### **Company Press Release**

# NOVA ANNOUNCES 11% REVENUE INCREASE, POSITIVE CASH FLOW IN Q3 2007

Strong Bookings and Backlog; R&D Consolidation to Improve Cost Structure

**Rehovot, Israel November 6, 2007 Nova Measuring Instruments Ltd. (Nasdaq: NVMI)**, provider of leading edge stand alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, today reported its results for the third quarter of 2007.

Total revenues increased 11% to \$13.9 million, compared to \$12.5 million reported for the third quarter of 2006. Revenues decreased sequentially from \$14.8 million reported for the second quarter of 2007.

During the third quarter, the company signed an agreement to license a few of its patents. Revenues in the third quarter included \$0.8 million from IP license payments, net of legal fees and expenses.

Gross margin for the third quarter of 2007 was 38%, including a \$0.3 million inventory write-off related to the Hypernex acquisition. Excluding the inventory write-off, gross margin in third quarter was 41%, the same as the comparable period a year ago, and compared with 46% for the second quarter of 2007. Gross margin declined sequentially mainly due to a less favorable product mix and costs associated with recent penetrations into new customers.

Operating expenses in the third quarter of 2007 were \$9.2 million, including a non-cash impairment charge of \$3.8 million related to the assets and liabilities acquired in the Hypernex transaction. Excluding the impairment charge, operating expenses were \$5.4 million for the third quarter of 2007, compared with \$6.0 million in the third quarter of 2006, and \$5.9 million in the second quarter of 2007. The Company has also closed its research and development facility in State College, Pennsylvania, which was part of the Hypernex acquisition, following the integration of the activities to its headquarters in Israel. This move is expected to result in cost savings of \$1.5 million in 2008.

The company reported a \$3.7 million net loss in the third quarter of 2007, or (\$0.19) per share, which included \$4.1 million in non-cash charges for inventory write-off and impairment charges.

Net income excluding non-cash charges, was approximately \$0.5 million, or \$0.02 per diluted share for the third quarter of 2007, compared with a net loss of \$0.8 million, or (\$0.05) per share for the third quarter of 2006, and compared with a net income of \$1.1 million, or \$0.05 per diluted share for the second quarter of 2007.

Cash reserves at the end of the third quarter of 2007 were \$20.5 million, an increase of \$0.1 million compared to the end of second quarter of 2007.

Business conditions in third quarter were in line with our expectations and our team continued to execute to our plan, with a significant sequential increase in bookings and a strong backlog, said Gabi Seligsohn, President and CEO. Excluding the one-time non-cash charges, we reported our second consecutive profitable quarter and with positive cash flow.

The strength in bookings is related to our continued market share gains in integrated metrology and our continued penetrations into the Optical CD stand-alone segment , continued Seligsohn. While we continue to believe x-ray metrology has good long term prospects, the sales cycle is extremely long and we considered it prudent to appropriately reflect the current asset value of the Hypernex acquisition on our balance sheet and improve our cost structure by transferring the R&D activities to our headquarters in Israel. Meanwhile, based on the momentum in stand-alone and integrated metrology, we expect a strong finish to the year and another growth year in 2008.

The Company will host a conference call today, November 6, 2007, at 9:00am EST. To participate please dial in the U.S: 1-888-642-5032; UK: 0-800-032-3367; or internationally: +972-3-918-0687 at least 5 minutes before the start of the call. A recording of the call will be available on Nova s website, within 24 hours following the end of the call.

This press release provides financial measures that excludes non-cash charges for inventory write-off and impairment charges and are therefore not calculated in accordance with generally accepted accounting principals (GAAP). Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Nova s performance because they reflect our operational results and enhances management s and investors ability to evaluate Nova s performance before charges that will not recur in the future periods and thus are considered by management to be outside Nova s ongoing operating results.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management believes that it is in the best interest of its investors to provide financial information that will facilitate comparison of both historical and future results and allows greater transparency to supplemental information used by management in its financial and operational decision making.

### **About Nova**

Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company s website is www.nova.co.il.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward-looking statements. These risks and other factors include but are not limited to: our dependency on a single integrated process control product line; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; risks associated with our dependence on a single manufacturing facility; our ability to expand our manufacturing capacity or marketing efforts to support our future growth; our dependency on a small number of large customers and small number of suppliers; risks related to our intellectual property; changes in customer demands for our products; new product offerings from our competitors; changes in or an inability to execute our business strategy; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading Risk Factors in Nova s Annual Report on Form 20-F for the year ended December 31, 2006 filed with the Securities and Exchange Commission on May 11, 2007. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
