**Qualitative information related to the consolidated operating results:**

With respect to the financial and economic environment for the fiscal year ended March 31, 2006, overseas economies such as United States and China showed steady signs of economic growth. Meanwhile, the Japanese economy started off slowly, due mainly to an adjustment in inventory in the IT sector. However, with the rise in exports in summer, along with increases in capital expenditures and the steady increases in private consumption, the Japanese economy moved toward recovery.

Regarding the financial environment, in the United States, the target for the federal funds rate was raised a total of eight times, from 2.75% to 4.75%. In the EU, the European Central Bank's policy rate was also raised twice, from 2.0% to 2.5%. Meanwhile, in Japan, the Bank of Japan lifted its easy monetary policy in March 2006 due to increases in consumer prices, but short-term interest rates remained at near zero percent. As to long-term interest rates, the yield on ten-year Japanese government bonds declined slightly during the first half of the fiscal year, but later rose due to anticipation surrounding the lifting of the easy monetary policy by the Bank of Japan. In the foreign exchange markets, the yen depreciated against the US dollar during the fiscal year due to the widening interest rate differentials between Japan and the United States, caused by the rise in US interest rates.

Amidst the environment, our consolidated net income under US GAAP for the fiscal year ended March 31, 2006 was ¥363.5 billion, a decrease of ¥51.7 billion compared to the previous fiscal year. The changes in our operating results were primarily attributable to the following:

Net interest income increased ¥679.5 billion, mainly due to the increase in interest-earning assets and interest-bearing liabilities resulting from the merger with UFJ Holdings on October 1, 2005.

Provision for credit losses increased ¥1.9 billion. Our loan portfolio was favorably affected by the upgrades of borrowers' credit ratings resulting from improvements in their business performance mainly attributable to the general recovery in the Japanese economy, as well as upgrades of credit ratings of borrowers to whom we had large exposures who made progress in their restructuring plans. However, the foregoing favorable impact on the quality of our loan portfolio was not reflected in our provision for credit losses, because impaired loans of the former UFJ Holdings Group were acquired at their fair values.

Non-interest income increased ¥80.6 billion due to an increase in fees and commissions. This increase was partially offset by an increase in foreign exchange losses, which reflected transaction losses on translation of monetary liabilities denominated in foreign currencies due to the larger depreciation of the yen against foreign currencies, a decrease in trading account profits, mainly on interest rate related derivatives due to the rise in interest rates, and a decrease in investment securities gains, due primarily to impairment losses on Japanese government bonds reflecting the rise in long-term interest rates in Japan.

Non-interest expense increased ¥946.9 billion, primarily due to the merger with UFJ Holdings, which increased most type of expenses, especially salaries and employee benefits.

Due to the above, our income from continuing operations before income tax expense and cumulative effect of a change in accounting principle was ¥529.7 billion, a decrease of ¥188.7 billion from the previous fiscal year, and net income was ¥363.5 billion, a decrease of ¥51.7 billion from the previous fiscal year.

This report is an excerpt of certain highlights from our consolidated financial information under US GAAP that was disclosed in our annual report on Form 20-F ( Form 20-F ) filed with the U.S. Securities and Exchange Commission. This excerpt report does not contain all of the information that may be important to you. In addition to the items highlighted in this report, the Form 20-F includes material disclosure about Mitsubishi UFJ Financial Group, Inc., including risk factors, business and other detailed US GAAP financial information. You should read the entire Form 20-F carefully to obtain a comprehensive understanding of our business and US GAAP financial data and related issues.

This report contains forward-looking statements regarding estimation, forecast, target and plan in relation to the results of operations, financial conditions and other general management of the company and/or the group as a whole (the "forward-looking statements"). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimation, forecast, target and plan regarding future events, certain assumptions have been made, which assumptions are inherently subjective and uncertain. The forward-looking statements should not be viewed as guarantees of future performance as actual results may be significantly different. For instance, the estimation and forecast regarding the company is based on the assumption that the company's business strategies (including the business integration plan with the former UFJ Holdings Group) will be implemented smoothly. Also, the statements regarding collectibility of the deferred tax assets are based on estimation and other assumptions such as our business plan and the premises thereof, and exemplify such situation as above. There exist a number of factors that might lead to uncertainties and risks. For the key factors that may be should be considered, please see the financial highlight, the Annual Securities Report, Disclosure Book, Annual Report, Form 20-F and other current disclosures that the company has publicly released.
