Report of Independent Registered Public Accounting Firm

To the Plan Administrator of the IBM 401(k) Plus Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the IBM 401(k) Plus Plan (the Plan) at December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The supplemental schedules of loans or fixed income obligations in default or classified as uncollectible, of assets (held at end of year) and of assets (acquired and disposed of within year) have been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedules reconcile to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedules of loans or fixed income obligations in default or classified as uncollectible, of assets (held at end of year) and of assets (acquired and disposed of within year) are fairly stated, in all material respects, in relation to the financial statements as a whole.

IBM 401(k) PLUS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the IBM 401(k) Plus Plan (the Plan) provides only general information. Participants should refer to the Plan prospectus (Summary Plan Description) for a complete description of the Plan's provisions.

General

The Plan was established by resolution of International Business Machines Corporation's Retirement Plans Committee (the Committee) effective July 1, 1983 and Plan assets are held in trust for the benefit of its participants. The Plan offers all eligible active, full-time and part-time regular and long-term supplemental United States (U.S.) employees of International Business Machines Corporation (IBM) and certain of its domestic related companies and partnerships an opportunity to defer from one to eighty percent of their eligible compensation for before-tax 401(k) and/or Roth 401(k) contributions to any of thirty-three primary investment funds and about 165 mutual funds in a mutual fund window. The investment objectives of the primary funds are described in Note 6, Description of Investment Funds. In addition, participants are able to contribute up to ten percent of their eligible compensation on an after-tax basis. Roth 401(k) and after-tax contributions are not available for employees working in Puerto Rico. Annual contributions are subject to the legal limits permitted by Internal Revenue Service (IRS) regulations.

Participants are provided the choice to enroll in a disability protection program under which a portion of the participant's account is used to pay premiums to purchase term insurance (underwritten by Metropolitan Life Insurance Company), which will pay the amount of their before-tax 401(k) contributions, matching contributions, automatic contributions and/or Special Savings Awards into their accounts in the event the participant becomes disabled while insured.

Participants have the choice to enroll in Managed Accounts, an account management service provided by Financial Engines for a fee which is deducted from the participant's account.

At December 31, 2015 and 2014, the number of participants with an account balance in the Plan was 187,937 and 191,921, respectively.

The Plan is dual qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, and Section 1081.01(a) of the Internal Revenue Code for a New Puerto Rico, as amended (the PRIRC). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The Plan is administered by the Committee, which appointed certain officials of IBM to assist in administering the Plan. The Committee appointed State Street Bank and Trust Company (SSBT), as Trustee, to safeguard the assets of the funds and State Street Global Advisors (SSGA), the institutional investment management affiliate of SSBT, The Vanguard Group and other investment managers to direct investments in the various funds. Fidelity Workplace Services LLC (Fidelity) is the provider of record keeping and participant services, operator of the IBM Employee Services Center for the Plan in Raleigh, North Carolina as well as the provider of administrative services related to the mutual fund window. Communication services were provided by Fidelity as well as The Vanguard Group.

Table of Contents

Contributions

Generally, IBM employer contributions are based upon the IBM pension formula for which the employee was eligible on December 31, 2007, or on hire date on or after January 1, 2005. If a participant's IBM Pension Plan eligibility as of December 31, 2007 was (1) the Pension Credit Formula, the participant is eligible to receive a 6% matching contribution and a 4% automatic contribution; or (2) the Personal Pension Account, the participant is eligible to receive a 6% matching contribution and a 2% automatic contribution. If the participant was hired or rehired on or after January 1, 2005, and is not in one of the job families described below, then the participant is eligible for a 5% employer matching contribution, and 1% automatic contribution (Note: Band 6 GBS Entry Professional Hires on or after April 1, 2015 shall become eligible for these benefits only upon promotion.). If a participant is in any one of the following categories (1) GBS Application Development Specialist Job Family hired or rehired on or after April 15, 2013; (2) Multi Vendor Service Representative hired or rehired on or after April 1, 2015; (3) Systems Services Representative hired or rehired on or after November 1, 2015; or (4) is in one of the following job families in IBM GTS Infrastructure Services on or after January 1, 2016 (a) IT Specialist; (b) Technical Services; (c) Project Management (excluding Project Executives and Delivery Project Executives); (d) Enterprise Operations; and (e) Product Services, then the participant is eligible for a 2% matching contribution and a 1% automatic contribution.

A contribution equal to five percent of eligible compensation (referred to as a Special Savings Award) will be added to the accounts of participants who are non-exempt employees at each year-end (effective January 1, 2013, the determination will be made on December 15 and the Special Savings Award will be contributed to eligible participants on the last business day of the year) and who participated in the Pension Credit Formula as of December 31, 2007 and have been continuously employed by IBM since that date.

Newly hired employees are automatically enrolled at five percent of eligible salary and performance pay after approximately thirty days of employment with IBM, unless they elect otherwise. New hires become eligible for the IBM automatic contribution and the IBM matching contribution after completing the applicable service requirement, which generally is one year. GBS Application Development Specialist Job Family hires, Multi Vendor Service Representative Hires on or after April 1, 2015 and Systems Services Representative Hires on or after November 1, 2015 have a service requirement of two years. GBS Entry Professional Hires on or after April 1, 2015 shall become eligible for these employer contributions only upon promotion.

Matching and automatic contributions are made once annually at the end of the year. In order to receive such IBM employer contributions each year, a participant must be employed on December 15 of the plan year, and meet all eligibility requirements. However, if a participant separates from service prior to December 15, and has completed certain service and/or age requirements, then the participant will be eligible to receive matching and automatic contributions for which they are eligible, following separation from service.

Eligible compensation under the Plan includes regular salary, commissions, overtime, shift premium and similar additional compensation payments for nonscheduled workdays, recurring payments under an employee variable compensation plan, regular IBM Short-Term Disability Income Plan payments, holiday pay and vacation pay, and payments made under any executive incentive compensation plan. Non-recurring compensation, such as awards, deal team payments and significant signing bonuses are not eligible compensation and cannot be deferred under the Plan.

Table of Contents

Participants are able to choose to have their contributions invested entirely in one of, or in any combination of, the following funds or in the mutual fund window funds, in multiples of one percent. If participants do not make an investment election, then contributions will be invested in the default Target Date fund that most closely corresponds to the year in which they will reach age 60.

These funds and their investment objectives are more fully described in Note 6, Description of Investment Funds.

The Plan participants also have access to the mutual fund window investment options.

Participants may change their deferral percentage and investment selection for future contributions at any time. The changes will take effect for the next eligible pay cycle if the request is completed before the applicable cutoff date. Also, participants may transfer part or all of existing account balances among funds in the Plan once daily, subject to the Plan restrictions on trading.

The Committee is committed to preserving the integrity of the Plan as a long-term savings vehicle for its employees. Frequent, short-term trading that is intended to take advantage of pricing lags in funds can harm long-term investors, or increase trading expenses in general. Therefore, the Plan has implemented frequent trading transaction restrictions and reserves the right to take other appropriate action to curb short-term transactions (buying/selling).

Table of Contents

Participant Accounts

The Plan record keeper maintains an account in the name of each participant to which each participant's contributions and share of the net earnings, losses and expenses, if any, of the various investment funds are recorded. The earnings on the assets held in each of the funds and all proceeds from the sale of such assets are held and reinvested in the respective funds.

Participants may transfer rollover contributions of before-tax and Roth 401(k) amounts from other qualified savings plans or Individual Retirement Accounts into their Plan account. Rollovers must be made in cash within the time limits specified by the IRS; stock or in-kind rollovers are not accepted. These rollovers are limited to active employees on the payroll of IBM (or affiliated companies) who have existing accounts in the Plan. Retirees are not eligible for such rollovers, except that a retiree or separated employee who has an existing account in the Plan may roll over a lump-sum distribution from an IBM-sponsored qualified retirement plan, including the IBM Personal Pension Plan. After-tax amounts may also be directly rolled over into the Plan from another qualified savings plan.

On each valuation date, the unit/share value of each fund is determined by dividing the current investment value of the assets in that fund on that date by the number of units/shares in the fund. The participant's investment value of assets equals the market value of assets for all funds except the Interest Income Fund for which the participant's investment value of assets equals the contract value of assets. In determining the unit/share value, new contributions that are to be allocated as of the valuation date are excluded from the calculation. On the next day, the cash related to new contributions is transferred into the fund and the number of additional units to be credited to a participant's account for each fund, due to new contributions, is equal to the amount of the participant's new contributions to the fund divided by the prior night's unit value.

Contributions (with the exception of after-tax contributions and Roth 401(k) contributions) made to the Plan, as well as interest, dividends, or other earnings of the Plan are generally not included in the taxable income of the participant until withdrawal, at which time all earnings and contributions withdrawn generally are taxed as ordinary income to the participant. Additionally, withdrawals by the participant before attaining age 59 1/2 generally are subject to a penalty tax of 10 percent. After-tax contributions made to the Plan are not tax deferred, but are taxable income prior to the participant making the contribution. Any interest, dividends or other earnings on the after-tax contributions are generally not included in the taxable income of the participant until withdrawal, at which time all earnings withdrawn are generally taxed as ordinary income to the participant. Any distribution of earnings on after-tax contributions that are withdrawn by the participant before attaining age 59 1/2 generally are subject to a penalty tax of 10 percent. Roth 401(k) contributions are not tax deferred, but are taxable income prior to the participant making the contribution. Interest, dividends or other earnings on Roth 401(k) contributions may not be taxable at withdrawal provided the participant has met the applicable rules.

Consistent with provisions established by the IRS, the Plan's 2015 limit on employee salary and performance pay deferrals was \$18,000. Participants who were age 50 or older during 2015 could take advantage of a higher 401(k) contribution limit of \$24,000. The 2015 maximum annual deferral amount for employees residing in Puerto Rico was limited by local government regulations to \$18,000. Puerto Rico participants who were age 50 or older in 2015 could take advantage of a higher contribution limit of \$19,500.

Table of Contents

Vesting

Participants in the Plan are at all times fully vested in their account balance, including employee contributions, employer contributions and earnings thereon, if any.

Distributions

Participants who have terminated employment or are eligible for in-service distributions (e.g. have reached age 59 ½) may request ad hoc distributions (\$500 minimum) or a full distribution.

In addition, participants who (1) terminate employment with at least 30 years of IBM service, or (2) become eligible for benefits under the IBM Long-Term Disability Plan or the IBM Medical Disability Income Plan, or (3) are age 55 or older at the time installments begin, may also elect to receive the balance of their account in annual, quarterly or monthly installments. Eligible participants may request installments over a fixed period of time or at a flat dollar amount (\$500 minimum per period for a flat dollar election). Distributions are subject to the required minimum distribution rules for participants who have reached age 70 ½.

Withdrawals for financial hardship are permitted provided they are for an immediate and significant financial need, and the distribution is necessary to satisfy that need. Employees are required to fully use the Plan loan program, described below, before requesting a hardship withdrawal. Only an employee's contributions are eligible for hardship withdrawal; earnings on before-tax 401(k) and Roth 401(k), and IBM contributions (match, automatic, transition credits and Special Savings Award) are not eligible for withdrawal. Employees must submit evidence of hardship to the record keeper who will determine whether the situation qualifies for a hardship withdrawal based on guidance from the Plan administrator. A hardship withdrawal is taxed as ordinary income to the employee and may be subject to the 10 percent additional tax on early distributions.

If the participant dies and is married at the time of death, the participant's spouse must be the beneficiary of the participant's Plan account, unless the participant's spouse has previously given written, notarized consent to designate another person as beneficiary. If the participant marries or remarries, any prior beneficiary designation is canceled and the spouse automatically becomes the beneficiary. If the participant is single, the beneficiary may be anyone previously designated by the participant under the Plan. In the absence of an effective designation under the Plan at the time of death, the proceeds normally will be paid in the following order: the participant's spouse, the participant's children in equal shares, or to surviving parents equally. If no spouse, child, or parent is living, payments will be made to the executors or administrators of the participant's estate.

After the death of a participant, an account will be established for the participant's beneficiary. If the beneficiary is a spouse or domestic partner, the beneficiary's account may be maintained in the Plan, subject to IRS required minimum distributions. If the beneficiary is neither a spouse nor a domestic partner, the account will be paid to the beneficiary in a lump sum. Beneficiaries may roll over distributions from the Plan.

Table of Contents

Participant Loans

Participants may borrow up to one-half of the value of their account balance, not to exceed \$50,000, within a twelve month period. Loans will be granted in \$1 increments subject to a minimum loan amount of \$500. Participants are limited to two simultaneous outstanding Plan loans. Repayment of a loan is made through semi-monthly payroll deductions. Loans originated under the Plan have a repayment term of one to four years for a general purpose loan or one to ten years for a primary residence loan. There are a limited number of outstanding loans originated under acquired company plans that were merged into the Plan having repayment terms greater than 10 years and up to a maximum term of 30 years. The loans originated under the Plan bear a fixed rate of interest, set quarterly, for the term of the loan, determined by the plan administrator to be 1.25 points above the prime rate. The interest is credited to the participant's account as the semi-monthly repayments of principal and interest are made. Interest rates on outstanding loans at December 31, 2015 and 2014 ranged from 4.25 percent to 11.00 percent.

Participants may prepay the entire remaining loan principal at any time. Employees on an approved leave of absence may elect to make scheduled loan payments directly to the Plan. Participants may continue to contribute to the Plan while having an outstanding loan. A loan default is a taxable event to the participant and will be reported as such in the year of the loan default.

Participants who retire or separate from IBM and have outstanding Plan loans may make loan repayments via coupon payments or ACH deductions to continue monthly loan repayments according to their original amortization schedule.

Table of Contents

Termination of Service

If the value of a participant's account is \$1,000 or less, it will be distributed to the participant in a lump-sum payment following the termination of the participant's employment with IBM. If the account balance is greater than \$1,000 at the time of separation, the participant may defer distribution of the account until age 70 ½.

Termination of the Plan

IBM reserves the right to terminate this Plan at any time by action of the Board of Directors of IBM. In that event, each participant or beneficiary receiving or entitled to receive payments under the Plan would receive the balance of the account at such time and in accordance with applicable law and regulations. In the event of a full or partial termination of the Plan, or upon complete discontinuance of contributions under the Plan, the rights of all affected participants in the value of their accounts would be non-forfeitable.

Risks and Uncertainties

The Plan provides for various investment options in the form of mutual funds, commingled funds or separately-managed funds. These funds invest in equities, fixed income securities, synthetic guaranteed investment contracts (synthetic GICs), a separate account investment contract (separate account GIC) and derivative contracts. Investment securities are exposed to various risks, such as interest rate movements, credit quality changes and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. The Plan is potentially exposed to credit loss in the event of non-performance by the companies with whom the Plan entered into the synthetic GICs and a separate account GIC. However, the Committee does not anticipate non-performance by these companies at this time.

Table of Contents

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared under the accrual basis of accounting, except distributions, which are recorded when paid. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Within the financial tables presented, certain columns and rows may not add due to the use of rounded numbers for disclosure purposes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value (except for fully benefit-responsive investment contracts, which are stated at contract value). Accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Under this guidance, the Plan is required to classify certain assets and liabilities based on the following fair value hierarchy:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date;

- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

- Level 3 Unobservable inputs for the asset or liability.

The guidance requires the use of observable market data if such data is available without undue cost and effort.

Table of Contents

Assets are classified within the fair value hierarchy according to the lowest level input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. A security that is categorized as Level 3 is valued using the last available market price or a price from an alternate pricing source. The valuation methodology is applied consistently from period to period.

Investments in mutual funds and commingled funds are valued at the net asset values per share using available inputs to measure fair value by such companies or funds as of the valuation date. Generally, mutual funds have a quoted market price in an active market and are classified as Level 1 and commingled funds which may include 103-12 investments, common collective trusts and pooled separate accounts are classified as Level 2 based upon observable data.

Common stocks and financial derivative instruments, such as futures contracts or options contracts that are traded on a national securities exchange are stated at the last reported sale or settlement price on the day of valuation. Valuation adjustments may be applied to certain securities that are solely traded on a foreign exchange to account for the market movement between the close of the foreign market and the close of the New York Stock Exchange. These securities are valued using pricing service providers that consider the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments.

Fixed income investments are valued on the basis of valuations furnished by Trustee-approved independent pricing services. These services determine valuations for normal institutional-size trading units of such securities using models or matrix pricing, which incorporates yield and/or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and quotations from bond dealers to determine current value. If these valuations are deemed to be either not reliable or not readily available, the fair value will be determined in good faith by the Trustee.

Over-the-counter derivatives are typically valued using proprietary pricing models that use as their basis readily observable market parameters that is, parameters that are actively quoted and can be validated to external sources, including industry pricing services. Depending on the types and contractual terms of derivatives, fair value can be modeled using a series of techniques, such as the Black-Scholes option pricing model, simulation models or a combination of various models, which are consistently applied. Where derivative products have been established for some time, the Plan uses models that are widely accepted in the financial services industry. These models reflect the contractual terms of the derivatives, including the period to maturity, and market-based parameters such as interest rates, volatility, and the credit quality of the counterparty. Further, many of these models do not contain a high level of subjectivity, as the methodologies used in the models do not require significant judgment, and inputs to the model are readily observable from actively quoted markets, as is the case for plain vanilla interest rate swaps, option contracts and credit default swaps.

Interest bearing cash securities are valued at amortized cost, which includes cost and accrued interest and approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement

at the reporting date.

Table of Contents

Security Transactions and Related Investment Income

Security transactions are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net change in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation and depreciation on those investments.

Administrative Expenses and Investment Management Fees

Participants pay for administrative expenses of the Plan which are included in each fund's expense ratio. These costs include (a) investment management, custody and benefit responsive investment contract fees which are charged to the applicable funds and (b) operational expenses required for administration of the Plan including trustee and recordkeeping which are charged against the funds' assets on a pro rata basis throughout the year. Operational expenses related to balances in the Mutual Fund Window are deducted from participant account balances. Brokerage fees, and commissions are included in the cost of investments and in determining net proceeds on sales of investments. Investment management, custody and administrative fees for commingled trusts and mutual funds are charged based on a percentage of net asset value and are paid from the assets of the respective funds.

Revenue Sharing

Certain fund families may pass a portion of their fees to Fidelity as provider of recordkeeping services for the Plan. In addition, Fidelity attributes a certain portion of Fidelity mutual fund expenses to recordkeeping. Participants invested in mutual funds that have such arrangements (currently Dodge & Cox and Fidelity) will receive a credit based on their investment in those funds, if the participant has an account balance in the Plan when the credit is calculated. Following each quarter-end (currently within 30 days of quarter-end), a pro rata share of the fees received from the mutual fund will be allocated to the participant's account, based on the participant's investment in the mutual fund. The amount allocated will be used to purchase additional shares of the mutual fund to which the credit relates. Any revenue sharing that is attributable to a participant who no longer has an account in the Plan will be used to reduce future Plan expenses.

Table of Contents

Standards to be Implemented

In May 2015, the Financial Accounting Standards Board (FASB) amended guidance for reporting investments in certain entities that calculate net asset value per share (or its equivalent) so that entities will no longer be required to categorize these investments in the fair value hierarchy or to provide the related fair value disclosures. The guidance is effective for the year ending December 31, 2016 with early adoption permitted and is not expected to have a material impact on the Plan's Financial Statements.

Standards Implemented

In July 2015, the FASB issued a three-part standard that provides guidance on certain aspects of the accounting by employee benefit plans. Part I amended the guidance for fully benefit-responsive investment contracts (FBRICs) to report them only at contract value and to no longer present a reconciliation of a FBRIC's fair value to its contract value on the face of the plan financial statements. In addition, FBRICs including the underlying investments of a synthetic guaranteed investment contract are not included in the fair value hierarchy table. The 2014 collateral associated with the underlying investments of the synthetic guaranteed investment contracts was reclassified from payable for collateral deposits to investments, at fair value on the 2014 Statement of Net Assets Available For Benefits. Part II amended certain plan investment disclosures, including the elimination of investments greater than 5 percent of net assets; reporting the net appreciation/depreciation only in the aggregate and investments in the fair value hierarchy table are segregated only by general type of investment. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, a disclosure of that investment's strategy is not required. The guidance is effective January 1, 2016 with early adoption permitted. The Plan adopted the guidance for 2015, on a retrospective basis.

Table of Contents**NOTE 3 INVESTMENTS**

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2015 and 2014.

Investments at Fair Value as of December 31, 2015

(Dollars in Thousands)	Level 1	Level 2	Level 3	Total
Equity:				
Equity commingled*/mutual funds	\$ 3,586,614	\$ 14,361,234	\$	\$ 17,947,848
IBM Corporation common stock	1,321,957			1,321,957
Equity securities	5,063,625	3,196,596	1,660	8,261,881
Fixed income:				
Government securities		4,246,733		4,246,733
Corporate bonds		1,211,075	1,346	1,212,421
Mortgage and asset-backed securities		55,323		55,323
Fixed income commingled*/mutual funds	1,158,277			1,158,277
Cash and cash equivalents	29,655	881,422		911,076
Derivatives	470	115		585
Other commingled*/mutual funds	737,793	1,118,592		1,856,385
Total investments at fair value	\$ 11,898,392	\$ 25,071,089	\$ 3,006	\$ 36,972,487

*Commingled funds may include 103-12 investments, common collective trusts, and pooled separate accounts.

The balances of and changes in the fair values of the Plan's level 3 assets for the period ending December 31, 2015 were not material.

Total investments at fair value	\$ 13,169,311	\$ 25,635,822	\$ 268	\$ 38,805,401

* Commingled funds may include 103-12 investments, common collective trusts, and pooled separate accounts.

** Reclassified to reflect adoption of ASU 2015-12 and the 2015 presentation. Refer to note 2, Summary of Significant Accounting Policies, for additional information.

Transfers between Levels

The Plan's policy is to recognize transfers in and transfers out at the beginning of the period. For the years ended December 31, 2015, and 2014, there were no transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Table of Contents**Fair Value of Investments that Calculate Net Asset Value**

The following table summarizes investments measured at fair value based on net asset value per share at December 31, 2015 and 2014, respectively:

Investments at fair value:	2015	(Dollars in thousands)		2014
Equity funds	\$	14,361,234	\$	14,856,322
Other funds		1,118,592		1,177,179

Generally, under ordinary market conditions, investments in the funds included in the table above provide daily market liquidity to Plan participants and the Plan, facilitating daily participant transactions (issuances and redemptions). Investment in some of these funds may be subject to redemption restrictions at the fund's discretion in limited situations including, but not limited to, a major market event, closure of a market on which any significant portion of the assets of the fund are invested, a situation deemed to be an emergency by the fund, and a situation in which price or value of the assets cannot be promptly and accurately ascertained. At December 31, 2015 and 2014, no funds were subject to redemption restrictions.

NOTE 4 DERIVATIVES

In accordance with the investment strategy of the separately-managed funds, investment managers execute transactions in various derivative instruments. These derivative instruments include swaps, options, bond and equity futures and forward contracts. The use of derivatives is permitted principally to gain or reduce exposure or execute an investment strategy more efficiently. The investment managers use these derivative instruments to manage duration and interest rate volatility and exposure to credit, currency, equity, and cash.

Derivative instruments are carried at fair value. The net fair value of derivative financial instruments was an asset of \$0.6 million and \$2 million as of December 31, 2015 and 2014, respectively. The notional amount of derivative financial instruments reported in Investments, at fair value within the Statement of Net Assets Available for Benefits was \$478 million and \$264 million as of December 31, 2015 and 2014, respectively.

Table of Contents

NOTE 5 INVESTMENT CONTRACTS

The Plan entered into benefit-responsive synthetic investment contracts (synthetic GICs) and a separate account investment contract (separate account GIC and together with the synthetic GICs, Investment Contracts), for the Interest Income Fund (the Fund), with various third parties, i.e., insurance companies and banks.

A synthetic GIC provides for a fixed return on principal over a specified period of time, e.g., a quarterly crediting rate. These investment contracts, which are backed by underlying assets owned by the Plan, are issued by third parties. A separate account GIC also provides for a fixed return on principal and these investment contracts are funded by contributions which are held in separate accounts at the third party established for the sole benefit of the Fund participants. Both types of Investment Contracts are meant to be fully benefit-responsive. Participants transact at contract value, which represents contributions plus interest earned based on a formula called the crediting rate. The crediting rate formula smooths and decreases differences over time between the market value of the covered assets and the contract value. The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by changes in general level of interest rates, administrative expenses and cash flows into or out of the contract. The difference between the contract value and the market value of the covered assets is amortized over time as determined by the terms of the contract, typically the Investment Contract's actual or benchmark duration. A change in duration of the covered assets or benchmark from reset period to reset period can affect the speed with which any difference is amortized. Crediting rates are reset quarterly or more often if deemed appropriate. Investment Contracts provide a guarantee that the crediting rate will not fall below zero percent.

An Investment Contract crediting rate, and hence the Fund's return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the Investment Contract depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than the contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and the Fund's return, and redemptions by existing participants will tend to increase the crediting rate and the Fund's return. If the market value of the covered assets is less than the contract value, the crediting rate will ordinarily be lower than the yield of the covered assets. Under these circumstances, cash from new investors will tend to increase the crediting rate and the Fund's return, and redemptions by existing participants will tend to decrease the crediting rate and the Fund's return. If the Investment Contract experiences significant redemptions when the market value is below the contract value, the Investment Contract's crediting rate may be reduced significantly, to a level that may not be competitive with other investment options. If redemptions continued, the crediting rate could be reduced to zero. If the Investment Contract has insufficient covered assets to meet redemption requests, the Fund would require payments from the investment contract issuer to pay further participant redemptions.

Table of Contents

The Fund and the Investment Contracts purchased for the Fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the provisions of the Plan (typically this would include withdrawals for benefits, loans, or transfers to non-competing funds within the Plan). However, the Investment Contracts may limit the ability of the Fund to transact at contract value upon the occurrence of certain events. At this time, the occurrence of any of these events is not probable. These events include:

- The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Any substantive modification of the Plan or the administration of the Plan that is not consented to by the investment contract issuer.
- Complete or partial termination of the Plan.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Fund's cash flow.
- Merger or consolidation of the Plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor.
- Any communication given to participants by the Plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the Fund or to transfer assets out of the Fund.
- Exclusion of a group of previously eligible employees from eligibility in the Plan.
- Any significant retirement program, group termination, group layoff, facility closing or similar program.
- Any transfer of assets from the Fund directly to a competing option, if such transfers are prohibited.

- Bankruptcy of the plan sponsor or other plan sponsor events which cause a significant withdrawal from the Plan.

An investment contract issuer may terminate a contract at any time. In the event that the market value of the covered assets is below the contract value at the time of such termination, the Plan may elect to keep a contract in place to allow for the convergence of the market value and the contract value. An investment contract issuer may also terminate a contract if certain terms of the Investment Contract fail to be met.

Table of Contents

Investment Contracts generally impose conditions on both the Plan and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; is acquired or reorganized. If, in the event of default of an issuer, the Fund were unable to obtain a replacement investment contract, the Fund may experience losses if the market value of the Plan's assets no longer covered by the contract is below contract value. The Fund may seek to add additional issuers over time to diversify the Fund's exposure to such risk, but there is no assurance the Fund will be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Fund unable to maintain contract value. The terms of an Investment Contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice as agreed to under the terms of the contract.

The following table provides the disaggregation of contract value between types of Investment Contracts held by the Plan.

Investment Contracts at December 31,	2015	2014
	(Dollars in thousands)	
Contract value:		
Synthetic GICs	\$ 7,032,426	\$ 7,506,530
Separate account GIC	1,555,235	1,129,859
Total Investment Contracts	\$ 8,587,661	\$ 8,636,389

Table of Contents

NOTE 6 - DESCRIPTION OF INVESTMENT FUNDS

The objectives of the thirty-three primary investment funds in which participants could invest in 2015 are described below:

Life Cycle Funds

The Life Cycle funds reflect a portfolio of diversified investments — U.S. stocks, international stocks, real estate equity stocks, and fixed-income investments — from the existing core funds noted below, plus a balanced exposure fund and a commodities fund (not available to participants as standalone offerings). These funds offer a convenient low-cost way to achieve diversification, professional investment management and periodic rebalancing as needed. The funds are structured by the IBM Retirement Fund organization and managed by the underlying funds' managers.

The Target Date Funds offer portfolios with asset allocations designed for varying retirement dates or the year in which one expects to start drawing on their retirement assets. The portfolios are offered in five year increments from 2005 to 2055, with the 2030 through 2055 funds providing a significantly higher allocation to stocks. As a fund draws closer to its associated target date, the fund will automatically shift toward a more conservative risk level by reducing its allocation to stocks. Each fund's reduction to stocks continues through its target date for another 10 years, until the fund's allocation and risk profile matches that of the Income Plus Fund and will subsequently be merged into the Income Plus Life Strategy Fund. The Target Date funds assume a retirement age of 60.

- **Target Date 2005 Fund** - designed for investors who have retired or started to draw on their retirement assets on or around the year 2005; seeks returns that moderately outpace inflation over the long term. It was merged into the Income Plus Life Strategy Fund during 2015.
- **Target Date 2010 Fund** - seeks relatively high returns at a moderate risk level. Target asset allocation between stocks and bonds is 36% stocks*, 64% bonds.
- **Target Date 2015 Fund** - seeks relatively high returns at a moderate risk level. Target asset allocation between stocks and bonds is 49% stocks*, 51% bonds.
- **Target Date 2020 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 61% stocks*, 39% bonds.
- **Target Date 2025 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 73% stocks*, 27% bonds.
- **Target Date 2030 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 84% stocks*, 16% bonds.
- **Target Date 2035 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 90% stocks*, 10% bonds.

- **Target Date 2040 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 90% stocks*, 10% bonds.
- **Target Date 2045 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 90% stocks*, 10% bonds.
- **Target Date 2050 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 90% stocks*, 10% bonds.
- **Target Date 2055 Fund** - seeks high returns over the long term. Target asset allocation between stocks and bonds is 90% stocks*, 10% bonds.

* Exposure to the balanced exposure and commodities funds is considered part of the allocation to stocks.

Table of Contents

The Life Strategy Funds that have a preset mix of stock and fixed income investments in order to provide broad diversification at four given levels of exposure to equities. The preset mix of each Life Strategy Fund is not expected to change over time.

- **Income Plus Life Strategy Fund** - target allocation: 25% stocks*, 75% bonds; seeks returns that modestly outpace inflation on a fairly consistent basis.
- **Conservative Life Strategy Fund** - target allocation: 50% stocks*, 50% bonds; seeks returns that moderately outpace inflation over the long term.
- **Moderate Life Strategy Fund** - target allocation: 65% stocks*, 35% bonds; seeks relatively high returns at a moderate risk level.
- **Aggressive Life Strategy Fund** - target allocation: 90% stocks*, 10% bonds; seeks high returns over the long term.

* Exposure to the balanced exposure and commodities funds is considered part of the allocation to stocks.

Table of Contents

Core Funds - funds that provide an opportunity to build a portfolio from a selection of broadly diversified U.S. and international stock funds and from funds that track the fixed-income markets.

- **Interest Income Fund** - seeks to provide income similar to an intermediate bond fund with low volatility and to preserve principal. The fund is managed by multiple investment managers.
- **Inflation Protected Bond Fund** - seeks over the long term to provide a rate of return similar to the Barclays U.S. Treasury Inflation Protected Securities - Series L Index (TIPS). The fund is managed by State Street Global Advisors.
- **Total Bond Market Fund** - seeks to provide a rate of return similar to its benchmark index (Barclays Aggregate Bond Index), which consists of a diversified group of U.S. Treasury, federal agency, mortgage-backed, and corporate securities. The fund is managed by Neuberger Berman.
- **High Yield and Emerging Markets Bond Fund** - seeks to modestly exceed the returns of a customized composite benchmark of 40% U.S. high yield, 40% emerging market bonds issued in local currencies and 20% emerging market bonds issued in U.S. dollars. The fund invests in below investment grade U.S. corporate and emerging market bonds. The fund is managed by multiple investment managers.
- **Total Stock Market Index Fund** - seeks long-term growth of capital and income with a market rate of return for a diversified group of U.S. equities. It attempts to match the performance of the Dow Jones U.S. Total Stock Market Index. The fund is managed by The Vanguard Group.
- **Total International Stock Market Index Fund** - seeks long-term capital growth with a market rate of return for a diversified group of non-U.S. equities in such major markets as Europe and Asia plus the emerging markets of the world. It attempts to match the performance of the MSCI All Country World Ex-USA Investable Market Index. The fund is managed by State Street Global Advisors.
- **Global Real Estate Index Fund** was added March 30, 2016 seeks to replicate the returns of a customized composite benchmark of 70% MSCI US REIT Index and 30% FTSE EPRA/NAREIT Developed ex-US Rental Index. The fund is managed by BlackRock Institutional Trust Company.
- **Real Estate Investment Trust (REIT) Index Fund** - seeks a total rate of return approximating the returns of the MSCI U.S. REIT index. Investment consists of U.S. publicly traded real estate equity securities. The fund is managed by BlackRock Institutional Trust Company. Effective June 30, 2016, will be moved to Expanded Choice Funds.
- **International Real Estate Index Fund.** - seeks to replicate the returns of the FTSE EPRA/NAREIT Developed ex US Rental Index. Investment consists of the international market for securities of companies principally engaged in the real estate industry that derive greater than or equal to 70% of their total revenue from rental revenue of investment properties. The fund is managed by BlackRock Institutional Trust Company. Effective June 30, 2016, will be moved to Expanded Choice Funds.

Table of Contents

Expanded Choice Funds funds that provide an opportunity to build an investment portfolio with funds that are less broadly diversified, focusing instead on discrete sectors of the stock and bond markets.

- **Long-Term Corporate Bond Fund** - seeks to modestly outperform the return of the Barclays U.S. Long Credit Index. The fund invests in a diversified group of investment grade corporate and local U.S. and non-U.S. government fixed-rate debt issues with maturities of ten years or more. The fund is managed by Neuberger Berman.
- **Large Company Index Fund** - seeks long-term growth of capital and income from dividends by holding all the stocks that make up the Standard & Poor's 500 Index. The fund is managed by The Vanguard Group.
- **Large-Cap Value Index Fund** - seeks long-term growth of capital and income from dividends. The fund holds all the stocks in the Russell 1000 Value Index in approximately the same proportion as those stocks represented in the index. The fund is managed by The Vanguard Group.
- **Large-Cap Growth Index Fund** - seeks long-term growth of capital by holding all the stocks in the Russell 1000 Growth Index in approximately the same proportion as those stocks represented in the index. The fund is managed by The Vanguard Group.
- **Small/Mid-Cap Stock Index Fund** - seeks long-term growth of capital with a market rate of return from a diversified group of medium- and small-company stocks. The fund holds stocks in the Russell 3000 index that are not part of the Standard and Poor's 500 index and attempts to match the performance of the Russell SmallCap Completeness Index. The fund is managed by State Street Global Advisors.
- **Small-Cap Value Index Fund** - seeks long-term growth of capital by attempting to match the performance of the Russell 2000 Value Index. The fund is managed by The Vanguard Group.
- **Small-Cap Growth Index Fund** - seeks long-term growth of capital by attempting to match the performance of the Russell 2000 Growth Index. The fund is managed by The Vanguard Group.
- **European Stock Index Fund** - seeks long-term growth of capital that corresponds to an index of European stocks. It attempts to match the investment results of the MSCI Europe Index. The fund is managed by The Vanguard Group.
- **Pacific Stock Index Fund** - seeks long-term growth of capital by attempting to match the performance of the MSCI Pacific Index. The fund is managed by The Vanguard Group.
- **Emerging Markets Stock Index Fund** - seeks long-term growth of capital by attempting to match the investment results of the FTSE Emerging Markets All Cap China A Transition Index. The fund is managed by The Vanguard Group.
- **IBM Stock Fund** - invests in IBM common stock and holds a small interest-bearing cash balance of approximately 0.35% for liquidity purposes. The fund is managed by State Street Bank and Trust Company.

IBM 401(k) participants also have access to the mutual fund window investments which expands the Plan's investment options to include about 165 mutual funds, most of which are actively managed. This feature gives more options to participants who are interested in investing in

brand-name funds, or in simply having a broader range of investment options from which to choose.

Table of Contents

Securities Lending

The Plan does not currently engage in securities lending for the separate accounts. Securities lending may be permitted in certain commingled funds and in funds within the mutual fund window. The prospectus for each fund will disclose if lending is permitted and the risks involved.

NOTE 7 - TAX STATUS

The Trust established under the Plan is qualified under Section 401(a) of the Internal Revenue Code of 1986 and Section 1081.01 of the Internal Revenue Code for a New Puerto Rico (2011), and the Trustee intends for the Trust to remain dual-qualified in this manner. The Plan received a favorable determination letter from the IRS on January 8, 2015, and received a favorable determination letter from the Hacienda (Puerto Rico) on April 29, 1993. Subsequent to these determination letters by the IRS and the Hacienda, the Plan was amended. The Plan administrator and Counsel continue to believe the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and the Internal Revenue Code for a New Puerto Rico (2011). The Plan submitted a request for a new determination letter to the Hacienda on April 15, 2014 and a request for a new determination letter to the IRS on January 21, 2016.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements and do not believe this position will change in the next twelve months. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Table of Contents**NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of:

	12/31 2015		12/31 2014
	(Dollars in thousands)		
Net assets available for benefits per the financial statements	\$ 45,667,471	\$	47,574,974
Plus:			
Adjustment from contract value to fair value for fully benefit-responsive investment contracts held by the Interest Income Fund	261,230		442,161
Net assets available for benefits per the Form 5500	\$ 45,928,701	\$	48,017,136

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	Year Ended December 31, 2015	
	(Dollars in thousands)

Less:		
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2014		442,161
Plus:		
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2015		261,230
Total investment income per the Form 5500	\$	(472,957)

Table of Contents

NOTE 9 - RELATED-PARTY TRANSACTIONS

At December 31, 2015, a significant portion of the Plan's assets were managed by SSGA, an affiliate of SSBT. SSBT also acts as the Trustee for the Plan and, therefore, these investments in addition to participant loans qualify as party-in-interest transactions. The Plan also pays a fee to the Trustee. These transactions qualify as party-in-interest transactions as well.

In addition, Fidelity is the provider of administrative services related to the mutual fund window as well as an affiliate of the investment manager of Fidelity funds within the mutual fund window. Fidelity is also the provider of record keeping and participant services, and the operator of the IBM Employee Services Center for the IBM 401(k) Plus Plan.

At December 31, 2015 and 2014, the Plan held 9,605,847 and 10,301,527 shares of IBM common stock valued at \$1,321,956,664 and \$1,652,776,992, respectively. During the year ended December 31, 2015, purchases of IBM common stock by the Plan totaled \$123,670,075 and sales of IBM common stock by the Plan totaled \$238,932,365.
