Letter from the chairman

Dear Shareholder,

Edgar Filing: LMP CORPORATE LOAN FUND INC. - Form N-CSRS

We are pleased to provide the semi-annual report of LMP Corporate Loan Fund Inc. for the six-month reporting period ended March 31, 2013. Please read on for Fund performance information and a detailed look at prevailing economic and market conditions during the Fund's reporting period.

Effective December 1, 2012, Legg Mason Partners Fund Advisor, LLC (LMPFA), the Fund's investment manager, assumed responsibility for the day-to-day management of the Fund's portfolio. LMPFA previously provided management and administrative services to the Fund. Following LMPFA's assumption of the day-to-day management of the Fund's portfolio, the Fund no longer has a subadviser.

Recent regulations adopted by the Commodity Futures Trading Commission (the CFTC) require operators of registered investment companies, including closed-end funds, to register as commodity pool operators unless the fund limits its investments in commodity interests. Effective December 31, 2012, your Fund's manager has claimed the exclusion from the definition of commodity pool operator. More information about the CFTC rules and their effect on the Fund is included later in this report on page 23.

As always, we remain committed to providing you with excellent service and a full spectrum of investment choices. We also remain committed to supplementing the support you receive from your financial advisor. One way we accomplish this is through our website, www.lmcef.com. Here you can gain immediate access to market and investment information, including:

- Fund prices and performance,
- Market insights and commentaries from our portfolio managers, and
- A host of educational resources.

We look forward to helping you meet your financial goals.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

IV LMP Corporate Loan Fund Inc.

Investment commentary

Economic review

The U.S. economy continued to grow over the six months ended March 31, 2013 (the reporting period), but it did so in fits and starts. Looking back, U.S. gross domestic product (GDP) growth, as reported by the U.S. Department of Commerce, was 1.3% in the second quarter of 2012. Economic growth accelerated to 3.1% in the third quarter, partially due to increased private inventory investment, higher federal government spending and moderating imports. However, economic activity sharply moderated in the fourth quarter, with GDP expanding an anemic 0.4%. This was driven by a reversal of the above factors, as private inventory investment and federal government spending weakened. The reporting period then ended on a positive note, as the U.S. Department of Commerce's initial estimate for first quarter 2013 GDP growth was 2.5%. Accelerating growth was due, in part, to strengthening consumer spending, which rose 3.2% during the first quarter, versus a 1.8% increase during the previous quarter.

While there was some improvement in the U.S. job market, unemployment remained elevated throughout the reporting period. When the period began, unemployment, as reported by the U.S. Department of Labor, was 7.8%. The unemployment rate fluctuated between 7.8% and 7.9% through January 2013. Unemployment then fell to 7.7% in February and 7.6% in March, the lowest level since December 2008. However, the decline in March was partially due to people leaving the workforce. In addition, the number of longer-term unemployed continues to be a headwind for the economy, as nearly 40% of the 11.7 million people without a job have been out of work for more than six months.

Meanwhile, the housing market brightened, as sales generally improved and home prices continued to rebound. According to the National Association of Realtors (NAR), existing-home sales slipped 0.6% on a seasonally adjusted basis in March 2013 versus the previous month, but were 10.3% higher than in March 2012. In addition, the NAR reported that the median existing-home price for all housing types was \$184,300 in March 2013, up 11.8% from March 2012. This marked the thirteenth consecutive month that home prices rose compared to the same period a year earlier. While the inventory of homes available for sale rose modestly in March to a 4.7 month supply at the current sales pace, it was 16.8% lower than in March 2012.

While manufacturing activity was weak in many international developed countries, it was generally positive in the U.S. Based on the Institute for Supply Management's PMI (PMI)ii, the U.S. manufacturing sector expanded for the second straight month in October 2012, with a reading of 51.7 (a reading below 50 indicates a contraction, whereas a reading above 50 indicates an expansion). The PMI then fell to contraction territory with a reading of 49.5 in November. However, manufacturing expanded over the next four months, with the PMI at 51.3 in March 2013. During March, 14 of the 18 industries within the PMI expanded.

Market review**Q. How did the Federal Reserve Board (Fed)iii respond to the economic environment?**

A. The Fed took a number of actions as it sought to meet its dual mandate of fostering maximum employment and price stability. As has been the case since December 2008, the Fed kept the federal funds rateiv at a historically low range between zero and 0.25%. At its September 2012 meeting, prior to the beginning of the reporting period, the Fed announced a third round of quantitative easing (QE3), which involves purchasing \$40 billion each month of agency mortgage-backed securities (MBS) on an open-end basis. In addition, the Fed further extended the duration that it expects to keep the federal funds rate on hold, until at least mid-2015. At its meeting in December, the Fed announced that it would continue purchasing \$40 billion per month of agency MBS, as well as initially purchasing \$45 billion a month of longer-term Treasuries. The Fed also said that it would keep the federal funds rate on hold ...as long as the unemployment rate remains above 6.5%, inflation between one and two years ahead is projected to be no more than a half percentage point above the Committee s 2% longer-run goal, and longer-term inflation expectations continue to be well anchored. As expected, at its meeting in March 2013, the Fed said it would continue its asset purchase program. It also stated that When the Committee decides to begin to remove policy accommodation, it will take a balanced approach consistent with its longer-run goals of maximum employment and inflation of 2%.

Q. Did Treasury yields trend higher or lower during the six months ended March 31, 2013?

A. Both short- and long-term Treasury yields moved higher during the reporting period. When the period began, the yield on the two-year Treasury was 0.23%, matching its low over the six months ended March 31, 2013. It rose as high as 0.32% on October 22 and ended the period at 0.25%. The yield on the ten-year Treasury began the period at 1.65%. Ten-year Treasuries hit a low of 1.58% in mid-November 2012 and peaked at 2.07% on March 11, 2013, before ending the period at 1.87%.

Q. What factors impacted the spread sectors (non-Treasuries) during the reporting period?

A. The spread sectors experienced periods of volatility during the period given a number of macro issues, including the European sovereign debt crisis, mixed economic data and concerns related to the U.S. fiscal cliff and sequestration. However, the majority of spread sectors outperformed equal-durationv Treasuries given generally solid demand from investors looking to generate incremental yield in the low interest rate environment. For the six months ended March 31, 2013, the Barclays U.S. Aggregate Indexvi returned 0.09%.

Performance review

For the six months ended March 31, 2013, LMP Corporate Loan Fund Inc. returned 5.60% based on its net asset value (NAV)vii and 7.50% based on its New York Stock Exchange (NYSE) market price per share. The Lipper Loan Participation Closed-End Funds Category

Edgar Filing: LMP CORPORATE LOAN FUND INC. - Form N-CSRS

Average^{viii} returned 5.91% for the same period. Please note that Lipper performance returns are based on each fund's NAV.

VI LMP Corporate Loan Fund Inc.

Investment commentary (continued)

During this six-month period, the Fund made distributions to shareholders totaling \$0.44 per share, which may have included a return of capital. The performance table shows the Fund's six-month total return based on its NAV and market price as of March 31, 2013. **Past performance is no guarantee of future results.**

Performance Snapshot as of March 31, 2013 (unaudited)

Price Per Share	6-Month Total Return*
\$13.06 (NAV)	5.60%
\$13.94 (Market Price)	7.50%

All figures represent past performance and are not a guarantee of future results. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

* Total returns are based on changes in NAV or market price, respectively.

Total return assumes the reinvestment of all distributions, including returns of capital, if any, at NAV.

Total return assumes the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.

Looking for additional information?

The Fund is traded under the symbol TLI and its closing market price is available in most newspapers under the NYSE listings. The daily NAV is available on-line under the symbol XTLIX on most financial websites. *Barron's* and the *Wall Street Journal's* Monday edition both carry closed-end fund tables that provide additional information. In addition, the Fund issues a quarterly press release that can be found on most major financial websites as well as www.lmcef.com.

Edgar Filing: LMP CORPORATE LOAN FUND INC. - Form N-CSRS

In a continuing effort to provide information concerning the Fund, shareholders may call 1-888-777-0102 (toll free), Monday through Friday from 8:00 a.m. to 5:30 p.m. Eastern Time, for the Fund's current NAV, market price and other information.

As always, thank you for your confidence in our stewardship of your assets.

Sincerely,

R. Jay Gerken, CFA

Chairman, President and Chief Executive Officer

April 26, 2013

RISKS: *The Fund invests in fixed-income securities which are subject to credit risks, including the risk of nonpayment of scheduled interest or loan payments, which could lower the Fund's value. The Fund can normally be expected to have less significant interest rate related fluctuations in its NAV than investment companies investing primarily in fixed rate fixed-income securities (other than money market funds) because the floating or variable rate collateralized senior loans in which the Fund invests float in response to changes in prevailing market interest rates. Because floating or variable interest rates on collateralized senior loans reset periodically, however, there can be some, typically short-term, dislocation between prevailing market interest rates and the interest rates paid on the Fund's collateralized senior loans. Accordingly, the Fund's NAV may experience related fluctuations from time to time. Similarly, a sudden and extreme increase in prevailing interest rates may cause a decline in the Fund's NAV. The Fund may invest in foreign securities which are subject to certain risks not associated with domestic investing, such as currency fluctuations, and changes in*

political and economic conditions. High yield/lower-rated securities involve greater credit and liquidity risks than investment grade securities. The Fund is non-diversified which may entail greater risks than is normally associated with more widely diversified funds.

All investments are subject to risk including the possible loss of principal. Past performance is no guarantee of future results. All index performance reflects no deduction for fees, expenses or taxes. Please note that an investor cannot invest directly in an index and unmanaged index returns do not reflect any fees, expenses or sales charges.

The information provided is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

- i Gross domestic product (GDP) is the market value of all final goods and services produced within a country in a given period of time.
- ii The Institute for Supply Management's PMI is based on a survey of purchasing executives who buy the raw materials for manufacturing at more than 350 companies. It offers an early reading on the health of the manufacturing sector.
- iii The Federal Reserve Board (Fed) is responsible for the formulation of policies designed to promote economic growth, full employment, stable prices and a sustainable pattern of international trade and payments.
- iv The federal funds rate is the rate charged by one depository institution on an overnight sale of immediately available funds (balances at the Federal Reserve) to another depository institution; the rate may vary from depository institution to depository institution and from day to day.
- v Duration is the measure of the price sensitivity of a fixed-income security to an interest rate change of 100 basis points. Calculation is based on the weighted average of the present values for all cash flows.
- vi The Barclays U.S. Aggregate Index is a broad-based bond index comprised of government, corporate, mortgage- and asset-backed issues, rated investment grade or higher, and having at least one year to maturity.
- vii Net asset value (NAV) is calculated by subtracting total liabilities and outstanding preferred stock (if any) from the closing value of all securities held by the Fund (plus all other assets) and dividing the result (total net assets) by the total number of the common shares outstanding. The NAV fluctuates with changes in the market prices of securities in which the Fund has invested. However, the price at which an investor may buy or sell shares of the Fund is the Fund's market price as determined by supply of and demand for the Fund's shares.
- viii Lipper, Inc., a wholly-owned subsidiary of Reuters, provides independent insight on global collective investments. Returns are based on the six-month period ended March 31, 2013, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 31 funds in the Fund's Lipper category.

Liabilities in Excess of Other Assets (30.0)%				(38,929,920)
Total Net Assets 100.0%				\$129,735,132

* Non-income producing security.

(a) Interest rates disclosed represent the effective rates on collateralized and uncollateralized senior loans. Ranges in interest rates are attributable to multiple contracts under the same loan.

(b) All or a portion of this loan is unfunded as of March 31, 2013. The interest rate for fully unfunded term loans is to be determined.

(c) Security is exempt from registration under Rule 144A of the Securities Act of 1933. This security may be resold in transactions that are exempt from registration, normally to qualified institutional buyers. This security has been deemed liquid pursuant to guidelines approved by the Board of Directors, unless otherwise noted.

Aggregate cost for federal income tax purposes is substantially the same.

Abbreviations used in this schedule :

REFI	Refinancing
Second Lien	Subordinate Lien to First Lien
Term	Term loan typically with a First Lien on specified assets

See Notes to Financial Statements.

14 LMP Corporate Loan Fund Inc. 2013 Semi-Annual Report

Financial highlights (cont d)

4 Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

5 The total return calculation assumes that distributions are reinvested at NAV. Prior to January 1, 2012, the total return calculation assumed the reinvestment of all distributions in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

6 The total return calculation assumes that distributions are reinvested in accordance with the Fund's dividend reinvestment plan. Past performance is no guarantee of future results. Total returns for periods of less than one year are not annualized.

7 Calculated on the basis of average net assets of common stock shareholders. Ratios do not reflect the effect of dividend payments to preferred stockholders.

8 Annualized.

9 The impact of compensating balance arrangements, if any, was less than 0.01%.

10 Reflects fee waivers and/or expense reimbursements.

11 Excludes accumulated and unpaid distributions.

See Notes to Financial Statements.

Notes to financial statements (unaudited)**1. Organization and significant accounting policies**

LMP Corporate Loan Fund Inc. (the Fund) was incorporated in Maryland and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund's investment objective is to maximize current income consistent with prudent efforts to preserve capital.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through the date the financial statements were issued.

(a) Investment valuation. The valuations for fixed income securities are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Short-term fixed income securities that will mature in 60 days or less are valued at amortized cost, unless it is determined that using this method would not reflect an investment's fair value. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these securities as determined in accordance with procedures approved by the Fund's Board of Directors.

The Board of Directors is responsible for the valuation process and has delegated the supervision of the daily valuation process to the Legg Mason North American Fund Valuation Committee (the Valuation Committee). The Valuation Committee, pursuant to the policies adopted by the Board of Directors, is responsible for making fair value determinations, evaluating the effectiveness of the Fund's pricing policies, and reporting to the Board of Directors. When determining the reliability of third party pricing information for investments owned by the Fund, the Valuation Committee, among other

Notes to financial statements (unaudited) (cont d)

things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices and reviews transactions among market participants.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Directors, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such back testing monthly and fair valuation occurrences are reported to the Board of Directors quarterly.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

GAAP establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets carried at fair value:

Description	ASSETS			Total
	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Long-term investments :				
Collateralized senior loans		\$172,144,680		\$172,144,680
Corporate bonds & notes		7,484,395		7,484,395
Common stocks:				
Consumer discretionary		157,184		157,184
Energy	\$1,289,793			1,289,793
Total long-term investments	\$1,289,793	\$179,786,259		\$181,076,052
Short-term investments		22,589,000		22,589,000
Total investments	\$1,289,793	\$202,375,259		\$203,665,052

See Schedule of Investments for additional detailed categorizations.

(b) Repurchase agreements. The Fund may enter into repurchase agreements with institutions that its investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. Under the terms of a typical repurchase agreement, the Fund acquires a debt security subject to an obligation of the seller to repurchase, and of the Fund to resell, the security at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian, acting on the Fund's behalf, take possession of the underlying collateral securities, the market value of which, at all times, at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction maturity exceeds one business day, the value of the collateral is marked-to-market and measured against the value of the agreement in an effort to ensure the adequacy of the collateral. If the counterparty defaults, the Fund generally has the right to use the collateral to satisfy the terms of the repurchase transaction. However, if the market value of the collateral declines during the period in which the Fund seeks to assert its rights or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Trade date for senior and subordinated loans purchased in the primary market is considered the date on which the credit agreement is executed. Trade date for senior and subordinated loans purchased in the secondary market is the date on which the transaction is entered into. Interest income, adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Certain fees received from issuers of the underlying loans, such as consent, amendment and upfront fees

Notes to financial statements (unaudited) (cont d)

(collectively, consent fees) are generally recorded as a basis adjustment to the cost of loans held and accreted over the life of the loan. The cost of investments sold is determined by use of the specific identification method.

(d) Distributions to shareholders. Distributions from net investment income of the Fund, if any, are declared and paid on a monthly basis. Distributions of net realized gains, if any, are declared at least annually. Distributions to shareholders of the Fund are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP. In addition, the holders of the Auction Rate Cumulative Preferred Stock (ARCPS) shall be entitled to receive dividends in accordance with an auction that will normally be held every 28 days and out of the monies legally available to shareholders.

(e) Net asset value. The net asset value (NAV) of the Fund's Common Stock is determined no less frequently than the close of business on the Fund's last business day of each week (generally Friday) and on the last business day of the month. It is determined by dividing the value of the net assets available to Common Stock by the total number of shares of Common Stock outstanding. For the purpose of determining the NAV per share of the Common Stock, the value of the Fund's net assets shall be deemed to equal the value of the Fund's assets less (1) the Fund's liabilities, and (2) the aggregate liquidation value (i.e., \$25,000 per outstanding share) of the ARCPS.

(f) Compensating balance arrangements. The Fund has an arrangement with its custodian bank whereby a portion of the custodian's fees is paid indirectly by credits earned on the Fund's cash on deposit with the bank.

(g) Cash flow information. The Fund invests in securities and distributes dividends from net investment income and net realized gains, which are paid in cash and may be reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments are presented in the Statement of Cash Flows.

(h) Senior loans. Senior Loans generally are arranged through private negotiations between a borrower and several financial institutions (Lenders) represented in each case by one or more such Lenders acting as agent of the Lenders. On behalf of the Lenders, the agent will be primarily responsible for negotiating the loan agreement that establishes the relative terms and conditions of the Senior Loan and rights of the borrower and the Lenders. Also, an agent typically administers the terms of the loan agreement and is responsible for the monitoring of collateral and collection of principal and interest and fee payments from the borrower and the apportionment of these payments to the credit of all investors which are parties to the loan agreement. The Fund may act as one of the group of Lenders in a Senior Loan, and purchase assignments and participations in Senior Loans from

third parties. Senior Loans are subject to credit risks, including the risk of nonpayment of scheduled interest or loan payments.

The Fund assumes the credit risk of the borrower, the lender that is selling the participation and any other persons interpositioned between the Fund and the borrower. In the event of the insolvency of the lender selling the participation, the Fund may be treated as a general creditor of the lender and may not benefit from any off-set between the lender and the borrower.

(i) Federal and other taxes. It is the Fund's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the Code), as amended, applicable to regulated investment companies. Accordingly, the Fund intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal or state income tax provision is required in the Fund's financial statements.

However, due to the timing of when distributions are made by the Fund, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income and 98.2% of net realized gains exceed the distributions from such taxable income and realized gains for the calendar year. The Fund paid \$120,723 of Federal excise taxes attributable to calendar year 2012 in March 2013.

Management has analyzed the Fund's tax positions taken on income tax returns for all open tax years and has concluded that as of March 31, 2013, no provision for income tax is required in the Fund's financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by Internal Revenue Service and state departments of revenue.

(j) Reclassification. GAAP requires that certain components of net assets be reclassified to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share.

2. Investment management agreement and other transactions with affiliates

LMPFA is the Fund's investment manager and prior to December 1, 2012, Citigroup Alternative Investments, LLC (CAI) was the Fund's subadviser. Effective December 1, 2012, LMPFA assumed responsibility for the day-to-day management of the Fund's portfolio, as well as continuing to provide administrative and certain oversight services to the Fund. Following LMPFA's assumption of the day-to-day management of the Fund's portfolio, the Fund no longer has a subadviser. LMPFA is a wholly-owned subsidiary of Legg Mason, Inc. (Legg Mason) and CAI is a wholly-owned subsidiary of Citigroup, Inc. (Citigroup).

Notes to financial statements (unaudited) (cont d)

The Fund pays an investment management fee, calculated daily and paid monthly, at an annual rate of 0.80% of the Fund's average daily net assets plus assets attributable to the liquidation value of the Fund's outstanding ARCPS plus proceeds of any outstanding borrowings used for leverage.

Prior to December 1, 2012, LMPFA had delegated to CAI the day-to-day portfolio management of the Fund. For its services, LMPFA paid CAI a fee of 0.50% of the Fund's average daily net assets plus assets attributable to the liquidation value of the Fund's outstanding ARCPS plus proceeds of any outstanding borrowings used for leverage. These fees were calculated daily and paid monthly.

Effective December 1, 2012, upon assumption of responsibility for the day-to-day management of the Fund's portfolio, LMPFA agreed to a waiver in the amount of 0.05% of the investment advisory fee that is paid to it by the Fund. The waiver will extend through November 30, 2014.

During periods in which the Fund utilizes financial leverage, the fees which are payable to the investment manager as a percentage of the Fund's net assets will be higher than if the Fund did not utilize leverage because the fees are calculated as a percentage of the Fund's assets, including those investments purchased with leverage.

During the six months end March 31, 2013, fees waived and/or expenses reimbursed amounted to \$32,189.

All officers and one Director of the Fund are employees of Legg Mason or its affiliates and do not receive compensation from the Fund.

3. Investments

During the six months ended March 31, 2013, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$110,907,981
Sales	129,911,061

Edgar Filing: LMP CORPORATE LOAN FUND INC. - Form N-CSRS

At March 31, 2013, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$4,916,780
Gross unrealized depreciation	(130,106)
Net unrealized appreciation	\$4,786,674

4. Derivative instruments and hedging activities

GAAP requires enhanced disclosure about an entity's derivative and hedging activities.

During the six months ended March 31, 2013, the Fund did not invest in any derivative instruments.

5. Line of credit

The Fund has a revolving credit agreement with a financial institution, which allows the Fund to borrow up to an aggregate amount of \$50 million. Unless renewed, this agreement terminates on December 11, 2013. Effective December 15, 2010, the Fund pays a quarterly facility fee at an annual rate of 0.10% on the unutilized portion of the facility. The interest on the loan is calculated at a variable rate based on LIBOR, Fed Funds or Prime Rates plus any applicable margin. Interest expense related to the loan for the six months ended March 31, 2013 was \$172,761. For the six months ended March 31, 2013, the Fund incurred commitment fees of \$9,859. For the six months ended March 31, 2013, the Fund had an average daily loan balance outstanding of \$30.5 million and the weighted average interest rate was 1.14%. At March 31, 2013, the Fund had \$30.5 million of borrowings outstanding per this credit agreement.

6. Distributions subsequent to March 31, 2013

On February 14, 2013, the Fund's Board of Directors (the Board) declared three distributions, each in the amount of \$0.0725 per share, payable on March 22, 2013, April 26, 2013 and May 31, 2013 to common stock shareholders of record on March 15, 2013, April 19, 2013 and May 24, 2013, respectively. The April and May record date distributions were made subsequent to the period end of this report.

On May 17, 2013, the Board declared a distribution in the amount of \$0.0725 per share, payable on June 28, 2013 to common stock shareholders of record on June 21, 2013.

7. Auction rate cumulative preferred stock

As of March 31, 2013, the Fund has 1,400 outstanding shares of ARCPS (combining both Series A and B). The ARCPS dividends are cumulative at a rate determined at an auction and the dividend period will typically be 28 days. The dividend rate cannot exceed a certain maximum rate, including in the event of a failed auction, unless the Board of Directors of the Fund authorizes an increased maximum rate. Due to failed auctions experienced by the Fund's ARCPS starting on February 27, 2008, the Fund paid the applicable maximum rate which was calculated as 150% of the prevailing 30-day AA Financial Composite Commercial Paper Rate. The Fund may pay higher maximum rates if the rating of the Fund's ARCPS were to be lowered by the rating agencies. The dividend rates ranged from 0.075% to 0.257% during the six months ended March 31, 2013. At March 31, 2013, the dividend rates in effect were as follows:

	Series A	Series B
Dividend rates	0.090%	0.182%

Notes to financial statements (unaudited) (cont d)

The ARCPS are redeemable under certain conditions by the Fund at a redemption price equal to the liquidation preference, which is the sum of \$25,000 per share plus accumulated and unpaid dividends. The ARCPS are otherwise not redeemable by holders of the shares.

The Fund is required to maintain certain asset coverages with respect to the ARCPS. If the Fund fails to maintain these asset coverages and does not cure any such failure within the required time period, the Fund is required to redeem a requisite number of the ARCPS in order to meet the applicable requirement. Additionally, failure to meet the foregoing asset coverage requirements would restrict the Fund's ability to pay dividends to common shareholders.

Citigroup Global Markets Inc. (CGM), an indirect wholly-owned subsidiary of Citigroup, currently acts as a broker/dealer in connection with the auction of ARCPS. After each auction, the auction agent will pay to each broker/dealer, from monies the Fund provides, a participation fee at the annual rate of 0.25% of the purchase price of the ARCPS that the broker/dealer places at the auction. However, on August 12, 2009, CGM reduced its participation fee to an annual rate of 0.05% of the purchase price of the ARCPS, in the case of a failed auction. For the six months ended March 31, 2013, CGM earned \$8,827 as a participating broker/dealer.

8. Capital loss carryforward

As of September 30, 2012, the Fund had the following net capital loss carryforwards remaining:

Year of Expiration	Amount
9/30/2013	\$ (75,268)
9/30/2014	(106,488)
9/30/2015	(42,357)
9/30/2016	(909,268)
9/30/2017	(6,912,033)
9/30/2018	(12,566,104)
	\$(20,611,518)

These amounts will be available to offset any future taxable capital gains.

Commodity exchange act regulation exclusion (unaudited)

The Fund is operated by persons who have claimed an exclusion, granted to operators of registered investment companies like the Fund, from registration as a commodity pool operator with respect to the Fund under the Commodity Exchange Act (the CEA), and, therefore, are not subject to registration or regulation with respect to the Fund under the CEA. As a result, effective December 31, 2012, the Fund is limited in its ability to use commodity futures (which include futures on broad-based securities indexes and interest rate futures) (collectively, commodity interests) or options on commodity futures, engage in certain swaps transactions or make certain other investments (whether directly or indirectly through investments in other investment vehicles) for purposes other than bona fide hedging, as defined in the rules of the Commodity Futures Trading Commission. With respect to transactions other than for bona fide hedging purposes, either: (1) the aggregate initial margin and premiums required to establish the Fund's positions in such investments may not exceed 5% of the liquidation value of the Fund's portfolio (after accounting for unrealized profits and unrealized losses on any such investments); or (2) the aggregate net notional value of such instruments, determined at the time the most recent position was established, may not exceed 100% of the liquidation value of the Fund's portfolio (after accounting for unrealized profits and unrealized losses on any such positions). In addition to meeting one of the foregoing trading limitations, the Fund may not market itself as a commodity pool or otherwise as a vehicle for trading in the futures, options or swaps markets.

24 LMP Corporate Loan Fund Inc.

Board approval of management agreement (unaudited)

Background

The Investment Company Act of 1940, as amended (the 1940 Act), requires that the Board of Directors (the Board) of LMP Corporate Loan Inc. (the Fund), including a majority of its members that are not considered to be interested persons under the 1940 Act (the Independent Directors) voting separately, approve on an annual basis the continuation of the investment management contract (the Management Agreement) with the Fund's manager, Legg Mason Partners Fund Advisor, LLC (the Manager). At a meeting (the Contract Renewal Meeting) held in-person on November 7 and 8, 2012, the Board, including the Independent Directors, considered and approved the continuation of the Management Agreement for an additional one-year term. To assist in its consideration of the renewal of the Management Agreement, the Board received and considered a variety of information (together with the information provided at the Contract Renewal Meeting, the Contract Renewal Information) about the Manager, as well as the management arrangements for the Fund and the other closed-end funds in the same complex under the Board's supervision (collectively, the Legg Mason Closed-end Funds), certain portions of which are discussed below. A presentation made by the Manager to the Board at the Contract Renewal Meeting in connection with its evaluation of the Management Agreement encompassed the Fund and the other Legg Mason Closed-end Funds. In addition to the Contract Renewal Information, the Board received performance and other information throughout the year related to the services rendered by the Manager and others to the Fund. The Board's evaluation took into account the information received throughout the year and also reflected the knowledge and familiarity gained as members of the Board of the Fund and other Legg Mason Closed-end Funds with respect to the services provided to the Fund by the Manager.

Effective December 1, 2012, the Manager provides the Fund with investment advisory and administrative services pursuant to the Management Agreement. The discussion below covers both the advisory and administrative functions being rendered by the Manager, or, in the case of investment advisory services, to be rendered by the Manager, each such function being encompassed by the Management Agreement.

Board approval of management agreement

In its deliberations regarding renewal of the Management Agreement, the Board, including the Independent Directors, considered the factors below.

Nature, extent and quality of the services under the management agreement

The Board received and considered Contract Renewal Information regarding the nature, extent and quality of services provided, or to be provided, to the Fund by the Manager under the Management Agreement during the past

year. The Board also reviewed Contract Renewal Information regarding the Fund's compliance policies and procedures established pursuant to the 1940 Act.

The Board reviewed the qualifications, backgrounds and responsibilities of the Fund's senior personnel and the portfolio management team primarily responsible for the day-to-day portfolio management of the Fund. The Board also considered, based on its knowledge of the Manager and its affiliates, the Contract Renewal Information and the Board's discussions with the Manager at the Contract Renewal Meeting, the general reputation and investment performance records of the Manager and its affiliates and the financial resources available to the corporate parent of the Manager, Legg Mason, Inc. (Legg Mason), to support their activities in respect of the Fund and the other Legg Mason Closed-end Funds.

The Management Agreement permits the Manager to delegate certain of its responsibilities, including its investment advisory duties thereunder, provided that the Manager, in each case, will supervise the activities of the delegee. Pursuant to this provision of the Management Agreement, the Manager, at the time of the Contract Renewal Meeting, did not provide day-to-day portfolio management services to the Fund but rather delegated such responsibilities to Citigroup Alternative Investments LLC (CAI), an indirect wholly owned subsidiary of Citigroup, Inc. (Citigroup) pursuant to a separate sub-advisory agreement (the CAI Sub-Advisory Agreement) with the Manager. The CAI Sub-Advisory Agreement provided for its expiration on November 30, 2012 in the absence of approval of its continuation by the Board.

At a meeting of the Board held in person on May 20, 2012 (the May Meeting), CAI reported to the Board on a reorganization (the Reorganization) pursuant to which CAI ultimately would become independent of Citigroup. At an in-person meeting held on August 8 and 9, 2012 (the August Meeting), the Manager discussed the Reorganization with the Board and noted that the Reorganization upon completion would automatically cause a termination of the CAI Sub-Advisory Agreement by its terms and as required by the 1940 Act. The Manager then discussed options available to the Fund to address the expected termination of the CAI Sub-Advisory Agreement, including (i) appointment of CAI or a new sub-adviser with shareholder approval of a new sub-advisory agreement and (ii) the Manager's assumption of responsibility for day-to-day management of the Fund's investment portfolio (the Assumption). In discussing these options, the Manager noted, among other things, that the impact of the Reorganization upon CAI's subsequent activities in respect of the Fund was uncertain. The Manager also advised the Board that the Assumption would be within the Manager's discretionary authority under the Management Agreement and would not require Board or shareholder approval. At the

Board approval of management agreement (unaudited) (cont d)

August Meeting, the Manager made a presentation to the Board regarding its qualifications to conduct the Fund's investment program. The Board, among other things, noted that the Manager had no direct experience in the management of mutual funds with investment objectives and strategies comparable to those of the Fund. In response, the Manager expressed its belief that it would be well suited to provide the Fund's investment program. The Manager's portfolio management team would include senior portfolio managers with substantial experience and success in bank loan assets as part of broader investment strategies for other client accounts. In addition, the Manager discussed the nature, scope and quality of resources that would be available to support the Manager's portfolio management team for the Fund. The Board noted further that, because fees under the CAI Sub-Advisory Agreement were paid by the Manager, termination of the CAI Sub-Advisory Agreement would increase the Manager's profitability from its relationship with the Fund. A decision regarding the Fund's investment advisory arrangements following the Reorganization was deferred pending further Board discussion at the Contract Renewal Meeting.

At the Contract Renewal Meeting, the Manager informed the Board of its intention to proceed with the Assumption and that, beginning on December 1, 2012 (the Assumption Date), the Fund would be managed by a portfolio team comprised of individuals who were employees of the Manager but also employees of its affiliate, Western Asset Management Company. The Manager assured the Board that the members of the Fund's portfolio management team would perform their responsibilities solely as employees of the Manager and that the Manager was prepared and intended to manage the Fund's investment portfolio indefinitely. The Manager reported that it had notified CAI of its intention to allow the CAI Sub-Advisory Agreement to expire on November 30, 2012 pursuant to its terms. The Manager also advised the Board that it would continue to provide management and administrative services pursuant to the Management Agreement following the Assumption. The Manager assured the Board that there would be no diminution in the nature, scope or quality of investment advisory or other services then being provided to the Fund under the Management Agreement following the Assumption. The Manager proposed a Management Fee waiver (the Management Fee Waiver) of 0.05% for one year, until November 30, 2014, as a result of the elimination of CAI's fees under the CAI Sub-Advisory Agreement, which were paid by the Manager. Based upon the information and assurances provided by the Manager regarding the Assumption at the May, August and Contract Renewal Meetings and the receipt of advice from counsel to the Fund that the Assumption was permissible under the 1940 Act and did not require shareholder approval, the Board expressed its concurrence with the Assumption, to become effective on the Assumption Date.

In reaching its determinations at the Contract Renewal Meeting regarding continuation of the Management Agreement, the Board considered the present and expected responsibilities of the Manager under the Management Agreement, including the Manager's coordination and oversight of the services provided to the Fund by others. The Board also took into account that Fund shareholders, in pursuing their investment goals and objectives, likely purchased and have held their shares based in part upon the reputation and resources available to the Manager.

In evaluating the nature, extent and quality of the investment advisory and other services provided, or in the case of investment advisory services that are expected to be provided, by the Manager to the Fund pursuant to the Management Agreement, the Board inquired as to any impact on the Fund's operations of significant changes in the senior management of the Manager and Legg Mason and other personnel providing services to the Fund during the past two years to the date of the Contract Renewal Meeting, including the resignation of Legg Mason's Chief Executive Officer (CEO). At the Contract Renewal Meeting, the interim CEO and other senior representatives of Legg Mason and the Manager discussed these changes with the Board and assured the Board that such changes have not resulted, and are not expected in the future to result, in any diminution in the nature, extent or quality of services provided to the Fund and that the Board of Directors of Legg Mason had undertaken a search for a permanent CEO. In addition, the Board inquired as to published reports speculating that control of Legg Mason, the Manager or certain affiliates of Legg Mason might change. The senior representatives of Legg Mason discussed these published reports with the Board, confirming Legg Mason's continuing commitment to its current business model and its affiliations with the Manager.

The Board concluded that, overall, the nature, extent and quality of the management, investment advisory and other services provided to the Fund under the Management Agreement have been, or, in the case of investment advisory services are expected to be, satisfactory under the circumstances.

Fund performance

The Board received and considered performance information and analyses (the Lipper Performance Information) for the Fund, as well as for a group of funds (the Performance Universe) selected by Lipper, Inc. (Lipper), an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in the Performance Universe. The Performance Universe included the Fund and all non-leveraged high current yield closed-end funds, as classified by Lipper, regardless of asset size. The Board noted that it had received and discussed with the Manager information throughout the year at periodic intervals comparing the Fund's performance against its benchmarks and its peer funds as selected by Lipper. The

28 LMP Corporate Loan Fund Inc.

Board approval of management agreement (unaudited) (cont d)

Performance Universe ranged from thirty funds to nine funds for the 1-, 3-, 5- and 10-year periods ended June 30, 2012.

The Lipper Performance Information comparing the Fund's performance to that of the Performance Universe based on net asset value per share showed, among other things, that the Fund's performance for the 1-year period ended June 30, 2012 was ranked in the first quintile of the funds in the Performance Universe for that period. While the Fund's performance for the 3-year period ended June 30, 2012 was ranked in the fourth quintile among funds in the Performance Universe, the Fund's performance for each of the 5- and 10-year periods ended June 30, 2012 was in the second quintile of the funds in the Performance Universe for such period. The Fund's performance for the 3-year period ended June 30, 2012 was worse than the median performance for the Performance Universe for that period but was better than the Performance Universe median for each of the 1-, 5- and 10-year periods. In assessing the Fund's performance, the Board noted, among other things, that the small number of funds in the Performance Universe made meaningful performance comparisons difficult. The Board also reviewed the Fund's performance relative to its benchmarks and in absolute terms. In light of the forthcoming expiration of the CAI Sub-Advisory Agreement, however, the Board did not give significant weight to the Lipper Performance Information or other performance information presented at the Contract Renewal Meeting since the results were achieved by CAI. Rather, the Board's decision was based upon the information presented to the Board by the Manager at the May, August and Contract Renewal Meetings, including information as to its qualifications to manage the Fund's investment portfolio.

Based on its review of the Fund's performance, the Board concluded that, under the circumstances, continuation of the Management Agreement for an additional one-year period would be in the interests of the Fund and its shareholders.

Management fees and expense ratios

The Board reviewed and considered the management fee (the Management Fee) payable by the Fund to the Manager under the Management Agreement in light of the nature, extent and overall quality of the management, investment advisory and other services provided by the Manager.

Additionally, the Board received and considered information and analyses prepared by Lipper (the Lipper Expense Information) comparing the Management Fee and the Fund's overall expenses with those of funds in an expense universe (the Expense Universe) selected and provided by Lipper. The comparison was based upon the constituent funds' latest fiscal years. The Expense Universe consisted of the Fund and seven other non-leveraged high current yield closed-end funds, as classified by Lipper. The eight funds

in the Expense Universe had net common share assets ranging from the Fund's \$122.4 million to \$364.5 million.

The Lipper Expense Information, comparing the Management Fee as well as the Fund's actual total expenses to the Fund's Expense Universe, showed, among other things, that the contractual Management Fee was ranked second among the funds in the Expense Group. On the basis of common assets only, the Fund's actual Management Fee (i.e., giving effect to any voluntary fee waivers implemented by the Manager with respect to the Fund and by the managers of the other Expense Universe funds) ranked third among the funds in the Expense Universe. The Lipper Expense Information also showed that, on the basis of both common and leveraged assets, the Fund's actual Management Fee and actual total expenses each ranked second (first being lowest) among the funds in the Expense Universe. Each of the Fund's expense components was better than the Expense Universe median for that expense component. The Board noted, among other things, the small number and varying size of the funds in the Expense Universe made meaningful comparisons difficult, especially since all of the other Expense Universe funds were larger than the Fund. The Board also noted that the Lipper Expense Information did not reflect implementation of the Management Fee Waiver on the Assumption Date.

The Board also reviewed Contract Renewal Information regarding fees charged by the Manager to other U.S. clients investing primarily in an asset class similar to that of the Fund, including, where applicable, institutional and separate accounts. The Board was advised that the fees paid by such institutional, separate account and other clients generally are lower, and may be significantly lower, than the Management Fee. The Contract Renewal Information discussed the significant differences in scope of services provided to the Fund and to these other clients, noting that the Fund is provided with administrative services, office facilities, Fund officers (including the Fund's chief executive, chief financial and chief compliance officers), and that the Manager coordinates and oversees the provision of services to the Fund by other fund service providers. The Contract Renewal Information included information regarding management fees paid by open-end mutual funds in the same complex (the Legg Mason Open-end Funds) and that such information indicated that the management fees paid by the Legg Mason Closed-end Funds generally were higher than those paid by the Legg Mason Open-end Funds. The Manager, in response to an inquiry by the Board as to the reasons for the fee differential, provided information as to differences between the services provided to the Fund and the other Legg Mason Closed-end Funds and the services provided to the Legg Mason Open-end Funds. The Board considered the fee comparisons in light of the different services provided in managing these other types of clients and funds.

Board approval of management agreement (unaudited) (cont d)

Taking all of the above into consideration, the Board determined that the Management Fee was reasonable in light of the nature, extent and overall quality of the management, investment advisory and other services provided, or in the case of investment advisory services expected to be provided, by the Manager to the Fund under the Management Agreement.

Manager profitability

The Board, as part of the Contract Renewal Information, received an analysis of the profitability to the Manager and its affiliates in providing services to the Fund for the Manager's fiscal years ended March 31, 2012 and March 31, 2011. The Board also received profitability information with respect to the Legg Mason fund complex as a whole. In addition, the Board received Contract Renewal Information with respect to the Manager's revenue and cost allocation methodologies used in preparing such profitability data. The Board received a report from an outside consultant engaged by the Manager that had reviewed the Manager's revenue and cost allocation methodologies. The profitability analysis presented to the Board as part of the Contract Renewal Information indicated that profitability to the Manager had declined by 1 percent during the period covered by the analysis, but remained at a level which was not considered excessive by the Board in light of the nature, extent and overall quality of the management, investment advisory and other services provided to the Fund by the Manager and CAI during the period covered by the analysis. The Board noted that the sub-advisory fees payable to CAI under the CAI Sub-Advisory Agreement had been paid by the Manager, not the Fund, during the period covered by the analysis and that the analysis did not reflect the forthcoming expiration of the CAI Sub-Advisory Agreement or implementation of the Management Fee Waiver. The Board considered that the expiration of the CAI Sub-Advisory Agreement and elimination of CAI's fees thereunder likely will increase the Manager's profitability, notwithstanding the Management Fee Waiver, but noted that it would have the ability to monitor any future increases in profitability on an annual basis.

Economies of scale

The Board received and discussed Contract Renewal Information concerning whether the Manager realizes economies of scale if the Fund's assets grow. The Board noted that because the Fund is a closed-end fund with no current plans to seek additional assets beyond maintaining its dividend reinvestment plan, any significant growth in its assets generally will occur through appreciation in the value of the Fund's investment portfolio, rather than sales of additional shares in the Fund. The Board determined that the Management Fee structure, which incorporates no breakpoints reducing the Management Fee at specified increased asset levels, was appropriate under present circumstances.

Other benefits to the manager

The Board considered other benefits received by the Manager and its affiliates as a result of their relationship with the Fund and did not regard such benefits as excessive.

* * *

In light of all of the foregoing and other relevant factors, the Board determined that, under the circumstances, continuation of the Management Agreement would be consistent with the interests of the Fund and its shareholders and unanimously voted to continue each Agreement for a period of one additional year.

No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve continuation of the Management Agreement, and each Board member attributed different weights to the various factors. The Independent Directors were advised by separate independent legal counsel throughout the process. Prior to the Contract Renewal Meeting, the Board received a memorandum prepared by the Manager discussing its responsibilities in connection with the proposed continuation of the Management Agreement as part of the Contract Renewal Information and the Independent Directors separately received a memorandum discussing such responsibilities from their independent counsel. Prior to voting, the Independent Directors also discussed the proposed continuation of the Management Agreement in private sessions with their independent legal counsel at which no representatives of the Manager were present.

Additional shareholder information (unaudited)

Results of annual meeting of shareholders

The Annual Meeting of Shareholders of LMP Corporate Loan Fund Inc. was held on January 25, 2013, for the purpose of considering and voting upon the election of Directors. The following table provides information concerning the matter voted upon at the Meeting:

Election of directors

Nominees	Common Shares and Preferred Shares, voting together, Voted for Election	Common Shares and Preferred Shares, voting together, Withheld	Preferred Shares Voted for Election	Preferred Shares Withheld
Carol L. Colman	7,459,021	153,176		
R. Jay Gerken	7,457,346	154,851		
Riordan Roett			1,383	2

At March 31, 2013, in addition to Carol L. Colman, R. Jay Gerken and Riordan Roett, the other Directors of the Fund were as follows:

Daniel P. Cronin
 Paolo M. Cucchi
 Leslie H. Gelb
 William R. Hutchinson
 Eileen A. Kamerick*
 Jeswald W. Salacuse

* Effective February 1, 2013, Ms. Kamerick became a Director.

Dividend reinvestment plan (unaudited)

Pursuant to the Dividend Reinvestment Plan (the Plan), shareholders whose common stock (Common Stock) is registered in their own names will be deemed to have elected to have all distributions reinvested automatically in additional Common Stock of the Fund by American Stock Transfer & Trust Company (AST or Plan Agent), as agent under the Plan, unless such shareholders elect to receive distributions in cash. Shareholders who elect to receive distributions in cash will receive all distributions in cash paid by check in U.S. dollars mailed directly to the shareholder by AST, as dividend paying agent. In the case of shareholders such as banks, brokers or nominees, which hold Common Stock for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners that have not elected to receive distributions in cash. Investors that own shares of Common Stock registered in the name of a bank, broker or other nominee should consult with such nominee as to participation in the Plan through such nominee, and may be required to have their shares registered in their own names in order to participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. Unless the Board of Directors of the Fund declares a dividend or capital gains distribution payable only in cash, non-participants in the Plan will receive cash and participants in the Plan will receive shares of Common Stock of the Fund, to be issued by the Fund or purchased by the Plan Agent in the open market as outlined below. Whenever the market price per share of Common Stock is equal to or exceeds the net asset value per share as of the determination date (defined as the fourth New York Stock Exchange trading day preceding the payment date for the dividend or distribution), participants will be issued new shares of Common Stock at a price per share equal to the greater of: (a) the net asset value per share on the valuation date or (b) 95% of the market price per share on the valuation date. Except as noted below, the valuation date generally will be the dividend or distribution payment date. If net asset value exceeds the market price of the Fund's shares of Common Stock as of the determination date, the Plan Agent will, as agent for the participants, buy shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts as soon as practicable commencing on the trading day following the determination date and generally terminating no later than 30 days after the dividend or distribution payment date. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of a share of Common Stock, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisition of fewer shares than if the dividend or capital gains distribution had been paid in shares of Common Stock issued by the Fund. Because of the foregoing difficulty with

Dividend reinvestment plan (unaudited) (cont d)

respect to open-market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the permissible purchase period or if the market discount shifts to a market premium during such purchase period, the Plan Agent will cease making open-market purchases and will receive the uninvested portion of the dividend amount in newly issued shares of Common Stock (in which case the valuation date will be the date such shares are issued) at a price per share equal to the greater of (a) the net asset value per share on the valuation date or (b) 95% of the market price per share on the valuation date.

A shareholder may elect to withdraw from the Plan at any time upon written notice to the Plan Agent or by calling the Plan Agent at 1-877-366-6441. When a participant withdraws from the Plan, or upon termination of the Plan as provided below, certificates for whole shares of Common Stock credited to his or her account under the Plan will be issued and a cash payment will be made for any fractional shares credited to such account. An election to withdraw from the Plan will, until such election is changed, be deemed to be an election by a shareholder to take all subsequent dividends and distributions in cash. Elections will be effective immediately if notice is received by the Plan Agent not less than ten days prior to any dividend or distribution record date; otherwise such termination will be effective after the investment of the then current dividend or distribution. If a withdrawing shareholder requests the Plan Agent to sell the shareholder's shares upon withdrawal from participation in the Plan, the withdrawing shareholder will be required to pay a \$5.00 fee plus brokerage commissions.

The Plan Agent maintains all shareholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for personal and tax records. Shares in the account of each Plan participant will be held by the Plan Agent in noncertificated form in the name of the participant, and each shareholder's proxy will include those shares of Common Stock purchased pursuant to the Plan.

There is no charge to participants for reinvesting dividends or capital gains distributions. The Plan Agent's fee for the handling of reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends or capital gains distributions.

The automatic reinvestment of dividends and distributions will not relieve participants of any U.S. federal income tax that may be payable on such dividends or distributions.

Experience under the Plan may indicate that changes thereto may be desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any dividend or distribution paid: (i) subsequent to notice of the change sent to all participants at least 30 days before the record date for such dividend or distribution or (ii) otherwise in accordance with the terms of the Plan. The Plan also may be amended or terminated by the Plan Agent, with the Board of Directors' prior written consent, on at least 30 days' prior written notice to all participants. All correspondence concerning the Plan should be directed by mail to American Stock Transfer & Trust Company, 6201 15th Avenue, Brooklyn, New York 11219 or by telephone at 1-888-888-0151.

Legg Mason Funds Privacy and Security Notice

Your Privacy and the Security of Your Personal Information is Very Important to the Legg Mason Funds

This Privacy and Security Notice (the "Privacy Notice") addresses the Legg Mason Funds' privacy and data protection practices with respect to nonpublic personal information the Funds receive. The Legg Mason Funds include any funds sold by the Funds' distributor, Legg Mason Investor Services, LLC, as well as Legg Mason-sponsored closed-end funds and certain closed-end funds managed or sub-advised by Legg Mason or its affiliates. The provisions of this Privacy Notice apply to your information both while you are a shareholder and after you are no longer invested with the Funds.

The Type of Nonpublic Personal Information the Funds Collect About You

The Funds collect and maintain nonpublic personal information about you in connection with your shareholder account. Such information may include, but is not limited to:

- Personal information included on applications or other forms;
- Account balances, transactions, and mutual fund holdings and positions;
- Online account access user IDs, passwords, security challenge question responses; and
- Information received from consumer reporting agencies regarding credit history and creditworthiness (such as the amount of an individual's total debt, payment history, etc.).

How the Funds Use Nonpublic Personal Information About You

The Funds do not sell or share your nonpublic personal information with third parties or with affiliates for their marketing purposes, or with other financial institutions or affiliates for joint marketing purposes, unless you have authorized the Funds to do so. The Funds do not disclose any nonpublic personal information about you except as may be required to perform transactions or services you have authorized or as permitted or required by law. The Funds may disclose information about you to:

- Employees, agents, and affiliates on a "need to know" basis to enable the Funds to conduct ordinary business or comply with obligations to government regulators;
- Service providers, including the Funds' affiliates, who assist the Funds as part of the ordinary course of business (such as printing, mailing services, or processing or servicing your account with us) or otherwise perform services on the Funds' behalf, including companies that may perform marketing services solely for the Funds;

Edgar Filing: LMP CORPORATE LOAN FUND INC. - Form N-CSRS

- The Funds' representatives such as legal counsel, accountants and auditors; and
- Fiduciaries or representatives acting on your behalf, such as an IRA custodian or trustee of a grantor trust.

NOT PART OF THE SEMI-ANNUAL REPORT

Legg Mason Funds Privacy and Security Notice (cont d)

Except as otherwise permitted by applicable law, companies acting on the Funds' behalf are contractually obligated to keep nonpublic personal information the Funds provide to them confidential and to use the information the Funds share only to provide the services the Funds ask them to perform.

The Funds may disclose nonpublic personal information about you when necessary to enforce their rights or protect against fraud, or as permitted or required by applicable law, such as in connection with a law enforcement or regulatory request, subpoena, or similar legal process. In the event of a corporate action or in the event a Fund service provider changes, the Funds may be required to disclose your nonpublic personal information to third parties. While it is the Funds' practice to obtain protections for disclosed information in these types of transactions, the Funds cannot guarantee their privacy policy will remain unchanged.

Keeping You Informed of the Funds' Privacy and Security Practices

The Funds will notify you annually of their privacy policy as required by federal law. While the Funds reserve the right to modify this policy at any time they will notify you promptly if this privacy policy changes.

The Funds' Security Practices

The Funds maintain appropriate physical, electronic and procedural safeguards designed to guard your nonpublic personal information. The Funds' internal data security policies restrict access to your nonpublic personal information to authorized employees, who may use your nonpublic personal information for Fund business purposes only.

Although the Funds strive to protect your nonpublic personal information, they cannot ensure or warrant the security of any information you provide or transmit to them, and you do so at your own risk. In the event of a breach of the confidentiality or security of your nonpublic personal information, the Funds will attempt to notify you as necessary so you can take appropriate protective steps. If you have consented to the Funds using electronic communications or electronic delivery of statements, they may notify you under such circumstances using the most current email address you have on record with them.

In order for the Funds to provide effective service to you, keeping your account information accurate is very important. If you believe that your account information is incomplete, not accurate or not current, or if you have questions about the Funds' privacy practices, write the Funds using the contact information on your account statements, email the Funds by clicking on the Contact Us section of the Funds' website at www.leggmason.com, or contact the Fund at 1-888-777-0102.
