The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at August 31, 2008, 28.0% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.2% to 10.2% of total investments.

- (1) Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At August 31, 2008, the aggregate value of these securities is \$25,067,897 or 11.5% of the Trust's net assets applicable to common shares.
- (3) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (4) Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at August 31, 2008.
- (5) When-issued security.
- (6) Security (or a portion thereof) has been segregated to cover payable for when-issued securities.
- (7) Security is in default with respect to scheduled principal payments.
- (8) Security is in default and making only partial interest payments.

- Level 1 quoted prices in active markets for identical investments

- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.
