Edgar Filing: VALLEY OF THE RIO DOCE CO - Form 6-K

This current report on Form 6-K is hereby incorporated by reference into the Registration Statement on Form-4 of Vale Overseas Limited, File No. 333-109610, and the Registration Statement of Companhia Vale do Rio Doce, File No. 333-109610-01.

CVRD Simplifies Operational Structure

Rio de Janeiro, October 28, 2003 □ Companhia Vale do Rio Doce (CVRD) informs that it took some steps to simplify the operational structure of its manganese ferro-alloy business.

Since October 15, 2003, CVRD's subsidiary SIBRA □ Eletrosiderúrgica Brasileira S.A. (SIBRA) was redennominated Rio Doce Manganês S.A. (RDM). The operations of RDM subsidiaries, including Companhia Paulista de Ferro Ligas (CPFL), will be transferred to RDM from January 2004 onwards.

Currently, the main RDM assets are the Azul mine, located in Carajás, state of Pará, Brazil, with annual production capacity of 2 million tons of manganese ore, and a manganese ferro-alloy plant, with annual production capacity of 180,000 tons, located in Simões Filho, state of Bahia, Brazil. CPFL owns four ferro-alloy plants in the state of Minas Gerais (Barbacena, Ouro Preto, Santa Rita and São João del Rei). After the consolidation of CPFL assets and other smaller subsidiaries that produce manganese ore, located in the states of Minas Gerais and Bahia (Minérios Metalúrgicos do Nordeste S.A., Mineração Urandi S.A. and Sociedade Mineira de Mineração Ltda.), RDM will have a total annual production capacity of 2,330,000 tons of manganese ore and 350,000 tons of manganese ferro-alloy.

CVRD manganese and ferro-alloy operations will be held through four wholly owned subsidiaries: RDM, Urucum Mineração S.A., in Corumbá, Mato Grosso do Sul state, Rio Doce Manganese Europe (RDME), in Dunkerque, France, and Rio Doce Manganese Norway (RDMN), in Mo I Rana, Norway.

CVRD is the world's second largest manganese ore producer, with total annual production capacity of 2.9 million tons.

This press release may contain statements that express management's expectations about future events or results rather than historical facts. These forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements, and CVRD cannot give assurance that such statements will prove correct. These risks and uncertainties include factors: relating to the Brazilian economy and securities markets, which exhibit volatility and can be adversely affected by developments in other countries; relating to the iron ore business and its dependence on the global steel industry, which is cyclical in nature; and relating to the highly competitive industries in which CVRD operates. For additional information on factors that could cause CVRD's actual results to differ from expectations reflected in forward-looking statements, please see CVRD's reports filed with the Brazilian Comissão de Valores Mobiliários and the U.S. Securities and Exchange Commission.
