Going Concern

The Company's consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. Since its inception on December 2, 2005, the Company has not yet generated any significant revenues and has incurred operating losses totaling \$12,632,886. It is the Company's intention to raise additional equity to finance the further development of a market for its products until positive

Edgar Filing: MOBICLEAR INC. - Form 10-Q

cash flows can be generated from its operations. However, there can be no assurance that such additional funds will be available to the Company when required or on terms acceptable to the Company. Such limitations could have a material adverse effect on the Company's business, financial condition, or operations, and these consolidated financial statements do not include any adjustment that could result. Failure to obtain sufficient additional funding would require the Company to reduce or limit its operating activities or even discontinue operations.

Basis of Consolidation

These consolidated financial statements include the accounts of MobiClear Inc. (formerly known as BICO Inc.) and its wholly owned subsidiaries MobiClear Ltd., MobiClear, Inc. (Philippines), and MobiClear Inc. (British Virgin Islands). All significant intercompany balances and transactions have been eliminated.

Development-Stage Enterprise

The Company has been in the development stage since its formation on December 2, 2005. Accordingly, the Company's financial statements are presented as a development-stage enterprise, as prescribed by Statement of Financial Accounting Standards No. 7, "Accounting and Reporting by Development Stage Enterprises."

Cash

Cash consists of checking accounts held at financial institutions in the Philippines and the United Kingdom. At times cash balances may exceed insured limits.

Other Receivables

Other receivables consist primarily of value-added tax recoverable. When necessary, the Company provides for an allowance when, based on review, an amount is considered uncollectable.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation, unless the estimated future undiscounted cash flow expected to result from either the use of an asset or its eventual disposition is less than its carrying amount, in which case an impairment loss is recognized based on the fair value of the asset.

Depreciation of property and equipment is based on the estimated useful lives of the assets and is computed using the straight-line method over three years. Repairs and maintenance are charged to expense as incurred. Expenditures that substantially increase the useful lives of existing assets are capitalized.

Revenue Recognition

In accordance with Securities and Exchange Commission Staff Accounting Bulletin No. 104: "Revenue Recognition," revenue will be recognized when the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, price is fixed and determinable, and collectability is reasonably assured.

For software license sales, the Company will recognize revenue under SOP 97-2 "Software Revenue Recognition," as amended by SOP 98-9 "Modification of SOP 97-2, Software Revenue Recognition, with respect to Certain Transactions." If the software license is perpetual and vendor specific objective evidence can be established for the software license and any related maintenance term, the software license revenue is recognized upon delivery of the software and the maintenance will be recognized pro rata over the life of the maintenance term.

Advertising Expenses

Advertising costs are expensed as incurred. There were no advertising costs incurred in the three months ended March 31, 2009 and 2008.

Equity Investments

Investments in non-consolidated affiliates in which the Company has more than 20% but less than 50% of the equity are accounted for by using the equity method of accounting.

Income Taxes

The Company accounts for income taxes under Statement of Financial Accounting Standards, or SFAS, No. 109, "Accounting for Income Taxes" ("SFAS 109"). Deferred income tax assets and liabilities are determined based on temporary differences between financial reporting and tax bases of assets and liabilities, operating loss, and tax credit carryforwards, and are measured using the enacted income tax rates and laws that will be in effect when the differences are expected to be recovered or settled. Realization of certain deferred income tax assets is dependent upon generating sufficient taxable income in the appropriate jurisdiction. The Company records a valuation allowance to reduce deferred income tax assets to amounts that are more likely than not to be realized. The initial recording and any subsequent changes to valuation allowances are based on a number of factors (positive and negative evidence), as required by SFAS 109. The Company considers its actual historical results to have stronger weight than other more subjective indicators when considering whether to establish or reduce a valuation allowance.

The Company accounts for uncertain income tax positions in accordance with FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement 109" ("FIN 48"). Accordingly the Company reports a liability for unrecognized tax benefits resulting from uncertain income tax positions taken or expected to be taken in an income tax return. Estimated interest and penalties are recorded as a component of interest expense and other expense, respectively.

Net Loss per Share

Basic net loss per share is calculated by dividing the net loss attributable to common shareholders by the weighted average number of common shares outstanding in the period. Diluted loss per share takes into consideration common shares outstanding (computed under basic loss per share) and potentially dilutive securities. For the three months ended March 31, 2009 and 2008, outstanding stock options and warrants are antidilutive because of net losses, and as such, their effect has not been included in the calculation of diluted net loss per share. Common shares issuable are considered outstanding as of the original approval date for purposes of earnings per share computations.

Comprehensive Income (Loss)

SFAS No. 130 establishes standards for reporting comprehensive income (loss) and its components in financial statements. Other comprehensive income (loss), as defined, includes all changes in equity (net assets) during a period from non-owner sources. To date, the Company has not had any significant transactions that are required to be reported in other comprehensive income (loss), except for foreign currency translation adjustments.

Foreign Operations and Currency Translation

The Company translates foreign assets and liabilities of its subsidiaries, other than those denominated in U.S. dollars, at the rate of exchange at the balance sheet date. Revenues and expenses are translated at the average rate of exchange throughout the year. Gains or losses from these translations are reported as a separate component of other comprehensive income (loss), until all or a part of the investment in the subsidiaries is sold or liquidated. The translation adjustments do not recognize the effect of income tax because the Company expects to reinvest the amounts indefinitely in operations.

Edgar Filing: MOBICLEAR INC. - Form 10-Q

Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the local functional currency are included in general and administrative expenses.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the fiscal year. The Company makes estimates for, among other items, useful lives for depreciation and amortization, determination of future cash flows associated with impairment testing for goodwill and long-lived assets, determination of the fair value of stock options and warrants, and allowances for doubtful accounts. The Company bases its estimates on historical experience, current conditions, and other assumptions that it believes to be reasonable under the circumstances. Actual results could differ from those estimates and assumptions.

Financial Instruments

The Company has the following financial instruments: cash, other receivables, accounts payable, accrued expenses, and wages. The carrying value of these financial instruments approximates their fair value due to their liquidity or their short-term nature.

Share-Based Compensation

The Company accounts for stock-based awards in accordance with SFAS No. 123(R), "Share-Based Payment," which requires measurement of compensation cost for all stock-based awards at fair value on the date of grant and recognition of compensation over the service period for awards expected to vest. The fair value of stock options is determined using the Black-Scholes valuation model, which is consistent with the Company's valuation techniques previously utilized for options in footnote disclosures required under SFAS No. 123, "Accounting for Stock Based Compensation."

Reclassifications

Certain amounts from the March 31, 2008, consolidated financial statements have been reclassified to conform to the current period's presentation.

Note 2. Recent Accounting Pronouncements

In December 2008, the FASB issued Staff Position, or FSP, FAS 132(R)-1, "Employers' Disclosures about Postretirement Benefit Plan Assets." FSP FAS 132(R)-1 amends SFAS No. 132(R), "Employers' Disclosures about Pensions and Other Postretirement Benefits," to require additional disclosures about plan assets held in an employer's defined benefit pension or other postretirement plan to provide users of financial statements with an understanding of: (i) how investment allocation decisions are made, including the factors that are pertinent to an understanding of investment policies and strategies; (ii) the major categories of plan assets; (iii) the inputs and valuation techniques used to measure the fair value of plan assets including the level within the fair value hierarchy, using the guidance in SFAS No. 157; and (iv) significant concentrations of risk within plan assets. FSP FAS 132(R)-1 is effective for financial statements issued for fiscal years ending after December 15, 2009. The Company does not expect the adoption of FSP FAS 132(R)-1 to have a material effect on its consolidated financial statements.

In April 2009, the FASB issued FSP FAS 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or the Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly." FSP FAS 157-4 amends SFAS No. 157 to provide additional guidance on: (i) estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability; and (ii) circumstances that may indicate that a transaction is not orderly. FSP FAS 157-4 also requires additional disclosures about fair value measurements in interim and annual reporting periods. FSP FAS 157-4 is effective for interim and annual reporting periods ending after June 15, 2009. The Company does not expect the adoption of FSP FAS 157-4 to have a material effect on its consolidated financial statements.

FSP FAS 115-2 provides additional guidance on the timing of impairment recognition and greater clarity about the credit and noncredit components of impaired debt securities that are not expected to be sold. FSP FAS 115-2 also requires additional disclosures about impairments in interim and annual reporting periods. FSP FAS 115-2 is effective for interim and annual reporting periods ending after June 15, 2009. The Company does not expect the adoption of FSP FAS 115-2 to have a material effect on its consolidated financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments." FSP FAS 107-1 and APB 28-1 amends SFAS No. 107, "Disclosures about Fair Value of Financial Instruments," to require disclosures about fair value of financial instruments in interim as well as in annual financial statements. This FSP also amends Accounting Principles Board ("APB") Opinion No. 28, "Interim Financial Reporting," to require those disclosures in all interim financial statements. FSP FAS 107-1 and APB 28-1 is effective for interim reporting periods ending after June 15, 2009. In February 2008, the Company entered into a second private placement equity line for \$300,000. The shares are to be issued immediately upon conversion and in order to facilitate the immediate issuance of stock, the Company has issued shares in advance whereby with each conversion transaction, the balance is reduced by the amount tendered and the shares are allocated based on the above formula. The beneficial conversion feature expense on this equity line of credit amounted to \$100,000 and has been charged to operations as interest expense. No cash was spent on investing activities during either the three months ended March 31, 2009, or March 31, 2008.

Net cash of \$86,260 provided by financing activities during the three months ended March 31, 2009, consists of net proceeds from equity lines of credit of \$70,000 and an advance from a director in the amount of \$16,260. This is compared to net cash provided by financing activities of \$344,737 during the comparable period ending March 31, 2008, which consisted of net proceeds from equity lines of credit of \$270,000 and advances from our Philippine affiliate in the amount of \$74,737.

Our current balances of cash will not meet our working capital and capital expenditure needs for the whole of the current year. Because we are not currently generating sufficient cash to fund our operations, we will need to rely on external financing to meet future capital and operating requirements. Any projections of future cash needs and cash flows are subject to substantial uncertainty. Our capital requirements depend upon several factors, including the rate of market acceptance, our ability to get to production and generate revenues, our level of expenditures for production, marketing, and sales, purchases of equipment, and other factors. We can make no assurance that financing will be available in amounts or on terms acceptable to us, if at all. Further, if we issue equity securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences, or privileges senior to those of existing holders of common stock, and debt financing, if available, may involve restrictive covenants that could restrict our operations or finances. If we cannot raise funds, when needed, on acceptable terms, we may not be able to continue our operations, grow market share, take advantage of future opportunities, or respond to competitive pressures or unanticipated requirements, all of which could negatively impact our business, operating results, and financial condition.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4T. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit to the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms, and that information is accumulated and communicated to our management, including our principal executive and principal financial officers (whom we refer to in this periodic report as our Certifying Officers), as appropriate to allow timely decisions regarding required disclosure. Our management has evaluated, with the participation of our Certifying Officers, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act) as of March 31, 2009, pursuant to Rule 13a-15(b) under the Securities Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of March 31, 2009, our disclosure controls and procedures were effective.

Edgar Filing: MOBICLEAR INC. - Form 10-Q

In our Annual Report on Form 10-K for the year ended December 31, 2008, we reported that we did not maintain effective control over financial reporting. The weaknesses identified during the year ended December 31, 2008, have continued during the three months ended March 31, 2009, and are as follows:

(i) *Lack of any independent directors for our board and audit committee.* We currently have no independent director on our board, which is comprised of two directors. Although there is no requirement that we have any independent directors, we intend to have a majority of independent directors as soon as we are reasonably able to do so.

(ii) *Insufficient segregation of duties in our finance and accounting functions due to limited personnel.* During the three months ended March 31, 2009, we had one person on staff that performed nearly all aspects of our financial reporting process, including access to the underlying accounting records and systems, the ability to post and record journal entries, and responsibility for the preparation of the financial statements. This creates certain incompatible duties and a lack of review over the financial reporting process that would likely result in a failure to detect errors in spreadsheets, calculations, or assumptions used to compile the financial statements and related disclosures as filed with the Securities and Exchange Commission. These control deficiencies could result in a material misstatement to our interim or annual consolidated financial statements that would not be prevented or detected.

(iii) *Insufficient corporate governance policies.* Although we have a code of ethics that provides broad guidelines for corporate governance, our corporate governance activities and processes are not always formally documented. Specifically, decisions made by the board to be carried out by management should be documented and communicated on a timely basis to reduce the likelihood of any misunderstandings regarding key decisions affecting our operations and management.

(iv) *Accounting for Technical Matters.* Our current accounting personnel perform adequately in the basic accounting and recordkeeping function. However, our operations and business practices include complex technical accounting issues that are outside the routine basic functions. The complex areas include issuance of convertible debt (with attached warrants), beneficial conversion features issued with equity lines of credit, and accounting for software development costs. These technical accounting issues are complex and require significant expertise to ensure that the accounting and reporting are accurate and in accordance with generally accepted accounting principles. This is especially important for periodic interim reporting that is not subject to audit.

PART II—OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the quarter ended March 31, 2009, we issued the following unregistered securities, which have not been previously reported, as follows:

On April 20, 2009, we issued 12,600,000 shares of common stock for settlement of debt with a fair value of \$63,000.

On April 20, 2009, we issued 5,000,000 shares of common stock for settlement of debt with a fair value of \$25,000.

In the issuances above, no general solicitation was used and the transactions were negotiated directly with our executive officers. The recipients of the common stock represented in writing that they were not residents of the United States, acknowledged that the securities constituted restricted securities, and consented to a restrictive legend on the certificates to be issued. These transactions were made in reliance on Regulation S.

Item 5. Other Information

On April 20, 2009, we issued unregistered shares of our common stock in excess of 5% of our then-issued and outstanding common stock. See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds, above.
