VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Condensed Consolidated Financial Statements

The Condensed Consolidated Balance Sheet as of March 31, 2018, the Condensed Consolidated Statements of Earnings and Comprehensive Income for the thirteen weeks ended March 31, 2018 and April 1, 2017, and the Condensed Consolidated Statements of Cash Flows and Shareholders' Equity for the thirteen week periods then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of March 31, 2018 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2017. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 30, 2017 with the exception of the revenue recognition accounting policy which changed from adopting ASU 2014-09 and is discussed later within this footnote. The results of operations for the period ended March 31, 2018 are not necessarily indicative of the operating results for the full year.

Inventories

Approximately 37% and 37% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market as of March 31, 2018 and December 30, 2017. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured and finished goods. The excess of replacement cost of inventories over the LIFO value is approximately \$44,808 and \$43,727 at March 31, 2018 and December 30, 2017, respectively.

Inventories consisted of the following:

	March 31, December 30,	
	2018	2017
Raw materials and purchased parts	\$ 176,554	\$ 183,029
Work-in-process	20,197	30,671
Finished goods and manufactured goods	218,062	250,975
Subtotal	414,813	464,675
Less: LIFO reserve	44,808	43,727
	\$ 370,005	\$ 420,948

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

Earnings before income taxes and equity in earnings of nonconsolidated subsidiaries for the thirteen weeks ended March 31, 2018 and April 1, 2017, were as follows:

	Thirteen Weeks Ended	
	2018	2017
United States	\$41,765	\$35,424
Foreign	11,247	19,900
	\$53,012	\$55,324

The Company estimated and recognized provisional amounts at December 30, 2017 for the following aspect of the 2017 Tax Act:

Deemed Repatriation transition tax: The Deemed Repatriation transition tax ("Transition Tax") is a tax on unremitted foreign earnings of certain foreign subsidiaries, which subjected the Company's unremitted foreign earnings of approximately \$400,000 to tax at certain specified rates less associated foreign tax credits. The Company recorded a provisional Transition Tax obligation of \$9,890.

Indefinite reinvestment assertion: The Company's position is that unremitted foreign earnings subject to the Transition Tax are not indefinitely reinvested. The Company recorded a provisional amount of the deferred income taxes for foreign withholding taxes and U.S. state income taxes of \$10,373 and \$1,300, respectively. The Company also continues to gather additional information to determine its permanently reinvested position with respect to future foreign earnings.

No adjustments to these 2017 Tax Act amounts were recognized during the first quarter of 2018. However, the Company may adjust these provisional amounts in future quarters of 2018 after assessing additional implementation guidance as it becomes available.

Pension Benefits

The Company incurs expenses in connection with the Delta Pension Plan ("DPP"). The DPP was acquired as part of the Delta plc acquisition in fiscal 2010 and has no members that are active employees. In order to measure expense and the related benefit obligation, various assumptions are made including discount rates used to value the obligation, expected return on plan assets used to fund these expenses and estimated future inflation rates. These assumptions are based on historical experience as well as current facts and circumstances. An actuarial analysis is used to measure the expense and liability associated with pension benefits.

The components of the net periodic pension (benefit) expense for the thirteen weeks ended March 31, 2018 and April 1, 2017 were as follows:

	Thirteen Weeks Ended	
	2018	2017
Net periodic (benefit) expense:		
Interest cost	\$4,716	\$4,321
Expected return on plan assets	(6,114)	(4,877)
Amortization of actuarial loss	804	710

Net periodic expense (benefit) \$(594) \$154

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Stock Plans

The Company maintains stock based compensation plans approved by the shareholders, which provide that the Human Resource Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common stock. At March 31, 2018, 550,606 shares of common stock remained available for issuance under the plans.

Under the plans, the exercise price of each option equals the closing market price at the date of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the grant's fifth anniversary.

Expiration of grants is from seven to ten years from the date of grant. The Company's compensation expense (included in selling, general and administrative expenses) and associated income tax benefits related to stock options for the thirteen weeks ended March 31, 2018 and April 1, 2017, respectively, were as follows:

	Thirteen Weeks Ended	
	2018	2017
Compensation expense	\$1,090	\$1,289
Income tax benefits	273	496

Fair Value

The Company applies the provisions of Accounting Standards Codification 820, Fair Value Measurements ("ASC 820") which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The provisions of ASC 820 apply to other accounting pronouncements that require or permit fair value measurements. As defined in ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

ASC 820 establishes a three level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value.

Trading Securities: The assets and liabilities recorded for the investments held in the Valmont Deferred Compensation Plan of \$39,118 (\$39,091 at December 30, 2017) represent mutual funds, invested in debt and equity securities, classified as trading securities in accordance with Accounting Standards Codification 320, Accounting for Certain Investments in Debt and Equity Securities, considering the employee's ability to change investment allocation of their deferred compensation at any time.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company's ownership of shares in Delta EMD Pty. Ltd. (JSE:DTA) is also classified as trading securities. The shares are valued at \$1,954 and \$1,951 as of March 31, 2018 and December 30, 2017, respectively, which is the estimated fair value. Quoted market prices are available for these securities in an active market and therefore categorized as a Level 1 input.

Fair Value Measurement Using:				
Carrying Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
March 31, 2018				

Assets:

Trading Securities	\$41,072	\$41,072	\$	—	\$	—
--------------------	----------	----------	----	---	----	---

Fair Value Measurement Using:				
Carrying Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
December 30, 2017				

Assets:

Trading Securities	\$ 41,042	\$41,042	\$	—	\$	—
--------------------	-----------	----------	----	---	----	---

Comprehensive Income

Comprehensive income includes net earnings, currency translation adjustments, certain derivative-related activity and changes in net actuarial gains/losses from a pension plan. Results of operations for foreign subsidiaries are translated using the average exchange rates during the period. Assets and liabilities are translated at the exchange rates in effect on the balance sheet dates. Accumulated other comprehensive income (loss) consisted of the following at March 31, 2018 and December 30, 2017:

	Foreign Currency Translation Adjustments	Gain/(Loss) on Hedging Activities	Defined Benefit Pension Plan	Accumulated Other Comprehensive Loss	
Balance at December 30, 2017	\$ (171,399)	\$ 6,357	\$(113,980)	\$ (279,022)	
Current-period comprehensive income (loss)	3,256	(863)	—	2,393	
Balance at March 31, 2018	\$(168,143)	\$ 5,494	\$(113,980)	\$ (276,629)	
Revenue Recognition					

On December 31, 2017, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). The Company elected to use the modified retrospective approach for the adoption of the new revenue standard. The cumulative effect of initially applying the new revenue standard was recorded as an adjustment to the opening balance of retained earnings, which impacted the Condensed Consolidated Balance Sheet as follows:

Deferred income taxes	34,906	3,450	38,356
Retained earnings	1,954,344	9,771	1,964,115

The adoption of ASC 606 had the following impact on the Consolidated Balance Sheets and Consolidated Statements of Earnings for the thirteen weeks ended March 31, 2018:

Balance Sheet	As Reported	Balance Excluding ASC 606 Effects	Change
Assets			
Inventories	\$370,005	\$425,956	\$(55,951)
Prepaid expenses and other current assets	127,251	48,767	78,484
Liabilities and shareholders' equity			
Accrued expenses	92,651	87,626	5,025
Deferred income taxes	39,669	35,539	4,130
Retained earnings	1,996,474	1,983,096	13,378

Statement of Earnings

Net Sales	\$698,684	\$670,874	\$27,810
Operating Income	63,960	58,886	5,074

The Company determines the appropriate revenue recognition for our contracts by analyzing the type, terms and conditions of each contract or arrangement with a customer. Contracts with customers for all businesses are fixed-price with sales tax excluded from revenue, and do not include variable consideration. Discounts included in contracts with customers, typically early pay discounts, are recorded as a reduction of net sales in the period in which the sale is recognized. Contract revenues are classified as product when the performance obligation is related to the manufacturing of goods. Contract revenues are classified as service when the performance obligation is the performance of a service. Service revenue is primarily related to the Coatings segment.

Customer acceptance provisions exist only in the design stage of our products and acceptance of the design by the customer is required before the project is manufactured and delivered to the customer. The Company is not entitled to any compensation solely based on design of the product and does not recognize revenue associated with the design stage. There is one performance obligation for revenue recognition. No general rights of return exist for customers once the product has been delivered and the Company establishes provisions for estimated warranties. The Company does not sell extended warranties for any of its products.

Shipping and handling costs associated with sales are recorded as cost of goods sold. The Company elected to use the practical expedient of treating freight as a fulfillment obligation instead of a separate performance obligation and

ratably recognize freight expense as the structure is being manufactured, when the revenue from the associated customer contract is being recognized over time. With the exception of the Utility segment and the wireless communication structures product

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

line, the Company's inventory is interchangeable for a variety of each segment's customers. The Company elected the practical expedient to not disclose the partially satisfied performance obligation at the end of the period when the contract has an original expected duration of one year or less. In addition, the Company elected the practical expedient to not adjust the amount of consideration to be received in a contract for any significant financing component if payment is expected within twelve months of transfer of control of goods or services; the Company expects all consideration to be received in one year or less at contract inception.

Segment and Product Line Revenue Recognition

The global Utility segment revenues are derived from manufactured steel and concrete structures for the North America utility industry and offshore and other complex structures used in energy generation and distribution outside of the United States. Steel and concrete utility structures are engineered to customer specifications resulting in limited ability to sell the structure to a different customer if an order is canceled after production commences. The continuous transfer of control to the customer is evidenced either by contractual termination clauses or by our rights to payment for work performed to-date plus a reasonable profit as the products do not have an alternative use to the Company. Since control is transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment. For our steel and concrete utility and wireless communication structure product lines, we generally recognize revenue on an inputs basis, using total production hours incurred to-date for each order as a percentage of total hours estimated to produce the order. The completion percentage is applied to the order's total revenue and total estimated costs to determine reported revenue, cost of goods sold and gross profit. Production of an order, once started, is typically completed within three months. Revenue from the offshore and other complex structures business is also recognized using an inputs method, based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation. External sales agents are used in certain sales of steel and concrete structures; the Company has chosen to use the practical expedient to expense estimated commissions owed to third parties by recognizing them proportionately as the goods are manufactured.

The global ESS segment revenues are derived from the manufacture and distribution of engineered metal, composite structures and components for lighting and traffic and roadway safety, engineered access systems, and wireless communication. For the lighting and traffic and roadway safety product lines, revenue is recognized upon shipment or delivery of goods to the customer depending on contract terms, which is the same point in time that the customer is billed. For Access Systems, revenue is generally recognized upon delivery of goods to the customer which is the same point in time that the customer is billed. The wireless communication product line has large regional customers who have unique product specifications for communication structures. When the customer contract includes a cancellation clause that would require them to pay for work completed plus a reasonable margin if an order was canceled, revenue is recognized over time based on hours worked as a percent of total estimated hours to complete production. For the remaining wireless communication product line customers which do not provide a contractual right to bill for work completed on a canceled order, revenue is recognized upon shipment or delivery of the goods to the customer which is the same point in time that the customer is billed.

The global Coatings segment revenues are derived by providing coating services to customers' products, which include galvanizing, anodizing, and powder coating. Revenue is recognized once the coating service has been performed and the goods are ready to be picked up or delivered to the customer which is the same time that the customer is billed.

The global Irrigation segment revenues are derived from the manufacture of agricultural irrigation equipment and related parts and services for the agricultural industry and tubular products for industrial customers. Revenue recognition for the irrigation segment is generally upon shipment of the goods to the customer which is the same point

in time that the customer is billed. The remote monitoring subscription services are primarily billed annually and revenue is recognized on a straight-line basis over the subsequent twelve months.

Disaggregation of revenue by product line is disclosed in the Segment footnote. A breakdown by segment of revenue recognized over time and revenue recognized at a point in time for the thirteen weeks ended March 31, 2018 is as follows:

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

	Point in Time March 31, 2018	Over Time March 31, 2018
Utility Support Structures	\$—	\$209,859
Engineered Support Structures	207,194	8,722
Coatings	68,458	—
Irrigation	183,234	2,818
Other	18,399	—
Total	\$477,285	\$221,399

The Company's contract asset as of March 31, 2018 is \$95,209. This amount is included within prepaid expenses and other assets line item within current assets. The contract assets attributable to the cumulative effect from the adoption of the new revenue recognition guidance was \$51,507; the contract asset at December 30, 2017, attributable to the offshore and other complex structures product line, was \$16,165. Both steel and concrete utility customers are generally invoiced upon shipment or delivery of the goods to the customer's specified location and there are normally no up-front or progress payments. The offshore and complex steel structures business invoices customers a number of ways including advanced billings, progress billings, and billings upon shipment.

At March 31, 2018 and December 30, 2017, the contract liability for revenue recognized over time was \$6,301 and \$7,368. The contract liability is included in Accrued Expenses on the Condensed Consolidated Balance Sheets. During the quarter ended March 31, 2018, the Company recognized \$2,824 of revenue that was included in the liability as of December 30, 2017. The revenue recognized was due to applying advance payments received for projects completed during the quarter.

Hedging Activities

In the second quarter of 2016, the Company entered into a one-year foreign currency forward contract which qualified as a net investment hedge, in order to mitigate foreign currency risk on a portion of our investments denominated in British pounds. The forward contract had a notional amount to sell British pounds and receive \$44,000, and matured in May 2017. The realized gain of \$5,123 (\$3,150 after tax) has been deferred in other comprehensive income where it will remain until the Company's net investments in its British subsidiaries are divested. No ineffectiveness resulted from the hedge prior to its maturity.

In the third quarter of 2017, the Company entered into two six-month foreign currency forward contracts which qualified as net investment hedges, in order to mitigate foreign currency risk on our grinding media business that is denominated in both Australian dollars and British pounds. The Company announced its intention to divest of this business in August 2017 and regulatory approval in Australia was received at the end of March 2018. The forward contracts had a maturity date of January 2018 and a notional amount to sell British pounds and Australian dollars to receive \$24,059 and \$21,222, respectively. The two forward contracts matured at the end of January 2018 with a combined loss of \$2,671. As regulatory approval was still pending at maturity of the contracts, the Company chose to extend the Australian dollar contract through April 2018 which is the planned date of divestiture. The gain recorded on the contract extended through April at March 31, 2018 is \$792. No ineffectiveness has resulted from the hedge and the balance is recorded in the Consolidated Statement of Other Comprehensive Income within gain/(loss) on hedging activities. The gain/(loss) will be deferred in Other Comprehensive Income where it will remain until the grinding media business is divested in the second quarter of 2018.

In the first quarter of 2018, the Company entered into a steel hot rolled coil forward contract which qualified as a cash flow hedge of the variability in the cash flows attributable to future steel purchases. The forward contract has a notional amount of \$7,142 for the hedge of 1,500 short tons for each month from July 2018 to December 2018. The unrealized loss at March 31, 2018 is \$93 and is included in Accounts Payable on the Condensed Consolidated Balance Sheets. The balance is recorded in the Consolidated Statement of Other Comprehensive Income within gain/(loss) on hedging activities. The gain/(loss) will be recognized in the income statement when the hedged inventory is used in customer orders.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-9, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification ("ASC") 605, Revenue Recognition. Effective December 31, 2017, the Company adopted Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). The Company elected the modified retrospective approach for the adoption of the new revenue standard, resulting in a credit to retained earnings being recognized for \$9,771. The Company calculated the cumulative effect on revenue of approximately \$51,507 with \$13,121 of pre-tax operating income; these were customer orders for the steel utility, concrete utility, and wireless communication structures product lines at various stages of production at December 30, 2017.

In March 2017, the FASB issued ASU 2017-07, Presentation of Net Periodic Benefit Cost Related to Defined Benefit Plans, which amends the income statement presentation requirements for the components of net periodic benefit cost for an entity's defined benefit pension and post-retirement plans. The Company adopted this ASU in the first quarter of 2018, recognizing the DPP net periodic pension expense within Other income (expense). The Company also reclassified \$154 of DPP net periodic pension expense for first quarter 2017 out of selling, general, and administrative expense and into Other (expense).

In December 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash, which requires amounts generally described as restricted cash and restricted cash equivalents to be included within cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown in the statement of cash flows.

The Company adopted the ASU in the first quarter of 2018, recasting the beginning-of-period and end-of-period total cash and cash equivalent amounts on the statement of cash flows to include the £10,000 restricted cash account for the pension plan at December 31, 2016, thus reducing cash flows from operating activities by \$12,568 for the first quarter of 2017. The Company did not have any restricted cash at March 31, 2018 or December 30, 2017.

In August 2017, the FASB issued ASU 2017-12, Targeted Improvements to Accounting for Hedging Activities, which improves the financial reporting of hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results. ASU 2017-12 is effective for periods and fiscal years beginning after December 15, 2018. Early adoption is permitted for any interim period post issuance. The Company adopted this ASU in the first quarter of 2018, which did not have a material impact on the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Classification of Certain Cash Receipts and Cash Payments in the Statement of Cash Flows, which provides more specific guidance on cash flow presentation for certain transactions. ASU 2016-15 is effective for interim periods and fiscal years beginning after December 15, 2017, with early adoption permitted. The Company adopted this ASU in the first quarter of 2018, which did not have a material impact on the consolidated financial statements.

Recently Issued Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases, which provides revised guidance on leases requiring lessees to recognize a right-of-use asset and a lease liability for virtually all of their leases (other than leases that meet

the definition of a short-term lease). ASU 2016-02 is effective for interim and annual reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently evaluating the effect of adopting this new accounting guidance but expects the adoption will result in a significant increase in total assets and liabilities.

(Unaudited)

(2) ACQUISITIONS

On January 26, 2018, the Company acquired 60% of the assets of Torrent Engineering and Equipment ("Torrent") for \$4,800 in cash. Torrent operates in Indiana and is an integrator of prefabricated pump stations that involves designing high pressure water and compressed air process systems. Torrent has annual sales of approximately \$9,000. In the preliminary purchase price allocation, goodwill of \$3,922 and \$4,020 of customer relationships and other intangible assets were recorded. A portion of the goodwill is deductible for tax purposes. Torrent is included in the Irrigation segment and was acquired to expand the Company's water management capabilities. The Company expects to finalize the purchase price allocation in the second quarter of 2018.

On July 31, 2017, the Company purchased Aircon Guardrails Private Limited ("Aircon") for \$5,362 in cash, net of cash acquired, plus assumed liabilities. Aircon produces highway safety systems including guardrails, structural metal products, and solar structural products in India with annual sales of approximately \$10,000. In the purchase price allocation, goodwill of \$3,327 and \$2,109 of customer relationships and other intangible assets were recorded. Goodwill is not deductible for tax purposes. This business is included in the Engineered Support Structures segment and was acquired to expand the Company's geographic presence in the Asia-Pacific region. The purchase price allocation was finalized in the fourth quarter of 2017. Proforma disclosures were omitted as this business does not have a significant impact on the Company's financial results.

Acquisitions of Noncontrolling Interests

In March 2018, the Company acquired the remaining 10% of Valmont Industria e Commercio Ltda. that it did not own for \$5,510. As this transaction was for the acquisition of all of the remaining shares of consolidated subsidiaries with no change in control, they were recorded within shareholders' equity and as a financing cash flow in the Consolidated Statements of Cash Flows.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(3) ASSETS AND LIABILITIES HELD FOR SALE

During the first quarter of 2018, the Company received regulatory approval to sell Donhad, its grinding media business in Australia, which is reported in the Other segment. The grinding media business had pre-tax income/(loss) of (\$579) and \$2,086 for the thirteen weeks ended March 31, 2018 and April 1, 2017, respectively. The business is being sold because it does not fit the long-term strategic plans for the Company. The Company expects the sale to close during the second quarter of 2018. The expected proceeds from the sale are greater than its carrying value as of March 31, 2018. The grinding media business historical annual sales, operating profit, and net assets did not meet the quantitative thresholds for discontinued operations presentation. The carrying value of the assets and liabilities are separately presented within the captions "Assets held for sale" and "Liabilities held for sale" in the Condensed Consolidated Balance Sheet.

The assets and liabilities of the grinding media business as of March 31, 2018 are as follows:

Receivables, net	\$9,978
Inventories	16,155
Net property, plant, and equipment	14,013
Goodwill and intangible assets	27,607
Other assets	4,912
Total assets	\$72,665
Accounts payable	\$9,201
Accrued expenses	1,536
Deferred income taxes	2,223
Total liabilities	\$12,960
Net assets	59,705

(Dollars in thousands, except per share amounts)

(Unaudited)

(4) RESTRUCTURING ACTIVITIES

In February 2018, the Company decided upon certain regional restructuring activities (the "2018 Plan") of approximately \$10,000, primarily in the ESS segment. The Company expects to incur \$7,500 of pre-tax restructuring expenses in cost of sales and \$2,500 of pre-tax restructuring expense in SG&A in 2018. Within the \$10,000 are expected pre-tax asset impairments of approximately \$2,000.

The following pre-tax expense were recognized during the first quarter of 2018:

	ESS	Utility	Total
Severance	\$423	\$ —	\$423
Other cash restructuring expenses	—	772	772
Asset impairments/net loss on disposals	1,145	—	1,145
Total cost of sales	1,568	772	2,340
Severance	1,978	—	1,978
Other cash restructuring expenses	82	—	82
Total selling, general and administrative expenses	2,060	—	2,060
Consolidated total	\$3,628	\$ 772	\$4,400

Liabilities recorded for the restructuring plans and changes therein for the first quarter of fiscal 2018 were as follows:

	Balance at December 30, 2017	Recognized Restructuring Expense	Costs Paid or Otherwise Settled	Balance at March 31, 2018
Severance	\$ —	\$ 2,401	\$ (2,251)	\$ 150
Other cash restructuring expenses	1,216	772	(1,988)	—
Total	\$ 1,216	\$ 3,173	\$ (4,239)	\$ 150

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(5) GOODWILL AND INTANGIBLE ASSETS

Amortized Intangible Assets

The components of amortized intangible assets at March 31, 2018 and December 30, 2017 were as follows:

	March 31, 2018		
	Gross Carrying Amount	Accumulated Amortization	Weighted Average Life
Customer Relationships	\$ 191,117	\$ 126,168	13 years
Proprietary Software & Database	3,659	3,115	8 years
Patents & Proprietary Technology	6,748	4,115	11 years
Other	5,035	4,248	3 years
	\$ 206,559	\$ 137,646	
	December 30, 2017		
	Gross Carrying Amount	Accumulated Amortization	Weighted Average Life
Customer Relationships	\$ 200,810	\$ 131,062	13 years
Proprietary Software & Database	3,671	3,107	8 years
Patents & Proprietary Technology	6,693	3,999	11 years
Other	4,861	4,121	3 years
	\$ 216,035	\$ 142,289	

Amortization expense for intangible assets for the thirteen weeks ended March 31, 2018 and April 1, 2017, respectively was as follows:

Thirteen

Weeks

Ended

2018 2017

3,883 3,863

Estimated annual amortization expense related to finite lived intangible assets is as follows:

Estimated

Amortization

Expense

2018\$ 14,167

201912,986

202011,879

20219,796

20227,494

The useful lives assigned to finite lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(5) GOODWILL AND INTANGIBLE ASSETS (Continued)

Non-amortized intangible assets

Intangible assets with indefinite lives are not amortized. The carrying values of trade names at March 31, 2018 and December 30, 2017 were as follows:

	March 31, 2018	December 30, 2017	Year Acquired
Webforge	\$ 9,793	\$ 9,432	2010
Valmont SM	10,243	9,973	2014
Newmark	11,111	11,111	2004
Ingal EPS/Ingal Civil Products	7,985	7,690	2010
Shakespeare	4,000	4,000	2014
Other	17,495	22,647	
	\$ 60,627	\$ 64,853	

In its determination of these intangible assets as indefinite lived, the Company considered such factors as its expected future use of the intangible asset, legal, regulatory, technological and competitive factors that may impact the useful life or value of the intangible asset and the expected costs to maintain the value of the intangible asset. The Company expects that these intangible assets will maintain their value indefinitely. Accordingly, these assets are not amortized.

The Company's trade names were tested for impairment in the third quarter of 2017. The values of each trade name was determined using the relief-from-royalty method. Based on this evaluation, no trade names were determined to be impaired.

Goodwill

The carrying amount of goodwill by segment as of March 31, 2018 and December 30, 2017 was as follows:

	Engineered Support Structures Segment	Utility Support Structures Segment	Coatings Segment	Irrigation Segment	Other	Total
Gross Balance at December 30, 2017	\$ 170,076	\$ 90,248	\$ 76,696	\$ 19,778	\$ 15,814	\$ 372,612
Accumulated impairment losses	(18,670)	\$ —	(16,222)	\$ —	\$ —	\$(34,892)
Balance at December 30, 2017	\$ 151,406	\$ 90,248	\$ 60,474	\$ 19,778	\$ 15,814	\$ 337,720
Acquisitions	—	—	—	3,922	—	3,922
Assets held for sale	—	—	—	—	(16,420)	(16,420)
Foreign currency translation	1,984	402	(200)	(140)	606	2,652
Balance at March 31, 2018	\$ 153,390	\$ 90,650	\$ 60,274	\$ 23,560	\$ —	\$ 327,874

The Company's annual impairment test of goodwill was performed during the third quarter of 2017. As a result of that testing, the Company determined that its goodwill was not impaired, as the valuation of the reporting units exceeded their respective carrying values. The Company's offshore and other complex steel structures reporting unit with \$15,245 of goodwill, is the reporting unit that did not have a substantial excess of estimated fair value over its carrying value. The Company monitors the outlook for wind energy in Europe which would affect the sales demand assumptions in the five year

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(5) GOODWILL AND INTANGIBLE ASSETS (Continued)

impairment model for this reporting unit. If demand for off and onshore structures for wind energy declines significantly and recent increases to oil prices do not drive demand for new exploration structures, the Company may be required to perform an interim goodwill impairment test. The Company continues to monitor changes in global market conditions, including commodity prices, which could impact future results of any of its reporting units.

(6) CASH FLOW SUPPLEMENTARY INFORMATION

The Company considers all highly liquid temporary cash investments purchased with an original maturity of three months or less at the time of purchase to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the thirteen weeks ended March 31, 2018 and April 1, 2017 were as follows:

	2018	2017
Interest	\$ 439	\$ 925
Income taxes	2,912	1,898

(7) EARNINGS PER SHARE

The following table provides a reconciliation between Basic and Diluted earnings per share (EPS):

	Basic EPS	Dilutive Effect of Stock Options	Diluted EPS
Thirteen weeks ended March 31, 2018:			
Net earnings attributable to Valmont Industries, Inc.	\$39,281	\$ —	\$39,281
Shares outstanding (000 omitted)	22,609	187	22,796
Per share amount	\$1.74	\$ (0.02)	\$1.72
Thirteen weeks ended April 1, 2017:			
Net earnings attributable to Valmont Industries, Inc.	\$38,979	\$ —	\$38,979
Shares outstanding (000 omitted)	22,472	188	22,660
Per share amount	\$1.73	\$ (0.01)	\$1.72

At March 31, 2018, there were 147,554 outstanding stock options with exercise prices exceeding the market price of common stock that were excluded from the computation of diluted earnings per share.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(8) BUSINESS SEGMENTS

In the fourth quarter of 2017, the Company's management structure and reporting was changed to reflect management's expectations of the future growth of certain product lines and to take into consideration the expected divestiture of the grinding media business which historically was reported in the Energy and Mining segment. Grinding media will be reported in "Other" pending the completion of its divestiture. The access systems applications product line is now part of the Engineered Support Structures ("ESS") segment and the offshore and other complex structures product line is now part of the Utility segment. The segment financial information have been accordingly reclassified in this report to reflect these changes, for all periods presented.

The Company has four reportable segments based on its management structure. Each segment is global in nature with a manager responsible for segment operational performance and the allocation of capital within the segment. Net corporate expense is net of certain service related expenses that are allocated to business units generally on the basis of employee headcounts.

Reportable segments are as follows:

ENGINEERED SUPPORT STRUCTURES: This segment consists of the manufacture and distribution of engineered metal and composite structures and components for lighting, traffic, and wireless communication markets, engineered access systems, and highway safety products;

UTILITY SUPPORT STRUCTURES: This segment consists of the manufacture of engineered steel and concrete structures for the global utility transmission, distribution, and generation applications and on and offshore and other complex steel structures used in energy generation and distribution outside the United States, and inspection services;

COATINGS: This segment consists of galvanizing, anodizing and powder coating services; and

IRRIGATION: This segment consists of the manufacture of agricultural irrigation equipment, parts, services and tubular products and technology for precision agriculture.

In addition to these four reportable segments, the Company had other businesses and activities that individually are not more than 10% of consolidated sales, operating income or assets. This includes the manufacture of forged steel grinding media for the mining industry and is reported in the "Other" category.

The Company evaluates the performance of its business segments based upon operating income and invested capital. The Company does not allocate LIFO expense, interest expense, non-operating income and deductions, or income taxes to its business segments.

VALMONT INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

(Unaudited)

(9) GUARANTOR/NON-GUARANTOR FINANCIAL INFORMATION

The Company has three tranches of senior unsecured notes. All of the senior notes are guaranteed, jointly, severally, fully and unconditionally (subject to certain customary release provisions, including sale of the subsidiary guarantor, or sale of all or substantially all of its assets) by certain of the Company's current and future direct and indirect domestic and foreign subsidiaries (collectively the "Guarantors"), excluding its other current domestic and foreign subsidiaries which do not guarantee the debt (collectively referred to as the "Non-Guarantors"). All Guarantors are 100% owned by the parent company.

Consolidated financial information for the Company ("Parent"), the Guarantor subsidiaries and the Non-Guarantor subsidiaries is as follows:

CONDENSED CONSOLIDATED STATEMENTS OF EARNINGS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's discussion and analysis contains forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on assumptions that management has made in light of experience in the industries in which the Company operates, as well as management's perceptions of historical trends, current conditions, expected future developments and other factors believed to be appropriate under the circumstances. These statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Management believes that these forward looking statements are based on reasonable assumptions. Many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward looking statements. These factors include, among other things, risk factors described from time to time in the Company's reports to the Securities and Exchange Commission, as well as future economic and market circumstances, industry conditions, company performance and financial results, operating efficiencies, availability and price of raw materials, availability and market acceptance of new products, product pricing, domestic and international competitive environments, and actions and policy changes of domestic and foreign governments.

This discussion should be read in conjunction with the financial statements and notes thereto, and the management's discussion and analysis included in the Company's Annual Report on Form 10-K for the fiscal year ended December 30, 2017. Segment net sales in the table below and elsewhere are presented net of intersegment sales. See Note 8 of our consolidated financial statements for additional information on segment sales and intersegment sales.

Overview

On a consolidated basis, the increase in net sales in the first quarter of fiscal 2018, as compared with the first quarter of fiscal 2017, reflected higher sales in all reportable segments with the exception of Other. The changes in net sales in the first quarter of fiscal 2018, as compared with fiscal 2017, is as follows:

	First quarter					
	Total	ESS	Utility	Coatings	Irrigation	Other
Sales - 2017	\$637.5	\$193.1	\$200.1	\$ 59.3	\$ 165.4	\$19.6
Volume	9.4	6.5	(10.9)	2.9	15.2	(4.3)
Pricing/mix	31.6	3.6	16.8	5.2	3.6	2.4
Acquisitions	4.6	3.7	—	—	0.9	—
Currency translation	15.6	9.0	3.9	1.1	0.9	0.7
Sales - 2018	\$698.7	\$215.9	\$209.9	\$ 68.5	\$ 186.0	\$18.4

Volume effects are estimated based on a physical production or sales measure. Since products we sell are not uniform in nature, pricing and mix relate to a combination of changes in sales prices and the attributes of the product sold. Accordingly, pricing and mix changes do not necessarily directly result in operating income changes. On the first day of fiscal 2018, the Company was required to adopt new revenue recognition guidance. Within the Utility Support Structures segment, the steel and concrete product lines now recognize revenue over time whereas in 2017 and years prior, their revenue was recognized at a point in time, which was typically upon product delivery to the customer. The estimated impact of the adoption of ASC 606 in the first quarter of 2018 was an increase in sales of approximately \$27.8 million and an increase in operating income of approximately \$5.1 million primarily in the Utility segment. It is not practical to estimate the sales volumes attributable to the adoption of ASC 606 so it is not a separate line item in the table above. Information on the adoption of the new revenue standard can be found under Critical Accounting Policies starting on page 40.

Average steel index prices for both hot rolled coil and plate were higher in North America and China in the first quarter of 2018, as compared to 2017, resulting in higher average cost of material. We expect that average selling prices will increase over time to offset the decrease in gross profit realized from the higher cost of steel for the Company.

The Company acquired a highway business in India ("Aircon") in the third quarter of 2017 that is included in our ESS segment. The Company acquired a majority interest in the assets of Torrent Engineering and Equipment ("Torrent") in the first quarter of 2018 that is included in our Irrigation segment.

Restructuring Plan

In February 2018, the Company announced a restructuring plan related to certain operations in 2018, primarily in the ESS segment, through consolidation and other cost-reduction activities (the "2018 Plan"). The Company incurred pre-tax expenses from the 2018 Plan of \$4.4 million in the first quarter of 2018. The ESS segment incurred \$3.6 million and the Utility segment incurred \$0.8 million of restructuring expenses during the first quarter of 2018.

Currency Translation

In the first quarter of fiscal 2018, we realized an increase in operating profit, as compared with fiscal 2017, due to currency translation effects. The U.S. dollar primarily weakened against the Chinese yuan, and the euro, resulting in more operating profit in U.S. dollar terms. The breakdown of this effect by segment was as follows:

	Total	ESS	Utility	Coatings	Irrigation	Other	Corporate
First quarter	\$ 0.4	\$ -0.1	\$ 0.2	\$ 0.1	\$ -	—	—

Gross Profit, SG&A, and Operating Income

At a consolidated level, the reduction in gross margin (gross profit as a percent of sales) in the first quarter of 2018, as compared with the same period in 2017, was primarily due to higher raw material prices across most of our businesses. Gross profit was higher in the first quarter of 2018, as compared to 2017, due to increased sales volumes in most operating segments. All reportable operating segments realized increases in gross profit or were consistent in the first quarter of 2018 as compared to 2017.

The Company saw an increase in SG&A in the first quarter of fiscal 2018, as compared to the same period in 2017, primarily due to currency translation effects of \$2.2 million and restructuring costs incurred of \$2.0 million.

In the first quarter of 2018, as compared to 2017, operating income was higher for the Irrigation and Coatings segments, but lower for the remaining operating segments. The overall decrease in operating income in the first quarter of 2018, as compared to the same period in 2017, is primarily attributable to restructuring costs incurred.

Net Interest Expense and Debt

Net interest expense in the first quarter of 2018, as compared to 2017, was consistent due to minimal changes in short and long-term borrowings. Interest income increased due to improved returns on cash invested.

Other Income/Expense

The change in other income/expense in the first quarter of 2018, as compared with the same period in 2017, was primarily due to a change in valuation of deferred compensation assets. The Company had a \$1.4 million gain in first quarter 2017 versus a small loss in first quarter 2018. The remaining change was due to less favorable foreign currency transaction gains/losses due to changes in foreign currency exchange rates.

Income Tax Expense

Our effective income tax rate in the first quarter of 2018 was 23.6%, compared to 27.8% in the first quarter of 2017. The rate reduction can be attributed to the Tax Cuts and Jobs Act of 2017 (the "2017 Tax Act") that reduced the Company's statutory federal corporate income tax rate from 35% to 21% at the beginning of 2018.

Earnings attributable to noncontrolling interests was higher in the first quarter of 2018, as compared to 2017, due to improved earnings for our majority-owned irrigation businesses.

Cash Flows from Operations

Our cash flows provided by operations was \$33.0 million in the first quarter of fiscal 2018, as compared with \$23.4 million provided by operations in the first quarter of 2017. The increase in operating cash flow in the first quarter of fiscal 2018, as compared with 2017, was primarily the result of lower pension plan contributions that was partially offset by higher net working capital changes.

ESS segment

The increase in sales in the first quarter of 2018, as compared with the same period in 2017, was primarily due to higher roadway product sales volumes, higher sales pricing for most businesses due to higher costs of steel, and \$9.0 million of favorable currency translation effects.

Global lighting and traffic, and roadway product sales in the first quarter of 2018 were \$19.6 million higher as compared to the same periods in fiscal 2017, primarily due to increased sales volumes. In the first quarter of 2018, as compared to 2017, sales volumes in North America were higher across commercial and transportation markets. Both sales volumes and pricing in Europe contributed to higher sales in the first quarter of 2018, as compared to 2017, along with favorable currency translation effects as the value of the euro appreciated against the U.S. dollar. Sales volumes in Asia-Pacific were lower primarily due to lower domestic demand in China that was partially offset by currency translation effects. Roadway product sales increased significantly in 2018, as compared to 2017, due to higher demand in Australia and the acquisition of Aircon in the third quarter of 2017.

Communication product line sales were \$2.6 million higher in the first quarter of 2018, as compared with 2017. In North America, communication structure and component sales increased due to higher demand from the continued network expansion by providers. In Asia-Pacific, sales volumes decreased due to lower domestic demand in China but was partially offset by currency translation effects.

Access Systems product line net sales in the first quarter of 2018, as compared to the first quarter of 2017, were \$2.3 million lower primarily attributed to lower sales volumes in Asia due to less large project work. The decrease in sales volumes were partially offset by currency translation effects.

Gross profit, as a percentage of sales, and operating income for the segment were lower in the first quarter of 2018, as compared to 2017, primarily due to restructuring costs incurred in 2018. The segment incurred \$1.6 million of restructuring costs within product cost of sales and \$2.0 million within SG&A. SG&A spending was higher in the first quarter of 2018, as compared to 2017, due to restructuring costs incurred in 2018 and foreign currency translation effects.

Utility segment

In the Utility segment, sales increased in the first quarter of 2018, as compared with 2017, due primarily to the higher cost of steel. A number of our sales contracts contain provisions that tie the sales price to published steel index pricing at the time our customer issues their purchase order. Sales volumes in tons for concrete and steel utility structures in North America were lower in the first quarter of 2018, as compared to the same period in 2017. The Company adopted new revenue recognition guidance effective the first day of fiscal 2018; steel and concrete reported sales for first quarter of 2017 were recognized upon delivery to customers (point in time) whereas reported revenue for first quarter of 2018 is based on progress of production on customer orders (over time).

Offshore and other complex structures sales decreased \$3.5 million in the first quarter of 2018, as compared to 2017, due primarily to lower volumes that were partially offset by a \$3.9 million positive effect from currency translation. Gross profit as a percentage of sales decreased in the first quarter of 2018, as compared to 2017, due to lower sales volumes and restructuring costs incurred of \$0.8 million. SG&A expense was higher in the first quarter of 2018, as compared with 2017, due to higher compensation related costs. Excluding restructuring expenses, operating income decreased slightly in the first quarter of 2018, as compared with 2017, due to the lower sales volumes.

Coatings segment

Coatings segment sales increased in the first quarter of 2018, as compared to the same period in 2017, due primarily to increased sales prices to recover higher zinc costs globally and higher sales volumes. Sales pricing and sales volumes increased in North America in the first quarter of 2018, as compared to 2017. In the Asia-Pacific region, improved demand in Australia along with overall higher sales pricing provided an increase in net sales.

SG&A expense was higher in the first quarter of 2018, as compared to 2017, due to higher compensation costs related to improved business operations and currency translation effects. Operating income was higher in the first quarter of 2018 compared to 2017, due to improved sales volumes and the associated operating leverage of fixed costs and favorable currency translation effects.

Irrigation segment

The increase in Irrigation segment net sales in the first quarter of 2018, as compared to 2017, was primarily due to sales volume increases for international irrigation. In North America, sales amounts were comparable between the years. Volume increases attributable to large projects primarily in the Middle East and Eurasia drove the sales increase internationally.

SG&A was lower in the first quarter of 2018, as compared to 2017. The decrease can primarily be attributed to reduced compensation related costs that are partially offset by operating expenses associated with the acquisition of Torrent in January 2018. Operating income for the segment increased in the first quarter of 2018 over the same period in 2017, primarily due to international irrigation sales volume increases.

Other

Grinding media sales decreased in the first quarter of 2018, as compared to the first quarter of 2017, due to lower sales volumes that were partially offset by higher sales pricing and favorable currency translation effects. Gross profit and operating income were lower in 2018, as compared to 2017, due to lower sales volumes and the associated operating deleverage of fixed costs.

LIFO expense

Steel index prices for both hot rolled coil, plate, and zinc in the U.S. increased at a higher rate in 2018, as compared to 2017, resulting in higher LIFO expense.

Net corporate expense

Corporate SG&A expense was higher in the first quarter of 2018, as compared to the same period in 2017, due to higher compensation related costs. This increase was offset by \$1.4 million of lower deferred compensation expenses that is offset by the same amount in other expense.

Liquidity and Capital Resources

Cash Flows

Working Capital and Operating Cash Flows-Net working capital was \$1,149.1 million at March 31, 2018, as compared to \$1,069.6 million at December 30, 2017. The increase in net working capital in 2018 mainly resulted from the increase in contract assets which is associated with our utility segment which recognized revenue over time and lower accounts payable. Cash flow provided by operations was \$33.0 million in the first quarter of 2018, as compared with \$23.4 million in first quarter of 2017. The increase in operating cash flow in the first quarter of 2018, as compared to 2017, was primarily the result of lower pension contributions that was partially offset by higher working capital.

Investing Cash Flows-Capital spending in the first three quarters of fiscal 2018 was \$16.2 million, as compared to \$14.2 million for the same period in 2017. We acquired 60% of Torrent in the first quarter of 2018 for \$4.8 million. Capital spending projects in 2018 and 2017 related to investments in machinery and equipment across all businesses. We expect our capital spending for the 2018 fiscal year to be approximately \$70 million.

Financing Cash Flows-Our total interest bearing debt was \$755.0 million at March 31, 2018 and December 30, 2017. Financing cash flows changed from a use of \$2.9 million in the first quarter of 2017 to a use of \$28.6 million in the first quarter of 2018. The increase in financing cash outflows in the first quarter of 2018, as compared to 2017, was primarily due to purchasing \$14.8 million of treasury shares under our share repurchase program and the purchase of certain noncontrolling interests totaling \$5.5 million in 2018.

Financing and Capital

We have an open \$250 million authorized share purchase program without an expiration date. The share purchases will be funded from available working capital and short-term borrowings and will be made subject to market and economic conditions. We are not obligated to make any share repurchases under the share repurchase program and we may discontinue the share repurchase program at any time. We acquired 101,387 treasury shares for approximately \$14.8 million under our share repurchase program during the first quarter of 2018. As of March 31, 2018, we have approximately \$117.4 million open under this authorization to repurchase shares in the future.

Our capital allocation philosophy announcement included our intention to manage our capital structure to maintain our investment grade debt rating. Our most recent rating were Baa3 by Moody's Investors Services, Inc. and BBB+ rating by Standard and Poor's Rating Services. We expect to maintain a leverage ratio which will support our current investment grade debt rating.

Our debt financing at March 31, 2018 is primarily long-term debt consisting of:

• \$250.2 million face value (\$252.7 million carrying value) of senior unsecured notes that bear interest at 6.625% per annum and are due in April 2020.

• \$250 million face value (\$248.9 million carrying value) of senior unsecured notes that bear interest at 5.00% per annum and are due in October 2044.

• \$250 million face value (\$246.8 million carrying value) of unsecured notes that bear interest at 5.25% per annum and are due in October 2054.

• We are allowed to repurchase the notes at specified prepayment premiums. All three tranches of these notes are guaranteed by certain of our subsidiaries.

At March 31, 2018 and December 30, 2017, we had no outstanding borrowings under our revolving credit agreement. The revolving credit agreement contains certain financial covenants that may limit our additional borrowing capability under the agreement. At March 31, 2018, we had the ability to borrow \$585.3 million under this facility, after consideration of standby letters of credit of \$14.7 million associated with certain insurance obligations and international sales commitments. We also maintain certain short-term bank lines of credit totaling \$113.1 million, \$112.9 million of which was unused at March 31, 2018.

Our senior unsecured notes and revolving credit agreement each contain cross-default provisions which permit the acceleration of our indebtedness to them if we default on other indebtedness that results in, or permits, the acceleration of such other indebtedness.

The debt agreements contain covenants that require us to maintain certain coverage ratios and may limit us with respect to certain business activities, including capital expenditures. The debt agreements allow us to add estimated EBITDA from acquired businesses for periods we did not own the acquired business. The debt agreements also provide for an adjustment to EBITDA, subject to certain limitations, for non-cash charges or gains that are non-recurring in nature. For 2018, our covenant calculations do not include any estimated EBITDA from acquired businesses.

Our key debt covenants are as follows:

• Leverage ratio - Interest-bearing debt is not to exceed 3.5X Adjusted EBITDA (or 3.75X Adjusted EBITDA after certain material acquisitions) of the prior four quarters; and

• Interest earned ratio - Adjusted EBITDA over the prior four quarters must be at least 2.5X our interest expense over the same period.

At March 31, 2018, we were in compliance with all covenants related to the debt agreements. The key covenant calculations at March 31, 2018 were as follows:

Interest-bearing debt	\$754,975
Adjusted EBITDA-last four quarters	353,978
Leverage ratio	2.13

Adjusted EBITDA-last four quarters	\$353,978
Interest expense-last four quarters	44,415
Interest earned ratio	7.97

The calculation of Adjusted EBITDA-last four quarters (April 2, 2017 through March 31, 2018) is as follows:

Net cash flows from operations	\$142,781
Interest expense	44,415
Income tax expense	103,314
Impairment of property, plant and equipment	(1,145)
Loss on investment	(238)
Deferred income tax benefit	(30,509)
Noncontrolling interest	(6,298)
Stock-based compensation	(10,987)
Pension plan expense	100
Contribution to pension plan	15,597
Changes in assets and liabilities	88,445
Other	4,103
EBITDA	349,578
Cash restructuring expenses	3,255
Impairment of property, plant and equipment	1,145
Adjusted EBITDA	\$353,978
Net earnings attributable to Valmont Industries, Inc.	\$116,542
Interest expense	44,415
Income tax expense	103,314
Depreciation and amortization expense	85,307
EBITDA	349,578
Cash restructuring expenses	3,255
Impairment of property, plant, and equipment	1,145
Adjusted EBITDA	\$353,978

Our businesses are cyclical, but we have diversity in our markets, from a product, customer and a geographical standpoint. We have demonstrated the ability to effectively manage through business cycles and maintain liquidity. We have consistently generated operating cash flows in excess of our capital expenditures. Based on our available credit facilities, recent issuance of senior unsecured notes and our history of positive operational cash flows, we believe that we have adequate liquidity to meet our needs.

We previously considered the earnings in our non-U.S. subsidiaries to be indefinitely reinvested and, accordingly, recorded no related deferred income taxes. Prior to the 2017 Tax Act, we had an excess of the amount for financial reporting over the tax basis in our foreign subsidiaries, including unremitted foreign earnings of approximately \$400 million. While the tax on these foreign earnings imposed by the 2017 Tax Act ("Transition Tax") resulted in the reduction of the excess of the amount for financial reporting over the tax basis in our foreign subsidiaries, an actual repatriation from our non-U.S. subsidiaries may still be subject to foreign withholding taxes and U.S. state income taxes.

As a result of the 2017 Tax Act, we have reassessed our position with respect to the approximately \$400 million of unremitted foreign earnings in our non-U.S. subsidiaries. We have taken the position that our previously deferred earnings in our non-U.S. subsidiaries that were subject to the Transition Tax are not indefinitely reinvested. Of our cash balances of \$479.7 million at March 31, 2018, approximately \$403.7 million is held in our non-U.S. subsidiaries. Consequently, with the change in our position on unremitted foreign earnings, if we distributed our foreign cash balances certain taxes would be applicable. Therefore at December 30, 2017, we recorded deferred income taxes for foreign withholding taxes and U.S. state income taxes of \$10.4 million and \$1.3 million, respectively. The Company's estimates and the overall impact of the 2017 Tax Act may change for various reasons including, but not limited to, changes in our interpretation and assumptions, additional guidance that may be issued by governing authorities, and tax planning actions we may undertake. We continue to

gather additional information to fully account for the 2017 Tax Act. Any updates and changes in the estimates will be communicated in future quarterly financial statements.

Financial Obligations and Financial Commitments

There have been no material changes to our financial obligations and financial commitments as described on page 35-36 in our Form 10-K for the fiscal year ended December 30, 2017.

Off Balance Sheet Arrangements

There have been no changes in our off balance sheet arrangements as described on page 36 in our Form 10-K for the fiscal year ended December 30, 2017.

Critical Accounting Policies

Other than revenue recognition as a result of our adoption of ASC 606 as described below, there were no other changes in our critical accounting policies as described on pages 37-41 in our Form 10-K for the fiscal year ended December 30, 2017 during the quarter ended March 31, 2018.

Revenue Recognition

Effective the first day of fiscal 2018, we adopted the requirements of Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). Please see note 1 to the consolidated financial statements for additional information on the new standard and the cumulative effect from the modified retrospective adjustment.

We determine the appropriate revenue recognition for our contracts by analyzing the type, terms and conditions of each contract or arrangement with a customer. We have no contracts with customers, under any product line, where we could earn variable consideration. With the exception of our Utility segment and the wireless communication structures product line, our inventory is interchangeable for a variety of the product line's customers. There is one performance obligation for revenue recognition. Our Irrigation and Coatings segments recognize revenue at a point in time, which is when the service has been performed or when the goods ship; this is the same time that the customer is billed. Lighting, traffic, highway safety, and access system product lines within the ESS segment recognize revenue and bill customers at a point in time, which is typically when the product ships or when it is delivered, as stipulated in the customer contract.

The following provides additional information about our contracts with utility and wireless communication structures customers, where the revenue is recognized over time, the judgments we make in accounting for those contracts, and the resulting amounts recognized in our financial statements.

Accounting for utility and wireless communication structures contracts: Steel and concrete utility and wireless communication structures are engineered to customer specifications resulting in limited ability to sell the structure to a different customer if an order is canceled after production commences. The continuous transfer of control to the customer is evidenced either by contractual termination clauses or by our rights to payment for work performed to-date plus a reasonable profit as the products do not have an alternative use to us. Since control is transferring over time, revenue is recognized based on the extent of progress towards completion of the performance obligation. We have certain wireless communication structures customers contracts where we do not have the right to payment for work performed. In those instances, we recognize revenue at a point in time which is time of shipment of the structure.

The selection of the method to measure progress towards completion requires judgment. For our steel and concrete utility and wireless communication structure product lines, we recognize revenue on an inputs basis, using total production hours incurred to-date for each order as a percentage of total hours estimated to produce the order. The completion percentage is applied to the order's total revenue and total estimated costs to determine reported revenue, cost of goods sold and gross profit. Our enterprise resource planning (ERP) system captures the total costs incurred to-date and the total production hours, both incurred to-date and forecast to complete. Revenue from the offshore and other complex steel structures business is also recognized using an inputs method, based on the cost-to-cost measure

of progress. Under the cost-to-cost measure of progress, the extent of progress towards completion is measured based on the ratio of costs incurred to date to the total estimated costs at completion of the performance obligation.

Management must make assumptions and estimates regarding manufacturing labor hours and wages, the usage and cost of materials, and manufacturing burden / overhead recovery rates for each production facility. For our steel, concrete and wireless communication structures, production of an order, once started, is typically completed within three months. Projected profitability on open production orders is reviewed and updated monthly. We elected the practical expedient to not disclose the partially satisfied performance obligation at the end of the period when the contract has an original expected duration of one year or less.

We also have a few steel structure customer orders in a fiscal year that require one or two years to complete, due to the quantity of structures. Burden rates and routed production hours, per structure, will be adjusted if and when actual costs incurred are significantly higher than what had been originally projected. This resets the timing of revenue recognition for future periods so it is better aligned with the new production schedule. For our offshore and other complex steel structures, we update the estimates of total costs to complete each order quarterly. Based on these updates, revenue in the current period may reflect adjustments for amounts that had been previously recognized. During the quarter ended March 31, 2018, there were no changes to inputs/estimates which resulted in adjustments to revenue for production that occurred prior to the beginning of the quarter. A provision for loss on the performance obligation is recognized if and when an order is projected to be at a loss, whether or not production has started.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There were no material changes in the company's market risk during the quarter ended March 31, 2018. For additional information, refer to the section "Risk Management" in our Form 10-K for the fiscal year ended December 30, 2017.

Item 4. Controls and Procedures

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports the Company files or submits under the Securities Exchange Act of 1934 is (1) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

No changes in the Company's internal control over financial reporting occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price paid per share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Maximum Number of Shares that may yet be Purchased under the Program (1)
December 31, 2017 to January 27, 2018	—	\$—	—	\$132,172,000
January 28, 2018 to March 3, 2018	34,589	146.22	34,589	127,114,000
March 4, 2018 to March 31, 2018	66,798	145.70	66,798	117,382,000
Total	101,387	\$145.87	101,387	\$117,382,000

(1) On May 13, 2014, we announced a new capital allocation philosophy which included a share repurchase program. Specifically, the Board of Directors authorized the purchase of up to \$500 million of the Company's outstanding common stock from time to time over twelve months at prevailing market prices, through open market or privately-negotiated transactions. On February 24, 2015, the Board of Directors authorized an additional purchase of up to \$250 million of the Company's outstanding common stock with no stated expiration date. As of March 31, 2018, we have acquired 4,689,518 shares for approximately \$632.6 million under this share repurchase program.

Item 5. Other Information

Submission of Matters to a Vote of Security Holders

Valmont's annual meeting of stockholders was held on April 24, 2018. The stockholders elected three directors to serve three-year terms, approved, on an advisory basis, a resolution approving Valmont's named executive officer compensation, approved the 2018 Stock Plan, and ratified the appointment of Deloitte & Touche LLP as independent auditors for fiscal 2018. For the annual meeting there were 22,708,426 shares outstanding and eligible to vote of which 21,394,184 were present at the meeting in person or by proxy. The tabulation for each matter voted upon at the meeting was as follows:

Election of Directors:

	For	Withheld	Broker Non-Votes
Daniel P. Neary	19,383,693	426,603	1,583,888
Theo Freye	19,627,341	182,955	1,583,888
Stephen G. Kaniewski	19,495,931	314,365	1,583,888

Advisory vote on executive compensation:

For	19,581,901
Against	207,309
Abstain	21,086
Broker non-votes	1,583,888

Approve Valmont 2018 Stock Plan:

For	19,076,535
Against	715,994
Abstain	17,767
Broker non-votes	1,583,888

Proposal to ratify the appointment of Deloitte & Touche LLP as independent auditors for fiscal 2018:

For	21,091,166
Against	260,023
Abstain	42,995

Compensatory Arrangements

At Valmont's annual stockholders meeting on April 24, 2018, the stockholders of Valmont approved the Valmont 2018 Stock Plan. The stock plan authorizes the issuance of stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, deferred stock units and other forms of stock-based compensation to officers and other employees of Valmont and its subsidiaries. The maximum number of shares of Valmont's common stock that may be issued under the stock plan is 1,700,000. The principal features of the plan are summarized on pages 32 to 38 of Valmont's proxy statement for the annual stockholders meeting held on April 24, 2018. The forgoing description and the proxy statement summary are qualified in their entirety by reference to the Valmont 2018 Stock Plan, filed as an Exhibit 10.1 to Valmont's Current Report on Form 8-K dated March 12, 2018.

Item 6. Exhibits

(a) Exhibits

Exhibit No. Description

<u>10.1</u>	2018 Stock Plan. This document was filed as Exhibit 10.1 to the Company's Current Report on Form 8-K (Commission file number 001-31429) dated March 12, 2018 and incorporated herein by this reference.
<u>10.2</u>	Form of 2018 Stock Plan Stock Option Agreement
<u>10.3</u>	Form of 2018 Stock Plan Restricted Stock Unit Agreement
<u>10.4</u>	Form of 2018 Stock Plan Restricted Stock Unit Agreement (Directors)
<u>31.1</u>	Section 302 Certificate of Chief Executive Officer
<u>31.2</u>	Section 302 Certificate of Chief Financial Officer
<u>32.1</u>	Section 906 Certifications of Chief Executive Officer and Chief Financial Officer
101	The following financial information from Valmont's Quarterly Report on Form 10-Q for the quarter ended March 31, 2018, formatted in XBRL (eXtensible Business Reporting Language): (i) the Condensed Consolidated Statements of Earnings, (ii) the Condensed Consolidated Statements of Comprehensive Income, (iii) the Condensed Consolidated Balance Sheets, (iv) the Condensed Consolidated Statements of Cash Flows, (v) the Condensed Consolidated Statements of Shareholders' Equity, (vi) Notes to Condensed Consolidated Financial Statements and (vii) document and entity information.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf and by the undersigned hereunto duly authorized.

VALMONT INDUSTRIES, INC.

(Registrant)

/s/ MARK C. JAKSICH

Mark C. Jaksich

Executive Vice President and Chief Financial Officer

Dated this 26th day of April, 2018.
