Item. 8.01. Other Events.

On October 1, 2008, the Board of Directors of ISCO International, Inc. (the “Company”) met to discuss the current status and future outlook for its wholly-owned subsidiary, Clarity Communication Systems Inc. (“Clarity”), which operates the Company’s software business. Management believes the long-term outlook for the Clarity business is favorable. However, based on management’s financial projections, optimal execution of the Clarity business plan will require additional funding for some period of time. The Board of Directors has recognized the current challenging conditions in the financial and credit markets and the impact of those conditions on the ability to raise the required funding to execute the business plan. Given these conditions, the Board of Directors has directed management to actively pursue the sale of, or other partnership or strategic options for, this business unit.
