Letter from the chairman

Dear Shareholder,

The U.S. economy remained weak during the six-month reporting period ended June 30, 2009. Looking back, the U.S. Department of Commerce reported that third and fourth quarter 2008 U.S. gross domestic product (GDP)ⁱ contracted 2.7% and 5.4%, respectively. Economic contraction has continued in 2009 as GDP fell 6.4% during the first quarter and the advance estimate for the second quarter is a 1.0% decline. The economy's more modest contraction in the second quarter was due, in part, to smaller declines in exports and business spending.

The U.S. recession, which began in December 2007, now has the dubious distinction of being the lengthiest since the Great Depression. Contributing to the economy's troubles has been extreme weakness in the labor market. Since December 2007, approximately six and a half million jobs have been shed and we have experienced eighteen consecutive months of job losses. In addition, the unemployment rate continued to move steadily higher, rising from 9.4% in May to 9.5% in June 2009, to reach its highest rate since August 1983.

Another strain on the economy, the housing market, may finally be getting closer to reaching a bottom. After plunging late in 2008, new single-family home starts have been fairly stable in recent months and, while home prices have continued to fall, the pace of the decline has moderated somewhat. Other recent economic news also seemed to be less negative. Inflation remained low, manufacturing contracted at a slower pace and inventory levels were drawn down.

Ongoing issues related to the housing and subprime mortgage markets and seizing credit markets prompted the Federal Reserve Board (Fed)ⁱⁱ to take aggressive and, in some cases, unprecedented actions. After reducing the federal funds rateⁱⁱⁱ from 5.25% in August 2007 to a range of 0 to 1/4 percent in December 2008 a historic low the Fed has maintained this stance thus far in 2009. In conjunction with its June meeting, the Fed stated that it will maintain the target range for the federal funds rate at 0 to 1/4 percent and continues to anticipate that economic conditions are likely to warrant exceptionally low levels of the federal funds rate for an extended period.

Letter from the chairman *continued*

In addition to maintaining extremely low short-term interest rates, the Fed took several actions to improve liquidity in the credit markets. Back in September 2008, it announced an \$85 billion rescue plan for ailing AIG and pumped \$70 billion into the financial system as Lehman Brothers bankruptcy and mounting troubles at other financial firms roiled the markets. More recently, the Fed has taken additional measures to thaw the frozen credit markets, including the purchase of debt issued by Fannie Mae and Freddie Mac, as well as introducing the Term Asset-Backed Securities Loan Facility (TALF). In March 2009, the Fed continued to pursue aggressive measures as it announced its intentions to:

- Purchase up to an additional \$750 billion of agency mortgage-backed securities, bringing its total purchases of these securities to up to \$1.25 trillion in 2009.
- Increase its purchases of agency debt this year by up to \$100 billion to a total of up to \$200 billion.
- Buy up to \$300 billion of longer-term Treasury securities over the next six months.

The U.S. Department of the Treasury has also taken an active role in attempting to stabilize the financial system, as it orchestrated the government's takeover of mortgage giants Fannie Mae and Freddie Mac in September 2008. In October, the Treasury's \$700 billion Troubled Asset Relief Program (TARP) was approved by Congress and signed into law by former President Bush. Then, in March 2009, Treasury Secretary Geithner introduced the Public-Private Partnership Investment Program (PPIP), which is intended to facilitate the purchase of troubled mortgage assets from bank balance sheets. President Obama has also made reviving the economy a priority in his administration, the cornerstone thus far being the \$787 billion stimulus package that was signed into law in February 2009.

Both short- and long-term Treasury yields fluctuated during the reporting period. This was often prompted by changing perceptions regarding the economy, future Fed policy decisions and the government's initiatives to stabilize the financial system. When the period began, Treasury yields were extremely low, given numerous flights to quality in 2008 that were triggered by the financial crisis. After starting the period at 0.76% and 2.25%, respectively, two- and ten-year Treasury yields drifted even lower (and their prices higher) in mid-January 2009. Yields then generally moved higher (and their prices lower) until early June. Two- and ten-year yields peaked at 1.42% and 3.98%, respectively, before falling and ending the reporting period at 1.11% and 3.53%. Over the six months ended June 30, 2009, longer-term yields moved higher than their shorter-term counterparts due to fears of future inflation given the government's massive stimulus.

II Western Asset Intermediate Muni Fund Inc.

program. In a reversal from 2008, investor risk aversion faded as the six-month reporting period progressed, driving spread sector (non-Treasury) prices higher.

The municipal bond market outperformed its taxable bond counterpart over the six months ended June 30, 2009. Over that period, the Barclays Capital Municipal Bond Index^{iv} and the Barclays Capital U.S. Aggregate Index^v returned 6.43% and 1.90%, respectively. Municipal securities outperformed the taxable bond market during four of the six months of the reporting period, as risk aversion decreased and investors were drawn to the attractive yields and valuations in the tax-free market.

Performance review

For the six months ended June 30, 2009, Western Asset Intermediate Muni Fund Inc. returned 9.40% based on its net asset value (NAV)^{vi} and 12.73% based on its New York Stock Exchange Amex (NYSE Amex) market price per share. The Fund's unmanaged benchmark, the Barclays Capital 1-15 Year Municipal Bond Index^{vii}, returned 4.19% over the same time frame. The Lipper Intermediate Municipal Debt Closed-End Funds Category Average^{viii} returned 11.06% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

During this six-month period, the Fund made distributions to shareholders totaling \$0.20 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of June 30, 2009. **Past performance is no guarantee of future results.**

Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable. Please consult your personal tax or legal adviser.

PERFORMANCE SNAPSHOT as of June 30, 2009 (unaudited)

PRICE PER SHARE	6-MONTH TOTAL RETURN*
\$9.09 (NAV)	(not annualized)
\$8.30 (Market Price)	9.40%
	12.73%

All figures represent past performance and are not a guarantee of future results.

***Total returns are based on changes in NAV or market price, respectively. Total returns assume the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.**

Letter from the chairman *continued*

A special note regarding increased market volatility

Dramatically higher volatility in the financial markets has been very challenging for many investors. Market movements have been rapid sometimes in reaction to economic news, and sometimes creating the news. In the midst of this evolving market environment, we at Legg Mason want to do everything we can to help you reach your financial goals. Now, as always, we remain committed to providing you with excellent service and a full spectrum of investment choices. Rest assured, we will continue to work hard to ensure that our investment managers make every effort to deliver strong long-term results.

We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our enhanced website, www.leggmason.com/cef. Here you can gain immediate access to many special features to help guide you through difficult times, including:

- Fund prices and performance,
- Market insights and commentaries from our portfolio managers, and
- A host of educational resources.

During periods of market unrest, it is especially important to work closely with your financial advisor and remember that reaching one's investment goals unfolds over time and through multiple market cycles. Time and again, history has shown that, over the long run, the markets have eventually recovered and grown.

Information about your fund

Important information with regard to certain regulatory developments that may affect the Fund is contained in the Notes to Financial Statements included in this report.

Looking for additional information?

Edgar Filing: WESTERN ASSET INTERMEDIATE MUNI FUND INC. - Form N-CSRS

The Fund is traded under the symbol SBI and its closing market price is available in most newspapers under the NYSE Amex listings. The daily NAV is available on-line under the symbol XSBIX on most financial websites. *Barron's* and *The Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites, as well as www.leggmason.com/cef.

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 5:30 p.m. Eastern Standard Time, for the Fund's current NAV, market price and other information.

IV Western Asset Intermediate Muni Fund Inc.

As always, thank you for your confidence in our stewardship of your assets. We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

July 31, 2009

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

RISKS: Keep in mind, the Fund's investments are subject to interest rate and credit risks. As interest rates rise, bond prices fall, reducing the value of the fixed-income securities held by the Fund. Lower-rated, higher-yielding bonds, known as junk bonds, are subject to greater credit risk, including the risk of default, than higher-rated obligations. The Fund may use derivatives, such as options and futures, which can be illiquid, may disproportionately increase losses, and have a potentially large impact on Fund performance. Certain investors may be subject to the federal alternative minimum tax, and state and local taxes will apply. Capital gains, if any, are fully taxable.

All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index.

- i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices, and a sustainable pattern of international trade and payments.
- iii The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- iv The Barclays Capital (formerly Lehman Brothers) Municipal Bond Index is a market value weighted index of investment grade municipal bonds with maturities of one year or more.
- v The Barclays Capital (formerly Lehman Brothers) U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- vi Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at

Edgar Filing: WESTERN ASSET INTERMEDIATE MUNI FUND INC. - Form N-CSRS

- which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- vii The Barclays Capital (formerly Lehman Brothers) 1-15 Year Municipal Bond Index is a market value weighted index of investment grade (Baa3/BBB- or higher) fixed-rate municipal bonds with maturities of one to fifteen years.
 - viii Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended June 30, 2009, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 7 funds in the Fund's Lipper category.

Under the Statement of Financial Accounting Standards No. 157, all securities are deemed Level 2. Please refer to Note 1 of the Notes to Financial Statements.

- (a) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax (AMT).
- (b) Bonds are escrowed to maturity by government securities and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.
- (c) Pre-Refunded bonds are escrowed with U.S. government obligations and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.
- (d) Variable rate security. Interest rate disclosed is that which is in effect at June 30, 2009.
- (e) Maturity date shown represents the mandatory tender date.
- (f) Security is currently in default.
- (g) Residual interest bonds coupon varies inversely with level of short-term tax-exempt interest rates.
- # Aggregate cost for federal income tax purposes is substantially the same.

WESTERN ASSET INTERMEDIATE MUNI FUND INC.

RATINGS TABLE (unaudited)

S&P/Moody s

AAA/Aaa	24.4%
AA/Aa	23.0
A	32.3
BBB/Baa	12.8
BB/Ba	1.6
NR	5.9
	100.0%

As a percentage of total investments.

In the event that a security is rated by multiple nationally recognized statistical rating organizations (NRSROs) and receives different ratings, the fund will treat the security as being rated in the highest rating category received from an NRSRO.

See pages 12 and 13 for definitions of ratings.

See Notes to Financial Statements.

Western Asset Intermediate Muni Fund Inc. 2009 Semi-Annual Report **11**

Bond ratings (unaudited)

The definitions of the applicable rating symbols are set forth below:

Standard & Poor's Ratings Service (Standard & Poor's) Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.

AAA	Bonds rated AAA have the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
BB, B, CCC, CC and C	Bonds rated BB, B, CCC, CC and C are regarded, on balance, as predominant speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents the lowest degree of speculation and C the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
D	Bonds rated D are in default and payment of interest and/or repayment of principal is in arrears.

Moody's Investors Service (Moody's) Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa	Bonds rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edge". Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes can be visualized as most unlikely to impair the fundamentally strong position of such issues.
Aa	Bonds rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risks appear somewhat larger than in Aaa securities.
A	Bonds rated A possess many favorable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate but elements may be present which suggest a susceptibility to impairment some time in the future.
Baa	Bonds rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
Ba	Bonds rated Ba are judged to have speculative elements; their future cannot be considered as well assured. Often the protection of interest and principal payments

may be very moderate and therefore not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

B	Bonds rated B generally lack characteristics of desirable investments. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
Caa	Bonds rated Caa are of poor standing. These may be in default, or present elements of danger may exist with respect to principal or interest.
Ca	Bonds rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked short-comings.
C	Bonds rated C are the lowest class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
<i>Fitch Ratings Service (Fitch)</i> Ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standings within the major rating categories.	
AAA	Bonds rated AAA have the highest rating assigned by Fitch. Capacity to pay interest and repay principal is extremely strong.
AA	Bonds rated AA have a very strong capacity to pay interest and repay principal and differ from the highest rated issues only in a small degree.
A	Bonds rated A have a strong capacity to pay interest and repay principal although they are somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
BBB	Bonds rated BBB are regarded as having an adequate capacity to pay interest and repay principal. Whereas they normally exhibit adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for bonds in this category than in higher rated categories.
BB, B, CCC, and C	Bonds rated BB , B , CCC and CC are regarded, on balance, as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation. BB represents a lower degree of speculation than B , and CC the highest degree of speculation. While such bonds will likely have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposures to adverse conditions.
NR	Indicates that the bond is not rated by Standard & Poor s, Moody s or Fitch.

¹ For the six months ended June 30, 2009 (unaudited).

² Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

³ The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

⁴ Calculated on the basis of average net assets of common stock shareholders. Ratios do not reflect the effect of dividend payments to preferred stockholders.

Edgar Filing: WESTERN ASSET INTERMEDIATE MUNI FUND INC. - Form N-CSRS

- 5 Annualized.
- 6 Reflects fee waivers and/or expense reimbursements. Without these fee waivers and/or expense reimbursements the ratio for gross expenses and net expenses, excluding interest would have been 1.15% and 1.03%, respectively.
- 7 Ratios for 2004 through 2005 were changed to reflect a correction of an immaterial amount.
- 8 On January 28, 2002, the Fund issued 2,000 shares of Series M Municipal Auction Rate Cumulative Preferred Stock at \$25,000 per share.
- 9 Excludes accumulated and unpaid distributions.

See Notes to Financial Statements.

Western Asset Intermediate Muni Fund Inc. 2009 Semi-Annual Report 17

Notes to financial statements (unaudited)

1. Organization and significant accounting policies

Western Asset Intermediate Muni Fund Inc. (the Fund) was incorporated in Maryland on December 19, 1991 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's investment objective is to provide common shareholders a high level of current income exempt from regular federal income taxes consistent with prudent investing.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through August 24, 2009, the issuance date of the financial statements.

(a) Investment valuation. Securities are valued at the mean between the last quoted bid and asked prices provided by an independent pricing service that are based on transactions in municipal obligations, quotations from municipal bond dealers, market transactions in comparable securities and various other relationships between securities. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. When prices are not readily available, or are determined not to reflect fair value, the Fund may value these securities at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates fair value.

The Fund adopted Statement of Financial Accounting Standards No. 157 (FAS 157). FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund's investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

DESCRIPTION	QUOTED PRICES (LEVEL 1)	OTHER SIGNIFICANT OBSERVABLE INPUTS (LEVEL 2)	SIGNIFICANT UNOBSERVABLE INPUTS (LEVEL 3)	TOTAL
Long-term securities:				
Municipal bonds		\$175,325,345		\$175,325,345
Total		\$175,325,345		\$175,325,345

See Schedule of Investments for additional detailed categorizations.

(b) Futures contracts. The Fund may use futures contracts to gain exposure to, or hedge against, changes in the value of interest rates. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date.

Upon entering into a futures contract, the Fund is required to deposit with a broker cash or cash equivalents in an amount equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses in the Statement of Operations and the Fund recognizes a realized gain or loss when the contract is closed.

Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

(c) Net asset value. The net asset value (NAV) of the Fund's common stock is determined no less frequently than the close of business on the last business day of each week (generally Friday) and on the last business day of the month. It is determined by dividing the value of the net assets available to common stock by the total number of shares of common stock outstanding. For the purpose of determining the NAV per share of the common stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's total assets less (1) the Fund's liabilities, and (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the Municipal Auction Rate Cumulative Preferred Stock (Preferred Stock).

(d) Concentration of credit risk. Since the Fund invests a portion of its assets in obligations of issuers within a single state, it may be subject to possible concentration risks associated with economic, political, or legal developments or industrial or regional matters specifically affecting that state.

Notes to financial statements (unaudited) continued

(e) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults on an expected interest payment, the Fund's policy is to generally halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default.

(f) Distributions to shareholders. Distributions from net investment income for the Fund, if any, are declared and paid on a monthly basis. The Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from federal and certain state income taxes, to retain such tax-exempt status when distributed to the shareholders of the Fund. Distributions of net realized gains, if any, are taxable and are declared at least annually. Distributions are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

In addition, the holders of the Preferred Stock shall be entitled to receive dividends in accordance with an auction that will normally be held weekly and out of the funds legally available to shareholders.

(g) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute substantially all of its taxable income and net realized gains, if any, to shareholders each year. Therefore, no federal income tax provision is required in the Fund's financial statements.

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that as of June 30, 2009, no provision for income tax would be required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

(h) Reclassification. GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset values per share.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC (LMPFA) is the Fund's investment manager and Western Asset Management Company (Western Asset) is the Fund's subadvisor. LMPFA and Western Asset are wholly-owned subsidiaries of Legg Mason, Inc. (Legg Mason).

LMPFA provides administrative and certain oversight services to the Fund. The Fund pays an investment management fee, calculated daily and paid monthly, at an annual rate of 0.55% of the Fund's average daily net assets. For the purposes of calculating the investment management fee, the aggregate liquidation value of the Preferred Stock is not deducted in determining the Fund's average daily net assets.

LMPFA has delegated to Western Asset the day-to-day portfolio management of the Fund. For its services, LMPFA pays Western Asset 70% of the net management fee it receives from the Fund.

The Fund had adopted an unfunded, non-qualified deferred compensation plan (the Plan) which allowed non-interested directors (Independent Directors) to defer the receipt of all or a portion of the directors' fees earned until a later date specified by the Independent Directors. The deferred balances are reported in the Statement of Operations under Directors' fees and are considered a general obligation of the Fund and any payments made pursuant to the Plan will be made from the Fund's assets. The Plan was terminated effective January 1, 2007. This change will have no effect on fees previously deferred. As of June 30, 2009, the Fund had accrued \$6,344 as deferred compensation payable.

Certain officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

3. Investments

During the six months ended June 30, 2009, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$19,240,944
Sales	14,178,270

At June 30, 2009, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 4,448,099
Gross unrealized depreciation	(5,109,585)
Net unrealized depreciation	\$ (661,486)

4. Derivative instruments and hedging activities

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, requires enhanced disclosure about an entity's derivative and hedging activities.

Notes to financial statements (unaudited) continued

At June 30, 2009, the Fund did not hold any derivative instruments.

The following tables provide information about the effect of derivatives and hedging activities on the Fund's Statement of Operations for the six months ended June 30, 2009. The first table provides additional detail about the amounts and sources of gains/(losses) realized on derivatives during the period. The second table provides additional information about the changes in unrealized appreciation/(depreciation) resulting from the Fund's derivatives and hedging activities during the period.

AMOUNT OF REALIZED GAIN OR (LOSS) ON DERIVATIVES RECOGNIZED

	INTEREST RATE CONTRACTS RISK	OTHER CONTRACTS RISK	TOTAL
Futures Contracts	\$(977,066)		\$(997,066)

CHANGE IN UNREALIZED APPRECIATION/DEPRECIATION ON DERIVATIVES

	INTEREST RATE CONTRACTS RISK	OTHER CONTRACTS RISK	TOTAL
Futures Contracts	\$1,841,910		\$1,841,910

5. Municipal auction rate cumulative preferred stock

On January 28, 2002, the Fund issued 2,000 shares of Series M Municipal Auction Rate Cumulative Preferred Stock (ARCPS). The ARCPS dividends are cumulative at a rate determined at an auction and the dividend period is typically 7 days. The dividend rate cannot exceed a certain maximum rate, including in the event of a failed auction, unless the Board of Directors of the Fund authorizes an increased maximum rate. To the extent capital gains and other taxable income are allocated to holders of Preferred Shares for tax purposes, the Fund will likely have to pay higher dividends to holders of Preferred Shares to compensate them for the increased tax liability to them resulting from such allocation. Due to failed auctions experienced by the Fund's ARCPS starting on February 14, 2008, the Fund paid the applicable maximum rate, which was calculated as 110% of the prevailing, 30-day AA Financial Composite Commercial Paper Rate. The Fund may pay higher maximum rates if the rating of the Fund's ARCPS were to be lowered by the rating agencies. The dividend rates ranged from 0.442% to 1.432% during the six months ended June 30, 2009. The weighted average dividend rate for the six months ended June 30, 2009 was 0.720%. At June 30, 2009, the dividend rate was 0.442%.

The ARCPS are redeemable under certain conditions by the Fund, or subject to mandatory redemption (if the Fund is in default of certain coverage requirements) at a redemption price equal to the liquidation preference, which is the sum of \$25,000 per share plus accumulated and unpaid dividends.

The Fund is required to maintain certain asset coverages with respect to the ARCPS. If the Fund fails to maintain these coverages and does not cure any

22 Western Asset Intermediate Muni Fund Inc. 2009 Semi-Annual Report

such failure within the required time period, the Fund is required to redeem a requisite number of the ARCPS in order to meet the applicable requirement. Additionally, failure to meet the foregoing asset coverage requirements would restrict the Fund's ability to pay dividends to common shareholders.

Citigroup Global Markets Inc. (CGM) currently acts as the broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to each broker/dealer, from monies the Fund provides, a participation fee. For the period of the report and for all previous periods since the ARCPS have been outstanding, the participation fee has been paid at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. However, subsequent to the period of this report, effective on August 3, 2009, CGM reduced its participation fee to an annual rate of 0.05% of the purchase price of the ARCPS, in the case of a failed auction. For the six months ended June 30, 2009, CGM earned \$62,453 as a participating broker/dealer.

6. Distributions subsequent to June 30, 2009

On May 26, 2009, the Fund's Board declared two dividends in the amount of \$0.0340 per share, payable on July 31, 2009 and August 28, 2009 to shareholders of record on July 24, 2009 and August 21, 2009, respectively.

On August 13, 2009, the Fund's Board declared three dividends in the amount of \$0.037 per share, payable September 25, 2009, October 30, 2009 and November 27, 2009 to shareholders of record on September 18, 2009, October 23, 2009 and November 20, 2009, respectively.

7. Capital loss carryforward

As of December 31, 2008, the Fund had a net capital loss carryforward of approximately \$9,445,254, of which \$3,184,235 expires in 2010, \$569,469 expires in 2011, \$3,529,445 expires in 2012 and \$2,162,105 expires in 2013. These amounts will be available to offset any future taxable capital gains.

8. Subsequent event

At the May 2009 meeting, the Board approved a recommendation from LMPFA to change the fiscal year-end for the Fund from December 31st to November 30th. This change will result in a stub period annual report being produced for the eleven-month period ending November 30, 2009.

Additional shareholder information (unaudited)

Result of annual meeting of shareholders

The Annual Meeting of Shareholders of the Fund was held on April 28, 2009, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the meeting:

Election of directors

NOMINEES	SHARES VOTED FOR ELECTION	SHARES WITHHELD
Riordan Roett	12,989,805.86	304,946.93
R. Jay Gerken	13,036,466.17	258,286.62

At June 30, 2009, in addition to Riordan Roett and R. Jay Gerken, the other Directors of the Fund were as follows:

Carol L. Colman

Daniel P. Cronin

Paolo M. Cucchi

Leslie H. Gelb

William R. Hutchinson

Jeswald W. Salacuse

Dividend reinvestment plan (unaudited)

Under the Fund's Dividend Reinvestment Plan (Plan), a shareholder whose shares of common stock are registered in his own name will have all distributions from the Fund reinvested automatically by American Stock Transfer & Trust Company (AST), as purchasing agent under the Plan, unless the shareholder elects to receive cash. Distributions with respect to shares registered in the name of a broker-dealer or other nominee (that is, in street name) will be reinvested by the broker or nominee in additional shares under the Plan, unless the service is not provided by the broker-dealer or nominee or the shareholder elects to receive distributions in cash. Investors who own common stock registered in street name should consult their broker-dealers for details regarding reinvestment. All distributions to shareholders who do not participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of AST as dividend paying agent.

The number of shares of common stock distributed to participants in the Plan in lieu of a cash dividend is determined in the following manner. When the market price of the common stock is equal to or exceeds the net asset value (NAV) per share of the common stock on the determination date (generally, the record date for the distribution), Plan participants will be issued shares of common stock by the Fund at a price equal to the greater of NAV determined or 95% of the market price of the common stock.

If the market price of the common stock is less than the NAV of the common stock at the time of valuation (which is the close of business on the determination date), AST will buy common stock in the open market, on the AMEX or elsewhere, for the participants' accounts. If following the commencement of the purchases and before AST has completed its purchases, the market price exceeds the NAV of the common stock as of the valuation time, AST will attempt to terminate purchases in the open market and cause the Fund to issue the remaining portion of the dividend or distribution in shares at a price equal to the greater of (a) NAV as of the valuation time or (b) 95% of the then current market price. In this case, the number of shares received by a Plan participant will be based on the weighted average of prices paid for shares purchased in the open market and the price at which the Fund issues the remaining shares. To the extent AST is unable to stop open market purchases and cause the Fund to issue the remaining shares, the average per share purchase price paid by AST may exceed the NAV of the common stock as of the valuation time, resulting in the acquisition of fewer shares than if the distribution had been paid in common stock issued by the Fund at such NAV. AST will begin to purchase common stock on the open market as soon as practicable after the determination date for distributions, but in no event shall such purchases continue later than 30 days after the payment date for such distribution, or the record date for a succeeding distribution, except when necessary to comply with applicable provisions of the federal securities laws.

AST maintains all shareholder accounts in the Plan and furnishes written confirmations of all transactions in each account, including information needed

Dividend reinvestment plan (unaudited) *continued*

by a shareholder for personal and tax records. The automatic reinvestment of distributions will not relieve plan participants of any income tax that may be payable on the distributions. Common stock in the account of each Plan participant will be held by AST in uncertificated form in the name of the Plan participant.

Plan participants are subject to no charge for reinvesting distributions under the Plan. AST's fees for handling the reinvestment of distributions will be paid by the Fund. No brokerage charges apply with respect to shares of common stock issued directly by the Fund under the Plan. Each Plan participant will, however, bear a proportionate share of any brokerage commissions actually incurred with respect to any open market purchases made under the Plan.

Experience under the Plan may indicate that changes to it are desirable. The Fund reserves the right to amend or terminate the Plan as applied to any distribution paid subsequent to written notice of the change sent to participants at least 30 days before the record date for the distribution. The Plan also may be amended or terminated by AST, with the Fund's prior written consent, on at least 30 days' written notice to Plan participants. All correspondence concerning the Plan should be directed by mail to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038 or by telephone at 1-877-366-6441.
