**Fund Objective**

The Fund's primary investment objective is high current income. The Fund's secondary investment objective is total return.

**Letter from the Chairman**

Dear Shareholder,

Despite continued weakness in the housing market and a credit crunch that began in the summer of 2007, the U.S. economy was largely resilient during the six-month reporting period ended November 30, 2007. In the first quarter of 2007, U.S. gross domestic product (GDP) growth was a tepid 0.6%, according to the U.S. Commerce Department. This was the lowest growth rate since the fourth quarter of 2002. The economy then rebounded, as second quarter 2007 GDP growth was a solid 3.8%. Given the modest increase earlier in the year, this higher growth rate was not unexpected. The final estimate for third quarter GDP growth was 4.9%. A surge in inventory-building and robust exports supported the economy during the third calendar quarter. While initial fourth quarter 2007 GDP data will not be released until the end of January 2008, the Federal Reserve Board (Fed)ii, among others, anticipates that economic growth will moderate significantly.

**R. JAY GERKEN, CFA**

Chairman, President and  
Chief Executive Officer

Ongoing issues related to the housing and subprime mortgage markets and an abrupt tightening in the credit markets prompted the Fed to take several actions during the reporting period. The Fed initially responded by lowering the discount rate—the rate the Fed uses for loans it makes directly to banks—from 6.25% to 5.75% in mid-August 2007. Then, at its meeting on September 18, the Fed reduced the discount rate to 5.25% and the federal funds rateiii from 5.25% to 4.75%. This marked the first reduction in the federal funds rate since June 2003. The Fed again lowered the discount rate and federal funds rate in October to 5.00% and 4.50%, respectively. In December 2007, after the end of the reporting period, the Fed again reduced rates, as it cut both the discount rate and federal funds rate another 0.25% to 4.75% and 4.25%, respectively. In its statement accompanying the December meeting, the Fed stated: Incoming information

Western Asset Global High Income Fund Inc.

I

suggests that economic growth is slowing, reflecting the intensification of the housing correction and some softening in business and consumer spending. Moreover, strains in financial markets have increased in recent weeks. Today's action, combined with the policy actions taken earlier, should help promote moderate growth over time.

During the six-month reporting period, both short- and long-term Treasury yields experienced periods of significant volatility given mixed economic data and shifting expectations regarding the Fed's future monetary policy. After falling during the first three months of 2007, yields then moved steadily higher during much of the second calendar quarter. This was due, in part, to inflationary fears, a solid job market and expectations that the Fed would not be cutting short-term rates in the foreseeable future. During the remainder of the reporting period, the U.S. fixed-income markets were extremely volatile, which negatively impacted market liquidity conditions. Initially, the concern on the part of market participants was limited to the subprime segment of the mortgage-backed market. These concerns broadened, however, to include a wide range of financial institutions and markets. As a result, other fixed-income instruments also experienced increased price volatility. This turmoil triggered several flights to quality, causing Treasury yields to move sharply lower (and their prices higher), while riskier segments of the market saw their yields move higher (and their prices lower). Overall, during the six months ended November 30, 2007, two-year Treasury yields fell from 4.92% to 3.04%. Over the same period, 10-year Treasury yields fell from 4.90% to 3.97%. Looking at the six-month period as a whole, the overall bond market, as measured by the Lehman Brothers U.S. Aggregate Index<sup>iv</sup>, returned 5.32%.

Increased investor risk aversion at the beginning and the end of the reporting period offset the gains in the high-yield bond market over the six months ended November 30, 2007. During that period, the Citigroup High Yield Market Index<sup>v</sup> returned -2.99%. While high-yield bond prices rallied in the middle of the period, flights to quality in June and July, as well as in November, dragged down the sector, despite continued low default rates.

II Western Asset Global High Income Fund Inc.

Despite a dramatic flight to quality and weakness earlier in the reporting period, emerging markets debt generated positive results, as the JPMorgan Emerging Markets Bond Index Global (EMBI Global<sup>i</sup>) returned 2.65% for the six months ended November 30, 2007. Overall solid demand, an expanding global economy, strong domestic spending and the Fed's rate cuts supported the emerging market debt asset class.

### Performance Review

For the six months ended November 30, 2007, Western Asset Global High Income Fund Inc. returned -3.17% based on its net asset value (NAV<sup>ii</sup>) and -14.36% based on its New York Stock Exchange (NYSE) market price per share. In comparison, the Fund's unmanaged benchmarks, the Lehman Brothers U.S. Aggregate Index, the Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index<sup>viii</sup> and the EMBI Global, returned 5.32%, -2.84% and 2.65%, respectively, over the same time frame. The Lipper Global Income Closed-End Funds Category Average<sup>ix</sup> increased 2.20% for the same period. Please note that Lipper performance returns are based on each fund's NAV per share.

During the six-month period, the Fund made distributions to shareholders totaling \$0.51 per share (which may have included a return of capital). The performance table shows the Fund's six-month total return based on its NAV and market price as of November 30, 2007. **Past performance is no guarantee of future results.**

### Performance Snapshot as of November 30, 2007 (unaudited)

Price Per Share	Six-Month Total Return
\$13.70 (NAV)	-3.17%
\$11.65 (Market Price)	-14.36%

**All figures represent past performance and are not a guarantee of future results.**

Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares.

### **Special Shareholder Notices**

On August 15, 2007, the Board of Directors of Western Asset Global High Income Fund Inc. approved changes, to be effective on September 17, 2007, to the non-fundamental investment policies relating to the credit ratings of the securities in which the Fund may invest, as well as the types of securities in which the Fund may invest during periods of adverse market conditions.

Under the Fund's amended non-fundamental investment policies recommended by Fund Management and approved by the Board of Directors, the Fund will usually attempt to maintain a portfolio with a weighted average credit rating of at least B3 by Moody's Investor Service (Moody's) or B- by Standard & Poor's Corporation (S&P), or an equivalent rating by a nationally recognized statistical rating organization. Previously, the Fund was subject to a standard requiring it to attempt to maintain a portfolio with a weighted average credit quality rated at least Ba3 to A2 by Moody's or BB- to A by S&P. A restriction prohibiting the Fund from investing over 80% of its managed assets in below investment grade fixed-income securities was also eliminated. These changes, which are further described below, are intended to provide the portfolio managers with additional flexibility to meet the Fund's investment objectives and address recent and future developments in the market, although, the Fund's portfolio managers do not currently anticipate that any dramatic changes in the Fund's portfolio composition or investment approach will result.

As a result of the amendments to the Fund's non-fundamental investment policies, the Fund may invest a greater percentage of its managed assets in securities rated below investment grade. High-yield, lower-quality securities, or "junk bonds," are securities that are rated by a nationally recognized statistical rating organization below its top four long-term rating categories or unrated securities determined by the Fund's investment manager to be of equivalent quality. The issuers of lower-quality securities may be highly leveraged and have difficulty servicing their debt, especially during prolonged economic recessions or periods of rising interest rates. The prices of lower-quality securities are volatile and may go down due to market perceptions of

deteriorating issuer creditworthiness or economic conditions. Lower-quality securities may become illiquid and hard to value in down markets. Securities rated below investment grade securities are considered speculative and, compared to investment grade securities, tend to have more volatile prices and increased price sensitivity to changing interest rates and to adverse economic and business developments, greater risk of loss due to default or declining credit quality, greater likelihood that adverse economic or company specific events will make the issuer unable to make interest and/or principal payments and greater susceptibility to negative market sentiments leading to depressed prices and decrease in liquidity.

The Board of Directors also approved a new policy providing that, during times when, in the judgment of Western Asset Management Company, the Fund's subadviser, conditions in the securities markets would make pursuing the Fund's basic investment strategy inconsistent with the best interest of the Fund's stockholders, as a temporary defensive strategy, the subadviser may employ alternative strategies, including investment of all of the Fund's assets in securities rated investment grade by any nationally recognized statistical rating organization, or in unrated securities of comparable quality. Previously, the Fund had no investment policies that addressed adverse market conditions.

#### **Information About Your Fund**

Important information with regard to recent regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

#### **Looking for Additional Information?**

The Fund is traded under the symbol *EHF* and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol *XEHIX* on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as [www.leggmason.com/individualinvestors](http://www.leggmason.com/individualinvestors).

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 6:00 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA  
Chairman, President and Chief Executive Officer

*December 28, 2007*

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

**RISKS:** An investment in the Fund is subject to investment risk, including the possible loss of the entire principal amount that you invest. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on Fund performance. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations, and changes in political and economic conditions. These risks are magnified in emerging or developing markets. High-Yield bonds involve greater credit and liquidity risks than investment grade bonds. Leverage may magnify gains and increase losses in the Fund's portfolio.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

i Gross domestic product ( GDP ) is the market value of all final goods and services produced within a country in a given period of time.

ii The Federal Reserve Board ( Fed ) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.

iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.

iv The Lehman Brothers U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.

v The Citigroup High Yield Market Index is a broad-based unmanaged index of high-yield securities.

vi The JPMorgan Emerging Markets Bond Index Global ( EMBI Global ) tracks total returns for U.S. dollar denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans, Eurobonds, and local market instruments. Countries covered are Algeria, Argentina, Brazil, Bulgaria, Chile, China, Colombia, Cote d Ivoire, Croatia, Ecuador, Greece, Hungary, Lebanon, Malaysia, Mexico, Morocco, Nigeria, Panama, Peru, the Philippines, Poland, Russia, South Africa, South Korea, Thailand, Turkey and Venezuela.

vii NAV is calculated by subtracting total liabilities from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is at the Fund's market price as determined by supply of and demand for the Fund's shares.

viii The Lehman Brothers U.S. Corporate High Yield 2% Issuer Cap Index is an index of the 2% Issuer Cap component of the Lehman Brothers U.S. Corporate High Yield Index, which covers the U.S. dollar-denominated, non-investment grade fixed-rate, taxable corporate bond market.

ix Lipper, Inc. is a major independent mutual-fund tracking organization. Returns are based on the six-month period ended November 30, 2007, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 15 funds in the Fund's Lipper category.

\* Non-income producing security.

Face amount denominated in U.S. dollars, unless otherwise noted.

(a) All or a portion of this security is segregated for open futures contracts, extended settlements, swap contracts, foreign currency contracts, mortgage dollar rolls, and securities traded on a to-be-announced ( TBA ) basis.

(b) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.

(c) Payment-in-kind security for which part of the income earned may be paid as additional principal.

(d) Variable rate security. Interest rate disclosed is that which is in effect at November 30, 2007.

- (e) Security is currently in default.
- (f) Illiquid security.
- (g) This security is traded on a TBA basis (See Note 1).
- (h) Security is valued in good faith at fair value by or under the direction of the Board of Directors (See Note 1).
- (i) Rate shown represents yield-to-maturity.
- (j) All or a portion of this security is held at the broker as collateral for open futures contracts.
- # Aggregate cost for federal income tax purposes is substantially the same.

(1) For the six months ended November 30, 2007 (unaudited).

(2) Per share amounts have been calculated using the average shares method.

(3) For the period July 28, 2003 (inception date) to May 31, 2004.

(4) Initial public offering price of \$15.00 per share less offering costs and sales load totaling \$0.70 per share.

(5) Amount represents less than \$0.01 per share.

(6) Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

(7) The prior investment manager fully reimbursed the fund for losses incurred resulting from an investment transaction error. Without this reimbursement, total return would not have changed.

(8) The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results.

(9) Annualized.

(10) Reflects fee waivers and/or expense reimbursements.

## Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

(11) Excluding mortgage dollar roll transactions. If mortgage dollar roll transactions had been included, the portfolio turnover rate would have been 533%, 527%, 437%, and 285% for the years ended May 31, 2007, 2006, 2005, and the period ended May 31, 2004, respectively.

**See Notes to Financial Statements.**

24 Western Asset Global High Income Fund Inc. 2007 Semi-Annual Report

**Notes to Financial Statements (unaudited)**

**1. Organization and Significant Accounting Policies**

Western Asset Global High Income Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's primary investment objective is high current income. The Fund's secondary objective is total return.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ.

**(a) Investment Valuation.** Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the last quoted bid and asked prices as of the close of business of that market. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

**(b) Repurchase Agreements.** When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

**(c) Financial Futures Contracts.** The Fund may enter into financial futures contracts typically to hedge a portion of the portfolio. Upon entering into a financial futures contract, the Fund is required to deposit cash or securities as initial margin, equal in value to a certain percentage of the contract amount (initial margin deposit). Additional securities are also segregated up to the current market value of the financial futures contracts. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the

underlying financial instruments. For foreign denominated futures, variation margins are not settled daily. The

**Notes to Financial Statements (unaudited) (continued)**

Fund recognizes an unrealized gain or loss equal to the fluctuation in the value. When the financial futures contracts are closed, a realized gain or loss is recognized equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund's basis in the contracts.

The risks associated with entering into financial futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying financial instruments. In addition, investing in financial futures contracts involves the risk that the Fund could lose more than the initial margin deposit and subsequent payments required for a futures transaction. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

**(d) Forward Foreign Currency Contracts.** The Fund may enter into a forward foreign currency contract to hedge against foreign currency exchange rate risk on its non-U.S. dollar denominated securities or to facilitate settlement of a foreign currency denominated portfolio transaction. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price with delivery and settlement at a future date. The contract is marked-to-market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is closed, through either delivery or offset by entering into another forward foreign currency contract, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it was closed.

Forward foreign currency contracts involve elements of market risk in excess of the amounts reflected in the Statement of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

**(e) Written Options.** When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market daily to reflect the current market value of the option written. If the option expires, the Fund realizes a gain from investments equal to the amount of the premium received. When a written call option is exercised, the difference between the premium received plus the option exercise price and the Fund's basis in the underlying security (in the case of a covered written call option), or the cost to purchase the underlying security (in the case of an uncovered written call option), including brokerage commission, is treated as a realized gain or loss. When a written put option is exercised, the amount of the premium received is added to the cost of the security purchased by the Fund from the exercise of the written put option to form the Fund's basis in the underlying security purchased. The writer or buyer of an option traded on an exchange can liquidate the position before the exercise of the option by entering into a closing transaction. The cost of a closing transaction is deducted from the original premium received resulting in a realized gain or loss to the Fund.

The risk in writing a covered call option is that the Fund may forego the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. The risk in writing a

**Notes to Financial Statements (unaudited) (continued)**

call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

**(f) Stripped Securities.** The Fund invests in Stripped Securities, a term used collectively for stripped fixed income securities. Stripped securities can be principal only securities ( PO ), which are debt obligations that have been stripped of unmatured interest coupons or, interest only securities ( IO ), which are unmatured interest coupons that have been stripped from debt obligations. As is the case with all securities, the market value of Stripped Securities will fluctuate in response to changes in economic conditions, interest rates and the market's perception of the securities. However, fluctuations in response to interest rates may be greater in Stripped Securities than for debt obligations of comparable maturities that pay interest currently. The amount of fluctuation increases with a longer period of maturity.

The yield to maturity on IO's is sensitive to the rate of principal repayments (including prepayments) on the related underlying debt obligation and principal payments may have a material effect on yield to maturity. If the underlying debt obligation experiences greater than anticipated prepayments of principal, the Fund may not fully recoup its initial investment in IO's.

**(g) Securities Traded on a To-Be-Announced Basis.** The Fund may trade securities on a to-be-announced ( TBA ) basis. In a TBA transaction, the Fund commits to purchasing or selling securities which have not yet been issued by the issuer and for which specific information is not known, such as the face amount and maturity date and the underlying pool of investments in U.S. government agency mortgage pass-through securities. Securities purchased on a TBA basis are not settled until they are delivered to the Fund, normally 15 to 45 days after purchase. Beginning on the date the Fund enters into a TBA transaction, cash, U.S. government securities or other liquid high-grade debt obligations are segregated in an amount equal in value to the purchase price of the TBA security. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

**(h) Cash Flow Information.** The Fund invests in securities and distributes dividends from net investment income and net realized gains, which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments are presented in the Statement of Cash Flows.

**(i) Security Transactions and Investment Income.** Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

**(j) Foreign Currency Translation.** Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon

**Notes to Financial Statements (unaudited) (continued)**

prevailing exchange rates at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, including gains and losses on forward foreign currency contracts, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities, at the date of valuation, resulting from changes in exchange rates.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

**(k) Credit Default Swaps.** The Fund may enter into credit default swap ( CDS ) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer's default. As a seller of protection, the Fund generally receives an upfront payment or a fixed rate of income throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of the protection an amount up to the notional value of the swap, and in certain instances take delivery of the security. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Payments received or made at the beginning of the measurement period are reflected as such on the Statement of Assets and Liabilities. These upfront payments are recorded as realized gain or loss on the Statement of Operations upon termination or maturity of the swap. A liquidation payment received or made at the termination of the swap is recorded as realized gain or loss on the Statement of Operations. Net periodic payments received or paid by the Fund are recorded as realized gain or loss on the Statement of Operations.

**Notes to Financial Statements (unaudited) (continued)**

Entering into a CDS agreement involves, to varying degrees, elements of credit, market and documentation risk in excess of the related amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates.

**(l) Distributions to Shareholders.** Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

**(m) Federal and Other Taxes.** It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

**(n) Reclassification.** GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

**2. Investment Management Agreement and Other Transactions with Affiliates**

Legg Mason Partners Fund Advisor, LLC ( LMPFA ) is the Fund's investment manager and Western Asset Management Company ( Western Asset ) and Western Asset Management Company Limited ( Western Asset Limited ) are the Fund's subadvisers. LMPFA, Western Asset and Western Asset Limited are wholly-owned subsidiaries of Legg Mason, Inc. ( Legg Mason ).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays LMPFA an investment management fee, calculated daily and paid monthly, at an annual rate of 0.85% of the Fund's average daily net assets plus the proceeds of any outstanding borrowings. LMPFA has delegated to the subadvisers the day-to-day portfolio management of the Fund. The Fund's investment management fee remains unchanged. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

Western Asset Limited provides certain advisory services to the Fund relating to currency transactions and investment in non-U.S. dollar denominated securities. Western Asset Limited does not receive any compensation from the Fund and is paid by Western Asset for its services to the Fund.

## Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

During the periods in which the Fund is utilizing borrowings, the fee which is payable to the investment manager as a percentage of the Fund's assets will be higher than if the Fund did not utilize borrowings because the fee is calculated as a percentage of the Fund's net assets, including those investments purchased with borrowings. Borrowings for the

**Notes to Financial Statements (unaudited) (continued)**

purpose of the calculation of the management fee include loans from certain financial institutions, the use of mortgage dollar roll transactions and reverse repurchase agreements.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

**3. Investments**

During the six months ended November 30, 2007, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) and U.S. Government & Agency Obligations were as follows:

	<b>Investments</b>	<b>U.S. Government &amp; Agency Obligations</b>
Purchases	\$97,431,604	\$1,467,904,237
Sales	78,626,862	1,442,184,261

At November 30, 2007, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 13,382,280
Gross unrealized depreciation	(17,984,625)
Net unrealized depreciation	\$ (4,602,345)

At November 30, 2007, the Fund had the following open futures contracts:

	<b>Number of Contracts</b>	<b>Expiration Date</b>	<b>Basis Value</b>	<b>Market Value</b>	<b>Unrealized Gain (Loss)</b>
<b>Contracts to Buy:</b>					
Eurodollar	109	3/08	\$ 26,051,733	\$ 26,113,675	\$ 61,942
Japanese Yen	48	12/07	5,264,771	5,407,200	142,429
					\$ 204,371
<b>Contracts to Sell:</b>					
Australian Dollar	16	12/07	\$ 1,329,600	\$ 1,410,880	\$ (81,280)
Eurodollar	32	12/07	5,536,840	5,857,200	(320,360)
U.S. Treasury Bond	2	12/07	222,599	234,375	(11,776)
U.S. Treasury Bond	49	3/08	5,744,614	5,742,187	2,427
U.S. Treasury 2 Year Note	45	3/08	9,437,916	9,454,922	(17,006)
U.S. Treasury 5 Year Note	48	12/07	5,129,065	5,298,000	(168,935)

Edgar Filing: WESTERN ASSET GLOBAL HIGH INCOME FUND INC. - Form N-CSRS

30 Western Asset Global High Income Fund Inc. 2007 Semi-Annual Report

**Notes to Financial Statements (unaudited) (continued)**

At November 30, 2007, the Fund had open forward foreign currency contracts as described below:

<b>Foreign Currency Contracts to Buy:</b>	<b>Local Currency</b>	<b>Market Value</b>	<b>Settlement Date</b>	<b>Unrealized Loss</b>
Pound Sterling	1,683,000	\$3,452,724	2/12/08	\$(37,832)

During the six months ended November 30, 2007, written option transactions for the Fund were as follows:

	<b>Number of Contracts</b>	<b>Premiums</b>
Options written, outstanding May 31, 2007		
Options written	35,000,000	\$311,500
Options closed		
Options expired		
Options written, outstanding November 30, 2007	35,000,000	\$311,500

At November 30, 2007, the Fund held TBA securities with a total cost of \$214,780,286. The average monthly balance of mortgage dollar rolls outstanding for the fund for the six months ended November 30, 2007 was approximately \$215,216,873.

At November 30, 2007, the Fund held the following credit default swap contract:

Swap Counterparty:	Barcalays Capital Inc.
Effective Date:	10/11/2007
Referenced Entity:	CDX North America Crossover Index
Notional Amount:	150,000,000
Payments received by the Fund:	3.75% quarterly
Payments made by the Fund:	Payment only if credit event occurs
Termination Date:	12/20/2012
Unrealized Depreciation	\$(8,229,330)

**4. Loan**

At November 30, 2007, the Fund had a \$150,000,000 credit line available pursuant to a revolving credit and security agreement dated as of December 21, 2006 ( Agreement ), with CIESCO, LLC and Citibank, N.A. ( Citibank ). Citibank acts as administrative agent and secondary lender. Also as of November 30, 2007, the Fund had a \$100,000,000 loan outstanding pursuant to the Agreement. The loan generally bears interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. In addition, the Fund pays a commitment fee on the total amount of the loan available, whether used or unused. For the six months ended

November 30, 2007, the Fund paid \$97,768 in commitment fees.

**Notes to Financial Statements (unaudited) (continued)**

Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses. For the six months ended November 30, 2007, based on the number of days during the reporting period that the Fund had a loan balance outstanding, the average daily loan balance was \$100,000,000 and the weighted average interest rate was 5.56%. Total interest expense incurred on the loan for the period was \$2,824,493.

**5. Distributions Subsequent to November 30, 2007**

On November 19, 2007, the Board of Directors declared 3 dividends, each in the amount of \$0.085 per share, payable on December 28, 2007, January 25, 2008 and February 29, 2008, to shareholders of record on December 21, 2007, January 18, 2008 and February 22, 2008, respectively.

**6. Capital Shares**

On October 22, 2003, the Fund's Board authorized the Fund to repurchase from time to time in the open market up to 3,000,000 shares of the Fund's common stock. The Board directed the management of the Fund to repurchase shares of the Fund's common stock at such times and in such amounts as management believes will enhance shareholder value, subject to review by the Fund's Board. Since inception of the repurchase plan, the Fund has not repurchased any shares.

**7. Capital Loss Carryforward**

As of May 31, 2007, the Fund had a net capital loss carryforward of \$2,706,694, which expires in 2015. These amounts will be available to offset any future taxable gains.

**8. Other Matters**

As previously disclosed, on September 16, 2005, the staff of the Securities and Exchange Commission ( SEC ) informed Smith Barney Fund Management ( SBFM ) and Salomon Brothers Asset Management Inc. ( SBAM ) that the staff was considering recommending administrative proceedings against SBFM and SBAM for alleged violations of Section 19(a) and 34(b) of the 1940 Act (and related Rule 19a-1). On September 27, 2007, SBFM and SBAM, without admitting or denying any findings therein, consented to the entry of an order by the SEC relating to the disclosure by certain other closed-end funds of the sources of distributions paid by the funds between 2001 and 2004. Each of SBFM and SBAM agreed to pay a fine of \$450,000, for which it was indemnified by Citigroup, Inc., its former parent. It is not expected that this matter will adversely impact the Fund or its current investment adviser.

**9. Recent Accounting Pronouncements**

During June 2006, the Financial Accounting Standards Board ( FASB ) issued FASB Interpretation 48 ( FIN 48 or the Interpretation ), *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement 109. FIN 48 supplements FASB Statement 109, *Accounting for Income Taxes*, by defining the confidence level that a tax position must

**Notes to Financial Statements (unaudited) (continued)**

meet in order to be recognized in the financial statements. FIN 48 prescribes a comprehensive model for how a fund should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the fund has taken or expects to take on a tax return. FIN 48 requires that the tax effects of a position be recognized only if it is more likely than not to be sustained based solely on its technical merits. Management must be able to conclude that the tax law, regulations, case law, and other objective information regarding the technical merits sufficiently support the position's sustainability with a likelihood of more than 50 percent. FIN 48 is effective for fiscal periods beginning after December 15, 2006, which for this Fund was June 1, 2007. At adoption, the financial statements must be adjusted to reflect only those tax positions that are more likely than not to be sustained as of the adoption date. Management of the Fund has determined that adopting FIN 48 will not have a material impact on the Fund's financial statements.

\* \* \*

On September 20, 2006, FASB released Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ( FAS 157 ). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157.

**Board Approval of Management and Subadvisory Agreements (unaudited)**

At a meeting (the Contract Renewal Meeting) held in-person on November 13 and 14, 2007, the Board of Western Asset Global High Income Fund Inc. (the Fund), including the Fund's Board members that are not considered to be interested persons under the Investment Company Act of 1940, as amended (the Independent Board Members), approved the continuation of the investment management contract (the Management Agreement) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager) and the sub-advisory agreement (the Sub-Advisory Agreement) with the Manager's affiliate, Western Asset Management Company (the Subadviser) for a period of one year. To assist in its consideration of the renewals of the Management and Sub-Advisory Agreements, the Board received and considered a variety of information about the Manager and Subadviser, as well as the management and sub-advisory arrangements for the Fund and other funds overseen by the Board, certain portions of which are discussed below. A presentation made by the Manager and Subadviser to the Board at the Contract Renewal Meeting in connection with its evaluations of the Management and Sub-Advisory Agreements encompassed the Fund and all the funds for which the Board has responsibility. In addition to the Contract Renewal Information, including information presented by management at the Contract Renewal Meeting, the Board received information throughout the year related to the services rendered by the Manager and the Subadviser to the Fund. The Board's evaluation took into account the information received throughout the year and reflected the knowledge and familiarity gained as Board members of the Fund and other funds in the same complex with respect to the services provided to the Fund by the Manager and Subadviser.

The discussion below covers both advisory and administrative functions being rendered by the Manager, each function encompassed by the Management Agreement.

In approving the Management Agreement and Sub-Advisory Agreement, the Fund's Board, including the Independent Board Members, considered the factors below.

The Board received and considered information regarding the nature, extent and quality of services provided to the Fund by the Manager and the Subadviser under the Management Agreement and the Sub-Advisory Agreement, respectively, during the past year. The Board also reviewed information received from the Manager regarding the Fund's compliance policies and procedures established pursuant to Rule 38a-1 under the Investment Company Act of 1940, as amended.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the financial resources available to the Legg Mason funds' parent organization, Legg Mason, Inc. (Legg Mason).

The Board considered the division of responsibilities between the Manager and the Subadviser and the oversight provided by the Manager. The Board also considered the Manager's and Subadviser's brokerage policies and practices, the standards applied in seeking best execution, the Manager's policies and practices regarding soft dollars, the use of a broker affiliated with the Manager or the Subadviser, and the existence of quality controls.

**Board Approval of Management and Subadvisory Agreements (unaudited) (continued)**

applicable to brokerage allocation procedures. In addition, the Manager also reported generally to the Board on, among other things, its business plans, recent organizational changes, including Legg Mason's plans to address the pending retirement of its Chief Executive Officer, and the compensation plan for the Fund's portfolio managers.

The Board concluded that, overall, the nature, extent and quality of services provided (and expected to be provided) under the Management Agreement and the Sub-Advisory Agreement have been acceptable under the circumstances.

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe consisted of all funds (including the Fund) classified by Lipper as closed-end leveraged global income funds regardless of asset size or primary distribution channel. The Performance Universe consisted of six funds, including the Fund and two other funds in the Legg Mason fund complex that are managed by the Subadviser. The remaining three funds in the Performance Universe were in a single fund complex. The Board noted that it had received and discussed with management information throughout the year at periodic intervals comparing the Fund's performance against its benchmark(s) and, at the Board's request, its peer funds as selected by Lipper.

The Lipper Performance Information comparing the Fund's performance to that of its Performance Universe showed, among other things, that the Fund's performance for the 1- and 3-year periods ended June 30, 2007 was in each case below the Performance Universe median. The Board considered the Manager's explanation of the underperformance relative to the Performance Universe. Among other things, the Manager noted that the small size and the composition of the Performance Universe made meaningful comparisons difficult.

Based on its review, which included consideration of all of the information and factors noted above, the Board concluded that the Fund's performance, viewed on an absolute performance basis, supported continuation of the Management and Sub-advisory Agreements for an additional one-year period but that it will continue to evaluate the Fund's performance.

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager in light of the nature, extent and quality of the management and sub-advisory services provided by the Manager and the Subadviser. The Board noted that the compensation paid to the Subadviser is paid by the Manager, not the Fund, and, accordingly, that the retention of the Subadviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in a relevant expense group (the Expense

**Board Approval of Management and Subadvisory Agreements (unaudited) (continued)**

Universe ) selected and provided by Lipper for the year ended June 30, 2007. The Expense Universe consisted of all funds, including the Fund, classified by Lipper as closed-end leveraged global income funds, excluding certain funds regarded by Lipper as inappropriate for comparative purposes. The Expense Universe consisted of six funds that had assets ranging from \$155.4 million to \$2.3 billion. The Expense Universe funds were identical to the Performance Universe funds.

The Lipper Expense Information, comparing the Management Fee as well as its actual total expenses to the Fund's Expense Universe, showed that the Management Fee, whether on a contractual basis or an actual basis (i.e., giving in effect to a voluntary fee waiver implemented by the Manager), was above the median for the Expense Universe on a common assets basis. The actual total expenses of the Fund also were above the Expense Universe median on a common assets basis. On the basis of common and leveraged assets, the Fund's contractual and actual Management Fees were both above the Expense Universe median. The Fund's actual total expenses also were above the Expense Universe median on that basis. The Management Fee and the Fund's total expenses were not the highest in the Performance Universe on either a contractual or actual basis.

The Board considered the Manager's view that the small size and the composition of the Expense Universe, including the wide range of sizes among the six constituent funds, limited the value of the comparison.

The Board also reviewed information provided by the Manager regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, separate accounts. The Board was advised that the fees paid by such other clients generally are lower, and may be significantly lower, than the Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other Fund providers. The Board considered the fee comparisons in light of the differences required to manage these different types of accounts. The Contract Renewal Information included an analysis of complex-wide management fees provided by the Manager, which, among other things, set out a proposed framework of fees based on asset classes.

Taking all of the above into consideration, the Board determined that the Management Fee and the sub-advisory fee were reasonable in light of the nature, extent and quality of the services provided to the Fund under the Management Agreement and the Sub-Advisory Agreement.

The Board, as part of the Contract Renewal Information, received a profitability analysis of the Manager and its affiliates in providing services to the Fund. The Board also received profitability information with respect to the Legg Mason fund complex as a whole. In addition, the Board received information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data, together with a report from an outside consultant that had reviewed the Manager's methodology. The

**Board Approval of Management and Subadvisory Agreements (unaudited) (continued)**

profitability to the Subadviser was not considered to be a material factor in the Board's considerations since the Subadviser's fee is paid by the Manager, not the Fund. The profitability analysis presented to the Board as part of the Contract Renewal Information indicated that profitability to the Manager in providing services to the Fund had increased during the past year. The Board expressed its concern regarding the increasing level of profitability to the Manager from providing services to the Fund but noted that the Manager had implemented a new allocation methodology in 2007 which was used in preparing the profitability analysis presented at the Contract Renewal Meeting and that the methodology was subject to further review and refinement. The Board consequently concluded that it would be appropriate to continue to monitor profitability in light of the parties' limited experience with the new allocation methodologies.

The Board received and discussed information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that because the Fund is a closed-end Fund, growth in its assets will occur through appreciation in the value of the Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board noted that the Management Fee is lower than the average of management fees paid by the other funds in the Expense Universe. The Board determined that the management fee structure was reasonable under present circumstances.

The Board considered other benefits received by the Manager, the Subadviser and its affiliates as a result of their relationship with the Fund, including the opportunity to obtain research services from brokers who effect Fund portfolio transactions.

In light of the costs of providing investment management and other services to the Fund and the Manager's ongoing commitment to the Fund, the profits and other ancillary benefits that the Manager and its affiliates received were not considered to be excessive under the circumstances.

In light of all of the foregoing, the Board approved the Management Agreement and the Sub-Advisory Agreement to continue for another year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve the Management Agreement and Sub-Advisory Agreement, and each Board Member attributed different weight to the various factors. The Independent Board Members were advised by separate independent legal counsel throughout the process. The Board also discussed the proposed continuance of the Management Agreement and the Sub-Advisory Agreement in private sessions with their independent legal counsel at which no representatives of the Manager were present.

**Additional Shareholder Information (unaudited)**

**Results of Annual Meeting of Shareholders**

The Annual Meeting of Shareholders of Western Asset Global High Income Fund Inc. was held on September 18, 2007, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting.

**Election of Directors**

<b>Nominees</b>	<b>Votes For</b>	<b>Votes Withheld</b>
R. Jay Gerken	25,984,793	443,699
Dr. Riordan Roett	25,987,744	487,383
Jeswald W. Salacuse	25,986,837	444,596

At November 30, 2007, in addition to R. Jay Gerken, Dr. Riordan Roett and Jeswald W. Salacuse, the other Directors of the Fund were as follows:

Carol L. Colman

Daniel P. Cronin

Paolo M. Cucchi

Leslie H. Gelb

William R. Hutchinson

**Dividend Reinvestment Plan (unaudited)**

Unless you elect to receive distributions in cash, all distributions, on your Common Shares will be automatically reinvested by American Stock Transfer & Trust Company (AST), as agent for the Common Shareholders (the Plan Agent), in additional Common Shares under the Dividend Reinvestment Plan (the Plan). You may elect not to participate in the Plan by contacting the Plan Agent. If you do not participate, you will receive all cash distributions paid by check mailed directly to you by AST as distribution paying agent.

If you participate in the Plan, the number of Common Shares you will receive will be determined as follows:

(1) If the market price of the Common Shares on the record date (or, if the record date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the determination date) is equal to or exceeds 98% of the net asset value per share of the Common Shares, the Fund will issue new Common Shares at a price equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the market price per share of the Common Shares on the determination date.

(2) If 98% of the net asset value per share of the Common Shares exceeds the market price of the Common Shares on the determination date, the Plan Agent will receive the distribution in cash and will buy Common Shares in the open market, on the Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the Common Shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price rises so that it equals or exceeds 98% of the net asset value per share of the Common Shares at the close of trading on the Exchange on the determination date before the Plan Agent has completed the open market purchases or (ii) if the Plan Agent is unable to invest the full amount eligible to be reinvested in open market purchases, the Plan Agent will cease purchasing Common Shares in the open market and the Fund shall issue the remaining Common Shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the Exchange on the determination date or (b) 95% of the then current market price per share.

The Plan Agent maintains all participants' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. Any proxy you receive will include all Common Shares you have received under the Plan.

You may withdraw from the Plan by notifying the Plan Agent in writing at 59 Maiden Lane, New York, New York 10038 or by calling the Plan Agent at 1-877-366-6441. Such withdrawal will be effective immediately if notice is received by the Plan Agent not less than ten business days prior to any distribution record date; otherwise such withdrawal will be effective as soon as practicable after the Plan Agent's investment of the most recently declared distribution on the Common Shares. The Plan may be terminated by the Fund upon notice in writing mailed to Common Shareholders at least 30 days prior to the record date for the payment.

**Dividend Reinvestment Plan (unaudited) (continued)**

of any distribution by the Fund for which the termination is to be effective. Upon any termination, you will be sent a certificate or certificates for the full Common Shares held for you under the Plan and cash for any fractional Common Shares. You may elect to notify the Plan Agent in advance of such termination to have the Plan Agent sell part or all of your shares on your behalf. You will be charged \$5.00 plus a \$0.05 per Common Share service charge and the Plan Agent is authorized to deduct brokerage charges actually incurred for this transaction from the proceeds.

There is no service charge for reinvestment of your distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases. Because all distributions will be automatically reinvested in additional Common Shares, this allows you to add to your investment through dollar cost averaging, which may lower the average cost of your Common Shares over time.

Automatically reinvesting distributions does not mean that you do not have to pay income taxes due upon receiving distributions.

The Fund reserves the right to amend or terminate the Plan if, in the judgment of the Board of Directors, the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan and your account may be obtained from the Plan Agent at 1-877-366-6441.
