Manager Commentary

December 31, 2013 (Unaudited)

To Our Shareholders:

Senior secured bank loans and high yield bonds generally earned returns in the 6.00% to 7.50% range for 2013, in contrast to core fixed income or emerging market debt where returns were negative (see table below). While concerns over rising interest rates persisted throughout the year, a steadily improving global macro-economic picture contributed to receding down-side risks to the economic recovery and reduced financial market volatility, both of which increased investors' appetite for risk assets such as equities and sub-investment grade credit.

Given 2013's very favorable credit environment (low default rate), credit spreads in hindsight were too wide at the beginning of the year. As a result, credit spreads for loans and high yield bonds tightened during the year by 67 basis points (bps¹ and 48 bps², respectively). Despite this contraction in credit spreads, bank loan spreads remain wide of their historical average and continue to represent good value given the expected continuation of the benign credit environment. High yield bonds appear less attractive given the historic low absolute yield, below average spreads, longer duration, and the likelihood that the Fed's tapering of Quantitative Easing (QE) should ultimately result in a steepening of the yield curve.

Investor demand for bank loans was bolstered by slowly improving domestic economic fundamentals and increasing concern over rising interest rates. As of year-end, bank loan mutual funds experienced 81 consecutive weeks of inflows totaling in excess of \$63 billion for the year, or more than three times the previous annual record of \$18 billion, logged in 2010. Institutional demand was also very strong, led by collateralized loan obligation vehicles, which raised a near record \$87 billion. On the supply side, institutional bank loan issuance also set a record for the post-crisis period with \$669 billion of loan deals coming to market.³ While the use of proceeds behind this issuance varied, JP Morgan reported that 71% of institutional bank loans were issued to refinance or reprice existing bank loan facilities and 29%, or approximately \$194 billion, of issuance represented new transactions. Given this analysis of the use of newly issued bank loan proceeds and visible inflows into bank loan investment vehicles, it appears that supply and demand for bank loans were likely not too out of balance. High yield bond mutual fund inflows, conversely, experienced considerable week-to-week volatility throughout the year, ending 2013 with a net outflow of \$4.8 billion (according to JPMorgan). High yield volume for the year was more modest compared to loan issuance (\$399 billion) but high relative to historical averages.³ Concern over rising interest rates and the timing of central bank policy clearly pushed some high yield bond investors into bank loans, providing them a slight increase of 52 bps in yield based on the December spreads of the CSLLI and the CSHYI. High yield spreads started the year tighter than bank loan spreads by 12 bps and ended the year tighter by 52 bps, though the spread differential averaged only 12 bps of spread gain over the course of the year.

There is significant support on a number of fronts for the leveraged finance asset classes and particularly for bank loans. Bank loans offer a positive and attractive current yield (measured as coupon/price) of 4.84% compared to high yield bonds at 7.19% as of December 31, 2013⁴, investment grade corporates around 4.00%, or the 10-year US treasuries at 2.65% (the latter two with significant duration risk). Bank loans have a much lower correlation to US Treasury yields, and default risk for the foreseeable future is expected to remain very low. Technical underpinnings for bank loans should also remain strong through 2014 with the steadily improving GDP in the US, while reduced

fiscal drag should provide a tailwind to the private economy.

Periods of heightened uncertainty have generally not been friendly to risk assets, such as bank loans, high yield bonds and equities, driving investors to seek lower volatility. We are seeing some macro headwinds in certain international economies where the companies in which we invest do business. The emerging markets are slowing, in some cases fairly significantly. The economies of China, Brazil and Turkey, which were engines of global growth for much of the post-crisis period, have slowed and are likely to continue to slow through 2014. The Arab spring has frozen over to an Arab winter, with geo-political risks in the middle-east, far-east and Africa, as well as Ukraine, that are likely to dominate the headlines and impact investor sentiment for much of this year. Europe, as it slowly stabilizes, should continue to be a positive factor. US credit fundamentals, as we noted above, have been positive and we see them remaining so through 2014, the recent disappointing macro data notwithstanding. While credit spreads may continue to tighten, the consensus suggests returns for bank loans will be in the 4.00% to 5.00% range for 2014, meaning that they will be positive and should continue to outperform other fixed income alternatives.

Blackstone / GSO Senior Floating Rate Term Fund

Fund Summary

December 31, 2013 (Unaudited)

Fund Overview

Blackstone /GSO Senior Floating Rate Term Fund (BSL or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BSL . BSL s primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, the fund invests at least 80% of its total assets in senior, secured floating rate loans (Senior Loans). BSL may also invest in second-lien loans and high yield bonds and employs financial leverage with may increase risk to the fund.

Portfolio Management Commentary

Fund Performance

BSL outperformed its key benchmark, the CSLLI, on a Net Asset Value (NAV) per share basis for the periods of three months, six months, full year, three years, and the life of the Fund since inception. However, the share price of BSL underperformed its benchmark over those same periods due to market value fluctuations. The shares of the Fund traded at an average premium to NAV of 3.41% for the year.

NAV Performance Factors

The Fund held relatively small investments in Media Advertising, Printing and Utilities Electric, which were the segments that saw the highest annual returns of the portfolio. Among its more meaningful allocations, Hotels, Gaming and Leisure, Telecommunications, and Energy Oil and Gas helped boost performance throughout 2013. Conversely, BSL s exposure to Consumer Goods Durable and Aerospace and Defense weakened its 2013 performance.

Portfolio Activity and Positioning

Over the past twelve months, BSL, along with the rest of the Senior Loan market, experienced a compression in spreads due to heavy refinancing and repricing activity throughout its portfolio. The Fund was selective with its secondary purchases as much of the loan market was trading at a premium to par. By actively playing the new issue market, the Fund could balance lower coupons with the benefit of original issue discounts that help increase an asset s yield and offer some convexity. BSL maintains a quality bias and remains focused on the higher quality segment of the below investment grade loan market.

As of December 31, 2013, the Fund held just under 90% of its Managed Assets in first and second-lien secured bank loans and approximately 5% in high yield bonds with the remainder held in cash. BSL s investments represented the obligations of 170 companies diversified across 29 distinct industries, with an average position size representing 0.50% of Managed Assets and the top five industry groups representing 46% of total holdings of the Fund. Diversification across industries has been generally consistent with their respective representations in the US economy as a whole. High Tech Industries and Healthcare and Pharmaceuticals represent the Fund s top industry weightings. BSL has no exposure to home builders, property or real estate related businesses, which are some of the more volatile sectors of the economy, and worked to reduce exposure to defense and federal technology companies, which are more

susceptible to budget cuts.

Blackstone / GSO Long-Short Credit Income Fund

Fund Summary

December 31, 2013 (Unaudited)

Fund Overview

Blackstone /GSO Long Short Credit Income Fund (BGX or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BGX . BGX 's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX will take long positions in investments which we believe offer the potential for attractive returns under various economic and interest rate environments. BGX may also take short positions in investments which we believe will under-perform due to a greater sensitivity to earnings growth of the issuer, default risk or the general level and direction of interest rates. BGX must hold no less than 70% of its Managed Assets in secured floating rate loans (Secured Loans), but may also invest in unsecured loans and high yield bonds. BGX may use financial leverage and derivatives in employing its long strategy for up to a total of 130% of net assets.

Portfolio Management Commentary*Fund Performance*

BGX outperformed a composite weighting of the CSLLI and the CSHYI (70% loans, 30% high yield bonds) on a NAV per share basis for the periods of three months, six months, full year, and the life of the Fund since inception. However, the share price of BGX underperformed its benchmark over those same periods due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of -2.68% for the year.

NAV Performance Factors Secured Loan Portfolio

BGX 's top industry allocations at year end, High Tech and Healthcare and Pharmaceuticals, provided some of the highest loan returns when compared to the other sectors held in the portfolio. The Fund 's investments in Media Advertising, Printing and Utilities Electric companies saw the highest annual loan returns of the portfolio, albeit the investments in these sectors was relatively small. Consumer Goods Durable and Construction and Building issuers, which were also relatively small allocations, contributed some of the lower loan returns to BGX 's 2013 performance versus other portfolio sectors.

Portfolio Activity and Positioning

Over the past twelve months, BGX increased its exposure to High Tech companies and decreased its exposure to Retail issuers. The Fund also reduced its high yield exposure attempting to both de-risk the portfolio and take gains that could be distributed to its investors through a special dividend at year end. Similar to BSL, BGX actively played the new issue market. BGX places value on the higher quality segment of the below investment grade loan market, but selectively invests in certain lower rated assets where we are comfortable with credit risk and volatility.

As of December 31, 2013, over 73% of BGX 's assets were invested, either directly or via a total return swap arrangement, in Secured Loans and 23% were invested in high yield bonds. The Fund also held a small position of 0.37% in the Ba3 rated tranche of a Collateralized Loan Obligation as well as a short position totaling 0.60% of Managed Assets. In the aggregate, these investments represent the direct obligations of 155 companies diversified

across 31 distinct industries, with an average position representing 0.56% of Managed Assets. The top five industry groups represented 45% of total holdings of the Fund.

Blackstone / GSO Strategic Credit Fund

Fund Summary

December 31, 2013 (Unaudited)

Fund Overview

Blackstone /GSO Strategic Credit Fund (BGB or herein, the Fund) is a closed-end fund that trades on the New York Stock Exchange under the symbol BGB . BGB 's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. BGB invests primarily in a diversified portfolios or loans and other fixed income instruments of predominantly US Corporate issuers, including first- and second-lien loans (Senior Secured Loans) and high yield corporate bonds of varying maturities. BGB must hold no less than 80% of its Managed Assets in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Portfolio Management Commentary*Fund Performance*

BGB outperformed a composite weighting of the CSLLI and the CSHYI (75% loans, 25% high yield bonds) on a NAV per share basis for the periods of three months, six months, full year, and the life of the Fund since inception. On a share price basis, the Fund also outperformed its benchmark over the past three months and though it underperformed over the periods of six month, full year, and the life of the fund since inception due to market value fluctuations. The shares of the Fund traded at an average discount to NAV of

-2.12% for the year.

NAV Performance Factors Senior Secured Loan Portfolio

BGB held relatively small investments in Utilities Electric and Hotels, Gaming and Leisure, which were the segments that saw the highest annual loan returns of the portfolio. The Fund 's top 5 industry allocations were some of the highest performing loans in the portfolio. Conversely, BGB 's loan exposure to Consumer Goods Durable and Media Advertising, Printing and Publishing weakened its 2013 performance. The majority of the Media Advertising, Printing and Publishing underperformance stemmed from losses of one position, which accounted for approximately 0.60% of Managed Assets. GSO /Blackstone developed credit concerns for this issuer and decided to sell out of our position firm-wide to reduce further NAV degradation.

Portfolio Activity and Positioning

Over the past twelve months, BGB decreased its exposure to Healthcare and Pharmaceuticals and Retail companies. The Fund also slightly reduced its high yield exposure and increased its second lien loan exposure, attempting to capture the best potential return for level of risk. BGB purchased appropriate new issuances and focused on relative value in the secondary market while maintaining a neutral bias to credit quality.

As of December 31, 2013, approximately 75% of BGB 's assets were invested in Senior Secured Loans, 21% were invested in high yield bonds, and the remainder was held in cash. In the aggregate, these investments represent the

direct obligations of 274 companies diversified across 29 distinct industries, with an average position representing 0.47% of Managed Assets. The top five industry groups represented 43% of total holdings of the Fund.

Blackstone / GSO Funds

Fund Summary

December 31, 2013 (Unaudited)

Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Funds' dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any.

An investment in the Funds involves risk, including the loss of principal. Total return, market price, current dividend yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Holdings are subject to change daily.

Performance data quoted represents past performance and does not guarantee future results.

Credit Suisse Leveraged Loan Index is an unmanaged market value weighted index designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market. New issues are added to the index on their effective date if they qualify according to the following criteria: loan facilities must be rated BB or lower; only fully-funded term loan facilities are included; and issuers must be domiciled in developed countries.

Credit Suisse High Yield Index is an unmanaged market value-weighted index designed to mirror the investable universe of the U.S. dollar-denominated high yield debt market. New issues are added to the index upon issuance if they qualify according to the following criteria: issues must be publicly registered in the United States or issued under Rule 144A with registration rights; issues must be rated BB or lower; the minimum amount outstanding is \$75 million; and issues must be U.S. dollar-denominated straight corporate debt, including cash-pay, zero-coupon, stepped-rate and pay-in-kind (PIK) bonds. Floating-rate and convertible bonds and preferred stock are not included; if an issuer has more than two issues outstanding, only the two most liquid issues are included in the index.

An index does not show actual investment returns or reflect payment of management or brokerage fees, which would lower the index's performance. Indices are unmanaged and should not be considered an investment. It is not possible to invest directly in an index. The performance of the index does not represent generally the performance of any investment.

GSO / Blackstone Debt Funds Management LLC does not view ratings as the determinative factor in its investment decisions and relies more upon its credit analysis abilities than upon ratings.

BORROWINGS:

Aggregate principal amount, end of period (000s)	\$ 96,000	\$ 96,000	\$ 96,000	\$ 96,000
Average borrowings outstanding during the period (000s)	\$ 96,000	\$ 96,000	\$ 96,000	\$ 61,527
Asset coverage, end of period per \$1,000	\$ 4,556 ^(h)	\$ 4,057 ⁽ⁱ⁾	\$ 3,972 ⁽ⁱ⁾	\$ 4,096 ⁽ⁱ⁾

(a) Calculated using average common shares outstanding.

(b) Total investment return is calculated assuming a purchase of common share at the opening on the first day and a sale at closing on the last day of each period reported. Dividends and distributions are assumed for purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions, if any, and are not annualized.

(c) Ratios do not reflect dividend payments to preferred shareholders.

(d) Annualized.

(e) Average managed assets represent net assets applicable to common shares plus liquidation value of Term Preferred Shares and principal value of senior secured notes payable.

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

NOTE 1. ORGANIZATION

Blackstone /GSO Senior Floating Rate Term Fund (BSL), is a non-diversified, closed-end management investment company. BSL was organized as a Delaware statutory trust on March 4, 2010. BSL was registered under the Investment Company Act of 1940, as amended (the 1940 Act), on March 5, 2010. BSL commenced operations on May 26, 2010. Prior to that date, BSL had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BSL to GSO /Blackstone Debt Funds Management LLC (the Adviser) at a price of \$19.10 per share. The Adviser serves as BSL 's investment adviser. BSL 's common shares are listed on the New York Stock Exchange (the Exchange) and trade under the ticker symbol BSL.

Absent shareholder approval to extend the term of BSL, BSL will dissolve on or about May 31, 2020. Upon dissolution, BSL will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities. Pursuant to BSL 's Amended and Restated Agreement and Declaration of Trust (the Declaration of Trust), prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the shareholders entitled to vote (as defined in the 1940 Act) may extend the life of BSL. If approved, the dissolution date of BSL may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of BSL may be extended an unlimited number of times.

Blackstone /GSO Long-Short Credit Income Fund (BGX) is a non-diversified closed-end management investment company. BGX was organized as a Delaware statutory trust on October 22, 2010. BGX was registered under the 1940 Act on October 26, 2010. BGX commenced operations on January 27, 2011. Prior to that, BGX had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGX to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGX. BGX 's common shares are listed on the Exchange and trade under the ticker symbol BGX.

Blackstone /GSO Strategic Credit Fund (BGB) and collectively with BSL and BGX, the Funds) is a non-diversified closed-end management investment company. BGB was organized as a Delaware statutory trust on March 28, 2012. BGB was registered under the 1940 Act on April 6, 2012. BGB commenced operations on September 26, 2012. Prior to that, BGB had no operations other than matters relating to its organization and the sale and issuance of 5,236 common shares of beneficial interest in BGB to the Adviser at a price of \$19.10 per share. The Adviser serves as the investment adviser for BGB. BGB 's common shares are listed on the Exchange and trade under the ticker symbol BGB.

BGB will dissolve on or about September 15, 2027, absent shareholder approval to extend such term. Upon dissolution, BGB will distribute substantially all of its net assets to shareholders, after making appropriate provision for any liabilities of the Fund. Pursuant to BGB 's Agreement and Declaration of Trust, prior to the date of dissolution a majority of the Board of Trustees, with the approval of a majority of the outstanding voting securities entitled to vote (as defined in the 1940 Act), may extend the life of BGB. If approved, the dissolution date of the Fund may be extended by a period of two years or such shorter time as may be determined. However, the dissolution date of the Fund may be extended an unlimited number of times.

BSL's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. Under normal market conditions, at least 80% of BSL's assets will be invested in senior secured, floating rate loans (Senior Loans).

BGX's primary investment objective is to provide current income, with a secondary objective of capital appreciation. BGX seeks to achieve its investment objectives by employing a dynamic long-short strategy in a diversified portfolio of loans and fixed-income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans (Secured Loans) and high-yield corporate debt securities of varying maturities. BGX's long positions in loans and fixed-income instruments will typically be rated below investment grade at the time of purchase. BGX's long positions, either directly or through the use of derivatives, may total up to 130% of BGX's net assets. BGX's short positions, either directly or through the use of derivatives, may total up to 30% of BGX's net assets.

BGB's primary investment objective is to seek high current income, with a secondary objective to seek preservation of capital, consistent with its primary goal of high current income. The Fund will seek to achieve its investment objectives by investing primarily in a diversified portfolio of loans and other fixed income instruments of predominantly U.S. corporate issuers, including first- and second-lien secured loans (Senior Secured Loans) and high yield corporate bonds of varying maturities. Under normal market conditions, at least 80% of BGB's assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics.

Senior Loans, Secured Loans and Senior Secured Loans are referred to collectively as Loans throughout the Notes to Financial Statements.

The Funds are classified as non-diversified under the 1940 Act. As a result, each Fund can invest a greater portion of its assets in obligations of a single issuer than a diversified fund. The Funds may therefore be more susceptible than a diversified fund to being adversely affected by any single corporate, economic, political, or regulatory occurrence.

Notes to Financial Statements

December 31, 2013

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements. The preparation of their financial statements is in accordance with accounting principles generally accepted in the United States of America (GAAP), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates and these differences could be material.

Portfolio Valuation: The Funds' net asset value (NAV) is determined daily on each day that the Exchange is open for business, as of the close of the regular trading session on the Exchange. The Funds calculate NAV per share by subtracting liabilities (including accrued expenses or dividends) from the total assets of each Fund (the value of the securities plus cash or other assets, including interest accrued but not yet received) and dividing the result by the total number of outstanding common shares of the Funds.

Loans are primarily valued by using a composite loan price from a nationally recognized loan pricing service. The methodology used by the Funds' nationally recognized loan pricing provider for composite loan prices is to value loans at the mean of the bid and ask prices from one or more brokers or dealers. Collateralized Loan Obligations (CLOs) are valued at the price provided by a nationally recognized service. The prices provided by the nationally recognized service are typically based on the evaluated mid-price of each of the CLOs. Corporate bonds, other than short-term investments, are valued at the price provided by a nationally recognized pricing service. The prices provided by the nationally recognized service are typically based on the mean of bid and ask prices for each corporate bond security. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrices, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. Short-term debt investments, if any, having a remaining maturity of 60 days or less when purchased would be valued at cost adjusted for amortization of premiums and accretion of discounts. Total return swaps are marked to market daily using prices of the underlying floating rate loans, which are then applied to the corresponding swap. Prices for the underlying floating rate loans are provided by the same nationally recognized loan pricing service. Any investments and other assets for which such current market quotations are not readily available are valued at fair value (Fair Valued Assets) as determined in good faith by a committee of the Adviser under procedures established by, and under the general supervision and responsibility of, the Funds' Boards of Trustees.

Various inputs are used to determine the value of the Funds' investments. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 Unadjusted quoted prices in active markets for identical investments at the measurement date.

Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments).

The valuation techniques used by the Funds to measure fair value during the year ended December 31, 2013 maximized the use of observable inputs and minimized the use of unobservable inputs. The categorization of a value determined for investments and other financial instruments is based on the pricing transparency of the investment and other financial instrument and does not necessarily correspond to the Funds' perceived risk of investing in those securities.

 \$ 101,343,064 \$ 71,530 \$ 1,244,631 \$ 777,743 \$ 120,084,408 \$ (78,196,509) \$ 19,828,462 \$ (28,339,132) \$ 136,814,197

Information about Level 3 fair value measurements as of December 31, 2013:

Blackstone / GSO Senior Floating Rate Term Fund	Fair Value	Valuation Technique(s)	Unobservable Input(s)
Assets			
Floating Rate Loan Interests	\$ 45,333,886	Third-party vendor pricing service	Vendor quotes

Blackstone / GSO Long-Short Credit Income Fund	Fair Value	Valuation Technique(s)	Unobservable Input(s)
Assets			
Collateralized Loan Obligations	\$ 1,096,278	Third-party vendor pricing service	Vendor quotes
Floating Rate Loan Interests	\$ 26,070,812	Third-party vendor pricing service	Vendor quotes

Blackstone / GSO Strategic Credit Fund	Fair Value	Valuation Technique(s)	Unobservable Input(s)
Assets			
Floating Rate Loan Interests	\$ 136,814,197	Third-party vendor pricing service	Vendor quotes

The Funds evaluate transfers into or out of Level 1, 2 and 3 as of the end of the reporting period. There were no transfers between Level 1 and 2 during the period. Securities were transferred from Level 2 to Level 3 because of a lack of observable market data due to decrease in market activity and information for these securities. Other securities were moved from Level 3 to Level 2 as observable inputs were available for purposes of valuing those assets.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

Securities Transactions and Investment Income: Securities transactions are recorded on trade date for financial reporting purposes and amounts payable or receivable for trades not settled at the time of period end are reflected as liabilities and assets, respectively. Interest income, including accretion of discount and amortization of premium, is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations.

When the Funds sell a floating rate loan interest they may pay an agency fee. The Funds earn facility and other fees on floating rate loan interests, and facility fees are typically amortized to income over the term of the loan. Consent and amendment fees are also recorded to income as earned. All of these fees are shown on the Statement of Operations under Facility and other fees.

Federal Income Taxes: It is the policy of the Funds to continue to qualify as regulated investment companies by complying with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies, and to distribute substantially all of their earnings to their shareholders. While no federal income tax provision is required, in early 2013 BGX paid an excise tax liability of \$32,140 relating to the tax year 2012. No federal income or excise tax provision is required for BSL or BGB.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Funds, timing differences and differing characterization of distributions made by the Funds as a whole.

As of and during the year ended December 31, 2013, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations which is generally three years after the filing of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Distributions to Shareholders: The Funds make monthly cash distributions of all or a portion of their net investment income to common shareholders. The Funds will distribute to common shareholders at least annually all or substantially all of their net investment income after the payment of dividends and interest, if any, owed with respect to outstanding preferred shares and/or borrowings. The Funds intend to pay any capital gains distributions at least annually. If BSL realizes a long-term capital gain, it will be required to allocate such gain between the common shares and term preferred shares issued by BSL in proportion to the total dividends paid to each class for the year in which the income is realized.

NOTE 3. MANAGEMENT FEES, ADMINISTRATION FEES, AND OTHER AGREEMENTS

The Adviser, a wholly-owned subsidiary of GSO Capital Partners LP (collectively with its affiliates, GSO), is a registered investment adviser and is responsible for the day-to-day management of, and providing administrative and

compliance oversight services to, the Funds. GSO is an affiliate of The Blackstone Group L.P.

For BSL, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BSL's total assets (including any assets attributable to any leverage used) minus the sum of the BSL's accrued liabilities (other than Fund liabilities incurred for any leverage) (Managed Assets). For BGX, the Adviser receives a monthly fee at the annual rate of 1.20% of the average daily value of BGX's net assets (total assets of BGX minus liabilities, including accrued expenses or dividends). For BGB, the Adviser receives a monthly fee at the annual rate of 1.00% of the average daily value of BGB's Managed Assets.

Each Fund pays every Trustee who is not a director, officer, employee, or affiliate of GSO or ALPS (as defined below), a fee of \$16,667 per annum, plus \$2,500 per joint meeting of the Board of Trustees. The Chairman of the Audit Committee and Chairman of the Nominating and Governance Committee also each receive \$2,500 per annum from each fund. The Lead Independent Trustee receives \$2,667 from each Fund. In addition, for each joint meeting of a committee of the Board of Trustees that does not occur on a regular meeting or special meeting of the Funds, the Funds will each pay every committee member \$750 for each such committee meeting attended. If such committee meeting is not held jointly, the respective Fund will pay each committee member \$1,000 for each such meeting attended. The Funds will also reimburse independent Trustees for travel and out-of-pocket expenses incurred in connection with such meetings.

ALPS Fund Services, Inc. (ALPS) serves as administrator to the Funds. Under the administration agreement, ALPS is responsible for calculating the net asset value of the common shares and generally managing the administrative affairs of the Funds. For BSL and BGB, ALPS receives a monthly fee at the annual rate of 0.15% of the average daily value of Managed Assets, subject to a minimum annual fee of \$350,000, plus out-of-pocket expenses. For BGX, ALPS receives a monthly fee at the annual rate of 0.18% of the average daily value of BGX's net assets, also subject to a minimum annual fee of \$350,000, plus out-of-pocket expenses. ALPS is not considered an affiliate of the Funds, as defined under the 1940 Act.

The Bank of New York Mellon serves as BSL's and BGB's custodian and JP Morgan Chase Bank, National Association (JP Morgan Chase) serves as BGX's custodian. Computershare Shareowner Services, LLC, serves as the Funds' transfer agent. The Bank of New York Mellon, Computershare Shareowner Services, LLC, and JP Morgan Chase are not considered affiliates of the Funds as defined under the 1940 Act.

NOTE 4. SECURITIES TRANSACTIONS

Investment transactions for the year ended December 31, 2013, excluding temporary short-term investments, were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
Blackstone / GSO Senior Floating Rate Term Fund	\$ 358,713,520	\$ 366,343,366
Blackstone / GSO Long-Short Credit Income Fund	226,336,908	236,963,391
Blackstone / GSO Strategic Credit Fund	1,093,212,446	858,566,759

NOTE 5. CAPITAL

The Funds have authorized an unlimited number of \$0.001 par value common shares.

Transactions in shares were as follows:

Blackstone / GSO Senior Floating Rate Term Fund	For the Year Ended December 31, 2013	For the Year Ended December 31, 2012
Common shares outstanding - beginning of period	15,193,991	15,166,193
Common shares issued as reinvestment of dividends	20,895	27,798
Common shares outstanding - end of period	15,214,886	15,193,991

Blackstone / GSO Long-Short Credit Income Fund	For the Year Ended December 31, 2013	For the Year Ended December 31, 2012
Common shares outstanding - beginning of period	12,700,248	12,694,664
Common shares issued as reinvestment of dividends	1,912	5,584
Common shares outstanding - end of period	12,702,160	12,700,248

Blackstone / GSO Strategic Credit Fund	For the Period September 25, 2012

	For the Year Ended December 31, 2013	(Commencement of Operations) to December 31, 2012
Common shares outstanding - beginning of period	44,616,577	5,236
Common shares issued in connection with initial public offering		44,605,000
Common shares issued as reinvestment of dividends	47,805	6,341
Common shares outstanding - end of period	44,664,382	44,616,577

NOTE 6. SENIOR AND SECURED FLOATING RATE LOANS

BSL defines Senior Loans as first lien senior secured, floating rate loans that are made to U.S. and, to a limited extent, non-U.S. corporations, partnerships and other business entities (Borrowers), which operate in various industries and geographical regions. BGX includes first and second lien secured, floating rate loans in its definition of Secured Loans. Under normal market conditions, at least 80% of BSL's Managed Assets will be invested in Senior Loans and 70% of BGX's managed assets will be invested in Secured Loans. Under normal market conditions, at least 80% of BGB's Managed Assets will be invested in credit investments comprised of corporate fixed income instruments and other investments (including derivatives) with similar economic characteristics. BGX defines its managed assets as net assets plus effective leverage obtained through securities lending, swap contract arrangements, and short selling or other derivative transactions (BGX Managed Assets). At December 31, 2013, 84.28% of BSL's Managed Assets were held in Senior Loans, 73.28% of BGX's Managed Assets were held in Secured Loans, and 95.78% of BGB's Managed Assets were held in corporate fixed income instruments including Loans.

Loans hold a senior position in the capital structure of a business entity, are secured with specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by unsecured creditors, subordinated debt holders and stockholders of the Borrower.

Loans often require prepayments from Borrowers' excess cash flows or permit the Borrowers to repay at their election. The degree to which Borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, floating rate loans typically have an expected average life of two to four years. Floating rate loans typically have rates of interest which are re-determined periodically, either daily, monthly, quarterly or semi-annually by reference to a floating base lending rate, primarily the London Interbank Offered Rate (LIBOR), plus a premium or credit spread.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

Loans are subject to the risk of payment defaults of scheduled interest or principal. Such non-payment could result in a reduction of income, a reduction in the value of the investment and a potential decrease in the net asset value of any of the Funds. Risk of loss of income is generally higher for subordinated unsecured loans or debt, which are not backed by a security interest in any specific collateral. There can be no assurance that the liquidation of any collateral securing a Loan would satisfy the Borrower's obligation to the Fund in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Second lien loans generally are subject to similar risks as those associated with investments in first lien loans except that such loans are subordinated in payment and/or lower in lien priority to first lien holders. In the event of default on a second lien loan, the first priority lien holder has first claim to the underlying collateral of the loan. Second lien loans are subject to the additional risk that the cash flow of the Borrower and property securing the loan or debt, if any, may be insufficient to meet scheduled payments after giving effect to the senior obligations of the Borrower. At December 31, 2013, BSL, BGX and BGB had invested \$21,588,161, \$5,571,048 and \$75,877,260, respectively, in second lien secured loans. Second lien secured loans are considered Secured Loans for BGX and Senior Secured Loans for BGB, but are not considered Senior Loans for BSL.

Loans can be rated below investment grade or may also be unrated. As a result, the risks associated with Loans may be similar to the risks of other below investment grade securities, although they are senior and secured in contrast to other below investment grade securities, which are often subordinated or unsecured. BSL, BGX and BGB typically invest in Loans rated below investment grade, which are considered speculative because of the credit risk of the Borrowers. Such companies are more likely than investment grade issuers to default on their payments of interest and principal owed to BSL, BGX and BGB, and such defaults could reduce net asset value and income distributions. The amount of public information available with respect to below investment grade loans will generally be less extensive than that available for registered or exchange-listed securities. In evaluating the creditworthiness of Borrowers, the Adviser will consider, and may rely in part, on analyses performed by others. The Adviser's established best execution procedures and guidelines require trades to be placed for execution only with broker-dealer counterparties approved by the Counterparty and Liquidity Sub-Committee of the Adviser. The factors considered by the Counterparty and Liquidity Sub-Committee when selecting and approving brokers and dealers include, but are not limited to: (i) quality, accuracy, and timeliness of execution, (ii) review of the reputation, financial strength and stability of the financial institution, (iii) willingness and ability of the counterparty to commit capital, (iv) ongoing reliability and (v) access to underwritten offerings and secondary markets. The Counterparty and Liquidity Sub-Committee regularly reviews each broker-dealer counterparty based on the foregoing factors.

BSL, BGX and BGB may acquire Loans through assignments or participations. BSL, BGX and BGB typically acquire these Loans through assignment, and if a Fund acquires a Loan through participation, will seek to elevate a participation interest into an assignment as soon as practicably possible. The purchaser of an assignment typically succeeds to all the rights and obligations of the assigning institution and becomes a lender under the credit agreement with respect to the debt obligation; however, the purchaser's rights can be more restricted than those of the assigning institution, and BSL, BGX or BGB may not be able to unilaterally enforce all rights and remedies under the Loan and with regard to any associated collateral. A participation typically results in a contractual relationship only with the institution participating out the interest, not with the Borrower. Sellers of participations typically include banks, broker-dealers, other financial institutions and lending institutions. The Adviser has adopted best execution procedures

and guidelines to mitigate credit and counterparty risk in a typical situation when BSL, BGX or BGB must acquire a Loan through a participation. None of the Funds had outstanding participations as of December 31, 2013.

NOTE 7. TOTAL RETURN SWAPS

BGX has entered into total return swaps as of December 31, 2013 in an aggregate notional amount equal to \$18,223,399. In a total return swap, BGX pays another party a fixed or floating short-term fee and receives in exchange the total return of underlying loans or debt securities. If the other party to a total return swap defaults, BGX's risk of loss consists of the net amount of total return payments that BGX is contractually entitled to receive. BGX bears the risk of default on the underlying loans or debt securities, based on the notional amount of the swap. BGX is required to post collateral to cover this potential obligation. BGX may use total return swaps for financing, hedging or investment purposes (see further information in Note 10 Leverage). For the purposes of Managed Assets, BGX will treat the value of a total return swap as the notional amount of the swap.

The periodic swap payments received or made by BGX are recorded in the Statements of Operations as realized gains or losses, respectively. Any upfront fees paid are recorded as assets and any upfront fees received are recorded as liabilities and amortized over the term of the swap. Swaps are marked-to-market daily and changes in value, including the accrual of periodic amounts of interest, are recorded as unrealized appreciation (depreciation) and shown on BGX's Statement of Operations. When the swap is terminated, BGX will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and BGX's basis in the contract, if any. Generally, the basis of the contracts is the unamortized premium received or paid.

International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreements) govern OTC financial derivative transactions entered into by a Fund and those counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to terminate early could be material to the financial statements.

Swap transactions involve, to varying degrees, elements of interest rate, credit and market risk in excess of the amounts recognized in the Statements of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market values associated with these transactions. The Adviser selects only those counterparties that it believes are credit-worthy. BGX segregates sufficient assets as collateral to satisfy the current obligations with respect to total return and credit default swaps, and this is reflected as Deposit held with broker for swap contracts on BGX's Statement of Assets and Liabilities.

The effect of derivative instruments on the Statements of Assets and Liabilities as of December 31, 2013 is as follows:

Blackstone / GSO Long-Short Credit Income Fund

Risk Exposure	Statements of Assets and Liabilities Location	Asset Derivatives		Liability Derivatives	
		Gross Unrealized Appreciation		Gross Unrealized Depreciation	
Credit Contracts					
(Total Return Swap Contracts)	Unrealized appreciation/ (depreciation) on total return swap contracts	\$	67,444	\$	50,982
Total		\$	67,444	\$	50,982

The effect of derivative instruments on the Statements of Operations as of December 31, 2013 is as follows:

Blackstone / GSO Long-Short Credit Income Fund

Risk Exposure	Statements of Operations Location	Net Change in Unrealized			
		Net Realized Gain/(Loss)	Appreciation/(Depreciation)		
Credit Contracts		\$	603,063	\$	233,229

(Total Return Swap Contracts)	Net realized gain/(loss) on total return swap contracts/change in unrealized appreciation/ (depreciation) on total return swap contracts			
Total		\$	603,063	\$ 233,229

NOTE 8. COLLATERALIZED LOAN OBLIGATIONS

BGX has invested in Collateralized Loan Obligations (CLOs). A CLO is a financing company (generally called a Special Purpose Vehicle (SPV)), created to reappportion the risk and return characteristics of a pool of assets. While the assets underlying CLOs are typically Secured Loans, the assets may also include (i) unsecured loans, (ii) debt securities that are rated below investment grade, (iii) debt tranches of other CLOs and (iv) equity securities incidental to investments in Secured Loans. When investing in CLOs, BGX will not invest in equity tranches, which are the lowest tranche. However, BGX may invest in lower tranches of CLOs, which typically experience a lower recovery, greater risk of loss or deferral or non-payment of interest than more senior tranches of the CLO. In addition, BGX intends to invest in CLOs consisting primarily of individual Secured Loans of Borrowers and not repackaged CLO obligations from other high risk pools. The underlying Secured Loans purchased by CLOs are generally performing at the time of purchase but may become non-performing, distressed or defaulted. CLOs with underlying assets of non-performing, distressed or defaulted loans are not contemplated to comprise a significant portion of the BGX s investments in CLOs. The key feature of the CLO structure is the prioritization of the cash flows from a pool of debt securities among the several classes of the CLO. The SPV is a company founded solely for the purpose of securitizing payment claims arising out of this diversified asset pool. On this basis, marketable securities are issued by the SPV which, due to the diversification of the underlying risk, generally represent a lower level of risk than the original assets. The redemption of the securities issued by the SPV typically takes place at maturity out of the cash flow generated by the collected claims.

NOTE 9. SECURITIES LENDING

BGX may make secured loans of its marginable securities to brokers, dealers and other financial institutions amounting to no more than 30% of its net assets. The risks in lending portfolio securities, as with other extensions of credit, consist of possible delay in recovery of the securities or possible loss of rights in the collateral should the borrower fail financially. However, such loans will be made only to broker-dealers and other financial institutions that are believed by the Adviser to be of relatively high credit standing.

Loans of securities are made to broker-dealers pursuant to agreements requiring that loans be continuously secured by collateral consisting of U.S. Government securities, cash or cash equivalents (negotiable certificates of deposit, bankers acceptances or letters of credit) maintained on a daily mark-to-market basis in an amount at least equal at all times to the market value of the securities lent. The borrower pays to BGX, as the lender, an

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

amount equal to any dividends or interest received on the securities lent. The collateral must have a market value at least equal to 100% of the market value of the loaned securities at all times during the duration of the loan.

BGX invests the cash collateral received in accordance with its investment objectives, subject to BGX's agreement with the borrower of the securities. In the case of cash collateral, BGX typically pays a rebate to the borrower. The reinvestment of cash collateral will result in a form of effective leverage for BGX.

Although voting rights or rights to consent with respect to the loaned securities pass to the borrower, BGX, as the lender, retains the right to call the loans and obtain the return of the securities loaned at any time on reasonable notice, and it will do so in order that the securities may be voted by BGX if the holders of such securities are asked to vote upon or consent to matters materially affecting the investment. BGX may also call such loans in order to sell the securities involved. When engaged in securities lending, BGX's performance will continue to reflect changes in the value of the securities loaned and will also reflect the receipt of interest through investment of cash collateral by BGX in permissible investments.

As of December 31, 2013, BGX had securities on loan valued at \$37,507,918 and received cash collateral with a value of \$38,219,410 representing 15.45% and 15.75% of net assets, respectively.

NOTE 10. LEVERAGE

On August 13, 2010, BSL issued \$96 million in aggregate principal amount of senior secured notes and 48,000 term preferred shares with an aggregate liquidation preference of \$48 million, both rated AAA by Fitch Ratings. The senior secured notes and term preferred shares in combination represent total leverage of approximately 33% of BSL's Managed Assets. BSL used the proceeds of the offerings to purchase additional assets for BSL's portfolio. The final maturity date of the senior secured notes and the final redemption date of the term preferred shares is May 31, 2020, which coincides with the scheduled dissolution date of BSL.

Both the senior secured notes and the term preferred shares may be prepaid or redeemed at the option of BSL commencing the second anniversary of issuance. In addition, both the senior secured notes and the term preferred shares are subject to mandatory prepayment or redemption a) if BSL fails to meet certain overcollateralization tests, b) after the expiration of the BSL's reinvestment period, which ends on May 31, 2017, c) if the senior secured notes and term preferred shares have not been fully prepaid/redeemed six months prior to the final maturity date (May 31, 2020), or d) if BSL fails to pay dividends on the term preferred shares for six consecutive months. Should either the senior secured notes or the term preferred shares be prepaid/redeemed, either through an optional or mandatory prepayment/redemption, the remainder of the term preferred shares or the senior secured notes shall also become payable/redeemable on a pro-rata basis.

In connection with BSL's issuance of senior secured notes and term preferred shares, certain costs were incurred by BSL and have been recorded as a deferred asset. These costs are being amortized over the period beginning August 13, 2010 (day of issuance) through May 31, 2017, the date on which mandatory prepayments commence. The deferred

asset balance as of December 31, 2013 is shown on BSL's Statement of Assets and Liabilities under Deferred financing costs. The amount of expense amortized during the year ended December 31, 2013 is shown on BSL's Statement of Operations under Amortization of deferred financing costs.

The weighted average interest rate of the \$144 million aggregate amount of senior secured notes and term preferred shares is 1.78% over 3 month LIBOR. BSL pays quarterly, a floating rate interest of 1.55% over 3 month LIBOR on the senior secured notes and a floating rate dividend of 2.25% over 3 month LIBOR on the term preferred shares. Due to the short term nature of the floating rate payments on the senior secured notes and term preferred shares, face value approximates fair value at December 31, 2013. This fair value is based on Level 2 inputs under the three-tier fair valuation hierarchy (see Note 2).

BSL may prepay the senior secured notes or term preferred shares in whole or in part at any time on or after the second anniversary of the issuance date at an optional prepayment price. The redemption price per share of the term preferred shares and secured notes, respectively is at a premium to the issuance price. The redemption price is equal to 102% of the issuance price from the second anniversary date of the issuance date to but excluding the third anniversary date of the issuance date, and 101% of the issuance price from the third anniversary date of the issuance date to but excluding the fourth anniversary date of the issuance date and on or after the fourth anniversary date of the issuance date, 100% plus, in each case, an amount equal to accrued, accumulated and unpaid dividends thereon, to, but not including, the applicable redemption date.

According to the governing documents for the senior secured notes and term preferred shares, BSL must adhere to certain limitations and restrictions while the leverage is outstanding. These compliance tests are performed by BSL's custodian, The Bank of New York Mellon. These tests are in addition to any requirements outlined in BSL's registration statement and the 1940 Act. As of December 31, 2013, BSL was in compliance with all required limitations and restrictions related to its leverage.

The holders of the term preferred shares are entitled to one vote per share and will vote with holders of common stock as a single class, except that the term preferred shares will vote separately as a class on certain matters, as required by law or BSL's Declaration of Trust. The holders of term preferred shares, voting as a separate class, are entitled at all times to elect two Trustees of BSL.

Table of Contents

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

BGB entered into a Credit Agreement dated December 21, 2012, as amended at December 20, 2013 (as amended or restated from time to time, the Agreement), with a bank to borrow up to a limit of \$425 million pursuant to a 364 day revolving line of credit (Leverage Facility). Borrowings under the Agreement are secured by the assets of BGB. Interest is charged at a rate of 0.825% above LIBOR, the period commencing on the date of the making of such LIBOR Loan (or the last date upon which any other Loan was converted to, or continued as, such LIBOR Loan) and ending on the numerically corresponding day in the calendar month that is one (1) week or one (1), two (2), three (3), six (6) or nine (9) months thereafter, as BGB may elect, or such other period as the lender may agree in its sole and absolute discretion. Under the terms of the Agreement, BGB must pay a commitment fee on any undrawn amounts. The commitment fee payable is 0.15% on the undrawn amounts when drawn amounts exceed 50% of the borrowing limit and 0.25% on the undrawn amounts at any other time. Interest and fees are payable quarterly. The Fund may elect to extend the Agreement for a further 364-day period with the consent of the lending bank. At December 31, 2013, BGB had borrowings outstanding under the Leverage Facility of \$390 million at an interest rate of 1.117%. Due to the short term nature of the Agreement, face value approximates fair value at December 31, 2013. This fair value is based on Level 2 inputs under the three-tier fair valuation hierarchy (see Note 2). For the year ended December 31, 2013, the average borrowings under the Leverage Facility and the average interest rate were \$357,342,466 and 1.077%, respectively.

Under the Agreement, BGB has agreed to certain covenants and additional investment limitations while the leverage is outstanding. The Fund agrees to maintain asset coverage of three times over borrowings. Compliance with the investment restrictions and calculations are performed by BGB's custodian, The Bank of New York Mellon. As of December 31, 2013, BGB was in compliance with all required investment limitations and asset coverage requirements related to its leverage.

The use of borrowings to leverage the common shares can create risks. Changes in the value of BSL's and BGB's portfolio, including securities bought with the proceeds of leverage, are borne entirely by the holders of common shares. All costs and expenses related to any form of leverage used by BSL and BGB are borne entirely by common shareholders. If there is a net decrease or increase in the value of BSL's or BGB's investment portfolio, the leverage may decrease or increase, as the case may be, the net asset value per common share to a greater extent than if BSL or BGB did not utilize leverage. During periods when BSL or BGB is using leverage, the fees paid to the Adviser for advisory services and to ALPS for administrative services are higher than if BSL or BGB did not use leverage because the fees paid are calculated on the basis of BSL's or BGB's Managed Assets, which include the assets purchased through leverage. As of December 31, 2013, BSL's and BGB's leverage represented 32.99% and 31.40% of such Fund's Managed Assets, respectively.

BGX currently employs leverage through securities lending arrangements (see Note 9 Securities Lending), swap arrangements (see Note 7 Total Return Swaps), and short selling. All costs and expenses related to any form of leverage used by BGX are borne entirely by holders of common shares. BGX's leverage consists of (i) the amount of securities lending cash collateral held less proforma cash (which includes the net difference between receivables and payables for investments sold/purchased), (ii) the fair market value of the reference securities of total return swaps less cash pledged and (iii) the fair market value of securities sold short less any segregated cash or offsetting securities. BGX's use of these forms of effective leverage will not exceed 30% of its net assets. As of December 31, 2013, BGX's effective leverage represented 18.65% of net assets. BGX's total leverage and short sale exposure, through securities

lending, total return and credit default swap arrangements, other derivative transactions or short selling (including the market value of securities BGX is obligated to repay through short sales even in transactions that do not result in leverage), will not exceed 67% of BGX's net assets.

Leverage creates risk for the common shareholders, including the likelihood of greater volatility of NAV and market price of the common shares, and may affect the return to the common shareholders or result in fluctuations in the dividends paid on the common shares. To the extent total return exceeds the cost of leverage, the Funds' return will be greater than if leverage had not been used. Conversely, if the total return derived from the use of leverage is less than the cost of leverage, the Funds' return will be less than if leverage had not been used, and therefore the amount available for distribution to common shareholders as dividends and other distributions will be reduced. In the latter case, the Adviser in its best judgment nevertheless may determine to maintain the Funds' leveraged position if it expects that the benefits to the Funds' common shareholders of maintaining the leveraged position will outweigh the current reduced return.

NOTE 11. TAX BASIS DISTRIBUTIONS

Ordinary income (inclusive of short-term capital gains) and long-term capital gains are allocated to common stockholders after payment of the available amounts on any outstanding term preferred shares. To the extent that the amount distributed to common stockholders exceeds the amount of available ordinary income and long-term capital gains after allocation to any outstanding term preferred shares, these distributions are treated as a tax return of capital. Additionally, to the extent that the amount distributed on any outstanding term preferred shares exceeds the amount of available ordinary income and long-term capital gains, these distributions are treated as a tax return of capital.

Blackstone / GSO Funds

Notes to Financial Statements

December 31, 2013

As determined on December 31, 2013, certain permanent differences between financial and tax accounting were reclassified. These differences were primarily due to the differing tax treatment of certain investments. The amounts reclassified did not affect net assets. The reclassifications were as follows:

Fund	Increase/(Decrease)		Accumulated net realized gain/(loss) on investments
	Increase	Accumulated net investment income/(loss)	
Blackstone / GSO Senior Floating Rate Term Fund	\$ 305,766	\$ (762,352)	\$ 456,586
Blackstone / GSO Long-Short Credit Income Fund	\$ 253,930	\$ (126,736)	\$ (127,194)
Blackstone / GSO Strategic Credit Fund	\$ 5,146	\$ 128,411	\$ (133,557)

The tax character of distributions paid by the Funds during the fiscal years ended December 31, 2013 and December 31, 2012 were as follows:

2013	Blackstone / GSO Long-Short Credit Income Fund		Blackstone / GSO Strategic Credit Fund
	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 19,405,572	\$ 16,461,268	\$ 60,018,885
Long-Term Capital Gain	223,817	635,108	181,309
Return of Capital			2,486,188
Total	\$ 19,629,389	\$ 17,096,376	\$ 62,686,382

2012	Blackstone / GSO Long-Short Credit Income Fund		Blackstone / GSO Strategic Credit Fund
	Blackstone / GSO Senior Floating Rate Term Fund	Blackstone / GSO Long-Short Credit Income Fund	Blackstone / GSO Strategic Credit Fund
Distributions Paid From:			
Ordinary Income	\$ 21,274,807	\$ 16,455,664	\$ 6,586,517
Long-Term Capital Gain	1,607,742		
Return of Capital			3,852,602
Total	\$ 22,882,549	\$ 16,455,664	\$ 10,439,119

At December 31, 2013, the Funds did not have available for federal tax purposes unused capital loss carryforwards.

Capital loss carryovers used by BGX during this year ended December 31, 2013 were \$51,405.

At December 31, 2013, the components of distributable earnings on a tax basis for the Funds were as follows:

	Blackstone / GSO		Blackstone /GSO Long-Short		Blackstone /GSO Strategic
	Senior		Credit Income		
	Floating Rate		Fund		Credit Fund
	Term Fund				
Undistributed ordinary income	\$ 436,695	\$	523,185	\$	
Accumulated capital gains/losses	594,237		183,372		
Unrealized appreciation	1,871,430		2,739,688		9,209,916
Other Cumulative effect of timing differences	55,097		(16,462)		
Total	\$ 2,957,459	\$	3,429,783	\$	9,209,916

The amount of net unrealized appreciation (depreciation) and the cost of investment securities for tax purposes, including short-term securities at December 31, 2013, were as follows:

	Blackstone / GSO		Blackstone / GSO Long-Short		Blackstone /GSO Strategic
	Senior		Credit Income		
	Floating Rate		Fund		Credit Fund
	Term Fund				
Cost of investments for income tax purposes	\$ 410,519,173	\$	265,770,514	\$	1,182,639,689
Gross appreciation (excess of value over tax cost)	\$ 6,314,755	\$	6,441,974	\$	18,824,778
Gross depreciation (excess of tax cost over value)	(4,443,325)		(3,752,976)		(9,614,932)
Net appreciation of foreign currency and derivatives			50,690		70
Net unrealized appreciation	\$ 1,871,430	\$	2,739,688	\$	9,209,916

NOTE 12. OFFSETTING AGREEMENTS

Certain derivative contracts are executed under standardized netting agreements. A derivative netting arrangement creates an enforceable right of set-off that becomes effective, and affects the realization of settlement on individual assets, liabilities and collateral amounts, only following a specified event of default or early termination. Default events may include the failure to make payments or deliver securities timely, material adverse changes in financial condition or insolvency, the breach of minimum regulatory capital requirements, or loss of license, charter or other legal authorization necessary to perform under the contract. The Funds may manage counterparty risk by entering into enforceable collateral arrangements with counterparties to securities lending agreements. These agreements mitigate counterparty credit risk by providing for a single net settlement with a counterparty of all financial transactions covered by the agreement in an event of default as defined under such agreement.

The following table presents derivative financial instruments and securities lending arrangements that are subject to enforceable netting arrangements, collateral arrangements or other similar agreements as of December 31, 2013.

Description	Gross Amounts Not Offset in The Statement of Financial Position

* These amounts do not include the excess collateral received/pledged.

NOTE 13. RECENT ACCOUNTING PRONOUNCEMENTS

In June 2013, the Financial Accounting Standards Board (FASB) issued ASU No. 2013-08, Financial Services-Investment Companies (Topic 946): Amendments to the Scope, Measurement, and Disclosure Requirements. The FASB standard identifies characteristics a company must assess to determine whether it is considered an investment company for financial reporting purposes. This ASU is effective for fiscal years beginning after December 15, 2013. Each Fund believes the adoption of this ASU will not have a material impact on its financial statements.

NOTE 14. SUBSEQUENT EVENTS

Shareholder Distributions for BSL: On January 31, 2014 and February 28, 2014, BSL paid regularly scheduled distributions in the amount of \$0.11 per share to shareholders of record as of January 24, 2014 and February 21, 2014, respectively.

Shareholder Distributions for BGX: On January 31, 2014 and February 28, 2014, BGX paid regularly scheduled distributions in the amount of \$0.108 per share to shareholders of record as of January 24, 2014 and February 21, 2014, respectively.

Shareholder Distributions for BGB: On January 31, 2014 and February 28, 2014, BGB paid regularly scheduled distributions in the amount of \$0.117 per share to shareholders of record as of January 24, 2014 and February 21, 2014, respectively.

Report of Independent Registered

Blackstone / GSO Funds

Public Accounting Firm

To the Shareholders and Board of Trustees of Blackstone /GSO Senior Floating Rate Term Fund, Blackstone /GSO Long-Short Credit Income Fund, and Blackstone / GSO Strategic Credit Fund:

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone / GSO Long-Short Credit Income Fund, and Blackstone /GSO Strategic Credit Fund as of December 31, 2013, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended (as to Blackstone /GSO Strategic Credit Fund for the year ended December 31, 2013 and for the period September 26, 2012 (commencement of operations) to December 31, 2012), and the financial highlights for each of the periods presented. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2013, by correspondence with the custodian, brokers and agent banks; where replies were not received from brokers or agent banks, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Blackstone / GSO Senior Floating Rate Term Fund, Blackstone /GSO Long-Short Credit Income Fund, and Blackstone /GSO Strategic Credit Fund as of December 31, 2013, the results of their operations and their cash flows for the year then ended, and the changes in their net assets and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America.

Blackstone / GSO Funds

Summary of Dividend Reinvestment Plan

December 31, 2013 (Unaudited)

Pursuant to the Funds' Dividend Reinvestment Plan (the "DRIP"), shareholders whose shares are registered in their own name may opt-in to the plan and elect to reinvest all or a portion of their distributions in common shares by providing the required enrollment notice to Computershare, the DRIP administrator. Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the DRIP. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the DRIP at any time by notifying the DRIP administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the DRIP, or have elected to terminate their participation in the DRIP, will be paid by check mailed directly to the record holder by or under the direction of the DRIP administrator when the Funds' Board of Trustees declares a distribution.

When the Funds declare a distribution, shareholders who are participants in the applicable DRIP receive the equivalent of the amount of the distribution in common shares. If you participate in the DRIP, the number of common shares of the Funds that you will receive will be determined as follows:

(1) If the market price of the common shares plus any brokerage commissions on the payable date (or, if the payable date is not a New York Stock Exchange trading day, the immediately preceding trading day) for determining shareholders eligible to receive the relevant distribution (the "determination date") is equal to or exceeds 98% of the net asset value per common share, the Fund will issue new common shares at a price equal to the greater of:

(a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or

(b) 95% of the market price per common share on the determination date.

(2) If 98% of the net asset value per common share exceeds the market price of the common shares plus any brokerage commissions on the determination date, the DRIP administrator will receive the distribution in cash and will buy common shares in the open market, on the New York Stock Exchange or elsewhere, for your account as soon as practicable commencing on the trading day following the determination date and terminating no later than the earlier of (a) 30 days after the distribution payment date, or (b) the record date for the next succeeding distribution to be made to the shareholders; except when necessary to comply with applicable provisions of the federal securities laws. If during this period: (i) the market price plus any brokerage commissions rises so that it equals or exceeds 98% of the net asset value per common share at the close of trading on the New York Stock Exchange on the determination date before the DRIP administrator has completed the open market purchases or (ii) the DRIP administrator is unable to invest the full amount eligible to be reinvested in open market purchases, the DRIP administrator will cease purchasing common shares in the open market and the Fund will issue the remaining common shares at a price per share equal to the greater of (a) 98% of the net asset value per share at the close of trading on the New York Stock Exchange on the determination date or (b) 95% of the then current market price per share.

The DRIP administrator maintains all shareholder accounts in the dividend reinvestment plan and furnishes written confirmations of all transactions in the account, including information needed by shareholders for personal and tax

records. Common shares in the account of each DRIP participant are held by the DRIP administrator in non-certificated form in the name of the participant, and each shareholder's proxy includes shares purchased pursuant to the DRIP.

There is no charge to participants for reinvesting regular distributions and capital gains distributions. The fees of the DRIP administrator for handling the reinvestment of regular distributions and capital gains distributions are included in the fee to be paid by us to our transfer agent. There are no brokerage charges with respect to shares issued directly by us as a result of regular distributions or capital gains distributions payable either in shares or in cash. However, each participant bears a pro rata share of brokerage commissions incurred with respect to the DRIP administrator's open market purchases in connection with the reinvestment of such distributions. Shareholders that opt-in to the DRIP will add to their investment through dollar cost averaging. Because all dividends and distributions paid to such shareholder will be automatically reinvested in additional common shares, the average cost of such shareholder's common shares will decrease over time. Dollar cost averaging is a technique for lowering the average cost per share over time if the Fund's net asset value declines. While dollar cost averaging has definite advantages, it cannot assure profit or protect against loss in declining markets.

The automatic reinvestment of such dividends or distributions does not relieve participants of any income tax that may be payable on such dividends or distributions.

You may obtain additional information by contacting the DRIP administrator at the following address: Computershare, Attn: Sales Dept., P.O. Box 358035, Pittsburgh, PA 15252.

Additional Information

December 31, 2013 (Unaudited)

Portfolio Information. The Funds file their complete schedules of portfolio holdings with the Securities and Exchange Commission (the SEC) for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q will be available (1) on the Funds' website located at <http://www.blackstone-gso.com>; (2) on the SEC's website at <http://www.sec.gov>; or (3) for review and copying at the SEC's Public Reference Room (the PRR) in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

Proxy Information. The policies and procedures used to determine how to vote proxies relating to securities held by the Funds are available (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Funds voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 is available on Form N-PX by August 31 of each year (1) without charge, upon request, by calling 1-877-876-1121, or (2) on the Funds' website located at <http://www.blackstone-gso.com>, and (3) on the SEC's website at <http://www.sec.gov>.

Senior Officer Code of Ethics. The Funds file a copy of their code of ethics that applies to the Funds' principal executive officer, principal financial officer or controller, or persons performing similar functions, with the SEC as an exhibit to each annual report on Form N-CSR. This will be available on the SEC's website at <http://www.sec.gov>.

Privacy Procedures. Privacy is very important to the Funds. To ensure our shareholders' privacy the Funds have developed policies that are designed to protect confidentiality while allowing their shareholders' needs to be served. In the course of providing their shareholders with products and services, the Funds may obtain non-public personal information, such as address, social security number, assets and/or income information: (i) in the subscription document and related support documents; (ii) in correspondence and conversations with the Funds or their representatives; and (iii) through transactions in and relating to the investment with the Funds.

The Funds do not disclose any of this personal information about shareholders to anyone other than to their affiliates, except as required for everyday purposes or as permitted by law, such as to their attorneys, auditors, brokers, bankers, regulators, administrators and certain service providers, in each such case, only as necessary to facilitate the acceptance of the shareholder's investment or the management of the Funds. The Funds will also release information about a shareholder if such shareholder directs the Funds to do so, if compelled to do so by law, or in connection with any government or self-regulatory organization request or investigation.

The Funds seek to carefully safeguard private information and, to that end, restrict access to non-public personal information about the shareholders to those employees and other persons who need to know the information to enable the Funds to provide services to the shareholders. The Funds maintain physical, electronic and procedural safeguards to protect each shareholder's non-public personal information.

Tax Information. Of the ordinary income (including short-term capital gains) distributions made by BSL during the fiscal period ended December 31, 2013, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2013 was \$223,817. For the fiscal period ended December 31, 2013, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGX during the fiscal period ended December 31, 2013, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2013 was \$635,108. For the fiscal period ended December 31, 2013, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Of the ordinary income (including short-term capital gain) distributions made by BGB during the fiscal period ended December 31, 2013, 0% qualifies for the dividend received deduction available to stockholders. The amount of long-term capital gains paid for the fiscal period ended December 31, 2013 was \$181,309. For the fiscal period ended December 31, 2013, 0% of the taxable investment income qualifies for the 15% dividend tax rate.

Blackstone / GSO Funds

Trustees & Officers

December 31, 2013 (Unaudited)

The oversight of the business and affairs of the Funds is vested in the Board of Trustees. The Board of Trustees is classified into three classes Class I, Class II and Class III as nearly equal in number as reasonably possible, with the Trustees in each class to hold office until their successors are elected and qualified. At each annual meeting of shareholders, the successors to the class of Trustees whose terms expire at that meeting shall be elected to hold office for terms expiring at the later of the annual meeting of shareholders held in the third year following the year of their election or the election and qualification of their successors. The Funds' executive officers were appointed by the Board of Trustees to hold office until removed or replaced by the Board of Trustees or until their respective successors are duly elected and qualified.

Below is a list of the Trustees and officers of the Funds and their present positions and principal occupations during the past five years. The business address of the Funds, the Trustees, the Funds' officers, and the Adviser is 345 Park Avenue, 31st Floor, New York, NY 10154, unless specified otherwise below.

Table of Contents

Item 2. Code of Ethics.

- (a) The registrant, as of the end of the period covered by the report, has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller or any persons performing similar functions on behalf of the registrant.
- (b) Not Applicable.
- (c) During the period covered, by this report, no amendments were made to the provisions of the code of ethics adopted in 2 (a) above.
- (d) During the period covered by this report, no implicit or explicit waivers to the provision of the code of ethics adopted in 2 (a) above were granted.
- (e) Not Applicable.
- (f) The registrant's Code of Ethics is attached as Exhibit 12.A.1 hereto.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that the registrant has as least one audit committee financial expert serving on its audit committee. The Board of Trustees has designated Thomas W. Jasper as the registrant's audit committee financial expert. Mr. Jasper is independent as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accounting Fees and Services.

- (a) Audit Fees: The aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for the fiscal years ended December 31, 2013 and December 31, 2012 were \$78,750 and \$75,000, respectively.
- (b) Audit-Related Fees: The aggregate fees billed for the fiscal years ended December 31, 2013 and December 31, 2012 for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this Item were \$0 and \$0, respectively.

Table of Contents

- (c) Tax Fees: The aggregate fees billed for the fiscal years ended December 31, 2013 and December 31, 2012 for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$6,425 and \$6,300, respectively.

- (d) All Other Fees: The aggregate fees billed for the fiscal years ended December 31, 2013 and December 31, 2012 for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) of this Item were \$0 and \$0, respectively.

- (e)(1) Audit Committee Pre-Approval Policies and Procedures: All services to be performed by the Registrant's principal auditors must be pre-approved by the registrant's audit committee.

- (e)(2) The services described in paragraph (c) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X. There were no services of the kind described in paragraphs (b) and (d) provided.

- (f) Not applicable.

- (g)
