NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Description of Business and Summary of Significant Accounting Policies

Organization

MobiClear, Ltd. was founded in the United Kingdom on December 2, 2005. On August 14, 2006, all of the stock of MobiClear, Ltd. was acquired by MobiClear, Inc. (formerly known as BICO, Inc.) in a transaction which is accounted for as a reverse acquisition with MobiClear, Ltd. being treated as the acquiring company for accounting purposes and the transaction being treated as a recapitalization.

MobiClear specializes in electronic Personal Identification Verification (PIV) solutions in connection with credit/debit card transactions. MobiClear's multi-gateway solution (U.S. patent pending) offers proactive security in all forms of electronic business environments including internet shopping, business-to-business procurement transactions, and retail shopping with credit/debit cards. Going Concern

The Company's consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. Since its inception on December 2, 2005, the Company has not yet generated any significant revenues and has incurred operating losses totaling \$10,030,948. It is the Company's intention to raise additional equity to finance the further development of a market for its products until positive cash flows can be generated from its operations. However, there can be no assurance that such additional funds will be available to the Company when required or on terms acceptable to the Company. Such limitations could have a material adverse effect on the Company's business, financial condition, or operations, and these consolidated financial statements do not include any adjustment that could result. Failure to obtain sufficient additional funding would necessitate the Company to reduce or limit its operating activities or even discontinue operations.

Basis of Preparation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with Securities and Exchange Commission's instructions. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. The results of operations reflect interim adjustments, all of which are of a normal recurring nature and that, in the opinion of management, are necessary for a fair presentation of the results for such interim period. The results reported in these interim consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year. Certain information and note disclosure normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the Securities and Exchange Commission's rules and regulations. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2007.

These consolidated financial statements include the accounts of MobiClear, Inc. (formerly known as BICO, Inc.) and its wholly owned subsidiary, MobiClear Ltd. All significant inter-company balances and transactions have been eliminated.

Development Stage Enterprise

The Company has been in the development stage since its formation on December 2, 2005. Accordingly, the Company's financial statements are presented as a development-stage enterprise, as prescribed by Statement of Financial Accounting Standards No. 7 ("SFAS"), "Accounting and Reporting by Development Stage Enterprises."

Cash

Cash consists of checking accounts held at financial institutions in the United States and the United Kingdom. At times cash balances may exceed insured limits.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation, unless the estimated future undiscounted cash flows expected to result from either the use of an asset or its eventual disposition is less than its carrying amount, in which case an impairment loss is recognized based on the fair value of the asset.

Depreciation of property and equipment is based on the estimated useful lives of the assets and is computed using the straight-line method over three years. Repairs and maintenance are charged to expense as incurred. Expenditures that substantially increase the useful lives of existing assets are capitalized.

Revenue Recognition

Revenue represents fees earned from granting licenses to a customer to use the MobiClear solution. Revenue is recognized ratably over the period of the license arrangement, which for the only contract to date was one year.

Equity Investments

Investments in non-consolidated affiliates in which the Company has more than 20% but less than 50% of the equity are accounted for by using the equity method of accounting.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. To the extent that it is not considered to be more likely than not that a deferred tax asset will be realized, a valuation allowance is provided.

Net Loss per Share

Basic net loss per share is calculated by dividing the net loss attributable to common shareholders by the weighted average number of common shares outstanding in the period. Diluted loss per share takes into consideration common shares outstanding (computed under basic loss per share) and potentially dilutive securities. For the three month periods ended March 31, 2008 and 2007, outstanding stock options and warrants are antidilutive because of net losses, and as such, their effect has not been included in the calculation of diluted net loss per share. Common shares issuable are considered outstanding as of the original approval date for purposes of net loss per share computations.

Comprehensive Income (Loss)

SFAS No. 130, "Reporting Comprehensive Income," establishes standards for reporting comprehensive income (loss) and its components in financial statements. Other comprehensive income (loss), as defined, includes all changes in equity (net assets) during a period from non-owner sources. To date, the Company has not had any significant transactions that are required to be reported in other comprehensive income (loss), except for foreign currency translation adjustments.

Foreign Operations and Currency Translation

The Company translates foreign assets and liabilities of its subsidiaries, other than those denominated in U.S. dollars, at the rate of exchange at the balance sheet date. Revenues and expenses are translated at the average rate of exchange throughout the year. Gains or losses from these translations are reported as a separate component of other comprehensive income (loss).

Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the local functional currency are included in general and administrative expenses.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the fiscal year. The Company makes estimates for, among other items, useful lives for depreciation and amortization, determination of future cash flows associated with impairment testing for long-lived assets, determination of the fair value of stock discounts, options and warrants, and allowances for doubtful accounts. The Company bases its estimates on historical experience, current conditions, and on other assumptions that it believes to be reasonable under the circumstances. Actual results could differ from those estimates and assumptions.

Financial Instruments

The Company has the following financial instruments: cash, accounts receivable, accounts payable, accrued expenses and compensation, and stock subscriptions received. The carrying value of these financial instruments approximates their fair value due to their liquidity or their short-term nature.

Share-Based Compensation

The Company accounts for its share-based compensation under the provisions of SFAS No. 123(R), Share-Based Payment.

Note 2. Investment in affiliate

The investment in affiliate consists of a one-third interest in MobiClear Inc., a company incorporated in the Philippines to market the products and services of the Company in the Asia-Pacific region.

Note 3. Property and Equipment, net

When converted, the stock price is based on the average of the closing prices for the prior three trading days less a discount of 25% until the entire amount of the investment is converted. The shares are to be issued immediately upon conversion and in order to facilitate the immediate issuance of stock, the Company has issued shares in advance whereby with each conversion transaction, the balance is reduced by the amount tendered and the shares are allocated based on the above formula. Introduction

Management believes the most significant feature of our financial condition is that our working capital deficiency is no longer increasing due to the fact that we have continued to settle outstanding debts by issuing shares of common stock.

We have also commenced a reduction of operating costs through the consolidation of operations and administration in the Philippines.

Results of Operations

Comparison of the Three Months Ended March 31, 2008,

with the Three Months Ended March 31, 2007

We have generated gross revenue of \$1,250 in the three-month period ended March 31, 2008, as compared to gross revenue of \$1,250 for the three months ended March 31, 2007.

Our operating expenses for the three months ended March 31, 2008, were \$527,881, as compared to \$1,177,716 for the comparable period in 2007, a decrease of 55%. This reflects a reduction of general and administrative expenses from \$1,087,387 for the three months ended March 31, 2007, to \$441,921 for the three months ended March 31, 2008.

Overall, we sustained a net loss of \$617,115 for the three-month period ended March 31, 2008, as compared to a net loss of \$1,176,120 in the corresponding period of the preceding year.

We had four full-time employees as of March 31, 2008, as compared to one full-time employee at March 31, 2007.

Liquidity and Capital Resources

As of March 31, 2008, our current assets were \$63,610, as compared to \$67,633 at December 31, 2007. As of March 31, 2008, our current liabilities were \$1,886,135, as compared to \$2,091,046 at December 31, 2007. Operating activities had a net cash outflow of \$373,062 for the three months ended March 31, 2008, as compared to net cash outflow of \$1,552,983 for the three months ended March 31, 2007.

No cash was spent on investing activities during either the three months ended March 31, 2008, or March 31, 2007.

Net cash of \$344,737 provided by financing activities during the three months ended March 31, 2008, consists of net proceeds of cash received for subscriptions of shares in the amount of \$270,000 and advances from our Philippine affiliate in the amount of \$74,737. This is compared to net cash provided by financing activities of \$1,242,513 during the comparable period ending March 31, 2007, which consisted of proceeds from the issuance of common stock for \$658,750, receipt of subscriptions receivable, net of commissions, of \$803,430, and repayment of loans in the amount of \$219,667.

Edgar Filing: MOBICLEAR INC. - Form 10-Q

Our current balances of cash will not meet our working capital and capital expenditure needs for the whole of the current year. Because we are not currently generating sufficient cash to fund our operations, we will need to rely on external financing to meet future capital and operating requirements. Any projections of future cash needs and cash flows are subject to substantial uncertainty. Our capital requirements depend upon several factors, including the rate of market acceptance, our ability to get to production and generate revenues, our level of expenditures for production, marketing, and sales, purchases of equipment, and other factors. We can make no assurance that financing will be available in amounts or on terms acceptable to us, if at all. Further, if we issue equity securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences, or privileges senior to those of existing holders of common stock, and debt financing, if available, may involve restrictive covenants that could restrict our operations or finances. If we cannot raise funds, when needed, on acceptable terms, we may not be able to continue our operations, grow market share, take advantage of future opportunities, or respond to competitive pressures or unanticipated requirements, all of which could negatively impact our business, operating results, and financial condition.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit to the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms, and that information is accumulated and communicated to our management, including our principal executive and principal financial officers (whom we refer to in this periodic report as our Certifying Officers), as appropriate to allow timely decisions regarding required disclosure. Our management has evaluated, with the participation of our Certifying Officers, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act) as of March 31, 2008, pursuant to Rule 13a-15(b) under the Securities Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of March 31, 2008, our disclosure controls and procedures were effective.

In our Annual Report on Form 10-KSB for the year ended December 31, 2007, we reported that we did not maintain effective control over financial reporting. During the three months ended March 31, 2008, we hired a new Chief Financial Officer and began the process of centralizing our accounting and administrative activities in our new offices in Manila, Philippines. We believe that these changes will materially improve our internal control over financial reporting.
