PART I

Item 1. BUSINESS

American Woodmark Corporation (American Woodmark or the Company) manufactures and distributes kitchen cabinets and vanities for the remodeling and new home construction markets. American Woodmark was incorporated in 1980 by the four principal managers of the Boise Cascade Cabinet Division through a leveraged buyout of that division. American Woodmark was operated privately until July of 1986 when it became a public company through a registered public offering of its common stock.

American Woodmark currently offers framed stock cabinets in approximately 350 different cabinet lines, ranging in price from relatively inexpensive to medium-priced styles. Styles vary by design and color from natural wood finishes to low-pressure laminate surfaces. The product offering of stock cabinets includes approximately 80 door designs in 11 colors. Stock cabinets consist of a common box with standard interior components and an oak, cherry, maple, or hickory front frame.

Products are primarily sold under the brand names of American Woodmark®, Timberlake®, Shenandoah Cabinetry®, and Potomac®.

American Woodmark's products are sold on a national basis across the United States to the remodeling and new home construction markets. The Company services these markets through three primary channels: home centers, major builders, and independent dealers and distributors. The Company distributes its products to each market channel directly from six assembly plants through a third party logistics network.

The primary raw materials used include oak, maple, cherry, and hickory lumber. Additional raw materials include paint, particleboard, manufactured components, and hardware. The Company currently purchases paint from one supplier; however, other sources are available. Other raw materials are purchased from more than one source and are readily available.

American Woodmark operates in a highly fragmented industry that is composed of several thousand local, regional, and national manufacturers. The Company's principal means for competition is its breadth and variety of product offering, expanded service capabilities, and affordable quality. The Company believes it is one of the three largest manufacturers of kitchen cabinets in the United States.

The Company's business has historically been subject to seasonal influences, with higher sales typically realized in the second and fourth fiscal quarters. General economic forces and changes in the Company's customer mix have reduced seasonal fluctuations in revenue over the past few years.

During the last fiscal year, American Woodmark had two primary customers, The Home Depot and Lowe's Companies, Inc., which together accounted for approximately 66% of the Company's fiscal 2007 sales. The loss of either customer would have a material adverse effect on the Company.

As of April 30, 2007, the Company had 5,148 employees. Approximately 12% of the Company's employees are represented by labor unions. The Company believes that its employee relations are good.

American Woodmark's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports are available free of charge on the Company's Web site at www.americanwoodmark.com as soon as reasonably practicable after such material is electronically filed with the Securities and Exchange Commission. The contents of the Company's website are not, however, part of this report.

The SEC allows the Company to incorporate by reference information it files with the SEC in response to many of the Items in this report. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this report. Several Items in Parts I and II of this report incorporate information from the 2007 Annual Report to Shareholders in response to those Items. The 2007 Annual Report to Shareholders is filed as Exhibit 13 to this report.

Item 1A. RISK FACTORS

There are a number of business risks and uncertainties that may affect our operations. These risks and uncertainties could cause future results to differ from past performance or expected results, including results described in statements elsewhere in this report that constitute forward-looking statements under the Private Securities Litigation Reform Act of 1995. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also may adversely impact our business. Should any risks or uncertainties develop into actual events, these developments could have material adverse effects on our business, financial condition, and results of operations. These risks and uncertainties, which we consider to be most relevant to our specific business activities, include, but are not limited to, the following, as well as additional risk factors included in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations.

Our Business Relies On Remodeling Activity and Residential Construction. Our results of operations are affected by levels of home improvement and residential construction activity, including repair and remodeling and new construction. Interest rates, energy costs, consumer confidence, national and regional economic conditions, and weather conditions and natural disasters can significantly impact levels of home improvement and residential construction activity. We have increased our emphasis on new product development in recent years, and continue to focus on organic growth. Consequently, our financial performance will, in part, reflect our success in implementing our growth strategies in our existing markets and in introducing new products.

The Loss Or A Reduction In Business From Either Of Our Key Customers Would Have A Material Adverse Effect On Our Business. The size and importance to the Company of the two largest customers is significant. These customers could effect significant changes in their volume of purchases and could otherwise significantly affect the terms and conditions on which we do business. Our sales to The Home Depot and Lowe's Companies were approximately 66% of total Company sales for fiscal 2007. Although builders, dealers, and other retailers represent other channels of distribution for the Company's products, an unplanned loss of a substantial portion of our sales to The Home Depot or Lowe's Companies could have a material adverse impact on the Company.

Our Operating Results Are Affected By The Cost And Availability Of Raw Material. Because we are dependent on outside suppliers for our raw material needs, we must obtain sufficient quantities of quality raw materials from our suppliers at acceptable prices and in a timely manner. We have no long-term supply contracts with our key suppliers. A substantial decrease in the availability of products from our suppliers, the loss of key supplier arrangements, or a substantial increase in the cost of our raw materials could adversely impact our results of operations.

We May Not Be Able To Maintain Or Raise The Prices Of Our Products In Response To Inflation And Increasing Costs. Short-term market and competitive pressures may prohibit us from raising prices to offset inflationary raw material and freight costs, which would adversely impact profit margins.

Item 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. The Company maintains a system of disclosure controls and procedures that are designed to provide reasonable assurance that information, which is required to be timely disclosed, is accumulated and communicated to management in a timely fashion. An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) (Disclosure Controls) was performed as of the end of the period covered by this report. This evaluation was performed under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that these Disclosure Controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms.

Management's Report on Internal Control over Financial Reporting. Management's report on internal control over financial reporting and the attestation report of KPMG LLP, the Company's independent registered public accounting firm, on management's assessment of internal control over financial reporting are included in the Annual Report to Shareholders for the year ended April 30, 2007, and are incorporated in this Item 9A by reference. The 2007 Annual Report to Shareholders is included as Exhibit 13 to this report.

Changes in Internal Control over Financial Reporting. There has been no change in the Company's internal control over financial reporting during the fiscal quarter ended April 30, 2007, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
