## 2. Information Regarding Notes in Consolidated Summary Report

(1) Changes in Accounting Policies, Changes in Accounting Estimates and Restatements  
(Changes in Accounting Policies due to revision of Accounting Standards)

(Accounting Standards regarding Retirement Benefits)

The main clause of Article 35 of the Accounting Standard for Retirement Benefits (ASBJ Statement No. 26 issued on May 17, 2012, hereinafter Retirement Benefits Accounting Standard ) and the main clause of Article 67 of the Guidance on Accounting Standard for Retirement Benefits (ASBJ Guidance No. 25 issued on May 17, 2012, hereinafter Retirement Benefits Guidance ) were adopted from the interim reporting period ended September 30, 2014. Accordingly, the calculation methods of retirement benefit obligation and service cost were changed. Specifically, the method of determining the portion of projected benefit obligation attributed to periods was changed from the straight-line method to the benefit formula basis. In addition, the method of determining the discount rates applied in the calculation of projected benefit obligation was changed from the method using the average period up to estimated benefit payment date to the method using the single weighted average discount rate that reflects the estimated period and amount of benefit payment in each period.

The Retirement Benefits Accounting Standard and other standards were applied in accordance with the transitional treatment set forth in Article 37 of the Retirement Benefits Accounting Standard, and the effect of the change in calculation methods of retirement benefit obligation and service cost were added to or deducted from retained earnings as of April 1, 2014.

As a result, net defined benefit asset decreased by ¥58,569 million, net defined benefit liability decreased by ¥1,594 million, and retained earnings decreased by ¥37,224 million as of April 1, 2014. In addition, both ordinary profits and income before income taxes and others for the six months ended September 30, 2014 increased by ¥821 million, respectively.

## (Accounting Standards regarding Business Combinations)

As the Revised Accounting Standard for Business Combinations (ASBJ Statement No. 21 issued on September 13, 2013, hereinafter "Business Combinations Accounting Standard"), Revised Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22 issued on September 13, 2013, hereinafter "Consolidation Accounting Standard"), Revised Accounting Standard for Business Divestitures (ASBJ Statement No. 7 issued on September 13, 2013, hereinafter "Business Divestitures Accounting Standard") and other standards became applicable from the fiscal year beginning on or after April 1, 2014, these standards were adopted from the interim reporting period ended September 30, 2014 (with the exception of Article 39 of the Consolidation Accounting Standard). Accordingly, the accounting method was changed to record the difference arising from changes in equity in subsidiaries which MUFG continues to control as capital surplus, and to record business acquisition costs as expenses for the fiscal year in which they occurred. In addition, regarding business combinations which became or will become effective on or after April 1, 2014, the accounting method was changed to retroactively reflect adjustments to the amount allocated to acquisition cost under provisional accounting treatment on the consolidated financial statements of the interim reporting period in which the relevant business combinations became or will become effective.

The Business Combinations Accounting Standard and other standards were applied in accordance with the transitional treatment set forth in Article 58-2 (3) of the Business Combinations Accounting Standard, Article 44-5 (3) of the Consolidation Accounting Standard and Article 57-4 (3) of the Business Divestitures Accounting Standard. The cumulative effects arising from the retroactive application of these new accounting policies to all the previous fiscal years were added to or deducted from capital surplus and retained earnings as of April 1, 2014.

As a result, goodwill decreased by ¥266,925 million, capital surplus decreased by ¥346,454 million, and retained earnings increased by ¥95,134 million as of April 1, 2014. In addition, both ordinary profits and income before income taxes and others for the six months ended September 30, 2014 increased by ¥8,529 million, respectively.
