**Item 2.02 Results of Operations and Financial Condition**

On February 1, 2007, we issued a press release announcing our results of operations for the quarter ended December 31, 2006. A copy of that press release is furnished as Exhibit 99.1 to this report and is incorporated by reference herein.

We presented drilling margin information in the press release furnished as an exhibit to this report, which is a non-GAAP financial measure under Regulation G of the rules and regulations of the Securities and Exchange Commission ( Regulation G ). In the press release and in accordance with Regulation G, we included a reconciliation of drilling margin to net earnings, which is the nearest comparable GAAP financial measure. However, because drilling margin is not prescribed by GAAP, it is not necessarily comparable to similar measures presented by other companies. We included drilling margin in the press release because we believe drilling margin provides investors and our management additional information to assist them in assessing our business and performance in comparison to other companies in the same industry.

The information pursuant to this Item 2.02, including Exhibit 99.1, shall not be deemed to be filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and will not be incorporated by reference into any registration statement filed under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated therein by reference.
