- (1) The value realized is based on the difference between the market price at the time of exercise of the options and the applicable exercise price.
- (2) Represents the total gain which would be realized if all in-the-money options held at December 31, 2003 were exercised, determined by multiplying the number of shares underlying the options by the difference between the per share option exercise price and the fair market value of \$4.07 per share at December 31, 2003. An option is in-the-money if the fair market value of the underlying shares exceeds the exercise price of the option.

There has been no re-pricing of stock options during the last ten years.

Section 16 Reports

Edgar Filing: AVI BIOPHARMA INC - Form DEF 14A

Section 16(a) of the Exchange Act requires AVI's directors and officers, and persons who own more than ten percent (10%) of a registered class of AVI's equity securities, to file initial reports of ownership and report of changes in ownership with the Commission. Such persons also are required to furnish AVI with copies of all Section 16(a) reports they file.

Based solely on its review of the copies of such reports received by it with respect to fiscal year 2003, or written representations from certain reporting persons, AVI believes that all filing requirements applicable to its directors, officers and persons who own more than ten percent (10%) of a registered class of AVI's equity securities have been complied with for fiscal 2003.

Compensation Committee Report

Under rules established by the Securities and Exchange Commission (the "SEC"), the Company is required to provide certain data and information in regard to the compensation and benefits provided to the Company's Chief Executive Officer and the four other most highly compensated executive officers. In fulfillment of this requirement, the Compensation Committee has prepared the following report for inclusion in this Proxy Statement.

Compensation Philosophy. The Compensation Committee of the Board of Directors, which is responsible for reviewing and evaluating the compensation of the Company's executive officers, approves and recommends to the Board of Directors compensation and award levels for executive officers of the Company. With regard to compensation actions affecting Dr. Burger, all of the outside members of the Board of Directors act as the approving body.

The executive compensation program of the Company has been designed to:

Support a pay for performance policy that is tied to corporate and individual performance;

Motivate executive officers to achieve strategic business initiatives and reward them for their achievement;

9

Provide compensation opportunities which are comparable to those offered by similarly-sized biopharmaceutical companies; and

Align the interest of executives with the long-term interest of shareholders through award opportunities that can result in ownership of Common Stock.

Currently, the executive compensation program is comprised of a base salary and long-term incentive opportunities in the form of stock options, along with benefits offered to all employees of the Company.

Base Salaries. The base salaries of the Company's executive officers for 2004 were established effective January 1, 2004 as part of an annual compensation adjustment cycle. In establishing those salaries, the Compensation Committee considered information about salaries paid by companies of comparable size in the biopharmaceutical industry, individual performance, position, and internal comparability considerations. While all of these factors were considered, the Compensation Committee did not assign specific weights to any of these factors.

Stock Plans. The long-term, performance-based compensation of executive officers takes the form of option awards under the Company's 2002 Equity Incentive Plan ("2002 Plan"). The 2002 Plan replaced the Company's 1992 Stock Incentive Plan (the "1992 Plan"), which is designed to align a significant portion of the executive compensation program with long-term shareholder interests. The 2002 Plan, as did the 1992 Plan, permits the granting of several different types of stock-based awards. The Compensation Committee believes that equity-based compensation ensures that the Company's executive officers have a continuing stake in the long-term success of the Company. All options granted by the Company have been granted with an exercise price equal to the market price of the Company's Common Stock on the date of grant and, accordingly, will only have value if the Company's stock price increases. In granting options under the 2002 Plan, the Compensation Committee, as it also did under the 1992 Plan, generally takes into account each executive's responsibilities, relative position in the Company, past grants, and approximate grants to individuals in similar positions for companies of comparable size in the biopharmaceutical industry.

Executive Officer Compensation. In 1996, the Company entered into an employment contract with each of Drs. Burger and Weller and Mr. Timmins, in 1997, Dr. Iversen, and, in 2000, Mr. Webber, that provides for a base annual compensation. The employment contracts are cancelable by the employee on sixty days notice and by AVI on thirty days notice or for cause (as defined in the agreement); provided, the employee will receive severance pay of one year's base salary following either termination without cause or, following a change in control (as

Edgar Filing: AVI BIOPHARMA INC - Form DEF 14A

defined in the agreement), voluntary termination by the employee. In addition, the employment agreements prevent any of them from competing with the Company or soliciting the employment of other individuals employed by the Company during their employment and for a period of one year thereafter. Under the employment agreement, they may not disclose the Company's confidential information to outsiders during employment and for a period of two years thereafter, and assign inventions conceived by them to the Company.

In developing its recommendations regarding executive compensation, the Committee considered a number of factors, including analyses of compensation in similarly-sized companies in the biopharmaceutical industry, and analyses of compensation levels in similar companies in the Company's local geographic area.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

During the fiscal year ended December 31, 2003, the members of the Compensation Committee were Andrew J. Ferrara and Drs. John W. Fara and James B. Hicks. Mr. Ferrara resigned from the Board of Directors on March 23, 2004. There were no employee directors on the Compensation Committee and no interlocks. On March 30, 2004 the Board of Directors adopted a Compensation Committee charter, a copy of which is attached hereto as Exhibit A.

Audit Committee Report

Under the Amended and Restated Audit Committee Charter ("Charter"), a copy of which is attached hereto as Exhibit B, the general purpose of the Audit Committee is to assist the Board of Directors in the exercise of its fiduciary responsibility of providing oversight of the Company's financial statements and the financial reporting processes, internal accounting and financial controls, the annual independent audit of the Company's financial statements, and other aspects of the financial management of the Company. The Audit Committee is appointed by the Board of Directors and is to be comprised of at least three directors, each of whom shall be independent, as such term is defined under the listing standards of the Nasdaq Stock Market. All committee members must be financially literate, or shall become financially literate within a reasonable period of time after appointment to the Committee. In 2003, the Board determined that one of the members of the Audit Committee was not independent. Thus, for purposes of the review of the Company's annual financial statements for the year ended December 31, 2003, the Audit Committee consisted of three directors, only two of which were independent. On March 22, 2003, John Hodgman was appointed to the Board of Directors and the Audit Committee and was designated the committee's financial expert. Accordingly, as of the date of this Proxy Statement, the Audit Committee consists of three members, each of whom is independent.

Audit and other Fees. KPMG LLP has been the Company's auditors since 2002. During fiscal years 2003 and 2002, the fees for audit and other services performed by KPMG LLP for the Company were as follows:

Nature of Services	Amount and percentage of Fees			
	2003		2002	
Audit	\$ 118,000	(100)%	\$ 37,471	(78)%
Audit Related	\$		\$	
Financial Information System Design and Implementation Fees	\$		\$	
All other fees	\$		\$ 10,300	(22)%
Total	\$ 118,000	(100)%	\$ 47,771	(100)%

Responsibilities and Duties. The Company's management is responsible for preparing the Company's financial statements and the independent auditors are responsible for auditing those financial statements. The Committee is responsible for overseeing the conduct of these activities by the Company's management and the independent auditors. The financial management and the independent auditors of the Company have more time, knowledge and more detailed information on the Company than do Committee members. Consequently, in carrying out its oversight responsibilities, the Committee does not provide any expert or special assurance as to the Company's financial statements or any professional certification as to the independent auditors' work.

Edgar Filing: AVI BIOPHARMA INC - Form DEF 14A

The specific duties of the Audit Committee include the following:

1. Select, retain (subject to approval by the Company's stockholders), and, when appropriate, terminate the engagement of the independent auditor and set the independent auditors' compensation;
2. Pre-approve all permitted non-audit services to be performed by the independent auditors and establish policies and procedures for the engagement of the independent auditors to provide permitted non-audit services;

4. Receive and review: (a) a report by the independent auditors describing the independent auditors' internal quality-control procedures and any material issues raised by the most recent internal quality-control review, or peer review, of the independent auditors, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the firm, and any steps taken to deal with any such issues; and (b) other required reports from the independent auditors;
5. Meet with management and the independent auditors prior to commencement of the annual audits to review and discuss the planned scope and objectives of the audit;
6. Meet with the independent auditors, with and without management present, after completion of the annual audit to review and discuss the results of the examinations of the independent auditors and appropriate analyses of the financial statements;
7. Review the recommendations of the independent auditors for improving internal accounting controls and management's responses thereto;
8. Review and discuss (a) the reports of the independent auditors, with and without management present, as to the state of the Company's financial reporting systems and procedures, the adequacy of internal accounting and financial controls, the integrity and competency of the financial and accounting staff, disclosure controls and procedures, other aspects of the financial management of the Company and (b) current accounting trends and developments, and (c) take such action with respect thereto as may be deemed appropriate;
9. Review the interim financial statements with management and the independent auditors prior to the filing of the Company's Quarterly Reports on Form 10-Q and discuss the results of the quarterly reviews and any other matters required to be communicated to the Committee by the independent auditors under generally accepted auditing standards;
10. Review and discuss with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to stockholders if distributed prior to the filing of Form 10-K), including the judgment of the independent auditors about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements;
11. Recommend to the Board of Directors, based upon the Committee's review, whether the financial statements should be included in the annual report on Form 10-K;

12. Review press releases, as well as Company policies with respect to earnings press releases, financial information and earnings guidance provided to analysts and rating agencies and review such releases, information and guidance for compliance with regulations governing the use of non-Generally Accepted Accounting Principles financial measures and related disclosure requirements;

12

13. Discuss Company policies with respect to risk assessment and risk management, and review contingent liabilities and risks that may be material to the Company and major legislative and regulatory developments that could materially impact the Company's contingent liabilities and risks;
14. Review (a) the status of compliance with laws, regulations, and internal procedures, including, without limitation, the Company's policies on ethical business practices; and (b) the scope and status of systems designed to promote Company compliance with laws, regulations and internal procedures, through receiving reports from management, legal counsel and third parties as determined by the Committee and report on the same to the Board of Directors;
15. Establish procedures for the confidential and anonymous receipt, retention and treatment of complaints regarding the Company's accounting, internal controls, auditing matters and compliance with the Company's ethical business policies;
16. Establish policies for the hiring of employees and former employees of the independent auditor;
17. Prepare a report of the Committee each year for inclusion in the Company's proxy statement in accordance with SEC rules;
18. Review and assess the adequacy of this Charter annually with the Board of Directors as a whole and report to the Board of Directors any significant matters as they occur during the year; and
19. Conduct such other duties and undertake such other tasks as may be appropriate to the overall purposes for the Committee and as may be assigned from time to time by the Board of Directors consistent with such purposes.

Specific Audit Committee Actions Related to Review of the Company's Audited Financial Statements. In discharging its duties, the Audit Committee, among other actions, has (i) reviewed and discussed the audited financial statements to be included in the company's Annual Report on Form 10-K for the twelve months ended December 31, 2003 with management, (ii) discussed with the Company's independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standard, AU380) related to such financial statements, (iii) received the written disclosures and the letter from the Company's independent accountants required by Independence Standards Board Standard No. 1 (Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*) and has discussed with the independent accountant the independent accountant's independence, (iv) the Audit Committee has considered whether the provision of service represented under the headings on "Financial Information Systems Design and Implementation Fees" and "All Other Fees" as set forth in the table of fees on page eleven is compatible with maintaining KPMG LLP's independence, and (v) based on such reviews and discussions, the Audit Committee has recommended to the Board of Directors that the audited financial statements be included in the company's Annual Report on Form 10-K for the twelve months ended December 31, 2003.

CERTAIN TRANSACTIONS AND RELATIONSHIPS WITH AVI BIOPHARMA, INC.

In December 1999, the Company entered into an agreement with SuperGen, Inc. The president and chief executive officer of SuperGen, Inc., Joseph Rubinfeld, Ph.D., is a former member of our Board of Directors. Denis R. Burger, Ph.D., the chief executive officer of the Company is a member of the Board of Directors of SuperGen, Inc. Under terms of the agreement, the Company acquired \$2.5 million cash and 100,000 shares of SuperGen, Inc. common stock, for one million shares of our common stock. SuperGen, Inc. also acquired exclusive negotiating rights for the United States market for Avicine, the Company's proprietary cancer vaccine currently in late-stage clinical testing against a variety of solid tumors. During the fourth quarter of 2003 the Company sold all of its investment in SuperGen, Inc.

In April 2000, the Company entered into an alliance with SuperGen, Inc. for shared development and marketing rights for Avicine. Under the terms of the agreement, AVI and SuperGen will equally share in future clinical development and FDA registration costs as well as in profits from product sales in the United States. At closing the Company received from SuperGen, Inc. \$5,000,000 in cash and 347,826 shares of SuperGen, Inc. common stock in exchange for 1,684,211 shares of AVI common stock and a warrant to purchase 1,665,878 shares of AVI common stock, subject to anti-dilution provisions. Closing of the transaction occurred during the third quarter of 2000.

During the year ended December 31, 2003, the Company paid Boston Healthcare Associates, Inc., of which former director Andrew J. Ferrara is President, \$67,900 for business development consulting services. The Company expects to pay Mr. Ferrara, or his firm, for additional consulting services that may be performed for the Company during 2004.

In June 2002, the Company loaned the chief executive officer of AVI \$500,000 under a one year term loan. The loan was secured by the chief executive officer's stock in AVI. Interest on the loan accrued at the rate of 4.75% per annum. This loan was made prior to the Sarbanes-Oxley Act, which prohibits loans to executives, and therefore is grandfathered in. On June 13, 2003, the loan to the Company's chief executive officer was repaid in full with accrued interest.

In May 2001, the Company entered into an Investment Agreement with Medtronic International, Ltd. ("MIL," then known as Medtronic Asset Management, Inc.), a wholly-owned subsidiary of Medtronic, Inc. In June 2001, pursuant to the Investment Agreement, MIL purchased 1,408,451 shares of the Company's Common Stock and received a Warrant for 3,000,000 shares of such stock at an exercise price of \$10.00 per share and certain other purchase rights, based on agreed technology milestones being met or waived by MIL for an additional 352,113 shares of the Company's Common Stock at \$7.10 per share and, based on the market price at the time purchased, up to an additional \$7.5 million of such Common Stock. In June 2001, the parties entered into a related Registration Rights Agreement under which the Company agreed to register such shares for resale. In June 2001, the Company also entered into a License and Development Agreement and a Supply Agreement with Medtronic, Inc. The License and Development Agreement granted Medtronic, Inc. certain rights to develop and use the Company's NeuGene technology for the treatment of restenosis in heart disease. The Company is to receive certain fixed payments and license fees if the technology is developed and commercially exploited by Medtronic, Inc. Under the Supply Agreement the Company agreed to manufacture the licensed product pursuant to a negotiated cost and pricing formula. Neither MIL nor Medtronic, Inc. was a related party as of the date of the stock purchases in June 2001, but became such as a result of such purchases. In 2003, the Company elected to convert Medtronic's license to non-exclusive. The Company has some ongoing obligations under the various agreements as to assisting Medtronic in developing its product and manufacturing the product when developed.

The AVI Board has ratified the appointment by the Audit Committee of KPMG LLP to act as independent auditors for AVI for the fiscal year ending December 31, 2004, subject to ratification of such appointment by AVI's shareholders.

Unless otherwise indicated, properly executed proxies will be voted in favor of ratifying the appointment of KPMG LLP to audit the books and accounts of AVI for the fiscal year ending December 31, 2004.

The proposal will be approved if assuming the existence of a quorum at least a majority of the shares of the Company's Common Stock cast on the proposal vote in favor of approval. Abstentions and broker non-votes are counted for purposes of determining whether a quorum exists at the Annual Meeting but will not be counted and will have no effect on the determination of the outcome of the proposal. The proxies will be voted for or against the proposal, or as an abstention, in accordance with the instructions specified on the proxy form. If no instructions are given, proxies will be voted for approval of the ratification of KPMG LLP.

OTHER BUSINESS

As of the date of this Proxy Statement, the Company knows of no other business that will be presented for action at the meeting. If any other business requiring a vote of the shareholders should properly come before the meeting, the persons named in the enclosed proxy form will vote in their discretion upon such other matters.

COST OF SOLICITATION

The cost of soliciting proxies will be borne by the Company. In addition to use of the mails, proxies may be solicited personally or by telephone by directors, officers and employees of the Company, who will not be additionally compensated for such activities. Such solicitations may be made personally, or by mail, facsimile, telephone, telegraph or messenger. The Company will also request persons, firms and companies holding shares in their names or in the name of their nominees, which are beneficially owned by others, to send proxy materials to and obtain proxies from such beneficial owners. The Company will reimburse such persons for their reasonable expenses incurred in that connection.

The Board of Directors may, pursuant to the Company's Bylaws, remove a member of the Committee or replace the chairman, provided the Board of Directors must, at all times, assure that the Committee will have a chairman and sufficient members to satisfy the requirements set forth above relating to the number and qualifications of Committee members.

Committee members may not simultaneously serve as the chairman or on the audit committee of more than three public companies, including the Company, unless the Board of Directors determines that such simultaneous service does not impair the efficacy of Committee service. In addition, each prospective Committee member shall evaluate carefully the existing demands on his or her time before accepting appointment to the Committee.

As of the date hereof, the members of the Committee are as follows:

John Hodgman, Chair*
Jim Hicks

The Chair of the Committee, or if not present, the senior independent director present shall preside at all meetings of the Committee and provide written minutes of such meetings to the Board of Directors. The Committee shall have full authority at its own discretion to (a) institute investigations of matters brought to its attention, with full access to all books, records, facilities and personnel of the Company, including standing authority to retain special counsel or experts and (b) to review all aspects of the Company's financial operations on a planned basis.

In fulfilling its responsibilities and discharging its duties, the Committee shall maintain free and open communication between the Committee, directors who are not members of the Committee, the Company's management, and the independent auditors.
