ANNUAL REPORT

December 31, 2013

**Credit Suisse Asset Management Income Fund, Inc.****Annual Investment Adviser's Report**

December 31, 2013 (unaudited)

January 21, 2014

Dear Shareholder:

We are pleased to present this Annual Report covering the activities of the Credit Suisse Asset Management Income Fund, Inc. (the Fund), for the annual period ended December 31, 2013.

**Performance Summary**

01/01/13 12/31/13

<b>Fund &amp; Benchmark</b>	<b>Performance</b>
Total Return (based on NAV) <sup>1</sup>	9.34%
Total Return (based on market value) <sup>1</sup>	(4.42)%
BofA Merrill Lynch US High Yield Master II Constrained Index <sup>2</sup>	7.42%

**Market Review: A positive period for high yield bonds**

The annual period ended December 31, 2013, was a positive one for high-yield bonds, with the BofA Merrill Lynch High Yield Master II Constrained Index (the Index), the Fund's benchmark, registering a return of 7.42%. In fact, the Index saw positive returns in nine of the twelve months during the period. Additionally, high yield spreads tightened 108 basis points versus the Treasury market to end the period at +418 basis points, while the yield-to-worst finished at 5.67%.

From a quality point-of-view, CCC-rated securities outperformed, returning 13.0% for the period, while BB- and B-rated bonds also had positive returns: 5.2% and 7.5%, respectively. From an industry standpoint, food & drug retail, broadcasting, and insurance were the Index's best performers for the period, while telecommunications, cable TV and hotels were the lowest performers.

According to JP Morgan, the high yield default rate decreased over the course of the year to finish the period at 0.66%, well below its historical average of 3.9%. Additionally, the percentage of U.S. high-yield securities that are distressed, defined as those trading at spreads of more than 1,000 basis points over Treasuries, fell to 5.3% (compared to 9.9% in December 2012).

From a technical perspective, supply has been robust, while demand for the asset class returned in the fourth quarter. JP Morgan reported new issue volume of \$399 billion for the period, exceeding 2012 issuance of \$368 billion and marking an all-time record high. Quarterly issuance, however, declined in each quarter over the course of the year, from a record high of \$121 billion in the first quarter to \$85 billion in the fourth quarter. High-yield mutual funds saw mixed flows this year, with positive inflows in all but the second quarter, when funds saw \$15.9 billion in

redemptions. For the full calendar year, Lipper FMI reported net outflows totaling \$4.9 billion for high-yield funds.

**Strategic Review and Outlook: Cautiously optimistic going forward**

For the annual period ended December 31, 2013, the Fund outperformed its benchmark on an NAV basis, but underperformed on a market price basis.

After much rhetoric concerning the Fed's tapering of the quantitative easing program throughout 2013, the Fed announced a tapering of its asset purchase program in December, resulting in a rise in Treasury interest rates. As such, the Fund's investment strategy continues to focus on shorter duration bonds, but the Fund expects to take advantage of additional rate volatility in 2014. The Fund remains invested in lower beta securities whose valuations are less exposed to market fluctuations, and emphasize B-rated bonds that exhibit the most compelling risk-return profiles. Lastly, the Fund is maintaining an underweight to the most levered and aggressive CC-rated

components of the Index, as they typically exhibit the most volatility and we believe current valuations do not adequately compensate investors on a relative basis.

Fundamentals generally remained strong in 2013, as balance sheet management remained a focus for high-yield issuers. In turn, this has supported continued below-average default rates, which are expected to remain below average in 2014. High-yield fund flows have been mixed in recent weeks and, given Fed policy and potential interest rate volatility, we expect them to remain that way in the near future. Thus, we remain cautious but continue to find pockets of opportunity within the asset class.

*Credit Suisse may waive fees and/or reimburses expenses, without which performance would be lower. Waivers and/or reimbursements are subject to change and may be discontinued at any time. Returns represent past performance. Total investment return at net asset value is based on changes in the net asset value of fund shares and assumes reinvestment of dividends and distributions, if any. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the stock exchange during the period and assumes reinvestment of dividends and distributions, if any, at actual prices pursuant to the Fund's dividend reinvestment program. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. <sup>1</sup> Total investment return at net asset value is based on changes in the net asset value of Fund shares and assumes reinvestment of dividends and distributions, if any. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the stock exchange during the period and assumes reinvestment of dividends and distributions, if any, at actual prices pursuant to the Fund's dividend reinvestment program. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on share price and NAV.

**Credit Suisse Asset Management Income Fund, Inc.**

**Notes to Financial Statements**

December 31, 2013

**Note 1. Organization**

Credit Suisse Asset Management Income Fund, Inc. (the Fund) was incorporated on February 11, 1987 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The investment objective of the Fund is to seek current income through investment primarily in debt securities.

**Note 2. Significant Accounting Policies**

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The policies are in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**A) SECURITY VALUATION** The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the Exchange) on each day the Exchange is open for business. The valuations for fixed income securities (which may include, but are not limited to, corporate, government, municipal, mortgage-backed, collateralized mortgage obligations and asset-backed securities) and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Short-term fixed income securities that will mature in 60 days or less may be valued at amortized cost. Structured note agreements are valued in accordance with a dealer-supplied valuation based on changes in the value of the underlying index. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Forward contracts are valued at the London closing spot rates and the London closing forward point rates on a daily basis. The currency forward contract pricing model derives the differential in point rates to the expiration date of the forward and calculates its present value. The forward is valued at the net of the present value and the spot rate and are generally categorized as Level 2. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. The Fund may utilize a service provided by an independent third party which has been approved by the Board of Directors to fair value certain securities. When fair value pricing is employed, the prices of securities used by the Fund to calculate its net asset value may differ from quoted or published prices for the same securities. If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the investment adviser to be unreliable, the market price may be determined by the investment adviser using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these securities as

determined in accordance with procedures approved by the Fund's Board of Directors.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

**Credit Suisse Asset Management Income Fund, Inc.****Notes to Financial Statements (continued)**

December 31, 2013

GAAP established a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of December 31, 2013 in valuing the Fund's assets and liabilities carried at fair value:

The following is a reconciliation of investments as of December 31, 2013 in which significant unobservable inputs (Level 3) were used in determining value. Transfers in or out of Level 3 represent the ending value of any security or instrument where a change in the level has occurred from the beginning to the end of the period.

Level 2 to Level 3, due to lack of observable market data because of decrease in market activity. All transfers are assumed to occur at the end of the reporting period.

**B) DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES** The Fund adopted amendments to authoritative guidance on disclosures about derivative instruments and hedging activities which require that the fund disclose (a) how and why an entity uses derivative instruments, (b) how derivative instruments and hedging activities are accounted for, and (c) how derivative instruments and related hedging activities affect the Fund's financial position, financial performance, and cash flows. For the year ended December 31, 2013, the Fund's derivatives did not qualify for hedge accounting as they are held at fair value.

The notional amount of forward foreign currency contracts at year ended December 31, 2013 are reflected in the Notes to Financial Statements. The notional amounts of forward foreign currency contracts at each month end throughout the reporting period averaged approximately 4.6% of net assets of the Fund.

The Fund is a party to International Swap and Derivatives Association, Inc. ( ISDA ) Master Agreements ( Master Agreements ) with certain counterparties that govern over-the-counter derivative (including Total Return, Credit

Default and Interest Rate Swaps) and foreign exchange contracts entered into by the Fund. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. Termination events applicable to the Fund may occur upon a decline in the Fund's net assets below a specified threshold over a certain period of time.

<sup>(a)</sup> Forward foreign currency exchange contracts are included.

<sup>(b)</sup> The actual collateral received and/or pledged may be more than the amounts shown.

**C) FOREIGN CURRENCY TRANSACTIONS** The books and records of the Fund are maintained in U.S. dollars. Transactions denominated in foreign currencies are recorded at the current prevailing exchange rates. All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the current exchange rate at the end of the period. Translation gains or losses resulting from changes in the exchange rate during the reporting period and realized gains and losses on the settlement of foreign currency transactions are reported in the results of operations for the current period. The Fund does not isolate that portion of realized gains and losses on investments in equity securities which is due to changes in the foreign exchange rate from that which is due to changes in market prices of equity securities. The Fund isolates that portion of realized gains and losses on investments in debt securities which is due to changes in the foreign exchange rate from that which is due to changes in market prices of debt securities.

**D) SECURITY TRANSACTIONS AND INVESTMENT INCOME/EXPENSE** Security transactions are accounted for on a trade date basis. Interest income/expense is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts using the effective interest method. Dividend income/expense is recorded on the ex-dividend date. The cost of investments sold is determined by use of the specific identification method for both financial reporting and income tax purposes.

**E) DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS** The Fund declares and pays dividends on a monthly basis and records them on ex-date. Distributions of net realized capital gains, if any, are declared and paid at least annually. However, to the extent that a net realized capital gain can be reduced by a capital loss carryforward, such gain will not be distributed. Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The Fund's dividend policy is to distribute substantially all of its net investment income to its shareholders on a monthly basis. However, in order to provide shareholders with a more consistent yield to the current trading price of

shares of beneficial interest of the Fund, the Fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the Fund for any particular month may be more or less than the amount of net investment income earned by the Fund during such month.

F) FEDERAL INCOME TAXES No provision is made for federal taxes as it is the Fund's intention to continue to qualify for and elect the tax treatment applicable to regulated investment companies ( RIC ) under the Internal Revenue Code of 1986, as amended (the Code ), and to make the requisite distributions to its shareholders, which will be sufficient to relieve it from federal income and excise taxes.

In order to qualify as a RIC under the Code, the Fund must meet certain requirements regarding the source of its income, the diversification of its assets and the distribution of its income. One of these requirements is that the

Fund derive at least 90% of its gross income for each taxable year from dividends, interest, payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, other income derived with respect to its business of investing in such stock, securities or currencies or net income derived from interests in certain publicly traded partnerships ( Qualifying Income ).

The Fund adopted the authoritative guidance for uncertainty in income taxes and recognizes a tax benefit or liability from an uncertain position only if it is more likely than not that the position is sustainable based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and procedures. The Fund has reviewed its current tax positions and has determined that no provision for income tax is required in the Fund's financial statements. The Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

G) SHORT-TERM INVESTMENTS The Fund, together with other funds/portfolios advised by Credit Suisse Asset Management, LLC ( Credit Suisse ), an indirect, wholly-owned subsidiary of Credit Suisse Group AG, pools available cash into a short-term variable rate time deposit issued by State Street Bank and Trust Company ( SSB ), the Fund's custodian. The short-term time deposit issued by SSB is a variable rate account classified as a short-term investment.

H) FORWARD FOREIGN CURRENCY CONTRACTS The Fund may enter into forward foreign currency contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency. The Fund will enter into forward foreign currency contracts primarily for hedging foreign currency risk. Forward foreign currency contracts are adjusted by the daily forward exchange rate of the underlying currency and any gains or losses are recorded for financial statement purposes as unrealized until the contract settlement date or an offsetting position is entered into. At December 31, 2013, the Fund had the following open forward foreign currency contracts:

I) SECURITIES LENDING Loans of securities are required at all times to be secured by collateral at least equal to 102% of the market value of domestic securities on loan (including any accrued interest thereon) and 105% of the market value of foreign securities on loan (including any accrued interest thereon). Cash collateral received by the Fund in connection with securities lending activity may be pooled together with cash collateral for other funds/portfolios advised by Credit Suisse and may be invested in a variety of investments, including funds advised by SSB, the Fund's securities lending agent, or money market instruments. However, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings.

**Credit Suisse Asset Management Income Fund, Inc.**

**Notes to Financial Statements (continued)**

December 31, 2013

SSB has been engaged by the Fund to act as the Fund's securities lending agent. As of December 31, 2013, the Fund had investment securities on loan with a fair value of \$18,181,594 and a related liability of \$18,581,262 for collateral received on securities loaned, both of which are presented gross on the Statement of Assets and Liabilities. The carrying value of the collateral for securities loaned approximates fair value which would have been considered level 2 under the fair value hierarchy if the collateral for securities loaned were carried at fair value. For the year ended December 31, 2013, the value of the related collateral exceeded the value of the securities loaned.

The Fund's securities lending arrangement provides that the Fund and SSB will share the net income earned from securities lending activities. During the year ended December 31, 2013, total earnings from the Fund's investment in cash collateral received in connection with securities lending arrangements was \$82,152, of which \$4,678 was rebated to borrowers (brokers). The Fund retained \$65,890 in income from the cash collateral investment, and SSB, as lending agent, was paid \$11,584. Securities lending income is accrued as earned.

J) OTHER Lower-rated debt securities (commonly known as junk bonds) possess speculative characteristics and are subject to greater market fluctuations and risk of lost income and principal than higher-rated debt securities for a variety of reasons. Also, during an economic downturn or substantial period of rising interest rates, highly leveraged issuers may experience financial stress which would adversely affect their ability to service their principal and interest payment obligations, to meet projected business goals and to obtain additional financing.

In addition, periods of economic uncertainty and changes can be expected to result in increased volatility of market prices of lower-rated debt securities and the Fund's net asset value.

K) NEW ACCOUNTING PRONOUNCEMENTS On June 7, 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-08, Financial Services Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements. The amendment sets forth a new approach for determining whether a public or private company is an investment company and sets certain measurement and disclosure requirements for an investment company. The ASU is effective in annual reporting periods beginning on or after December 15, 2013, and for interim periods within those annual reporting periods. Management is currently evaluating the implications of these changes but believes the adoption of this ASU will not have a material impact on its financial statements.

L) SUBSEQUENT EVENTS In preparing the financial statements as of December 31, 2013, management considered the impact of subsequent events for potential recognition or disclosure in these financial statements through the date of release of this report. No such events requiring recognition or disclosure were identified through the date of the release of this report.

**Note 3. Transactions with Affiliates and Related Parties**

Credit Suisse serves as investment adviser for the Fund. For its investment advisory services, Credit Suisse is entitled to receive a fee from the Fund at a rate per annum, computed weekly and paid quarterly as follows: 0.50% of the

lower of the weekly stock price (market value) of the Fund's outstanding shares or its average weekly net assets. For the year ended December 31, 2013, investment advisory fees earned were \$965,658.

SSB serves as Accounting and Administrative Agent for the Fund. For its administrative services, SSB receives a fee, exclusive of out-of-pocket expenses, calculated in total for all the Credit Suisse funds/portfolios co-administered by SSB and allocated based upon the relative average net assets of each fund/portfolio, subject to an annual minimum fee. For the year ended December 31, 2013, administrative services fees earned by SSB (including out-of-pocket expenses) with respect to the Fund were \$59,234.

December 31, 2013

The Independent Directors receive fifty percent (50%) of their annual retainer in the form of shares. During the years ended December 31, 2013 and December 31, 2012, 15,453 shares and 14,744 shares were issued through the Directors compensation plan, respectively. Directors as a group own less than 1% of the Fund's outstanding shares.

Merrill Corporation (Merrill), an affiliate of Credit Suisse, has been engaged by the Fund to provide certain financial printing services. For the year ended December 31, 2013, Merrill was paid \$46,795 for its services by the Fund. This amount was included in the printing fees presented on the Statement of Operations.

**Note 4. Line of Credit**

The Fund, together with other funds/portfolios advised by Credit Suisse (collectively, the Participating Funds), participates in a committed, unsecured line of credit facility (Credit Facility), in an aggregated amount of \$20 million for temporary or emergency purposes with SSB. Under the terms of the Credit Facility, the Participating Funds pay an aggregate commitment fee on the average unused amount of the Credit Facility, which is allocated among the Participating Funds in such manner as is determined by the governing Boards of the Participating Funds. In addition, the Participating Funds pay interest on borrowings at the Overnight Federal Funds rate or the Overnight LIBOR rate plus a spread. At December 31, 2013, and during the year ended December 31, 2013, the Fund had no borrowings outstanding under the Credit Facility.

**Note 5. Purchases and Sales of Securities**

For the year ended December 31, 2013, purchases and sales of investment securities (excluding short-term investments) were \$139,573,508 and \$132,232,896, respectively.

**Note 6. Fund Shares**

The Fund has one class of shares of common stock, par value \$.001 per share; one hundred million shares are authorized. Transactions in shares of common stock were as follows:

	<b>For the Year Ended December 31, 2013</b>	<b>For the Year Ended December 31, 2012</b>
Shares issued through the Directors compensation plan	15,453	14,744
Shares issued through at-the-market offerings	2,034,748	
Shares issued through reinvestment of dividends	43,793	84,475

Net increase	2,093,994	99,219
--------------	-----------	--------

**Note 7. Shelf Offering**

On January 22, 2013, the Fund's shelf registration was declared effective by the SEC. The shelf registration statement enables the Fund to issue up to \$40 million in shares of common stocks through one or more public offerings. Shares may be offered at prices and terms to be set forth in one or more supplements to the Fund's prospectus included in the shelf registration statement. On February 1, 2013, the Fund filed a prospectus supplement relating to an at-the-market offering of the Fund's shares of common stock. Any proceeds raised through such offering will be used for investment purposes. For the year ended December 31, 2013, the Fund had offered and sold 2,034,748 shares of common stock in at-the-market offerings, resulting in proceeds (net of commissions) of \$8,300,803.

December 31, 2013

**Note 8. Federal Income Taxes**

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The tax characteristics of dividends and distributions paid during the years ended December 31, 2013 and 2012, respectively, by the Fund were as follows:

<b>Ordinary Income</b>		<b>Return of Capital Gain</b>	
<b>2013</b>	<b>2012</b>	<b>2013</b>	<b>2012</b>
\$14,699,374	\$ 15,928,602	\$ 654,087	\$

The tax basis components of distributable earnings differ from the amounts reflected in the Statement of Assets and Liabilities by temporary book/tax differences. These differences are primarily due to income from defaulted bonds and forward contracts marked to market. At December 31, 2013, the components of distributable earnings on a tax basis were as follows:

Accumulated realized loss	\$ (48,539,067)
Unrealized appreciation	4,409,132
	\$ (44,129,935)

At December 31, 2013, the Fund had \$1,582,513 unlimited Long-Term capital loss carryforward as well as the following short-term capital loss carryforwards available to offset possible future capital gains:

<b>Expiring December 31,</b>			
<b>2014</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>
\$10,609,938	\$16,896,140	\$18,951,117	\$499,359

During the tax year ended December 31, 2013, the Fund had expired \$1,495,249 of the capital loss carryforwards.

At December 31, 2013, the cost of investments (excluding foreign currency related transactions) and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of Investments	\$ 214,844,726
Unrealized appreciation	\$ 8,841,737
Unrealized depreciation	(4,438,199)
Net unrealized appreciation (depreciation)	\$ 4,403,538

At December 31, 2013, the Fund reclassified \$512,931 from net investment loss and \$982,705 from accumulated net realized loss from investments to paid in capital, to adjust for current period permanent book/tax differences which arose principally from sales of defaulted bonds, foreign currency gain/(loss), partnership basis adjustments, return of capital distribution and expiration of capital loss carryforwards. Net assets were not affected by these reclassifications.

#### **Note 9. Contingencies**

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Shareholders of

Credit Suisse Asset Management Income Fund, Inc.:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Credit Suisse Asset Management Income Fund, Inc. (the Fund ) at December 31, 2013, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements ) are the responsibility of the Fund s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2013 by correspondence with the custodian, agent banks and brokers, provide a reasonable basis for our opinion.

**Credit Suisse Asset Management Income Fund, Inc.**

**Board Approval of Investment Advisory Agreement (unaudited)**

In approving the renewal of the current Advisory Agreement for the Credit Suisse Asset Management Income Fund, Inc. (the Fund), the Board of Directors of the Fund (the Board), including all of the Directors who are not interested persons of the Fund as defined in the Investment Company Act of 1940 (the Independent Directors), at a meeting held on November 11 and 12, 2013, considered the following factors:

**Investment Advisory Fee Rates and Expenses**

The Board reviewed and considered the contractual investment advisory fee rate of 0.50% (the Gross Advisory Fee) for the Fund in light of the extent and quality of the advisory services provided by Credit Suisse Asset Management, LLC (Credit Suisse). The Board noted that Credit Suisse had contractually agreed to base its current investment advisory fee upon the lower of the Fund's average weekly stock price or its average weekly net assets.

Additionally, the Board received and considered information comparing the Gross Advisory Fee, the combined Gross Advisory Fee and gross administration fee (together, the Gross Management Fee), the Gross Management Fee less waivers and/or reimbursements (the Net Management Fee), and the Fund's net total expenses with those of funds in the relevant expense group (Expense Group) provided by an independent provider of investment company data. The Board also received and considered information comparing the Fund's net total expenses and Net Management Fee to the funds in the relevant Morningstar category (Morningstar Category). The Board was provided with a description of the methodology used to arrive at the funds included in the Expense Group and the Morningstar Category.

**Nature, Extent and Quality of the Services under the Advisory Agreement**

The Board received and considered information regarding the nature, extent and quality of services provided to the Fund by Credit Suisse under the Advisory Agreement. The Board also noted information received at regular meetings throughout the year related to the services rendered by Credit Suisse. The Board reviewed background information about Credit Suisse, including its Form ADV Part 2 Disclosure Brochure and Brochure Supplement. The Board considered the background and experience of Credit Suisse's senior management and the expertise of, and the amount of attention given to the Fund by, senior personnel of Credit Suisse. In addition, the Board reviewed the qualifications, backgrounds and responsibilities of the Fund management team primarily responsible for the day-to-day portfolio management of the Fund and the extent of the resources devoted to research and analysis of actual and potential investments. The Board evaluated the ability of Credit Suisse, based on its resources, reputation and other attributes, to attract and retain qualified investment professionals, including research, advisory, and supervisory personnel. The Board also received and considered information about the nature, extent and quality of services and fee rates offered to other Credit Suisse clients for comparable services.

**Fund Performance**

The Board received and considered performance results of the Fund over time, along with comparisons both to the relevant Expense Group and the Morningstar Category for the Fund.

**Credit Suisse Profitability**

The Board received and considered a profitability analysis of Credit Suisse based on the fees payable under the Advisory Agreement for the Fund, as well as other relationships between the Fund on the one hand and Credit Suisse affiliates on the other. The Board also considered Credit Suisse's methodology for allocating costs to the Fund, recognizing that cost allocation methodologies are inherently subjective.

**Credit Suisse Asset Management Income Fund, Inc.**

**Board Approval of Investment Advisory Agreement (unaudited) (continued)**

**Economies of Scale**

The Board considered information regarding whether there have been economies of scale with respect to the management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale. Accordingly, the Board considered whether breakpoints in the Fund's advisory fee structure would be appropriate or reasonable taking into consideration economies of scale or other efficiencies that might accrue from increases in the Fund's asset levels.

**Other Benefits to Credit Suisse**

The Board considered other benefits received by Credit Suisse and its affiliates as a result of their relationship with the Fund. Such benefits include, among others, benefits potentially derived from an increase in Credit Suisse's businesses as a result of its relationship with the Fund (such as the ability to market to shareholders other financial products offered by Credit Suisse and its affiliates).

The Board considered the standards applied in seeking best execution and reviewed Credit Suisse's method for allocating portfolio investment opportunities among its advisory clients.

**Other Factors and Broader Review**

As discussed above, the Board reviews detailed materials received from Credit Suisse as part of the annual re-approval process. The Board also reviews and assesses the quality of the services that the Fund receives throughout the year. In this regard, the Board reviews reports of Credit Suisse at least quarterly, which include, among other things, detailed portfolio and market reviews, detailed fund performance reports and Credit Suisse's compliance procedures.

**Conclusions**

In selecting Credit Suisse, and approving the renewal of the Advisory Agreement and the investment advisory fee under such agreement, the Board concluded that:

The Gross Advisory Fee, the Gross Management Fee, the Net Management Fee and the net total expenses were below the median of the Expense Group, and the Board considered the fees reasonable. In addition, the Directors concluded that the advisory fees are based on services provided that will be in addition to, rather than duplicative of, the services provided under the advisory contracts of any underlying fund in which the Fund may invest.

The Fund's performance was above the median of the Expense Group for the year-to-date, one-, three-, five- and ten-year periods ended September 30, 2013. The Fund also outperformed its Morningstar Category average for year-to-date, one-, three-, five- and ten-year periods ended September 30, 2013.

The Board was satisfied with the nature, extent and quality of the investment advisory services provided to the Fund by Credit Suisse and that, based on dialogue with management and counsel, the services provided by Credit Suisse under the Advisory Agreement are typical of, and consistent with, those provided to similar mutual funds by other investment advisers.

In light of the costs of providing investment management and other services to the Fund and Credit Suisse's ongoing commitment to the Fund and willingness to waive fees, Credit Suisse's profitability based on fees payable under the Advisory Agreement, as well as other ancillary benefits that Credit Suisse and its affiliates received, were considered reasonable.

**Credit Suisse Asset Management Income Fund, Inc.**

**Board Approval of Investment Advisory Agreement (unaudited) (continued)**

In light of the information received and considered by the Board, the Fund's current fee structure was considered. No single factor reviewed by the Board was identified by the Board as the principal factor in determining whether to approve the renewal of the Advisory Agreement. The Independent Directors were advised by separate independent legal counsel throughout the process.

**Dividend Reinvestment and Cash Purchase Plan (unaudited)**

Credit Suisse Asset Management Income Fund, Inc. (the **Fund**) offers a Dividend Reinvestment and Cash Purchase Plan (the **Plan**) to its common stockholders. The Plan offers common stockholders a prompt and simple way to reinvest net investment income dividends and capital gains and other periodic distributions in shares of the Fund's common stock. Computershare Trust Company, N.A. ( **Computershare** ) acts as Plan Agent for stockholders in administering the Plan.

If your shares of common stock of the Fund are registered in your own name, you will automatically participate in the Plan, unless you have indicated that you do not wish to participate and instead wish to receive dividends and capital gains distributions in cash. If you are a beneficial owner of the Fund having your shares registered in the name of a bank, broker or other nominee, you must first make arrangements with the organization in whose name your shares are registered to have the shares transferred into your own name. Registered shareholders can join the Plan via the Internet by going to [www.computershare.com](http://www.computershare.com), authenticating your online account, agreeing to the Terms and Conditions of online **Account Access** and completing an online Plan Enrollment Form. Alternatively, you can complete the Plan Enrollment Form and return it to Computershare at the address below.

By participating in the Plan, your dividends and distributions will be promptly paid to you in additional shares of common stock of the Fund. The number of shares to be issued to you will be determined by dividing the total amount of the distribution payable to you by the greater of (i) the net asset value per share ( **NAV** ) of the Fund's common stock on the payment date, or (ii) 95% of the market price per share of the Fund's common stock on the payment date. If the NAV of the Fund's common stock is greater than the market price (plus estimated brokerage commissions) on the payment date, then Computershare (or a broker-dealer selected by Computershare) shall endeavor to apply the amount of such distribution on your shares to purchase shares of Fund common stock in the open market.

You should be aware that all net investment income dividends and capital gain distributions are taxable to you as ordinary income and capital gain, respectively, whether received in cash or reinvested in additional shares of the Fund's common stock.

The Plan also permits participants to purchase shares of the Fund through Computershare. You may invest \$100 or more monthly, with a maximum of \$100,000 in any annual period. Computershare will purchase shares for you on the open market on the 25th of each month or the next trading day if the 25th is not a trading day.

There is no service fee payable by Plan participants for dividend reinvestment. For voluntary cash payments, Plan participants must pay a service fee of \$5.00 per transaction. Plan participants will also be charged a pro rata share of the brokerage commissions for all open market purchases (\$0.03 per share as of October 2006). Participants will also be charged a service fee of \$5.00 for each sale and brokerage commissions of \$0.03 per share (as of October 2006).

You may terminate your participation in the Plan at any time by notifying Computershare or requesting a sale of your shares held in the Plan. Your withdrawal will be effective immediately if your notice is received by Computershare prior to any dividend or distribution record date; otherwise, such termination will be effective only with respect to any subsequent dividend or distribution. Your dividend participation option will remain the same unless you withdraw all of your whole and fractional Plan shares, in which case your participation in the Plan will be terminated and you will receive subsequent dividends and capital gains distributions in cash instead of shares.

**PROXY VOTING POLICY AND PROCEDURES**

Introduction

Credit Suisse Asset Management, LLC ( Credit Suisse ) is a fiduciary that owes each of its clients duties of care and loyalty with respect to proxy voting. The duty of care requires Credit Suisse to monitor corporate events and to vote proxies. To satisfy its duty of loyalty, Credit Suisse must cast proxy votes in the best interests of each of its clients.

The Credit Suisse Funds and Credit Suisse Closed-End Funds (the Funds ), which have engaged Credit Suisse Asset Management, LLC as their investment adviser, are of the belief that the proxy voting process is a means of addressing corporate governance issues and encouraging corporate actions both of which can enhance shareholder value.

Policy

The Proxy Voting Policy (the Policy ) set forth below is designed to ensure that proxies are voted in the best interests of Credit Suisse s clients. The Policy addresses particular issues and gives a general indication of how Credit Suisse will vote proxies. The Policy is not exhaustive and does not include all potential issues.

Proxy Voting Committee

The Proxy Voting Committee will consist of a member of the Portfolio Management Department, a member of the Legal and Compliance Department, and a member of the Operations Department (or their designees). The purpose of the Proxy Voting Committee is to administer the voting of all clients proxies in accordance with the Policy. The Proxy Voting Committee will review the Policy annually to ensure that it is designed to promote the best interests of Credit Suisse s clients.

For the reasons disclosed below under Conflicts, the Proxy Voting Committee has engaged the services of an independent third party (initially, Risk Metrics Group s ISS Governance Services Unite ( ISS )) to assist in issue analysis and vote recommendation for proxy proposals. Proxy proposals addressed by the Policy will be voted in accordance with the Policy. Proxy proposals addressed by the Policy that require a case-by-case analysis will be voted in accordance with the vote recommendation of ISS. Proxy proposals not addressed by the Policy will also be voted in accordance with the vote recommendation of ISS. To the extent that the Proxy Voting Committee

proposes to deviate from the Policy or the ISS vote recommendation, the Committee shall obtain client consent as described below.

Credit Suisse investment professionals may submit a written recommendation to the Proxy Voting Committee to vote in a manner inconsistent with the Policy and/or the recommendation of ISS. Such recommendation will set forth its basis and rationale. In addition, the investment professional must confirm in writing that he/she is not aware of any conflicts of interest concerning the proxy matter or provide a full and complete description of the conflict.

#### Conflicts

Credit Suisse is part of the asset management business of Credit Suisse one of the world's leading banks. As part of a global, full service investment-bank, broker-dealer, and wealth-management organization, Credit Suisse and its affiliates and personnel may have multiple advisory, transactional, financial, and other interests in securities, instruments, and companies that may be purchased or sold by Credit Suisse for its clients' accounts. The interests of Credit Suisse and/or its affiliates and personnel may conflict with the interests of Credit Suisse's clients in connection with any proxy issue. In addition, Credit Suisse may not be able to identify all of the conflicts of interest relating to any proxy matter.

#### Consent

In each and every instance in which the Proxy Voting Committee favors voting in a manner that is inconsistent with the Policy or the vote recommendation of ISS (including proxy proposals addressed and not addressed by the Policy), it shall disclose to the client conflicts of interest information and obtain client consent to vote. Where the client is a Fund, disclosure shall be made to any one director who is not an interested person, as that term is defined under the Investment Company Act of 1940, as amended, of the Fund.

#### Recordkeeping

Credit Suisse is required to maintain in an easily accessible place for six years all records relating to proxy voting.

These records include the following:

a copy of the Policy;

a copy of each proxy statement received on behalf of Credit Suisse clients;

a record of each vote cast on behalf of Credit Suisse clients;

a copy of all documents created by Credit Suisse personnel that were material to making a decision on a vote or that memorializes the basis for the decision; and

a copy of each written request by a client for information on how Credit Suisse voted proxies, as well as a copy of any written response.

Credit Suisse reserves the right to maintain certain required proxy records with ISS in accordance with all applicable regulations.

#### Disclosure

Credit Suisse will describe the Policy to each client. Upon request, Credit Suisse will provide any client with a copy of the Policy. Credit Suisse will also disclose to its clients how they can obtain information on their proxy votes.

ISS will capture data necessary for Funds to file Form N-PX on an annual basis concerning their proxy voting record in accordance with applicable law.

#### Procedures

The Proxy Voting Committee will administer the voting of all client proxies. Credit Suisse has engaged ISS as an independent third party proxy voting service to assist in the voting of client proxies. ISS will coordinate with each client's custodian to ensure that proxy materials reviewed by the custodians are processed in a timely fashion. ISS will provide Credit Suisse with an analysis of proxy issues and a vote recommendation for proxy proposals. ISS will refer proxies to the Proxy Voting Committee for instructions when the application of the Policy is not clear. The Proxy Voting Committee will notify ISS of any changes to the Policy or deviating thereof.

### **PROXY VOTING POLICY**

#### Operational Items

##### Adjourn Meeting

Proposals to provide management with the authority to adjourn an annual or special meeting will be determined on a case-by-case basis.

##### Amend Quorum Requirements

Proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding will be determined on a case-by-case basis.

##### Amend Minor Bylaws

Generally vote for bylaw or charter changes that are of a housekeeping nature.

#### Change Date, Time, or Location of Annual Meeting

Generally vote for management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable. Generally vote against shareholder proposals to change the date/time/location of the annual meeting unless the current scheduling or location is unreasonable.

#### Ratify Auditors

Generally vote for proposals to ratify auditors unless: (1) an auditor has a financial interest in or association with the company, and is therefore not independent; (2) fees for non-audit services are excessive, or (3) there is reason to believe that the independent auditor has rendered an opinion, which is neither accurate nor indicative of the company's financial position. Generally vote on a case-by-case basis on shareholder proposals asking companies to prohibit their auditors from engaging in non-audit services (or capping the level of non-audit services). Generally vote on a case-by-case basis on auditor rotation proposals taking into consideration: (1) tenure of audit firm; (2) establishment and disclosure of a renewal process whereby the auditor is regularly evaluated for both audit quality and competitive price; (3) length of the rotation period advocated in the proposal, and (4) significant audit related issues.

#### Board of Directors

##### Voting on Director Nominees in Uncontested Elections

Generally votes on director nominees on a case-by-case basis. Votes may be withheld: (1) from directors who attended less than 75% of the board and committee meetings without a valid reason for the absences; (2) implemented or renewed a dead-hand poison pill; (3) ignored a shareholder proposal that was approved by a majority of the votes cast for two consecutive years; (4) ignored a shareholder proposal approved by a majority of the shares outstanding; (5) have failed to act on takeover offers where the majority of the shareholders have tendered their shares; (6) are inside directors or affiliated outside directors and sit on the audit, compensation, or nominating committee; (7) are inside directors or affiliated outside directors and the full board serves as the audit, compensation, or nominating committee or the company does not have one of these committees; or (8) are audit committee members and the non-audit fees paid to the auditor are excessive

##### Cumulative Voting

Proposals to eliminate cumulative voting will be determined on a case-by-case basis. Proposals to restore or provide for cumulative voting in the absence of sufficient good

governance provisions and/or poor relative shareholder returns will be determined on a case-by-case basis.

#### Director and Officer Indemnification and Liability Protection

Proposals on director and officer indemnification and liability protection generally evaluated on a case-by-case basis. Generally vote against proposals that would: (1) eliminate entirely directors and officers liability for monetary damages for violating the duty of care; or (2) expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness. Generally vote for only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if: (1) the director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company, and (2) only if the director's legal expenses would be covered.

#### Filling Vacancies/Removal of Directors

Generally vote against proposals that provide that directors may be removed only for cause. Generally vote for proposals to restore shareholder ability to remove directors with or without cause. Proposals that provide that only continuing directors may elect replacements to fill board vacancies will be determined on a case-by-case basis. Generally vote for proposals that permit shareholders to elect directors to fill board vacancies.

#### Independent Chairman (Separate Chairman/CEO)

Generally vote for shareholder proposals requiring the position of chairman be filled by an independent director unless there are compelling reasons to recommend against the proposal, including: (1) designated lead director, elected by and from the independent board members with clearly delineated duties; (2) 2/3 independent board; (3) all independent key committees; or (4) established governance guidelines.

#### Majority of Independent Directors

Generally vote for shareholder proposals requiring that the board consist of a majority or substantial majority (two-thirds) of independent directors unless the board composition already meets the adequate threshold. Generally vote for shareholder proposals requiring the board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard. Generally withhold votes from insiders and affiliated outsiders sitting on the audit, compensation, or nominating committees. Generally withhold votes from insiders and affiliated outsiders on boards that are lacking any of these three panels. Generally withhold votes from insiders and affiliated outsiders on boards that are not at least majority independent.

#### Term Limits

Generally vote against shareholder proposals to limit the tenure of outside directors.

#### Proxy Contests

##### Voting on Director Nominees in Contested Elections

Votes in a contested election of directors should be decided on a case-by-case basis, with shareholders determining which directors are best suited to add value for shareholders. The major decision factors are: (1) company performance relative to its peers; (2) strategy of the incumbents versus the dissidents; (3) independence of directors/nominees; (4) experience and skills of board candidates; (5) governance profile of the company; (6) evidence of management entrenchment; (7) responsiveness to shareholders; or (8) whether takeover offer has been rebuffed.

##### Amend Bylaws without Shareholder Consent

Proposals giving the board exclusive authority to amend the bylaws will be determined on a case-by-case basis. Proposals giving the board the ability to amend the bylaws in addition to shareholders will be determined on a case-by-case basis.

#### Confidential Voting

Generally vote for shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy may remain in place. If the dissidents will not agree, the confidential voting policy may be waived. Generally vote for management proposals to adopt confidential voting.

#### Cumulative Voting

Proposals to eliminate cumulative voting will be determined on a case-by-case basis. Proposals to restore or provide for cumulative voting in the absence of sufficient good governance provisions and/or poor relative shareholder returns will be determined on a case-by-case basis.

#### Antitakeover Defenses and Voting Related Issues

#### Advance Notice Requirements for Shareholder Proposals/Nominations

Votes on advance notice proposals are determined on a case-by-case basis.

#### Amend Bylaws without Shareholder Consent

Proposals giving the board exclusive authority to amend the bylaws will be determined on a case-by-case basis. Generally vote for proposals giving the board the ability to amend the bylaws in addition to shareholders.

#### Poison Pills (Shareholder Rights Plans)

Generally vote for shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it. Votes regarding management proposals to ratify a poison pill should be determined on a case-by-case basis. Plans should embody the following attributes: (1) 20% or higher flip-in or flip-over; (2) two to three year sunset provision; (3) no dead-hand or no-hand features; or (4) shareholder redemption feature

#### Shareholders Ability to Act by Written Consent

Generally vote against proposals to restrict or prohibit shareholders ability to take action by written consent. Generally vote for proposals to allow or make easier shareholder action by written consent.

#### Shareholders Ability to Call Special Meetings

Proposals to restrict or prohibit shareholders ability to call special meetings or that remove restrictions on the right of shareholders to act independently of management will be determined on a case-by-case basis.

#### Supermajority Vote Requirements

Proposals to require a supermajority shareholder vote will be determined on a case-by-case basis Proposals to lower supermajority vote requirements will be determined on a case-by-case basis.

#### Merger and Corporate Restructuring

#### Appraisal Rights

Generally vote for proposals to restore, or provide shareholders with, rights of appraisal.

#### Asset Purchases

Generally vote case-by-case on asset purchase proposals, taking into account: (1) purchase price, including earnout and contingent payments; (2) fairness opinion; (3) financial and strategic benefits; (4) how the deal was negotiated; (5) conflicts of interest; (6) other alternatives for the business; or (7) noncompletion risk (company's going concern prospects, possible bankruptcy).

#### Asset Sales

Votes on asset sales should be determined on a case-by-case basis after considering: (1) impact on the balance sheet/working capital; (2) potential elimination of diseconomies; (3) anticipated financial and operating benefits; (4) anticipated use of funds; (5) value received for the asset; fairness opinion (if any); (6) how the deal was negotiated; or (6) Conflicts of interest

#### Conversion of Securities

Votes on proposals regarding conversion of securities are determined on a case-by-case basis. When evaluating these proposals, should review (1) dilution to existing shareholders' position; (2) conversion price relative to market value; (3) financial issues: company's financial situation and degree of need for capital; effect of the transaction on the company's cost of capital; (4) control issues: change in management; change in control; standstill provisions and voting agreements; guaranteed contractual board and committee seats for investor; veto power over certain corporate actions; (5) termination penalties; (6) conflict of interest: arm's length transactions, managerial incentives. Generally vote for the conversion if it is expected that the company will be subject to onerous penalties or will be forced to file for bankruptcy if the transaction is not approved.

#### Corporate Reorganization

Votes on proposals to increase common and/or preferred shares and to issue shares as part of a debt restructuring plan are determined on a case-by-case basis, after evaluating: (1) dilution to existing shareholders' position; (2) terms of the offer; (3) financial issues; (4) management's efforts to pursue other alternatives; (5) control issues; (6) conflict of interest. Generally vote for the debt restructuring if it is expected that the company will file for bankruptcy if the transaction is not approved.

#### Reverse Leveraged Buyouts

Votes on proposals to increase common and/or preferred shares and to issue shares as part of a debt restructuring plan are determined on a case-by-case basis, after evaluating: (1) dilution to existing shareholders' position; (2) terms of the offer; (3) financial issues; (4) management's efforts to pursue other alternatives; (5) control issues; (6) conflict of interest. Generally vote for the debt restructuring if it is expected that the company will file for bankruptcy if the transaction is not approved.

### Formation of Holding Company

Votes on proposals regarding the formation of a holding company should be determined on a case-by-case basis taking into consideration: (1) the reasons for the change; (2) any financial or tax benefits; (3) regulatory benefits; (4) increases in capital structure; (5) changes to the articles of incorporation or bylaws of the company. Absent compelling financial reasons to recommend the transaction, generally vote against the formation of a holding company if the transaction would include either of the following: (1) increases in common or preferred stock in excess of the allowable maximum as calculated a model capital structure; (2) adverse changes in shareholder rights; (3) going private transactions; (4) votes going private transactions on a case-by-case basis, taking into account: (a) offer price/premium; (b) fairness opinion; (c) how the deal was negotiated; (d) conflicts of interest; (e) other alternatives/offers considered; (f) noncompletion risk.

### Joint Ventures

Vote on a case-by-case basis on proposals to form joint ventures, taking into account: (1) percentage of assets/business contributed; (2) percentage ownership; (3) financial and strategic benefits; (4) governance structure; (5) conflicts of interest; (6) other alternatives; (7) noncompletion risk; (8) liquidations. Votes on liquidations should be determined on a case-by-case basis after reviewing: (1) management's efforts to pursue other alternatives such as mergers; (2) appraisal value of the assets (including any fairness opinions); (3) compensation plan for executives managing the liquidation. Generally vote for the liquidation if the company will file for bankruptcy if the proposal is not approved.

### Mergers and Acquisitions

Votes on mergers and acquisitions should be considered on a case-by-case basis, determining whether the transaction enhances shareholder value by giving consideration to: (1) prospects of the combined companies; (2) anticipated financial and operating benefits; (3) offer price; (4) fairness opinion; (5) how the deal was negotiated; (6) changes in corporate governance and their impact on shareholder rights; (7) change in the capital structure; (8) conflicts of interest.

### Private Placements

Votes on proposals regarding private placements should be determined on a case-by-case basis. When evaluating these proposals, should review: (1) dilution to existing shareholders' position; (2) terms of the offer; (3) financial issues; (4) management's efforts to pursue alternatives such as mergers; (5) control issues; (6) conflict of interest. Generally vote for the private placement if it is expected that the company will file for bankruptcy if the transaction is not approved.

### Prepackaged Bankruptcy Plans

Votes on proposals to increase common and/or preferred shares and to issue shares as part of a debt restructuring plan are determined on a case-by-case basis, after evaluating: (1) dilution to existing shareholders' position; (2) terms of the offer; (3) financial issues; (4) management's efforts to pursue other alternatives; (5) control issues; (6) conflict of interest. Generally vote for the debt restructuring if it is expected that the company will file for bankruptcy if the transaction is not approved.

### Recapitalization

Votes case-by-case on recapitalizations (reclassifications of securities), taking into account: (1) more simplified capital structure; (2) enhanced liquidity; (3) fairness of conversion terms, including fairness opinion; (4) impact on voting power and dividends; (5) reasons for the reclassification; (6) conflicts of interest; (7) other alternatives considered.

### Reverse Stock Splits

Generally vote for management proposals to implement a reverse stock split when the number of authorized shares will be proportionately reduced. Generally vote for management proposals to implement a reverse stock split to avoid delisting. Votes on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for issue should be determined on a case-by-case basis.

### Spinoffs

Votes on spinoffs should be considered on a case-by-case basis depending on: (1) tax and regulatory advantages; (2) planned use of the sale proceeds; (3) valuation of spinoff; fairness opinion; (3) benefits that the spinoff may have on the parent company including improved market focus; (4) conflicts of interest; managerial incentives; (5) any changes in corporate governance and their impact on shareholder rights; (6) change in the capital structure

### Value Maximization Proposals

Vote case-by-case on shareholder proposals seeking to maximize shareholder value.

### Capital Structure

#### Adjustments to Par Value of Common Stock

Generally vote for management proposals to reduce the par value of common stock unless the action is being taken to facilitate an antitakeover device or some other negative corporate governance action. Generally vote for management proposals to eliminate par value.

#### Common Stock Authorization

Votes on proposals to increase the number of shares of common stock authorized for issuance are determined on a case-by-case basis. Generally vote against proposals at companies with dual-class capital structures to increase the number of authorized shares of the class of stock that has superior voting rights. Generally vote for proposals to approve increases beyond the allowable increase when a company's shares are in danger of being delisted or if a company's ability to continue to operate as a going concern is uncertain.

#### Dual-class Stock

Generally vote against proposals to create a new class of common stock with superior voting rights. Generally vote for proposals to create a new class of nonvoting or subvoting common stock if: (1) it is intended for financing purposes with minimal or no dilution to current shareholders; (2) it is not designed to preserve the voting power of an insider or significant shareholder.

#### Issue Stock for Use with Rights Plan

Generally vote against proposals that increase authorized common stock for the explicit purpose of implementing a shareholder rights plan.

#### Preemptive Rights

Votes regarding shareholder proposals seeking preemptive rights should be determined on a case-by-case basis after evaluating: (1) the size of the company; (2) the shareholder base; (3) the liquidity of the stock

#### Preferred Stock

Generally vote against proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights (blank check preferred stock). Generally vote for proposals to create clawed blank check preferred stock (stock that cannot be used as a takeover defense). Generally vote for proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable. Generally vote against proposals to increase the number of blank check preferred stock authorized for issuance when no shares have been issued or reserved for a specific purpose. Generally vote case-by-case on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for issue given a company's industry and performance in terms of shareholder returns.

#### Recapitalization

Vote case-by-case on recapitalizations (reclassifications of securities), taking into account: (1) more simplified capital structure; (2) enhanced liquidity; (3) fairness of conversion terms, including fairness opinion; (4) impact on voting power and dividends; (5) reasons for the reclassification; (6) conflicts of interest; (7) other alternatives considered.

#### Reverse Stock Splits

Generally vote for management proposals to implement a reverse stock split when the number of authorized shares will be proportionately reduced. Generally vote for management proposals to implement a reverse stock split to avoid delisting. Votes on proposals to implement a reverse stock split that do not proportionately reduce the number of shares authorized for issue should be determined on a case-by-case basis.

#### Share Repurchase Programs

Generally vote for management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

#### Stock Distributions: Splits and Dividends

Generally vote for management proposals to increase the common share authorization for a stock split or share dividend, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance.

#### Tracking Stock

Votes on the creation of tracking stock are determined on a case-by-case basis, weighing the strategic value of the transaction against such factors as: (1) adverse governance changes; (2) excessive increases in authorized capital stock; (3) unfair method of distribution; (4) diminution of voting rights; (5) adverse conversion features; (6) negative impact on stock option plans; (7) other alternatives such as a spinoff.

#### Executive and Director Compensation

#### Executive and Director Compensation

Votes on compensation plans for directors are determined on a case-by-case basis.

#### Stock Plans in Lieu of Cash

Votes for plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock are determined on a case-by-case basis. Generally vote for plans which provide a dollar-for-dollar cash for stock exchange. Votes for plans

which do not provide a dollar-for-dollar cash for stock exchange should be determined on a case-by-case basis.

#### Director Retirement Plans

Generally vote against retirement plans for nonemployee directors. Generally vote for shareholder proposals to eliminate retirement plans for nonemployee directors.

#### Management Proposals Seeking Approval to Reprice Options

Votes on management proposals seeking approval to reprice options are evaluated on a case-by-case basis giving consideration to the following: (1) historic trading patterns; (2) rationale for the repricing; (3) value-for-value exchange; (4) option vesting; (5) term of the option; (6) exercise price; (7) participants; (8) employee stock purchase plans. Votes on employee stock purchase plans should be determined on a case-by-case basis. Generally vote for employee stock purchase plans where: (1) purchase price is at least 85 percent of fair market value; (2) offering period is 27 months or less, and (3) potential voting power dilution (VPD) is ten percent or less. Generally vote against employee stock purchase plans where either: (1) purchase price is less than 85 percent of fair market value; (2) Offering period is greater than 27 months, or (3) VPD is greater than ten percent

#### Incentive Bonus Plans and Tax Deductibility Proposals

Generally vote for proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive. Generally vote for proposals to add performance goals to existing compensation plans. Votes to amend existing plans to increase shares reserved and to qualify for favorable tax treatment considered on a case-by-case basis. Generally vote for cash or cash and stock bonus plans that are submitted to shareholders for the purpose of exempting compensation from taxes if no increase in shares is requested.

#### Employee Stock Ownership Plans (ESOPs)

Generally vote for proposals to implement an ESOP or increase authorized shares for existing ESOPs, unless the number of shares allocated to the ESOP is excessive (more than five percent of outstanding shares.)

#### 401(k) Employee Benefit Plans

Generally vote for proposals to implement a 401(k) savings plan for employees.

#### Shareholder Proposals Regarding Executive and Director Pay

Generally vote for shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders' needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company. Generally vote against shareholder proposals seeking to set absolute levels on compensation or otherwise dictate the amount or form of compensation. Generally vote against shareholder proposals requiring director fees be paid in stock only. Generally vote for shareholder proposals to put option repricings to a shareholder vote. Vote for shareholders proposals to exclude pension fund income in the calculation of earnings used in determining executive bonuses/compensation. Vote on a case-by-case basis for all other shareholder proposals regarding executive and director pay, taking into account company performance, pay level versus peers, pay level versus industry, and long term corporate outlook.

#### Performance-Based Option Proposals

Generally vote for shareholder proposals advocating the use of performance-based equity awards (indexed, premium-priced, and performance-vested options), unless: (1) the proposal is overly restrictive; or (2) the company demonstrates that it is using a substantial portion of performance-based awards for its top executives.

#### Stock Option Expensing

Generally vote for shareholder proposals asking the company to expense stock options unless the company has already publicly committed to start expensing by a specific date.

#### Golden and Tin Parachutes

Generally vote for shareholder proposals to require golden and tin parachutes to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts. Vote on a case-by-case basis on proposals to ratify or cancel golden or tin parachutes.

### **Item 8. Portfolio Managers of Closed-End Management Investment Companies.**

Information pertaining to the Chief Investment Officer and Portfolio Manager of the Credit Suisse Asset Management Income Fund, as of December 31, 2013, is set forth below.

Thomas J. Flannery	Managing Director of Credit Suisse and Head of the Credit Suisse
Chief Investment	US High Yield Management Team; Associated with Credit Suisse
Officer Since 2010	Group A.G. since 1998; Officer of other Credit Suisse Funds
Year of Birth: 1974	

Wing Chan Director of Credit Suisse and a member of the  
 Portfolio Manager US High Yield Management Team; Associated with Credit Suisse  
 Year of Birth: 1976 since 2005  
 Registered Investment Companies, Pooled Investment Vehicles and Other Accounts Managed

As reported to the Registrant, the information in the following table reflects the number of registered investment companies, pooled investment vehicles and other accounts managed by Mr. Flannery and Ms. Chan and the total assets managed within each category as of December 31, 2013.

	Registered Investment Companies		Other Pooled Investment Vehicles		Other Accounts	
	Number	Assets (\$ million)	Number	Assets (\$ million)	Number	Assets (\$ million)
Thomas J. Flannery*	4	\$2,386 million	37	\$17,330 million	11	\$7,151 million
Wing Chan	4	\$2,386 million	6	\$3,876 million	11	\$7,151 million

\*As of December 31, 2013, Mr. Flannery manages 27 accounts which have total assets under management of \$ 10,098 million, and which have additional fees based on the performance of the accounts.

#### Potential Conflicts of Interest

It is possible that conflicts of interest may arise in connection with the portfolio managers' management of the Funds' investments on the one hand and the investments of other accounts on the other. For example, the portfolio managers may have conflicts of interest in allocating management time, resources and investment opportunities among the Funds and other accounts they advise. In addition due to differences in the investment strategies or restrictions between the Funds and the other accounts, the portfolio managers may take action with respect to another account that differs from the action taken with respect to the Funds. Credit Suisse has adopted policies and procedures that are designed to minimize the effects of these conflicts.

If Credit Suisse believes that the purchase or sale of a security is in the best interest of more than one client, it may (but is not obligated to) aggregate the orders to be sold or purchased to

seek favorable execution or lower brokerage commissions, to the extent permitted by applicable laws and regulations. Credit Suisse may aggregate orders if all participating client accounts benefit equally (i.e., all receive an average price of the aggregated orders). In the event Credit Suisse aggregates an order for participating accounts, the method of allocation will generally be determined prior to the trade execution. Although no specific method of allocation of transactions (as well as expenses incurred in the transactions) is expected to be used, allocations will be designed to ensure that over time all clients receive fair treatment consistent with Credit Suisse's fiduciary duty to its clients (including its duty to seek to obtain best execution of client trades). The accounts aggregated may include registered and unregistered investment companies managed by Credit Suisse's affiliates and accounts in which Credit Suisse's officers, directors, agents, employees or affiliates own interests. Credit Suisse may not be able to aggregate securities transactions for clients who direct the use of a particular broker-dealer, and the client also may not benefit from any improved execution or lower commissions that may be available for such transactions.

#### Compensation

Thomas J. Flannery and Wing Chan are compensated for their services by Credit Suisse. Their compensation consists of a fixed base salary and a discretionary bonus that is not tied by formula to the performance of any fund or account. The factors taken into account in determining each of their bonuses includes the Fund's performance, assets held in the Fund and other accounts managed by each of them, business growth, team work, management, corporate citizenship, etc.

A portion of the bonus may be paid in phantom shares of Credit Suisse Group AG stock as deferred compensation. Phantom shares are shares representing an unsecured right to receive on a particular date a specified number of registered shares subject to certain terms and conditions. A portion of the bonus will receive the notional return of the fund(s) the portfolio manager manages and a portion of the bonus will receive the notional return of a basket of other Credit Suisse funds along the product line of the portfolio manager.

Like all employees of Credit Suisse, portfolio managers participate in Credit Suisse Group AG's profit sharing and 401(k) plans.

Securities Ownership. As of December 31, 2013, Mr. Flannery and Ms. Chan did not own any shares of the registrant.
