RISK FACTORS

The securities offered in this prospectus are speculative and involve a high degree of risk. Only those persons able to lose their entire investment should purchase any of the securities. Prior to making an investment decision, you should carefully read this prospectus and consider, along with other matters referred to herein, the following risk factors.

Because we are particularly dependent upon government contracts, any decrease in funding for entitlement programs could result in decreased revenue.

We market our health information systems principally to behavioral health facilities, many of which are operated by government entities and include entitlement programs. During 2002, we generated 52% of our revenue from contracts that are directly or indirectly with government agencies, as compared with 40% in 2001 and 51% in 2000. Government agencies generally have the right to cancel contracts at their convenience. Our ability to generate business from government agencies is affected by funding for entitlement programs, and our revenue would decline if state agencies reduce this funding.

Changes in government regulation of the health care industry may adversely affect our revenue, operating expenses and profitability.

Our business is based on providing systems for behavioral and public health organizations in both the public and private sectors. The federal and state governments have adopted numerous regulations relating to the health care industry, including regulations relating to the payments to health care providers for various services, and our systems are designed to provide information based on these requirements. The adoption of new regulations can have a significant effect upon the operations of health care providers, particularly those operated by state agencies. Furthermore, changes in regulations in the health care field may force us to modify our health information systems to meet any new record-keeping or other requirements and may impose added costs on our business. If that happens, we may not be able to generate revenues sufficient to cover the costs of developing the modifications. In addition, any failure of our systems to comply with new or amended regulations could result in reductions in our revenue and profitability.

If we are not able to take advantage of technological advances, we may not be able to remain competitive and our revenue may decline.

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

Our customers require software which enables them to store, retrieve and process very large quantities of data and to provide them with instantaneous communications among the various data bases. Our business requires us to take advantage of recent advances in software, computer and communications technology. This technology has been developing at rapid rates in recent years, and our future may be dependent upon our ability to use and develop or obtain rights to products utilizing such technology. New technology may develop in a manner which may make our software obsolete. Our inability to use new technology would have a significant adverse effect upon our business.

Because of our size, we may have difficulty competing with larger companies that offer similar services, which may result in decreased revenue.

Our customers in the human services market include entitlement programs, managed care organizations and specialty care facilities which have a need for access to information over a distributed data network. The software industry in general, and the health information software business in particular, are highly competitive. Other companies have the staff and resources to develop competitive systems. We may not be able to compete successfully with such competitors. The health information systems business is served by a number of major companies and a larger number of smaller companies. We believe that price competition is a significant factor in our ability to market our health information systems and services, and our inability to offer competitive pricing may impair our ability to market our system.

3

Because we are dependent on our management, the loss of key executive officers could disrupt our business and our financial performance could suffer.

Our business is largely dependent upon our senior executive officers, Messrs. James L. Conway, our chief executive officer, Gerald O. Koop, our president, and Anthony F. Grisanti, our chief financial officer. Although we have employment agreements with these officers, the employment agreements do not guarantee that the officers will continue with us, and each of these officers has the right to terminate his employment with us on 90 days notice. Our agreements with Messrs. Conway and Grisanti are scheduled to expire on December 31, 2003, although each of Messrs. Conway and Grisanti has the right on ninety, days notice to extend his agreement for successive additional one year periods. In addition, Mr. Koop's employment agreement is scheduled to expire on December 31, 2003, following which he is expected to continue to work with us for a five-year period pursuant to a consulting agreement between us dated January 1, 2001. Our business may be adversely affected if any of our key management personnel or other key employees left our employ.

If we are unable to protect our intellectual property, our competitors may gain access to our technology, which could harm our ability to successfully compete in our market.

We have no patent protection for our proprietary software, and we rely on non-disclosure agreements with our employees. In addition, this protection does not prevent our competitors from independently developing products similar or superior to our products and technologies. To further develop our services or products, we may need to acquire licenses for intellectual property. These

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

licenses may not be available on commercially reasonable terms, if at all. Our failure to protect our proprietary technology or to obtain appropriate licenses could have a material adverse effect on our business, operating results or financial condition. Since our business is dependent upon our proprietary products, the unauthorized use or disclosure of this information could harm our business.

We also cannot guarantee that in the future, third parties will not claim that we infringed on their intellectual property. Asserting our rights or defending against third party claims could involve substantial costs and diversion of resources, which could materially and adversely affect us.

The covenants in our loan agreement restrict our financial and operational flexibility, including our ability to complete additional acquisitions, invest in new business opportunities, or pay down certain indebtedness.

Our revolving credit and term loan agreement contains covenants that restrict, among other things, our ability to borrow money, make particular types of investments, including investments in our subsidiaries, make other restricted payments, swap or sell assets, merge or consolidate, or make acquisitions. An event of default under our loan agreement could allow the lender to declare all amounts outstanding to be immediately due and payable. We have pledged substantially all of our consolidated assets to secure the debt under our loan agreement. If the amounts outstanding under the loan agreement were accelerated, the lender could proceed against those consolidated assets. Any event of default, therefore, could have a material adverse effect on our business. Our loan agreement also requires us to maintain specified financial ratios. Our ability to meet these financial ratios can be affected by events beyond our control, and we cannot assure you that we will meet those ratios. We also may incur future debt obligations that might subject us to restrictive covenants that could affect our financial and operational flexibility or subject us to other events of default.

Our growth may be limited if we cannot make acquisitions.

A part of our growth strategy is to acquire other businesses that are related to our current business. Such acquisitions may be made with cash or our securities or a combination of cash and securities. To the extent that we require cash, we may have to borrow the funds or issue equity, which could dilute our earnings or the book value per share of our common stock. Our stock price may adversely affect our ability to make acquisitions for equity or to raise funds for acquisitions through the issuance of equity securities. If we fail to make any acquisitions, our future growth may be limited. As of the date of this prospectus, we do not have any agreement or understanding, either formal or informal, as to any acquisition.

If we make any acquisitions, they may disrupt or have a negative impact on our business.

If we make acquisitions, we could have difficulty integrating the acquired company's personnel and operations with our own. In addition, the key personnel of the acquired business may not be willing to work for us, and our officers may exercise their rights to terminate their employment with us. We cannot predict the affect expansion may have on our core business. Regardless of

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

whether we are successful in making an acquisition, the negotiations could disrupt our ongoing business, distract our management and employees and increase our expenses.

We do not anticipate, and our loan agreement prohibits, the payment of dividends on our common stock, therefore, investors cannot rely on dividends to increase the value of their investment in Netsmart.

We have never paid a cash dividend and we do not anticipate paying cash dividends on our common stock in the foreseeable future. We presently intend to retain future earnings, if any, in order to provide funds for use in the operation and expansion of our business. Consequently, investors cannot rely on the payment of dividends to increase the value of their investment on Netsmart. In addition, we are a party to a loan agreement which prohibits us from paying cash dividends without the prior consent of our lender.

The employment contracts with our executive officers and provisions of Delaware law may deter or prevent a takeover attempt and may reduce the price investors might be willing to pay for our common stock.

The employment contracts between us and each of James Conway, Gerald Koop and Anthony Grisanti provide that in the event there is a change in control of Netsmart, the employee has the option to terminate his employment agreement. Upon such termination, each of Messrs. Conway, Koop and Grisanti has the right to receive a lump sum payment equal to the sum of

- * his compensation for a twelve-month period plus
- * an amount equal to his monthly compensation multiplied by
-
- * the greater of 30 and
- * 1.5 times the number of years the employee has
been employed by Netsmart, but not more than 36.

In addition, Delaware law restricts business combinations with stockholders who acquire 15% or more of a company's common stock without the consent of the company's board of directors.

These provisions could deter or prevent a takeover attempt and may also reduce the price that certain investors might be willing to pay in the future for shares of our common stock

Any issuance of preferred stock may dilute the voting power and equity interest of our common stock.

Our certificate of incorporation gives our board of directors the right to create new series of preferred stock. As a result, the board of directors may, without stockholder approval, issue preferred stock with voting, dividend, conversion, liquidation or other rights which could adversely affect the voting power and equity interest of the holders of common stock. The preferred stock, which could be issued with the right to more than one vote per share, could be utilized as a method of discouraging, delaying or preventing a change of control. The possible impact on takeover attempts could adversely affect the price of our common stock. Although we have no present intention to issue any additional shares of preferred stock or to create any series of preferred stock, we may issue such shares in the future. If we issue preferred stock in a manner which dilutes the voting rights of the holders of the common stock, our listing on The Nasdaq SmallCap Market may be impaired.

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

Shares may be issued pursuant to options and warrants which may adversely affect the market price of our common stock.

We may issue stock upon the exercise of options to purchase shares of our common stock pursuant to our long term incentive plans, of which options to purchase 882,202 shares were outstanding at April 8, 2003. The exercise of these options and the sale of the underlying shares of common stock may have an adverse effect upon the price of our stock.

In addition, we may issue stock upon the exercise of warrants to purchase shares of our common stock pursuant to various agreements, of which warrants to purchase 718,544 shares were outstanding at April 8, 2003. The exercise of these warrants and the sale of the underlying shares of common stock may have an adverse effect upon the price of our stock.

FORWARD-LOOKING STATEMENTS

Statements in this prospectus contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may, and probably will, differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those described above and those risks discussed from time to time in this prospectus, including the risks described in this prospectus under "Risk Factors," and those described under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in other documents which we file with the Securities and Exchange Commission. In addition, such statements could be affected by risks and uncertainties related to product demand, market and customer acceptance, competition, government regulations and requirements, pricing and development difficulties, as well as general industry and market conditions and growth rates, and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this prospectus.

USE OF PROCEEDS

The proceeds from the sale of the shares underlying the warrants by the selling securityholder will belong to the individual selling securityholder. We will not receive any of the proceeds from the sale of the shares. We received proceeds of \$162,000 in respect of the exercise price of the options and certain of the warrants upon their exercise. We will receive the exercise price of the remaining warrants upon their exercise. We cannot assure you that any warrants will be exercised. If all of the remaining warrants are exercised in full, we would receive gross proceed of \$270,000. We expect to utilize any such amounts received upon the exercise of the warrants and options for general corporate and working capital purposes. Our management will have broad discretion to determine the use of any proceeds.

SELLING SECURITYHOLDERS

We have agreed to register all of the shares of common stock issuable upon exercise of certain warrants to purchase 60,000 shares of common stock issued to Newbridge Securities Corporation at exercise prices of \$4.00 and \$5.00 per share, as more fully described below. Guy S. Amico, President of Newbridge and Scott H. Goldstein, Chief Executive Officer of Newbridge have disposition power regarding the warrants owned by Newbridge. Newbridge Securities Corporation received the warrants pursuant to a business advisory and consulting agreement pursuant to which Newbridge agreed to study and review our business, operations, historical financial performance and projections so as to enable Newbridge to provide advice to us, including an independent research report, for a two-year period commencing April 10, 2002. Pursuant to the business advisory and consulting agreement, we agreed to pay Newbridge during the two-year consulting period, a business advisory fee of \$4,000 per month, payable as follows:

- * \$4,000 non-refundable retainer due upon the effective date and

We also agreed that, if Newbridge introduces us to a party which consummates a private placement of debt or equity securities we will pay Newbridge, upon the closing of the private placement a separate and additional fee based on the successful completion of the private placement, but not greater than that fee that would be derived by applying a formula to the amount of the proceeds received by us in the private placement, as follows:

- * three percent (3%) of the next million dollars or part thereof,

The warrants to purchase 50,000 shares of common stock were sold by Newbridge Securities Corporation to First Mirage, Inc., which warrants were exercised in April 2003. We are registering the 50,000 shares issued to First Mirage. David A. Rappaport, President of First Mirage, has the power to direct the vote and the disposition of the shares owned by First Mirage.

We have also agreed to register all of the shares of common stock issued upon exercise of certain options to purchase 10,000 shares of common stock issued to Dr. Beny Primm at an exercise price of \$2.75. Dr. Primm exercised the options in December 2002. Dr. Primm received the options pursuant to a consulting agreement pursuant to which Dr. Primm agreed to provide behavioral health and smart card technology consulting services, commencing February 16, 2002, for a two-year period as extended. Pursuant to the terms of the consulting agreement we were required to pay Dr. Primm \$1,000 for each day for which he provides us consulting services, together with commissions in an amount equal to 5% of our net sales to new drug treatment programs to which Dr. Primm introduced or assisted us with in the course of performing the consulting services, as well as on net sales to our current clients drug treatment clients to whom he was instrumental in helping us sell our smart card technology. We paid Dr. Primm \$1,000 in consulting fees and no amounts in respect of commissions for our fiscal year ended December 31, 2002.

8

We have agreed to pay one-half of the expenses in connection with such registration and sale of common stock (other than underwriting discounts and selling commissions and the fees and expenses of counsel and other advisors to the selling securityholder). We will not receive any proceeds from the sale of any of the securities by the selling securityholders, except for the exercise price paid in connection with any exercise of warrants and options.

The following table sets forth certain information with respect to the present record and beneficial ownership of our securities owned by the selling securityholders as of April 7, 2003, based upon information provided to us by such selling securityholder. Because the selling securityholders may offer all, some, or none of their shares, the "after sale" column of the table assumes the sale of all of their shares offered hereby; however, we do not know that this will actually occur.

Selling Securityholder -----	Shares owned prior to sale -----	Number of Shares offered hereby -----	Amount and nature of beneficial ownership of common stock after sale of the securities -----	
			Number -----	Percent -----
Newbridge Securities Corporation(1)	160,889	60,000	100,889	*

Newbridge owns additional Series E Common Stock Purchase Warrants to purchase 90,000 shares of common stock which are not offered hereby.

(2) The shares offered by the selling securityholder are comprised of 10,000 shares underlying a non-qualified stock option issued to Dr. Primm pursuant to a consulting agreement. The options had an exercise price of \$2.75 per share and were exercised by Dr. Primm on December 23, 2002.

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

PLAN OF DISTRIBUTION

Our shares are traded on the Nasdaq SmallCap Market under the symbol "NTST". The shares offered hereby may be sold from time to time by the selling securityholders for their own account. We will receive none of the proceeds from this offering, except that we have received the exercise price of the options and will receive the exercise price of the warrants upon their exercise. The selling securityholders will pay or assume brokerage commissions or other charges and expenses incurred in the sale of the shares.

9

The distribution of the shares by the selling securityholders are not subject to any underwriting agreement. The shares covered by this prospectus may be sold by the selling securityholders or by pledges and donees of the selling securityholders. The shares offered by the selling securityholders may be sold from time to time at market prices prevailing at the time of sale, at prices relating to such prevailing market prices or at negotiated prices. The selling securityholders may sell their shares covered by this prospectus through customary brokerage channels, either through broker-dealers acting as agents or brokers, or through broker-dealers acting as principals, who may then resell the shares, or at private sale or otherwise, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The selling securityholders may effect such transactions by selling the shares to or through broker-dealers, and such broker-dealers may receive compensation in the form of underwriting discounts, concessions, commissions, or fees from the selling securityholders and/or purchasers of the shares for whom such broker-dealers may act as agent or to whom they sell as principal, or both (which compensation to a particular broker-dealer might be in excess of customary commissions). The selling stockholders and any broker-dealers that participate with the selling securityholders in the distribution of the shares may be deemed to be underwriters and any commissions received by them and any profit on the resale of the shares by them might be deemed to be underwriting discounts and commissions within the meaning of the Securities Act, in connection with such sales.

Any shares covered by this prospectus that qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus.

The shares are not being offered in any jurisdiction where the offer is not permitted.

Item 17. Undertakings.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement.

Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (1)(i) and (1)(ii) above shall not apply if the information required to be included in a post-effective amendment by such clauses is contained in periodic reports filed with or furnished to the Commission by the Registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) For the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a

Edgar Filing: NETSMART TECHNOLOGIES INC - Form S-3/A

new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby further undertakes that, for purposes of determining liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

13

The undersigned Registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to securityholders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report to securityholders that is specifically incorporated by reference in the prospectus and to provide such interim financial information.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this amendment to registration statement to be signed on its behalf by the undersigned, thereunto duly authorized in the city of Islip, State of New York, this __ day of __, 2003.
