*Company refinances the ManiTex Load King acquisition note at lower interest rates and extends maturity.*

On December 31, 2009, Manitex International, Inc (the Company) through its wholly owned subsidiary, ManiTex Load King, Inc. ( Load King ) purchased assets of Terex Load King Trailers from Genie Industries, Inc. ( Genie ), a subsidiary of Terex Corporation ( Terex). In connection with the purchase, Load King issued a promissory note (the Note) to Genie in the principal sum of \$2,750,000 with an interest rate of 6%. Certain assets of Load King, including the land and buildings were pledged to Genie to secure the Note. Under the Note the Company was required to make six annual principal payment of \$458,333 commencing on December 31, 2011.

The Company determined that the fair market value of the Note at date of issuance was \$2,580,000 based on market interest rate of 8%. The difference between the face of amount of the Note and the Note's fair market value was bearing amortized over the life of the Note and this difference was charged to interest expense. As of November 2, 2011 the Company had amortized and charged to interest the sum of \$60,922. Subsequently, an unused portion of land, secured by the Note, was sold for \$147,347 and the proceeds were used to pay down the Note. At November 2, 2011, the note had a remaining book balance of \$2,493,570 and a face amount of \$2,602,653.

The Company and Genie agreed that in exchange for pre payment of the Note, that the principal amount of the note to Genie would be reduced by \$300,000 to \$2,302,653. On November 2, 2011, the Company remitted, and Genie accepted \$2,302,653 plus accrued interest of \$14,315 as full payment of the Note. In the fourth quarter, the Company will record of gain of \$190,917 resulting from this prepayment discount.

The Company obtained substantially all of the funds for the prepayment from new loans provided by the South Dakota Board of Economic Development and a bank in the sum of \$2,115,000. This new financing has lower interest rates and extends the repayment period.
