2012 Annual Report
October 31, 2012

Bancroft Fund Ltd. operates as a closed-end, diversified management investment company and invests primarily in convertible securities, with the objectives of providing income and the potential for capital appreciation; which objectives the Fund considers to be relatively equal, over the long-term, due to the nature of the securities in which it invests.

BANCROFT FUND LTD. 2012 ANNUAL REPORT TO SHAREHOLDERS

To Our Shareholders

November 13, 2012

We anticipated that as the U.S. economy regained its footing, convertible securities would play an important part in the capitalization of the private sector's economic growth, but this development has not occurred as we expected. Although most convertible securities participated in this year's positive equities performance, the size of the market for convertible securities has not increased this year due to redemptions. What is interesting, however, is that although the U.S. convertible securities market has seen low levels of convertible securities issuance, the European convertible securities market has had a strong increase in activity. EU companies have issued \$22 billion (vs. \$19 billion in the U.S.) of convertible securities in the first eleven months of this year, perhaps marking the beginning of Europe's emergence from recession. Although the Bancroft Fund does not generally buy non-dollar denominated convertible securities, we view this trend as a positive one as it may expand into the U.S. markets. In fact, the last three months (including November, 2012) have seen good U.S. issuance. We are currently on a pace to see 70 or more issues with a cumulative market capitalization in excess of \$20 billion in calendar year 2012.

As of October 31, 2012 Barclays Research measured the cumulative value of the 520 U.S. domestic convertible securities outstanding at \$209 billion with over 81% of this market in the form of cash-pay bonds. The average current yield is 4.2% with an average premium to conversion value of 38.5%. Bancroft Fund's holdings also have an average current yield of 4.2% and have a median premium to conversion value of 38.5%. In this very low interest rate environment we find the convertible securities market to be attractive. With an average yield of more than twice that of the S&P 500® Index, convertible securities are a higher yielding risk-managed way to add equity exposure to a portfolio.

2012 has been a difficult year for convertible fund managers. From data provided by Bloomberg, of the 14 largest convertible securities mutual funds, only four have managed to outperform the Bank of America Merrill Lynch All U.S. Convertibles Index (BAML Index) for the calendar year-to-date and trailing twelve-month periods ended October 31, 2012, when adjusted for expenses (other than transaction costs) and dilution to make performance comparable. Although the convertible securities market in general is not illiquid, transaction costs are often higher than in the equities markets. These costs appear to be part of the explanation for this underperformance.

Performance for Bancroft Fund's fourth fiscal quarter of 2012 (ended October 31) was enhanced by exposure to the Consumer Discretionary and Materials sectors. Performance was held back, however, by the Fund's exposure to the Utilities and Energy sectors. When adjusted for expenses and dilution to make performance comparable to the BAML Index, the Fund's net assets underperformed for the calendar year-to-date, one-, five-, and ten-year periods, ended October 31, 2012. The Fund's market return underperformed the BAML Index for the calendar year-to-date, one-, five-, and ten-year periods, ended October 31, 2012.

Bancroft Fund invests in convertible securities with an intention to provide total returns to shareholders that compare favorably to those provided by equity markets, but with less volatility. We therefore note that the BAML Index and the Fund's net asset value and market return were less volatile than the S&P 500® Index as measured by their 10-year standard deviations. Moreover, the BAML Index and Bancroft Fund's net asset value and market return all outperformed that common stock index over the five years ended October 31, 2012. In addition, the Bancroft Fund's annual return over the ten-year period ended October 31, 2012, when adjusted for expenses and dilution, was only 14 basis points below that of the S&P 500® Index and achieved this result with considerably lower volatility as measured by 10-year standard deviation.

To Our Shareholders (continued)

We have put an updated version of our White Paper on Convertible Securities on our website. This document is intended to provide a solid introduction to the U.S. convertible securities market.

At its November 19, 2012 meeting, the Board of Trustees of the Fund declared a distribution of \$0.195 per share, consisting of undistributed net investment income. The distribution will be payable on December 28, 2012 to shareholders of record on November 30, 2012.

In recent years the Fund's shares have been trading at a discount to the NAV of the Fund. To take advantage of this difference, we encourage shareholders to consider participating in the Fund's Dividend Reinvestment Plan. The plan reinvests the Fund's dividends at the lesser of market value or NAV (up to a 5% discount to the market price) which allows shareholders to take some of the discount and use it to add to their performance. More details are available in the Miscellaneous Notes section of this Report.

The Fund's annual meeting of shareholders will be held on February 22, 2013. Information about the location of the meeting will be included in the proxy statement, scheduled to be mailed to shareholders on December 31, 2012. All shareholders are welcome to attend, and we hope to see you there.

(a) Market value total return is calculated assuming a purchase of Fund shares on the opening of the first business day and a sale on the closing of the last business day of each period reported. Dividends and distributions are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's Automatic Dividend Investment and Cash Payment Plan. Net asset value total return is calculated on the same basis, except that the Fund's net asset value is used on the purchase and sale dates instead of market value.

BANCROFT FUND LTD. 2012 ANNUAL REPORT TO SHAREHOLDER
S

Notes to Financial Statements

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

(a) Organization - Bancroft Fund Ltd. (the "Fund"), is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company.

(b) Indemnification - Under the Fund's organizational documents, each trustee, officer or other agent of the Fund (including the Fund's investment adviser) is indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. The risk of material loss as a result of such indemnification is considered remote.

(c) Security Valuation - Investments in securities traded on a national securities exchange are valued at market using the last reported sales price, supplied by an independent pricing service, as of the close of regular trading. Listed securities, for which no sales were reported, are valued at the mean between closing reported bid and asked prices as of the close of regular trading. Unlisted securities traded in the over-the-counter market are valued using an evaluated quote provided by the independent pricing service, or, if an evaluated quote is unavailable, such securities are valued using prices received from dealers, provided that if the dealer supplies both bid and asked prices, the price to be used is the mean of the bid and asked prices. The independent pricing service derives an evaluated quote by obtaining dealer quotes, analyzing the listed markets, reviewing trade execution data and employing sensitivity analysis. Evaluated quotes may also reflect appropriate factors such as individual characteristics of the issue, communications with broker-dealers, and other market data. Securities for which quotations are not readily available, restricted securities and other assets are valued at fair value as determined in good faith pursuant to procedures approved by the Board of Trustees. Short-term debt securities with original maturities of 60 days or less are valued at amortized cost.

The Fund has adopted authoritative fair valuation accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value and a discussion in changes in valuation techniques and related inputs during the period. These inputs are summarized in the three broad levels listed below:

Level 1 - Quoted unadjusted prices for identical instruments in active markets.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuation in which all significant inputs and significant value drivers are observable in active markets. Level 2 inputs are those in markets for which there are few transactions, the prices are not current, little public information exists or instances where prices vary substantially over time or among brokered market makers, and those received from an independent pricing service.

Level 3 - Model derived valuations in which one or more significant inputs or significant value drivers are unobservable. Unobservable inputs are those inputs that reflect the Fund's own assumptions that market participants would use to price an asset or liability based on the best available information.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the

liquidity of the markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The net change in unrealized appreciation (depreciation) from Level 3 investments held as of October 31, 2012 was \$37,345 and is included in net unrealized appreciation (depreciation) of investments on the Statement of Operations. Transfers into, or out of, Level 3 are valued utilizing values as of the end of the period. Transfers into Level 3 were due to a decline in market activity (e.g., frequency of trades), which resulted in a lack of available market inputs to determine price.

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No. 2011-04 "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS)". ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity, and a narrative description of the sensitivity of the fair value measurement to changes in observable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require

reporting to entities to make disclosures about amounts and reasons for all transfers in an out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU 2011-04 and its impact on the financial statements.

In December 2011, FASB issued ASU No. 2011-11 related to disclosures about offsetting assets and liabilities. The amendments in this ASU require an entity to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The ASU is effective for annual reporting periods beginning on or after January 1, 2013, and interim periods within those annual periods. The guidance requires retrospective application for all comparative periods presented. The Fund is currently evaluating the impact ASU 2011-11 will have on the financial statement disclosures.

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) Federal Income Taxes - The Fund's policy is to distribute substantially all of its taxable income within the prescribed time and to otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income or excise taxes is believed necessary.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by taxing authorities. Management of the Fund has analyzed the Fund's tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2009-2011), or expected to be taken in the Fund's 2012 tax returns. The major tax authority for the Fund is the Internal Revenue Service. The Fund is not aware of any tax positions for which it is reasonably likely that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

(e) Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed) with gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis, including accretion of discounts and amortization of non-equity premium. For certain securities, known as "contingent payment debt instruments," Federal tax regulations require the Fund to record non-cash, "contingent" interest income in addition to interest income actually received. Contingent interest income amounted to approximately twelve cents per share for the twelve months ended October 31, 2012.

(f) Distributions to Shareholders - Distributions to shareholders from net investment income are recorded by the Fund on the ex-dividend date. Distributions from capital gains, if any, are recorded on the ex-dividend date and paid annually.

The amount and character of income and capital gains to be distributed are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. The tax character of distributions paid during the fiscal years ended October 31, 2012 and 2011 were as follows:

	2012	2011
Ordinary income	\$ 2,902,318	\$ 3,173,778
Net realized gain on investments	—	—
	\$ 2,902,318	\$ 3,173,778

At October 31, 2012, the components of distributable earnings and federal tax cost were as follows:

Unrealized appreciation	\$9,484,190
Unrealized depreciation	(5,693,367)
Net unrealized appreciation	3,790,823
Undistributed ordinary income	1,207,613
Capital loss carryforward	(13,470,705)
Other losses	—
Total distributable net earnings	(8,472,269)

Cost for federal income tax purposes \$90,568,349

The differences between book-basis and tax-basis unrealized appreciation/depreciation is attributable to differing methods of recognizing interest and ordinary income on bonds for tax purposes.

To the extent the Fund's net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. As determined at October 31, 2012, the Fund had unused capital loss carryforwards of \$11,039,355 which expire in 2017, and \$778,411 short-term losses and \$1,652,939 long-term losses with no expiration date, available for federal income tax purposes to offset net realized capital gains.

Notes to Financial Statements (continued)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Regulated Investment Company Modernization Act - On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Modernization Act) was signed into law. The Modernization Act modernizes several of the federal income and excise tax provisions related to regulated investment companies ("RICs").

New capital losses may now be carried forward indefinitely, and retain the character of the original loss. Under pre-enactment law, capital losses could be carried forward for eight years, and carried forward as short-term capital losses, irrespective of the character of the original loss. As a transition rule, the Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

(h) Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(i) Market Risk - It is the Fund's policy to invest at least 65% of its assets in convertible securities. Although convertible securities do derive part of their value from that of the securities into which they are convertible, they are not considered derivative financial instruments. However, the Fund's mandatory convertible securities include features which render them more sensitive to price changes of their underlying securities. Thus they expose the Fund to greater downside risk than traditional convertible securities, but generally less than that of the underlying common stock. The market value of those securities was \$13,034,555 at October 31, 2012, representing 12.7% of net assets.

(j) Reclassification of Capital Accounts - Accounting principles generally accepted in the United States require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. At October 31, 2012 the Fund increased net investment income loss by \$58,384 and decreased accumulated net realized loss on investments by \$58,384.

NOTE 2 - MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment advisory agreement with Dinsmore Capital Management Co. ("Dinsmore Capital"). Pursuant to the investment advisory agreement, Dinsmore Capital provides the Fund with investment advice, office space and facilities. Under the terms of the investment advisory agreement, the Fund pays Dinsmore Capital on the last day of each month an advisory fee for such month computed at an annual rate of 0.75% of the first \$100,000,000 and 0.50% of the excess over \$100,000,000 of the Fund's net asset value in such month.

The Fund, pursuant to an administrative services agreement with Dinsmore Capital, has agreed to pay Dinsmore Capital for certain accounting and other administrative services provided to the Fund. Under the administrative services agreement, the Fund pays Dinsmore Capital on the last day of each month a fee for such month computed at an annual rate of 0.05% of the Fund's net asset value in such month.

Certain officers and trustees of the Fund are officers and directors of Dinsmore Capital.

NOTE 3 - PORTFOLIO ACTIVITY

At October 31, 2012, there were 5,341,852 shares of beneficial interest outstanding, with a par value of \$0.01 per share. During the twelve months ended October 31, 2012, 26,342 shares were issued in connection with reinvestment of dividends from net investment income, resulting in an increase in paid-in capital of \$403,568. Purchases and sales of investments, exclusive of corporate short-term notes, aggregated \$41,112,376 and \$45,026,880, respectively, for the twelve months ended October 31, 2012.

NOTE 4 - SUBSEQUENT EVENTS

In preparing the financial statements as of October 31, 2012, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements.

S

Report of Independent Registered
Public Accounting Firm

To the Shareholders and Board of Trustees of
Bancroft Fund Ltd.

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments of Bancroft Fund Ltd. (the "Fund") as of October 31, 2012, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2012, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Bancroft Fund Ltd. as of October 31, 2012, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Miscellaneous Notes (unaudited)

Automatic Dividend Investment and Cash Payment Plan

The Fund has an Automatic Dividend Investment and Cash Payment Plan (the “Plan”). Any shareholder may elect to join the Plan by sending an application to American Stock Transfer & Trust Company, P.O. Box 922, Wall Street Station, New York, NY 10269-0560 (the “Plan Agent”). You may also obtain information about the Plan, as well as the Plan application, by calling the Plan Agent toll free at (877) 208-9514. If your shares are held by a broker or other nominee, you should instruct the nominee to join the Plan on your behalf. Some brokers may require that your shares be taken out of the broker’s “street name” and re-registered in your own name. Shareholders should also contact their broker to determine whether shares acquired through participation in the Plan can be transferred to another broker and thereafter, whether the shareholder can continue to participate in the Plan.

Under the Plan, all dividends and distributions are automatically invested in additional Fund shares. Depending on the circumstances, shares may either be issued by the Fund or acquired through open market purchases at the current market price or net asset value, whichever is lower (but not less than 95% of market price). For shareholder distributions made with respect to income earned during each of the first three fiscal quarters, when the market price of a share of Fund beneficial shares is lower than such share’s net asset value, the Plan Agent will combine the distributions of all Plan participants and purchase shares in the open market, thereby taking advantage of the lower commissions on larger purchases. There is no other charge for this service. For shareholder distributions made with respect to capital gains realized during the fiscal year and income earned during the fourth fiscal quarter, when the market price of a share of Fund shares is lower than such share’s net asset value, the Fund will issue shares at the market price.

All dividends and distributions made by the Fund (including capital gain dividends and dividends designated as qualified dividend income, which are eligible for taxation at lower rates) remain taxable to Plan participants, regardless of whether such dividends and distributions are reinvested in additional shares of the Fund through open market purchases or through the issuance of new shares. Plan participants will be treated as receiving the cash used to purchase shares on the open market and, in the case of any dividend or distribution made in the form of newly issued shares, will be treated as receiving an amount equal to the fair market value of such shares as of the reinvestment date. Accordingly, a shareholder may incur a tax liability even though such shareholder has not received a cash distribution with which to pay the tax.

Plan participants may also voluntarily send cash payments of \$100 to \$10,000 per month to the Plan Agent, to be combined with other Plan monies, for purchase of additional Fund shares in the open market. You pay only a bank service charge of \$1.25 per transaction, plus your proportionate share of the brokerage commission. All shares and fractional shares purchased will be held by the Plan Agent in your dividend reinvestment account. You may deposit with the Plan Agent any Fund share certificates you hold, for a one-time fee of \$7.50.

At any time, a Plan participant may instruct the Plan Agent to liquidate all or any portion of such Plan participant’s account. To do so, a Plan participant must deliver written notice to the Plan Agent prior to the record date of any dividend or distribution requesting either liquidation or a share certificate. The Plan Agent will combine all liquidation requests it receives from Plan participants on a particular day and will then sell shares of the Fund that are subject to liquidation requests in the open market. The amount of proceeds a Plan participant will receive shall be determined by the average sales price per share, after deducting brokerage commissions, of all shares sold by the Plan Agent for all Plan participants who have given the Plan Agent liquidation requests.

The Plan Agent or the Fund may terminate the Plan for any reason at any time by sending written notice addressed to the Plan participant's address as shown on the Plan Agent's records. Following the date of termination, the Plan Agent shall send the Plan participant either the proceeds of liquidation, or a share certificate or certificates for the full shares held by the Plan Agent in the Plan participant's account. Additionally, a check will be sent for the value of any fractional interest in the Plan participant's account based on the market price of the Fund's shares on that date.

Audit Committee Pre-Approval Policies and Procedures

The Audit Committee pre-approves all audit and permissible non-audit services that are proposed to be provided to the Fund by its independent registered public accountant before they are provided to the Fund. Such pre-approval also includes the proposed fees to be charged by the independent registered public accountant for such services. The Audit Committee may delegate the pre-approval of audit and permissible non-audit services and related fees to one or more members of the Audit Committee who are independent, as such term is used in Form N-CSR. Any such member's decision to pre-approve audit and/or non-audit services and related fees is presented to the full Audit Committee, solely for informational purposes, at its next scheduled meeting.

The Audit Committee also pre-approves non-audit services to be provided by the Fund's independent registered public accountant to the Fund's investment adviser if the engagement relates directly to the operations and financial reporting of the Fund and if the Fund's independent registered public accountant is the same as, or affiliated with, the investment adviser's independent registered public accountant.

Bancroft Fund Ltd.

Ellsworth Fund Ltd.

Dinsmore Capital Management Co.

Proxy Voting Guidelines

(Amended July 19, 2012)

These proxy voting guidelines have been adopted by the Boards of Trustees of Bancroft Fund Ltd. and Ellsworth Fund Ltd. (collectively, the Funds), as well as by the Board of Directors of Dinsmore Capital Management Co. (Dinsmore).

The Boards of Trustees of the Funds have delegated to Dinsmore responsibility for voting proxies received by the Funds in their capacities as shareholders of various companies. The Boards recognize that, due to the nature of the Funds investments, the Funds do not receive proxies on many of their holdings.

Dinsmore exercises its voting responsibility with the overall goal of maximizing the value of the Funds investments. The portfolio managers at Dinsmore oversee the voting policies and decisions for the Funds. In evaluating voting issues, the portfolio managers may consider information from many sources, including management of a company presenting a proposal, shareholder groups, research analysts, and independent proxy research services.

Set forth below are the proxy voting guidelines:

A.

Matters Related to the Board of Directors

1.

The Funds generally will support the election of nominees recommended by management for election as directors. In determining whether to support a particular nominee, Dinsmore will consider whether the election of such nominee will cause the board of directors of such nominee s company to have less than a majority of independent directors.

2.

The Funds generally will support proposals to de-classify boards of directors if fewer than 66 2/3% of the directors are independent, and will generally vote against proposals to classify boards of directors.

3.

The Funds generally will withhold a vote in favor of a director who has served on a committee which has approved excessive compensation arrangements or proposed equity-based compensation plans that unduly dilute the ownership interests of stockholders.

B.

Matters Related to Independent Auditors

1.

The Funds generally will vote in favor of independent accountants approved by an issuer. Prior to such vote, however, Dinsmore will take into consideration whether non-audit fees make up more than 50 to 75% of the total fees paid by such issuer to the independent auditors, and the nature of the non-audit services provided.

C.

Corporate Governance Matters

1.

Except as provided in Section E.1, as a general rule, the Funds will vote against proposals recommended by management of a company that are being made primarily to implement anti-takeover measures, and will vote in favor of proposals to eliminate policies that are primarily intended to act as anti-takeover measures.

2.

Subject to the other provisions of these guidelines, including without limitation provision C.1. above, the Funds generally will vote in accordance with management's recommendations regarding routine matters, including the following:

a.

Fixing number of directors;

b.

Stock splits; and

c.

Change of state of incorporation for specific corporate purposes.

D.

Matters Related to Equity-Based Compensation Plans

1.

The Fund generally will vote in favor of broad-based stock option plans for executives, employees or directors which would not increase the aggregate number of shares of stock available for grant under all currently active plans to over 10% of the total number of shares outstanding.

2.

The Funds generally will vote in favor of employee stock purchase plans and employee stock ownership plans permitting purchase of company stock at 85% or more of fair market value.

E.

Other Matters

1.

Contested situations will be evaluated on a case by case basis by the portfolio manager or analyst at Dinsmore principally responsible for the particular portfolio security.

2.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

(a) (1) As of January 10, 2013, Mr. Thomas H. Dinsmore, Chairman and Chief Executive Officer, Ms. Jane D. O'Keeffe, President, and Mr. James A. Dinsmore, Vice President, comprise the three-person portfolio management team of the Fund. Mr. Thomas H. Dinsmore has served as portfolio manager since 1996. Ms. O'Keeffe and Mr. James Dinsmore became co-portfolio managers on January 1, 2011. Mr. Thomas H. Dinsmore is the lead member of the portfolio management team.

Since 1994, Ms. O'Keeffe has served as President of the Fund and of Dinsmore Capital (the Adviser), as well as Managing Director of Research for the Adviser. Mr. James A. Dinsmore has served as Vice President of the Fund and

of the Advisor since 2007 and also has been a research analyst for the Advisor since 2004.

Messrs. Thomas H. Dinsmore and James A. Dinsmore and Ms. O'Keefe receive investment recommendations from a team of research analysts prior to making investment decisions about transactions in the portfolio. Generally, the co-portfolio managers make decisions jointly about any transactions in the Fund's portfolio, but each co-portfolio manager may do so independently as well.

(2) The portfolio management team comprised of Mr. Thomas H. Dinsmore, Ms. Jane D. O'Keefe and Mr. James A. Dinsmore is also primarily responsible for the day-to-day management of one registered investment company, Ellsworth Fund Ltd. (Ellsworth), with total assets of \$103,883,255 as of December 31, 2012. The portfolio management team does not manage any accounts or assets with performance-based advisory fees. Mr. Thomas Dinsmore is Chairman and Chief Executive Officer, Ms. O'Keefe is President and Mr. James Dinsmore is Vice President of Ellsworth. This information is as of January 10, 2013. The Fund and Ellsworth have similar investment objectives and strategies. As a result, material conflicts of interest may arise between the two funds if a security is not available in a sufficient amount to fill open

orders for both funds. To deal with these situations, the investment adviser for the Fund and Ellsworth has adopted Trade Allocation Procedures (the Allocation Procedures). The Allocation Procedures set forth a method to allocate a partially filled order among the funds. Pursuant to the method, the amount of shares that each fund purchases is allocated *pro rata* based on the dollar amount of each fund's intended trade or, if the order is subject to a minimum lot size, as closely as possible to such an allocation.

The Allocation Procedures permit Dinsmore Capital to allocate an order in a way that is different from the method set forth above if (i) each fund is treated fairly and equitably and neither fund is given preferential treatment, and (ii) the allocation is reviewed by the chief compliance officer of Dinsmore Capital.

(3) This information is as of January 10, 2013. The Portfolio Management team is compensated by Dinsmore Capital through a three-component plan, consisting of a fixed base salary, annual cash bonus, and benefit retirement plan. Their compensation is reviewed and approved by Dinsmore Capital's Board of Directors annually. Their compensation may be adjusted from year to year based on the perception of Dinsmore Capital's Board of Directors of the team's overall performance and their management responsibilities. Their compensation is not based on (i) a formula specifically tied to the performance of the Fund or Ellsworth, including performance against an index or (ii) the value of assets held in the Fund's portfolio.

(4) As of January 10, 2013, Mr. Thomas Dinsmore's beneficial ownership in the Fund's shares was in the range of

\$100,001-\$500,000. Ms. O'Keefe's beneficial ownership in the Fund's shares was also in the range of \$100,001-\$500,000. Mr. James Dinsmore's beneficial ownership in the Fund's shares was in the range of \$50,001-\$100,000.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

During the period covered by this report, there were no purchases made by or on behalf of the Fund or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Exchange Act (17 CFR 240.10b-18(a)(3)), of shares or other units of any class of the Fund's equity securities registered by the Fund pursuant to Section 12 of the Exchange Act (15 U.S.C. 781).

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the Fund's Board of Trustees since those procedures were last disclosed in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by Item 22(b)(15) of Schedule 14A (17 CFR 240.14a-101)), or Item 10 of this Form N-CSR.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning the effectiveness of controls and procedures:

(a) As of December 7, 2012, an evaluation was performed under the supervision and with the participation of the officers of the Fund, including the PEO and the PFO, to assess the effectiveness of the Fund's disclosure controls and procedures, as that term is defined in Rule 30a-3(c) (17 CFR 270.30a-3(c)) under the Investment Company Act of 1940, as amended (the Act). Based on that evaluation, as required by Rule 30a-3(b) under the Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act (17 CFR 240.13a-15(b) or 240.15d-15(b)), the Fund's officers, including the PEO and PFO, concluded that, as of December 7, 2012, the Fund's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Fund on Form N-CSR is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and (2) that material information relating to the Fund is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no changes in the Fund's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period

covered by this report that has materially affected, or is reasonably likely to materially affect, the Fund's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a)(1) Not applicable. See the Fund's response to Item 2, above.

(a)(2) Certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), are attached hereto.

(a)(3) There were no written solicitations to purchase securities under Rule 23c-1 under the Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the Fund to ten or more persons.

(b) Certifications of the principal executive officer and the principal financial officer, as required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) are attached hereto.
