**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review .**

(a)

On March 28, 2016, the Audit Committee of the Board of Directors (the “Audit Committee”) of AmpliPhi Biosciences Corporation (the “Company”) concluded that the Company’s consolidated statements of operations for the year ended December 31, 2014, three and six months ended June 30, 2014, three and nine months ended September 30, 2014 and three months ended June 30, 2015 should no longer be relied upon due to errors in accounting for basic and diluted income (loss) per share. The errors relate to the misapplication of Accounting Standards Codification No. 260, *Earnings Per Share* (ASC No. 260), as a result of (i) the failure to consider the participating component of the Company’s Series B redeemable convertible preferred stock in computing basic income (loss) per share and (ii) the failure to make certain adjustments to diluted income (loss) per share required by the change in fair value of the liability classified warrants and the change in fair value of the Series B redeemable convertible preferred stock derivative.

The Audit Committee, in consultation with the Company’s Chief Financial Officer, has determined that the financial statements referred to above should be restated in order to give proper application to ASC No. 260. The Company anticipates including such restated financial statements within the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

The Audit Committee discussed the matters described under this Item 4.02(a) with the Company’s independent registered public accounting firm, Ernst & Young LLP.
