UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended September 30, 2009

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the Transition Period from _____ to _____

Commission file number: 333-135783

WATERPURE INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)

Florida
(State or other jurisdiction of
incorporation or organization)

20-3217152
(IRS Employer Identification
No.)

525 Plymouth Road, Suite 310
Plymouth Meeting, PA 19462
(Address of principal executive offices) (zip code)

(954) 728-2405
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Edgar Filing: WaterPure International - Form 10-Q

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting
company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2) of the Exchange Act.
Yes No .

As of November 13, 2009, there were 112,173,986 shares of registrant's common stock outstanding.

WATERPURE INTERNATIONAL, INC.

Supplemental disclosures of cash flow information:

- 1)The Company recorded a liability of \$341,803 for amounts owed for the license acquisition as described in Note 4 for the three months ended September 30, 2008.
- 2)The Company recorded accrued royalties of \$604,132, which represents the present value of the guaranteed minimum payments for the license acquisition as described in Note 4 for the three months ended September 30, 2008.
- 3)The Company issued 1,666,111 shares of common stock valued at \$91,550 as repayment of amounts due to stockholders and officers as described in Note 6 for the three months ended September 30, 2008.

The accompanying notes are an integral part of these financial statements.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 - NATURE OF OPERATIONS

NATURE OF OPERATIONS

WaterPure International, Inc. (the “Company”) (a development stage company) was incorporated in the state of Florida on July 22, 2005, for the purpose of marketing selected private label products and services to the small office and/or home office as well as the consumer markets. The Company intends to market and eventually to manufacture the licensed Atmospheric Water Generators from Everest Water Ltd., devices that harvest pure drinking water from ambient air. These machines are engineered to produce drinking water virtually free of any material, bacterial, organic or other contaminants. The Company also intends to market mineral additives that will permit addition of organic minerals, flavors and other desired additives to water produced by the machine. The products will bear the Company’s own exclusive WaterPure branding.

BASIS OF PRESENTATION

The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial reporting. Certain information and footnote disclosures normally included in the Company’s annual financial statements have been condensed or omitted. In the Company’s opinion, the unaudited interim financial statements and accompanying notes reflect all adjustments, consisting of normal and recurring adjustments, that are necessary for a fair presentation of its financial position and operating results for the three month interim periods ended September 30, 2009 and 2008 and cumulative period from inception (July 22, 2005) to September 30, 2009.

The results of operations for the interim periods are not necessarily indicative of the results to be expected for the entire fiscal year. This Form 10-Q should be read in conjunction with the audited financial statements and notes there to included in the Company’s Form 10-K as of June 30, 2009 and for the period commencing from inception (July 22, 2005) through June 30, 2009.

NOTE 2 - GOING CONCERN/MANAGEMENT’S PLAN

The accompanying unaudited interim financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has incurred a net loss since its inception totaling \$5,078,431, has earned minimal revenues and has a working capital deficit of \$1,100,087, as of September 30, 2009. These matters raise substantial doubt about the Company’s ability to continue as a going concern. These financial statements do not include adjustments that might result from the outcome of this uncertainty. In order to generate revenues and provide the working capital needed to continue and expand operations, the Company’s management has committed to a plan for increasing retail distribution channels for its products and raising additional capital. There can be no assurances, however, that the Company will be able to obtain the necessary funding to finance their operations or grow revenue in sufficient amounts to fund their operations.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

DEVELOPMENT STAGE COMPANY

The Company is considered a development stage company as it has no principal operations and minimal revenue. Operations from the Company's inception through September 30, 2009 were devoted primarily to strategic planning, raising capital and developing revenue-generating opportunities.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES (continued)

RECLASSIFICATION

Certain amounts on the financial statements at September 30, 2008 have been reclassified to conform to the current period presentation.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers financial instruments with a maturity date of three months or less from the date of purchase to be cash equivalents. The Company had no cash equivalents at September 30, 2009 and June 30, 2009.

ACCOUNTS RECEIVABLE

The Company makes judgments about the collectibility of accounts receivable to be able to present them at their net realizable value on the balance sheet. Such judgments require careful analysis of the aging of customer accounts, consideration of why accounts have not been paid, and review of historical bad debt issues. From this analysis, the Company determines an estimated allowance for receivables that will ultimately become uncollectible. As of September 30, 2009 and June 30, 2009, the Company had an allowance for bad debts of \$26,059 and \$22,759 respectively.

INVENTORIES

The Company states inventories at the lower of cost or market. As of September 30, 2009 and June 30, 2009, inventories consisted of purchased finished goods, plus directly attributable acquisition costs. Cost of inventory is determined using the weighted average cost method. The Company assesses the need to establish inventory reserves for excess, obsolete or slow-moving inventory based on changes in customer demand, technology developments and other factors.

LONG-LIVED ASSETS AND OTHER INTANGIBLE ASSETS

The Company amortizes its intangible assets with finite lives over their respective estimated lives and requires that long-lived assets and certain intangible assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If undiscounted expected future cash flows are less than the carrying value of the assets, an impairment loss is to be recognized based on the fair value of the assets. There were no such impairment losses as of September 30, 2009 and June 30, 2009 respectively.

CONVERTIBLE DEBT

The Company accounts for its convertible debt by requiring the embedded beneficial conversion features present in its convertible securities to be valued separately at issuance and recognized and measured by allocating a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital.

REVENUE RECOGNITION

The Company recognizes revenue based on four basic criteria that must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectibility is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the fee charged for services rendered and products delivered and the collectibility of those fees.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES (continued)

DEFERRED REVENUE

The Company has entered into a four separate Master Distributorship Agreements with third-parties whereby the third-parties will market and sell WaterPure branded machines to customers and resellers. These third-parties have entered into purchase commitments for 2,750 units and have deposited \$137,500, which the Company will apply in \$50 increments towards each WaterPure atmospheric water machine sold and delivered within twenty-four months of the execution of the agreement. The Company has recorded the deposit as deferred revenue, and recognizes the revenue as each machine is sold. The Company has sold 32 of these machines and recognized \$400 in revenue for the three months ended September 30, 2009 and \$1,200 in revenue for the year ended June 30, 2009.

SHIPPING & HANDLING COSTS

Outbound shipping and handling costs are included in cost of goods sold in the accompanying statements of operations. These transactions costs were \$58 and \$419 for the three months ended September 30, 2009 and 2008, respectively.

INCOME TAXES

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Deferred tax liabilities and assets are determined based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Differences between the financial statement and tax basis of assets, liabilities, and other transactions did not result in a provision for current or deferred income taxes for the periods from July 22, 2005 (inception) through September 30, 2009.

CONCENTRATIONS OF CREDIT RISK

The Company's financial instruments that are exposed to a concentration of credit risk are cash and accounts receivable. The Company places its cash with a high credit quality institution. At September 30, 2009, the Company's cash balance on deposit did not exceed federal depository insurance limits. The Company routinely assesses the financial strengths of its customers and, as a result, believes that their accounts receivable, net of reserves, credit risk exposure is limited.

FAIR VALUE MEASUREMENT

The Company has partially implemented a framework for measuring fair value of financial assets and financial liabilities except as it relates to nonrecurring fair value measurements of nonfinancial assets and liabilities. The Company has determined that none of its financial assets or liabilities are measured at fair value on a recurring basis.

NET LOSS PER COMMON SHARE

The Company presents basic loss per share and, if applicable, diluted earnings per share. Basic earnings (loss) per share are calculated by dividing net income or loss by the weighted average number of common shares outstanding during each period. The effect of computing the diluted income (loss) per share is antidilutive and as such, basic and

diluted earnings (loss) per share are the same for the three month period ended September 30, 2009.

STOCK BASED COMPENSATION AND PAYMENTS

Share-based compensation issued to employees is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the grant). Share-based compensation issued to non-employees is measured at the grant date, based on the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more readily measurable, and is recognized as an expense over the requisite service period.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES (continued)

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board (“FASB”), launched the FASB Accounting Standards Codification (“ASC”) as the single source of authoritative U.S. GAAP recognized by the FASB. The ASC reorganizes various U.S. GAAP pronouncements into accounting topics and displays them using a consistent structure. All existing accounting standards documents are superseded as described in Statement of Financial Accounting Standard (“SFAS”) No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles. All of the contents of the ASC carry the same level of authority, effectively superseding SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles, which identified and ranked the sources of accounting principles and the framework for selecting the principles used in preparing financial statements in conformity with U.S. GAAP. Also included in the ASC are rules and interpretive releases of the SEC, under authority of federal securities laws that are also sources of authoritative U.S. GAAP for SEC registrants. The ASC is effective for interim and annual periods ending after September 15, 2009. The adoption of the ASC as of July 1, 2009 will have no impact on our financial statements other than changing the way specific accounting standards are referenced in our financial statements.

Effective July 1, 2009 the Company adopted Statement of Financial Accounting No. 157, Fair Value Measurements, (“SFAS No. 157”), which is now codified within ASC 820 Fair Value Measurements and Disclosures, for nonfinancial assets and liabilities that are measured at fair value on a non-recurring basis. Previous to July 1, 2009, SFAS No. 157 did not apply to such assets and liabilities. The adoption of SFAS No. 157 on July 1, 2009 for such assets and liabilities did not have an impact on our financial statements,

In May 2009, the FASB issued SFAS No. 165, Subsequent Events (“SFAS No. 165”), which is now codified within ASC 855 Subsequent Events. ASC 855 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. The adoption of this standard on July 1, 2009 required us to disclose the date through which we have evaluated subsequent events and whether that date is the date the financials were issued.

NOTE 4 – INTANGIBLE ASSETS - LICENSE

On December 7, 2007, the Company entered into licensing agreements with Everest Water LTD for the manufacturing and marketing rights to atmospheric water generators and mineral additive units. The Company agreed to pay \$300,000, plus 1,500,000 shares of the Company’s common stock valued at \$330,000 as consideration under this agreement. The Company paid \$50,000 with the execution of the agreement and an additional \$20,000 through July 31, 2008. On August 1, 2008, the Company and Everest Water LTD modified the payment terms of their licensing agreement, because the cash payment obligation under the original agreement could not be met by the Company. Under the amended payment terms, the Company cancelled the shares to be issued to Everest and agreed to pay Everest \$430,000 over 33 months starting September 1, 2008, plus 8% royalty payments with guarantee minimum payments as follows: \$50,000 in year one, \$60,000 in year two, \$70,000 in year three, \$90,000 in year four and \$100,000 each year after until the termination of the licensing agreement which coincides with the expiration of the last patent in August 2027. The Company has accounted for this modification as a troubled debt restructuring.

Edgar Filing: WaterPure International - Form 10-Q

The following table summarizes the various components of the Everest license as of September 30, 2009 and June 30, 2009:

	September 30, 2009	June 30, 2009
Cost of license described above	\$1,094,864	\$1,094,864
Less: accumulated amortization	119,126	102,643
License, net	\$975,738	\$992,221

Total amortization for the three months ended September 30, 2009 and 2008 was \$16,483 and \$13,242, respectively.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 4 – INTANGIBLE ASSETS – LICENSE (continued)

Contingencies - Royalties

Pursuant to the licensing agreement as described above, the Company will pay Everest Water LTD an 8% royalty payment with a guarantee minimum payment. The Company has recognized a liability of \$802,929, which represents the present value of the minimum royalty payments using the effective discount rate.

The Company has accounted for the modifications of the licensing agreement as a troubled debt restructuring, and has reflected the net carrying amount of the modified debt consistent with the carrying amount of the original troubled debt.

NOTE 5 – NOTES PAYABLE

The Company has a note payable with an accredited investor which accrues interest at 12% per annum and was originally due November 21, 2007. On November 15, 2007, the terms of the note were extended for an additional six months. This note is currently in default.

NOTE 6 – ADVANCES FROM OFFICERS AND SHAREHOLDERS

Officers and stockholders of the Company have provided various short-term working capital advances. During the three months ended September 30, 2009, repayments to officers and stockholders under these borrowing arrangements totaled \$15,565 and \$1,000, respectively. During the three months ended September 30, 2008, short-term working capital advances from officers and stockholders under this borrowing arrangement totaled \$3,979 and \$27,150, respectively. The Company does not intend to pay interest on the principal borrowed from officers and stockholders as the advances are intended to be short-term.

NOTE 7 – CONVERTIBLE DEBT

The Company entered into a Securities Purchase Agreement with accredited investors on May 21, 2007 for the issuance of an aggregate of \$50,000 of convertible notes. The convertible notes accrue interest at 12% per annum and are due two years from the date of the note. The note holder has the option to convert any unpaid note principal to the Company's common stock at a rate of \$0.25 per share. During the year ended June 30, 2007, the Company recorded a debt discount of \$18,750 on the debt, representing the intrinsic value of the beneficial conversion features based upon the difference between the fair value of the underlying common stock at the commitment date and the effective conversion price embedded in the debt. The Company determined the commitment date of the loans to be the date of the agreement.

The Company entered into another Securities Purchase Agreement with accredited investors on July 30, 2008 for the issuance of an aggregate of \$50,000 of convertible notes. The convertible notes accrue interest at 8% per annum and are due one year from the date of the note. The note holders have the option to convert any unpaid note principal to the Company's common stock at a 30% discount to the average five day stock price prior to conversion. During the year ended June 30, 2009, the Company recorded a debt discount of \$15,000 on the debt, representing the intrinsic value of the beneficial conversion features based upon the difference between the fair value of the underlying common stock at the commitment date and the effective conversion price embedded in the debt. The Company determined the commitment date of the loans to be the date of the agreement.

The Company entered into a Securities Purchase Agreement with accredited investors on November 18, 2008 for the issuance of an aggregate of \$10,000 of convertible notes. The convertible notes accrue interest at 12% per annum and are due one year from the date of the note. The note holder has the option to convert any unpaid note principal to the Company's common stock at a rate of \$0.005 per share. During the year ended June 30, 2009, the Company recorded a debt discount of \$7,500 on the debt, representing the intrinsic value of the beneficial conversion features based upon the difference between the fair value of the underlying common stock at the commitment date and the effective conversion price embedded in the debt. The Company determined the commitment date of the loans to be the date of the agreement.

WATERPURE INTERNATIONAL, INC.
 (A DEVELOPMENT STAGE COMPANY)
 NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 8 - STOCKHOLDERS' EQUITY

During the three months ended September 30, 2009, the Company sold 10,000,000 shares in private placements of its common stock for a total of \$50,000. The fair value of the shares was determined based on the closing market price of the shares at the date of the agreements.

During the three months ended September 30, 2009, the Company issued 800,000 shares of its common stock for consulting services totaling \$11,000.

NOTE 9 – STOCK OPTIONS

At the time of inception (July 22, 2005), the Company issued 125,000 options to purchase its common shares to one of its consultants for services rendered. The exercise price was \$0.0025, the options were immediately exercisable, and expired five years from the grant date. These options were exercised on August 29, 2007.

During the year ended June 30, 2007, the Company issued 500,000 options to purchase its common shares to one of its executive officers. The exercise price is \$0.55, which was the price of the Company's common stock on the grant date. The options are immediately exercisable and expire five years from the grant date. The fair value of the options was estimated at the date of grant using the Black-Scholes option price model.

During the year ended June 30, 2008, the Company issued 100,000 options to purchase its common shares to one of its executive officers. The exercise price is \$0.07, which was the price of the Company's common stock on the grant date. The options are immediately exercisable and expire five years from the grant date. The fair value of the options was estimated at the date of grant using the Black-Scholes option price model. The Company determined that the stock option compensation was \$6,845 and was recognized during the year ended June 30, 2008.

During the year ended June 30, 2008, the Company also issued 3,000,000 options to purchase its common shares to one of its executive officers. The exercise price was \$0.10, which was a discount to the price of the Company's common stock of \$0.20 on the grant date. The options are immediately exercisable and expire five years from the grant date. The fair value of the options was estimated at the date of grant using the Black-Scholes option price model. The Company determined that the stock option compensation was \$576,092 and was recognized during the year ended June 30, 2008.

During the year ended June 30, 2009, the Company issued 100,000 options to purchase its common shares to one of its executive officers. The exercise price is \$0.015, which was the price of the Company's common stock on the grant date. The options are immediately exercisable and expire five years from the grant date. The fair values of the options were estimated at the date of grant using the Black-Scholes option price model. The Company determined that the stock option compensation was \$1,492 and was recognized during the year ended June 30, 2009.

To determine the fair value of the options granted, the Company used the following assumptions in its Black-Scholes option-price calculations:

Issue date	June 30, 2007	January 1, 2008	June 30, 2008	June 30, 2009
------------	------------------	--------------------	------------------	------------------

Edgar Filing: WaterPure International - Form 10-Q

Options issued	500,000		3,000,000		100,000		100,000	
Risk-free interest rate	5	%	3	%	3	%	3	%
Expected option life	5 years		5 years		5 years		5 years	
Dividend yield	0	%	0	%	0	%	0	%
Volatility	120	%	157	%	194	%	290	%
Exercise price	\$0.55		\$0.10		\$0.07		\$0.015	

13

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 9 – STOCK OPTIONS (continued)

These assumptions were determined as follows:

- The risk free interest rate for the period within the contractual life of the option is based on the 5-year U.S. Treasury yield at the time of the grant.
- The expected term of the options granted represents the period of time that the options granted are expected to be outstanding.
- Historically, the Company has not paid a dividend on its common shares and does not expect to do so in the future.
- The volatility assumption represents an expectation of the volatility of the price of the underlying shares for the expected term of the option, considering factors such as historical stock price and stock volatility of other companies within the industry.

The following is a summary of the status of stock option activity for the period from inception (July 22, 2005) through September 30, 2009:

	Options	Weighted Average Exercise Price
Outstanding as of July 22, 2005 (inception)	-	\$ -
Granted	125,000	0.0025
Exercised	-	-
Forfeited	-	-

Exercised	125,000	0.0025
Forfeited	-	-
Expired	-	-
Outstanding as of June 30, 2008	3,600,000	\$ 0.1610
Granted	100,000	.0150
Exercised	-	-
Forfeited	-	-
Expired	-	-

Edgar Filing: WaterPure International - Form 10-Q

Outstanding as of June 30, 2009	3,700,000	\$	0.1577
Granted	-		-
Exercised	-		-
Forfeited	-		-
Expired	-		-
Outstanding as of September 30, 2009	3,700,000	\$	0.1577

125,000 options were exercised and \$313 was received from the exercise of options for the year ended June 30, 2008.

No options were exercised and no funds were received from the exercise of options during the three-month period ended September 30, 2009 and 2008 respectively.

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 10 - RELATED PARTY TRANSACTIONS

LEASE

The Company subleases its office space from Stein, Feldman and Sampson, LLC, of which, Mr. Orr, the Company's Chief Financial Officer is affiliated, for \$500 per month on a month-to-month basis.

DUE TO OFFICERS AND STOCKHOLDERS

During the three-months ended September 30, 2009 and September 30, 2008, the Company received advances, made repayments, and had amounts due to officers and stockholders as disclosed in Note 6.

NOTE 11 - INCOME TAXES

The Company recognizes the impact of tax positions in the financial statements if they are more likely than not of being sustained upon examination, based on the technical merits of the position. The Company has a valuation allowance against the full amount of its net deferred tax assets. The Company currently provides a valuation allowance against deferred tax assets when it is more likely than not that some portion, or all of its deferred tax assets, will not be realized. The Company's management has determined that the Company has no uncertain tax positions requiring recognition as of September 30, 2009.

The Company is subject to U.S. federal income tax as well as income tax of certain state jurisdictions. The Company has not been audited by the I.R.S. or any states in connection with income taxes. The periods from inception – 2008 remain open to examination by the I.R.S. and state authorities.

The Company recognizes interest accrued related to unrecognized tax benefits in interest expense. Penalties, if incurred, are recognized as a component of tax expense.

NOTE 12 – COMMITMENTS

The Company's executive offices are located in Plymouth Meeting, PA. The rent for the office space is \$500 a month, and the Company rents the space on a month-to-month basis.

In June 2007, the Company opened a regional operations center in Florida to accommodate administrative, sales and customer relations' personnel. The Company entered into a month-to-month lease for \$ 543 per month.

The Company owes Everest \$430,000 to be paid over 33 months starting September 1, 2008, and 8% royalty payments with guarantee minimum payments as follows: \$50,000 year one, \$60,000 year two, \$70,000 year three, \$90,000 year four and \$100,000 each year after.

NOTE 13 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events through November 16, 2009, which is the date the accompanying financial statements were issued.

Edgar Filing: WaterPure International - Form 10-Q

On October 1, 2009, the Company received a \$40,000 deposit for the exclusive rights to sell the WaterPure Atmospheric Water Generators in the Country of Mexico.

On October 5, 2009, the Company received a \$10,000 deposit for the exclusive rights to sell the WaterPure Atmospheric Water Generators in the Country of Mexico.

15

WATERPURE INTERNATIONAL, INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO FINANCIAL STATEMENTS (UNAUDITED) - CONTINUED

NOTE 13 – SUBSEQUENT EVENTS (continued)

On October 22, 2009, the Company entered into a Securities Purchase Agreement (the “Purchase Agreement”) with Mayim Tahor, LLC (“Mayim”) providing for the sale by the Company to Mayim of up to 100 shares of the Company’s series A convertible preferred stock (the “Series A Preferred Stock”) at a price of \$2,500 per share of Series A Preferred Stock. Mayim purchased 30 shares of Series A Preferred Stock on October 22, 2009 for \$75,000. The Company has the right to require Mayim to purchase up to an additional 70 shares of Series A Preferred Stock at any time at a price of \$2,500 per share, with a maximum of 20 shares of Series A Preferred Stock per put notice from the Company to Mayim.

Each share of Series A Preferred Stock has a stated value of \$2,500 (the “Stated Value”), is entitled to a cumulative dividend of six percent (6%) of the Stated Value per annum, payable semi-annually. In addition, each share of Series A Preferred Stock is entitled to receive a royalty payment of \$0.16 for each atmospheric water generator sold by the Company.

Mayim may convert, at any time, shares of Series A Preferred Stock into the number of shares of common stock of the Company obtained by dividing the Stated Value by the Conversion Price then in effect. The conversion price is \$0.01, subject to adjustment.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations includes a number of forward-looking statements that reflect Management's current views with respect to future events and financial performance. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "estimate" and "continue," or similar words. Those statements include statements regarding the intent, belief or current expectations of us and members of our management team as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risk and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the Securities and Exchange Commission. Important factors currently known to Management could cause actual results to differ materially from those in forward-looking statements. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in the future operating results over time. We believe that our assumptions are based upon reasonable data derived from and known about our business and operations. No assurances are made that actual results of operations or the results of our future activities will not differ materially from our assumptions. Factors that could cause differences include, but are not limited to, expected market demand for our products, fluctuations in pricing for materials, and competition.

Overview

WaterPure International, Inc. was organized under the laws of the state of Florida on July 22, 2005 and conducts business as a marketer and manufacturer of Atmospheric Water Generators ("AWG"). Though originally structured as a marketing entity, we have now become a manufacturer of AWGs after licensing patents from Everest Corp. and developing our own new line of AWGs under those patents. This strategic decision has led to sales fluctuations due to allocation of resources to research and development in some of our previous operating periods.

We are a development stage company until the sale of these new products lead to recognition of significant revenue. We want to be identified as an environmentally sustainable business. Clean drinking water is becoming a scarce commodity as our population increases. Additionally, it is our goal, to utilize the intellectual property from Everest Corp. to become a leading worldwide manufacturer of AWGs based on the quality of our machines and our choice of distributors and marketing channels. Our future results are highly dependent upon the success of our efforts to manufacture and market our products and having the ability to attain and attract qualified personnel and adequate working capital.

In December 2007, we entered into two worldwide license agreements with Everest Water Ltd. for the manufacturing and marketing rights to advanced models of AWGs. One license is a non-exclusive license for a stand-alone water generator and the second license is an exclusive license for a mineral additive water generator process that will permit the addition of organic minerals, flavors and other additives to the water produced by the AWGs.

We previously purchased our products from a manufacturer in South Korea under an Original Equipment Manufacturer arrangement. However, we have chosen to discontinue our supply relationship with the Korean manufacturer, but we may reestablish the relationship at any time. Currently, we are selling a unit that we are manufacturing ourselves in Florida

Currently we have focused on completion of our final production model of our new AWG, the WaterCycletm. We have leased a 1,000 sq. ft. facility in Margate, Florida that is in close proximity to our supplier of sheet metal used to

build the new units. Our efforts to market the units after production have led to the signing of contracts with distributors in Florida, France, United Arab Emirates, the Cayman Islands and parts of Mexico. Also, rights of first refusal have been granted for Illinois, Venezuela and Colombia.

We have been engaged in the development of a new AWG “the Watercycle™”, in connection with the patent license we acquired from Everest Water Ltd. This new device utilizes ozone to eliminate microorganisms, increases water producing ability, has a more attractive appearance and uses fewer parts than the machines we are currently marketing. One model of the new AWG will also include an optional feature that will permit the user to add flavors and natural herbal additives, such as green tea. We have been marketing three models of AWGs from our existing inventory as well as new purchases from Liquid Air-Florida and have generated minimal revenues from operations.

We feel that the differentiations in the new AWG could help us capture a larger market segment in the future because of its design, features and worldwide respect for “Made in USA” products, especially after the past product problems with a variety of products manufactured overseas.

Results of Operations

For the Period from July 22, 2005 (Inception) through September 30, 2009

Since we were formed on July 22, 2005, we have earned approximately \$208,000 in revenues and have incurred a cumulative net loss since our inception of approximately \$5,072,000 through September 30, 2009. Operations from inception through September 30, 2009 were devoted primarily to strategic planning, raising capital and developing revenue-generating opportunities.

Liquidity and Capital Resources

To date, we have generated minimal revenues and have incurred operating losses in every quarter. We are a development stage company, have not generated significant revenues from operations and have incurred significant losses since inception. These factors among others raise substantial doubt about our ability to continue as a going concern.

As of September 30, 2009, we had a working capital deficiency of \$1,100,087. For the three months ended September 30, 2009, we had net cash outflow from operating activities of \$22,404. Cash provided by financing activities totaled \$25,935 for the three months ended September 30, 2009.

We do not have enough capital to support operations for the next 12 months. We anticipate we will need approximately \$2 million, consisting of approximately \$900,000 for manufacturing, \$200,000 for sales and marketing and \$600,000 for general and administrative expenses and working capital. An additional \$300,000 would be utilized for the production and execution of our marketing support program. We are currently seeking joint venture partners and equity financing to fund these expenditures, although we do not have any contracts or commitments for either at this time. We will have to raise additional funds to continue manufacturing our AWGs and, while we have been successful in doing so in the past, there can be no assurance that we will be able to do so in the future. Our continuation as a going concern for a period longer than the current fiscal year is dependent upon our ability to obtain necessary additional funds to continue operations and the attainment of profitable operations.

By adjusting our operations to the level of capitalization, and through short term loans from officers we believe we will have sufficient capital resources to meet projected cash flow deficits in the near term. However, if during that period, or thereafter, we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources, on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition.

We presently do not have any available credit, bank financing or other external sources of liquidity. Due to our brief history and historical operating losses, our operations have not been a source of liquidity. We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding.

We will still need additional capital in order to continue operations until we are able to achieve positive operating cash flow. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the trading price of our common stock and a downturn in the U.S. stock and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional

dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

We have financed our losses through the sale of our common stock, issuance of common stock for services in lieu of cash, and loans from officers and stockholders. During the three months ended September 30, 2009, we received the following capital infusions: \$50,000 from the sale of 10,000,000 shares of our common stock and loans from officers and stockholders totaling \$4,433 and \$0, respectively. In addition, during the three months ended September 30, 2009, in lieu of cash payments, we issued 800,000 shares of common stock valued at \$11,000 for services rendered. We do not intend to pay interest on the advances borrowed from officers and stockholders as the advances are intended to be short-term.

Our independent registered public accounting firm has issued a going concern paragraph in their Report of Independent Registered Public Accounting Firm on our consolidated financial statements for the fiscal year ended June 30, 2009 that states there is substantial doubt about our ability to continue as a going concern. The conditions that led to the going concern continue to exist as of September 30, 2009. Our ability to continue as a going concern is dependent on our ability to access capital through debt and equity funding as well as market and sell our various products.

Critical Accounting Policies

Our financial statements are prepared based on the application of accounting principles generally accepted in the United States of America. These accounting principles require us to exercise significant judgment about future events that affect the amounts reported throughout our financial statements. Actual events could unfold quite differently than our previous judgments had predicted. Therefore, the estimates and assumptions inherent in the financial statements included in this report could be materially different once those actual events are known. We believe the following policies may involve a higher degree of judgment and complexity in their application and represent critical accounting policies used in the preparation of our financial statements. If different assumptions or estimates were used, our financial statements could be materially different from those included in this report.

Revenue Recognition

We sell atmospheric water generators. Revenue from such product sales is recognized when persuasive evidence of an arrangement exists, delivery has occurred, the fee is fixed or determinable and collectibility is probable. At this time the earnings process is complete and the risks and rewards of ownership have transferred to the customer, which is generally when the goods are shipped and all our significant obligations have been satisfied.

Accounts Receivable

We must make judgments about the collectibility of our accounts receivable to be able to present them at their net realizable value on the balance sheet. To do this, we carefully analyze the aging of our customer accounts, try to understand why accounts have not been paid, and review historical bad debt problems. From this analysis, we record an estimated allowance for receivables that we believe will ultimately become uncollectible. As of September 30, 2009, we had an allowance for bad debts of \$26,059. We actively manage our accounts receivable to minimize our credit risks and believe that our current allowance for doubtful accounts is fairly stated.

Inventory Valuation

We make judgments about the ultimate realizability of our inventory in order to record our inventory at its lower of cost or market. These judgments involve reviewing current demand for our products in comparison to present inventory levels and reviewing inventory costs compared to current market values.

Recent Accounting Pronouncements

There are no accounting pronouncements not yet adopted that are expected to have a significant impact on us.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not required under Regulation S-K for “smaller reporting companies.”

ITEM 4. CONTROLS AND PROCEDURES

a) Evaluation of disclosure controls and procedures.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934 as of September 30, 2009. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on our evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as a result of the material weaknesses described below, our disclosure controls and procedures are not designed at a reasonable assurance level and are ineffective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is not accumulated nor communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The material weaknesses, which relate to internal control over financial reporting, that were identified are:

- a) We did not have sufficient personnel in our accounting and financial reporting functions. As a result, we were not able to achieve adequate segregation of duties and were not able to provide for adequate reviewing of the financial statements. This control deficiency, which is pervasive in nature, results in a reasonable possibility that material misstatements of the financial statements will not be prevented or detected on a timely basis;
- b) We did not maintain sufficient personnel with an appropriate level of technical accounting knowledge, experience, and training in the application of U.S. GAAP commensurate with our complexity and our financial accounting and reporting requirements. This control deficiency is pervasive in nature. Further, there is a reasonable possibility that material misstatements of the financial statements including disclosures will not be prevented or detected on a timely basis as a result; and
- c) We did not document or test our key controls over financial reporting in accordance with Section 404 of the Sarbanes Oxley Act of 2002. As a result, we cannot provide proper recording of the framework for our internal controls nor the results of such controls. There is a reasonable possibility that material misstatements of the financial statements including disclosures will not be prevented or detected on a timely basis without the ability to determine if our testing was properly conducted.

We are committed to improving our financial organization. As part of this commitment, we will create a segregation of duties consistent with control objectives and will look to increase our personnel resources and technical accounting expertise within the accounting function by the end of fiscal 2010 to resolve non-routine or complex accounting matters. In addition, when funds are available to the Company, which we expect to occur by the end of fiscal 2010, we will take the following action to enhance our internal controls: Hiring additional knowledgeable personnel with technical accounting expertise to further support the current accounting personnel at the Company, which management estimates will cost approximately \$75,000 per annum. We will engage outside consultants in the future as necessary in order to ensure proper treatment of non-routine or complex accounting matters. In addition, management is working to establish written procedures to document and test the key controls over financial reporting in accordance with Section 404 of the Sarbanes Oxley Act of 2002.

Management believes that hiring additional knowledgeable personnel with technical accounting expertise will remedy the following material weaknesses: (A) lack of sufficient personnel in our accounting and financial reporting functions to achieve adequate segregation of duties; and (B) insufficient personnel with an appropriate level of technical accounting knowledge, experience, and training in the application of US GAAP commensurate with our complexity and our financial accounting and reporting requirements.

Management believes that the hiring of additional personnel who have the technical expertise and knowledge with the non-routine or technical issues we have encountered in the past will result in both proper recording of these transactions and a much more knowledgeable finance department as a whole. Due to the fact that our accounting staff consists of a Chief Financial Officer and an accounting clerk, additional personnel will also ensure the proper segregation of duties and provide more checks and balances within the department. Additional personnel will also provide the cross training needed to support us if personnel turnover issues within the department occur. We believe this will greatly decrease any control and procedure issues we may encounter in the future.

We will continue to monitor and evaluate the effectiveness of our disclosure controls and procedures and our internal controls over financial reporting on an ongoing basis and are committed to taking further action and implementing additional enhancements or improvements, as necessary and as funds allow.

(b) Changes in internal control over financial reporting.

We regularly review our system of internal control over financial reporting and make changes to our processes and systems to improve controls and increase efficiency, while ensuring that we maintain an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities, and migrating processes.

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are currently not a party to any material legal proceedings or claims.
