KINDRED HEALTHCARE ANNOUNCES FIRST QUARTER RESULTS

Company Provides 2004 Earnings Guidance

Board of Directors Declares 2-for-1 Stock Split

LOUISVILLE, Ky. (April 26, 2004) Kindred Healthcare, Inc. (the Company) (NASDAQ:KIND) today announced its operating results for the first quarter ended March 31, 2004. Share and per share data for all periods presented have been adjusted retroactively to reflect the 2-for-1 stock split discussed in this earnings release.

Continuing Operations

Revenues for the first quarter of 2004 rose 9% to \$871 million compared to \$802 million in the year-earlier period. Net income from continuing operations totaled \$16.2 million or \$0.38 per diluted share compared to \$2.5 million or \$0.07 per diluted share in the first quarter last year. Operating results for the first quarter of 2004 included pretax income of approximately \$2.2 million (\$1.3 million net of tax or \$0.03 per diluted share) related to the favorable settlement of prior year hospital Medicare cost reports. Operating results for the first quarter of 2003 included pretax charges of approximately \$8 million (\$5 million net of tax or \$0.15 per diluted share) related to changes in estimates of prior year professional liability costs.

Kindred President and Chief Executive Officer Paul J. Diaz commented, "We're continuing to make progress on our goal to deliver more consistent and predictable operating results for our patients, employees and shareholders. In the first quarter, our quality and customer service measures continued to trend favorably. We also reported increased revenues and operating income in each of our four operating divisions compared to the first quarter last year. This success is a reflection of our continuing efforts to improve employee retention, quality and customer service in all of our operations."

Edgar Filing: KINDRED HEALTHCARE INC - Form 8-K

As previously announced, the Company began operating *Peoplefirst* Rehabilitation, a new division in 2004, by combining the Company's external rehabilitation services operations with the rehabilitation services provided by therapists in Kindred nursing centers. Prior to 2004, the internal rehabilitation services operating results were included in the Company's nursing center operations. Mr. Diaz commented, "In its first quarter of operations, *Peoplefirst* Rehabilitation reported revenues of \$53 million and operating income of \$8.5 million. This new organization is creating a great deal of excitement within the Company around our efforts to improve the quality of care we provide to our residents and external customers. We are confident that this momentum will lead to further external growth in the future."

Discontinued Operations

Net losses from discontinued operations totaled \$2.4 million or \$0.06 per diluted share in the first quarter of 2004 compared to net losses of \$15.6 million or \$0.45 per diluted share in the first quarter of 2003.

Earnings Guidance for 2004

The Company announced earnings expectations for its continuing operations for fiscal 2004. Revenues for 2004 are expected to approximate between \$3.5 billion to \$3.6 billion. Operating income, defined as earnings before interest, income taxes, depreciation and rents, is expected to range from \$484 million to \$494 million. Depreciation and net interest costs for 2004 are expected to approximate \$100 million. Net income from continuing operations is expected between \$68 million and \$75 million, or \$1.58 to \$1.74 per diluted share (based upon diluted shares of 43 million). For fiscal 2003, the Company reported revenues of \$3.3 billion, operating income of \$426 million and net income from continuing operations of \$49.5 million or \$1.41 per diluted share (based upon diluted shares of 35 million).

In addition to the risk factors set forth under *Forward Looking Statements*, the Company's 2004 earnings guidance assumes no significant changes in government reimbursement as well as the successful completion of its previously announced development plans for additional hospitals and institutional pharmacy locations. Fiscal 2004 earnings estimates also assume continued progress in the Company's transition of its long-term acute care hospitals to the new Medicare prospective payment system and continued stabilization of professional liability costs that are expected to range between \$90 million and \$100 million in 2004. The Company reported professional liability costs of \$90 million in 2003.

Mr. Diaz also noted, "The increased stabilization of our operations also has allowed us to return to providing earnings guidance. We believe that the remainder of 2004 offers opportunities to benefit from continued reimbursement visibility, operational improvement in our hospitals and stabilization of professional liability costs in our nursing centers. We also expect our pharmacy and rehabilitation businesses to build on their strong first quarter performance. While several challenges and much work lie ahead, we are optimistic about our 2004 performance."

Stock Split

The Company also announced that the Board of Directors has approved a 2-for-1 stock split in the form of a 100% stock dividend. The new shares will be distributed on May 27, 2004 to stockholders of record at the close of business on May 10, 2004.

Related to the stock split, Mr. Diaz commented, "We believe that having more shares available from the split announced today will benefit our shareholders by increasing our trading activity and liquidity and reflects the confidence of management and the Board of Directors in our 2004 plan."
