  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 2.05. Costs Associated with Exit or Disposal Activities**

On January 5, 2009, Speedemissions, Inc. (the "Company"), closed 4 vehicle emissions testing and safety inspection stations located within Sears Auto Centers in the Dallas-Ft. Worth, Texas trade area. The Company had previously announced the closing of 8 similar stores on July 18, 2008. Each of the twelve stores had been operating less than 13 months.

Based on the Company's analysis of 2008 test volumes at each of the 4 stores closed, the Company believes they will not generate enough test volume over time to produce a reasonable expectation of positive cash flow. The decision is a result of a comprehensive evaluation of the Company's station portfolio, further continuing the Company's initiatives to achieve profitability.

The Company expects to reposition all of its equipment used at these 4 locations to existing Company stores in other markets and no asset impairment charge is expected. The total costs of repositioning equipment, severance, reimbursement to Sears Auto Centers for the cost of the initial site preparation and other closing costs for these 4 stores is expected to be less than \$30,000. The 12 closed stores combined had revenues of approximately \$243,000 and an operating loss of approximately \$333,000 during the twelve month period ended December 31, 2008.

The Company continues to operate 39 vehicle emissions testing and safety inspection stations and 4 mobile testing units in the Atlanta, Georgia; Houston, Texas; Salt Lake City, Utah; and St. Louis, Missouri markets.
