises and 9,000,000 reserved for the Purchase Agreement referred to above. If all of the Purchase Agreements' debentures were converted to common stock and all the Series A and B common stock warrants were exercised, we would need 17,660,525 common shares. After giving effect to the 9,000,000 shares that we reserved for the Purchase Agreements and assuming all the debentures are converted and warrants exercised, we would need an additional 8,660,525 common shares. Therefore, we need to increase our authorized common stock capital.

#### PURPOSES AND EFFECTS OF THE AUTHORIZED SHARES AMENDMENT

On January 20, 2006, the Company entered into a series of Securities Purchase and related agreements ("Purchase Agreements") with seven purchasers. We reported the securities purchase transactions in a Current Report on Form 8-K filed on January 24, 2006. We sold \$6,569,750 Dollars, in the aggregate principal amount, of discounted convertible debentures ("Debentures") and Series A and Series B Warrants to purchase common stock ("Warrants") for an aggregate payment of \$5,396,098 after deduction for the interest discount. The Debenture Holder have the right to convert all or part of the Debenture face amount into shares of Tidelands common stock at any time at an initial conversion rate of \$0.87 per share. Additionally, we granted the Purchasers Series A Common Stock Purchase Warrants to purchase 2,557,661 common shares at \$0.935 per share and Series B Common Stock Purchase Warrants to purchase 7,551,432 common shares at \$1.275 per share.

At the time of the sale, we disclosed that we had insufficient authorized common stock to perform the potential debenture conversions and warrant exercises. The

## Edgar Filing: TIDELANDS OIL & GAS CORP/WA - Form PRE 14A

Stock Purchase Agreements and related transaction documents require that we increase our authorized common stock capital. We have reserved 9,000,000 common shares of our unissued authorized common stock capital for this transaction.

The Company's directors are required to take this action to comply with the Stock Purchase Agreements. We are increasing the capital beyond the levels required for compliance with the Stock Purchase Agreements because the directors believe that it is desirable to have additional authorized shares of common stock available for other possible future financings, possible future acquisition transactions, stock dividends, stock splits and other general corporate purposes.

The Company's directors believe that having such additional authorized shares of common stock available for issuance in the future should give the Company greater flexibility and may allow such shares to be issued without the expense and delay of a special shareholders' meeting.

Although such issuance of additional shares with respect to future financings and acquisitions would dilute existing shareholders, management believes that such transactions would increase the value of the Company to its shareholders.

The Board of Directors does not intend to issue any common stock or securities convertible into common stock except on terms that the Board of Directors deems to be in best the interest of the Company and its stockholders. Other than our agreements with other groups as disclosed in our SEC Periodic Reports and the Stock Purchase Agreements referenced above, we have no arrangements, agreements, or understandings in place at the present time for the issuance or use of the additional shares of common stock to be authorized by the proposed amendment to the Certificate of Incorporation.

Although an increase in the authorized shares of common stock could, under certain circumstances, have an anti-takeover effect, this proposal to amend the Certificate of Incorporation is not in response to any effort of which we are aware to accumulate our stock or obtain control of the Company, nor is it part of a plan by management to recommend a series of similar amendments to the Board of Directors and stockholders.

There are certain advantages and disadvantages of voting for an increase in the Company's authorized common stock. The advantages include:

- The ability to comply with the Securities Purchase Agreements which resulted in our receipt of \$5,396,098.
- The ability to raise more capital by issuing capital stock in other future financing transactions.
- To have shares of common stock available to pursue business expansion opportunities, related to our gas pipeline and related operations.

The disadvantages include:

- Failure to increase our authorized common stock capital would result in material breach of the Stock Purchase and related transaction documents.
- Dilution to the existing shareholders, including a decrease in our net income per share in future periods. This could cause the market price of our stock to decline.

## Edgar Filing: TIDELANDS OIL & GAS CORP/WA - Form PRE 14A

- The issuance of authorized but un-issued stock could be used to deter a potential takeover of the Company that may otherwise be beneficial to shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the desires of the Company's Board of Directors, at that time.

### BOARD RECOMMENDATION

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR THE AMENDMENT OF THE CERTIFICATE OF INCORPORATION VOTING PROCEDURES

Management plans to solicit the majority Shareholders Written Consent to amend the Certificate of Incorporation to increase authorized capital stock from 100,000,000 shares to 250,000,000 shares.
