Schedule of Investments (unaudited) (continued)

August 31, 2008

- Non-income producing security.
  - Face amount denominated in U.S. dollars, unless otherwise noted.
- (a) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.
- (b) Payment-in-kind security for which part of the income earned may be paid as additional principal.
- (c) Security is currently in default.
- (d) Variable rate security. Interest rate disclosed is that which is in effect at August 31, 2008.
- (e) Illiquid security.

**BRL** 

- (f) Security is valued in good faith at fair value by or under the direction of the Board of Directors (See Note 2).
- (g) This security is traded on a to-be-announced ( TBA ) basis (See Note 1).
- (h) Rate shown represents yield-to-maturity.
- (i) All or a portion of this security is held at the broker as collateral for open futures contracts.
- Aggregate cost for federal income tax purposes is substantially the same.

Notes to Schedule of Investments (unaudited)

#### 1. Organization and Significant Accounting Policies

Western Asset Global High Income Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund s primary investment objective is high current income. The Fund s secondary objective is total return.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ( GAAP ).

- (a) Repurchase Agreements. When entering into repurchase agreements, it is the Fund s policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.
- (b) Financial Futures Contracts. The Fund may enter into financial futures contracts typically to hedge a portion of the portfolio. Upon entering into a financial futures contract, the Fund is required to deposit cash or securities as initial margin, equal in value to a certain percentage of the contract amount (initial margin deposit). Additional securities are also segregated up to the current market value of the financial futures contracts. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying financial instruments. For foreign currency denominated futures contracts, variation margins are not settled daily. The Fund recognizes an unrealized gain or loss equal to the fluctuation in the value. When the financial futures contracts are closed, a realized gain or loss is recognized equal to the difference between the proceeds from (or cost of) the closing transactions and the Fund s basis in the contracts.

The risks associated with entering into financial futures contracts include the possibility that a change in the value of the contract may not correlate with the changes in the value of the underlying financial instruments. In addition, investing in financial futures contracts involves the risk that the Fund could lose more than the initial margin deposit and subsequent payments required for a futures transaction. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

(c) Forward Foreign Currency Contracts. The Fund may enter into a forward foreign currency contract to hedge against foreign currency exchange rate risk on its non-U.S. dollar denominated securities or to facilitate settlement of a

foreign currency denominated portfolio transaction. A forward foreign currency contract is an agreement between two parties to buy and sell a currency at a set price with delivery and settlement at a future date. The contract is marked-to-market daily and the change in value is recorded by the Fund as an unrealized gain or loss. When a forward foreign currency contract is closed, through either delivery or offset by entering into another forward foreign currency contract, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value of the contract at the time it was closed.

Forward foreign currency contracts involve elements of market risk in excess of the amounts reflected in the Statements of Assets and Liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts.

(d) Foreign Currency Translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(e) Stripped Securities. The Fund invests in Stripped Securities, a term used collectively for stripped fixed income securities. Stripped securities can be principal only securities (PO), which are debt obligations that have been

15

#### Notes to Schedule of Investments (unaudited) (continued)

stripped of unmatured interest coupons or, interest only securities ( IO ), which are unmatured interest coupons that have been stripped from debt obligations. As is the case with all securities, the market value of Stripped Securities will fluctuate in response to changes in economic conditions, interest rates and the market s perception of the securities. However, fluctuations in response to interest rates may be greater in Stripped Securities than for debt obligations of comparable maturities that pay interest currently. The amount of fluctuation increases with a longer period of maturity.

The yield to maturity on IO s is sensitive to the rate of principal repayments (including prepayments) on the related underlying debt obligation and principal payments may have a material effect on yield to maturity. If the underlying debt obligation experiences greater than anticipated prepayments of principal, the Fund may not fully recoup its initial investment in IO s.

(f) Securities Traded on a To-Be-Announced Basis. The Fund may trade securities on a to-be-announced (TBA) basis. In a TBA transaction, the Fund commits to purchasing or selling securities which have not yet been issued by the issuer and for which specific information is not known, such as the face amount and maturity date and the underlying pool of investments in U.S. government agency mortgage pass-through securities. Securities purchased on a TBA basis are not settled until they are delivered to the Fund, normally 15 to 45 days after purchase. Beginning on the date the Fund enters into a TBA transaction, cash, U.S. government securities or other liquid high-grade debt obligations are segregated in an amount equal in value to the purchase price of the TBA security. These securities are subject to market fluctuations and their current value is determined in the same manner as for other securities.

(g) Mortgage Dollar Rolls. The Fund may enter into dollar rolls in which the Fund sells mortgage-backed securities for delivery in the current month, realizing a gain or loss, and simultaneously contracts to repurchase substantially similar (same type, coupon and maturity) securities to settle on a specified future date. During the roll period, the Fund forgoes interest paid on the securities. The Fund is compensated by the interest earned on the cash proceeds of the initial sale and by the lower repurchase price at the specified future date. The Fund maintains a segregated account, the dollar value of which is at least equal to its obligations with respect to dollar rolls.

The Fund executes its mortgage dollar rolls entirely in the to-be-announced ( TBA ) market, where the Fund makes a forward commitment to purchase a security and, instead of accepting delivery, the position is offset by a sale of the security with a simultaneous agreement to repurchase at a future date.

The risk of entering into a mortgage dollar roll is that the market value of the securities the Fund is obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a mortgage dollar roll files for bankruptcy or becomes insolvent, the Fund s use of proceeds of the dollar roll may be restricted pending a determination by the other party, or its trustee or receiver, whether to enforce the Fund s obligation to repurchase the securities.

(h) Swap Contracts. Swaps involve the exchange by the Fund with another party of the respective amounts payable with respect to a notional principal amount related to one or more indices or securities. The Fund may enter into these transactions to preserve a return or spread on a particular investment or portion of its assets, as a duration management technique, or to protect against any increase in the price of securities the Fund anticipates purchasing at a later date. The Fund may also use these transactions for speculative purposes, such as to obtain the price performance of a security without actually purchasing the security in circumstances where, for example, the subject security is illiquid, is unavailable for direct investment or available only on less attractive terms.

Swaps are marked-to-market daily based upon quotations from market makers and the change in value, if any, is recorded as an unrealized gain or loss in the Statement of Operations. Net receipts or payments of interest are recorded as realized gains or losses, respectively.

Swaps have risks associated with them, including possible default by the counterparty to the transaction, illiquidity and, where swaps are used as hedges, the risk that the use of a swap could result in losses greater than if the swap had not been employed.

(i) Credit Default Swaps. The Fund may enter into credit default swap ( CDS ) contracts for investment purposes, to manage its credit risk or to add leverage. CDS agreements involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default by a third party, typically corporate issuers or sovereign issuers of an emerging country, on a specified obligation. The Fund may use a CDS to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where a Fund has exposure to the sovereign issuer) or to take an active long or short position with respect to the likelihood of a particular issuer s default. As a seller of protection, the Fund generally receives an upfront payment or a fixed rate of income throughout the term of the swap provided that there is no credit event. If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will pay to the buyer of the protection an amount up to the

16

#### Notes to Schedule of Investments (unaudited) (continued)

notional value of the swap, and in certain instances take delivery of the security. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Entering into a CDS agreement involves, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates.

(j) Security Transactions. Security transactions are accounted for on a trade date basis.

#### 2. Investment Valuation

Effective June 1, 2008, the Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Funds investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

Debt securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund s Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The following is a summary of the inputs used in valuing the Fund s assets carried at fair value:

August 31, 2008

Quoted Prices (Level 1)

Other Significant Observable Inputs (Level 2) Significant Unobservable Inputs

				(Level 3)
Investments in Securities	\$ 600,932,694 \$	460,304 \$	600,132,821 \$	339,569
Other Financial Instruments*	(16,122,904)	422,316	(16,545,220)	
Total	\$ 584,809,790 \$	882,620 \$	583,587,601 \$	339,569

<sup>\*</sup> Other financial instruments may include written options, futures, swaps and forward contracts.

IF THERE ARE LEVEL 3 SECURITIES:

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

#### Notes to Schedule of Investments (unaudited) (continued)

	Investments in Securities	
Balance as of May 31, 2008	\$ 2	
Accrued Premiums/Discounts		
Realized Gain (Loss)		
Change in unrealized appreciation (depreciation)		
Net purchases (sales)		
Transfers in and/or out of Level 3	339,567	
Balance as of August 31, 2008	\$ 339,569	

#### 3. Investments

At August 31, 2008, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 10,982,798
Gross unrealized depreciation	(40,268,322)
Net unrealized depreciation	\$ (29,285,524)

At August 31, 2008, the Fund had the following open futures contracts:

	NUMBER OF EXPIRATION CONTRACTS DATE		BASIS VALUE		MARKET VALUE		UNREALIZED GAIN (LOSS)	
Contracts to buy:								
Eurodollar	100	3/09	\$	24,198,000	\$	24,260,000	\$	62,000
Eurodollar	75	6/09		18,109,125		18,171,563		62,438
								124,438
Contracts to sell:								
Australian Dollar	16	9/08	\$	1,498,000	\$	1,368,640	\$	129,360
Eurodollar	32	9/08		6,229,440		5,852,400		377,040

Lehman Brothers Inc.	1,250,000	6/17/20	5.329%	3-Month LIBOR		(39,502)
Lehman Brothers Inc.	5,120,000	6/17/12	3-Month LIBOR	5.140%		66,407
Lehman Brothers Inc.	10,230,000	6/16/12	3-Month LIBOR	4.950%		98,127
					\$	(95,698)
Credit Default Swaps:						
Barclay s Capital Inc. (CDX	148,500,000	12/20/12	(a)	3.750%	\$	(16,698,513)
North America Crossover Index)						
Net Unrealized Depreciation on open swap contracts					\$	(16,794,211)

<sup>(</sup>a) As a seller of protection, the Fund will pay an amount up to the notional value of the swap, and in certain instances take delivery of the security if a credit event occurs.

#### 4. Recent Accounting Pronouncement

In March 2008, the Financial Accounting Standards Board issued the Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. FAS 161 requires enhanced disclosures about the Funds derivative and hedging activities, including how such activities are accounted for and their effect on the Funds financial position, performance and cash flows. Management is currently evaluating the impact the adoption of FAS 161 will have on the Funds financial statements and related disclosures.

#### ITEM 2. CONTROLS AND PROCEDURES.

(a) The registrant s principal executive officer and principal financial officer have

concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and

15d-15(b) under the Securities Exchange Act of 1934.

(b) There were no changes in the registrant s internal control over financial reporting (as

defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last

fiscal quarter that have materially affected, or are likely to materially affect the

registrant s internal control over financial reporting.

#### ITEM 3. EXHIBITS.

Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.

#### **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
