Blackbaud, Inc.

Notes to consolidated financial statements

(Unaudited)

1. Organization

Blackbaud, Inc. (the Company) provides on-premise and cloud-based software solutions and related services designed specifically for nonprofit organizations, and provides products and services that enable nonprofit organizations to increase donations, reduce fundraising costs, improve communications with constituents, manage their finances and optimize internal operations. As of September 30, 2011, the Company had approximately 24,000 active customers distributed across multiple verticals within the nonprofit market including education, foundations, health and human services, religion, arts and cultural, public and societal benefits, environment and animal welfare and international foreign affairs.

2. Summary of significant accounting policies

Unaudited interim consolidated financial statements

The interim consolidated financial statements as of September 30, 2011, and for the three and nine months ended September 30, 2011 and 2010, have been prepared by the Company pursuant to the rules and regulations of the SEC for interim financial reporting. These consolidated statements are unaudited and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments and accruals) necessary to state fairly the consolidated balance sheets, consolidated statements of operations, consolidated statements of cash flows and consolidated statements of stockholders' equity and comprehensive income for the periods presented in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The consolidated balance sheet at December 31, 2010 has been derived from the audited consolidated financial statements at that date. Operating results for the three and nine months ended September 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011 or any other future period. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. GAAP have been omitted in accordance with the rules and regulations for interim reporting of the SEC. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and other forms filed with the SEC from time to time.

During the nine months ended September 30, 2011, the Company recorded an out-of-period adjustment that increased income from operations by \$0.8 million, \$0.5 million net of tax, for the recognition of net revenue and related commission expense associated with subscription-based solutions for which revenue had not been properly recorded in prior periods. The Company has determined that the impact of this out-of-period adjustment recorded in the nine months ended September 30, 2011 is immaterial to the results of operations in all applicable prior annual and quarterly periods. The Company also expects the impact of the adjustment to be immaterial to the results of operations for the full year 2011. There were no out-of-period adjustments recorded during the three months ended September 30, 2011.

Basis of consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Areas of the financial statements where estimates may have the most significant effect include revenue recognition, the allowance for sales returns and doubtful accounts, valuation of long-lived and intangible assets and goodwill, stock-based compensation, the provision for income taxes and

Table of Contents

Blackbaud, Inc.

Notes to consolidated financial statements

(Unaudited)

valuation of deferred tax assets. Changes in the facts or circumstances underlying these estimates could result in material changes and actual results could materially differ from these estimates.

Revenue recognition

The Company's revenue is primarily generated from the following sources: (1) selling perpetual licenses of its software products; (2) charging for the use of its software products in a hosted environment; (3) providing professional services including implementation, training, consulting, analytic, hosting and other services; and (4) providing software maintenance and support services.

License fees

The Company recognizes revenue from the sale of perpetual software license rights when all of the following conditions are met:

persuasive evidence of an arrangement exists;

the product has been delivered;

the fee is fixed or determinable; and

collection of the resulting receivable is probable.

The Company deems acceptance of an agreement to be evidence of an arrangement. Delivery occurs when the product is shipped or transmitted, and title and risk of loss have transferred to the customers. The Company's typical license agreement does not include customer acceptance provisions; however, if acceptance provisions are provided, delivery is deemed to occur upon acceptance. The Company considers the fee to be fixed or determinable unless the fee is subject to refund or adjustment or is not payable within the Company's standard payment terms. Payment terms greater than 90 days are considered to be beyond the Company's customary payment terms. Collection is deemed probable if the Company expects that the customer will be able to pay amounts under the arrangement as they become due. If the Company determines that collection is not probable, it defers revenue recognition until collection.

The Company sells software licenses with maintenance, varying levels of professional services and, in certain instances, with hosting services. The Company allocates revenue to delivered components, normally the license component of the arrangement, using the residual value method based on objective evidence of the fair value of the undelivered elements, which is specific to the Company. Fair value for maintenance services associated with software licenses is based upon renewal rates stated in the agreements with customers, which vary according to the level of support service provided under the maintenance program. Fair value of professional services and other products and services is based on sales of these products and services to other customers when sold on a stand-alone basis. When a software license is sold with software customization services, generally the services are to provide customer support for assistance in creating special reports and other enhancements that will assist with efforts to improve operational efficiency and/or to support business process improvements. These services are not essential to the functionality of the software. However, when software customization services are considered essential to the functionality of the software, the Company recognizes revenue for both the software license and the services on a percent-complete basis.

Subscriptions

Edgar Filing: BLACKBAUD INC - Form 10-Q

The Company provides hosting services to customers who have purchased perpetual rights to certain of its software products (hosting services). Revenue from hosting services, as well as data enrichment services, data management services and online training programs is recognized ratably over the service period of the contract, which generally ranges from one to three years, upon deployment and use of the service. Any related set-up fees are recognized ratably over the estimated customer relationship period.

The Company makes certain of its software products available for use in hosted application arrangements without licensing perpetual rights to the software (hosted applications). Revenue from hosted applications is recognized

Table of Contents

Blackbaud, Inc.

Notes to consolidated financial statements

(Unaudited)

over the subscription service period, which generally ranges from one to three years, upon deployment and use of the hosted application. Any related upfront activation, set-up or implementation fees are recognized ratably over the estimated customer relationship period. Direct and incremental costs relating to activation, set-up and implementation for hosted applications are capitalized until the hosted application is deployed and in use, and then expensed over the estimated customer relationship period.

For arrangements that have multiple elements and do not include software licenses, the Company allocates arrangement consideration at the inception of the arrangement to those elements that qualify as separate units of accounting. The arrangement consideration is allocated to the separate units of accounting based on relative selling price method in accordance with the selling price hierarchy, which includes: (i) vendor specific objective evidence (VSOE) if available; (ii) third party evidence (TPE) if VSOE is not available; and (iii) best estimate of selling price if neither VSOE nor TPE is available. In general, the Company uses VSOE to allocate the selling price to subscription and service deliverables.

Revenue from transaction processing fees is recognized when received. Credit card fees directly associated with processing donations for customers are included in subscription revenue, net of related transaction costs.

Services

The Company generally bills consulting, installation and implementation services based on hourly rates plus reimbursable travel-related expenses. Revenue is recognized for these services over the period the services are performed.

The Company recognizes analytic services revenue from donor prospect research engagements, the sale of lists of potential donors, benchmarking studies and data modeling service engagements upon delivery.

The Company sells training at a fixed rate for each specific class, at a per attendee price or at a packaged price for several attendees, and revenue is recognized only upon the customer attending and completing training. Additionally, the Company sells fixed-rate programs, which permit customers to attend unlimited training over a specified contract period, typically one year, subject to certain restrictions, and revenue is recognized ratably over this contract period.

Maintenance

The Company recognizes revenue from maintenance services ratably over the contract term, which is typically one year. Maintenance contracts are at rates that vary according to the level of the maintenance program and are generally renewable annually. Maintenance contracts also include the right to unspecified product upgrades on an if-and-when available basis. Certain support services are sold in prepaid units of time and recognized as revenue upon their usage.

Deferred revenue

To the extent that the Company's customers are billed or pay for the above described services in advance of delivery, the Company records such amounts in deferred revenue.

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)****Goodwill**

The change in goodwill by reportable segment during the nine months ended September 30, 2011 consisted of the following:

(in thousands)	ECBU	GMBU	IBU	Other	Total
Balance at December 31, 2010	\$ 43,152	\$ 26,472	\$ 4,514	\$ 2,109	\$ 76,247
Additions related to business combinations	13,040	-	-	-	13,040

Total included in cost of revenue	1,582	1,548	4,778	4,594
Included in operating expenses	249	195	729	587
Total	\$ 1,831	\$ 1,743	\$ 5,507	\$ 5,181

Recently adopted accounting pronouncements

Effective January 1, 2011, the Company adopted Accounting Standards Update (ASU) 2009-13, which amends the existing criteria for separating consideration in multiple-deliverable arrangements. Arrangements that include perpetual software licenses are excluded from the scope of this ASU. ASU 2009-13 establishes a hierarchy for determining the selling price of a deliverable and requires the use of best estimate of the selling price when VSOE or TPE of the selling price cannot be determined. As a result of the requirement to use the best estimate of the selling price when VSOE or TPE of the selling price cannot be determined, the residual method will no longer be permitted. ASU 2009-13 is applicable prospectively for revenue arrangements entered into or materially modified after the adoption date. The adoption of ASU 2009-13 did not have a material impact on the Company's consolidated financial statements.

Recently issued accounting pronouncements

Edgar Filing: BLACKBAUD INC - Form 10-Q

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (Topic 220): Presentation of Comprehensive Income*, which eliminates the option to present components of other comprehensive income, or OCI, as part of the statement of changes in stockholders' equity, requires the presentation of each component of net income and each component of OCI either in a single continuous statement or in two separate but consecutive statements and also

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

requires presentation of reclassification adjustments on the face of the financial statements. The Company is required to adopt ASU 2011-05 on January 1, 2012. Early adoption is permitted. The Company does not believe the adoption of ASU 2011-05 will have a material effect on its consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles – Goodwill and Other (Topic 350)*, which simplifies how entities test goodwill for impairment. ASU 2011-08 permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. ASU 2011-08 is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011. Early adoption is permitted, provided that the entity has not yet performed its 2011 annual impairment test or issued its financial statements. The Company does not anticipate any material impact from the adoption of ASU 2011-08 and plans to elect to early adopt the guidance when it performs its goodwill impairment test in the fourth quarter of 2011.

3. Business combinations**PIDI**

On February 1, 2011, the Company acquired all of the outstanding stock of Public Interest Data, Inc. (PIDI), a privately held company based in Virginia, for \$16.6 million in cash. The acquisition of PIDI provided the Company additional capabilities in the area of donor acquisition list analytics and should enhance the Company's database management services offerings. The additional capabilities include the established process for delivering list analytic and data management services as well as the associated experienced workforce and technology. The results of operations of PIDI are included in the consolidated financial statements of the Company from the date of acquisition. During the first nine months of 2011, total revenue from PIDI was \$5.6 million and cost of revenue was \$3.5 million. Acquisition-related costs of \$1.0 million, which primarily consisted of legal and financial advisory services, were expensed as incurred in general and administrative expense during the nine months ended September 30, 2011.

In addition to the consideration paid at closing, the Company might be required to pay up to a maximum of \$2.5 million in additional cash consideration if PIDI meets revenue targets over the two years subsequent to the acquisition. A liability of \$1.4 million was initially recognized for the estimated contingent consideration that will be paid based on a probability-weighted discounted cash flow valuation technique. Any change in the fair value, or any change upon final settlement, of the contingent consideration liability will be recognized in income from operations.

The following table summarizes the allocation of the purchase price based on the estimated fair value of the assets acquired and liabilities assumed:

(in thousands)	
Cash and cash equivalents	\$ 91
Accounts receivable	686
Other assets, current and noncurrent	291
Property and equipment	459
Intangibles	7,390
Goodwill	13,040
Trade accounts payable	(478)
Accrued expenses and other liabilities	(1,814)
Deferred tax liabilities, current and noncurrent	(3,099)

Edgar Filing: BLACKBAUD INC - Form 10-Q

\$ 16,566

The estimated fair value of accounts receivable approximates contractual value. The goodwill recognized is attributable primarily to the assembled workforce of PIDI and the opportunities for expected synergies. None of the

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

goodwill arising in the acquisition is deductible for income tax purposes. All of the goodwill is assigned to the ECBU reporting segment. The acquisition resulted in the identification of the following intangible assets:

	Intangible assets acquired (in thousands)	Weighted average amortization period (in years)
Customer relationships	\$ 5,150	15
Marketing assets	140	2
Acquired software	1,550	8
Non-compete agreements	550	4
	\$ 7,390	

The fair value of the intangible assets was based on the income approach, which included both the relief of royalty and multi-period excess earnings methods. Customer relationships are amortized on an accelerated basis. Marketing assets, acquired software and non-compete agreements are amortized on a straight-line basis.

Pro forma results of operations for PIDI have not been presented because the results of PIDI are not material to the Company's consolidated financial results.

4. Earnings per share

The Company computes basic earnings per share by dividing net income available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings per share is computed by dividing net income available to common stockholders by the weighted average number of common shares and dilutive potential common shares then outstanding. Diluted earnings per share reflect the assumed conversion of all dilutive securities using the treasury stock method. Dilutive potential common shares consist of shares issuable upon the exercise of stock options, settlement of stock appreciation rights and vesting of restricted stock awards and units.

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended September 30,		Nine months ended September 30,	
(in thousands, except share and per share amounts)	2011	2010	2011	2010
Numerator:				
Net income, as reported	\$ 9,761	\$ 8,519	\$ 26,273	\$ 21,261
Denominator:				
Weighted average common shares	43,548,494	42,747,209	43,449,958	43,145,289
Add effect of dilutive securities:				
Employee stock options and restricted stock	599,417	725,613	595,480	735,265
Weighted average common shares assuming dilution	44,147,911	43,472,822	44,045,438	43,880,554

Edgar Filing: BLACKBAUD INC - Form 10-Q

Earnings per share:

Basic	\$	0.22	\$	0.20	\$	0.60	\$	0.49
Diluted	\$	0.22	\$	0.20	\$	0.60	\$	0.48

The following shares and potential shares underlying stock-based awards were not included in diluted earnings per share because their inclusion would have been anti-dilutive:

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Shares excluded from calculations of diluted EPS	357,090	124,235	372,380	147,957

5. Comprehensive income

Total comprehensive income for the three and nine months ended September 30, 2011 and 2010 is as follows:

(in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Net income	\$ 9,761	\$ 8,519	\$ 26,273	\$ 21,261
Foreign currency translation adjustment, net of tax	(171)	148	(175)	(136)
Comprehensive income	\$ 9,590	\$ 8,667	\$ 26,098	\$ 21,125

The tax benefit allocated to the translation adjustment recorded in accumulated other comprehensive income (loss) was \$0.1 million for the three and nine months ended September 30, 2011 and the nine months ended September 30, 2010. For the three months ended September 30, 2010, a tax expense of \$0.1 million was allocated to the translation adjustment recorded in accumulated other comprehensive income (loss).

6. Prepaid expenses and other current assets

Prepaid expenses and other current assets consisted of the following as of September 30, 2011 and December 31, 2010:

(in thousands)	September 30, 2011	December 31, 2010
Deferred sales commissions	\$ 14,536	\$ 11,666
Prepaid software maintenance and royalties	6,398	4,352
Deferred professional services costs	3,307	3,447
Taxes, prepaid and receivable	265	10,826
Other	6,218	3,556
Total prepaid expenses and other current assets	\$ 30,724	\$ 33,847

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)****7. Accrued expenses and other current liabilities**

Accrued expenses and other current liabilities consisted of the following as of September 30, 2011 and December 31, 2010:

(in thousands)	September 30, 2011	December 31, 2010
Accrued bonuses	\$ 9,006	\$ 8,952
Accrued commissions and salaries	5,205	5,922
Customer credit balances	3,684	3,379
Taxes payable	5,339	3,683
Accrued royalties	1,317	1,273
Other	5,854	5,113
Total accrued expenses and other current liabilities	\$ 30,405	\$ 28,322

8. Debt**Revolving credit facility**

In June 2011, the Company entered into a new five-year \$125.0 million revolving credit facility, which has three options to increase the amount available under the facility up to an additional \$75.0 million, subject to certain terms and conditions. The revolving credit facility is guaranteed by the Company's material subsidiaries, as defined, and is collateralized with the stock of all of the Company's subsidiaries, as defined. At September 30, 2011, there were no outstanding borrowings under the credit facility. There was also no outstanding balance on the previous credit facility at the time of termination.

Amounts borrowed under the revolving credit facility bear interest, at the Company's option, at a variable rate based on (a) the highest of (i) the prime rate (ii) federal funds rate plus 0.5% or (iii) one month LIBOR plus 1%, in addition to a margin of 0.375% to 1.0% (Base Rate Loans) or (b) LIBOR plus a margin of 1.375% to 2.0% (LIBOR Loans). The exact amount of any margin depends on the nature of the loan and the Company's leverage ratio at the time of the borrowing. The Company also pays a quarterly commitment fee on the unused portion of the revolving credit facility equal to 0.25%, 0.275%, 0.3% or 0.35% per annum, depending on the Company's leverage ratio. At September 30, 2011, the commitment fee was 0.25%.

Under the credit facility, the Company has the ability to choose either Base Rate Loans or LIBOR Loans. Base rate borrowings mature in June 2016. LIBOR Loans can be one, two, three or six month maturities (or, if agreed to by all applicable lenders, nine or twelve months), and the Company has the ability to extend the maturity of these loans by rolling them at their maturity into new loans with the same or longer maturities. The Company evaluates the classification of its debt based on the maturity of individual borrowings and any roll-over of borrowings subsequent to the balance sheet date, but prior to issuance of the consolidated financial statements.

Deferred financing costs

In connection with the Company's new credit facility, the Company paid \$0.8 million of financing costs, which will be amortized over the term of the new facility. As of September 30, 2011 and December 31, 2010, deferred financing costs totaling \$0.8 million and \$0.1 million, respectively, are included in other assets on the consolidated balance sheet.

9. Commitments and contingencies

Leases

12

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

The Company leases its headquarters facility. The lease agreement has a term of 15 years with two five-year renewal options by the Company. The annual base rent of the lease is \$3.6 million payable in equal monthly installments. The base rent escalates annually at a rate equal to the change in the consumer price index, as defined in the agreement, but not to exceed 5.5% in any year. In addition, under the terms of the lease, the lessor will reimburse the Company an aggregate amount of \$4.0 million for leasehold improvements, which will be recorded as a reduction to rent expense ratably over the term of the lease. During each of the three and nine-month periods ended September 30, 2011 and 2010 rent expense was reduced by \$67,000 and \$200,000, respectively, related to this lease provision. The \$4.0 million leasehold improvement allowance has been included in the table below of operating lease commitments as a reduction in the Company's lease commitments ratably over the then remaining life of the lease from October 2008. The timing of the reimbursements for the actual leasehold improvements may vary from the amount reflected in the table below.

Additionally, the Company has subleased a portion of its facilities under various agreements extending through 2012. Under these agreements, rent expense was reduced by \$0.1 million and \$0.3 million in each of the three and nine-month periods ended September 30, 2011 and 2010, respectively. The operating lease commitments in the table below have been reduced by minimum aggregate sublease commitments of \$0.1 million and \$0.3 million for 2011 and 2012, respectively. No minimum aggregate sublease commitments exist after 2012. The Company has also received, and expects to receive through 2012, quarterly South Carolina state incentive payments as a result of locating its headquarters facility in Berkeley County, South Carolina. These amounts are recorded as a reduction of rent expense and were \$0.5 million in each of the three months ended September 30, 2011 and 2010, and \$1.7 million and \$1.6 million for the nine months ended September 30, 2011 and 2010, respectively.

Additionally, the Company leases various office space and equipment under operating leases. The Company also has various non-cancelable capital leases for computer equipment and furniture that are not significant.

As of September 30, 2011, the future minimum lease commitments related to operating lease agreements, net of related sublease commitments and lease incentives, were as follows:

Year ending December 31,**(in thousands)**

2011 remaining	\$ 1,801
2012	6,527
2013	5,636
2014	5,360
2015	5,006
Thereafter	37,514

Total minimum lease payments	\$ 61,844
------------------------------	-----------

Other commitments

The Company utilizes third-party relationships in conjunction with its products, with contractual arrangements varying in length from one to three years. In certain cases, these arrangements require a minimum annual purchase commitment. As of September 30, 2011, the remaining aggregate minimum purchase commitment under these arrangements is approximately \$4.7 million through 2013. The Company incurred expense under these arrangements of \$1.8 million and \$1.5 million for the three months ended September 30, 2011 and 2010, respectively, and \$4.4 million and \$3.1 million for the nine months ended September 30, 2011 and 2010, respectively.

Legal contingencies

Edgar Filing: BLACKBAUD INC - Form 10-Q

The Company is subject to legal proceedings and claims that have arisen in the ordinary course of business. The Company records an accrual for a contingency when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company does not believe the amount of potential liability with respect to these actions will have a material adverse effect upon the Company's consolidated financial position, results of operations or cash flows.

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)****10. Income taxes**

The Company calculated the provision for income taxes for the three and nine months ended September 30, 2011 using the 2011 projected annual effective tax rate of 36.6%, which excludes period-specific items. The Company's effective tax rate, including the effects of period-specific events, was as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Effective tax rate	37.3%	35.2%	34.2%	36.9%

Period-specific items recorded in the nine months ended September 30, 2011 included a decrease of \$1.0 million in the valuation allowance for certain state net operating loss carryforwards, which reduced income tax expense. Period-specific items recorded in the three and nine months ended September 30, 2010 include the recognition of tax benefits related to a change in estimate for 2009 research and development credits of \$0.5 million, net of reserves for uncertain tax positions.

The Company has deferred tax assets for, among other items, federal net operating loss carryforwards, state net operating loss carryforwards, and state tax credits. A portion of the state net operating loss carryforwards and state tax credits have a valuation reserve due to the uncertainty of realizing such carryforwards and credits in the future. Additionally, the Company has a valuation allowance for certain state deferred tax assets acquired from Kintera.

The Company recorded net excess tax benefits on stock option and stock appreciation right exercises and restricted stock vesting of \$0.2 million and \$1.2 million in stockholders' equity during the nine months ended September 30, 2011 and 2010, respectively.

The total amount of unrecognized tax benefit that, if recognized, would favorably affect the effective tax rate, was \$1.7 million at September 30, 2011. The Company recognizes accrued interest and penalties, if any, related to unrecognized tax benefits as a component of income tax expense. The total amount of accrued interest and penalties was \$0.1 million at September 30, 2011. The total amount of accrued interest and penalties was not material to the consolidated balance sheet as of December 31, 2010, or to the consolidated statements of operations for the three and nine months ended September 30, 2011 or 2010.

The Company has taken positions in certain taxing jurisdictions related to state nexus issues for which it is reasonably possible that the total amounts of unrecognized tax benefits might decrease within the next twelve months. This possible decrease could result from the finalization of state income tax reviews and the expiration of statutes of limitations. The reasonably possible decrease was not material at September 30, 2011.

It continues to be the Company's intention to indefinitely reinvest undistributed foreign earnings. Accordingly, no deferred tax liability has been recorded in connection with the undistributed foreign earnings. It is not practicable for the Company to determine the amount of the unrecognized deferred tax liability for temporary differences related to investments in foreign subsidiaries.

11. Stock-based compensation

During the nine months ended September 30, 2011, the Company issued 48,827 shares of restricted stock and 30,325 stock appreciation rights with an aggregate grant date fair value of \$1.3 million and \$0.3 million, respectively. The Company also issued performance-based restricted stock units to certain executive officers with an aggregate grant date value range of zero to \$1.3 million depending on the achievement of the various performance targets. Under the performance-based restricted stock unit agreements, if the minimum performance targets are not met, the restricted stock units will not vest and no shares of the Company's common stock will be granted. Compensation cost for the performance-based awards will be recognized to the extent the performance

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

targets are achieved using the graded-vesting method over the requisite service period of three years. No stock options were issued in the nine months ended September 30, 2011.

Stock-based compensation expense is allocated to expense categories on the consolidated statements of operations based on where the associated employee's compensation is recorded. The following table summarizes stock-based compensation expense for the three and nine months ended September 30, 2011 and 2010.

(in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Included in cost of revenue:				
Cost of subscriptions	\$ 80	\$ 112	\$ 407	\$ 279
Cost of services	491	380	1,395	1,230
Cost of maintenance	193	219	573	574
Total included in cost of revenue	764	711	2,375	2,083
Included in operating expenses:				
Sales and marketing	305	272	934	977
Research and development	759	715	2,273	2,130
General and administrative	1,759	1,482	5,331	4,050
Total included in operating expenses	2,823	2,469	8,538	7,157
Total	\$ 3,587	\$ 3,180	\$ 10,913	\$ 9,240

12. Stockholders' equity**Dividends**

The following table provides information with respect to quarterly dividends paid on common stock during the nine months ended September 30, 2011.

Declaration Date	Dividend per Share	Record Date	Payable Date
February 2011	\$ 0.12	February 28	March 15
May 2011	\$ 0.12	May 27	June 15
August 2011	\$ 0.12	August 26	September 15

In November 2011, the Company's Board of Directors declared a fourth quarter dividend of \$0.12 per share payable on December 15, 2011 to stockholders of record on November 28, 2011.

13. Segment information

The Company is organized into three operating units that are aligned to key customer groups. Following is a description of each operating unit:

Edgar Filing: BLACKBAUD INC - Form 10-Q

The ECBU is focused on marketing, sales, delivery and support to large and/or strategic, specifically identified named prospects and customers in North America. In addition, ECBU is focused on marketing, sales and delivery of analytic services to all prospects and customers worldwide.

The GMBU is focused on marketing, sales, delivery and support to all emerging and mid-sized prospects and customers in North America that are not specifically identified as ECBU prospects and customers.

The IBU is focused on marketing, sales, delivery and support to all prospects and customers outside of North America. The Company has determined that the three operating units represent the Company's reportable segments. The Company's chief operating decision maker is its chief executive officer, or CEO. The CEO reviews financial

Table of Contents**Blackbaud, Inc.****Notes to consolidated financial statements****(Unaudited)**

information presented on an operating segment basis for the purposes of making certain operating decisions and assessing financial performance. The CEO uses internal financial reports that provide segment revenues and operating income, excluding stock-based compensation expense, amortization expense, depreciation expense, research and development expense and certain corporate sales, marketing, general and administrative expenses. The CEO believes that the exclusion of these costs allows for a better understanding of the operating performance of the operating units and management of other operating expenses and cash needs. The CEO does not review any segment balance sheet information.

(in thousands)	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q. This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements reflect our current view with respect to future events and financial performance and are subject to risks and uncertainties, including those set forth under "Cautionary statement" included in this "Management's discussion and analysis of financial condition and results of operations" and elsewhere in this report, that could cause actual results to differ materially from historical or anticipated results.

Executive summary

We provide on-premise and cloud-based software solutions and related services designed specifically for nonprofit organizations. Our products and services enable nonprofit organizations to increase donations, reduce fundraising costs, improve communications with constituents, manage finances and optimize internal operations. We have focused solely on the nonprofit market since our incorporation in 1982 and have developed our suite of products and services based upon our extensive knowledge of the operating challenges facing nonprofit organizations. As of September 30, 2011, we had approximately 24,000 active customers. Our customers operate in multiple verticals within the nonprofit market, including education, foundations, health and human services, religion, arts and cultural, public and societal benefits, environment and animal welfare and international foreign affairs.

We derive revenue from selling perpetual licenses or charging for the use of our software products in a hosted environment and providing a broad offering of services, including consulting, training, installation and implementation, as well as ongoing customer support and maintenance. Consulting, training and implementation services are generally not essential to the functionality of our software products and are sold separately. Furthermore, we derive revenue from providing hosting services, performing donor prospect research engagements, selling lists of potential donors, and providing benchmarking studies and data modeling services.

Overall, revenue for both the third quarter of 2011 and the first nine months of 2011 increased by 15% compared to the same periods in 2010. After removing the impact of foreign currency translation and revenue from acquired companies, revenue increased by approximately 11% for both the third quarter of 2011 and the first nine months of 2011 when compared to the same periods in 2010. These increases resulted from continued growth in our subscription revenue, principally attributable to increased demand for our hosting services, online fundraising and data management offerings and the shift in our business towards hosted solutions. Also contributing to the growth in revenue is an increase in our services revenue, which is primarily due to an increase in volume of consulting and training services provided. We continue to experience declines in revenue associated with our core perpetual license offerings as a result of the continuing decreases in sales of our perpetual license offerings to the mid-market customer base, which is principally the result of customers opting to purchase our solutions under alternative packaging with more flexible subscription-based pricing. We believe this trend will continue in the future.

Income from operations for the third quarter of 2011 and the first nine months of 2011 increased by \$2.6 million and \$5.8 million, respectively, when compared to the same periods in 2010. The increase in income from operations is primarily attributable to growth in revenue, partially offset by (1) acquisition-related costs, (2) an increase in stock-based compensation expense and (3) an increase in sales and marketing, research and development and general and administrative expenses. The increase in these expenses is principally attributable to merit-based salary increases, an increase in commission expense associated with higher commissionable revenue and an increase in marketing costs associated with the launch of our new corporate branding and newly packaged offerings.

We ended the third quarter of 2011 with cash and cash equivalents totaling \$52.0 million and no outstanding borrowings on our credit facility. During the first nine months of 2011, we generated \$67.7 million in cash flow from operations, of which we used \$16.5 million to acquire a business, \$16.0 million to pay dividends and \$13.0 million to purchase software and computer equipment.

While we have experienced growth in revenue as our market has stabilized, the global economy continues to be volatile and its impact on the nonprofit market remains uncertain. We expect that our existing and prospective customers will remain cautious in their expenditure decisions for the remainder of 2011. Notwithstanding these conditions, we remain focused on execution, investing in our key growth initiatives, strengthening our leadership position and carefully managing our costs and expenses to achieve our targeted level of profitability.

Table of Contents**GBlackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)****Results of operations****Comparison of the three and nine months ended September 30, 2011 and 2010**

We have included the results of operations of acquired companies in our consolidated result of operations from the date of acquisition. We have noted in the discussion below, to the extent meaningful, the impact on the comparability of our consolidated results of operations due to the inclusion of acquired companies.

We completed the acquisition of PIDI on February 1, 2011. During the first nine months of 2011, PIDI's total revenue was \$5.6 million, cost of revenue was \$3.5 million and operating expenses was \$0.1 million.

Revenue

The table below compares revenue from our statements of operations for the three and nine months ended September 30, 2011 with the same period in 2010.

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
License fees	\$ 4.9	\$ 5.1	\$ (0.2)	(4)%	\$ 14.6	\$ 17.2	\$ (2.6)	(15)%
Subscriptions	26.0	21.2	4.8	23%	77.4	60.8	16.6	27%
Services	29.8	24.0	5.8	24%	81.8	64.9	16.9	26%
Maintenance	32.9	31.4	1.5	5%	97.3	93.0	4.3	5%
Other	1.9	1.5	0.4	27%	5.1	4.2	0.9	21%
Total revenue	\$ 95.5	\$ 83.2	\$ 12.3	15%	\$ 276.2	\$ 240.1	\$ 36.1	15%

Total revenue increased by 15% in both the third quarter of 2011 and in the first nine months of 2011 when compared to the same periods in 2010. When removing the impact of revenue from acquired companies, revenue increased by 12% in both the third quarter of 2011 and the first nine months of 2011 when compared to the same periods in 2010. The increase in revenue is primarily attributable to growth in our subscriptions and services revenue. The increase in subscriptions revenue is primarily due to an increase in demand for our hosting services, online fundraising and data management offerings. The growth in revenue from our subscription offerings is also a result of the ongoing evolution of our product offerings from traditional perpetual license-based arrangements with upfront payments to subscription-based offerings with more flexible pricing and payments. Services revenue grew principally due to an increase in the volume of consulting services associated with implementation engagements of Blackbaud Enterprise CRM. The increase in maintenance revenue is primarily attributable to new maintenance contracts associated with new license agreements and increases in contracts with existing customers when compared to the same periods in 2010. The decrease in license fees is principally attributable to the continued shift in our customers' buying preference away from traditional perpetual license-based arrangements with upfront payments to offerings with subscription-based payment arrangements.

Operating results

The operating results analyzed below are presented on a non-GAAP basis in that: the results exclude the impact of stock-based compensation expense, amortization of intangibles arising from business combinations, and gain on the sale of assets and acquisition-related expenses incurred in connection with our 2011 acquisition of PIDI. We believe that the exclusion of these costs allows us to better understand and manage our operating expenses and cash needs. These excluded costs are analyzed separately following the discussion of operating expenses.

License fees

Edgar Filing: BLACKBAUD INC - Form 10-Q

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
License fee revenue	\$ 4.9	\$ 5.1	\$ (0.2)	(4)%	\$ 14.6	\$ 17.2	\$ (2.6)	(15)%
Controllable cost of license fees	0.6	0.5	0.1	20%	2.1	1.9	0.2	11%

We derive revenue from license fees from the sale of our software products under a perpetual license agreement. We continue to experience a shift in our customers buying preference away from solutions offered under perpetual

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

license arrangements with upfront payments to offerings with subscription-based payment arrangements. Additionally, we continue to experience long sales cycle times, delays and postponements of purchasing decisions and overall caution exercised by existing and prospective customers as a result of continued challenges posed by the economic environment. During the third quarter of 2011, revenue from license fees remained relatively unchanged when compared to the same period in 2010. During the first nine months of 2011, revenue from license fees principally decreased due to a decline in the license fee component of sales to new customers when compared to the same period in 2010.

Direct controllable cost of license fees is principally comprised of third-party software royalties and variable reseller commissions. The increase in cost of license fees in the third quarter and first nine months of 2011 compared to the same periods in 2010 is primarily attributable to higher third-party software royalties and reseller commissions. Reseller commissions have increased due to the increase in use of resellers during the first nine months of 2011 when compared to the same period in 2010.

The decrease in license fee gross margin in the third quarter of 2011 and the first nine months of 2011 when compared to the same periods in 2010 is the result of an increase in the mix of software license transactions in which we paid variable reseller commissions and had higher associated third-party software royalty costs.

Subscriptions

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
Subscriptions revenue	\$ 26.0	\$ 21.2	\$ 4.8	23%	\$ 77.4	\$ 60.8	\$ 16.6	27%
Controllable cost of subscriptions	9.7	7.1	2.6	37%	27.4	20.2	7.2	36%
Subscriptions gross profit	\$ 16.3	\$ 14.1	\$ 2.2	16%	\$ 50.0	\$ 40.6	\$ 9.4	23%
Subscriptions gross margin	63%	67%			65%	67%		

Revenue from subscriptions is principally comprised of revenue from providing access to hosted applications and hosting services, access to certain data services and our online subscription training offerings, and variable transaction fees associated with the use of our products to fundraise online. We continue to experience growth in our hosted applications business and are increasingly experiencing a shift in our customers' buying preference away from traditional perpetual licenses arrangements with upfront payment terms towards subscription based-offerings with more flexible pricing and payments. Additionally, revenue from our hosting services continues to increase as demand for these services continues to grow from both our existing and new perpetual license customers.

Excluding the impact of acquired companies, subscriptions revenue increased by \$3.2 million, or 15% in the third quarter of 2011 when compared to the same period in 2010. This increase is principally attributable to the increase in demand for hosting services, online data services and data management offerings.

Subscriptions revenue for the first nine months of 2011 includes an out-of-period adjustment of \$1.7 million, which increased subscriptions revenue in the first quarter of 2011, related to our accounting for subscription-based offerings that were earned in prior periods. Excluding the impact of the out-of-period adjustment and the impact of acquired companies, subscriptions revenue increased by \$10.3 million, or 17% in the first nine months of 2011 when compared to the same period in 2010. This increase is principally attributable to the increase in demand for hosting services, online fundraising and data management offerings.

Controllable cost of subscriptions is primarily comprised of human resource costs, third-party royalty and data expenses, hosting expenses, an allocation of depreciation, facilities and IT support costs and other costs incurred in providing support and services to our customers. The increase in cost of subscriptions in the third quarter of 2011 and in the first nine months of 2011 compared to the same periods in 2010 is principally attributable to an increase in headcount and investments we are making in our infrastructure to support the growth in our subscription

Edgar Filing: BLACKBAUD INC - Form 10-Q

offerings. Human resource costs increased \$1.6 million and \$4.9 million in the third quarter of 2011 and the first nine months of 2011, respectively, compared to the same periods in 2010 as a result of the increase in headcount. Additional headcount due to the inclusion of acquired companies represented approximately \$0.8 million and \$2.5 million of the increase in human resource costs for the third quarter of 2011 and the first nine months of 2011, respectively. The remaining increase in headcount is due to additional resources needed to support the continued growth in this area.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

The decrease in subscriptions gross margin in the third quarter of 2011 and the first nine months of 2011 compared to the same periods in 2010 is due to an increase in the investments we are making in the infrastructure to support the growth in our subscriptions offerings.

Services

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
Services revenue	\$ 29.8	\$ 24.0	\$ 5.8	24%	\$ 81.8	\$ 64.9	\$ 16.9	26%
Controllable cost of services	19.1	16.3	2.8	17%	56.6	46.5	10.1	22%
Services gross profit	\$ 10.7	\$ 7.7	\$ 3.0	39%	\$ 25.2	\$ 18.4	\$ 6.8	37%
Services gross margin	36%	32%			31%	28%		

We derive services revenue from consulting, installation, implementation, education and analytic services. Consulting, installation and implementation services involve converting data from a customer's existing system, assistance in file set up and system configuration, and/or process re-engineering. Education services involve customer training activities. Analytic services are comprised of donor prospect research, selling lists of potential donors, benchmarking studies and data modeling services. These services involve the assessment of current and prospective donor information of the customer and are performed using our proprietary analytical tools. We recognize services revenue attributable to consulting services for implementation of our hosted applications and subscription offerings ratably over the related term of the hosting or subscription arrangement. We also recognize the direct and incremental costs associated with consulting services revenue ratably over the service period. However, we expense indirect costs in the period the cost is incurred.

Excluding the impact of acquired companies, services revenue increased by \$4.8 million, or 20%, in the third quarter of 2011 when compared to the same period in 2010. This increase is attributable to increases in consulting services revenue of \$3.3 million, education services revenue of \$0.9 million and analytic services revenue of \$0.6 million. The increase in consulting services revenue is principally attributable to an increase in the volume of consulting, installation and implementation services associated with our Blackbaud Enterprise CRM product offering. The rates we charge for our services offerings have remained relatively constant year over year and, as such, the increase in education and analytic services revenue is principally the result of an increase in the volume of services provided.

Included in services revenue for the first nine months of 2011 is an out-of-period adjustment recorded in the first quarter of 2011 of \$0.8 million which reduced consulting services revenue. Excluding the out-of-period adjustment and the impact of acquired companies, services revenue increased by \$15.5 million, or 24% in the first nine months of 2011 when compared to the same period in 2010. This increase is attributable to increases in consulting services revenue of \$11.9 million, education services revenue of \$2.1 million and analytic services revenue of \$1.6 million. The increase in consulting services revenue is principally attributable to an increase in the volume of consulting, installation and implementation services associated with our Blackbaud Enterprise CRM product offering, which was partially offset by a reduction in the effective rates we charge as a result of a higher level of discounts offered on the sales of our consulting services during 2010. The rates we charge for our education and analytic services offerings have remained relatively constant year over year and, as such, the increase in revenue is principally the result of an increase in the volume of services provided.

Controllable cost of services is principally comprised of human resource costs, third-party contractor expenses, classroom rentals, other costs incurred in providing consulting, installation and implementation services and customer training, data expense incurred to perform analytic services and an allocation of depreciation, facilities and IT support costs. The increase in cost of services in the third quarter of 2011 and first nine months of 2011 when compared to the same periods in 2010 is primarily attributable to an increase in human resource and third-party contractor costs, which was driven by the need for additional resource capacity to meet the increasing demand for consulting services. Additionally, we continue to experience a shift in the mix of consultants to meet the needs of our enterprise customers, which require a higher level of skilled resources that carry a higher cost.

Edgar Filing: BLACKBAUD INC - Form 10-Q

The services gross margin increased in the third quarter of 2011 and the first nine months of 2011 compared to the same periods in 2010 primarily as a result of an increase in demand for consulting services associated with our Blackbaud Enterprise CRM offering and a shift in the mix of consulting engagements to higher margin projects.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)*****Maintenance***

(in millions)	Three months ended September 30,		Change	% Change	Nine months ended September 30,		Change	% Change
	2011	2010			2011	2010		
Maintenance revenue	\$ 32.9	\$ 31.4	\$ 1.5	5%	\$ 97.3	\$ 93.0	\$ 4.3	5%
Controllable cost of maintenance	6.1	5.8	0.3	5%	17.5	16.5	1.0	6%
Maintenance gross profit	\$ 26.8	\$ 25.6	\$ 1.2	5%	\$ 79.8	\$ 76.5	\$ 3.3	4%
Maintenance gross margin	81%	82%			82%	82%		

Revenue from maintenance is comprised of annual fees derived from maintenance contracts associated with new software licenses and annual renewals of existing maintenance contracts. These contracts provide customers with updates, enhancements and upgrades to our software products and online, telephone and email support. The increase in maintenance revenue of \$1.5 million in the third quarter of 2011 compared to the same period in 2010 is principally comprised of \$2.9 million of maintenance with new customers associated with new license agreements and increases in contracts with existing customers and \$1.0 million from maintenance contract inflationary rate adjustments, offset by \$2.4 million from maintenance contracts that were not renewed.

The increase in maintenance revenue of \$4.3 million in the first nine months of 2011 compared to the same period in 2010 is principally comprised of \$8.1 million of maintenance with new customers associated with new license agreements and increases in contracts with existing customers and \$2.8 million from maintenance contract inflationary rate adjustments, offset by \$6.6 million from maintenance contracts that were not renewed.

Controllable cost of maintenance is primarily comprised of human resource costs, third-party contractor expenses, third-party royalty costs, an allocation of depreciation, facilities and IT support costs and other costs incurred in providing support and services to our customers. The increase in cost of maintenance in the third quarter of 2011 and the first nine months of 2011 compared to the same periods in 2010 is principally attributable to an increase in human resource costs. Human resource costs increased due to merit-based salary increases, an increase in headcount and a change in the mix of support resources. Headcount increased due to an increase in volume of our new maintenance contracts and increases in our existing maintenance customer contracts. Additionally, we continue to experience a shift in the mix of support resources to meet the needs of our enterprise customers, which require a higher level of skilled resources that carry a higher cost.

The decrease in maintenance gross margin in the third quarter of 2011 compared to the same period in 2010 is due to the shift in the mix of support resources to more highly skilled resources.

Other revenue

(in millions)	Three months ended September 30,		Change	% Change	Nine months ended September 30,		Change	% Change
	2011	2010			2011	2010		
Other revenue	\$ 1.9	\$ 1.5	\$ 0.4	27%	\$ 5.1	\$ 4.2	\$ 0.9	21%

Sales and marketing expense includes salaries and related human resource costs, travel-related expenses, sales commissions, advertising and marketing materials, public relations and an allocation of depreciation, facilities and IT support costs. Sales and marketing expense in the third quarter of 2011 compared to the same period in 2010 increased by \$1.7 million primarily due to an increase in human resource costs as a result of merit-based salary increases, higher health benefit costs and an increase in headcount.

During second quarter 2010, we recorded an out-of-period adjustment of \$0.8 million, which increased expense, related to our accounting for deferred sales commissions. Excluding this out-of-period adjustment, sales and marketing expense in the first nine months of 2011 compared to the same period in 2010 increased by \$5.6 million, principally due to an increase of \$2.1 million in commission expense and \$2.8 million in human resource costs. The increase in commission expense is principally attributable to an increase in commissionable sales and revenue in

Edgar Filing: BLACKBAUD INC - Form 10-Q

2011. Human resources costs increased primarily due to additional headcount. Additionally, marketing programs related costs increased by \$0.6 million. The increase in marketing programs related costs is principally attributable to the launch of our new corporate branding and an increase in marketing costs associated with our new packaged offerings.

The decrease in sales and marketing expense as a percentage of revenue in the third quarter of 2011 when compared to the same period in 2010 is principally due to a decrease in travel and other marketing costs. The decrease in sales and marketing expense as a percentage of revenue in the first nine months of 2011 when compared to the same period in 2010 is principally due to the out-of-period adjustment recorded in 2010.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)****Research and development**

General and administrative expense consists primarily of human resource costs for general corporate functions, including senior management, finance, accounting, legal, human resources, corporate development, third-party professional fees, insurance, an allocation of depreciation, facilities and IT support costs, and other administrative expenses. During the third quarter of 2011 and the first nine months of 2011 compared to the same periods in 2010, the increase in general and administrative expense was principally attributable to an increase in human resource costs as a result of merit-based salary increases, higher health benefit costs and an increase in bonus expense.

Stock-based compensation

We recognize compensation expense related to stock-based awards granted to employees. We measure stock-based compensation cost at the grant date based on the fair value of the award and recognize it as expense over the requisite service period, which is the vesting period.

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

Our consolidated statements of operations for the three and nine months ended September 30, 2011 and 2010 include the amounts of stock-based compensation illustrated below:

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
Included in cost of revenue:								
Cost of subscriptions	\$ 0.1	\$ 0.1	\$ -	-%	\$ 0.4	\$ 0.3	\$ 0.1	33%
Cost of services	0.5	0.4	0.1	25%	1.4	1.2	0.2	17%
Cost of maintenance	0.2	0.2	-	-%	0.6	0.6	-	-%
Total included in cost of revenue	0.8	0.7	0.1	14%	2.4	2.1	0.3	14%
Included in operating expenses:								
Sales and marketing	0.3	0.3	-	-%	0.9	1.0	(0.1)	(10)%
Research and development	0.8	0.7	0.1	14%	2.3	2.1	0.2	10%
General and administrative	1.7	1.5	0.2	13%	5.3	4.0	1.3	33%
Total included in operating expenses	2.8	2.5	0.3	12%	8.5	7.1	1.4	20%
Total	\$ 3.6	\$ 3.2	\$ 0.4	13%	\$ 10.9	\$ 9.2	\$ 1.7	18%

Stock-based compensation is comprised of expense from restricted stock, performance-based restricted stock units and stock appreciation rights. The increase in stock-based compensation expense recorded in general and administrative expense during the first nine months of 2011 compared to the same period in 2010 is principally attributable to expense associated with performance-based restricted stock units, which we began granting in 2010. The table below summarizes the stock-based compensation by award type for the three and nine months ended September 30, 2011 and 2010.

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
Stock-based compensation from:								
Restricted stock	\$ 2.4	\$ 2.2	\$ 0.2	9%	\$ 7.2	\$ 6.5	\$ 0.7	11%
Performance-based restricted stock units	0.2	-	0.2	-%	0.5	-	0.5	-%
Stock appreciation rights	1.0	1.0	-	-%	3.2	2.7	0.5	19%
Total stock-based compensation	\$ 3.6	\$ 3.2	\$ 0.4	13%	\$ 10.9	\$ 9.2	\$ 1.7	18%

Stock-based compensation expense increased in the third quarter of 2011 and the first nine months of 2011 compared to the same periods in 2010 due to additional grants in the fourth quarter of 2010, partially offset by the vesting of grants issued in prior years.

The total amount of compensation costs related to non-vested awards not yet recognized was \$22.7 million as of September 30, 2011. This amount will be recognized as expense over a weighted average period of 1.7 years.

Amortization

Edgar Filing: BLACKBAUD INC - Form 10-Q

We allocated amortization expense to cost of revenue based on the nature of the respective identifiable intangible asset and whether the asset is directly associated with a specific component of revenue. Amortization expense included in our consolidated statements of operations for the three and nine months ended September 30, 2011 and 2010 is illustrated below:

(in millions)	Three months ended September 30,				Nine months ended September 30,			
	2011	2010	Change	% Change	2011	2010	Change	% Change
Included in cost of revenue:

Acquisition-related costs

Table of Contents**Blackbaud, Inc.****Item 2. Management's discussion and analysis of financial condition and results of operations (continued)**

During the first nine months of 2011, we expensed \$1.0 million of acquisition-related costs, in connection with the acquisition of PIDI, which we recorded in general and administrative expense. There were no similar expenses in the first nine months of 2010.

Gain on sale of assets

During the first nine months of 2011, we recognized a gain of \$0.5 million from the sale of intangible assets, which we recorded as a reduction of general and administrative expense. There was no similar transaction in the first nine months of 2010.

Income tax provision

The estimated annual effective tax rate for 2011 is 36.6%, which excludes period-specific items. Following is our effective tax rate, including the effects of period-specific items, for the three and nine months ended September 30:

	Three months ended September 30,		Nine months ended September 30,	
	2011	2010	2011	2010
Effective tax rate	37.3%	35.2%	34.2%	36.9%

Period-specific items recorded in the nine months ended September 30, 2011 included a decrease of \$1.0 million in the valuation allowance for certain state net operating loss carryforwards, which reduced income tax expense. Period-specific items recorded in the three and nine months ended September 30, 2010 included the recognition of tax benefits related to a change in estimate for 2009 research and development credits of \$0.5 million, net of reserves for uncertain tax positions.

We recorded our deferred tax assets and liabilities at an amount based upon a U.S. federal income tax rate of 35.0% and appropriate statutory tax rates of various foreign, state and local jurisdictions in which we operate. If our tax rates change in the future, we will adjust our deferred tax assets and liabilities to an amount reflecting those income tax rates. Any change will affect the provision for income taxes during the period in which the determination is made.

The amount of unrecognized tax benefit that, if recognized, would favorably affect our effective rate as of September 30, 2011 was \$1.7 million. We have taken positions in certain taxing jurisdictions related to state nexus issues for which it is reasonably possible that the total amount of unrecognized tax benefits may decrease within the next twelve months. The possible decrease could result from the finalization of state income tax reviews and the expiration of statutes of limitations. The reasonably possible decrease was not material at September 30, 2011.

Liquidity and capital resources

At September 30, 2011, cash and cash equivalents totaled \$52.0 million, compared to \$28.0 million at December 31, 2010. The \$24.0 million increase in cash and cash equivalents during the first nine months of 2011 is principally the result of cash generated from operations of \$67.7 million, of which \$16.5 million was used to acquire a business, \$16.0 million to pay dividends and \$13.0 million to purchase software and computer equipment.

Our principal source of liquidity is our operating cash flow, which depends on continued customer renewal of our maintenance, support and subscription agreements and market acceptance of our products and services. Based on current estimates of revenue and expenses, we believe that the currently available sources of funds and anticipated cash flows from operations will be adequate for at least the next twelve months to finance our operations, fund anticipated capital expenditures and pay dividends. Dividend payments are not guaranteed and our Board of Directors may decide, in its absolute discretion, at any time and for any reason, not to declare or pay further dividends and/or repurchase our

Edgar Filing: BLACKBAUD INC - Form 10-Q

common stock.

We have drawn on our credit facility from time to time to help us meet short-term financial needs, such as business acquisitions and purchase of common stock under our repurchase program. In June 2011, we entered into a new five-year \$125.0 million credit facility which replaced our previous \$90.0 million credit facility that was to mature in July 2012. Under the new credit facility we have three options to increase the aggregate amount available by up to \$75.0 million. At September 30, 2011, we had no outstanding borrowings under our credit facility. We believe

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

our cash on hand, cash generated from operations and our credit facility provides us with sufficient flexibility to meet our financial needs.

At September 30, 2011, our total cash and cash equivalents balance includes approximately \$18.2 million of cash was held by operations outside the U.S. If these funds are needed for our operations in the U.S., we would be required to accrue and pay U.S. taxes to repatriate these funds. Our current plans do not demonstrate a need to repatriate them to fund our U.S. operations.

Operating cash flow

Net cash provided by operating activities of \$67.7 million increased by \$18.8 million during the first nine months of 2011 when compared to the same period in 2010. Throughout both periods, our cash flows from operations were derived principally from: (i) our earnings from on-going operations prior to non-cash expenses such as depreciation, amortization and stock-based compensation and adjustments to our provision for sales returns and allowances; (ii) the tax benefit associated with our deferred tax asset, which reduces our cash outlay for income tax expense; and (iii) changes in our working capital.

Working capital changes as they impact the statement of cash flows are composed of changes in accounts receivable, prepaid expenses and other assets, accounts payable, accrued expenses, accrued liabilities and deferred revenue. Cash flow from operations associated with working capital increased \$7.3 million in the first nine months of 2011 when compared to the same period in 2010. This net increase is principally due to:

an increase of \$1.7 million in cash associated with accounts receivable, primarily from an increase in the collection of accounts receivable as a result the timing of billings in late 2010 as compared to late 2009; and

a refund of income tax payments of \$6.0 million.

The provision for doubtful accounts and sales returns increased \$1.7 million during the nine months ended September 30, 2011 when compared to the same period in 2010. The increase is principally due to an increase in credits associated with maintenance, subscription and consulting services that is commensurate with our growth in sales. Additionally, during the first nine months of 2010, we decreased our allowance for doubtful accounts and sales returns by \$0.5 million as a result of favorable returns and collections experience, which contributed to the \$1.7 million year-over-year increase in cash flow from the provision for doubtful accounts and sales returns.

Investing cash flow

Net cash used in the first nine months of 2011 for investing activities was \$28.6 million compared to \$13.1 million in the same period in 2010. The increase is principally due to the purchase of PIDI in the first quarter of 2011. As of September 30, 2011, we spent \$13.0 million on software and computer equipment associated with the infrastructure that supports our subscription-based offerings. We expect to continue making similar investments in our infrastructure and expect our full year 2011 capital expenditures to be in the range of \$15.0 million to \$20.0 million.

Financing cash flow

Net cash used in financing activities for the first nine months of 2011 was \$14.4 million compared to \$32.4 million in the same period in 2010. The decrease in cash used in financing activities is primarily due to a decrease in the purchase of treasury stock under our repurchase program. We did not repurchase any treasury shares during the nine months ended September 30, 2011, and as of September 30, 2011, \$50.0 million remained available under our share repurchase program.

Commitments and contingencies

Edgar Filing: BLACKBAUD INC - Form 10-Q

As of September 30, 2011, we had future minimum lease commitments of \$61.8 million. There were no material changes outside the ordinary course of business in our contractual obligations since December 31, 2010.

We utilize third-party relationships in conjunction with our products. The contractual arrangements vary in length from one to three years. In certain cases, these arrangements require a minimum annual purchase commitment. The total remaining minimum purchase commitments under these arrangements at September 30, 2011 were \$4.7 million through 2013. We incurred expense under these arrangements of \$1.8 million and \$1.5 million for the three months

Table of Contents

Blackbaud, Inc.

Item 2. Management's discussion and analysis of financial condition and results of operations (continued)

ended September 30, 2011 and 2010, respectively, and \$4.4 million and \$3.1 million for the nine months ended September 30, 2011 and 2010, respectively.

In February 2011, our Board of Directors approved our annual dividend rate of \$0.48 per share for 2011. Dividends at the annual rate would aggregate to \$21.1 million assuming 44.0 million shares of common stock are outstanding. Our ability to continue to declare and pay dividends quarterly this year and beyond might be restricted by, among other things, the terms of our credit facility, general economic conditions and our ability to generate operating cash flow.

Off-balance sheet arrangements

We do not have any off-balance sheet arrangements, financings or other relationships with unconsolidated entities or other persons.

Foreign currency exchange rates

Approximately 20% of our total net revenue for the nine months ended September 30, 2011 was derived from operations outside the United States. We do not have significant operations in countries in which the economy is considered to be highly inflationary. Our consolidated financial statements are denominated in U.S. dollars and, accordingly, changes in the exchange rate between foreign currencies and the U.S. dollar will affect the translation of our subsidiaries' financial results into U.S. dollars for purposes of reporting our consolidated financial results. The accumulated currency translation adjustment, recorded as a separate component of stockholders' equity, was \$0.7 million and \$0.5 million at September 30, 2011 and December 31, 2010, respectively.

The vast majority of our contracts are entered into by our U.S., Canadian or U.K. entities. The contracts entered into by the U.S. entity are almost always denominated in U.S. dollars, contracts entered into by our Canadian subsidiary are generally denominated in Canadian dollars, and contracts entered into by our U.K., Australian and Netherlands subsidiaries are generally denominated in pounds sterling, Australian dollars and Euros, respectively. Historically, as the U.S. dollar weakened, foreign currency translation resulted in an increase in our revenues and expenses denominated in non-U.S. currencies. During third quarter 2011, foreign translation resulted in an increase in our revenues and expenses denominated in non-U.S. currencies. Though we do not believe our exposure to currency exchange rates have had a material impact on our consolidated results of operations or financial position, we intend to continue to monitor such exposure and take action as appropriate.

Cautionary statement

We operate in a highly competitive environment that involves a number of risks, some of which are beyond our control. The following statement highlights some of these risks.

Statements contained in this Form 10-Q, which are not historical facts, are or might constitute forward-looking statements under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Although we believe the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained. Forward-looking statements involve known and unknown risks that could cause actual results to differ materially from expected results. Factors that could cause actual results to differ materially from our expectations expressed in the report include: general economic risks; lengthy sales and implementation cycles, particularly in larger organizations; uncertainty regarding increased business and renewals from existing customers; continued success in sales growth; management of integration of recently acquired companies and other risks associated with acquisitions; the ability to attract and retain key personnel, including our new CFO; risk associated with successful implementation of multiple integrated software products; risks related to our dividend policy and stock repurchase program, including potential limitations on our ability to grow and the possibility that we might discontinue payment of dividends; risks relating to restrictions imposed by the credit facility; risks associated with management of growth; technological changes that make our products and services less competitive; and the other risk factors set forth from time to time in our SEC filings.

Item 3. Quantitative and qualitative disclosures about market risk

Edgar Filing: BLACKBAUD INC - Form 10-Q

Due to the nature of our short-term investments and the lack of material debt, we have concluded at September 30, 2011 that we face no material market risk exposure. Therefore, no quantitative tabular disclosures are required. For a discussion of our exposure to foreign currency exchange rate fluctuations, see the Foreign currency exchange rates section of Management's discussion and analysis of financial condition and results of operations in this report.

Item 4. Controls and procedures

Evaluation of disclosure controls and procedures

Disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are designed only to provide reasonable assurance that they will meet their objectives. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e)) pursuant to Exchange Act Rule 13a-15(b). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective to provide the reasonable assurance discussed above.

Changes in internal control over financial reporting

No change in internal control over financial reporting occurred during the most recent fiscal quarter with respect to our operations, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Blackbaud, Inc.****PART II. OTHER INFORMATION****Item 2. Unregistered sales of equity securities and use of proceeds**

The following table provides information about shares of common stock repurchased during the three months ended September 30, 2011 under our stock repurchase program, as well as common stock withheld by us to satisfy tax obligations of employees due upon vesting of restricted stock.

Period	Total number of shares purchased (1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plan or programs (in thousands)
Beginning balance, July 1, 2011				\$50,000
July 1, 2011 through July 30, 2011	740	\$28.99	-	\$50,000
August 1, 2011 through August 31, 2011	14,570	\$23.89	-	\$50,000
September 1, 2011 through September 30, 2011	-	\$ -	-	\$50,000
Total	15,310	\$24.14	-	\$50,000

(1) During the period, there were no shares repurchased. These shares represent those withheld by us to satisfy the tax obligations of employees due upon vesting of restricted stock.
