- (1) As of November 13, 2012, cash and cash equivalents and borrowings under the Credit Facility were approximately \$153.0 million and \$490.0 million, respectively.
- (2) Reflects the issuance of \$150.0 million aggregate principal amount of AK Steel's 5.00% Exchangeable Senior Notes due 2019. In accordance with ASC 470-20, exchangeable debt that may be wholly or partially settled in cash is required to be separated into a liability and an equity component, such that interest expense reflects the issuer's non-exchangeable debt interest rate. Upon issuance, a debt discount will be recognized as a decrease in debt and an increase in paid-in capital. The debt component will accrete up to the principal amount over the expected term of the debt. ASC 470-20 does not affect the actual amount that AK Steel is required to repay, and the amount shown in the table above for the Notes is the aggregate principal amount of the Notes and does not reflect the debt discount that AK Steel will be required to recognize or the related increase in paid-in capital.
