PROXY STATEMENT

This statement is furnished by the Board of Directors of Derma Sciences, Inc. (the *Company*) in connection with the Board's solicitation of proxies for use at its Annual Meeting of Shareholders (the *Meeting*) to be held at 3:30 p.m. on Thursday, May 11, 2006, at the offices of the Company, 214 Carnegie Center, Suite 100, Princeton, New Jersey, 08540, and at any adjournments thereof. The purpose of the Meeting and the matters to be acted upon are set forth in the accompanying Notice of Annual Meeting of Shareholders.

If the accompanying form of Proxy is executed properly and returned, shares represented by it will be voted at the Meeting in accordance with the instructions on the Proxy. However, if no instructions are specified, shares will be voted for the election as directors of those nominees named in the Proxy, for amendment of the Company's Stock Option Plan to increase the shares of Common Stock issuable thereunder to 5,000,000, for adoption of the Restricted Stock Plan and reservation of 2,500,000 shares of Common stock for issuance thereunder, for amendment of the Company's Articles of Incorporation to increase the authorized shares of Common Stock to 50,000,000 and for ratification of the selection of J.H. Cohn LLP as independent registered public accounting firm for the year ended December 31, 2006. The Board knows of no matters which are to be presented for consideration at the Meeting other than those specifically described in the Notice of Annual Meeting of Shareholders, but if other matters are properly presented, it is the intention of the persons designated as proxies to vote on them in accordance with their judgment.

A Proxy may be revoked at any time prior to the time it is voted by written notice to the Secretary of the Company at the above address or by delivery of a proxy bearing a later date. Any shareholder may attend the Meeting and vote in person whether or not a Proxy was previously submitted.

The close of business on April 4, 2006, has been fixed as the record date (the *Record Date*) for the determination of shareholders entitled to notice of, and to vote at, the Meeting. On the Record Date, the Company had 12,285,768 shares of Common Stock, 150,003 shares of Series A Convertible Preferred Stock, 440,003 shares of Series B Convertible Preferred Stock, 619,055 shares of Series C Convertible Preferred Stock and 1,071,346 shares of Series D Convertible Preferred Stock outstanding and entitled to vote. The foregoing shares of Common and Preferred Stock (collectively, *Shares*) are the only voting securities of the Company.

The presence at the Meeting, in person or by proxy, of the holders of 7,283,088 Shares (a majority of the aggregate number of shares of Common Stock and Preferred Stock issued and outstanding and entitled to vote as of the Record Date) is necessary to constitute a quorum to transact business. Proxies marked *Abstain* and broker proxies that have not voted on a particular proposal (*Broker Non-Votes*), if any, will be counted in determining the presence of a quorum. Other than for election of directors (discussed below), each holder of Common Stock and Preferred Stock as of the Record Date is entitled to one vote per Share.

Election of the director nominees named in Proposal No. 1 requires the affirmative vote of a plurality of the total number of votes cast for the election of directors at the Meeting by the holders of Common Stock and Preferred Stock, voting together as a single class. Votes may be cast in favor of or withheld with respect to all of the director nominees, or any of them. Abstentions and Broker Non-Votes, if any, will not be counted as having been voted and will have no effect on the election of directors except to the extent the failure to vote for a nominee results in another nominee receiving a larger number of votes. Shareholders may cumulate their votes in the election of directors.

That is, shareholders may multiply the number of Shares owned and entitled to vote at the Meeting by the number of directors (8) to be elected and cast the resulting number of votes for any one or more candidates.

Adoption of Proposals No. 2 through No. 5 requires the affirmative vote of a majority of the total number of shares of the Common Stock and Preferred Stock represented and entitled to vote at the Meeting, voting together as a single class. In determining whether Proposals No. 2 through No. 5 have received the requisite number of affirmative votes, abstentions will be counted and will have the same effect as votes against the proposals, and broker non-votes, if any, will have no effect on the votes for the proposals.

The expense of solicitation will be borne by the Company. The solicitation of Proxies will be largely by mail, but may include telephonic, telegraphic or oral communications by officers or other representatives of the Company. The Company will also reimburse brokers or other persons holding shares in their names or in the names of their nominees for reasonable out-of-pocket expenses in connection with forwarding Proxies and proxy materials to the beneficial owners of such shares.

It is expected that the Notice of Annual Meeting, Proxy Statement and form of Proxy will first be mailed to shareholders on or about April 8, 2006.

PROPOSAL 1 ELECTION OF DIRECTORS

A board of eight directors, constituting the entire Board of Directors specified by the bylaws of the Company, will be elected at the Meeting by the shareholders of the Company to hold office until their successors have been elected and qualify. It is intended that, unless authorization to do so is withheld, the proxies will be voted FOR the election of the director nominees named below. Each nominee has consented to be named in this Proxy Statement and to serve as a director if elected. Compensation of Directors

Upon election or appointment, outside directors receive options to purchase 20,000 shares of the Company's Common Stock at a price per share equal to the fair market value of the Common Stock on the date of the option grant. These options vest at the rate of 5,000 on the date of grant and 5,000 per year thereafter. These options vested at the rate of 55,000 on the date of grant and 5,000 per year thereafter. If shareholders approve adoption of the Company's Restricted Stock Plan, the foregoing compensation formula will be modified as follows: (i) the annual grant to outside directors of options to purchase shares of the Company's Common Stock will be reduced to 25,000, such options to vest at the rate of 10,000 on the date of grant and 5,000 per year thereafter, and (ii) outside directors will receive annually 25,000 shares of Restricted Stock. Details relative to the Restricted Stock Plan and Restricted Stock are set forth below under the heading *Proposal 3 Adoption of the Restricted Stock Plan*.

In addition, each outside director receives cash compensation at the rate of \$12,000 per year, payable quarterly. Summary of the Plan

General Purpose

The Company's Board of Directors believes that providing selected persons with an opportunity to invest in the Company will give such persons additional incentive to increase their efforts on behalf of the Company and will enable the Company and its subsidiaries to attract and retain the best available associates, officers, directors, consultants and advisors. The Company's Board of Directors has approved an amendment to the Derma Sciences, Inc. Stock Option Plan (the "Plan") to increase the number of shares of Common Stock reserved for issuance upon the exercise of options granted under the Plan from 3,500,000 shares to 5,000,000 shares.

The Plan was adopted on July 18, 1991 and most recently amended and restated on March 31, 2006. The Plan is attached to this Proxy Statement as Appendix C.

Amendment

The Board of Directors has approved the most recent amendment to the Plan to increase the number of shares available for issuance under the Plan from 3,500,000 to 5,000,000.

As of December 31, 2005, the Company had issued 3,036,625 shares pursuant to the Plan, leaving 463,375 shares available for future issuance. The Board of Directors believes that an increase in shares available for issuance is necessary for the Company to have the ability to attract and retain the best available personnel.

Approval of this amendment requires the affirmative vote of the holders of a majority of the shares of the Company's common and preferred stock represented at the Annual Meeting.

Administration of the Plan

The Plan is administered by a committee of disinterested directors designated by the Board of Directors (the "Compensation Committee"). Subject to the restrictions of the Plan, the Compensation Committee determines who is eligible to receive stock options, the nature, amount and timing of options granted under the Plan, the exercise price and vesting schedule of any options granted, and all other terms and conditions of the options to be granted.

Both Nonqualified Options and Incentive Options may be issued under the Plan. An Incentive Option may not have an exercise price less than fair market value of the Common Stock on the date of grant or an exercise period that exceeds ten years from the date of grant and is subject to certain other limitations which allow the option holder to qualify for favorable tax treatment. None of these restrictions apply to the grant of Nonqualified Options which may have an exercise price less than the fair market value of the underlying common stock on the date of

grant and may be exercisable for an indeterminate period of time. The Company has undertaken not to issue options with exercise prices less than fair market value on the date of grant.

Federal Income Tax Consequences of the Plan

The Plan permits the granting of Incentive Stock Options as well as Nonqualified Stock Options. Generally, no income is recognized when either type of option is granted to the option holder, but the subsequent tax treatment differs widely.

Nonqualified Stock Options

No income is recognized by an optionee for federal income tax purposes upon the grant of a nonqualified stock option. Upon exercise of a nonqualified stock option, the optionee recognizes ordinary income in an amount equal to the excess of the fair market value of the shares on the date of exercise over the option price of the shares. Income recognized by optionees who are employees of the Company upon the exercise of nonqualified stock options is considered compensation subject to withholding at the time the income is recognized, and therefore, the Company or one of its affiliates must make the necessary arrangements with the optionee to ensure that the amount of the tax required to be withheld is available for payment. The nonqualified stock options granted under the Plan are designed to provide the Company with a deduction, subject to certain limitations, equal to the amount of ordinary income recognized by the optionee at the time of recognition.

The basis of shares transferred to an optionee pursuant to exercise of a nonqualified stock option is the price paid for the shares plus an amount equal to any income recognized by the optionee as a result of the exercise of the option. If an optionee thereafter sells shares acquired upon exercise of a nonqualified stock option, the difference between the amount realized and the basis of the shares constitutes capital gain or loss to the optionee for federal income tax purposes.

Incentive Stock Options

No income is recognized by an optionee for federal income tax purposes upon the grant or the exercise of an incentive stock option. The basis of shares transferred to an optionee pursuant to the exercise of an incentive stock option is the price paid for the shares. If the optionee holds such shares for at least one year after transfer of the shares to the optionee and two years after the grant of the option, whichever is later, the optionee recognizes capital gain or loss upon sale of the shares received upon exercise of the option equal to the difference between the amount realized on such sale and the exercise price. Generally, if the shares are not held for that period, the optionee recognizes ordinary income upon disposition in an amount equal to the excess of the fair market value of the purchased shares on the date of exercise over the option price of the shares, or if less (and if the disposition is a transaction in which loss, if any, is recognized), the gain on disposition. Any additional gain realized by the optionee upon such disposition is a capital gain.

The excess of the fair market value of shares on the date of the exercise of an incentive stock option over the option price for the shares is an item of adjustment for purposes of the alternative minimum tax.

The Company is not entitled to a deduction upon the exercise of an incentive stock option by an optionee. If the optionee disposes of the shares of stock received pursuant to such exercise prior to the expiration of one year following transfer of the shares to the optionee or two years after grant of the option, however, the Company may, subject to certain limitations, deduct an amount equal to the ordinary income recognized by the optionee upon disposition of the shares at the time the income is recognized by the optionee.

The Board of Directors unanimously recommends that shareholders vote FOR amendment of the Company's Stock Option Plan to increase the number of shares of the Company's Common Stock issuable under the Plan from 3,500,000 to 5,000,000.

PROPOSAL 3 ADOPTION OF THE RESTRICTED STOCK PLAN

Summary of the Plan

General Purpose

The Company's Board of Directors believes that providing outside directors, executive officers and selected consultants with an opportunity to benefit from appreciation in the Company's Common Stock will give such persons additional incentive to increase their efforts on behalf of the Company and will enable the Company and its subsidiaries to attract and retain the best available executive officers, directors, consultants and advisors. The Company's Board of Directors has approved adoption of the Derma Sciences, Inc. Restricted Stock Plan (the "Plan") and the reservation of 2,500,000 shares of Common Stock for issuance under the Plan.

The Plan was adopted on March 31, 2006 and is attached to this Proxy Statement as Appendix D.

Administration of the Plan

The Plan is administered by a committee of disinterested directors designated by the Board of Directors (the Compensation Committee). Subject to the restrictions of the Plan, the Compensation Committee determines who is eligible to receive awards of Restricted Stock, the amount and timing of awards under the Plan, the vesting of awards and all other terms and conditions of the Restricted Stock awarded.

Operation of the Plan

The Compensation Committee, subject to approval of the Board of Directors, is authorized to award shares of Restricted Stock to outside directors, executive officers and such consultants and professional advisors to the Company as the Compensation Committee may determine. Awards of Restricted Stock to each outside director may not exceed 25,000 shares annually and shall vest upon the earlier of three years from the date of grant or upon a change of control of the Company.

Awards to the President and Chief Executive Officer and other Executive Officers of the Company are dependant upon the Company's Common Stock attaining, and maintaining for forty consecutive trading days, prices of at least \$1.00, \$2.00 and \$3.00. Upon the Company's Common Stock attaining each of the foregoing prices, the President and Chief Executive Officer may be awarded up to 100,000, 200,000 and 300,000 shares, respectively, of Restricted Stock and each other Executive Officer may be awarded up to 50,000, 100,000 and 150,000 shares, respectively, of Restricted Stock. The Restricted Stock Agreements relative to the foregoing awards may provide that such awards will vest, if at all, upon a change of control in the Company.

The Committee may grant selected consultants and advisors during a given calendar year up to 20,000 shares each of Restricted Stock which awards shall vest, if at all, upon a change of control in the Company effected not later than December 31, 2015.

Federal Income Tax Consequences of the Plan

Internal Revenue Code Section 83 generally provides that property, such as shares of the Restricted Stock, transferred in connection with the performance of services will not be currently taxable if such property is imbued with a substantial risk of forfeiture. The above described vesting provisions to which awards of Restricted Stock are subject constitute substantial risks of forfeiture and serve both to delay taxability of the award to the recipient, as well as deductibility of the corresponding compensation expense by the Company, until the shares of Restricted Stock vest, i.e. the substantial risks of forfeiture lapse and the right to receive the Restricted Stock becomes nonforfeitable.

The Board of Directors unanimously recommends that shareholders vote FOR adoption of the Company's Restricted Stock Plan and the reservation of 2,500,000 shares of the Company's Common Stock for issuance under the Plan.

PROPOSAL 4 - AMENDMENT TO ARTICLES OF INCORPORATION TO INCREASE THE NUMBER OF SHARES OF AUTHORIZED COMMON STOCK

Under the Company's Amended and Restated Articles of Incorporation, the Company is authorized to issue up to 30,000,000 shares of Common Stock, par value \$.01 per share. The Company's Board of Directors has approved an amendment to the Articles of Incorporation that increases the maximum number of authorized shares of the Company's Common Stock by 20,000,000 shares to a total of 50,000,000 shares (Common Stock Amendment) and has recommended that the Company's shareholders approve the Common Stock Amendment. If the Company's shareholders do not approve the Common Stock Amendment, then the number of authorized shares of the Company's Common Stock will remain at 30,000,000.

The purpose of the proposed Common Stock Amendment is to provide sufficient shares for corporate purposes including the conversion of Class A, Class B, Class C and Class D Preferred Stock and Class F and Class G Warrants into Common Stock, the exercise of stock options that have been granted to certain present and former officers, employees, directors and advisors of the Company, possible future grants of restricted stock, possible future acquisitions, stock splits or other corporate purposes. Once authorized, the additional shares of the Company's Common Stock may be issued by the Company's Board of Directors without further action by the Company's shareholders, unless such action is required by law or applicable stock exchange requirements. If the Common Stock Amendment is not approved by the Company's shareholders, the Company will examine other means to ensure that sufficient shares of Common Stock are available for the purposes enumerated above. These means could include the reverse split of the Company's Common Stock or the redesignation of previously authorized Preferred Stock as

Common Stock.

The Board of Directors unanimously recommends that shareholders vote FOR approval of the Amendment of the Company's Articles of Incorporation to increase the shares of authorized Common Stock to 50,000,000.

Audit Committee Report

THE FOLLOWING REPORT OF THE AUDIT COMMITTEE SHALL NOT BE DEEMED TO BE SOLICITING MATERIAL OR TO BE FILED WITH THE SECURITIES AND EXCHANGE COMMISSION UNDER THE SECURITIES ACT OF 1933 OR THE SECURITIES EXCHANGE ACT OF 1934 OR INCORPORATED BY REFERENCE IN ANY DOCUMENT SO FILED.

The Audit Committee met privately with both the independent registered public accounting firm and Company financial personnel, each of whom has unrestricted access to the Audit Committee. The Audit Committee met with management periodically during the year to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Audit Committee discussed these matters with the Company's independent registered public accounting firm and with appropriate Company financial personnel. The Audit Committee also discussed with the Company's senior management and independent registered public accounting firm the process used for certifications by the Company's chief executive officer and chief financial officer which are required by the Securities and Exchange Commission and the Sarbanes-Oxley Act of 2002 for certain of the Company's filings with the Securities and Exchange Commission.

Management has primary responsibility for the implementation of the system of internal controls, and for the preparation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States. The Company's independent registered public accounting firm audited the financial statements prepared by management, expressed an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with accounting principles generally accepted in the United States and discussed with the Audit Committee any issues they believe should be raised with the Audit Committee.

The Audit Committee reviewed with management and with the Company's independent registered public accounting firm the Company's financial statements and met separately with both management and the independent registered public accounting firm to discuss and review those financial statements and reports prior to their issuance. Management has represented to the Audit Committee, and the independent registered public accounting firm have

confirmed, that the financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The Audit Committee obtained from and discussed with the independent registered public accounting firm a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence under Independence Standards Board No. 1, *Independence Discussions with Audit Committees*, discussed with the auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditors' independence. The Audit Committee implemented a procedure to monitor auditor independence and reviewed non-audit services performed by the independent registered public accounting firm.

The Audit Committee discussed and reviewed with the independent registered public accounting firm all communications required by standards of the Public Company Accounting Oversight Board (United States), including those described in Statement on Auditing Standards No. 61, as amended, *Communication with Audit Committees* and, with and without management present, discussed and reviewed the results of the independent registered public accounting firm's examination of the financial statements.

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

Based on the above-mentioned reviews and discussions with management and the independent registered public accounting firm, the Audit Committee recommended to the Board that the Company's audited consolidated financial statements be included in its Annual Report on Form 10-KSB for the year ended December 31, 2005. The Audit Committee also recommended the reappointment of J.H. Cohn LLP as the Company's independent registered public accounting firm and the Board concurred in such recommendation.

Compensation Committee Report

The Compensation Committee is charged with the following responsibilities: (i) recommendations to the Board of Directors relative to the compensation of executive officers, (ii) administration of the 1994 stock option plan and recommendations to the Board relative to the grant of options to employees, directors and consultants of the Company, (iii) review of, and recommendations to the Board concerning, proposed employment agreements with executive officers, and (iv) evaluation of the performance of, and determination of compensation policies for, executive officers. With the exception of Edward J. Quilty, the members of the Compensation Committee are not employees of the Company.

19

Executive Compensation Policy

Competition for qualified senior management personnel in the Company's industry is intense. In order to attract and retain qualified personnel, the Company must offer compensation which is comparable to similarly situated companies and which provides the potential for substantial rewards if the Company is successful over the long-term. The objectives of the Company's executive compensation policy are to attract, retain and reward executive officers and other key employees who contribute to its success and to motivate these individuals to enhance stockholder value. The Company seeks to pay compensation at levels competitive with other medical device companies and provide significant equity-based incentives for executives and other key employees to respond to the Company's challenges and opportunities.

Determining Executive Compensation

The Compensation Committee meets several times per year in order to: (i) review the effectiveness of the Company's executive compensation policy in advancing the Company's objectives, (ii) make recommendations to the Board for any adjustments, and (iii) recommend annual compensation for the coming year. The Company's Chief Executive Officer and the Chairman of the Audit Committee gather and report on information about compensation levels in comparable companies. The performance of each executive officer and the financial condition of the Company are reviewed in relation to the following major components of executive compensation:

1. **Base salary.** The employment agreement with each executive sets an initial base salary in accordance with industry norms and the subject executive's experience and qualifications. The Compensation Committee annually reviews each executive officer's base salary. Among the factors taken into consideration are: (i) individual and corporate performance, (ii) levels of responsibility, (iii) prior experience, (iv) breadth of knowledge of the industry, and (v) competitive pay practices. If salaries at comparable companies have increased, the Compensation Committee normally recommends similar increases. Provided, however, increases will be recommended only if the subject executive's historical performance warrants an increase and if the increase is prudent in view of the Company's financial condition.

2. Annual bonus. In addition to base salary, the Company seeks to reward executives each year for the achievement of specific goals which may be financial, operational or technological. In this regard, the Compensation Committee considers objectively measurable goals such as obtaining new investment capital, negotiating valuable contracts or meeting sales objectives, together with subjective goals such as quality of management performance and consistency of effort.

3. Equity incentives. Historically, the Company's equity incentives have consisted exclusively of stock options awarded both pursuant to, and outside, the Company's 1991 stock option plan (the "Plan"). Effective February 6, 2003, the Company undertook to issue options exclusively under the Plan. The exercise price of options granted under the Plan is at least 100% of the fair market value of the Common Stock on the date of grant. Recently, the Compensation Committee recommended to the Board of Directors that the Company incorporate grants of restricted stock in its equity incentive policy. The Board of Directors has acquiesced in this recommendation. The Compensation Committee determines the number and terms of recommended option and restricted stock grants based on practices at comparable companies in the medical device industry and the Company's policy of linking equity incentives to performance.

For the Compensation Committee:

James T. O'Brien, Chairman

APPENDIX C

DERMA SCIENCES, INC.

AMENDED AND RESTATED STOCK OPTION PLAN

THIS DERMA SCIENCES, INC. STOCK OPTION PLAN, made, adopted and declared effective July 18, 1991 and amended and restated January 14, 1994, May 22, 1996, July 14, 1998, February 6, 2003, February 24, 2004 and March 31, 2006 by Derma Sciences, Inc. (herein referred to as the Plan).

1. Purpose. The Plan is intended to enable Derma Sciences, Inc. and its subsidiaries (the Company) to attract and retain capable officers, other employees, capable outside consultants, advisors and directors, to provide them with incentives to promote the best interests of the

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

Company through the grant of incentive stock options and nonqualified stock options (collectively, Options).

As used in the Plan, the term incentive stock options means options which are intended to qualify as incentive stock options within the meaning of §422 of the Internal Revenue Code of 1986, as amended, (the Code). The term nonqualified stock options means options which are not intended to qualify as incentive stock options.

2. Administration. The Plan shall be administered by the Compensation Committee of the Board of Directors of the Company whose members shall, *inter alia*, be non-employee directors as this term is utilized in Rule 16b-3(b)(3)(i) of the Securities Exchange Act of 1934.

Subject to the terms of the Plan, the Committee shall have full and final authority in its absolute discretion to select the persons to whom Options shall be granted under the Plan and to set the date of grant and the other terms of such Options. The Committee also shall have the authority to establish and rescind, from time to time, such rules and regulations, not inconsistent with the provisions of this Plan, for the proper administration of this Plan and Options granted hereunder, and to make such determinations and interpretations under or in connection with this Plan as it deems necessary or advisable. The Committee may correct any defect, supply any omission and reconcile any inconsistency in this Plan or in any Option granted hereunder in the manner and to the extent it shall deem desirable. All such rules, regulations, determinations and interpretations shall be binding and conclusive upon the Company and its officers, employees, directors and outside consultants and advisors (including former officers, employees and directors) of the Company, and upon their respective legal representatives, beneficiaries, successors and assigns and upon all other persons claiming under or through any of them. No member of the Board of Directors of the Company (the Board) or of the Committee shall be liable for any action or determination made in good faith with respect to the Plan or any Option granted hereunder.

3. Eligibility. The persons eligible to receive options (Eligible Individuals) under the Plan shall be the directors (excluding members of the Committee), officers and other employees of the Company, outside consultants and advisors.

4. Stock Subject to the Plan. Subject to adjustment as provided in paragraph 7 hereof, 5,000,000 shares (the Shares) of \$.01 par value common stock (the Common Stock) shall be available for the grant of Options under the Plan, which shares may be authorized but unissued Shares or reacquired Shares, as the Company shall determine.

If any Option granted under the Plan expires or otherwise terminates, in whole or in part, without having been exercised, the Shares subject to the unexercised portion of such Option shall be available for the granting of Options under the Plan as fully as if such Shares had never been subject to an Option.

5. Grants, Terms and Conditions of Options. From time to time until the expiration or earlier termination of the Plan, the Committee may grant Options to Eligible Individuals (such grantees are hereinafter referred to as Optionees) under the Plan; provided, however, that grants of incentive and nonqualified stock options shall be separate and not in tandem. Options granted pursuant to the Plan shall be in such form as the Committee shall from time to time approve, and shall be subject to the following terms and conditions:

(a) **Price.** The option price per Share under each Option granted under the Plan shall be determined and fixed by the Committee in its discretion but shall not be less than (i) in the case of an Incentive Stock Option granted

C-1

to a person who owns more than 10% of the combined voting power of all shares of stock of the Company or any subsidiary on the date of grant, the greater of \$.01 or 110% of the fair market value of the Shares on the date of grant of such Option, and (ii) in all other cases the greater of \$.01 or 100% of the fair market value of the Shares on the date of grant of such Option. The fair market value of a Share on any day shall mean that amount determined by such method of determining fair market value as shall be permitted by the Code, or the rules or regulations thereunder, and used by the Committee from time to time. For purposes of this paragraph 5 an individual shall be deemed to own any shares of stock of the Company which are attributed to such individual under § 424(d) of the Code.

(b) **Term.** Subject to earlier termination as provided in subparagraphs (c) through (f) below and in paragraph 8 hereof, the duration of each Option shall not be more than ten (10) years from the date of grant; provided that the duration of any Option granted to a person who owns more than 10% of the combined voting powers of all shares of stock of the Company on the date of grant of the Option shall not be more than five (5) years from the date of grant.

(c) **Exercise and Payment.** Except as otherwise provided in paragraph 8 hereof, options shall be exercisable in such installments and on such dates, as the Committee may specify; provided that the Committee may determine that Options will become immediately exercisable in

whole or in part in the event of death, disability or termination of employment. Except as otherwise provided in subparagraphs (d) through (f) below, Optionees must be in the employ of the Company at the time of Option exercise. Any Shares which may be purchased upon exercise of an Option (Option Shares), the right to the purchase of which has accrued, may be purchased at any time up to the expiration or termination of the Option. Options may be exercised, in whole or in part, from time to time, by giving written notice of exercise to Derma Sciences, Inc. at its principal office, specifying the number of Shares to be purchased, and accompanied by payment in full of the aggregate purchase price for the Shares. Only full Shares shall be delivered and any fractional share which might otherwise be deliverable upon exercise of an Option granted hereunder shall be forfeited.

The purchase price shall be payable: (i) in cash or its equivalent, or (ii) if the Committee, in its discretion, so provides in the stock option agreement or, in the case of nonqualified stock options, if the Committee, in its discretion, so determines at or prior to the time of exercise, in whole or in part through the transfer of Common Stock previously acquired by the Optionee, provided the Common Stock so transferred has been held for the applicable holding period set forth below:

(i) If such previously acquired shares of Common Stock were acquired through exercise of an incentive stock option and are being tendered as payment of the option price under an incentive stock option, such shares have been held by the Optionee for a period not less than the holding period described in § 422(a)(1) of the Code;

(ii) If such previously acquired shares of Common Stock were acquired through exercise of an incentive stock option or a nonqualified stock option and are being tendered as payment of the option price under a nonqualified stock option, such shares have been held by the Optionee for more than six months; or

(iii) If such previously acquired shares of Common Stock were acquired through exercise of a nonqualified stock option and are being tendered as payment of the option price under an incentive stock option, such Shares have been held by the Optionee for more than six months.

In the event such purchase price is paid, in whole or in part, with shares of Common Stock, the portion of the purchase price so paid shall be equal to the fair market value, as determined by, or in the manner prescribed by, the Committee in accordance with subparagraph (a) above, on the date of exercise of the Option, of the shares of Common Stock so tendered in payment of such purchase price.

(d) Death of Optionee. If an Optionee's employment is terminated by reason of his death prior to the expiration date of his Option, or if an Optionee whose employment is terminated (as described in subparagraphs (e) and (f) below) shall die within three (3) months following his termination of employment but prior to the expiration date of his Option or expiration of the period determined under subparagraphs (e) or (f) below, if earlier, such Option may be exercised by the Optionee's estate, personal representative or beneficiary who acquired the right to exercise such Option by bequest or inheritance or by reason of the death of the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of his death, or to any greater extent permitted by the Committee, at any time prior to the earlier of: (i) one year following the date of the Optionee's

C-2

death, or (ii) the expiration date of such Option (which, in the case of death following a termination of employment pursuant to subparagraphs (e) or (f) below, shall be deemed to mean the expiration of the exercise period determined thereunder).

(e) Disability of Optionee. If an Optionee shall become permanently and totally disabled during his employment with the Company and his employment with the Company is terminated as a consequence of such permanent and total disability prior to the expiration date of his Option, such Option may be exercised by the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of such termination of employment, or to any greater extent permitted by the Committee, at any time prior to the earlier of: (i) one year following the date of the Optionee's termination of employment, or (ii) the expiration date of such Option. In the event of the Optionee's legal disability, such Option may be so exercised by the Optionee's legal representative.

(f) Termination of Employment of Optionee. If an Optionee's employment with the Company is terminated prior to the expiration date of his Option, such Option may be exercised by the Optionee, to the extent of the number of Shares with respect to which the Optionee could have exercised it on the date of such termination, or to any greater extent permitted by the Committee, at any time prior to the later of: (i) three (3) months after the date of termination, or (ii) the expiration date of such Option; provided, however, if an Optionee's employment is terminated by the Company for cause (as defined below), the Optionee shall have no right to exercise his Option on or after the date of such termination. As used herein, termination of an Optionee's employment by the Company shall be for cause if the Board reasonably concludes that the Optionee has materially failed to perform his or her responsibilities to the Company, materially failed to follow directives or policies established by or at the direction of the Board, or conducted himself or herself in a manner materially detrimental to the interests of the Company.

(g) Transferability. No option shall be assignable or transferable by an Optionee otherwise than by will or by the laws of descent and distribution, and during the lifetime of the Optionee, his Options shall be exercisable only by him, or in the event of his legal disability, by his legal representative.

(h) Rights as a Shareholder. An Optionee shall have no rights as a shareholder with respect to any Shares covered by his Option until the exercise of such Option and his payment for such Shares.

(i) Annual Limit on Incentive Stock Options. The aggregate fair market value (determined in accordance with Subparagraph (a) above as of the time an incentive stock option is granted) of the Shares with respect to which incentive stock options are exercisable for the first time by an Eligible Individual during any calendar year (under the Plan and any other incentive stock option plan of the Company) may not exceed one hundred thousand dollars (\$100,000), or such other number as may be in effect under the Code from time to time.

(j) Option Agreement and Further Conditions. As soon as practicable after the grant of an Option, each Optionee shall enter into, and be bound by the terms of, a stock option agreement (the Option Agreement) which shall state the number of Shares to which the Option pertains and specify whether the Option is intended to be an incentive stock option or a nonqualified stock option. The Option Agreement shall set forth such terms, conditions and restrictions regarding the Option not inconsistent with the Plan (and, in the case of incentive stock options, the provisions of § 422(b) of the Code) as the Committee shall determine. Without limiting the generality of the foregoing, the Committee, in its discretion, may impose further conditions upon the exercisability of Options and restrictions on transferability with respect to Shares issued upon exercise of Options.

(k) Withholding. The obligation of the Company to deliver Shares upon the exercise of any Option (or cash in lieu thereof) shall be subject to any applicable federal, state and local tax withholding requirements.

6. Listing and Registration of Shares. Each Option under the Plan shall be subject to the requirement that, if at any time the Company shall determine, in its discretion, that the listing, registration or qualification of the Option or Shares covered thereby upon any securities exchange or under the laws of any jurisdiction, or the consent or approval of any governmental or regulatory body, is necessary or desirable as a condition of, or in connection with, the granting of such Option, or the exercise thereof, then no such Option may be exercised in whole or in part unless and until such listing, registration, qualification, consent or approval shall have been effected or obtained, on conditions acceptable to the Company. Each Optionee, or his legal representative or beneficiaries, also may be required to give satisfactory assurance that Shares acquired upon exercise of an Option are being acquired for investment and not with a view to distribution, and certificates representing such Shares may be legended accordingly.

C-3

7. Adjustments. The number of Shares which may be issued under the Plan, as stated in paragraph 4 hereof, and the number of Shares issuable upon exercise of outstanding Options under the Plan (as well as the exercise price per share under such outstanding Options), shall be equitably adjusted by the Committee to reflect any stock dividend, stock split, share combination, or similar change in the capitalization of the Company.

8. Merger, Liquidation or Sale. In the event of a proposed dissolution, liquidation or sale of substantially all of the assets of the Company, or of a merger or consolidation involving a 50% change of ownership or control of the Company, the Committee shall, in its unlimited discretion, have the power prior to such event: (a) to terminate all outstanding Options upon at least seven (7) days prior notice to each Optionee and, if the Committee deems it appropriate, to cause the Company to pay to each Optionee an amount in cash with respect to each Share to which a terminated Option pertains equal to the difference between the option price and the value, as determined by the Committee in its sole discretion, of the consideration to be received by the holders of shares of Common Stock in connection with such transaction, or (b) to provide for the exchange of Options outstanding under the Plan for options to acquire securities or other property to be delivered in connection with the transaction and in connection therewith to make an equitable adjustment, as determined by the Committee in its sole discretion, in the option price and number of Shares or amount of property subject to the Option and, if deemed appropriate, provide for a cash payment to Optionees in partial consideration for such exchange. Anything hereinbefore or hereinafter to the contrary notwithstanding, upon the approval of the Board of Directors of the Company to implement a dissolution, liquidation, sale of substantially all of the assets of the Company or merger or consolidation involving a 50% change of ownership or control of the Company, all unexercised Options issued hereunder shall become immediately exercisable.

9. Acquisitions. Notwithstanding any other provision of this Plan, Options may be granted hereunder in substitution for options held by officers and employees of other corporations who are about to, or have, become employees of the Company as a result of a merger, consolidation, acquisition of assets or similar transaction by the Company. The terms, including the option price, of the substitute options so granted may vary from the terms set forth in this Plan to such extent as the Committee may deem appropriate to conform, in whole or in part, to

the provisions of the options in substitution for which they are granted.

10. Amendment or Discontinuance of the Plan. The Board at any time, and from time to time, may suspend or discontinue the Plan or amend it and any outstanding Options in any respect whatsoever; provided, however, that without the approval of the holders of at least a majority of the outstanding shares of Common Stock as may be required by applicable law: (a) the maximum number of Shares with respect to which Options may be granted under the Plan shall not be increased except as permitted under paragraph 7 hereof, (b) the lowest price at which Options may be granted shall not be reduced, and (c) the duration of the Plan under paragraph 14 shall not be extended; and provided further, that no such suspension, discontinuance or amendment shall materially impair the rights of any holder of an outstanding Option without the consent of such holder.

11. Absence of Rights. The recommendations or selection of an Eligible Individual as a recipient of an Option under the Plan shall not entitle such person to any Option unless and until the grant actually has been made by appropriate action of the Committee, and any such grant is subject to the provisions of the Plan. Further, the granting of an Option to a person shall not entitle that person to continued employment by the Company or affect the terms and conditions of such employment, and the Company shall have the absolute right, in its discretion, to retire such person in accordance with its retirement policies or otherwise to terminate his employment, whether or not such termination may result in a partial or total termination of this Option.

IN WITNESS WHEREOF, this amendment and restatement of the Plan has been executed March 31, 2006.

ARTICLE IV

RESTRICTED STOCK AWARDS

Edgar Filing: DERMA SCIENCES, INC. - Form DEF 14A

4.1 Awards to Eligible Directors. The Committee may grant to any Eligible Director that is a member of the Board during all or any portion of each calendar year during the term of the Plan an Award of up to 25,000 shares of Restricted Stock as of a date determined by the Committee. Awards to Eligible Directors shall vest upon the earlier of three (3) years from the date of grant or upon a Change of Control of the Company.

4.2 Awards to Eligible Officers. The Committee may grant to the President and Chief Executive Officer and to each Executive Officer of the Company, during the period from the Effective Date through December 31, 2008, up to that number of shares of Restricted Stock as determined by the Company's Market Stock Price in accordance with the table set forth below:

*Maximum Restricted Stock Awards
Eligible Officers*

<u>Attained Market Stock Price</u>	<u>Restricted Stock Awards to:</u>	
	<u>President and Chief Executive Officer</u>	<u>Each Other Executive Officer (4)</u>
\$1.00	100,000	50,000
\$2.00	200,000	100,000
\$3.00	300,000	150,000

The foregoing Market Stock Price shall be attained not later than March 31, 2009. Satisfaction of the \$2.00 Market Stock Price shall be deemed satisfaction of the \$1.00 Market Stock Price and satisfaction of the \$3.00 Market Stock Price shall be deemed satisfaction of the \$2.00 and \$1.00 Market Stock Prices. The foregoing Awards shall be cumulative and shall vest as of the date of satisfaction of the above set forth conditions to the Awards. Provided, however, if the fair market value of the common stock of the Company, as established by a Change of Control Transaction occurring not later than March 31, 2009, is greater than the Market Stock Price pursuant to which the subject Award was made, then the number of shares of Restricted Stock awarded to each Eligible Officer shall be increased pro rata. Provided, further, the Restricted Stock Agreement evidencing a given Award may, at the election of the Eligible Officer, provide for deferral of vesting of the subject Award until a Change of Control shall have occurred.

4.3 Awards to Eligible Consultants. The Committee may grant to each Eligible Consultant for each calendar year during the term of the Plan an Award of up to 20,000 shares of Restricted Stock as of a date determined by the Committee. Awards to Eligible Consultants shall vest, if at all, upon a Change of Control of the Company effected not later than December 31, 2015.

4.4 Rights of Awardees. Unless and until the Shares vest in the subject Awardee in accordance with the terms hereof, the Awardee shall not be entitled to vote the Shares or exercise any of the incidents of ownership thereof.

D-4

ARTICLE V

TERMINATION, AMENDMENT AND MODIFICATION OF PLAN

5.1 Termination, Amendment and Modification of Plan. The Committee may, with the consent of the Board, at any time terminate, and may at any time and from time to time and in any respect amend or modify, the Plan provided that, if under applicable laws or the rules of any securities exchange upon which the Company's common stock is listed, the consent of the Company's stockholders is required for such amendment or modification, such amendment or modification shall not be effective until the Company obtains such consent, and provided, further, that no termination, amendment or modification of the Plan shall in any manner affect any Award theretofore granted pursuant to the Plan without the consent of the Awardee.

ARTICLE VI

MISCELLANEOUS

6.1 Adjustment Provisions. If the outstanding shares of Stock of the Company are increased, decreased, or exchanged for a different number or kind of shares or other securities, or if additional shares or new or different shares or other securities are distributed with respect to

such shares of Stock or other securities, through merger, consolidation, sale of all or substantially all of the assets of the Company, reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other distribution with respect to such shares of Stock or other securities, an appropriate and proportionate adjustment may be made in (i) the maximum number and kind of shares issuable hereunder, and (ii) the number and kind of shares or other securities subject to the outstanding Awards. Adjustments under this Section 6.1 will be made by the Committee subject to approval of the Board. No fractional interests will be issued under the Plan resulting from any such adjustments.

6.2 Compliance with Government Regulations. No Awards will be made hereunder unless and until all applicable requirements imposed by federal and state securities and other laws, rules, and regulations and by any regulatory agencies having jurisdiction and by any stock exchanges upon which the Stock may be listed have been fully met. As a condition precedent to the issuance of shares of Stock pursuant hereto, the Company may require the Eligible Person to take any reasonable action to comply with such requirements.

6.3 Withholding. The Company may make such provisions as it deems appropriate to withhold any taxes the Company determines it is required to withhold in connection with any Award. The Company may require the Eligible Person to satisfy any relevant tax requirements before authorizing any issuance of Restricted Stock to the subject Eligible Person.

D-5

6.4 Non-Transferability. For so long as it is unvested and subject to any restrictions pursuant to this Plan, an Award may be owned during the life of the Eligible Person solely by the Eligible Person or the Eligible Person's duly appointed guardian or personal representative. No Award will be assignable or subject to any encumbrance, pledge or charge of any nature prior to the vesting of same.

6.5 Other Compensation Plans. The adoption of the Plan shall not affect any other stock option or incentive or other compensation plans in effect for the Company or any Subsidiary, nor shall the Plan preclude the Company from establishing any other forms of incentive or other compensation for employees, directors or consultants of the Company or any Subsidiary.

6.6 Plan Binding on Successors. The Plan shall be binding upon the successors and assigns of the Company. **6.7 Governing Law.** This Plan and any Awards hereunder shall be governed by, interpreted and construed in accordance with the laws of the State of New Jersey and applicable federal law.
