IMA EXPLORATION INC.
(AN EXPLORATION STAGE COMPANY)
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2008
(UNAUDITED - PREPARED BY MANAGEMENT)
(EXPRESSED IN CANADIAN DOLLARS)

1. NATURE OF OPERATIONS AND CONTINGENCY

IMA Exploration Inc. (the "Company") is a natural resource company engaged in the business of acquisition, exploration and development of mineral properties. The Company presently has no proven or probable reserves and on the basis of information to date, it has not yet determined whether these properties contain economically recoverable ore reserves. Consequently the Company considers itself to be an exploration stage company. The amounts that were shown as mineral properties and deferred costs represent costs incurred to date, less amounts amortized and/or written off, and do not necessarily represent present or future values. As at March 31, 2008 the Company had no mineral property interests. The Company considers that it has adequate resources to maintain its core operations for the next fiscal year.

Edgar Filing: IMA EXPLORATION INC - Form 6-K

2. NAVIDAD INTEREST

As at December 31, 2007, the Company recorded a Navidad interest balance of \$18,500,000. The Company received the \$7.5 million held in trust on January 8, 2008 plus interest that had accrued in the amount of \$341,380. The balance of \$11 million was received on February 11, 2008.

3. SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment within reasonable limits of materiality. These interim consolidated financial statements should be read in conjunction with the most recent annual consolidated financial statements. The significant accounting policies follow that of the most recently reported annual consolidated financial statements.

NEW ACCOUNTING POLICIES

Effective January 1, 2008, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"):

GENERAL STANDARDS ON FINANCIAL STATEMENT PRESENTATION

CICA Handbook Section 1400, General Standards on Financial Statement Presentation, has been amended to include requirements to assess and disclose a company's ability to continue as a going concern. The changes are effective for interim and annual financial statements beginning January 1, 2008. The adoption of this standard did not have an effect on the Company for the three months ended March 31, 2008.

FOR THE THREE MONTHS ENDED MARCH 31, 2008
(UNAUDITED - PREPARED BY MANAGEMENT)
(EXPRESSED IN CANADIAN DOLLARS)

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

CAPITAL DISCLOSURES

CICA Handbook Section 1535, Capital Disclosures, establishes standards

Edgar Filing: IMA EXPLORATION INC - Form 6-K

for disclosing information about the company's capital and how it is managed. Under this standard the Company will be required to disclose the following, based on the information provided internally to the company's key management personnel:

- (i) qualitative information about its objectives, policies and processes for managing capital.
- (ii) summary quantitative data about what it manages as capital.
- (iii) whether during the period it complied with any externally imposed capital requirements to which it is subject.
- (iv) when the company has not complied with such externally imposed capital requirements, the consequences of such non-compliance.

This standard is effective for interim and annual financial statements beginning on January 1, 2008. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the three months ended March 31, 2008.

GOODWILL AND INTANGIBLE ASSETS

CICA Handbook Section 3064, Goodwill and Intangible Assets, establishes revised standards for recognition, measurement, presentation and disclosure of goodwill and intangible assets. Concurrent with the introduction of this standard, the CICA withdrew EIC 27, Revenues and Expenses during the preoperating period. As a result of the withdrawal of EIC 27, companies will no longer be able to defer costs and revenues incurred prior to commercial production at new mine operations. The changes are effective for interim and annual financial statements beginning January 1, 2009. The Company has not yet determined the impact of the adoption of this change on the disclosure in our financial statements.

FINANCIAL INSTRUMENTS DISCLOSURES

In March 2007, the CICA issued section 3862 FINANCIAL INSTRUMENTS - DISCLOSURES and Section 3863 FINANCIAL INSTRUMENTS - PRESENTATION, which together comprise a complete set of disclosure and presentation requirements that revise and enhance current disclosure requirements. Section 3862 requires disclosure of additional detail by financial asset and liability categories. Section 3863 establishes standards for presentation of financial instruments and non-financial derivatives. The standard deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset. These sections are effective for interim and annual financial statements beginning January 1, 2008. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the three months ended March 31, 2008.

OVERVIEW

The Company is a natural resource company engaged in the business of acquisition, exploration and development of mineral properties. At present, the Company has no producing properties and consequently has no current operating income or cash flows. As of this date the Company is an exploration stage company and has not generated any revenues. The Company is entirely dependent on the equity market for its source of funds. There is no assurance that a commercially viable mineral deposit exists on any of the properties. Further evaluation and exploration will be required before the economic viability of any of the properties is determined.

During the period, the Company was paid \$18,500,000 as consideration for the Navidad interest. The Company received the \$7.5 million held in trust on January 8, 2008 plus interest that had accrued in the amount of \$341,380. The balance of \$11 million was received on February 11, 2008.

On May 12, 2008 the Company announced that its has entered into a binding Letter of Intent with Western Copper Corporation ("Western Copper") and is preparing an Option Agreement to further explore and develop the Hushamu Property in which the Company has the right to acquire up to a 70% interest. The Hushamu porphyry style copper-molybdenum-gold deposit is located on northern Vancouver Island, B.C., approximately 25 kilometers to the southwest of Port Hardy, B.C.

- 1 -

The Hushamu deposit hosts a NI 43-101 compliant measured and indicated resource of 230.9 million tonnes grading 0.28% Cu and 0.31 g/t Au, containing 2.08 million ounces of gold and 1.39 billion pounds of copper, as well as an inferred resource of 52.8 million tonnes grading 0.28% Cu, 0.38 g/t Au, containing 327 million pounds of copper and 0.59 million ounces of gold. The deposit also contains unclassified molybdenum mineralization.

Table 1 summarizes the April 2005 mineral resource estimate at 0.10%, 0.20% and 0.30% Cu cut-offs. Additional infill and step out drilling is required to define the molybdenum, silver, and rhenium content and define the extent of mineralization.

At least 5 additional copper-molybdenum-gold porphyry targets and more than 15 poly-metallic volcanic and sediment hosted targets occur within the property and the Company considers the overall property to host an extensive exploration upside. The Company's technical team will be focused on infill drilling to upgrade the deposit as well as implementing an aggressive exploration strategy to test the numerous exploration targets in and around the known deposit. Drill permitting and surface exploration programs will commence shortly.

In 2005 Lumina Resources, later acquired by Western Copper, conducted the first major exploration in the area since 1994 that comprised historic data compilation, airborne geophysics (2,687 line kilometers), diamond drilling (3,155 m in 18 holes), geological mapping, prospecting, geochemical surveys (3,842 soil samples), and alteration studies. Lumina discovered porphyry style copper-gold molybdenum mineralization in the NW Expo zone (hole EC-228 intersected 1.0 g/t Au and 0.17% Cu over 95 m). In 2007 Western Copper further tested the NW Expo target with 2 drillholes and intersected two mineralized horizons. The drillholes cut an upper zone of mineralization containing 82.6 meters of 0.033% molybdenum and 0.14 grams per tonne gold and a deeper mineralized interval of 182.5 meters grading 0.58 grams per tonne gold and 0.013% molybdenum. The second drillhole intersected the upper zone over an

- 2 -

interval of 27.4 meters containing 0.022% molybdenum and 0.13 grams per tonne gold and the deeper zone intersected 204.2 meters grading 0.74 grams per tonne gold and 0.012% molybdenum (refer to Western Copper press release April 2007).

The Hushamu property, owned 100% by Western Copper Corporation, consists of 216 mineral claims (approximately 42,669 hectares) located in a known copper-porphyry mining camp and surrounds the formerly producing Island Copper Mine of BHP-Utah. During Island Copper's operation from 1971 to 1995, the mine produced 345 million tonnes of ore with average metal grades of 0.41% Cu, 0.017% Mo and 0.19 g/t Au. The rhenium content of the molybdenum concentrate was an important by-product. The demand for rhenium has driven prices to \$10,550 per kilogram.

As per the terms of the option agreement, the Company has agreed to expend a minimum of \$1.9 million in the first year of a three year option period.

Edgar Filing: IMA EXPLORATION INC - Form 6-K

Depending on initial results the Company will spend an additional \$13.1 million in years two and three on drilling, metallurgical, and engineering studies in the completion of a pre-feasibility report on the Hushamu deposit. This expenditure, a total of \$15 million, and the completion of a pre-feasibility report will earn the Company a 49% interest in the project (Option 1). The Company can earn an additional 16% by funding a subsequent feasibility study by the fourth year (Option 2) and an additional 5% can be earned upon completion of mine permitting (Option 3) for a total interest of 70% with Western Copper retaining a 30% participating interest in the joint venture.

SUMMARY OF FINANCIAL RESULTS

For the three months ended March 31, 2008, the Company reported a consolidated loss of \$314,157 (\$0.01 per share), a decrease of \$172,049 from the loss of \$486,206 (\$0.01 per share) for the three months ended March 31, 2007. The decrease in the loss in 2008, compared to 2007 amount, can primarily be attributed to a \$97,019 decrease in operating expenses and \$84,030 increase in other income items.

RESULTS OF OPERATIONS

The Company's operating expenses for the three months ended March 31, 2008 were \$476,227, a decrease of \$88,019 from \$573,246 in the 2007 period as a result of the following:

- (i) Administrative and management services decreased by \$26,333 primarily as a result of a portion of these fees being recovered from other shareholder companies of Grosso Group Management Ltd. ("Grosso Group") (see discussion on related party transactions below).
- (ii) General exploration increased by \$60,713 mainly as a result of the Company retaining the services of Dr. Greg Myers to assist with the search for new exploration projects.
- (ii) Office and sundry increased by \$53,469 as a result of increased insurance premiums accounted for during the period.
- (iii) Professional fees decreased by \$145,146 due to the Aquiline lawsuit coming to a close in 2007.

Edgar Filing: IMA EXPLORATION INC - Form 6-K

- (iv) Travel and accommodation increased to \$27,544 in the 2008 period compared to \$6,757 due to the Company actively seeking out new exploration projects in the period.

- 3 -

- (v) Navidad holding costs were \$nil in the 2008 period compared to \$40,860 in the 2007 period due to the Company transferring control of the Navidad project to Aquiline.

In the 2008 period the Company recorded interest income of \$174,811 compared to \$88,164 in the 2007 period as a result of having an increase in short-term investments.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position at March 31, 2008 was \$95,841, a decrease of \$87,787 from December 31, 2007. Short-term investments increased by \$18,666,482 to \$25,479,944 at March 31, 2008 from \$6,813,462 at December 31, 2007. Total assets at March 31, 2008 were \$25,841,116, a decrease of \$283,374 from \$26,124,490 at December 31, 2007.

The Company has received \$Nil from the exercise of options and warrants from January 1, 2008 to May 11, 2008. As at May 11, 2008, the Company had working capital of approximately \$25,600,000.

The Company considers that it has adequate resources to maintain its operations for the next fiscal year. The funds on hand will allow the company to acquire viable advance stage exploration assets. The Company will continue to rely on successfully completing additional equity financing to further exploration and development of mineral exploration projects as needed. There can be no assurance that the Company will be successful in obtaining the required financing.

Except as disclosed the Company does not know of any trends, demand, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, its liquidity either materially increasing or decreasing at present or in the foreseeable future.

The Company does not now and does not expect to engage in currency hedging to offset any risk of currency fluctuations.

OPERATING CASH FLOW

Cash inflow from operating activities for the three months ended March 31, 2008 was \$78,695, compared to cash outflow for the 2007 period of \$346,889 primarily as a result of decreased operating activities and the collection of receivables in the 2008 period.

FINANCING ACTIVITIES

During the three months ended March 31, 2008 and 2007 there were no cashflows.

INVESTING ACTIVITIES

Investing activities required cash of \$166,482 during the three months ended 2008, compared to \$366,521 for the 2007 period. In the 2008 period this was a result of the collection of the Navidad interest and increase in short-term investments. In 2007, this was a result of a decrease in short-term investments.

During the three months ended March 31, 2008, the Company incurred fees of \$109,338 (2007 - \$105,938) to the Grosso Group: \$120,000 (2007 - \$146,400) was paid in monthly payments and \$11,195 (2007 - \$40,462) is included in other receivables, prepaids and deposits as a result of a review of the allocation of the Grosso Group costs to the member companies for the period. Also included in

- 4 -

accounts receivable, prepaids and deposits is a \$205,000 (2007 - \$205,000) deposit to the Grosso Group for the purchase of equipment and leasehold improvements and for operating working capital which is callable on demand.

Discretionary bonuses may also be paid if approved by the compensation committee. Accordingly, the total compensation paid to the director in the three months ended March 31, 2008 was \$30,000. This amount is included in the total amount paid to directors and officers discussed in Note 7(b) above.

The Company may terminate this agreement by giving the director thirty day written notice. In the event the Company terminates this agreement the director may be entitled to receive the discretionary bonus.

The President of the Company provides his services on a full-time basis under a contract with a private company controlled by the President for an annual fee of \$250,000. Edgar Filing: IMA EXPLORATION INC - Form 6-K

of the President's death or permanent disability while providing services to the Company, a bonus in the amount of \$461,500 is payable.

Effective May 1, 2007, the Company negotiated agreements with the other shareholder companies of the Grosso Group for the President of the Company to provide services for a monthly fee. The agreements may be terminated at any time at the other companies' discretion upon 30 days written notice. The Company reserves its right to restrict services provided by the President to the other shareholder companies based on its own requirements for the President's services, at which time the fee would be adjusted accordingly. For the period ended March 31, 2008, the Company has accrued a total of \$23,874 from the other shareholder companies which has been recorded as a reduction in Administrative and management services expense. The fees will be reviewed and adjusted on a periodic basis.

All of the related party transactions and balances in these consolidated financial statements arose in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

CRITICAL ACCOUNTING ESTIMATES AND RECENT ACCOUNTING PRONOUNCEMENTS

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the period. Actual results may differ from these estimates.

Reference should be made to the Company's significant accounting policies contained in Note 3 of the Company's consolidated financial statements for the years ended December 31, 2007, 2006 and 2005. These accounting policies can have a significant impact of the financial performance and financial position of the Company.

NEW ACCOUNTING POLICIES

Effective January 1, 2008, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"):

- 5 -

(a) GENERAL STANDARDS ON FINANCIAL STATEMENT PRESENTATION

CICA Handbook Section 1400, General Standards on Financial Statement Presentation, has been amended to include requirements to assess and disclose a company's ability to continue as a going concern. The changes are effective for interim and annual financial statements beginning January 1, 2008. The adoption of this standard did not have an effect on the Company for the three months ended March 31, 2008.

(b) CAPITAL DISCLOSURES

CICA Handbook Section 1535, Capital Disclosures, establishes standards for disclosing information about the company's capital and how it is managed. Under this standard the Company will be required to disclose the following, based on the information provided internally to the company's key management personnel:

Edgar Filing: IMA EXPLORATION INC - Form 6-K

- (i) qualitative information about its objectives, policies and processes for managing capital.
- (ii) summary quantitative data about what it manages as capital.
- (iii) whether during the period it complied with any externally imposed capital requirements to which it is subject.
- (iv) when the company has not complied with such externally imposed capital requirements, the consequences of such non-compliance.

This standard is effective for interim and annual financial statements beginning on January 1, 2008. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the three months ended March 31, 2008.

(c) GOODWILL AND INTANGIBLE ASSETS

CICA Handbook Section 3064, Goodwill and Intangible Assets, establishes revised standards for recognition, measurement, presentation and disclosure of goodwill and intangible assets. Concurrent with the introduction of this standard, the CICA withdrew EIC 27, Revenues and Expenses during the preoperating period. As a result of the withdrawal of EIC 27, companies will no longer be able to defer costs and revenues incurred prior to commercial production at new mine operations. The changes are effective for interim and annual financial statements beginning January 1, 2009. The Company has not yet determined the impact of the adoption of this change on the disclosure in our financial statements.

(d) FINANCIAL INSTRUMENTS DISCLOSURES

In March 2007, the CICA issued section 3862 FINANCIAL INSTRUMENTS - DISCLOSURES and Section 3863 FINANCIAL INSTRUMENTS - PRESENTATION, which together comprise a complete set of disclosure and presentation requirements that revise and enhance current disclosure requirements. Section 3862 requires disclosure of additional detail by financial asset and liability categories. Section 3863 establishes standards for presentation of financial instruments and non-financial derivatives. The standard deals with the classification of financial instruments, from the perspective of the issuer, between liabilities and equity, the classification of related interest, dividends, losses and gains, and the circumstances in which financial assets and financial liabilities are offset. These sections are effective for interim and annual financial statements beginning January 1, 2008. The adoption of this change on the disclosure in the financial statements did not have an effect on the Company for the three months ended March 31, 2008.

In addition to the above, reference should be made to the recent accounting pronouncements in Canada and in United States that are described in Note 11 of the Company's consolidated financial statements for the years ended December 31, 2007, 2006 and 2005.

FINANCIAL INSTRUMENTS

The Company's financial instruments as at March 31, 2008 consist of cash, short-term investments, amounts receivable and deposits and accounts payable and accrued liabilities. For discussion of the valuation of these financial instruments for financial reporting purposes, refer to the Critical Accounting Estimates and Recent Accounting Pronouncements section above.

Edgar Filing: IMA EXPLORATION INC - Form 6-K

RISK FACTORS

The Company's operations and results are subject to a number of different risks at any given time. These factors, include but are not limited to litigation, disclosure regarding exploration, additional financing, project delay, titles to properties, price fluctuations and share price volatility, operating hazards, insurable risks and limitations of insurance, management, foreign country and regulatory requirements, currency fluctuations and environmental regulations risks. Exploration for mineral resources involves a high degree of risk. The cost of conducting programs may be substantial and the likelihood of success is difficult to assess. For a more complete discussion of these risks and others, reference should be made to the December 31, 2007 Management Discussion and Analysis.
