Such forward-looking statements include, but are not limited to, statements about the benefits of the business combination transaction involving Kindred and RehabCare, including future financial and operating results, the combined company's plans, objectives, expectations and intentions and other statements that are not historical facts.

The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: (a) the receipt of all required licensure and regulatory approvals and the satisfaction of the closing conditions to the acquisition of RehabCare by Kindred, including approval of the pending transaction by the shareholders of the respective companies, and Kindred's ability to complete the required financing as contemplated by the financing commitment; (b) Kindred's ability to integrate the operations of the acquired hospitals and rehabilitation services operations and realize the anticipated revenues, economies of scale, cost synergies and productivity gains in connection with the RehabCare acquisition and any other acquisitions that may be undertaken during 2011, as and when planned, including the potential for unanticipated issues, expenses and liabilities associated with those acquisitions and the risk that RehabCare fails to meet its expected financial and operating targets; (c) the potential for diversion of management time and resources in seeking to complete the RehabCare acquisition and integrate its operations; (d) the potential failure to retain key employees of RehabCare; (e) the impact of Kindred's significantly increased levels of indebtedness as a result of the RehabCare acquisition on Kindred's funding costs, operating flexibility and ability to fund ongoing operations with additional borrowings, particularly in light of ongoing volatility in the credit and capital markets; (f) the potential for dilution to Kindred stockholders as a result of the RehabCare acquisition; and (g) the ability of the Company to operate pursuant to the terms of its debt obligations, including Kindred's obligations under financings undertaken to complete the RehabCare acquisition, and the ability of Kindred to operate pursuant to its master lease agreements with Ventas, Inc. Kindred has obtained a financing commitment from JPMorgan Chase Bank, N.A., Morgan Stanley Senior Funding, Inc. and Citigroup Global Markets Inc. in connection with the pending transaction. The RehabCare acquisition is subject to certain conditions, including approvals by the stockholders of both companies, consummation of financing in accordance with the commitment letters, clearance of the notification to the Federal Trade Commission under the provisions of the Hart-Scott-Rodino Act of 1976, as amended, and the receipt of certain licensure and regulatory approvals. It is expected that the pending transaction will be completed on or about June 30, 2011.

Based upon the pro forma financial projections, revenues for the combined company should approximate \$6.2 billion for the year ended December 31, 2011. Operating income, or earnings before interest, income taxes, depreciation, amortization and rent, is expected to range from \$892 million to \$909 million. Rent expense is expected to approximate \$422 million, while depreciation, amortization and net interest expense are expected to approximate \$303 million. Income from continuing operations for the year could approximate \$101 million to \$111 million or \$1.95 to \$2.15 per diluted share (based upon diluted shares of 51.2 million).

Mr. Diaz commented, "The RehabCare acquisition offers a unique opportunity for significant growth and earnings accretion for Kindred stockholders without excessive leverage. We expect that the adjusted debt of the combined company, using a factor of six times rents, should approximate 4.5 at the end of 2011. This compares to Kindred's stand-alone adjusted leverage of 4.4 at December 31, 2010. In addition, the combined company's ability to generate considerable operating cash flows will allow for significant pay-downs of debt over the next few years.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements regarding Kindred's and RehabCare's expected future financial position, results of operations, cash flows, financing plans, business strategy, budgets, capital expenditures, competitive positions, growth opportunities, plans and objectives of management and statements containing the words such as "anticipate," "approximate," "believe," "plan," "estimate," "expect," "project," "could," "intend," "may" and other similar expressions, are forward-looking statements.

Such forward-looking statements are inherently uncertain. In particular, the pro forma financial projections included in this press release reflect Kindred management's assumptions and estimates as of the date hereof. While Kindred management believes these assumptions and estimates to be reasonable in light of the facts and circumstances known as of the date hereof, the projections are necessarily speculative in nature. Many of these assumptions and estimates are driven by factors beyond the control of Kindred or RehabCare, and it can be expected that one or more of them will not materialize as expected or will vary significantly from actual results. No independent accountants have provided any assurance with respect to these projections. Moreover, Kindred does not undertake any obligation to update projections and does not intend to do so. Accordingly, you should not place undue reliance on these projections or any of the other forward-looking statements in this press release, which are likewise subject to numerous uncertainties, and you should consider all of such information in light of the various risks identified in this press release and in the reports filed by Kindred and RehabCare with the Securities and Exchange Commission (the "SEC"), as well as the other information that Kindred and RehabCare provide with respect to the pending acquisition.

The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: (a) the receipt of all required licensure and regulatory approvals and the satisfaction of the closing conditions to the acquisition of RehabCare by Kindred, including approval of the pending transaction by the shareholders of the respective companies, and Kindred's ability to complete the required financing as contemplated

by the financing commitment; (b) Kindred's ability to integrate the operations of the acquired hospitals and rehabilitation services operations and realize the anticipated revenues, economies of scale, cost synergies and

productivity gains in connection with the RehabCare acquisition and any other acquisitions that may be undertaken during 2011, as and when planned, including the potential for unanticipated issues, expenses and liabilities associated with those acquisitions and the risk that RehabCare fails to meet its expected financial and operating targets; (c) the potential for diversion of management time and resources in seeking to complete the RehabCare acquisition and integrate its operations; (d) the potential failure to retain key employees of RehabCare; (e) the impact of Kindred's significantly increased levels of indebtedness as a result of the RehabCare acquisition on Kindred's funding costs, operating flexibility and ability to fund ongoing operations with additional borrowings, particularly in light of ongoing volatility in the credit and capital markets; (f) the potential for dilution to Kindred stockholders as a result of the RehabCare acquisition; and (g) the ability of the Company to operate pursuant to the terms of its debt obligations, including Kindred's obligations under financings undertaken to complete the RehabCare acquisition, and the ability of Kindred to operate pursuant to its master lease agreements with Ventas, Inc. (NYSE:VTR). Additional factors that may affect future results are contained in Kindred's and RehabCare's filings with the SEC, which are available at the SEC's web site at www.sec.gov. Many of these factors are beyond the control of Kindred or RehabCare. Kindred and RehabCare disclaim any obligation to update and revise statements contained in these materials based on new information or otherwise.

As noted above, this press release includes a financial measure referred to as operating income. Kindred uses operating income as a meaningful measure of operational performance in addition to other measures. Kindred uses operating income to assess the relative performance of its operating divisions as well as the employees that operate these businesses. In addition, Kindred believes this measurement is important because securities analysts and investors use this measurement to compare its performance to other companies in the healthcare industry. Kindred believes that income from continuing operations is the most comparable GAAP measure. Readers of Kindred's financial information should consider income from continuing operations as an important measure of Kindred's financial performance because it provides the most complete measure of its performance. Operating income should be considered in addition to, not as a substitute for, or superior to, financial measures based upon GAAP as an indicator of operating performance. A reconciliation of the estimated operating income to income from continuing operations provided in the pro forma financial projections is included in this press release.
