Option Grants in Fiscal 2003

The following table reflects the stock options granted by the Company under its 2001 Incentive Plan to the named executive officers for the year ended December 31, 2003.

The potential realizable value amounts in the last two columns of the following table represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. These gains are based on assumed rates of stock appreciation of 5% and 10%, compounded annually from the date the respective options were granted to their expiration date. The gains shown are net of the option exercise price, but do not include deductions for taxes or other expenses associated with the exercise. Actual gains, if any, on stock option exercises will depend on the future performance of our Common Stock, the optionholders' continued employment through the option period, and the date on which the options are exercised.

Employment Agreements

Steven M. Rauscher, President and Chief Executive Officer, has an employment agreement with the Company, which commenced on October 26, 2000. Mr. Rauscher's current base salary is \$384,300 per year. The agreement entitles Mr. Rauscher to receive an annual incentive of 0-40% of his base salary based on the Company's achievement of enhanced share value and certain operating and financial goals to be determined by the Board of Directors. Upon hiring, Mr. Rauscher received 24,000 shares of the Company's Common Stock that will vest in four equal annual installments of 6,000 shares on the anniversary of Mr. Rauscher's employment. These shares are subject to forfeiture to the Company in the event Mr. Rauscher's employment with the Company terminates under certain circumstances. On March 28, 2001, the Company loaned Mr. Rauscher \$163,000 to allow him to pay income tax liabilities associated with the grant of the 24,000 restricted shares. The loan bears interest at 4% per year and is payable in full on December 31, 2004 and may be extended to December 31, 2006 at the option of Mr. Rauscher, subject to certain conditions. The principal amount of the loan is non-recourse as it is secured only by the 24,000 shares of restricted stock, while the interest component of the loan is full recourse. In addition, Mr. Rauscher was awarded stock options to purchase 300,000 shares of Common Stock at an exercise price of \$14.44 per share, the fair market value of the Common Stock on the date of grant. These options will vest in four equal annual installments on the anniversary of employment. Mr. Rauscher was also awarded options to purchase 240,000 shares of Common Stock at an exercise price of \$14.44 per share, the fair market value of the Common Stock on the date of grant, which options also vest in four equal annual installments on the anniversary of his commencement of employment, but which can immediately vest in cumulative increments of 45,000, 45,000, 50,000 and 100,000 shares if the stock price closes at \$35, \$45, \$55 and \$60, respectively, for 10 of 20 consecutive trading days.

In the event that Mr. Rauscher's employment is terminated by the Company for reasons other than for cause, or terminates with good reason (as defined), the agreement provides for the continuation of all compensation and

In addition, upon hiring, Mr. Williams received a signing bonus in the form of options to purchase 3,646 shares of the Company's Common Stock, of which 1,823 shares vested on the date of grant and the remaining 1,823 shares vested 12 months from the date of Mr. Williams' commencement of employment. These options have an exercise price of \$3.53 per share, which equals 30% of the fair market value of the Common Stock on the date of grant. Mr. Williams also received options to purchase 100,000 shares of Common Stock that will vest in four equal annual installments on the anniversary of the commencement of his employment, but 50,000 of these shares may vest on an accelerated basis, subject to Stock Option and Compensation Committee approval, upon the attainment of certain goals. The exercise price for these options is \$11.76 per share, the fair market value of the Common Stock on the date of grant.

In the event that Mr. Williams' employment is terminated by the Company for reasons other than for cause (as defined), the agreement provides for the continuation of all compensation and benefits for a period up to 9 months, or until such time as he is re-employed in a comparable position, whichever occurs first. In addition, if the Company elects to enforce the non-compete provision of the Company's IP Policy against Mr. Williams for a period up to 12 months, Mr. Williams' salary and benefits will continue for the period during which such non-compete provision is enforced, subject to off-set for any severance benefits provided under the prior sentence. Also, if, within 1 year following a change of control of the Company, Mr. Williams' employment is terminated other than for cause, or he experiences a material reduction in responsibilities or compensation at the surviving company, or he is required to relocate out of the greater Boston area, he will receive salary and benefits continuation for a period of 12 months. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On November 17, 2003, the Company entered into a merger agreement with GeneSoft Pharmaceuticals, Inc. The merger was consummated on February 6, 2004. Messrs. Singer, Loucks, Evnin and Rutter, all of whom are nominees for election to the Company's Board of Directors, served as directors of Genesoft during the course of the negotiations of the merger agreement and through the closing of the transaction. Mr. Singer also served as Chief Executive Officer and Chairman of Genesoft during this period. Immediately following the execution of the merger agreement, the Company loaned \$6.2 million to Genesoft to fund its operations prior to closing. In addition, pursuant to the terms of the merger agreement, the Company is providing a directors' and officers' liability insurance policy that covers the acts and omissions of these nominees in their capacities as directors and officers of Genesoft for a period of 6 years from the closing date of the merger.

As a result of their ownership of Genesoft stock, options and convertible notes, these nominees received beneficial ownership of shares of Genome common stock in the merger. The amounts of their beneficial ownership are set forth in Security Ownership of Certain Beneficial Owners and Management above.

Pursuant to the terms of the merger, each of Mr. Singer, Mr. Rutter (including trusts and family members of Mr. Rutter) and certain investment funds affiliated with Dr. Evnin and MPM Capital Management exchanged their promissory notes of Genesoft for a like principal amount of 5% convertible promissory notes of the Company due in February 2009, and they received payment of accrued interest and related amounts on their Genesoft notes in shares of Company common stock as reflected in Security Ownership of Certain Beneficial Owners and Management above. These Company notes are convertible into Company common stock at any time prior to maturity at the option of the holder at a price of \$6.6418 per share, subject to adjustment for stock splits, stock dividends and similar events. In addition, following the one year anniversary of the closing of the merger, the Company will have a right to compel the conversion of the Company notes if the closing sale price of the Company's common stock is greater than 150% of the then effective conversion price for 15 consecutive trading days. Mr. Singer holds \$100,000 of these Company notes, Mr. Rutter (including trusts and family members of Mr. Rutter) holds \$1,300,000 of these Company notes and investment funds affiliated with Dr. Evnin and MPM Capital Management hold \$5,750,000 of these Company notes.

Under the terms of Mr. Singer's agreements with Genesoft, due to the fact that he would not be an employee of the Company following the merger, Genesoft paid him a cash severance payment of \$472,500 immediately prior to the closing of the merger. In addition, options held by Mr. Singer to purchase approximately 709,000 shares of Genesoft common stock became vested and exercisable upon the closing of the merger.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors (the "Compensation Committee") of the Company for the last fiscal year consisted of Lawrence Levy, Marc B. Garnick, and Norbert G. Riedel, Committee Chairperson. Mr. Levy and Dr. Garnick ceased to serve on the Company's Board of Directors effective as of the closing of the merger with Genesoft on February 6, 2004. Mr. Loucks now serves on this committee with Mr. Riedel continuing as Chairperson. The Compensation Committee's responsibilities include, but are not limited to, reviewing and setting goals for executive officer compensation, making recommendations to the Board regarding Board compensation, making recommendations to the Board regarding new employee incentive compensation plans and performing annual review of major employee benefit plans.

Compensation Philosophy and Goals

The Company's goal is to attract, retain, motivate, and reward its employees through the use of competitive compensation programs and policies, while aligning employee interests more closely with that of the Company and its shareholders. The Company's compensation philosophy is influenced by competitive dynamics and labor conditions as well as the financial position of the Company. With respect to the retention of management, the Company seeks to retain and reward the highest caliber management team by offering total-compensation solutions, which are comparable to those offered by its competitors, and promote performance-based compensation. To align the interests of employees more closely with those of the shareholders, the Company promotes equity based employee reward and recognition plans.

Executive Officer Compensation Program

The compensation of the executive officers of the Company consists of a combination of salary, performance bonuses, stock options, contributions to or accruals for benefit plans, and participation in various other plans, such as the Company's 401(k) plan, as well as the provision of medical and other personal benefits typically offered to all employees. The Compensation Committee reviews the Company's executive compensation plans annually to ensure that total compensation plans and key elements therein are competitive with prevailing industry benchmark data of similar size companies and positions of comparable scope of responsibility. As part of the annual review process, the Committee considers recommendations presented by the Chief Executive Officer and considers achievement of predetermined performance goals for the preceding fiscal year and overall leadership and management performance for each executive prior to approval of executive compensation plans.

Base Salary

The Compensation Committee reviews base salary levels for the Company's executive officers on an annual basis. In accordance with the Company's pay philosophy, base salaries are set competitively relative to the compensation of executive officers of similar size companies in the same industry, and who have comparable levels of responsibility, experience, and expected level of contribution to company performance.

Annual Performance Bonuses

Under the Company's Management Incentive Plan, executives are eligible to receive a percentage of annual base salary in incentive pay based on attainment of performance goals as approved by the Compensation Committee. These goals fall into three primary categories: attainment of certain financial targets, business/scientific achievement, and development/management of the Company's human capital. In addition, these goals

are weighted to reflect the importance and level of impact to the Company. Incentive bonuses are paid in cash and stock options of equivalent cash value at date of grant that vest over a defined period of time.

Long-term Incentive Compensation

The Compensation Committee believes that the granting of new hire and annual stock options aligns executive officers' interests with those of the shareholders. Long-term incentive compensation, in the form of stock options, directly provides the executive officers a capital accumulation opportunity directly linked to Company and individual performance as measured by appreciation in the value of the Company stock, while also promoting retention and competitive pay practices. Stock options are granted in accordance with prevailing industry benchmark data for executives of similar size companies who hold positions of comparable scope of responsibility and in accordance with Company and overall individual performance.

Compensation Of Chief Executive Officer

The compensation of Steven M. Rauscher, the Company's Chief Executive Officer, was determined using the methods described above. Mr. Rauscher's salary for fiscal year 2003 was \$384,300. Mr. Rauscher received an annual incentive bonus of \$76,860 for fiscal 2003, payable 50% in cash and 50% in the form of options to purchase 17,089 shares of the Company's Common Stock at an exercise price of \$1.93 per share, which options vested as to half the shares upon grant and which vest as to the other half of the shares upon the first anniversary of the grant date. As a long-term incentive designed to retain and motivate Mr. Rauscher, he was granted options to purchase 37,500 shares which vest in four equal annual installments commencing on the date of the grant. These option grants have an exercise price equal to the fair market value of the Company's Common Stock on the date of grant.

Nominating Process

The Board of Directors of the Company currently carries out the nominating process for the Company. In light of the Company's recent merger with Genesoft and the addition of four new directors to the Board, the Company is in the process of reviewing and completing its committee

Edgar Filing: GENOME THERAPEUTICS CORP - Form PRE 14A

structure. The Company intends to establish a nominating committee composed of independent members within the meaning of Rule 4200 of the Nasdaq listing standards within the next several months. A majority of the members of the Board are independent within the meaning of Rule 4200 of the Nasdaq listing standards (as currently in effect and as will become effective on the date of the Company's annual meeting of stockholders).

The Board currently fulfills the following functions, which will be assumed by the nominating committee upon its establishment:

identifying and evaluating individuals qualified to become members of the Board; and

recommending nominees for the annual meeting of shareholders.

The Board will consider director candidates recommended by the Company's stockholders. Recommendations with regard to nominees for election to the Board of Directors may be submitted by any stockholder entitled to vote for the election of directors in writing, received by the Clerk of the Company at least 120 days prior to the date on which the Company first mailed its proxy materials for the prior year's annual meeting of stockholders, or, if the Company did not have an annual meeting of stockholders in the prior year, 90 days prior to the date of the annual meeting. Each notice of nomination must set forth (i) the name, age, business address and, if known, residence address of each nominee, (ii) the principal occupation or employment of each such nominee, and (iii) the number of shares of common stock of the Company which are beneficially owned by each such nominee. All such notices should be sent to: Genome Therapeutics Corp., 100 Beaver Street, Waltham, MA 02453, Attn: Clerk.

The Board has established certain minimum qualifications for board members, including:

the ability of the prospective nominee to represent the interests of the shareholders of the Company;

the prospective nominee's standards of integrity, commitment and independence of thought and judgment;

the prospective nominee's ability to dedicate sufficient time, energy and attention to the diligent performance of his or her duties, including consideration of the his or her service on other corporate boards;

the prospective nominee's ability to contribute to the range of talent, skill and expertise present on the Board; and

the extent to which the prospective nominee helps the Board reflect the diversity of the Company's shareholders, employees, customers and communities.

The Company also considers the ability of the nominee to meet the applicable requirements of SEC regulations, state law and the Company's Articles of Organization and By-laws.

The Board has established a process for identifying and evaluating nominees for director, which will be assumed by the nominating committee upon its establishment. The Board will annually assess the qualifications, expertise, performance and willingness to serve of existing directors. If at this time or at any other time during the year the Board of Directors determines a need to add a new director with specific qualifications or to fill a vacancy on the Board, an independent director, within the meaning of the Nasdaq rules, designated by the Board will then initiate the search, working with staff support and seeking input from other directors and senior management, considering nominees previously submitted by stockholders, and, if deemed necessary or appropriate, hiring a search firm. An initial slate of candidates satisfying the specific qualifications, if any, and otherwise qualifying for membership on the Board will then be identified and presented to the independent directors. The independent directors will then prioritize the candidates and determine if other directors or senior management have relationships with the preferred candidates and can initiate contacts. If not, contact would be initiated by a search firm. To the extent feasible, all of the members of the independent directors and the CEO will interview the prospective candidate(s). Evaluations and recommendations of the interviewers will be submitted to the whole Board for final evaluation. The Board will meet to consider such information and to select candidates for appointment to the Board at the annual meeting. Nominees recommended by a stockholder will be evaluated on the same basis as other nominees.

Security Holder Communications with the Board of Directors

The Company has established procedures for security holders to communicate directly with the Board of Directors on a confidential basis. Security holders who wish to communicate with the Board or with a particular director may send a letter to the Chief Financial Officer of the Company at 100 Beaver Street, Waltham, MA 02453. The mailing envelope must contain a clear notation indicating that the enclosed letter is a Security Holder-Board Communication or Security Holder-Director Communication. All such letters must identify the author as a security holder and clearly state whether the intended recipients are all members of the Board or just certain specified individual directors. The Chief Financial Officer will make copies of all such letters and circulate them to the directors addressed. If a security holder wishes the communication to be confidential, such security holder must clearly indicate on the envelope that the communication is confidential. The Chief Financial Officer will then forward such communication, unopened, to the Chairman of the Board of Directors.

Attendance of Directors at Annual Meetings

All members of the Board of Directors are encouraged, but not required, to attend the Company's annual meetings of stockholders. At the Company's 2003 Annual Meeting of Stockholders, all of the directors then in office were in attendance.

Board Compensation

Pursuant to the 2001 Incentive Plan, each non-employee director receives his annual retainer, currently set at \$10,000, for the fiscal year, and each non-employee chairman of each sub-committee receives an additional retainer, currently set at \$4,000, for the fiscal year, each in the form of a stock option grant that provides the right to purchase share of Common Stock at a 70% discount to the fair market value. These grants vest quarterly over a year from the date of grant. The grant size (number of options) are determined by dividing the annual retainer fee by 70% of the fair market value of the Common Stock on the date of grant. In addition, upon their initial election to the board, non-employee directors are also granted options to receive an aggregate 17,000 shares of Common Stock that vest equally over three years with an exercise price equal to the fair market value at date of grant. As a long term incentive in connection with their re-election to the board, non-employee directors are, upon their re-election to the board, also granted options to receive an aggregate of 8,500 shares of Common Stock that vest equally over three years with an exercise price equal to the fair market value at date of grant. Upon a change of control or, for those non-employee directors of the Company who held such positions prior to the closing of the merger with Genesoft, the closing of such merger, if within two years following such event, a director is either not nominated to serve as a director or is not elected by the shareholders to serve as a director, all of such director's unvested options become exercisable upon such director ceasing to be a director of the Company and all of the director's options remain exercisable until the earlier of two years from the date such director ceases to be a director and the final exercise date of the option. In addition, each director has the option to receive all of his board meeting fees and sub-committee fees, currently set at \$2,000 and \$1,250, respectively, per meeting, in the form of cash or a stock option grant on the same terms described above for the annual retainer. Meeting fees are reduced by fifty percent if the director attends a meeting via teleconference.

PROPOSAL B

**AMENDMENT TO THE COMPANY S ARTICLES OF ORGANIZATION TO
CHANGE ITS NAME TO OSCIENT PHARMACEUTICALS CORPORATION .**

The Board of Directors has unanimously adopted resolutions to change the name of the Company to Oscient Pharmaceuticals Corporation, subject to shareholder approval. If adopted by the Company s shareholders, the new name will become effective upon filing the Amendment to the Company s Articles of Organization with the Secretary of State of the Commonwealth of Massachusetts, which is expected to occur as soon as possible following shareholder approval. The form of Amendment is attached hereto as Annex B. The Company will also apply to the Nasdaq Stock Market for a new trading symbol.

Over the last few years, the Company has transitioned from being a genomics company to becoming a product-focused biopharmaceutical company. This strategic shift culminated in the Company s recent merger with Genesoft Pharmaceuticals, Inc., pursuant to which the Company acquired the rights to develop and market FACTIVE®, an anti-infective product approved by the United States Food and Drug Administration for the treatment of acute bacterial exacerbations of chronic bronchitis and community-acquired pneumonia of mild to moderate severity in North America and certain European countries. In light of the Company s continuing evolution into a biopharmaceutical company, the Company s Board of Directors has determined that the Genome Therapeutics name would no longer describe the Company s business and could result in possible confusion about the Company s identity and strategic focus on biopharmaceutical drug development.

Shareholders will not be required to submit their stock certificates for exchange. Stock certificates bearing the Genome Therapeutics Corp. name will continue to be valid certificates and will evidence ownership of the same number of shares of our Common Stock after the name change as stated in the certificate. Following the effective date of the amendment changing our name, all new stock certificates that we issue will be printed with our new name.

The Board of Directors recommends a vote FOR Proposal B.

PROPOSAL C

**APPROVAL OF AN AMENDMENT TO THE COMPANY S EMPLOYEE STOCK
PURCHASE PLAN, AUTHORIZING AN INCREASE OF 750,000 SHARES OF
COMMON STOCK TO BE RESERVED FOR ISSUANCE UNDER THE PLAN.**

In the opinion of the Board of Directors, our future success depends, in large part, upon our ability to maintain a competitive position in attracting, retaining and motivating key employees. In particular, in order to realize the commercial launch of FACTIVE in the second half of 2004, we will experience a significant increase in hiring as we build a sales and marketing organization, expand the medical/development organization to support additional FACTIVE development and commercialization, continue support for the development of Ramoplanin and build the infrastructure necessary to support these expansions. This growth in hiring, particularly in the sales and marketing areas, is expected to continue during 2005. As of February 25, 2004, there were only 120,822 shares of Common Stock available for future purchase under our

Employee Stock Purchase Plan (the Stock Purchase Plan). Unless the number of shares of Common Stock authorized for purchase under

our the Stock Purchase Plan is increased, we may not have sufficient shares in the Stock Purchase Plan to keep it available for our existing employees and new hires through the next annual meeting, which could negatively affect our ability to retain our employees and recruit the new employees that we need. Accordingly, on February 27, 2004 the Board adopted, subject to stockholder approval, an amendment to the Stock Purchase Plan increasing the number of shares of Common Stock authorized for purchase under the Stock Purchase Plan by 750,000 shares.

Overview

On October 27, 1999, the Board of Directors adopted the Stock Purchase Plan, which was subsequently approved by our shareholders. Under the Stock Purchase Plan, eligible employees may authorize the Company to deduct amounts from their regular paychecks, which amounts are used to enable the employees to exercise options (each an Option) to purchase shares of Common Stock of the Company. The purpose of the Stock Purchase Plan is to attract and retain key personnel, and encourage stock ownership by the Company s employees.

The Company initially reserved 250,000 shares of the Company s Common Stock for issuance under the Stock Purchase Plan. The Company s shareholders authorized the reservation of an additional 250,000 shares for issuance under the Stock Purchase Plan at each of the annual meetings of shareholders held on June 25, 2002 and May 8, 2003, respectively.

Summary of the Stock Purchase Plan

The following summary of the Stock Purchase Plan is qualified in its entirety by reference to the Stock Purchase Plan. The full text of the proposed amendment to the Stock Purchase Plan is attached as Annex C to this proxy statement. The Company will provide, without charge, to each person to whom this proxy statement is delivered, upon the request of such person by first class mail, within one business day of receipt of such request, a copy of the Stock Purchase Plan. Any such request should be directed as follows: Investor Relations, Genome Therapeutics Corp., 100 Beaver Street, Waltham, Massachusetts 02453; telephone number (781) 398-2300.

Administration; Participation

The Stock Purchase Plan is administered by the Compensation Committee of the Board of Directors. Each employee of the Company who, on the first day of an Option Period (as defined below), is scheduled to work at least 20 hours per week and who is expected to be employed for at least five months per year by the Company is eligible to participate in the Stock Purchase Plan, unless he or she owns (or is treated as owning under applicable attribution rules) 5% or more of the voting power or value of the stock of the Company. We refer to employees eligible to participate in the Stock Purchase Plan as Eligible Employees. As of February 23, 2004, the number of employees participating in the Stock Purchase Plan was approximately 30 persons.

An Eligible Employee may elect to become a participant (a Participant) in the Stock Purchase Plan by delivering to the Company, at least 15 days prior to the beginning of an Option Period, a form authorizing the Company to deduct an amount from his or her salary to exercise Options. The aggregate amount which an employee may authorize the Company to deduct under the Company s Stock Purchase Plan is not less than 1% nor more than 15% of the employee s pay by means of substantially equal payroll deductions over the Option Period. Participants are allowed to increase or decrease the percentage of wages deducted once per quarter during the time the Option is outstanding. A Participant may suspend his or her contributions at any time.

Terms of Options

The periods for which Options may be granted are January 1 to June 30 and July 1 to December 31 of each year. Such periods are each Option Period. Each Participant is granted an Option on the first day of the Option Period and such Option is deemed exercised if an Eligible Employee continues to be a Participant on the last day of the Option Period. For each Option Period, the maximum number of shares covered by an Option is that number having a fair market value of \$12,500 on the first day of the Option Period. The exercise price of an Option is 85% of the fair market value for the Common Stock (a) on the grant date or (b) at the time at which the Option is exercised, whichever is less.

The Options are nontransferable, except in the case of death of the employee. If an employee dies, his or her beneficiary may, as set forth by the Participant in the beneficiary designation form, withdraw the accumulated payroll deductions or use them to purchase shares on the last day of the Option Period. If an employee ceases to be employed by the Company by reason of permanent disability or retirement or is on an approved leave of absence from the Company, the employee may request that his or her accumulated payroll deductions be used to purchase shares on the last day of the Option Period. If an employee ceases to be employed by the Company for any other reason, the Option held by him or her is deemed canceled and his or her accumulated payroll deductions are returned. A Participant may elect to discontinue participation at any time prior to the end of an Option Period and to have his or her accumulated payroll deductions refunded.

Shares Subject to the Stock Purchase Plan

Subject to shareholder approval of this proposal at this meeting, the number of shares that are reserved for future issuance under the Stock Purchase Plan will be 870,822 shares of the Company's Common Stock, subject to adjustment for stock splits and similar events. The proceeds received by the Company from exercise under the Stock Purchase Plan will be used for the general corporate purposes of the Company. Shares issued under the Stock Purchase Plan may be authorized but unissued or shares reacquired by the Company and held in its treasury.

Amendment and Termination

The Stock Purchase Plan shall remain in full force and effect until suspended or discontinued by the Board of Directors. The Board of Directors may at any time or times amend or revise the Stock Purchase Plan for any purpose which may at any time be permitted by law, provided, however, that any amendment relating to the aggregate number of shares which may be issued under the Stock Purchase Plan will have no force or effect unless it will have been approved by the shareholders within twelve months before or after its adoption.

The Stock Purchase Plan may be suspended or terminated at any time by the Board of Directors, but no such suspension or termination will adversely affect the rights and privileges of holders of the outstanding options. The Stock Purchase Plan will terminate in any case when all or substantially all of the Stock reserved for the purposes of the Stock Purchase Plan has been purchased.

Effective Date of the Stock Purchase Plan

The Stock Purchase Plan became effective as of March 1, 2000 and continues to remain in force.

Plan Benefit

During 2003, the Company's executive officers purchased 12,862 shares of Company common stock under the Stock Purchase Plan at a weighted average purchase price of \$1.65. In 2003, all of the Company's employees, excluding the executive officers, purchased 195,357 shares of Company common stock under the Stock Purchase Plan at a weighted average purchase price of \$1.58.

The future amounts of shares to be purchased under the Stock Purchase Plan by the executive officers and the non-executive officer employees are subject to the discretion of the individual employee and are therefore not determinable at this time.

Federal Income Tax Considerations

The following summary description is limited to the principal U.S. federal income tax consequences under current law of participation in the Stock Purchase Plan, and does not attempt to describe all possible tax consequences. The Stock Purchase Plan is intended to qualify as an employee stock purchase plan within the meaning of Section 423 of the Code. Under the rules applicable to employee stock purchase plans that so qualify, a participant will realize no income either upon the grant or upon the exercise of an option awarded under the Stock Purchase Plan. Upon any disposition by the Participant of shares acquired upon exercise of a Stock Purchase Plan option, if such disposition occurs after the shares have been held for at least two years after the date of the option grant, or if the participant dies at any time while holding the shares, ordinary income will be recognized equal to the lesser of (a) the excess of the fair market value of the shares at the time of disposition or death over the purchase price, or (b) 15% of the fair market value of the shares on the date of grant of the option. In the case of a disposition, any additional gain recognized in such a disposition will be taxable as long-term capital gain. If the participant sells or otherwise disposes of the shares prior to expiration of the two-year period (a disqualifying disposition), he or she will recognize ordinary income equal to the amount by which the fair market value of the stock on the date the option was exercised exceeded the exercise price. Any additional gain, or any loss, recognized in the disposition will be taxable as a capital gain or loss, long-term or short-term depending on the participant's holding period in the shares. A deduction will be available to the Company with respect to any ordinary income realized by a participant in a disqualifying disposition of shares acquired under the Stock Purchase Plan.

The preceding paragraph assumes that the Participant is, at all times during the period beginning with the date of grant and ending on the date that is three months before the option is exercised, an employee of the Company or a subsidiary. If the Participant does not satisfy these employment requirements, in general, the Participant will have no taxable income at the time of grant but will realize income in connection with the exercise of the option in an amount equal to the excess (at the time of exercise) of the fair market value of the shares acquired upon exercise over the exercise price. A corresponding deduction is available to the Company. Any gain or loss recognized upon a subsequent sale or exchange of the shares is treated as capital gain or loss for which the Company is not entitled to a deduction.

The Board of Directors recommends a vote FOR Proposal C.

PROPOSAL D

**APPROVAL OF AN AMENDMENT TO THE 2001 INCENTIVE PLAN,
AUTHORIZING AN INCREASE OF 6,000,000 SHARES OF COMMON STOCK TO
BE RESERVED FOR ISSUANCE UNDER THE PLAN.**

Overview

The Company recognizes the importance of stock options, stock awards and other performance based awards as a tool for recruiting and retaining the highest caliber executive officers, employees and directors. The purpose of the 2001 Incentive Plan (the "Incentive Plan") is to advance the interests of the Company by enhancing its ability to attract and retain executive officers, employees, directors and other persons or entities providing services to the Company who are in a position to make significant contributions to the success of the Company, and to reward participants for such contributions, through ownership of shares of Common Stock of the Company and cash incentives. The Incentive Plan is intended to accomplish these goals by enabling the Company to grant awards in the form of options, stock appreciation rights, restricted stock, unrestricted stock or deferred stock, or performance awards, or combinations thereof, all as more fully described below.

As of February 23, 2004, there were only 1,205,216 shares of Common Stock available for future issuance under the Incentive Plan. In the opinion of the Board of Directors, our future success depends, in large part, upon our ability to maintain a competitive position in attracting, retaining and motivating key employees. In particular, in order to realize the commercial launch of FACTIVE in the second half of 2004, we will experience a significant increase in hiring as we build a sales and marketing organization, expand the medical/development organization to support additional FACTIVE development and commercialization, continue support for the development of Ramoplanin and build the infrastructure necessary to support these expansions. This growth in hiring, particularly in the sales and marketing areas, is expected continue during 2005. Based on the Company's analysis of competitive compensation packages for the desired categories of employees, the Company believes that it will need an increase in the amount of shares available under the Incentive Plan in order to meet our hiring needs and to retain sufficient shares to keep it available to our existing employees, officers and directors. Accordingly, on February 27, 2004 the Board adopted, subject to stockholder approval, an amendment to the Incentive Plan increasing the number of shares of Common Stock authorized for purchase under the Incentive Plan by 6,000,000 shares.

Summary of the Incentive Plan

The following summary of the Incentive Plan is qualified in its entirety by reference to the Incentive Plan. The full text of the proposed amendment to the Incentive Plan is attached as Annex D to this proxy statement. The Company will provide, without charge, to each person to whom this proxy statement is delivered, upon request of such person by first class mail, within one business day of receipt of such request, a copy of the Incentive Plan. Any such request should be directed as follows: Investor Relations, Genome Therapeutics Corp., 100 Beaver Street, Waltham, Massachusetts 02453; telephone number (781) 398-2300.

The Incentive Plan

Edgar Filing: GENOME THERAPEUTICS CORP - Form PRE 14A

The Incentive Plan is administered by the Compensation Committee (the Committee). During such times as the Common Stock is registered under the Securities Exchange Act of 1934 (the 1934 Act), all members of the Committee will be non-employee directors within the meaning of rule 16b-3 promulgated under the 1934 Act and outside directors within the meaning of Section 162(m)(4)(C)(i) of the Internal Revenue Code of 1986, as amended (the Code). Under the Incentive Plan, the Committee may grant stock options, stock appreciation rights, restricted stock, unrestricted stock, deferred stock, and performance awards (in cash or stock), or

combinations thereof, and may waive the terms and conditions of any award. As of February 24, 2004, a total of 1,205,216 shares of Common Stock are available for future issuance under the Incentive Plan. Employees of the Company, including executive officers, directors and other persons or entities providing services to the

Company or its subsidiaries who are in a position to make a significant contribution to the success of the Company and its subsidiaries are eligible to receive awards under the Incentive Plan.

Section 162(m) of the Code places annual limitations on the deductibility by public companies of compensation in excess of \$1,000,000 paid to each of the chief executive officer and the other four most highly compensated officers, unless, among other things, the compensation is performance-based. For compensation attributable to stock options and stock appreciation rights to qualify as performance-based, the plan under which they are granted must state a maximum number of shares with respect to which options and rights may be granted to an individual during a specified period and must be approved by the Company's shareholders. To comply with these requirements, the Incentive Plan provides that the maximum number of shares of stock for which stock options may be granted to any person in any calendar year, the maximum number of shares of stock subject to SARs granted to any person in any calendar year and the aggregate maximum number of shares of stock subject to other awards (other than restricted stock awards) that may be delivered to any person in any calendar year shall each be 1,000,000. The Incentive Plan, including these limits, received shareholder approval on February 27, 2001. Grants of restricted stock will be limited to 100,000 shares in any one calendar year.

Stock Options. The exercise price of an incentive stock option (ISO) granted under the Incentive Plan or an option intended to qualify as performance-based compensation under Section 162(m) of the Code shall not be less than 100% (110% in the case of 10% shareholders) of the fair market value of the Common Stock at the time of grant. The Committee determines the exercise price of a non-ISO granted under the Incentive Plan. No ISO may be granted under the Incentive Plan after December 4, 2010, but ISO s previously granted may extend beyond that date. The exercise price may be paid in cash or by check payable to the order of the Company. Subject to certain additional limitations, the Committee may also permit the exercise price to be paid by tendering shares of Common Stock, by delivery of a promissory note, by delivery to the Company of an undertaking by a broker to deliver promptly sufficient funds to pay the exercise price, or a combination of the foregoing.

Stock Appreciation Rights (SARs). Stock appreciation rights (SARs) may be granted either alone or in tandem with stock option grants. Each SAR entitles the holder on exercise to receive an amount in cash or Common Stock or a combination thereof (such form to be determined by the Committee) determined in whole or in part by reference to appreciation in the fair market value of a share of Common Stock. SARs may be based solely on appreciation in the fair market value of Common Stock or on a comparison of such appreciation with some other measure of market growth.

Stock Awards; Deferred Stock. The Incentive Plan provides for awards of nontransferable shares of restricted Common Stock subject to forfeiture (Restricted Stock), as well as unrestricted shares of Common Stock. Shares of Restricted Stock may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated until the end of the applicable period and the satisfaction of any other conditions or restrictions established by the Committee. Except as the Committee may otherwise determine, if a participant dies or ceases to be an employee or ceases to continue the consulting or other similar relationship engaged in by such participant with the Company for any reason during the restricted period, the Company may repurchase the shares of Restricted Stock or the shares of Restricted Stock may be forfeited to the Company. The Incentive Plan also provides for deferred grants entitling the recipient to receive shares of Common Stock in the future at such times and on such conditions as the Committee may specify.

Performance Awards. The Incentive Plan provides for performance awards entitling the recipient to receive cash or Common Stock following the attainment of performance goals determined by the Committee. Performance conditions and provisions for deferred stock may also be attached to other awards under the Incentive Plan. In the case of any performance award (other than a stock option or SAR with an exercise price no less than the fair market value of the shares subject to the option or SAR at the time of grant) intended to qualify for the performance-based remuneration exception described in Section 162(m) of the Code (an Exempt Award), the Committee will in writing pre-establish specific performance goals that are based upon any one or more operational, result or event-specific goals. With respect to any Exempt Award, the maximum payable to an individual in respect of the Exempt Award for any year cannot exceed \$500,000 cash or 100,000 shares of Common Stock.

Termination. Except as otherwise provided by the Committee, if a participant dies, options and SARs exercisable immediately prior to death may be exercised by the participant's executor, administrator or transferee during a period of one year following such death (or for the remainder of their original term, if less). Options and SARs not exercisable at a participant's death terminate. In the case of termination for reasons other than death, options and SARs remain exercisable, to the extent they were exercisable immediately prior to termination, for three months (or for the remainder of their original term, if less). Notwithstanding the foregoing, if in the Committee's judgment the reason for the award holder's termination casts discredit on the Company sufficient to justify immediate termination of the award, then such award will immediately terminate.

Change of Control. In the event of a consolidation or merger in which the Company is not the surviving corporation or which results in the acquisition of substantially all the Company's outstanding Stock by a single person or entity or by a group of persons and/or entities acting in concert, or in the event of the sale or transfer of substantially all the Company's assets, the Incentive Plan permits the Committee to arrange for the assumption of awards outstanding under the Incentive Plan or the grant to participants of replacement awards by that corporation. All outstanding awards not assumed or replaced by the surviving or acquiring corporation shall become exercisable immediately prior to the consummation of such merger, consolidation or other transaction and upon such consummation all outstanding awards that have not been assumed or replaced will terminate.

Amendment. The Company may at any time or times amend the Incentive Plan or any outstanding award for any purpose which may at the time be permitted by law, or may at any time terminate the Incentive Plan as to any further grants of awards; provided, that (except to the extent expressly required or permitted by the Incentive Plan) no such amendment will, without the approval of the stockholders of the Company, effectuate a change for which stockholder approval is required in order for the Incentive Plan to continue to qualify under Section 422 of the Code and for Awards to be eligible for the performance-based exception under Section 162(m).

Plan Benefit

During 2003, options to purchase 219,790 shares of Company common stock were granted to the Company's executive officers under the Incentive Plan, as set forth in the table captioned "Options/SAR Grants in Last Fiscal Year" above. During 2003, under the Incentive Plan, options to purchase 210,585 shares of Company common stock were granted to all non-executive directors of the Company as a group at an average weighted exercise price of \$1.12. In addition in 2003, under the Incentive Plan, options to purchase 279,048 shares of the Company's common stock were granted to all of the Company's employees, excluding the executive officers, at an average weighted exercise price of \$0.97.

The future benefits or amounts that would be received under the Incentive Plan by the executive officers and the non-executive officer employees are discretionary and are therefore not determinable at this time. The Company has adopted the following methodology for granting options to non-executive Directors described under Board Compensation above. Under the Incentive Plan, the existing non-executive Directors as a group will receive options to purchase 68,000 shares of Common Stock at the Company's Board meeting following the annual meeting in connection with their re-election to the Board.

Federal Tax Effects

The following discussion summarizes certain federal income tax consequences of the issuance and receipt of options under the Incentive Plan. The summary does not purport to cover federal employment tax or other federal tax consequences that may be associated with the Incentive Plan, nor does it cover state, local or non-U.S. taxes.

Incentive Stock Options. In general, an optionee realizes no taxable income upon the grant or exercise of an ISO. However, the exercise of an ISO may result in an alternative minimum tax liability to the optionee. With certain exceptions, a disposition of shares purchased under an ISO within two years from the date of grant or within one year after exercise produces ordinary income to the optionee (and a deduction to the Company) equal to the value of the shares at the time of exercise less the exercise price. Any additional gain recognized in the disposition is treated as a capital gain for which the Company is not entitled to a deduction. If the optionee does not dispose of the shares until after the expiration of these one- and two-year holding periods, any gain or loss recognized upon a subsequent sale is treated as a long-term capital gain or loss for which the Company is not entitled to a deduction.

Nonstatutory (Non-ISO) Options. In general, in the case of a non-ISO, the optionee has no taxable income at the time of grant but realizes income in connection with exercise of the option in an amount equal to the excess (at the time of exercise) of the fair market value of the shares acquired upon exercise over the exercise price. A corresponding deduction is available to the Company. Any gain or loss recognized upon a subsequent sale or exchange of the shares is treated as capital gain or loss for which the Company is not entitled to a deduction.

In general, an ISO that is exercised more than three months after termination of employment (other than termination by reason of death) is treated as a non-ISO. ISOs are also treated as non-ISOs to the extent they first become exercisable by an individual in any calendar year for shares having a fair market value (determined as of the date of grant) in excess of \$100,000.

Under the so-called "golden parachute" provisions of the Code, the vesting or accelerated exercisability of awards in connection with a change in control of the Company may be required to be valued and taken into account in determining whether participants have received compensatory payments, contingent on the change in control, in excess of certain limits. If these limits are exceeded, a substantial portion of amounts payable to the participant, including income recognized by reason of the grant, vesting or exercise of awards under the Incentive Plan, may be subject to an additional 20% federal tax and may not be deductible to the Company.

Effective Date of the Incentive Plan

The Incentive Plan became effective as of February 27, 2001 and continues to remain in force.

The Board of Directors recommends a vote FOR Proposal D.

PROPOSAL E**RATIFICATION OF THE SELECTION OF ERNST & YOUNG LLP AS THE COMPANY'S AUDITORS FOR THE YEAR ENDING DECEMBER 31, 2004**

The Audit Committee of the Board has appointed Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2004. Services provided to the Company and its subsidiaries by Ernst & Young LLP in fiscal 2003 are described under *Audit and Non-Audit Fees* below. Additional information regarding the Audit Committee is provided in the Report of the Audit Committee above. In the event shareholders do not ratify the appointment, the appointment will be reconsidered by the Audit Committee and the Board, and they may retain that firm or another without resubmitting the matter to the Company's shareholders.

Representatives of Ernst & Young LLP will be present at the annual meeting to respond to appropriate questions and to make such statements as they may desire.

The Board of Directors recommends a vote FOR Proposal E.

Audit and Non Audit Fees

The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of the Company's annual consolidated financial statements for the fiscal years ended December 31, 2003 and December 31, 2002, and fees for other services rendered by Ernst & Young LLP during those periods:

<u>Fee Category</u>	<u>Fiscal 2003</u>	<u>% of Total</u>	<u>Fiscal 2002</u>	<u>% of Total</u>
Audit Fees	\$ 197,500	88.8%	\$ 120,650	82.7%
Audit-Related Fees	10,000	4.5%	10,670	7.3%
Tax Fees	12,325	5.6%	14,500	10.0%
All Other Fees	2,500	1.1%	0	
Total Fees	\$ 222,325	100.0%	\$ 145,820	100.0%

Audit fees included fees related to services rendered in connection with the annual audit of the Company's consolidated financial statements, the quarterly reviews of the consolidated financial statements included in the Company's quarterly reports on Form 10-Q, and the reviews of and other services related to registration statements and other offering memoranda. In 2003, these amounts were significantly more than in 2002, primarily due to the merger with Genesoft, a financing transaction in October, and the sale and divestiture of our Genome Vision Services Business in the first quarter. All of the work for 2003 was performed by the full-time, permanent employees of Ernst & Young LLP. For 2002, the above totals include professional fees from Arthur Andersen LLP in connection with the Audit (\$37,650) and Tax preparation (\$14,500).

Edgar Filing: GENOME THERAPEUTICS CORP - Form PRE 14A

Audit-related fees consisted primarily of fees for audits of the financial statements of one of the Company's employee benefit plans.

Tax fees consisted of tax compliance/preparation and other tax services. Tax compliance/preparation consisted of fees billed for professional services related to federal, state and local tax compliance.

All other fees consisted primarily of miscellaneous services. No portion of these fees related to financial information or operational system design or implementation services.

All of the 2003 services described above were approved by the Audit Committee pursuant to the SEC rule that requires audit committee pre-approval of audit and non-audit services provided by the Company independent auditors to the extent that rule was applicable during fiscal year 2003.

On an on-going basis, management communicates specific projects and categories of services for which advance approval of the Audit Committee is required. The Audit Committee reviews these requests and advises management and the independent auditors if the Audit Committee pre-approves the engagement of the independent auditors for such projects and services. On a periodic basis, the independent auditors report to the Audit Committee the actual spending for such projects and services compared to the approved amounts. The Audit Committee may delegate the ability to pre-approve audit and permitted non-audit services to a sub-committee of the Audit Committee, provided that any such pre-approvals are reported at the next Audit Committee meeting.

Our Audit Committee has considered whether the provision of services to the Company by Ernst & Young LLP beyond those rendered in connection with their audit and review of our financial statements was compatible with maintaining their independence. On the basis of the relevant facts and circumstances pertaining to the engagement of Ernst & Young LLP by the Company in connection with their services in fiscal 2003, our Audit Committee believes that Ernst & Young LLP satisfied the requirements of independence from us.

SHAREHOLDER PROPOSALS

Proposals of shareholders submitted for consideration at the 2005 Annual Meeting of shareholders must be received by the Company no later than November 13, 2004 in order to be included in the Company's proxy statement for the 2005 Annual Meeting. In addition, if a shareholder wishes to present a proposal at the Company's 2005 Annual Meeting that will not be included in the Company's proxy statement and fails to notify the Company by no later than January 27, 2005, then the proxies solicited by the Board of Directors for the 2005 Annual Meeting will include discretionary authority to vote on the shareholder's proposal in the event that it is properly brought before the meeting.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's executive officers and directors, and persons who beneficially own more than ten percent of the Company's stock, to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission and the National Association of Securities Dealers. Executive officers, directors and greater than ten percent beneficial owners are required by Securities and Exchange Commission regulations to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms furnished to the Company and written representations from the Company's executive officers and directors, the Company believes that, during the year ended December 31, 2003, its executive officers and directors have complied with all Section 16(a) filing requirements applicable to them, except that each of Messrs. Cohen, Hennessey and Stone filed one Form 4 report with respect to one transaction on an untimely basis.

OTHER MATTERS

The Board of Directors knows of no other business to be presented at the meeting, but if other matters do properly come before the meeting, it is intended that the persons named in the proxy will vote in respect thereof in accordance with their best judgment.

In the event that sufficient votes in favor of any of the proposals set forth in the accompanying Notice are not received by the time scheduled for the meeting, the persons named as proxies may propose one or more adjournments of such meeting for a period of not more than 60 days in the aggregate to permit further solicitation of proxies with respect to any of such proposals. Any such adjournments will require the affirmative vote of a majority of the votes cast on the question in person or by proxy at the session of the meeting to be adjourned. The persons named as proxies will vote in favor of such adjournment those proxies that they are entitled to vote in favor of such proposals. They will vote against any such adjournment those proxies required to be voted against any of such proposals. The costs of any such additional solicitation and of any adjourned session will be borne by the Company.

The Board of Directors encourages you to have your shares voted by signing and returning the enclosed form of proxy. The fact that you will have returned your proxy in advance will in no way affect your right to vote in person should you find it possible to attend. However, by signing and returning the proxy you have assured your representation at the meeting.

Thank you for your cooperation.
