- ^ Not readily marketable security; security is valued at fair value as determined in good faith by, or under the direction of, the Board of Directors.
- # Variable Rate - The interest rate changes on these instruments based upon a designated base rate. The rates shown are those in effect at September 30, 2006.
- + Step Bond - The interest rate stated is the rate as of September 30, 2006.
- Ø Security in default.
- * Non-income producing security.
- ++ Less than 1,000 par.
- § Security or portion thereof is out on loan.
- §§ Represents security purchased with cash collateral received for securities on loan.

Security Valuation The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the Exchange) on each day the Exchange is open for business. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that using this method would not represent fair value. The Fund's equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (Valuation Time). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest asked quotation in the case of a short sale of securities. Investments in mutual funds are valued at the mutual fund's closing net asset value per share on the day of valuation. Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund's Valuation Time but after the close of the securities, primary markets, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. At September 30, 2006, the Fund held 0.38% of its net assets in securities valued at fair value as determined in good faith under procedures established by the Board of Directors with an aggregate cost of \$8,420,963 and fair value of \$797,456. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither acting under the compulsion to buy or sell. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could differ from the prices originally paid by the Fund or the current carrying values, and the difference could be material.

Federal Income Tax Cost At September 30, 2006, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized depreciation from investments were \$235,397,674, 5,086,815, (13,079,235), and \$(7,992,420) respectively.

Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is also available on the Fund's website at <http://www.credit-suisse.com/us> as well as on the website of the Securities and Exchange Commission <http://www.sec.gov>.
