Item 7.01 Regulation FD Disclosure.

On April 13, 2015, J. C. Penney Company, Inc. (the "Company") became aware that a senior official of the Company inadvertently sent an e-mail communication to a securities analyst that contained non-public information regarding the Company's comparable store sales results for the fiscal first quarter of 2015 to date, which are approximately 6 percent. Based on results to date, and taking into account the shift of Easter into the fiscal month of March this year, the Company currently expects comparable store sales for the first quarter to be in the range of 3.5 to 4.5 percent.

This Current Report on Form 8-K (this "Report") is being furnished solely to satisfy the Company's obligations under Regulation FD in light of the inadvertent disclosure.

Cautionary Statement Regarding Forward-Looking Information

This Report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which reflect our current view of future events and financial performance. Words such as "expect" and similar expressions identify forward-looking statements, which include, but are not limited to, statements regarding sales trends. Forward-looking statements are based only on the Company's current assumptions and views of future events and financial performance. They are subject to known and unknown risks and uncertainties, many of which are outside of the Company's control, that may cause the Company's actual results to be materially different from planned or expected results. Those risks and uncertainties include, but are not limited to, general economic conditions, including inflation, recession, unemployment levels, consumer confidence and spending patterns, credit availability and debt levels, changes in store traffic trends, the cost of goods, more stringent or costly payment terms and/or the decision by a significant number of vendors not to sell us merchandise on a timely basis or at all, trade restrictions, the ability to monetize non-core assets on acceptable terms, the ability to implement our strategic plan, customer acceptance of our strategies, our ability to attract, motivate and retain key executives and other associates, the impact of cost reduction initiatives, our ability to generate or maintain liquidity, implementation of new systems and platforms, changes in tariff, freight and shipping rates, changes in the cost of fuel and other energy and transportation costs, disruptions and congestion at ports through which we import goods, increases in wage and benefit costs, competition and retail industry consolidations, interest rate fluctuations, dollar and other currency valuations, the impact of weather conditions, risks associated with war, an act of terrorism or pandemic, the ability of the federal government to fund and conduct its operations, a systems failure and/or security breach that results in the theft, transfer or unauthorized disclosure of customer, employee or Company information, legal and regulatory proceedings and the Company's ability to access the debt or equity markets on favorable terms or at all. There can be no assurances that the Company will achieve expected results, and actual results may be materially less than expectations. While we believe that our assumptions are reasonable, we caution that it is impossible to predict the degree to which any such factors could cause actual results to differ materially from predicted results. Please refer to the Company's most recent Form 10-K and subsequent filings for a further discussion of risks and uncertainties. Investors should take such risks into account and should not rely on forward-looking statements when making investment decisions. We intend the forward-looking statements in this Report to speak only as of the date of this Report and do not undertake to update these forward-looking statements as more information becomes available.
