SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended January 31, 2007

or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from _____ to _____

Commission file number 0-5286

KEWAUNEE SCIENTIFIC CORPORATION

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

38-0715562
(I.R.S. Employer
Identification No.)

2700 West Front Street

Statesville, North Carolina
(Address of principal executive offices)

28677
(Zip Code)

(704) 873-7202

(Registrant's telephone number, including area code)

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No .

As of March 9, 2007, the Registrant had outstanding 2,492,270 shares of Common Stock.

Kewaunee Scientific Corporation

Notes to Consolidated Financial Statements

(unaudited)

A. Financial Information

The unaudited interim consolidated financial statements of Kewaunee Scientific Corporation (the Company or Kewaunee) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These interim consolidated financial statements should be read in conjunction with the financial statements and notes included in the Company's 2006 Annual Report to Stockholders. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

The preparation of the financial statements requires management to make certain estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

Certain prior period amounts have been reclassified to conform to current classifications. These reclassifications had no impact on the results of operations of the Company.

B. Inventories

Inventories consisted of the following (in thousands):

	January 31, 2007	April 30, 2006
Finished products	\$ 2,267	\$ 1,653
Work in process	792	745
Raw materials	2,938	3,462
	\$ 5,997	\$ 5,860

For interim reporting, LIFO inventories are computed based on year-to-date quantities and interim changes in price levels. Changes in quantities and price levels are reflected in the interim financial statements in the period in which they occur.

C. Comprehensive Income

A reconciliation of net earnings and total comprehensive income for the three and nine months ended January 31, 2007 and 2006 is as follows (in thousands):

	Three months ended January 31, 2007	Three months ended January 31, 2006
Net earnings	\$ 321	\$ (555)
Change in fair value of cash flow hedge, net of income tax	-0-	-0-
Change in cumulative foreign currency translation adjustments	20	74
 Total comprehensive income (loss)	 \$ 341	 \$ (481)
	Nine months ended January 31, 2007	Nine months ended January 31, 2006
Net earnings	\$ 1,023	\$ 447
Change in fair value of cash flow hedge, net of income tax	-0-	2
Change in cumulative foreign currency translation adjustments	35	16
 Total comprehensive income	 \$ 1,058	 \$ 465

The Company records derivatives on the balance sheet at fair value and establishes criteria for designation and effectiveness of hedging relationships. The nature of the Company's business activities involves the management of various financial and market risks, including those related to changes in interest rates. The Company may from time to time employ derivative financial instruments, such as interest rate swap contracts, to mitigate or eliminate certain of those risks. The Company does not enter into derivative instruments for speculative purposes. There were no derivative instruments outstanding at January 31, 2007.

For the Company's foreign subsidiaries, assets and liabilities are translated at exchange rates prevailing on the balance sheet date. Revenues and expenses are translated at weighted average exchange rates prevailing during the period and any resulting translation adjustments are reported separately in shareholders' equity.

D. Share-based Compensation

Through fiscal year 2003, the Company used stock options as its primary long-term incentive plan for officers. The Company has not granted any stock options since fiscal year 2003. Prior to May 1, 2006, the Company accounted for its share-based employee compensation under the measurement and recognition provisions of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* and related Interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*. In accordance with these guidelines, the Company did not record any share-based employee compensation expense for options granted under its option plans prior to May 1, 2006, as all options granted under these plans had exercise prices equal to the fair market value of the Company's common shares on the date of grant.

Effective May 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R) *Share-Based Payment*, using the modified prospective transition method. Under that transition method, compensation expense that the Company recognizes beginning on May 1, 2006 includes compensation expense for all share options granted prior to, but not yet vested as of May 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123. Expected fiscal year 2007 share-based compensation expense determined in accordance with SFAS No. 123(R) is \$2,298. Results for prior periods are not required to be, nor have they been, restated as a result of the adoption of SFAS No. 123(R).

Share-based compensation expense for the three months ended January 31, 2007 was \$574, as compared to proforma compensation expense of \$3,000 for the prior year. Share based compensation expense for the nine months ended January 31, 2007 was \$1,722 as compared to proforma compensation expense of \$9,000 in the prior year.

E. Defined Pension Plans

The Company has non-contributory defined benefit pension plans covering substantially all salaried and hourly employees. Effective April 30, 2005, no further benefits will be earned under the plans and no additional participants will be added to the plans. At April 30, 2006, the plans assets at fair value exceeded benefit obligations by \$1.6 million. No contributions were paid to the plans during the nine months ended January 31, 2007, and the Company does not expect any contributions to be paid to the plans during the remainder of the current fiscal year.

Pension expense (income) consisted of the following (in thousands):

	Three months ended January 31, 2007	Three months ended January 31, 2006
Service Cost	\$ -0-	\$ -0-
Interest Cost	210	201
Expected return on plan assets	(346)	(309)
Amortization of prior service costs	-0-	-0-
Recognition of net loss	41	71
 Net periodic pension cost (income)	 \$ (95)	 \$ (37)
	Nine months ended January 31, 2007	Nine months ended January 31, 2006
Service Cost	\$ -0-	\$ -0-
Interest Cost	631	597
Expected return on plan assets	(1,039)	(929)
Amortization of prior service costs	-0-	-0-
Recognition of net loss	122	202
 Net periodic pension cost (income)	 \$ (286)	 \$ (130)

F. Credit Arrangements

In October 2006, the Company increased its bank revolving credit facility from \$10 million to \$12 million and extended the maturity date of the facility to December 31, 2007. Total outstanding advances under the credit facility were \$6.0 million at January 31, 2007.

G. Recent Accounting Pronouncements

In October 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements*. The purpose of SFAS No. 157 is to provide users of financial statements with better information about the extent to which fair value is used to measure recognized assets and liabilities, the inputs used to develop the measurements, and the effect of certain of the measurements on earnings for the period. SFAS No. 157 also provides guidance on the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. This changes the definition of fair value to the price that would be received to sell an asset or paid to transfer a liability, (in other words, an exit price), as opposed to the price that would be paid to acquire the asset or received to assume the liability (an entry price). SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company does not expect the adoption of SFAS No. 157 to have a material impact on its consolidated financial position, results of operations or cash flows.

In September 2006, the Securities and Exchange Commission (SEC) released Staff Accounting Bulletin No. 108 (SAB 108). SAB 108 expresses the SEC staff's views regarding the process of quantifying financial statement misstatements. SAB 108 expresses the SEC staff's view that a registrant's materiality evaluation of an identified unadjusted error should quantify the effects of the error on each financial statement and related financial statement disclosures and that prior year misstatements should be considered in quantifying misstatements in current year financial statements. SAB 108 also states that correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. Such correction may be made the next time the registrant files the prior year financial statements. The cumulative effect of the initial application should be reported in the carrying amounts of assets and liabilities as of the beginning of that fiscal year and the offsetting adjustment should be made to the opening balance of retained earnings for that year. Registrants should disclose the nature and amount of each individual error being corrected in the cumulative adjustment. The SEC staff encourages early application of the guidance in SAB 108 for interim period of the first fiscal year ending after November 15, 2006. The Company has not determined what impact, if any, SAB 108 will have on its financial statements.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statement Nos. 87, 88, 106, and 132(R). Post application of SFAS No. 158, an employer will continue to apply the provision in Statements 87, 88, and 106 when measuring plan assets and benefit obligations as of the date of its statement of financial position and in determining the amount of net periodic benefit cost. SFAS No. 158 requires the funded status of a benefit plan to be recognized in the statement of financial position, that is, the difference between plan assets at fair value and the benefit obligation. SFAS No. 158 further requires recognition of gains/losses and prior service costs or credits not recognized pursuant to SFAS No. 87 or SFAS No. 106. Additionally, the measurement date is to be the date of the employer's fiscal year-end. Lastly, SFAS No. 158 requires disclosure in the financial statements of the effects from delayed recognition of gains/losses, prior service costs or credits, and transition assets or obligations. SFAS No. 158 is effective for years ending after December 15, 2006 for employers with publicly traded equity securities and as of the end of the fiscal year ended after June 15, 2007 for employers without publicly traded equity securities. The Company estimates the impact of adopting SFAS No. 158 will result in a charge to comprehensive income of \$2.1 million at April 30, 2007, and a corresponding reduction in prepaid pension cost, related to net unrecognized losses under the plans.

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 provides a comprehensive model for the recognition, measurement, presentation and disclosure in a company's financial statements of uncertain tax positions taken, or expected to be taken, on a tax return. If an income tax position exceeds a more likely than not (i.e., greater than 50%) probability of success upon tax audit, the company will recognize an income tax benefit in its financial statements. Additionally, companies are required to accrue interest and related penalties, if applicable, on all tax exposures consistent with the respective jurisdictional tax laws. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company will adopt FIN 48 in fiscal year 2008. The Company has not determined what impact, if any, FIN 48 will have on its financial position or results of operations.

Item 2. Management's Discussion and Analysis

of Financial Condition and Results of Operations

The Company's 2006 Annual Report to Stockholders contains management's discussion and analysis of financial condition and results of operations at and for the year ended April 30, 2006. The following discussion and analysis describes material changes in the Company's financial condition since April 30, 2006. The analysis of results of operations compares the three and nine months ended January 31, 2007 with the comparable periods of the prior fiscal year.

Results of Operations

Sales for the three months ended January 31, 2007 were \$18,041,000, an increase of 2% over sales of \$17,724,000 in the same period last year. Modestly lower domestic sales were offset by increased sales to international customers. Incoming orders were strong during the quarter. The order backlog increased to \$48.6 million at January 31, 2007, up from \$34.3 million at October 31, 2006 and \$36.4 million at April 30, 2006.

Sales for the nine months ended January 31, 2007 were \$58,720,000, a decrease of 3% from sales of \$60,351,000 in the same period last year. Lower domestic sales were partially offset by increased sales to international customers.

The gross profit margin for the three months ended January 31, 2007 was 20.1% of sales, as compared to 13.8% of sales in the comparable quarter of the prior year. The gross profit margin for the nine months ended January 31, 2007 was 18.4%, as compared to 15.4% in the comparable period of the prior year. The increases in gross profit margins for the three and nine months of the current year were primarily due to lower manufacturing costs attributed to realization of manufacturing efficiencies resulting from previous capital expenditures.

Other operating income of \$884,000 for the nine months ended January 31, 2006 represented a gain from the sale of the Company's Lockhart, Texas property.

Operating expenses for the three months ended January 31, 2007 were \$2.8 million, or 15.7% of sales, as compared to \$3.1 million, or 17.4% of sales, in the comparable period of the prior year. Operating expenses for the nine months ended January 31, 2007 were \$8.4 million, or 14.2% of sales, as compared to \$9.0 million, or 14.8% of sales, in the comparable period of the prior year. The decreases in operating expenses for the current year periods resulted primarily from cost control initiatives.

Operating earnings of \$795,000 and \$2,467,000 were recorded for the three and nine months ended January 31, 2007, respectively, compared to an operating loss of \$633,000 and operating earnings of \$1,249,000 recorded for the comparable periods of the prior year. Operating earnings for the nine months ended January 31, 2006 were favorably impacted by a gain of \$884,000 from the sale of the Company's Lockhart, Texas property.

Interest expense was \$142,000 and \$524,000 for the three and nine months ended January 31, 2007, respectively, compared to \$112,000 and \$317,000 for the same periods of the prior year. The increase in interest expense for the current year periods resulted from a combination of higher interest rates and higher borrowing levels.

Other expense was \$11,000 and other income was \$33,000 in the three and nine months ended January 31, 2007, respectively, compared to other income of \$3,000 and other expense of \$1,000 for the comparable periods of the prior year.

Income tax expenses of \$207,000 and \$613,000 were recorded for the three and nine months ended January 31, 2007, respectively, as compared to an income tax benefit of \$268,000 and income tax expense of \$326,000 recorded for the comparable periods of the prior year. The effective tax rate was 32.2% and 31.0% for the three and nine months ended January 31, 2007 and was 36.1% and 35.0% for the three and nine months ended January 31, 2006, respectively. The effective tax rates for each of the periods in the current and prior year differ from the statutory tax rate due to the impact of earned state and federal tax credits, as well as the impact of taxable income from subsidiaries in foreign countries with differing tax rates. The decreases in effective tax rates in the current year periods as compared to the prior year resulted primarily from the impact of increased earnings from subsidiaries in foreign countries with lower prevailing tax rates.

Minority interest related to the Company's two foreign subsidiaries that are not 100% owned by the Company reduced net earnings by \$114,000 and \$340,000 for the three and nine months ended January 31, 2007, respectively, as compared to minority interest expense of \$81,000 and \$158,000 during the comparable periods of the prior year. The increases in minority interest for the current year periods resulted from increased earnings of the related subsidiaries.

Net earnings for the quarter were \$321,000, or \$0.13 per diluted share, as compared to a net loss of \$555,000, or \$0.22 per diluted share, in the same period last year. Net earnings for the nine months ended January 31, 2007 were \$1,023,000, or \$0.41 per diluted share. Net earnings for the comparable period of the prior year, which benefited from an after-tax gain of \$540,000 related to the sale of the Company's property in Texas, were \$447,000, or \$0.18 per diluted share. Excluding this gain on the sale of property, the net loss in the prior year period was \$93,000, or \$0.04 per diluted share.

Liquidity and Capital Resources

Historically, the Company's principal sources of liquidity have been funds generated from operations, supplemented as needed by short-term borrowings under the Company's revolving credit facility. Additionally, certain machinery and equipment are financed by non-cancelable operating leases or capital leases. The Company believes that these sources will be sufficient to support ongoing business requirements, including capital expenditures through the current fiscal year.

The Company had working capital of \$11.3 million at January 31, 2007, compared to \$11.0 million at April 30, 2006. The ratio of current assets to current liabilities was 1.7-to-1 at January 31, 2007, as compared to 1.5-to-1 at April 30, 2006. At January 31, 2007, advances of \$6,047,000 were outstanding under the credit facility. During the second quarter, the Company increased its bank revolving credit facility from \$10 million to \$12 million and extended the maturity date of the facility to December 31, 2007.

The Company's operations provided cash of \$4,881,000 during the nine months ended January 31, 2007. Cash was provided primarily from operations and a decrease in accounts receivable, which were partially offset by a decrease in accounts payable and other current liabilities. The Company's operations provided cash of \$1,094,000 during the nine months ended January 31, 2006. Cash was provided primarily from a decrease in accounts receivable and an increase in accounts payable and other current liabilities, which were partially offset by an increase in inventories.

During the nine months ended January 31, 2007, net cash of \$1,429,000 was used by investing activities, primarily for capital expenditures. This compares to the net cash of \$865,000 provided from investing activities in the same period of the prior year, which included \$2,500,000 in proceeds from the sale of the Company's Lockhart, Texas property, reduced by capital expenditures of \$1,633,000.

The Company's financing activities used cash of \$2,915,000 during the nine months ended January 31, 2007. Cash used included \$2,169,000 for reductions of short-term borrowings, \$524,000 for cash dividends paid and payments on obligations of capital leases of \$222,000. Financing activities used cash of \$1,294,000 in the same period of the prior year, which included \$2,301,000 to reduce bank overdrafts, \$838,000 for scheduled repayments of long-term debt, \$524,000 for cash dividends, and payments on obligations of capital leases of \$99,000, which were partially offset by advances of \$2,466,000 under the revolving credit facility.

Recent Accounting Pronouncements

In October 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements*. The purpose of SFAS No. 157 is to provide users of financial statements with better information about the extent to which fair value is used to measure recognized assets and liabilities, the inputs used to develop the measurements, and the effect of certain of the measurements on earnings for the period. SFAS No. 157 also provides guidance on the definition of fair value, the methods used to measure fair value, and the expanded disclosures about fair value measurements. This changes the definition of fair value to the price that would be received to sell an asset or paid to transfer a liability, (in other words, an exit price), as opposed to the price that would be paid to acquire the asset or received to assume the liability (an entry price). SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company does not expect the adoption of SFAS No. 157 to have a material impact on its consolidated financial position, results of operations or cash flows.

In September 2006, the Securities and Exchange Commission (SEC) released Staff Accounting Bulletin No. 108 (SAB 108). SAB 108 expresses the SEC staff's views regarding the process of quantifying financial statement misstatements. SAB 108 expresses the SEC staff's view that a registrant's materiality evaluation of an identified unadjusted error should quantify the effects of the error on each financial statement and related financial statement disclosures and that prior year misstatements should be considered in quantifying misstatements in current year financial statements. SAB 108 also

states that correcting prior year financial statements for immaterial errors would not require previously filed reports to be amended. Such correction may be made the next time the registrant files the prior year financial statements. The cumulative effect of the initial application should be reported in the carrying amounts of assets and liabilities as of the beginning of that fiscal year and the offsetting adjustment should be made to the opening balance of retained earnings for that year. Registrants should disclose the nature and amount of each individual error being corrected in the cumulative adjustment. The SEC staff encourages early application of the guidance in SAB 108 for interim period of the first fiscal year ending after November 15, 2006. The Company has not determined what impact, if any, SAB 108 will have its financial statements.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statement Nos. 87, 88, 106, and 132(R). Post application of SFAS No. 158, an employer will continue to apply the provision in Statements 87, 88, and 106 when measuring plan assets and benefit obligations as of the date of its statement of financial position and in determining the amount of net periodic benefit cost. SFAS No. 158 requires the funded status of a benefit plan to be recognized in the statement of financial position, that is, the difference between plan assets at fair value and the benefit obligation. SFAS No. 158 further requires recognition of gains/losses and prior service costs or credits not recognized pursuant to SFAS No. 87 or SFAS No. 106. Additionally, the measurement date is to be the date of the employer's fiscal year-end. Lastly, SFAS No. 158 requires disclosure in the financial statements of the effects from delayed recognition of gains/losses, prior service costs or credits, and transition assets or obligations. SFAS No. 158 is effective for years ending after December 15, 2006 for employers with publicly traded equity securities and as of the end of the fiscal year ended after June 15, 2007 for employers without publicly traded equity securities. The Company estimates the impact of adopting SFAS No. 158 will result in a charge to comprehensive income of \$2.1 million at April 30, 2007, and a corresponding reduction in prepaid pension cost, related to net unrecognized losses under the plans.

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 provides a comprehensive model for the recognition, measurement, presentation and disclosure in a company's financial statements of uncertain tax positions taken, or expected to be taken, on a tax return. If an income tax position exceeds a more likely than not (i.e., greater than 50%) probability of success upon tax audit, the company will recognize an income tax benefit in its

financial statements. Additionally, companies are required to accrue interest and related penalties, if applicable, on all tax exposures consistent with the respective jurisdictional tax laws. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company will adopt FIN 48 in fiscal year 2008. The Company has not determined what impact, if any, FIN 48 will have on its financial position or results of operations.

Outlook for Remainder of Fiscal Year 2007

While the Company's ability to predict future demand for its products continues to be limited given, among other general economic factors affecting the Company and its markets, the Company's role as subcontractor or supplier to dealers of subcontractors, the Company expects the last three months of fiscal year 2007 to be profitable. In addition to general economic factors affecting the Company and its markets, demand for the Company's products is also dependent upon the number of laboratory construction projects planned and/or current progress in projects already under construction. The Company's earnings are also impacted by increased costs of raw materials, including stainless steel, wood, and epoxy resin, and whether the Company is able to increase product prices to customers in amounts that correspond to such increases without materially and adversely affecting sales.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Certain statements in this report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act). Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could significantly impact results or achievements expressed or implied by such forward-looking statements. These factors include, but are not limited to, economic, competitive, governmental, and technological factors affecting the Company's operations, markets, products, services, and prices. The cautionary statements made pursuant to the Reform Act herein and elsewhere by the Company should not be construed as exhaustive or as any admission regarding the adequacy of disclosures made by the Company prior to the effective date of the Reform Act. The Company cannot always predict what factors would cause actual results to differ materially from those indicated by the forward-looking statements. In addition, readers are urged to consider statements that include the terms believes, belief, expects, plans, objectives, anticipates, intends or the like as uncertain and forward-looking. Over time, the Company's actual results, performance or achievements will likely differ from the anticipated results,

performance or achievements that are expressed or implied by the Company's forward-looking statements, and such difference might be significant and harmful to stockholders' interest. Many important factors that could cause such a difference are described under the caption "Risk Factors," in Item 1A of the Company's 2006 Annual Report on Form 10-K.

REVIEW BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

A review of the interim financial information included in this Quarterly Report on Form 10-Q for the three months and nine months ended January 31, 2007 and January 31, 2006 has been performed by Cherry, Bekaert & Holland, L.L.P., the Company's independent auditors. Their report on the interim financial information follows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying consolidated balance sheets of Kewaunee Scientific Corporation and its subsidiaries (the Company) as of January 31, 2007, and the related consolidated statements of operations for the three-month and nine-month periods ended January 31, 2007 and 2006 and the cash flows for the nine-month periods ended January 31, 2007 and 2006. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the Standards of the Public Accounting Oversight Board (United States), the consolidated balance sheet as of April 30, 2006, and the related statements of operations, of stockholder's equity and of cash flows for the year then ended (not presented herein) and in our report dated June 26, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of April 30, 2006 is fairly stated in all material respects in relation to the consolidated financial statement from which it has been derived.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2006.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision and with the participation of the company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of January 31, 2007. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of January 31, 2007, the Company's disclosure controls and procedures were adequate and effective and designed to ensure that all material information required to be disclosed by the Company in its filings with the Securities and Exchange Commission is made known to them by others within the Company and its subsidiaries.

(b) Changes in internal controls

There were no significant changes in the Company's internal controls or in other factors during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect these controls. As no significant deficiencies or material weaknesses were found, no corrective actions were taken.

PART II. OTHER INFORMATION

Item 6. Exhibits

- 31.1 Certification of Chief Executive Officer pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURE

Pursuant to the requirements of the Securities and Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
