NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

The unaudited Condensed Consolidated Financial Statements of TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP") and the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. In management's opinion, the unaudited Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire fiscal year or any subsequent interim period.

The year-end balance sheet data was derived from audited financial statements, but does not include all of the information and disclosures required by GAAP. These financial statements should be read in conjunction with our audited Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014.

Unless otherwise indicated, references in the Condensed Consolidated Financial Statements to fiscal 2015 and fiscal 2014 are to our fiscal years ending September 25, 2015 and September 26, 2014, respectively.

Segment Structure

During fiscal 2015, we reorganized our management structure and segments to better align the organization around our strategy. Our businesses in the former Consumer Solutions segment and our continuing businesses in the former Network Solutions segment have been moved into the newly created Communications Solutions segment. (See Note 3 for information regarding discontinued operations.) In addition, the former Data Communications and Consumer Devices businesses have been combined to form the Data and Devices business. The following represents the current segment structure:

Transportation Solutions The Automotive, Commercial Transportation, and Sensors businesses are included in this segment.

Industrial Solutions This segment contains the Industrial Equipment; Aerospace, Defense, Oil, and Gas; and Energy businesses.

Communications Solutions The Data and Devices, Appliances, and Subsea Communications businesses are included in this segment.

Reclassifications

We have reclassified certain items on our Condensed Consolidated Financial Statements to conform to the current year presentation.

Fiscal 2015 Actions

During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions segment. In connection with this program, during the nine months ended June 26, 2015, we recorded restructuring charges of \$62 million. We expect to complete all restructuring actions commenced in the first nine months of fiscal 2015 by the end of fiscal 2016 and to incur total charges of approximately \$67 million.

Fiscal 2014 Actions

During fiscal 2014, we initiated a restructuring program primarily associated with headcount reductions and manufacturing site and product line closures in the Communications Solutions segment. In connection with this program, during the nine months ended June 27, 2014, we recorded restructuring charges of \$18 million. We do not expect to incur any additional charges related to restructuring actions commenced in fiscal 2014.

Pre-Fiscal 2014 Actions

During fiscal 2013, we initiated a restructuring program associated with headcount reductions and manufacturing site closures impacting all segments. During fiscal 2012, we initiated a restructuring program to reduce headcount across all segments. Also, during fiscal 2012, we initiated a restructuring

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****2. Restructuring and Other Charges, Net (Continued)**

program in the Transportation Solutions and Industrial Solutions segments associated with the acquisition of Deutsch Group SAS. During the nine months ended June 26, 2015, we recorded net restructuring charges of \$3 million related to pre-fiscal 2014 actions. We do not expect to incur any additional significant charges related to pre-fiscal 2014 actions.

Total Restructuring Reserves

Restructuring reserves included on our Condensed Consolidated Balance Sheets were as follows:

	June 26, 2015	September 26, 2014
	(in millions)	
Accrued and other current liabilities	\$ 55	\$ 83
Other liabilities	29	31
Restructuring reserves	\$ 84	\$ 114

3. Discontinued Operations

On January 27, 2015, we entered into a definitive agreement to sell our Broadband Network Solutions ("BNS") business for \$3.0 billion in cash, subject to a final working capital adjustment. The transaction is expected to close during calendar 2015 pending customary closing conditions and regulatory approvals.

The following table presents information regarding certain components of income (loss) from discontinued operations, net of income taxes:

	For the Quarters Ended		For the Nine Months Ended	
	June 26, 2015	June 27, 2014	June 26, 2015	June 27, 2014
	(in millions)			
Net sales	\$ 471	\$ 505	\$ 1,313	\$ 1,436
Pre-tax income (loss) from discontinued operations	\$ (37)	\$ 68	\$ 69	\$ 161
Income tax (expense) benefit	(5)	(12)	209	(43)
Income (loss) from discontinued operations, net of income taxes	\$ (42)	\$ 56	\$ 278	\$ 118

Pre-tax loss from discontinued operations for the quarter ended June 26, 2015 included pre-tax charges of \$126 million recorded in connection with the Com-Net case related to our former Wireless Systems business which was sold in fiscal 2009. See Note 10 for additional information regarding the Com-Net case.

The income tax benefit from discontinued operations for the nine months ended June 26, 2015 primarily reflects an income tax benefit related to the recognition of certain deferred tax assets expected to be realized upon the sale of the BNS business, partially offset by an income

tax charge

related to the impacts of legal entity restructurings in connection with the anticipated sale of the BNS business.

The following table presents balance sheet information for assets and liabilities held for sale:

	June 26, 2015	September 26, 2014
	(in millions)	
Accounts receivable, net	\$ 352	\$ 382

Current maturities of long-term debt	\$ 89	\$ 90
Accounts payable	141	161
Other liabilities	135	165
Total liabilities	\$ 365	\$ 416

The BNS and Wireless Systems businesses met the held for sale and discontinued operations criteria and have been reported as such in all periods presented in our Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS and Wireless Systems businesses were included in the former Network Solutions and Wireless Systems segments, respectively.

4. Acquisitions

On October 9, 2014, we acquired 100% of the outstanding shares of Measurement Specialties, Inc. ("Measurement Specialties"), a leading global designer and manufacturer of sensors and sensor-based systems, for \$86.00 in cash per share. The total value paid was approximately \$1.7 billion, net of cash acquired, and included \$225 million for the repayment of Measurement Specialties' debt and accrued interest. Measurement Specialties offers a broad portfolio of technologies including pressure, vibration, force, temperature, humidity, ultrasonics, position, and fluid sensors, for a wide range of applications and industries. This business has been reported as part of our Transportation Solutions segment from the date of acquisition.

The Measurement Specialties acquisition was accounted for under the provisions of Accounting Standards Codification ("ASC") 805, *Business Combinations*. We allocated the purchase price to tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values. During the second quarter of fiscal 2015, we finalized the valuation of identifiable intangible assets, fixed assets, and pre-acquisition contingencies.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****4. Acquisitions (Continued)**

The following table summarizes the allocation of the purchase price to the fair value of identifiable assets acquired and liabilities assumed at the date of acquisition, in accordance with the acquisition method of accounting:

	(in millions)
Cash and cash equivalents	\$ 37
Accounts receivable	84
Inventories	110
Other current assets	20
Property, plant, and equipment	95
Goodwill	1,066
Intangible assets	547
Other non-current assets	9
Total assets acquired	1,968
Current maturities of long-term debt	20
Accounts payable	48
Other current liabilities	66
Long-term debt	203
Deferred income taxes	101
Other non-current liabilities	9
Total liabilities assumed	447
Net assets acquired	1,521
Cash and cash equivalents acquired	(37)
Net cash paid	\$ 1,484

The fair values assigned to intangible assets were determined through the use of the income approach, specifically the relief from royalty and the multi-period excess earnings methods. Both valuation methods rely on management judgment, including expected future cash flows resulting from existing customer relationships, customer attrition rates, contributory effects of other assets utilized in the business, peer group cost of capital and royalty rates, and other factors. The valuation of tangible assets was derived using a combination of the income, market, and cost approaches. Significant judgments used in valuing tangible assets include estimated reproduction or replacement cost, useful lives of assets, estimated selling prices, costs to complete, and reasonable profit. Useful lives for intangible assets were determined based upon the remaining useful economic lives of the intangible assets that are expected to contribute directly or indirectly to future cash flows.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****4. Acquisitions (Continued)**

Intangible assets acquired consisted of the following:

	Amount (in millions)	Weighted-Average Amortization Period (in years)
Customer relationships	\$ 370	18
Developed technology	161	9
Trade names and trademarks	4	1
Customer order backlog	12	<1
Total	\$ 547	15

The acquired intangible assets are being amortized on a straight-line basis over their expected useful lives.

Goodwill of \$1,066 million was recognized in the transaction, representing the excess of the purchase price over the fair value of the tangible and intangible assets acquired and liabilities assumed. This goodwill is attributable primarily to cost savings and other synergies related to operational efficiencies including the consolidation of manufacturing, marketing, and general and administrative functions. The goodwill has been allocated to the Transportation Solutions segment and is not deductible for tax purposes. However, prior to its merger with us, Measurement Specialties completed certain acquisitions that resulted in goodwill with an estimated value of \$23 million that is deductible primarily for U.S. tax purposes, which we will deduct through 2030.

For the quarter ended June 26, 2015 and the period from October 9, 2014 to June 26, 2015, Measurement Specialties contributed net sales of \$143 million and \$406 million, respectively, to our Condensed Consolidated Statements of Operations. Due to the commingled nature of our operations, it is not practicable to separately identify operating income of Measurement Specialties on a stand-alone basis.

4. Acquisitions (Continued)

The pro forma financial information is based on our final allocation of the purchase price. The significant pro forma adjustments, which are described below, are net of income tax expense (benefit) at the statutory rate.

Pro forma results for the quarter ended June 26, 2015 were adjusted to exclude \$1 million of charges related to the amortization of the fair value of acquired intangible assets and include \$1 million of income tax expense based on the estimated impact of combining Measurement Specialties into our global tax position.

Pro forma results for the quarter ended June 27, 2014 were adjusted to include \$5 million of charges related to the amortization of the fair value of acquired intangible assets, \$3 million of interest expense based on pro forma changes in our capital structure, and \$1 million in depreciation expense.

Pro forma results for the nine months ended June 26, 2015 were adjusted to exclude \$16 million of acquisition costs, \$15 million of share-based compensation expense incurred by Measurement Specialties as a result of the change in control of Measurement Specialties, \$11 million of charges related to the fair value adjustment to acquisition-date inventories, \$7 million of income tax expense based on the estimated impact of combining Measurement Specialties into our global tax position, \$7 million of charges related to acquired customer order backlog, and \$1 million of charges related to the amortization of the fair value of acquired intangible assets. In addition, pro forma results for the nine months ended June 26, 2015 were adjusted to include \$2 million of interest expense based on pro forma changes in our capital structure.

Pro forma results for the nine months ended June 27, 2014 were adjusted to include \$16 million of charges related to the amortization of the fair value of acquired intangible assets, \$11 million of charges related to the fair value adjustment to acquisition-date inventories, \$10 million of interest expense based on pro forma changes in our capital structure, \$7 million of charges related to acquired customer order backlog, \$1 million of income tax expense based on the estimated impact of combining Measurement Specialties into our global tax position, and \$1 million in depreciation expense.

Pro forma results do not include any anticipated synergies or other anticipated benefits of the acquisition. Accordingly, the unaudited pro forma financial information is not necessarily indicative of either future results of operations or results that might have been achieved had the Measurement Specialties acquisition occurred at the beginning of fiscal 2014.

During the nine months ended June 26, 2015, we acquired three additional companies for \$242 million in cash, net of cash acquired.

8. Debt

During February 2015, Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, repaid, at maturity, \$250 million of 1.60% senior notes due 2015.

During February 2015, TEGSA issued €550 million (approximately \$617 million using an exchange rate of \$1.12 per €1.00) aggregate principal amount of 1.100% senior notes due March 1, 2023. The notes are TEGSA's unsecured senior obligations and rank equally in right of payment with all existing and any future senior indebtedness of TEGSA and senior to any subordinated indebtedness that TEGSA may incur. The notes are fully and unconditionally guaranteed as to payment on an unsecured basis by TE Connectivity Ltd.

During the first nine months of fiscal 2015, we reclassified \$500 million of senior floating rate notes due 2016 from long-term debt to current maturities of long-term debt on the Condensed Consolidated Balance Sheet.

As of June 26, 2015, TEGSA had \$130 million of commercial paper outstanding at a weighted-average interest rate of 0.43%. TEGSA had \$327 million of commercial paper outstanding at a weighted-average interest rate of 0.30% at September 26, 2014.

The fair value of our debt, based on indicative valuations, was approximately \$4,294 million and \$4,125 million at June 26, 2015 and September 26, 2014, respectively.

9. Guarantees

Tax Sharing Agreement

Effective June 29, 2007, we became the parent company of the former electronics businesses of Tyco International plc ("Tyco International"). On June 29, 2007, Tyco International distributed all of our shares, as well as its shares of its former healthcare businesses ("Covidien"), to its common shareholders (the "separation").

Upon separation, we entered into a Tax Sharing Agreement, under which we share responsibility for certain of our, Tyco International's, and Covidien's income tax liabilities based on a sharing formula for periods prior to and including June 29, 2007. We, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of U.S. income tax liabilities that arise from adjustments made by tax authorities to our, Tyco International's, and Covidien's U.S. income tax returns. The effect of the Tax Sharing Agreement is to indemnify us for 69% of certain liabilities settled in cash by us with respect to unresolved pre-separation tax matters. Pursuant to that indemnification, we have made similar indemnifications to Tyco International and Covidien with respect to 31% of certain liabilities settled in cash by the companies relating to unresolved pre-separation tax matters. If any of the companies responsible for all or a portion of such liabilities were to default in its payment of costs or expenses related to any such liability, we would be responsible for a portion of the defaulting party or parties' obligation. Our indemnification created under the Tax Sharing Agreement qualifies as a guarantee of a third party entity's debt under ASC 460, *Guarantees*. At June 26, 2015 and September 26, 2014, we had a liability of \$17 million and \$21 million, respectively, representing the indemnifications made to Tyco International and Covidien pursuant to the Tax Sharing Agreement.

Other Matters

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At June 26, 2015, we had outstanding letters of credit, letters of guarantee, and surety bonds in the amount of \$369 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

We generally record estimated product warranty costs when contract revenues are recognized under the percentage-of-completion method for construction related contracts; other warranty reserves are not significant. The estimation is based primarily on historical experience and actual warranty claims. Amounts accrued for warranty claims were \$32 million and \$29 million at June 26, 2015 and September 26, 2014, respectively.

10. Commitments and Contingencies

Legal Proceedings

In the ordinary course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed below in "Income Tax Matters" could have a material effect on our results of operations, financial position, or cash flows.

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. On July 13, 2015, the court entered a verdict in favor of the sellers and against us in the amount of \$126 million plus costs, representing the \$80 million contingent purchase price plus interest. We are proceeding with an appeal. In connection with this case, we recorded a reserve and pre-tax charges of \$126 million in the third quarter of fiscal 2015. These charges are reflected in income (loss) from discontinued operations on the Condensed Consolidated Statement of Operations as the Com-Net case was associated with our former Wireless Systems business which was sold in fiscal 2009.

Income Tax Matters

The Tax Sharing Agreement generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. See Note 9 for additional information regarding the Tax Sharing Agreement.

In October 2012, the Internal Revenue Service ("IRS") issued special agreement Forms 870-AD, effectively settling its audit of all tax matters for the years 1997 through 2000, excluding one issue that remains in dispute. The disputed issue involves the tax treatment of certain intercompany debt transactions. The IRS field examination asserted that certain intercompany loans originated during the years 1997 through 2000 did not constitute debt for U.S. federal income tax purposes and disallowed approximately \$2.7 billion of related interest deductions recognized during the period on Tyco International's U.S. income tax returns. In addition, if the IRS is ultimately successful in asserting its claim, it is likely to disallow an additional \$6.6 billion of interest deductions reflected on U.S. income tax returns in years subsequent to fiscal 2000. Tyco International contends that the intercompany financing qualified as debt for U.S. tax purposes and that the interest deductions reflected on the income tax returns were appropriate. The IRS and Tyco International were unable to resolve this

10. Commitments and Contingencies (Continued)

matter through the IRS appeals process. On June 20, 2013, Tyco International advised us that it had received Notices of Deficiency from the IRS for certain former U.S. subsidiaries of Tyco International increasing taxable income by approximately \$2.9 billion in connection with the audit of Tyco International's fiscal years 1997 through 2000. The Notices of Deficiency assert that Tyco International owes additional taxes totaling \$778 million, associated penalties of \$154 million, and withholding taxes of \$105 million. In addition, Tyco International received Final Partnership Administrative Adjustments for certain U.S. partnerships owned by former U.S. subsidiaries with respect to which Tyco International estimates an additional tax deficiency of approximately \$30 million will be asserted. The amounts asserted by the IRS exclude any applicable deficiency interest, and do not reflect any impact to subsequent period tax liabilities in the event that the IRS were to prevail on some or all of its assertions. We understand that Tyco International strongly disagrees with the IRS position and has filed petitions in the U.S. Tax Court contesting the IRS' proposed adjustments. Tyco International has advised us that it believes there are meritorious defenses for the tax filings in question and that the IRS positions with regard to these matters are inconsistent with the applicable tax laws and existing U.S. Treasury regulations.

The previously set U.S. Tax Court trial date of February 29, 2016 has been delayed at the request of the IRS and is anticipated to commence during the second half of calendar 2016. The parties remain engaged in discovery. We do not expect any payments to the IRS with respect to these matters until they are fully and finally resolved. In accordance with the Tax Sharing Agreement, we, Tyco International, and Covidien would share 31%, 27%, and 42%, respectively, of any payments made in connection with these matters.

If the IRS were to prevail on its assertions, our share of the assessed tax, deficiency interest, and applicable withholding taxes and penalties could have a material adverse impact on our results of operations, financial position, and cash flows. We have reviewed the Notices of Deficiency, the relevant facts surrounding the intercompany debt transactions, relevant tax regulations, and applicable case law, and we continue to believe that we are appropriately reserved for these matters.

In the first quarter of fiscal 2015, the IRS issued general agreement Forms 870, effectively settling its audits of tax matters for the years 2001 through 2007, excluding the disputed issue involving certain intercompany loans originated during the years 1997 through 2000. As a result of these developments, in the first nine months of fiscal 2015, we recognized an income tax benefit of \$202 million, representing a reduction in tax reserves for the matters that were effectively settled, and other expense of \$89 million, representing a reduction of associated indemnification receivables, pursuant to the Tax Sharing Agreement with Tyco International and Covidien.

During the first nine months of fiscal 2015 and 2014, we made net payments of \$23 million and \$179 million, respectively, related to pre-separation U.S. tax matters. Over the next twelve months, we expect to make net cash payments of approximately \$18 million in connection with pre-separation U.S. tax matters.

During fiscal 2012, the IRS commenced its audit of our income tax returns for the years 2008 through 2010. We expect the 2008 through 2010 audit to conclude in fiscal 2015.

10. Commitments and Contingencies (Continued)

At June 26, 2015 and September 26, 2014, we have reflected \$20 million and \$51 million, respectively, of income tax liabilities related to the audits of Tyco International's and our income tax returns in accrued and other current liabilities as certain of these matters could be resolved within the next twelve months.

We believe that the amounts recorded on our Condensed Consolidated Financial Statements relating to the matters discussed above are appropriate. However, the ultimate resolution is uncertain and could result in a material impact to our results of operations, financial position, or cash flows.

Environmental Matters

We are involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. The ultimate cost of site cleanup is difficult to predict given the uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods. As of June 26, 2015, we concluded that it was probable that we would incur remedial costs in the range of \$17 million to \$38 million, and that the best estimate within this range was \$20 million. We believe that any potential payment of such estimated amounts will not have a material adverse effect on our results of operations, financial position, or cash flows.

11. Financial Instruments

Hedges of Net Investment

We hedge our net investment in certain foreign operations using intercompany non-derivative financial instruments denominated in the same currencies. The aggregate notional value of these hedges was \$4,331 million and \$2,893 million at June 26, 2015 and September 26, 2014, respectively. For the quarter and nine months ended June 26, 2015, we recorded foreign exchange losses of \$53 million and foreign exchange gains of \$359 million, respectively, as currency translation, a component of accumulated other comprehensive loss, offsetting foreign exchange gains and losses attributable to the translation of the net investment. Foreign exchange gains and losses recorded as currency translation were immaterial for the quarter and nine months ended June 27, 2014.

In the third quarter of fiscal 2015, we entered into cross-currency swap contracts with an aggregate notional value of €600 million to reduce our exposure to foreign currency exchange risk associated with certain intercompany loans. Under the terms of these contracts, which have been designated as cash flow hedges, we will make quarterly interest payments in euros at 3.50% per annum and receive interest in U.S. dollars at a weighted average rate of 5.36% per annum. Upon the maturities of these contracts in fiscal 2022, we will pay the principal amount of the loans in euros and receive U.S. dollars from our counterparties.

During the nine months ended June 26, 2015, we contributed \$46 million to our non-U.S. pension plans.

13. Income Taxes

We recorded income tax provisions of \$100 million and \$102 million for the quarters ended June 26, 2015 and June 27, 2014, respectively. For the nine months ended June 26, 2015 and June 27, 2014, we recorded income tax provisions of \$85 million and \$331 million, respectively. The tax provision for the nine months ended June 26, 2015 reflects a \$202 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007, and an income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards. The tax provision for the nine months ended June 27, 2014 reflects income tax charges related to adjustments to prior year income tax returns, as well as an income tax charge related to the impact of certain non-U.S. tax law changes and the associated increase in the valuation allowance for tax loss carryforwards.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****13. Income Taxes (Continued)**

We record accrued interest as well as penalties related to uncertain tax positions as part of the provision for income taxes. As of June 26, 2015, we had recorded \$1,069 million of accrued interest and penalties related to uncertain tax positions on the Condensed Consolidated Balance Sheet, of which \$1,062 million was recorded in income taxes and the remainder was recorded in accrued and other current liabilities. During the nine months ended June 26, 2015, we recognized a \$14 million income tax benefit related to interest and penalties on the Condensed Consolidated Statement of Operations. As of September 26, 2014, the balance of accrued interest and penalties was \$1,136 million, of which \$1,115 million was recorded in income taxes and the remainder was recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheet.

Although it is difficult to predict the timing or results of our worldwide examinations, we estimate that up to approximately \$70 million of unrecognized income tax benefits, excluding the impact relating to accrued interest and penalties, could be resolved within the next twelve months. See Note 10 for additional information regarding the status of IRS examinations.

We are not aware of any other matters that would result in significant changes to the amount of unrecognized income tax benefits reflected on the Condensed Consolidated Balance Sheet as of June 26, 2015.

14. Other Income (Expense), Net

During the quarters ended June 26, 2015 and June 27, 2014, we recorded net other income of \$11 million and \$9 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. See Note 9 for further information regarding the Tax Sharing Agreement.

During the nine months ended June 26, 2015 and June 27, 2014, we recorded net other expense of \$64 million and net other income of \$57 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. The net other expense for the nine months ended June 26, 2015 included \$89 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 10 for additional information. The net other income for the nine months ended June 27, 2014 included \$18 million of income related to our share of a settlement agreement entered into by Tyco International with a former subsidiary, CIT Group Inc., which arose from a pre-separation claim for which we were entitled to 31% once resolved.

For the nine months ended June 26, 2015, there were one million share options that were not included in the computation of diluted earnings per share because the instruments' underlying exercise prices were greater than the average market prices of our common shares and inclusion would be antidilutive.

16. Equity***Common Shares Held in Treasury***

In March 2015, our shareholders approved the cancellation of five million shares purchased under our share repurchase program during the period from December 28, 2013 to December 26, 2014. The capital reduction by cancellation of these shares was subject to a notice period and filing with the commercial register in Switzerland and became effective in May 2015.

Dividends

We paid a cash dividend of \$0.29 per share to shareholders out of contributed surplus in each of the first and second quarters of fiscal 2015.

In March 2015, our shareholders approved a dividend payment to shareholders of \$1.32 (equivalent to CHF 1.33) per share out of contributed surplus, payable in four equal quarterly installments beginning in the third quarter of fiscal 2015 through the second quarter of fiscal 2016. We paid the first installment of the dividend at a rate of \$0.33 per share in the third quarter of fiscal 2015.

Upon shareholders' approval of a dividend payment, we record a liability with a corresponding charge to contributed surplus. At June 26, 2015 and September 26, 2014, the unpaid portion of the dividends recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheets totaled \$400 million and \$236 million, respectively.

Share Repurchase Program

In the second quarter of fiscal 2015, our board of directors authorized an increase of \$3.0 billion in the share repurchase program. Common shares repurchased under the share repurchase program were as follows:

As of June 26, 2015, there was \$160 million of unrecognized compensation expense related to share-based awards, which is expected to be recognized over a weighted-average period of 1.7 years.

During the first quarter of fiscal 2015, we granted the following equity awards as part of our annual incentive plan grant:

	Shares (in millions)	Weighted- Average Grant-Date Fair Value
Share options	1.7	\$ 18.82
Restricted share awards	1.1	61.50
Performance share awards	0.2	61.50

As of June 26, 2015, we had 19 million shares available for issuance under our stock and incentive plans, of which the TE Connectivity Ltd. 2007 Stock and Incentive Plan, as amended and restated, is the primary plan.

Share-Based Compensation Assumptions

The weighted-average assumptions we used in the Black-Scholes-Merton option pricing model for the options granted as part of our annual incentive plan grant were as follows:

Expected share price volatility	36%
Risk free interest rate	1.97%
Expected annual dividend per share	\$ 1.16
Expected life of options (in years)	6.0

18. Segment Data

During fiscal 2015, we reorganized our management structure and segments to better align the organization around our strategy. See Note 1 for additional information regarding our current segment structure.

The following segment information reflects the current segment reporting structure. Prior period segment results have been restated to conform to the current segment structure.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Condensed Consolidated Financial Statements and the accompanying notes included elsewhere in this Quarterly Report. The following discussion may contain forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements as a result of many factors, including but not limited to those under the heading "Forward-Looking Information" and "Part II. Item 1A. Risk Factors."

Our Condensed Consolidated Financial Statements have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP").

The following discussion includes organic net sales growth and free cash flow which are non-GAAP financial measures. We believe these non-GAAP financial measures, together with GAAP financial measures, provide useful information to investors because they reflect the financial measures that management uses in evaluating the underlying results of our operations. See "Non-GAAP Financial Measures" for more information about these non-GAAP financial measures, including our reasons for including the measures and material limitations with respect to the usefulness of the measures.

Overview

TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") is a global technology leader. We design and manufacture connectivity and sensor solutions essential in today's increasingly connected world. We help our customers solve the need for intelligent, efficient, and high-performing products and solutions.

As discussed in Note 1 to the Condensed Consolidated Financial Statements, during fiscal 2015, we reorganized our management structure and segments to better align the organization around our strategy. We now operate through three reportable segments: Transportation Solutions, Industrial Solutions, and Communications Solutions. Prior period segment results have been restated to conform to the current segment reporting structure.

Highlights for the third quarter and first nine months of fiscal 2015 include the following:

Our net sales increased 1.4% and 3.9% in the third quarter and first nine months of fiscal 2015, respectively, as compared to the same periods of fiscal 2014 due to sales increases in the Transportation Solutions and Communications Solutions segments, partially offset by sales declines in the Industrial Solutions segment.

On an organic basis, net sales increased 4.2% and 5.1% in the third quarter and first nine months of fiscal 2015, respectively, as compared to the same periods of fiscal 2014. Our organic net sales by segment were as follows:

Transportation Solutions Our organic net sales increased 3.9% and 4.8% in the third quarter and first nine months of fiscal 2015, respectively, due primarily to sales increases in the automotive end market.

Industrial Solutions Our organic net sales decreased 1.3% during the third quarter of fiscal 2015 due primarily to a decline in sales in the aerospace, defense, oil, and gas end market. In the first nine months of fiscal 2015, our organic net sales increased 2.1% as a result of sales increases in all end markets.

Communications Solutions Our organic net sales increased 12.2% and 9.5% in the third quarter and first nine months of fiscal 2015, respectively, due primarily to sales increases in the subsea communications end market, partially offset by sales decreases in the data and devices end market.

Net cash provided by continuing operating activities decreased \$63 million to \$1,079 million in the first nine months of fiscal 2015 from \$1,142 million in the same period of fiscal 2014. Free cash flow decreased to \$687 million in the first nine months of fiscal 2015 as compared to \$901 million in the same period of fiscal 2014.

In March 2015 our shareholders approved a dividend payment to shareholders of \$1.32 per issued share payable in four equal quarterly installments of \$0.33 beginning with the third fiscal quarter of 2015 and ending in the second fiscal quarter of 2016.

In October 2014 we acquired Measurement Specialties, Inc. ("Measurement Specialties"), and in January 2015 we entered into a definitive agreement to sell our Broadband Network Solutions ("BNS") business.

Outlook

In the fourth quarter of fiscal 2015, we expect net sales to be between \$3.02 billion and \$3.18 billion. This reflects sales increases in the Transportation Solutions and, to a lesser degree, the Communications Solutions segments, partially offset by a sales decrease in the Industrial Solutions segment relative to the fourth quarter of fiscal 2014. Additional information regarding expectations for our reportable segments for the fourth quarter of fiscal 2015 is as follows:

Transportation Solutions We expect continued strength in the automotive end market in the fourth quarter of fiscal 2015; however, we anticipate that our sales growth will be more than offset by the negative impact of changes in foreign currency exchange rates. Also, we expect continued weakness in the commercial transportation end market. The acquisition of Measurement Specialties will benefit our sales in the sensors end market.

Industrial Solutions We expect our sales to decrease in the fourth quarter of fiscal 2015 as a result of uncertain market conditions in China and continued weakness in the oil and gas market.

Communications Solutions We expect continued strength in the subsea communications end market, with sales of approximately \$200 million in the fourth quarter of fiscal 2015. Our sales in the data and devices end market will be negatively impacted by the exit of certain product lines.

We expect diluted earnings per share from continuing operations to be in the range of \$0.81 to \$0.87 per share in the fourth quarter of fiscal 2015. This outlook reflects continued market weakness in China. Also, it reflects the negative impact of foreign currency exchange rates on net sales and earnings per share from continuing operations of approximately \$244 million and \$0.10 per share, respectively, in the fourth quarter of fiscal 2015 as compared to the same period of fiscal 2014.

For fiscal 2015, we expect net sales to be between \$12.28 billion and \$12.42 billion, primarily reflecting sales increases in Transportation Solutions and Communications Solutions. Additional information regarding expectations for our reportable segments for fiscal 2015 is as follows:

Transportation Solutions During fiscal 2015, we expect our shipments into the automotive end market to outpace an anticipated 2% growth in global automotive production as compared to fiscal 2014 levels. However, we expect that our sales growth will be more than offset by the negative impact of changes in foreign currency exchange rates. The Measurement Specialties acquisition will benefit our sales in the sensors end market.

Industrial Solutions We expect our sales to decrease during fiscal 2015 as a result of uncertain market conditions in China and continued weakness in the oil and gas market.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Communications Solutions We expect our sales in the subsea communications end market to be over \$700 million in fiscal 2015.

We expect diluted earnings per share from continuing operations to be in the range of \$3.48 to \$3.54 per share in fiscal 2015. This outlook reflects the negative impact of foreign currency exchange rates on

net sales and earnings per share from continuing operations of approximately \$925 million and \$0.32 per share, respectively, in fiscal 2015 as compared to fiscal 2014.

The above outlook is based on foreign exchange rates and commodity prices that are consistent with current levels.

We are monitoring the current macroeconomic environment, including the weakening market conditions in China, and its potential effects on our customers and the end markets we serve. Additionally, we continue to closely manage our costs in line with economic conditions. We also are managing our capital resources and monitoring capital availability to ensure that we have sufficient resources to fund future capital needs. See further discussion in "Liquidity and Capital Resources."

Acquisition

On October 9, 2014, we acquired 100% of the outstanding shares of Measurement Specialties, a leading global designer and manufacturer of sensors and sensor-based systems, for \$86.00 in cash per share. The total value paid was approximately \$1.7 billion, net of cash acquired, and included \$225 million for the repayment of Measurement Specialties' debt and accrued interest. This business has been reported as part of our Transportation Solutions segment from the date of acquisition. See additional information regarding the Measurement Specialties acquisition in Note 4 to the Condensed Consolidated Financial Statements.

Discontinued Operations

On January 27, 2015, we entered into a definitive agreement to sell our BNS business for \$3.0 billion in cash, subject to a final working capital adjustment. The transaction is expected to close during calendar 2015 pending customary closing conditions and regulatory approvals.

The BNS business met the held for sale and discontinued operations criteria and has been reported as such in all periods presented in our Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was a component of the former Network Solutions segment.

See Note 3 to the Condensed Consolidated Financial Statements for additional information regarding discontinued operations.

Results of Operations

Key business factors that influenced our results of operations for the periods discussed in this report include:

Raw material prices. We expect to purchase approximately 161 million pounds of copper, 127,000 troy ounces of gold, and 2.5 million troy ounces of silver in fiscal 2015. Prices of these raw materials continue to fluctuate. The following table sets forth the average prices incurred related to copper, gold, and silver.

	Measure	For the Quarters Ended		For the Nine Months Ended	
		June 26, 2015	June 27, 2014	June 26, 2015	June 27, 2014
Copper	Lb.	\$ 3.04	\$ 3.26	\$ 3.09	\$ 3.34
Gold	Troy oz.	1,262	1,384	1,275	1,425
Silver	Troy oz.	18.52	22.38	19.01	23.94

Foreign exchange. Approximately 55% of our net sales are invoiced in currencies other than the U.S. dollar. Our results of operations are influenced by changes in foreign currency exchange rates. Increases or decreases in the value of the U.S. dollar, compared to other currencies, will directly affect our reported results as we translate those currencies into U.S. dollars at the end of each fiscal period.

Consolidated Operations

Net Sales. Net sales increased \$43 million, or 1.4%, to \$3,118 million in the third quarter of fiscal 2015 from \$3,075 million in the third quarter of fiscal 2014. Measurement Specialties contributed net sales of \$143 million in the third quarter of fiscal 2015. On an organic basis, net sales increased \$129 million, or 4.2%, in the third quarter of fiscal 2015 from the third quarter of fiscal 2014 due to sales increases in the Communications Solutions and Transportation Solutions segments, partially offset by sales declines in the Industrial Solutions segment. Also, price erosion adversely affected organic sales by \$63 million in the third quarter of fiscal 2015. Foreign currency exchange rates negatively impacted net sales by \$278 million in the third quarter of fiscal 2015 as compared to the same period of fiscal 2014.

In the first nine months of fiscal 2015, net sales increased \$348 million, or 3.9%, to \$9,249 million from \$8,901 million in the first nine months of fiscal 2014. Measurement Specialties contributed net sales of \$406 million in the first nine months of fiscal 2015. On an organic basis, net sales increased \$452 million, or 5.1%, in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014 as a result of sales increases in the Transportation Solutions and Communications Solutions segments and, to a lesser degree, the Industrial Solutions segment. Also, price erosion adversely affected organic sales by \$154 million in the first nine months of fiscal 2015. Foreign currency exchange rates negatively impacted net sales by \$642 million in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014.

Gross Margin. In the third quarter of fiscal 2015, gross margin was \$1,048 million, reflecting a \$30 million increase from gross margin of \$1,018 million in the third quarter of fiscal 2014. Gross margin as a percentage of net sales increased to 33.6% in the third quarter of fiscal 2015 from 33.1% in the third quarter of fiscal 2014. Gross margin increased in the third quarter of fiscal 2015 as compared to the same period of fiscal 2014 due primarily to improved manufacturing productivity and higher volume, partially offset by the negative impact of changes in foreign exchange rates and price erosion.

In the first nine months of fiscal 2015, gross margin increased \$161 million to \$3,119 million as compared to \$2,958 million in the first nine months of fiscal 2014. In the first nine months of fiscal 2015, gross margin as a percentage of net sales increased to 33.7% from 33.2% in the same period of fiscal 2014. In the first nine months of fiscal 2015, gross margin included charges of \$34 million from the amortization of acquisition-related fair value adjustments to acquired inventories and customer order backlog primarily associated with Measurement Specialties. Excluding these charges, gross margin increased in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014 primarily as a result of higher volume and improved manufacturing productivity, partially offset by the negative impact of changes in foreign exchange rates and price erosion.

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses were \$393 million in the third quarter of fiscal 2015 as compared to \$396 million in the third quarter of fiscal 2014. Cost control measures and savings attributable to restructuring actions were offset by the additional selling, general, and administrative expenses of Measurement Specialties. Selling, general, and

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

administrative expenses as a percentage of net sales decreased to 12.6% in the third quarter of fiscal 2015 from 12.9% in the same period of fiscal 2014.

Selling, general, and administrative expenses increased \$16 million to \$1,170 million in the first nine months of fiscal 2015 as compared to \$1,154 million in the same period of fiscal 2014. The increase resulted primarily from the additional selling, general, and administrative expenses of

Measurement Specialties, partially offset by cost control measures and savings attributable to restructuring actions. In the first nine months of fiscal 2015, selling, general, and administrative expenses as a percentage of net sales decreased to 12.7% from 13.0% in the same period of fiscal 2014.

Research, Development, and Engineering Expenses. Research, development, and engineering expenses increased \$12 million to \$159 million in the third quarter of fiscal 2015 from \$147 million in the third quarter of fiscal 2014. In the first nine months of fiscal 2015, research, development, and engineering expenses increased \$46 million to \$479 million as compared to \$433 million in the same period of fiscal 2014. The increases resulted from additional expenses related to acquisitions and growth initiatives, primarily in the Transportation Solutions segment.

Acquisition and Integration Costs. During the third quarter and first nine months of fiscal 2015, we incurred acquisition and integration costs of \$8 million and \$46 million, respectively, primarily in connection with the acquisitions of Measurement Specialties and the SEACON Group.

Restructuring and Other Charges, Net. We are committed to continuous productivity improvements and consistently evaluate opportunities to simplify our global manufacturing footprint, migrate facilities to lower-cost regions, reduce fixed costs, and eliminate excess capacity. These initiatives are designed to help us maintain our competitiveness in the industry, improve our operating leverage, and position us for future growth. During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions segment. Also, during fiscal 2014, we initiated a restructuring program primarily associated with headcount reductions and manufacturing site and product line closures in the Communications Solutions segment.

In connection with these actions, we recorded net restructuring charges of \$4 million and \$13 million in the third quarters of fiscal 2015 and 2014, respectively. Net restructuring charges were \$65 million and \$18 million in the first nine months of fiscal 2015 and 2014, respectively. We expect to incur net restructuring charges of approximately \$100 million during fiscal 2015. Cash spending related to restructuring was \$72 million during the first nine months of fiscal 2015, and we expect total spending, which will be funded with cash from operations, to be approximately \$105 million in fiscal 2015. Annualized cost savings related to these actions are expected to be approximately \$50 million and are expected to be realized by the end of fiscal 2016. Cost savings will be reflected primarily in cost of sales and selling, general, and administrative expenses.

During the third quarter and first nine months of fiscal 2015, we incurred net other charges of \$15 million and \$17 million, respectively, primarily in connection with the pending sale of our BNS business.

See Note 2 to the Condensed Consolidated Financial Statements for additional information regarding net restructuring and other charges.

Operating Income. Operating income was \$469 million and \$464 million in the third quarters of fiscal 2015 and 2014, respectively. In the first nine months of fiscal 2015, operating income was \$1,342 million as compared to \$1,354 million in the same period of fiscal 2014.

Non-Operating Items

Other Income (Expense), Net. During the quarters ended June 26, 2015 and June 27, 2014, we recorded net other income of \$11 million and \$9 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International plc ("Tyco International") and Covidien plc ("Covidien"). See Note 9 to the Condensed Consolidated Financial Statements for further information regarding the Tax Sharing Agreement.

During the nine months ended June 26, 2015 and June 27, 2014, we recorded net other expense of \$64 million and net other income of \$57 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. The net other expense for the nine months ended June 26, 2015 included \$89 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 10 to the Condensed Consolidated Financial Statements for additional information. The net other income for the nine months ended June 27, 2014 included \$18 million of income related to our share of a settlement agreement entered into by Tyco International with a former subsidiary, CIT Group Inc., which arose from a pre-separation claim for which we were entitled to 31% once resolved.

Income Taxes. We recorded income tax provisions of \$100 million and \$102 million for the quarters ended June 26, 2015 and June 27, 2014, respectively. For the nine months ended June 26, 2015 and June 27, 2014, we recorded income tax provisions of \$85 million and \$331 million, respectively. The tax provision for the nine months ended June 26, 2015 reflects a \$202 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007, and an income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards. The tax provision for the nine months ended June 27, 2014 reflects income tax charges related to adjustments to prior year income tax returns, as well as an income tax charge related to the impact of certain non-U.S. tax law changes and the associated increase in the valuation allowance for tax loss carryforwards.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Net sales in the Transportation Solutions segment increased \$35 million, or 2.2%, to \$1,621 million in the third quarter of fiscal 2015 from \$1,586 million in the third quarter of fiscal 2014. Measurement Specialties contributed net sales of \$143 million in the third quarter of fiscal 2015. The weakening of certain foreign currencies negatively affected net sales by \$174 million in the third quarter of fiscal 2015 as compared to the third quarter of fiscal 2014. Organic net sales increased \$62 million, or 3.9%, during the third quarter of fiscal 2015 as compared to the same period of fiscal 2014. Our organic net sales by primary industry end market were as follows:

Automotive Organic net sales increased 5.7% in the third quarter of fiscal 2015. The increase resulted from growth in all regions due to increased electrification and market share gains.

Table of Contents

Commercial transportation Organic net sales decreased 5.2% in the third quarter of fiscal 2015 as a result of declines in the heavy truck market, primarily in China, and agriculture market weakness, particularly in North America.

Sensors Organic net sales increased 4.3% in the third quarter of fiscal 2015 due primarily to new product launches in the Asia Pacific region, in particular China.

In the third quarter of fiscal 2015, operating income in the Transportation Solutions segment decreased \$22 million to \$303 million from \$325 million in the third quarter of fiscal 2014. Segment results for the third quarter of fiscal 2015 included \$9 million of net restructuring and other charges. Segment results for the third quarter of fiscal 2015 also included \$5 million of acquisition related charges, consisting of \$4 million of acquisition and integration costs and an additional \$1 million of restructuring charges. Excluding these items, operating income decreased in the third quarter of fiscal 2015 as compared to the third quarter of fiscal 2014 due primarily to the negative impact of changes in foreign exchange rates and price erosion, partially offset by higher volume and improved manufacturing productivity.

Nine Months Ended June 26, 2015 Compared to Nine Months Ended June 27, 2014

In the first nine months of fiscal 2015, net sales in the Transportation Solutions segment increased \$246 million, or 5.4%, to \$4,843 million from \$4,597 million in the first nine months of fiscal 2014. Measurement Specialties contributed net sales of \$406 million in the first nine months of fiscal 2015. The weakening of certain foreign currencies negatively affected net sales by \$396 million in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014. Organic net sales increased by \$221 million, or 4.8%, in the first nine months of fiscal 2015 as compared to the first nine months of fiscal 2014. Our organic net sales by primary industry end market were as follows:

Automotive Organic net sales increased 5.8% in the first nine months of fiscal 2015. The increase was due to growth in the Asia Pacific and EMEA regions and North America driven primarily by increased content per vehicle, partially offset by weakness in South America driven by lower production volumes in Brazil.

Commercial transportation Organic net sales were flat in the first nine months of fiscal 2015 as growth in the heavy truck market in developed countries was offset by lower demand in the agriculture market across all regions.

Sensors Organic net sales increased 4.5% in the first nine months of fiscal 2015 due to new product launches in China and North America, partially offset by market weakness in Korea and Eastern Europe.

Operating income in the Transportation Solutions segment decreased \$27 million to \$921 million in the first nine months of fiscal 2015 from \$948 million in the same period of fiscal 2014. Segment results for the first nine months of fiscal 2015 included \$56 million of acquisition related charges, consisting of \$30 million of charges associated with the amortization of acquisition-related fair value adjustments, \$23 million of acquisition and integration costs, and \$3 million of restructuring charges. Segment results for the first nine months of fiscal 2015 also included an additional \$10 million of net restructuring and other charges. Excluding these items, operating income increased in the first nine months of fiscal 2015 over the same period of fiscal 2014 primarily as a result of higher volume and, to a lesser degree, improved manufacturing productivity, partially offset by the negative impact of changes in foreign exchange rates and price erosion.

Quarter Ended June 26, 2015 Compared to Quarter Ended June 27, 2014

Net sales in the Industrial Solutions segment decreased \$43 million, or 5.1%, to \$806 million in the third quarter of fiscal 2015 from \$849 million in the third quarter of fiscal 2014. The weakening of certain foreign currencies negatively affected net sales by \$77 million in the third quarter of fiscal 2015 as compared to the third quarter of fiscal 2014. Organic net sales decreased \$11 million, or 1.3%, during the third

quarter of fiscal 2015 as compared to the same period of fiscal 2014. Our organic net sales by primary industry end market were as follows:

Industrial equipment Organic net sales increased 1.0% in the third quarter of fiscal 2015 as growth in the Asia Pacific and EMEA regions was offset by weakening market conditions in the Americas region.

Table of Contents

Aerospace, defense, oil, and gas Organic net sales decreased 5.0% in the third quarter of fiscal 2015 primarily as a result of continued weakness in the oil and gas market, partially offset by continued strength in our commercial aviation business.

Energy Organic net sales were flat in the third quarter of fiscal 2015 as growth in China and the Americas region was offset by project delays and overall challenging market conditions in the EMEA region.

In the third quarter of fiscal 2015, operating income in the Industrial Solutions segment decreased \$23 million to \$98 million from \$121 million in the third quarter of fiscal 2014. Segment results for the third quarter of fiscal 2015 included \$6 million of net restructuring and other charges and \$5 million of acquisition related charges, consisting of \$4 million of acquisition and integration costs and \$1 million of charges associated with the amortization of acquisition-related fair value adjustments. Segment results for the third quarter of fiscal 2014 included \$1 million of acquisition and integration costs and \$1 million of net restructuring and other charges. Excluding these items, operating income decreased in the third quarter of fiscal 2015 over the same period of fiscal 2014 due primarily to the negative impact of changes in foreign exchange rates and price erosion, partially offset by higher volume.

Nine Months Ended June 26, 2015 Compared to Nine Months Ended June 27, 2014

In the Industrial Solutions segment, net sales of \$2,387 million in the first nine months of fiscal 2015 were flat in comparison to the same period of fiscal 2014. The weakening of certain foreign currencies negatively affected net sales by \$181 million in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014. Organic net sales increased \$50 million, or 2.1%, during the first nine months of fiscal 2015 as compared to the first nine months of fiscal 2014. Our organic net sales by primary industry end market were as follows:

Industrial equipment Organic net sales increased 2.4% in the first nine months of fiscal 2015 due primarily to growth in the Asia Pacific and EMEA regions.

Aerospace, defense, oil, and gas Organic net sales increased 2.4% in the first nine months of fiscal 2015. The increase was attributable to strength in our commercial aviation business due to customer growth and market share gains, partially offset by weakness in the oil and gas market.

Energy Organic net sales increased 1.4% in the first nine months of fiscal 2015 primarily as a result of strong growth rates in the Americas and Asia Pacific regions, partially offset by a decline in the EMEA region.

Operating income in the Industrial Solutions segment decreased \$50 million to \$268 million in the first nine months of fiscal 2015 from \$318 million in the same period of fiscal 2014. Segment results for the first nine months of fiscal 2015 included \$24 million of net restructuring and other charges and \$27 million of acquisition related charges, consisting of \$23 million of acquisition and integration costs and \$4 million of charges associated with the amortization of acquisition-related fair value adjustments. Segment results for the first nine months of fiscal 2014 included \$7 million of net restructuring and other charges and \$2 million of acquisition and integration costs. Excluding these items, operating income decreased in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014 primarily as a result of the negative impact of changes in foreign exchange rates and price erosion, partially offset by higher volume.

Appliances Organic net sales decreased 3.3% in the third quarter of fiscal 2015 as a result of declines in sales in the Americas and Asia Pacific regions, partially offset by growth in the EMEA region.

Subsea communications Organic net sales increased 288.5% in the third quarter of fiscal 2015 as a result of increased levels of project activity.

In the third quarter of fiscal 2015, operating income in the Communications Solutions segment increased \$50 million to \$68 million from \$18 million in fiscal 2014. Segment results included net restructuring and other charges of \$3 million and \$9 million in the third quarters of fiscal 2015 and 2014, respectively. Excluding these items, operating income increased in the third quarter of fiscal 2015 as compared to the third quarter of fiscal 2014 due primarily to improved manufacturing productivity, partially offset by price erosion.

Nine Months Ended June 26, 2015 Compared to Nine Months Ended June 27, 2014

In the first nine months of fiscal 2015, net sales in the Communications Solutions segment increased \$116 million, or 6.1%, to \$2,019 million from \$1,903 million in the same period of fiscal 2014. The weakening of certain foreign currencies negatively affected net sales by \$65 million in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014. Organic net sales increased \$181 million, or 9.5%, during the first nine months of fiscal 2015 as compared to the first nine months of fiscal 2014. Our organic net sales by primary industry end market were as follows:

Data and devices Organic net sales decreased 11.6% in the first nine months of fiscal 2015 due to continued declines in our sales in the mobile phone market, weak demand in the tablet computer market, and the exit of certain product lines.

Appliances Organic net sales increased 2.8% during the first nine months of fiscal 2015 due primarily to strong demand in the EMEA region and a rebound in the U.S. market.

Subsea communications Organic net sales increased 155.6% in the first nine months of fiscal 2015 as a result of increased levels of project activity.

Operating income in the Communications Solutions segment increased \$65 million to \$153 million in the first nine months of fiscal 2015 from \$88 million in the same period of fiscal 2014. Segment results included net restructuring and other charges of \$45 million and \$8 million in the first nine months of fiscal 2015 and 2014, respectively. Excluding these items, operating income increased in the first nine months of fiscal 2015 as compared to the same period of fiscal 2014 primarily as a result of improved manufacturing productivity, partially offset by price erosion.

Liquidity and Capital Resources

Our ability to fund our future capital needs will be affected by our ability to continue to generate cash from operations and may be affected by our ability to access the capital markets, money markets, or other sources of funding, as well as the capacity and terms of our financing arrangements. We believe that cash generated from operations and, to the extent necessary, these other sources of potential funding will be sufficient to meet our anticipated capital needs for the foreseeable future, including the payment of \$500 million of senior floating rate notes due in January 2016. We may use excess cash to reduce our outstanding debt, including through the possible repurchase of our debt in accordance with applicable law, to purchase a portion of our common shares pursuant to our authorized share repurchase program, to pay distributions or dividends on our common shares, or to acquire strategic businesses or product lines. The cost or availability of future funding may be impacted by financial market conditions. We will continue to monitor financial markets and respond as necessary to changing conditions.

Cash Flows from Operating Activities

In the first nine months of fiscal 2015, net cash provided by continuing operating activities decreased \$63 million to \$1,079 million from \$1,142 million in the first nine months of fiscal 2014. The decrease resulted primarily from the unfavorable effects of changes in inventory levels, partially offset by increased income levels.

The amount of income taxes paid, net of refunds, during the first nine months of fiscal 2015 and 2014 was \$281 million and \$185 million, respectively. In the first nine months of fiscal 2015, these payments included \$30 million for deficiencies related to pre-separation U.S. tax matters. In the first nine months of fiscal 2015, we received net reimbursements of \$7 million from Tyco International and Covidien pursuant to their indemnifications for pre-separation U.S. tax matters. In the first nine months of fiscal 2014, we made net payments of \$179 million to Tyco International and Covidien pursuant to our indemnifications for pre-separation U.S. tax matters. We expect to make net cash payments related to pre-separation U.S. tax matters of approximately \$18 million during the next twelve months. These amounts include payments in which we are the primary obligor to the taxing authorities and for which we expect a portion to be reimbursed by Tyco International and Covidien under the Tax Sharing Agreement, as well as indemnification payments to Tyco International and Covidien under the Tax Sharing Agreement for tax matters where they are the primary obligor to the taxing authorities. See Note 10 to the Condensed Consolidated Financial Statements for additional information related to pre-separation tax matters.

In addition to net cash provided by operating activities, we use free cash flow, a non-GAAP financial measure, as a useful measure of our ability to generate cash. Free cash flow was \$687 million in the first nine months of fiscal 2015 as compared to \$901 million in the first nine months of fiscal 2014. The decrease in free cash flow was driven primarily by the changes in net cash provided by continuing operating activities discussed above and the timing of net tax payments related to pre-separation tax matters.

The following table sets forth a reconciliation of net cash provided by continuing operating activities, the most comparable GAAP financial measure, to free cash flow.

Cash Flows from Investing Activities

Capital spending decreased \$20 million in the first nine months of fiscal 2015 to \$425 million as compared to \$445 million in the first nine months of fiscal 2014. We expect fiscal 2015 capital spending levels to be approximately 5% of net sales. We believe our capital funding levels are adequate to support new programs, and we continue to invest in our manufacturing infrastructure to further enhance productivity and manufacturing capabilities.

In the first quarter of fiscal 2015, we acquired Measurement Specialties. The total value paid for the transaction was approximately \$1.7 billion, net of cash acquired, and included \$225 million for the repayment of Measurement Specialties' debt and accrued interest. See additional information in Note 4 to the Condensed Consolidated Financial Statements.

Cash Flows from Financing Activities and Capitalization

Total debt at June 26, 2015 and September 26, 2014 was \$4,026 million and \$3,858 million, respectively.

During February 2015, Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, repaid, at maturity, \$250 million of 1.60% senior notes due 2015.

During February 2015, TEGSA issued €550 million (approximately \$617 million using an exchange rate of \$1.12 per €1.00) aggregate principal amount of 1.100% senior notes due March 1, 2023. The notes are TEGSA's unsecured senior obligations and rank equally in right of payment with all existing and any future senior indebtedness of TEGSA and senior to any subordinated indebtedness that TEGSA may incur. The notes are fully and unconditionally guaranteed as to payment on an unsecured basis by TE Connectivity Ltd.

TEGSA has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. This facility expires in August 2018. TEGSA had no borrowings under the Credit Facility at June 26, 2015 and September 26, 2014.

The Credit Facility contains a financial ratio covenant providing that if, as of the last day of each fiscal quarter, our ratio of Consolidated Total Debt (as defined in the Credit Facility) to Consolidated EBITDA (as defined in the Credit Facility) for the then most recently concluded period of four consecutive fiscal quarters exceeds 3.75 to 1.0, an Event of Default (as defined in the Credit Facility) is triggered. The Credit Facility and our other debt agreements contain other customary covenants. None of our covenants are presently considered restrictive to our operations. As of June 26, 2015, we were in compliance with all of our debt covenants and believe that we will continue to be in compliance with our existing covenants for the foreseeable future.

In addition to the Credit Facility, TEGSA is the borrower under the outstanding senior notes and commercial paper. TEGSA's payment obligations under its senior notes, commercial paper, and Credit Facility are fully and unconditionally guaranteed by its parent, TE Connectivity Ltd.

Payments of common share dividends to shareholders were \$370 million and \$324 million in the first nine months of fiscal 2015 and 2014, respectively. We paid a cash dividend of \$0.29 per share to shareholders out of contributed surplus in each of the first and second quarters of fiscal 2015.

In March 2015, our shareholders approved a dividend payment to shareholders of \$1.32 (equivalent to CHF 1.33) per share out of contributed surplus, payable in four equal quarterly installments beginning in the third quarter of fiscal 2015 through the second quarter of fiscal 2016. We paid the first installment of the dividend at a rate of \$0.33 per share in the third quarter of fiscal 2015.

In the second quarter of fiscal 2015, our board of directors authorized an increase of \$3.0 billion in the share repurchase program. We repurchased approximately eight million of our common shares

Table of Contents

for \$536 million and approximately eight million of our common shares for \$441 million under our share repurchase authorization during the nine months ended June 26, 2015 and June 27, 2014, respectively. At June 26, 2015, we had \$3.3 billion of availability remaining under our share repurchase authorization.

Commitments and Contingencies

Legal Proceedings

In the ordinary course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed below in "Income Tax Matters" could have a material effect on our results of operations, financial position, or cash flows.

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. On July 13, 2015, the court entered a verdict in favor of the sellers and against us in the amount of \$126 million plus costs, representing the \$80 million contingent purchase price plus interest. We are proceeding with an appeal. In connection with this case, we recorded a reserve and pre-tax charges of \$126 million in the third quarter of fiscal 2015. These charges are reflected in income (loss) from discontinued operations on the Condensed Consolidated Statement of Operations as the Com-Net case was associated with our former Wireless Systems business which was sold in fiscal 2009.

Income Tax Matters

Effective June 29, 2007, we became the parent company of the former electronics businesses of Tyco International. On June 29, 2007, Tyco International distributed all of our shares, as well as its shares of its former healthcare businesses ("Covidien"), to its common shareholders (the "separation").

In connection with the separation, we entered into a Tax Sharing Agreement that generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. See Note 9 to the Condensed Consolidated Financial Statements for additional information regarding the Tax Sharing Agreement. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. See "Income Tax Matters" in Note 10 to the Condensed Consolidated Financial Statements for further information regarding income tax matters, including the disputed issue related to the tax treatment of certain intercompany debt transactions.

Off-Balance Sheet Arrangements

In certain instances, we have guaranteed the performance of third parties and provided financial guarantees for uncompleted work and financial commitments. The terms of these guarantees vary with end dates ranging from fiscal 2015 through the completion of such transactions. The guarantees would be triggered in the event of nonperformance, and the potential exposure for nonperformance under the

Table of Contents

guarantees would not have a material effect on our results of operations, financial position, or cash flows.

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At June 26, 2015, we had outstanding letters of credit, letters of guarantee, and surety bonds in the amount of \$369 million.

We have recorded liabilities for known indemnifications included as part of environmental liabilities. See Note 10 to the Condensed Consolidated Financial Statements for a discussion of these liabilities.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

Under the Tax Sharing Agreement, we, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of certain contingent liabilities relating to unresolved pre-separation tax matters of Tyco International. The effect of the Tax Sharing Agreement is to indemnify us for 69% of certain liabilities settled in cash by us with respect to unresolved pre-separation tax matters. Pursuant to that indemnification, we have made similar indemnifications to Tyco International and Covidien with respect to 31% of certain liabilities settled in cash by the companies relating to unresolved pre-separation tax matters. If any of the companies responsible for all or a portion of such liabilities were to default in its payment of costs or expenses related to any such liability, we would be responsible for a portion of the defaulting party or parties' obligation. These arrangements were valued upon our separation from Tyco International in accordance with Accounting Standards Codification 460, *Guarantees*. At June 26, 2015, we had a liability of \$17 million representing the indemnifications made to Tyco International and Covidien pursuant to the Tax Sharing Agreement. See Notes 9 and 10 to the Condensed Consolidated Financial Statements for additional information.

Critical Accounting Policies and Estimates

The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenue and expenses.

Our accounting policies for revenue recognition, goodwill and other intangible assets, income taxes, pension and postretirement benefits, acquisitions, and contingent liabilities are based on, among other things, judgments and assumptions made by management. For additional information regarding these policies and the underlying accounting assumptions and estimates used in these policies, refer to the Consolidated Financial Statements and accompanying notes contained in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014. There were no significant changes to this information during the nine months ended June 26, 2015.

Non-GAAP Financial Measures

Organic net sales growth and free cash flow are non-GAAP measures and should not be considered replacements for results in accordance with GAAP. These non-GAAP measures may not be comparable to similarly-titled measures reported by other companies. The primary limitation of these

Table of Contents

measures is that they exclude the financial impact of items that would otherwise either increase or decrease our reported results. This limitation is best addressed by using these non-GAAP measures in combination with the most directly comparable GAAP measures in order to better understand the amounts, character, and impact of any increase or decrease in reported amounts. The following provides additional information regarding these non-GAAP measures.

Organic Net Sales Growth

Organic net sales growth is a useful measure of our underlying results and trends in the business. It is also a significant component in our incentive compensation plans. The difference between reported net sales growth (the most comparable GAAP measure) and organic net sales growth consists of the impact from foreign currency exchange rates and acquisitions and divestitures, if any. Organic net sales growth is a useful measure of our performance because it excludes items that are not completely under management's control, such as the impact of changes in foreign currency exchange rates, and items that do not reflect the underlying growth of the company, such as acquisition and divestiture activity. Management uses organic net sales growth to monitor and evaluate performance. Also, management uses organic net sales growth together with GAAP measures such as net sales growth and operating income in its decision making processes related to the operations of our reportable segments and our overall company. We believe that investors benefit from having access to the same financial measures that management uses in evaluating operations. The tables presented in "Results of Operations" and "Segment Results" above provide reconciliations of organic net sales growth to net sales growth calculated under GAAP.

Free Cash Flow

Free cash flow is a useful measure of our ability to generate cash. The difference between net cash provided by continuing operating activities (the most comparable GAAP measure) and free cash flow consists mainly of significant cash outflows and inflows that we believe are useful to identify. We believe free cash flow provides useful information to investors as it provides insight into the primary cash flow metric used by management to monitor and evaluate cash flows generated from our operations.

Free cash flow is defined as net cash provided by continuing operating activities excluding voluntary pension contributions and the cash impact of special items, if any, minus net capital expenditures. Net capital expenditures consist of capital expenditures less proceeds from the sale of property, plant, and equipment. These items are subtracted because they represent long-term commitments. Voluntary pension contributions are excluded because this activity is driven by economic financing decisions rather than operating activity. Certain special items, including net payments related to pre-separation tax matters, also are considered by management in evaluating free cash flow. We believe investors also should consider these items in evaluating our free cash flow.

Free cash flow subtracts certain cash items that are ultimately within management's and the board of directors' discretion to direct and may imply that there is less or more cash available for our programs than the most comparable GAAP measure indicates. It should not be inferred that the entire free cash flow amount is available for future discretionary expenditures, as our definition of free cash flow does not consider certain non-discretionary expenditures, such as debt payments. In addition, we may have other discretionary expenditures, such as discretionary dividends, share repurchases, and business acquisitions, that are not considered in the calculation of free cash flow.

The tables presented in "Liquidity and Capital Resources" above provide reconciliations of free cash flow to cash flows from continuing operating activities calculated under GAAP.

Forward-Looking Information

Certain statements in this Quarterly Report on Form 10-Q are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include, among others, the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance improvements, acquisitions, divestitures, the effects of competition, and the effects of future legislation or regulations. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "potential," "continue," "may," "should," or the negative of these terms or similar expressions.

Forward-looking statements involve risks, uncertainties, and assumptions. Actual results may differ materially from those expressed in these forward-looking statements. You should not put undue reliance on any forward-looking statements. We do not have any intention or obligation to update forward-looking statements after we file this report except as required by law.

The following and other risks, which are described in greater detail in "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014 and in "Part II. Item 1A. Risk Factors" in our Quarterly Report on Form 10-Q for the quarterly period ended December 26, 2014, could also cause our results to differ materially from those expressed in forward-looking statements:

conditions in the global or regional economies and global capital markets, and cyclical industry conditions;

conditions affecting demand for products in the industries we serve, particularly the automotive industry;

competition and pricing pressure;

market acceptance of new product introductions and product innovations and product life cycles;

raw material availability, quality, and cost;

fluctuations in foreign currency exchange rates;

financial condition and consolidation of customers and vendors;

reliance on third-party suppliers;

risks associated with current and future acquisitions and divestitures;

risks associated with the planned divestiture of our BNS business;

global risks of business interruptions such as natural disasters and political, economic, and military instability;

risks associated with security breaches and other disruptions to our information technology infrastructure;

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

risks related to compliance with current and future environmental and other laws and regulations;

our ability to protect our intellectual property rights;

risks of litigation;

Table of Contents

our ability to operate within the limitations imposed by our debt instruments;

risks relating to our separation on June 29, 2007 from Tyco International;

the possible effects on us of various U.S. and non-U.S. legislative proposals and other initiatives that, if adopted, could materially increase our worldwide corporate effective tax rate and negatively impact our U.S. government contracts business;

various risks associated with being a Swiss corporation;

the impact of fluctuations in the market price of our shares; and

the impact of certain provisions of our articles of association on unsolicited takeover proposals.

There may be other risks and uncertainties that we are unable to predict at this time or that we currently do not expect to have a material adverse effect on our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the third quarter of fiscal 2015, we entered into cross-currency swap contracts with an aggregate notional value of €600 million to reduce our exposure to foreign currency exchange risk associated with certain intercompany loans. See Note 11 to the Condensed Consolidated Financial Statements for further information regarding our exposures to market risk.

There have been no significant changes in our exposures to market risk during the first nine months of fiscal 2015, except for the item noted above. For further discussion of our exposures to market risk, refer to "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended), as of June 26, 2015. Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of June 26, 2015.

Measurement Specialties Acquisition

We acquired Measurement Specialties on October 9, 2014. For additional information regarding the acquisition, see Note 4 to the Condensed Consolidated Financial Statements included in this Quarterly Report.

Securities and Exchange Commission guidance permits management to omit an assessment of an acquired business' internal control over financial reporting from management's assessment of internal control over financial reporting for a period not to exceed one year from the date of acquisition. We are in the process of integrating the Measurement Specialties operations within our internal control structure. Accordingly, we intend to exclude Measurement Specialties from our annual assessment of internal control over financial reporting as of September 25, 2015.

Changes in Internal Control Over Financial Reporting

During the quarter ended June 26, 2015, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

There have been material developments in our legal proceedings since we filed our Quarterly Report on Form 10-Q for the quarterly period ended March 27, 2015, as described under "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Commitments and Contingencies Legal Proceedings" of this report. For a description of our previously reported legal proceedings, refer to "Part I. Item 3. Legal Proceedings" in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014 and "Part I. Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Commitments and Contingencies Legal Proceedings" in our Quarterly Report on Form 10-Q for the quarterly period ended March 27, 2015.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 26, 2014, other than as set forth in "Part II. Item 1A. Risk Factors" in our Quarterly Report on Form 10-Q for the quarterly period ended December 26, 2014. The risk factors described in our Annual Report on Form 10-K and subsequent Quarterly Report on Form 10-Q, in addition to other information set forth in this report, could materially affect our business operations, financial condition, or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial also may impair our business operations, financial condition, and liquidity.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Recent Sales of Unregistered Securities**
