**VODAFONE UK AND DAMOVO ESTABLISH ALLIANCE
FOR ENTERPRISE MOBILITY CUSTOMERS**

Vodafone UK and Damovo today announced a strategic alliance, enabling Damovo to become a service provider and telecom systems integration partner. Combining Damovo's portfolio of advanced communication solutions with Vodafone UK's network services enables both parties to offer a range of services under a Damovo managed services umbrella, with emphasis on PBX convergence and data connectivity from the corporate LAN through to the end-user device.

Whilst initially the agreement covers the UK, there are plans to roll it out internationally in territories appropriate to the combined global footprint of both companies.

This alliance greatly enhances the service Vodafone can offer its UK customers, said Stephen Brewer, Managing Director Sales and Distribution, Vodafone UK. It is paramount that we meet and exceed the expectations of our business customers this agreement advances us further towards that goal.

Pearse Flynn, CEO Damovo said, Vodafone brings an extensive mobile network with a new and developing data capability to the alliance. By combining strengths and bringing all of these services under one roof we are providing single point advanced communication services, cost effectiveness and efficiency whilst allowing customers to focus on their core business.

VODAFONE UK

Vodafone UK has 13 million customers, the largest share of the corporate mobile communications market and is part of world's largest mobile community. The Newbury-based company offers mobile voice and data communications including GPRS, which was introduced to the corporate market in April 2001 and consumers in June 2001. The Vodafone UK network covers 99% of the population and transmits over 10 million text messages every day. Vodafone UK was the world's first mobile operator to introduce international roaming, and currently offers its customers roaming on 323 networks in 138 countries. In addition Vodafone offers comprehensive international GPRS coverage with roaming to 15 countries.

DAMOVO

Damovo is a global services company delivering world-class corporate communications.

Through consultancy, design, implementation and management, Damovo delivers advanced solutions in the following areas: data and converged networks, mobile solutions, e-collaboration, voice enabled solutions, enterprise relationship management and managed services.

Damovo's portfolio of solutions combines best-of-breed technology from the world's leading suppliers.

Damovo has a blue chip client list of over 26,000 international organizations. Damovo employs over 2,600 staff, with an annual turnover of nearly EUR1bn and 18 offices worldwide across Europe, Latin America and Australasia.

Principle territories for Damovo are: Australia, Brazil, Germany, Italy, and the UK. In addition Damovo has operations in Argentina, Belgium, Colombia, The Czech Republic, Hungary, Ireland, Mexico, Poland, Portugal, Slovakia, Sweden, Switzerland and Venezuela.

VODAFONE STRENGTHENS ITS MANCHESTER UNITED SQUAD

With the opening game of the Premiership already won, Ole Gunnar Solskjaer having scored and the new strip being worn with pride, Manchester United and Vodafone can complete the great start to the season for die-hard Reds fans with a range of new services.

Designed for those supporters who need to be on the ball wherever they are, **Man Utd on the Fone** delivers all the up to date news, via text messages straight to their Vodafone mobiles. By simply dialling 17442 from their Vodafone mobiles fans can register for one of three versions of the service, from the most simple giving goal alerts, the full time score, signings and team sheet information to one which also highlights penalties, red/yellow cards, news flashes and general ticket sales alerts.

For those United fans who like to personalise their mobiles, Manchester United is also offering bespoke ringtones and logos for mobile users on any network. Imagine having Glory, Glory, Man United as your ringtone and a Red Devils logo on the screen.

In addition, there is the new **Your Shout** Service where supporters have a chance to win the best seats at crucial games and even meet their heroes, simply by registering their mobile numbers. They can also take part in United competitions and opinion polls and a trivia quiz where a trip to the United States to watch the Reds on tour in 2003 and meet the team can be won.

All the new offerings are part of **MU NOW!**, Manchester United's squad of information and entertainment services delivered straight to fans mobiles, so wherever they are they can keep in touch with the world's favourite football team.

Vodafone, however, has not forgotten the fans of other teams. Whether they support Arsenal, Exeter or Aberdeen, Footie on the Fone will deliver half time and full time scores and goal by goal information via text messages. Just dial 17442 from your Vodafone mobile to register.

Vodafone is determined to give Manchester United fans in particular and football fans in general exciting services for their mobile phones, says Lance Batchelor, Vodafone UK's Marketing Director. We are more than just a name on United's shirt. It's a partnership between the world's favourite team and the world's largest mobile community.

Manchester United are delighted that the association with Vodafone is helping to bring news and entertainment directly to our fans, says Peter Kenyon, Manchester United's Chief Executive. We intend to develop and enhance our range of services under the MU NOW! banner to meet the needs of our fans wherever they are.

Vodafone is in the third season of a £30m, four year sponsorship deal with Manchester United.

VODAFONE UK RE-APPOINTED AS MOBILE SUPPLIER TO GOVERNMENT

The Office of Government Commerce (OGC) today announced that Vodafone UK has been re-selected as its strategic partner for the provision of mobile communications to Government.

Vodafone UK has been given supplier status by OGCBuying.Solutions, the trading arm of the Office of Government Commerce, itself a central government body set up to negotiate rates of service for all Government departments. This significant contract covers a period of three years with the potential to extend for a further year.

The original Government Telecommunications agreement (GTM) was first signed with Vodafone Corporate Limited in August 2000. The subsequent contract, has been re-signed following a series of extensive and lengthy negotiations with a range of potential suppliers, and has been awarded as a dual supplier agreement incorporating Wide Area Paging as well as Mobile and Wireless Data Services.

Gavin Darby, Chief Operating Officer, Vodafone UK added: Vodafone has put in place a wide spectrum of products and services to provide total communications solutions for Public Sector organisations, and this agreement provides us with the opportunity to help them run their departments more efficiently.

VODAFONE EXTENDS ITS MOBILE COMMUNITY TO KUWAIT

Vodafone Group Plc (Vodafone) today announces that it has signed its third Vodafone Partner Agreement with Mobile Telecommunications Company (MTC). The agreement, the first of its kind with an operator in the Middle East, follows agreements with European operators TDC Mobil A/S and Oy Radiolinja Ab, in Denmark and Finland respectively.

MTC is the leading mobile operator in Kuwait, with more than 600,000 customers. Under the terms of the agreement:

- Vodafone and MTC will co-operate in developing products and services to international travellers and domestic customers
- Vodafone and MTC will co-operate in the acquisition of multinational accounts
- MTC will completely replace its existing MTC brand with a dual MTC-Vodafone brand
- MTC will market Vodafone s international products using the existing Vodafone product names

The principal benefits to Vodafone are:

- Further expansion of Vodafone s global products and services offering into the Middle East
- Introduction of the Vodafone brand into a second country in the Middle East
- Increase of inbound roaming on Vodafone networks

As a Partner Network, MTC will offer Vodafone and its Partners customers seamless access to Vodafone s international products while travelling in Kuwait. The re-branding of MTC, into MTC-Vodafone, will ensure that these customers identify MTC as a trusted Vodafone partner, increasing the recognition of the Vodafone brand in the Middle East. MTC customers will enjoy the benefits of Vodafone s existing services and its innovative product pipeline, enabling easy access and service delivery.

Thomas Geitner, Chief Executive, Global Products and Services, Vodafone said:

Edgar Filing: VODAFONE GROUP PUBLIC LTD CO - Form 6-K

The agreement with MTC is our first partner agreement in the Middle East. With a first class network and an outstanding position in the corporate market, MTC is an excellent partner to have on board. This is a significant step in the development of the Vodafone brand as MTC will be completely re-branding to MTC-Vodafone, clearly demonstrating the attractiveness of the Vodafone brand to new territories.

The co-operation opens new sources of revenue for both Vodafone and MTC. The signing of this third partner agreement demonstrates Vodafone's attraction as a global mobile leader and innovator.

VODAFONE UK APPOINTS GAVIN DARBY CHIEF EXECUTIVE

Vodafone UK today announces that Gavin Darby is appointed Chief Executive of Vodafone UK. He was previously Chief Operating Officer and will assume responsibility for managing all aspects of the UK business from 1 October.

Gavin's promotion from Chief Operating Officer to Chief Executive reflects his personal contribution to the continued success of Vodafone UK since joining in February 2001 and the Group's confidence in his management team, commented Peter Bamford, Northern Europe Middle East and Africa Chief Executive.

Gavin was born in 1956 and was educated at Cranleigh School in Surrey before graduating from the University of Manchester Institute of Science and Technology with a BSc Hons in Management Sciences. Between 1977 and 1984 he worked in Sales and Marketing at Spillers Foods and Johnson Wax. In 1985 Gavin joined Coca-Cola, holding a variety of significant UK and European positions, culminating his appointment to Senior Vice President.

Gavin is married with three children and lives in Weybridge, Surrey.

SIMPLE, SECURE AND SPEEDY ONLINE SHOPPING

Vodafone UK launches Vodafone m-pay cards the first UK Operator to Offer a Macro-Payment Service

Vodafone UK today announces the launch of Vodafone m-pay cards. This new payment service builds on the success of the recently launched Vodafone m-pay bill micro-payment facility to offer a macro-payment alternative. Vodafone m-pay cards enables consumers to quickly and easily pay for goods online, over the Internet or WAP.

Vodafone m-pay cards is a secure and easy-to-use payment solution for online goods and services bought using credit or debit cards. When a customer registers for Vodafone m-pay cards, they enter their payment card details once only. These are held by Vodafone in a secure central register and are automatically transferred to the online merchant when required.

The once-only registration process eliminates the need for customers to continually enter their full details. Once they have registered for Vodafone m-pay cards, they need only enter their user name and password to complete a transaction with the participating traders signed up to the service. As an added security measure, a unique, one time password will be sent to the registered customers mobile phone via SMS, which needs to be entered into the site to authorise the transaction.

Since Vodafone UK first introduced mobile payments via text messaging in March 1996, it has continued to take a lead in the innovation and pioneering of m-services, said Gavin Darby, Chief Operating Officer at Vodafone UK. Vodafone demonstrated its commitment to evolving its m-commerce capabilities with the launch of Vodafone m-pay bill in February 2002. The latest offering - Vodafone m-pay cards, serves to further enhance the service we offer to our customers. Anything that simplifies the purchasing process will ensure that merchants convert many more of their potential transactions into actual purchases.

Many of the barriers to online commerce have been broken down, said Jim Wadsworth, head of m-commerce, Vodafone UK. Our customers no longer need to spend time filling in lengthy forms with their credit or debit card number, expiry date etc. When they want to buy something online, once they're registered it's just a matter of entering their user name and password and they're away!

Companies currently signed up to the service include Odeon Cinemas, CD-Wow, Blushing Buyer, Friends Reunited, Just Champagne, Way Ahead and a number of other online traders. Vodafone UK is continually signing up additional traders to further extend the m-pay cards offering. Many of these traders will offer exclusive deals for Vodafone m-pay cards customers - an added incentive to pay via Vodafone m-pay cards.

Edgar Filing: VODAFONE GROUP PUBLIC LTD CO - Form 6-K

Vodafone m-pay cards is available as a payment service for any Vodafone UK mobile phone owner who possesses a credit or debit card. Customers are able to register for the service at www.vodafone.co.uk/mpay-cards. When registered, Vodafone UK customers will be able to use the service when they are online, over the Internet or their WAP phone, by simply clicking onto the Vodafone m-pay cards link.

- ends -

For further information contact:

Ben Taylor or Kay Kavanagh

At Vodafone Public Relations

Telephone: 07000 500100

E-mail: press.office@vodafone.com

NOTES TO EDITORS:

Process for performing a transaction:

1. Click on m-pay and login if you're online, or wait to be automatically directed to your Vodafone m-pay cards account if you're on your WAP phone.
2. Verify that your purchase details and the merchant name are correct.
3. Select the card you want to pay with.
4. Enter a 1 time password security code we will send you by SMS to authorise Vodafone to make the transaction via the web.

OR

Enter your 4-digit secret PIN to authorise Vodafone to make the transaction via your WAP phone.

5. Your purchase will then be charged to your card as a standard purchase.
6. You can then review all your m-pay transactions in one secure Vodafone m-pay cards environment and check their status.
7. Once registered you can also access exclusive deals you won't find anywhere else.

PAYMENT PLATFORM

The payment platform has been developed in partnership with Encorus Technologies, owned by eONE Global.

VODAFONE UK

In May 2002 Vodafone UK was ranked top for customer satisfaction in the UK's pre-pay mobile phone sector in a survey by JD Power and Associates. Vodafone UK also came top in Oftel's last quarterly residential survey with 98% of mobile customers surveyed using the Vodafone network being satisfied with the overall service provided by the company.

More/...

Vodafone UK has 13 million customers, the largest share of the corporate mobile communications market and is part of world's largest mobile community. The Newbury-based company offers mobile voice and data communications including GPRS, which was introduced to the corporate market in April 2001 and consumers in June 2001. The Vodafone UK network covers 99% of the population and transmits over 10 million text messages every day. Vodafone UK was the world's first mobile operator to introduce international roaming, and currently offers its customers roaming on 325 networks in 139 countries. In addition Vodafone offers comprehensive international GPRS coverage with roaming to 15 countries.

**SCOTTISH AMBULANCE SERVICE SIGNS UP FOR
VODAFONE GPRS DATA SOLUTION**

The Scottish Ambulance Service has implemented the Terrafix Automatic Vehicle Location (AVL) system utilising Vodafone UK's comprehensive GPRS mobile data network. The service's frontline of 452 emergency vehicles has been rolled out with the AVL system since August 2002, allowing their Emergency Medical Dispatch Centres to update the position of vehicles across the entire Scottish landmass every 13 seconds.

The Vodafone GPRS data network was chosen by Terrafix partly for its extensive UK coverage, which incorporates all the remote Highlands and Islands within Scotland*. The solution also comprises a cost-effective price plan to accommodate the high data rate required by the Scottish Ambulance Service, making efficient use of the always-on nature of GPRS network connections.

The Scottish Ambulance Service selected specialist solutions provider Terrafix to implement the new AVL system. Each vehicle will be equipped with a Global Positioning Satellite (GPS) receiver, which integrates with the new Terrafix Intelligence Interface Unit. Following the initial roll out, it is expected that the solution will expand to cover all 1100 vehicles in both the emergency and non-emergency services.

The use of the Vodafone GPRS data network creates a first for the Service by ensuring that vehicles can be tracked throughout the entire operational area, helping it to improve the service for patients. The successful use of new mobile data services on this scale will also allow other emergency services in the UK to explore the benefits that can be derived from cost-effective high-speed tracking.

Stevan Hoyle, Corporate Director and General Manager, Vodafone UK, adds: This is a perfect example of an organisation making highly effective and cost-efficient use of the capabilities of our GPRS network. We are very pleased to be involved in building an advanced mobile data solution that plays such a significant role in Scotland.

*The Vodafone UK GSM and GPRS network currently covers 99% of the UK population

VODAFONE EUROCALL PLATINUM GREATER VALUE FOR ROAMING CUSTOMERS

Vodafone Group Plc (Vodafone) today announces the launch of Eurocall Platinum, a new Eurocall option which has been developed to help reduce the cost of calls for high volume roaming customers. Eurocall Platinum builds on the success of Eurocall, Vodafone's single rate European price plan, launched in January 2001.

Customers pay a monthly fee up to 10, which gives them access to a maximum flat roaming rate of 0.65 per minute. The rate applies to Vodafone partner network customers who originate calls when roaming to any country within Western Europe¹. The existing basic Eurocall tariff rate is currently charged at a maximum of 0.80, when the participating Vodafone partner network is used.

Vodafone customers in Germany, Greece, Ireland, Italy, Netherlands, Portugal, Spain, and Sweden will today be able to register for Eurocall Platinum. The service will be extended to SFR customers in France from 15 October 2002 and to Vodafone UK customers by 1 November 2002.

The Eurocall Platinum option comes with a free upgrade to an assisted roaming SIM which automatically seeks to connect customers to the local Vodafone partner network. The Eurocall Platinum price, like Eurocall, will be single rate and have no peak and off-peak periods.

Thomas Geitner, Chief Executive, Vodafone Global Products & Services, commented: "The launch of Eurocall Platinum is a further example of Vodafone's ability to deliver European services that directly benefit our customers. Through Eurocall Platinum, customers who are frequent users of our roaming services will now be able to stay in touch across Europe at even better prices."
