## **Table of Contents**

### **What is the difference between a stockholder of record and a beneficial owner of shares held in street name?**

*Stockholder of Record.* If your shares are registered directly in your name with our transfer agent, Computershare, you are considered the stockholder of record with respect to those shares, and the proxy materials were sent directly to you by mail.

*Beneficial Owner of Shares Held in Street Name.* If you hold your shares in an account at a brokerage firm, bank, broker-dealer, or other similar organization, then you are the beneficial owner of shares held in street name, and the proxy materials were forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the annual meeting. As a beneficial owner, you have the right to instruct that organization on how to vote the shares held in your account.

### **If I am a stockholder of record of the Company's shares, how do I vote?**

Stockholders of record have four ways to vote:

*In person.* If you are a stockholder of record, you may vote in person at the annual meeting. We will give you a ballot when you arrive.

*Via the Internet.* You may vote by proxy via the Internet by visiting [www.investorvote.com/SAFM](http://www.investorvote.com/SAFM) and entering the control number found on your proxy card.

*By Telephone.* You may vote by proxy by calling the toll free number found on your proxy card.

*By Mail.* You may vote by proxy by filling out your proxy card and sending it back in the envelope provided.

### **If I am a beneficial owner of shares held in street name, how do I vote?**

If your shares are held in the name of a broker, bank or other nominee, you will receive instructions from your broker, bank or other nominee that you must follow in order for your broker, bank or other nominee to vote your shares according to your instructions. Many brokerage firms and banks have a process for their beneficial holders to provide instructions via the Internet or over the telephone. If you are a beneficial owner of shares held in street name and you wish to vote in person at the annual meeting, you must obtain a legal proxy from the organization that holds your shares.

### **How do I vote my shares held in the Company's ESOP?**

If you participate in the Sanderson Farms, Inc. and Affiliates Employee Stock Ownership Plan (the "ESOP"), you will receive a voting instruction form from the ESOP that reflects all of the shares you may direct the ESOP trustee to vote on your behalf under the ESOP. Under the terms of the ESOP, all allocated shares of Company common stock held by the ESOP are voted by the ESOP trustee, as directed by plan participants. All unallocated shares of Company common stock held by the ESOP and allocated shares for which no timely voting instructions are received are voted by the ESOP trustee in the same proportion for and against proposals as shares for which the trustee has received timely

voting instructions, subject to the exercise of the trustee's fiduciary duties. **The deadline for returning your voting instruction form is February 6, 2015.**

### **What is the quorum requirement for the annual meeting?**

The holders of a majority of the shares entitled to vote at the annual meeting must be present in person or by proxy at the annual meeting for the transaction of business. This is called a quorum. Your shares will be counted for purposes of determining if there is a quorum, whether representing votes for, against or abstained, if you:

are a stockholder of record (or are a beneficial owner and have a legal proxy from the organization that holds your shares) and are present in person at the annual meeting or

have voted on the Internet, by telephone or by properly submitting a proxy card or vote instruction form by mail.

If a quorum is not present, the annual meeting will be adjourned until a quorum is obtained.

### **How are proxies voted?**

All valid proxies received prior to the annual meeting will be voted. All shares represented by a proxy will be voted and, where a stockholder specifies by means of the proxy a choice with respect to any matter to be acted upon, the shares will be voted in accordance with the stockholder's instructions.

## **Table of Contents**

### **What happens if I do not give specific voting instructions?**

*Stockholders of Record.* If you are a stockholder of record and you:

indicate when voting on the Internet or by telephone that you wish to vote as recommended by the Board, or

sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by the Board on all matters presented in this Proxy Statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the annual meeting. As of the date of this Proxy Statement, we have not received notice and we are not aware of any business to be transacted at the meeting other than the matters listed on the Notice and described in this Proxy Statement.

*Beneficial Owners of Shares Held in Street Name.* If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, then under the rules of various national and regional securities exchanges, the organization that holds your shares may generally vote your shares in its discretion on routine matters, but it cannot vote on non-routine matters. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will not have the authority to vote, and therefore cannot vote, on that matter with respect to your shares. This is generally referred to as a broker non-vote. The election of directors (Proposal No. 1) and matters relating to executive compensation (Proposal 2) are non-routine matters, so brokers may not vote your shares on Proposals 1 or 2 if you do not give specific instructions on how to vote. We encourage you to provide instructions to your broker or nominee regarding the voting of your shares on these proposals.

The ratification of the independent auditors (Proposal No. 3) is a matter that we believe will be considered routine. Therefore, no broker non-votes are expected to occur in connection with Proposal No. 3.

### **How are broker non-votes treated?**

Broker non-votes are counted for purposes of determining whether a quorum is present. However, broker non-votes are not counted for purpose of determining the number of votes present or represented by proxy and entitled to vote with respect to a particular proposal, thus we believe they will have no effect on the vote on any matter at the meeting.

### **How are abstentions treated?**

Abstentions are counted for purposes of determining whether a quorum is present, and they are considered present for the purpose of determining the number of votes present or represented by proxy and entitled to vote with respect to a particular proposal. Abstentions will have the effect of a vote AGAINST in the election of directors (Proposal No. 1), and will have no effect on the vote on the other proposals.

### **Can I revoke or change my vote after I have voted?**

Even if you submit a proxy, you may still attend the annual meeting in person, and you may revoke your proxy by voting in person at the meeting. You may also revoke your proxy before it is voted at the meeting in any of the

following ways:

by filing with our Corporate Secretary a written notice of revocation;

by submitting to our Corporate Secretary a properly completed and signed proxy dated a later date; or

by re-voting by Internet or by telephone before 1:00 AM, Central Time, on February 12, 2015 using the instructions contained in the enclosed materials, if telephone or Internet voting is available to you.

Unless you revoke your proxy, it will be voted at the meeting according to your instructions, as long as you have properly completed and submitted it to us.

If you are a beneficial owner of shares, you may submit new voting instructions by contacting your broker, bank or other nominee. You may also vote in person at the annual meeting if you obtain a legal proxy from the organization that holds your shares.

**Where can I find the voting results of the annual meeting?**

The preliminary voting results will be announced at the annual meeting. The final voting results will be tallied by the inspector of election and published in a Current Report on Form 8-K, which we are required to file with the SEC within four business days after the annual meeting.

**Table of Contents****PROPOSAL NO. 1****ELECTION OF DIRECTORS**

Our amended Articles of Incorporation provide that our Board of Directors shall be divided into three classes (Class A, Class B and Class C), with each class containing one-third, or as close to one-third as possible, of the total number of directors, and that the total number of directors shall be fixed by the Board of Directors in the By-Laws. The Board of Directors has fixed the number of directors at fifteen, resulting in there being five director positions in each class. Two Class B director positions are currently vacant. The Board has not identified candidates to fill those vacancies.

At each annual meeting of stockholders, directors constituting one class are elected for a three-year term. At the 2015 annual meeting, stockholders will elect three Class B Directors, whose terms will expire at the 2018 annual meeting.

The address of each director is Post Office Box 988, Laurel, Mississippi 39441.

**Nominees for Class B Directors**

The Board of Directors proposes for election as Class B Directors the three nominees listed below, each to serve as a Class B Director until the 2018 annual meeting or until his or her successor is elected and has qualified. Any vacancy on the Board of Directors may be filled either by the Board of Directors or by the stockholders, and the term of any director elected to fill a vacancy will expire at the next stockholders' meeting at which directors are elected.

You may vote proxies in the enclosed form for the election as Class B Directors of only the nominees named below or substitute nominees who may be named by the Board of Directors to replace any of the nominees who become unavailable to serve for any reason. No such unavailability is presently known to the Board of Directors. There are no arrangements or understandings relating to any person's service or prospective service as a Class B Director of the Company. No person listed below will be elected as a Class B Director unless such person receives the affirmative vote of the holders of a majority of the shares entitled to vote and represented (whether in person or by proxy) at the annual meeting at which a quorum is present. If more persons than the number of directors to be elected receive a majority vote, then those persons receiving the highest number of votes will be elected. The Proxyholders named in the accompanying proxy card will vote FOR the nominees listed below (or substitutes as stated above) unless otherwise directed in the proxy. Abstentions by holders of shares entitled to vote and represented at the meeting will be counted as shares present but not voting for the purposes of calculating the vote with respect to the election of Class B Directors. Broker non-votes will be treated as not present for purposes of calculating the vote with respect to the election of the Class B Directors, and will not be counted either as a vote FOR or AGAINST or as an ABSTENTION with respect thereto.

The following table lists the nominees for Class B Directors and shows, as of January 5, 2015, their respective beneficial ownership of common stock of the Company. As discussed below, our Board of Directors has determined that Mr. Baker is an independent director under the listing standards of The Nasdaq Stock Market.

**Board Qualifications and Biographical Information**

As discussed more fully below under Corporate Governance Nominating and Governance Committee, we have sought director candidates with a diverse range of business, personal and geographic backgrounds, and the experience and perspective necessary to oversee effectively a multi-state operation of our size and type.

The following paragraphs identify the principal occupations of all continuing directors and nominees for director. We have also included the specific experience, qualifications, attributes or skills that led to the conclusion that the person should serve as a director in light of our business and structure. Except as otherwise indicated, each director has served for at least five years in the position shown.

**John H. Baker, III** is a native of Meridian, Mississippi and has been the sole proprietor of John H. Baker Interests, a real estate and development company in Houston, Texas, since 1968.

The Board believes Mr. Baker should serve as a director because of his extensive experience and contacts with both the Mississippi and Texas business communities, where a significant portion of our operations is located. Additionally, Mr. Baker is a successful entrepreneur who founded and has successfully grown and operated his own business. Mr. Baker has also been active in Mississippi and Texas state politics.

## **Table of Contents**

**Fred Banks, Jr.** has been a partner in the General Litigation Group in the Jackson, Mississippi office of the law firm of Phelps Dunbar LLP since 2001. Since 2008, he has been a non-equity senior partner with that firm. From 1991 to 2001, he was a Justice of the Mississippi Supreme Court, and at the time of his retirement from the court in 2001, he was serving as Presiding Justice. Before serving on the Mississippi Supreme Court, Mr. Banks served as a Circuit Court Judge in Hinds and Yazoo Counties, Mississippi for six years. From 1976 until 1985, he served in the Mississippi House of Representatives.

The Board believes Mr. Banks should serve as a director because of extensive experience in law, both in the areas of business transactions and litigation, and because of his perspective on the legal landscape in Mississippi. Mr. Banks knowledge of Mississippi's corporate law under which the company is organized eminently qualifies him to serve as chair of the Board's Nominating and Governance committee. Mr. Banks has extensive contacts in Mississippi's legal and business communities, and is a visionary leader in numerous civic and philanthropic organizations.

**John Bierbusse** was employed by Duff and Phelps, Inc. from 1981 to 1987, and by A.G. Edwards from 1987 to 2004. Mr. Bierbusse served as Assistant Manager, Securities Research between 1999 and 2002 at A.G. Edwards, and as Manager, Research Administration from 2002 until his retirement in 2004. Mr. Bierbusse served on the New York Stock Exchange's Series 16 Test Committee from 2002 to 2007 and on the New York Stock Exchange's Research Analyst Qualification Examination Committee from 2003 to 2007. Mr. Bierbusse has been a Chartered Financial Analyst since 1987, and is currently retired.

The Board believes Mr. Bierbusse should serve as a director because of his experience as a financial analyst, particularly in the protein industry. He has extensive knowledge of the dynamics of poultry companies and the impact of grain markets and other external factors on the industry.

**Lampkin Butts** served from 1996 to 2004 as Vice President-Sales for the Company. On October 21, 2004, Mr. Butts was elected President and Chief Operating Officer of the Company. He began his career with our Company in 1973. Mr. Butts is a member of the Company's Executive Committee, which is a management committee, not a committee of directors.

The Board believes Mr. Butts should serve as a director because of his role as one of the top three executives in our Company and the extensive experience and insight he has gained from his over 40-year tenure at Sanderson Farms. Mr. Butts' experience in most every aspect of our operations, including processing and sales, and his knowledge of our operations, contribute significantly to the Board. Mr. Butts has served in management capacities in every facet of our business, and that broad perspective is valuable to the Board.

**Mike Cockrell** has served, since 1993, as Treasurer and Chief Financial Officer for the Company. Before joining us, Mr. Cockrell was a shareholder and member of the law firm Wise Carter Child & Caraway, Professional Association, of Jackson, Mississippi. He is also a certified public accountant and was employed in the audit division of a public accounting firm from 1979 to 1980. Mr. Cockrell is a member of the Company's Executive Committee, which is a management committee, not a committee of directors.

The Board believes Mr. Cockrell should serve as a director because of his role as one of our top three executives and his more than 20 years of experience as the CFO of our Company. In addition, Mr. Cockrell oversees or has a key role in many aspects of our operations and administration that are not typical for chief financial officers of public companies, including investor relations, our grain purchasing strategy, legal affairs and risk management. As a result, he contributes a broad perspective on our operations to the Board process.

**Toni D. Cooley** founded and has been president of Systems Electro Coating, LLC, a tier one supplier to Nissan of electro coated frames and other vehicle components, since 2001. She has also served as president of Systems Consultants Associates, Inc., a management training and consulting firm established with the express purpose of assisting Jackson, Mississippi-based minority firms with capacity building, since 1993. Ms. Cooley is also co-owner of Systems IT, Inc., in Jackson, Mississippi, and is chief executive officer and president of Systems Automotive Interiors, L.L.C., a tier one supplier of upholstered seats to Toyota Motor Manufacturing's Mississippi plant, founded in 2011. From 1992 to 1993, Ms. Cooley worked as an International Contract Administrator for the international sales team of the former Turner Broadcasting Systems. She is a director of Trustmark National Bank and in 2013 was elected a director of Trustmark Corporation, which has a class of securities registered with the Securities and Exchange Commission.

The Board believes Ms. Cooley should serve as a director because of her experience founding and significantly growing Systems Electro Coating in a very short period of time, as well as her experience in executive management. Her experience leading one of Mississippi's largest minority owned businesses provides to the Board a unique perspective on boardroom matters. Ms. Cooley's active involvement in the Mississippi business community has also been advantageous to the Board process.

## **Table of Contents**

**Beverly Wade Hogan** has served, since May 2002, as President of Tougaloo College in Jackson, Mississippi, a private, historically African-American, liberal arts college. Before becoming President of Tougaloo College, Ms. Hogan served for one year as Interim President. Before that, she served for ten years as a Commissioner for the Mississippi Workers Compensation Commission.

The Board believes that Ms. Hogan should serve as a director because of her 25-year plus career in executive leadership, management and administration, and her experience and perspective on employment and training issues. In addition, the Board has benefitted from the experience and insight Ms. Hogan has gained from her active involvement in local, state and national civic affairs, and her work pioneering numerous Mississippi community programs.

**Robert C. Khayat** served as the Chancellor of the University of Mississippi from July 1995 until his retirement in July 2009. Before that, he served the university in various capacities, including as professor of law at the University of Mississippi School of Law from 1982 to 1995. Mr. Khayat served on the Board of Directors of Mississippi Power Company, a subsidiary of The Southern Company, and Mississippi Valley Title Insurance Company, until his retirement from both boards in 2009.

The Board believes Mr. Khayat should serve as a director because of his immense skill and experience as head of the University of Mississippi. During his 14-year tenure, he led a major transformation of the university that resulted in higher academic standards, tripled African-American enrollment, significantly higher private financial support and recognition of the university by many independent organizations as one of the country's leading public universities. Among countless other accomplishments, his efforts to re-brand the university culminated in unprecedented national attention from its successful bid, led by Mr. Khayat, to host the first 2008 U.S. presidential debate.

**Phil K. Livingston** served as President and Chief Executive Officer of Citizens National Bancshares, Inc. in Hammond, Louisiana, from its organization in 1983, until its merger into Deposit Guaranty Corporation on May 19, 1995. Mr. Livingston retired in 1998, but continued to serve as a banking consultant to AmSouth Corporation following his retirement until 2001.

The Board believes Mr. Livingston should serve as a director because of his extensive experience as a banking executive, in particular his experience in growing and selling one community bank, his involvement with several bank acquisitions and his involvement in the Louisiana and Mississippi business communities, where a large part of our operations is located. The Board has also benefitted from his experience with executive compensation matters and past work with compensation consultants.

**Dianne Mooney** founded and served as Executive Director and Senior Vice President of Southern Living at Home, a direct sales division of Southern Progress Corporation, from 1999 until her retirement in 2007. Ms. Mooney was directly responsible for the launch and record growth of this \$200 million division. Before that time, she was an employee of Southern Progress Corporation for over thirty years in various positions, including Vice President of Business Development and Vice President of Custom Publishing. Southern Progress Corporation is a division of Time, Inc.

The Board believes Ms. Mooney should serve as a director because of her vast experience in brand management and corporate growth at Southern Progress, as well as in marketing, market research, international sourcing, and new product development. In addition, Ms. Mooney brings to the Board significant experience in crisis and risk management.

**Gail Jones Pittman** has served, since its founding in 1979, as Chief Executive Officer of Gail Pittman, Inc., an entrepreneurial business creating individually hand-painted, semi-vitreous china dinnerware and home accessories. It

is located in Ridgeland, Mississippi.

The Board believes that Ms. Pittman should serve as a director because of her success, skill, experience and perspective as a successful entrepreneur. Ms. Pittman is recognized by many as Mississippi's preeminent female business executive, and one of the South's most noted philanthropists. Her active involvement in the Mississippi business community brings a valuable perspective to the Board.

**Charles W. Ritter, Jr.** served, from 1967 to 2002, as President and a Director of the Attala Company, which is principally engaged in the business of milling and selling feed and corn meal. He now serves as a management consultant to the Attala Company. He has also served as President of JRS, Inc., a family owned real estate investment firm, since 1973. Mr. Ritter retired as a director of First M & F Corp. and Merchants & Farmers Bank, Kosciusko, Mississippi, and chair of the audit committee of First M & F Corp.'s Board of Directors in May 2011. First M & F Corp. has a class of securities registered with the Securities and Exchange Commission.

## **Table of Contents**

The Board believes Mr. Ritter should serve as a director because of his experience in and knowledge of both the banking and grain industries. He is our longest serving outside director. Mr. Ritter contributes a broad business perspective to the Board of Directors as well as a long-term perspective on the evolution of our Company from a family business to a large, publicly held corporation. He knew personally the founders of our Company and brings an understanding of their long-term vision and core values to the Board table.

**Joe F. Sanderson, Jr.** served as President of the Company from November 1, 1989 to October 21, 2004, and has served as Chief Executive Officer since November 1, 1989 and as Chairman of the Board of Directors since January 8, 1998. Mr. Sanderson continues to serve as Chief Executive Officer and Chairman of the Board of Directors. Before his tenure as an executive officer of the Company, he was continuously employed by Sanderson Farms in numerous positions starting in 1969. Mr. Sanderson is a member of the Company's Executive Committee, which is a management committee, not a committee of directors. Mr. Sanderson's father, Joe Frank Sanderson, was one of the founders of our Company.

The Board believes Mr. Sanderson should serve as a director because of his outstanding leadership of our Company since 1989. Under his tenure, our Company has experienced tremendous growth, including growth in annual revenues from \$184 million in 1989 to over \$2.7 billion in 2014, and has opened five new plants. Mr. Sanderson is primarily responsible for the overall operation and strategic vision of our business, and as a result makes an invaluable contribution to the Board process.

## **Corporate Governance**

### ***Director Independence***

Our Board of Directors has determined that the following directors are independent under the listing standards of The Nasdaq Stock Market: Ms. Cooley, Ms. Hogan, Ms. Mooney, Ms. Pittman, and Messrs. Baker, Banks, Khayat, Livingston and Ritter.

Messrs. Sanderson, Butts and Cockrell are not independent because they are officers of the Company. In addition, Mr. Bierbusse does not meet The Nasdaq Stock Market's definition of independent director because his brother is a principal in the business consulting division of Ernst & Young LLP, our independent registered public accounting firm. A principal is a partner who is not an accountant. Mr. Bierbusse's brother has no involvement in Ernst & Young's audit of our financial statements or any other services they provide to us and Ernst & Young has concluded that his relationship to Mr. Bierbusse does not impair that firm's independence. In addition, we believe that neither Mr. Bierbusse nor his brother have any interest in the fees we pay to Ernst & Young, but if such an interest exists, it is not material. Therefore we have not entered into a related party transaction that must be approved by a special committee of qualified, independent directors pursuant to the charter of the Audit Committee of our Board of Directors.

Our independent directors meet regularly in executive session, usually in conjunction with each regular Board meeting.

### ***Leadership Structure***

Currently, Joe F. Sanderson, Jr. serves as both our Chief Executive Officer and the Chairman of the Board of Directors. The Board believes that Mr. Sanderson is best qualified to hold each of those positions and that it is in our stockholders' best interest that he do so because of his role overseeing all aspects of our operations, his 45 years of experience with our Company and his long-term vision for our strategic plan.

Our By-Laws provide that if at any time the Chairman of the Board is also an officer of the Company, the independent directors must appoint a Lead Independent Director. The Lead Independent Director must be independent under the rules of The Nasdaq Stock Market and is appointed by the other independent directors for a one-year term. He or she is responsible for:

presiding at all meetings of the Board of Directors at which the Chairman of the Board is not present, including executive sessions of the independent directors;

serving as a liaison between the Chairman of the Board and the independent directors;

approving information sent to the Board of Directors in preparation for meetings of the Board of Directors;

approving agendas for meetings of the Board of Directors and meeting schedules to ensure that there is sufficient time for discussion of all agenda items; and

being available for communications with our stockholders.

The Lead Independent Director also has the authority to call meetings of the independent directors.

## **Table of Contents**

The independent directors have appointed Phil K. Livingston as the Company's Lead Independent Director for the 2015 fiscal year.

The Board of Directors believes that its leadership structure is appropriate because it strikes an effective balance between management and independent director participation in the Board process. The Lead Independent Director role helps to ensure greater communication between management and the independent directors. It also increases the independent directors' understanding of management decisions and Company operations and provides an additional layer of independent oversight of the Company.

### ***Risk Oversight***

The Board takes very seriously its oversight role in the Company's risk management. The Company's senior management committee, called the Executive Committee, is primarily responsible for managing the day-to-day risks of the Company's business, and is best equipped to assess and manage those risks. The Board receives reports on the Company's exposure to risk and its risk management practices from the senior managers of the Company's major divisions, including reports on the Company's biosecurity program, growth plans, information technology safeguards, financial and accounting controls and security measures, grain purchasing strategy, environmental compliance, human resources, insurance coverages, legal matters and customer and product mix, among other things. The Board regularly receives updates about and reassesses the management of these risks throughout the year. In addition, the Board reviews the Company's risk disclosures in its draft periodic reports before they are filed and has the opportunity to question management about those risks. The Board is confident that the CEO, as the head of the Company's Executive Committee, will promptly report new material risks or material changes in the Company's risk profile to the Board. The Board also feels that, together with the CEO, it has cultivated a corporate culture and board leadership structure in which managers who report to the CEO and the other top officers of the Company have access to the Lead Independent Director and the other independent directors, and can communicate freely and candidly about risks to the Company.

### ***Board Meetings and Committees of the Board***

During our 2014 fiscal year, the Board of Directors held seven meetings, two of which were telephonic meetings. The Board of Directors strongly encourages all directors to attend the Company's annual meetings of stockholders, and all of our directors attended the 2014 annual meeting. The Board of Directors has appointed three standing committees: the Audit Committee, the Compensation Committee and the Nominating and Governance Committee. Each member of these committees is independent under the listing standards of The Nasdaq Stock Market. Every incumbent director attended at least 75% of the total of (i) all of the Board of Directors meetings held during the period for which he or she was a director and (ii) all of the meetings held by the committees of the Board on which he or she served (during the period in which he or she served).

The current charter of each committee of the Board of Directors is available in the Investor Relations section of our website at [www.sandersonfarms.com](http://www.sandersonfarms.com).

### ***Nominating and Governance Committee***

The members of the Nominating and Governance Committee are Ms. Cooley, Ms. Hogan and Ms. Mooney (Vice Chair) and Messrs. Banks (Chair), Livingston and Ritter. The committee considers all director candidates recommended for election to the Board of Directors. It also recommends all compensation paid to our non-employee directors, leads the Board in its annual self-evaluation and from time to time makes recommendations concerning our corporate governance policies. In fiscal 2014, the Committee held five meetings.

## Edgar Filing: SANDERSON FARMS INC - Form DEF 14A

In October 2014, the Committee reassessed, recommended re-approval of, and the Board re-approved, written corporate governance principles addressing the composition, functions and leadership of the Board. The principles, which were originally adopted in 2012, are posted on the Company's website at [www.sandersonfarms.com](http://www.sandersonfarms.com).

As noted above, the Nominating and Governance Committee considers potential nominees for director proposed by its members, members of the Board of Directors, our stockholders or management. Stockholders who are not also members of our Board of Directors or management should submit notice of their proposed nominees for director in writing to the Nominating and Governance Committee at the Company's general offices. That address is Post Office Box 988, Laurel, Mississippi 39441.

Stockholders should include the following information in their written notice:

The stockholder's name and address;

**Table of Contents**

A representation that the stockholder is a holder of record or a beneficial owner (in which case evidence of such beneficial ownership must be submitted if requested by the Nominating and Governance Committee) of shares of the Company's common stock as of the date of the notice;

The name, age, business and residence addresses, and principal occupation and experience of each proposed nominee;

Such other information regarding each proposed nominee that the stockholder wishes the Nominating and Governance Committee to consider;

The consent of each proposed nominee to serve as director of the Company if elected; and

A representation signed by each proposed nominee that states that such proposed nominee meets all of the qualifications set forth in Article IV of our By-Laws, which requires that directors must be at least 21 years old and citizens of the United States.

Persons wishing to propose nominees for consideration at our annual meeting of stockholders must submit notice of their proposed nominee to the Nominating and Governance Committee no later than September 15 of the year prior to the annual meeting.

Anyone proposing nominees to the Nominating and Governance Committee should consider the minimum qualifications, skills and qualities that the Nominating and Governance Committee believes are necessary for a director of the Company, as follows:

significant business experience in production, preferably related to agriculture, or in marketing, finance, accounting or other professional disciplines;

prominence and a highly respected reputation in his or her profession;

a global business and social perspective;

a proven record of honest and ethical conduct, personal integrity and good judgment;

a commitment to congeniality with and mutual respect for other members of the Board and management;

concern for the long-term interests of our stockholders; and

significant time available to devote to Board activities and to enhance his or her knowledge of our industry.

To date, the Board has ensured that these minimum qualifications were met by recommending to our stockholders only nominees whom our incumbent directors knew personally. In this way, the Board has had the benefit of reliable, first-hand reports about the nominees' personal integrity and reputation.

Although the Board does not have a formal policy on diversity with respect to the Board, it has worked hard to identify director candidates who represent a diverse range of personal and business backgrounds. The Board has identified such persons through directors' personal contacts in the local business communities where we operate. Board members currently reflect racial and gender diversity and our directors have worked in a variety of fields including finance, banking, law, higher education, heavy industry, agriculture, publishing and brand management. The Board has also endeavored to identify directors from the various communities in which our operations are located, including Mississippi, Louisiana and Texas. When searching for candidates for future Board positions, the Nominating and Governance Committee may focus its attention on candidates from Georgia and North Carolina, where our newer plants are located.

The Nominating and Governance Committee annually assesses its effectiveness at composing a diverse and qualified group of directors through a self-evaluation process. The full Board also has the opportunity to comment on the size and composition of the Board.

The Nominating and Governance Committee may interview candidates for nomination for election as director who are not incumbent directors. The Nominating and Governance Committee may elect to invite members of our management to participate in the interviews. When all interviews are complete, the Nominating and Governance Committee votes to determine a slate of nominees to be submitted to the Board of Directors. The Nominating and Governance Committee uses the same process to evaluate potential nominees proposed by stockholders as it uses to evaluate any other potential nominee.

Nothing in the committee's policies will prevent a stockholder from nominating persons for election as directors from the floor at any annual or special meeting of stockholders called for that purpose by following the advance notification procedures set forth in Article III of our By-Laws. These procedures are described under STOCKHOLDER PROPOSALS, Procedure in this Proxy Statement.

The Audit Committee is established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the Audit Committee are Ms. Pittman and Ms. Mooney and Messrs. Baker (Vice Chair), Banks, Khayat, Livingston, and Ritter (Chair). The Audit Committee held eight meetings during fiscal 2014, four of which were telephonic meetings.

**Audit Committee Report**

To the extent provided by Instruction 1 to Item 407(d) of Regulation S-K of the Securities and Exchange Commission (SEC), this section shall not be deemed to be proxy soliciting material or to be filed with the SEC or subject to its proxy regulations or to the liabilities imposed by Section 18 of the Exchange Act.

The Audit Committee has reviewed and discussed the audited financial statements with management, and the Audit Committee has discussed with the independent auditors the matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. SAS 61 requires the independent auditor to provide the Audit Committee with information regarding the scope and results of an audit that may assist the Audit Committee in overseeing management's financial reporting and disclosure process. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board, and has discussed with the independent accountants the independent auditors' independence. Based on the review and discussions referred to above, the Audit Committee recommended that the audited financial statements for the fiscal year ended October 31, 2014 be included in our Annual Report on Form 10-K for that fiscal year for filing with the SEC.

The Audit Committee:

John H. Baker, III (Vice Chair)

Internal Audit Department

Sanderson Farms, Inc.

P. O. Box 988

Laurel, MS 39441-0988

### ***Review and Approval of Certain Transactions***

The Audit Committee's charter charges it with reviewing on an on-going basis certain transactions between the Company and its directors, officers, major stockholders and certain other persons for conflicts of interest. The types of transactions that are subject to this review are those related party transactions that must be disclosed in our proxy statement under the rules of the SEC. The Audit Committee must recommend to a special committee of qualified, independent directors whether or not the transaction should be approved. The special committee may retain independent legal, accounting or other advisors to advise it in this process. During our 2014 fiscal year, there were no transactions between the Company and related persons that required review by the Audit Committee or that required disclosure in this Proxy Statement.

### ***Section 16(a) Beneficial Ownership Reporting Compliance***

Section 16(a) of the Exchange Act requires our directors, officers and persons who own more than 10% of our outstanding common stock to file with the SEC reports of changes in their ownership of our common stock. Officers, directors and greater than 10% stockholders are also required to furnish us with copies of all forms they file under this regulation. Based solely on a review of written information provided by these persons, our officers, directors and greater than 10% stockholders were in compliance with all Section 16(a) filing requirements for fiscal 2014.

**EXECUTIVE COMPENSATION**

**Compensation Discussion and Analysis**

***Executive Summary***

This Compensation Discussion and Analysis (CD&A) describes our compensation philosophies, factors considered in developing our compensation packages and the decision-making process followed in setting compensation for our Named Executive Officers during our 2014 fiscal year. It should be read in conjunction with the tables and accompanying narratives that follow. Other than our principal executive officer and principal financial officer, there were only two individuals at our Company who met the definition of executive officer under SEC rules in our 2014 fiscal year, and therefore those four executive officers were our only Named Executive Officers under the SEC's proxy statement rules. They are:

Joe F. Sanderson, Jr., Chairman of the Board and Chief Executive Officer (CEO);

Lampkin Butts, President and Chief Operating Officer (COO);

Mike Cockrell, Treasurer and Chief Financial Officer (CFO); and

Tim Rigney, Secretary and Controller (Secretary).

Biographical information for Messrs. Sanderson, Butts and Cockrell can be found in this proxy statement under PROPOSAL NO. 1 ELECTION OF DIRECTORS. Mr. Rigney has served as Secretary and Controller since November 1, 2012, and before that date was our Corporate Accounting Manager since December 2005.

The goal of this CD&A is to describe our executive compensation philosophies and programs with transparency and clarity. Our Compensation Committee met five times during the year and retained Towers Watson as its independent executive compensation consultant. We believe that our executive compensation programs reflect our Company's pay-for-performance philosophy, assist us in creating long-term value for our stockholders and are effective in retaining and motivating our current executives. Although we generally strive to appoint executives from within our Company, our compensation programs will allow us to attract top management candidates from outside our Company, should the need arise.

Sanderson Farms has always had a pay-for-performance culture. We expect top performance from our people every year and are willing to pay for that success. Accordingly, a substantial part of the compensation package for each Named Executive Officer is at risk and is only earned if performance so warrants. In addition to base salary, we offer our Named Executive Officers the opportunity to earn an annual bonus if certain performance goals are met, and we also grant long-term incentives to our Named Executive Officers to align their pay with the long-term success of our Company. Our long-term incentives have both a performance-based component, as well as a time-based element to assist us in retaining our management team. We encourage our Named Executive Officers, other members of management and our Board of Directors to follow our stock ownership guidelines. In addition, our executives participate in our Employee Stock Ownership Plan and can elect to participate in our Management Share Purchase Plan, which further aligns them with our stockholders.

We use a peer group and appropriate published surveys (based on appropriate industry and revenue size comparisons) to set compensation levels. We do not target our compensation levels at any particular point in the range established by data we gather, but we do consider the median of those markets as a general guide, along with a multitude of other factors, in setting our pay opportunity. However, with above-target performance, our Named Executive Officers can earn above-market pay.

The Committee regularly compares our executive officers' total realizable pay against our total shareholder return for the past three years, to determine if there is alignment between our executive pay and our performance. Total realizable pay means the compensation our officers actually received, and equals the sum of an officer's base salary, actual bonus paid, performance based awards paid out in the period and the value of restricted stock awards at the Company's current stock price. Based on this analysis, the Committee believes our executive compensation and our Company's performance have been strongly aligned over time, with less alignment in some years due to cyclicalities in the poultry industry. In setting fiscal 2014 compensation, the Committee took note of Towers Watson's finding that the total direct compensation levels for the CEO, COO and CFO were near the 50<sup>th</sup> percentile in the aggregate, while the Company's total shareholder return ranked in the 7<sup>th</sup> percentile.

For purposes of our annual bonus award plan, we measure operational performance using Agristats, a private industry benchmarking service that analyzes performance data submitted weekly by a significant majority of the poultry industry, and through earnings per share. Even if we meet the operational and earnings per share targets, our executives will not receive payments under the bonus award plan unless we also meet a return on equity threshold. For our long-term performance share plan, we measure performance by return on sales and return on equity, and our stock price also factors into the final amount of the award to the Named Executive Officers.

## **Table of Contents**

In fiscal 2014, due in large part to relatively strong market prices for poultry and lower grain costs compared with 2013, we reported net income of \$10.80 per share. Based on our 2014 performance, we paid cash bonuses under our bonus award plan at the end of 2014 and our Compensation Committee determined that our fiscal year 2013 performance shares were earned as described in the table below entitled *Performance Shares Earned*. Those shares are subject to a further one-year holding period and will be paid out in 2015. There are two additional long-term performance share cycles currently in place under our long-term performance share plan, and the payouts on those awards, if achieved, will occur at the end of fiscal 2016 and 2017.

Our CEO, at his request, received no equity awards under the long-term incentive program from 2005 through our 2009 fiscal year. The Committee determined, and he agreed, that he again be considered for long-term incentive awards beginning in the 2010 fiscal year. In 2012, Mr. Sanderson informed the Committee that he would not accept any restricted stock awards for the 2013 fiscal year. However, Mr. Sanderson was granted, and he accepted, an award of performance shares for fiscal 2013, and he received restricted stock and performance share awards for fiscal 2014 and fiscal 2015.

At our 2011 and 2014 annual meetings, our stockholders approved the compensation of our Named Executive Officers as disclosed in our proxy statement in a non-binding *Say on Pay* vote by 99 percent of the votes cast. The Committee took these approvals into account in determining to follow the same policies, practices and framework to set our executive pay for fiscal 2015 as it has used in the past. Our stockholders also voted in a non-binding advisory vote, by a majority of the votes cast, to hold an advisory *Say on Pay* vote every year. Our Board subsequently determined to adopt this frequency. See *PROPOSAL NO. 2 ADVISORY VOTE ON EXECUTIVE COMPENSATION* in this proxy statement.

### ***Principles and Objectives of the Executive Compensation Program***

The main objectives of our executive compensation programs have been to reward outstanding performance by our executives appropriately and to ensure that management and stockholder interests are closely aligned. The Committee strives to structure compensation packages that create incentives for our executives to maximize stockholder value, rather than to maximize their individual pay. A significant portion of our executive compensation opportunity is related to factors that directly and indirectly influence stockholder value, including stock performance, earnings per share, operational performance, return on sales and return on equity.

Another significant factor in the Committee's decisions to make equity-based awards to our executives is stockholder dilution, and the Committee strives to minimize the dilutive effect of those awards on our stockholders. Our Board of Directors has also adopted a share repurchase program under which we may repurchase up to one million shares of our common stock, in part to offset the dilutive effect of our equity compensation plans.

We believe our executive culture is unique within our industry. Our management team is motivated by a strong *tone from the top* that has fostered our core mission to create returns for our stockholders. We believe our executives should be rewarded fairly for their loyalty to that mission, especially in years when we perform at the top of our industry.

Management, the Board of Directors and the Compensation Committee recognize that our business is cyclical and seasonal, and often times the level of profitability we achieve is significantly influenced by factors beyond our control. These factors include swings in the market prices for our primary product, fresh chicken, and our two primary input costs, corn and soybean meal. Supply and demand factors for poultry products and feed grains also play a role in the cyclicity of our industry and are influenced by global macroeconomic conditions and weather patterns. Accordingly, the Compensation Committee believes it is important to measure and reward outstanding performance as much by

operational performance relative to our industry peers as in absolute dollars per share and other typical measuring tools. This concept of placing significant emphasis on operational performance relative to our industry peers permeates our overall compensation plans and philosophy.

We expect top-level performance from our management team even during downturns in our industry and during periods of Company expansion. Accordingly, the criteria that the Committee has established for our performance-based awards have been historically very challenging to achieve. Indeed, fiscal 2010, fiscal 2013 and fiscal 2014 were the only years in which any of our performance shares were earned since the inception of the program in 2005. Nevertheless, even in years for which we have incurred a net loss, our Company has still performed better than most of our industry peers. The Committee has considered these factors in evaluating our compensation plans and has made adjustments to the plans or discretionary awards to take into account our strong performance relative to the industry and our significant Company growth.

The Committee intends to continue its strategy of employing compensation programs that emphasize performance-based incentive compensation. We have structured our executive compensation packages with an understanding of the cyclical nature of our business, and with a goal to achieve an appropriate balance between our short and long-term performance. We have also tried to balance the focus of our pay elements between our operational performance versus the industry and our financial performance on the one hand, and stockholder return on the other.

**Table of Contents*****Benchmarking and Competitive Analyses***

The Committee uses information gathered by analyzing the compensation levels and programs of a peer group and, in some cases, composite survey data compiled from companies of appropriate size and industry (although the survey data does not specifically identify contributing companies). The peer group serves as the chief point of comparison of the level and structure of executive pay, and is composed of companies similar to Sanderson Farms in size, industry, geographic location and/or performance. The Committee also uses data from a reference group of direct competitors that are considerably larger than Sanderson Farms as a comparator for components of executive pay, but not for pay levels. Selection of the peer and reference groups is based on the research of Towers Watson, with input from the Committee. Each year, Towers Watson considers whether the composition of the peer and reference groups continues to be appropriate and if not, recommends changes in the members of the groups.

The comparator groups yield information about the general level and components of pay for comparable executive positions at other companies. The Committee uses this information as a general guide in its deliberations, but it does not target our executive compensation levels at any point in the range established by the comparisons. Instead, the Committee bases its final decisions on its business judgment, which may be influenced by the median level of that range, as well as a variety of other factors discussed below. The companies comprising the comparator groups for fiscal years 2014 and 2015 are shown below:

***The Compensation Committee Process and the Role of Management and Compensation Consultants***

Both management and the Compensation Committee recognize the importance of maintaining sound principles for the development and administration of compensation and benefit programs. Our Compensation Committee has taken steps to significantly enhance its ability to carry out its responsibilities effectively, as well as to ensure that the Company maintains strong links between executive pay and performance. Examples of actions that the Committee has taken include:

Retained an independent compensation consultant, Towers Watson, to advise on executive and director compensation issues. The Committee selected Towers Watson after considering the qualifications and proposals of several consulting firm candidates and interviews of the candidates with the Committee chairman.

Met regularly in executive sessions with the compensation consultant and legal and accounting advisors without Company management present; and

Made significant changes to our executive and director compensation programs, including:

Establishing a peer group for primary comparisons of the level and structure of executive and director pay;

Establishing a broader reference group of companies with a business environment similar to ours to assist in comparing the elements of executive and director compensation (not levels of pay);

**Table of Contents**

Developing a long-term incentive program for executives designed to offer a variety of equity-based awards that are linked to stockholder value, and making adjustments to the program where necessary to take into account our significant Company growth and strong performance relative to our peers;

Implementing incentive programs to promote increased Company stock ownership by management and non-employee directors;

Instituting share ownership guidelines for both management and non-employee directors;

Adopting a compensation recoupment policy for incentive-based compensation, discussed below;

Undertaking a formalized annual review of executive compensation packages with advice from the compensation consultant in light of market standards, company and industry performance and individual merit; and

Bringing the mix of the top officers' cash compensation closer to marketplace standards by increasing the maximum performance-based bonus award opportunity for the CEO to 200% of base salary, for the COO to 160% of base salary, for the CFO to 140% of base salary and for the Secretary to 80% of base salary.

The Committee has the sole authority to retain or terminate Towers Watson (or any other compensation consultant) and to approve the consultant's fees and other terms and conditions of its engagement. In July 2013, as in prior years, the Committee engaged Towers Watson to review its executive compensation components and levels and recommend any changes for fiscal 2014 necessary to bring our programs in line with market standards or Company performance. The Company paid Towers Watson a fee of approximately \$88,000 in connection with its fiscal 2014 executive pay review, which included an assessment of the composition of the peer and reference groups for 2014, a review of compensation trends, development of specific compensation recommendations and a presentation of its report to the Committee.

The Board and the Nominating and Governance Committee have also retained Towers Watson periodically, most recently in July 2014, to review the compensation of our outside directors. In October 2013, the Committee also retained Towers Watson upon the recommendation of management to perform a limited review of the salary ranges of selected salaried employees, and the fees for this review, which was completed during fiscal 2014, were approximately \$74,000. In 2014, the Committee formally assessed the independence of its advisors, including Towers Watson, based on specific information requested of the advisors, and determined that Towers Watson and its other advisors are independent. The Committee will take measures to ensure that any future engagement of Towers Watson by our Company does not impair Towers Watson's independence.

Typically, the Committee chairman meets with representatives from Towers Watson at the outset of any engagement to discuss the Committee's goals and objectives and to outline the parameters of the review that Towers Watson will undertake. The CFO is sometimes present for those meetings as a liaison with management, and Towers Watson uses the CFO or other Company personnel to gather internal information necessary for its work. The Committee chairman

also corresponds with Towers Watson directly during an engagement as questions arise. Because the CEO is the Committee's chief source of information about the overall performance of the Company and of senior management, the Committee or its chairman may also meet privately with the CEO to inform him of the Committee's thinking on any particular issue and to get his feedback and recommendations. Although the CEO has substantial influence on the Company's compensation and could contact or meet with Towers Watson or the Committee if he chooses, he is not directly involved in the Committee's decision-making process or in meetings with Towers Watson.

When compensation questions arise for the Committee's consideration, management is generally present for Towers Watson's presentations and to answer any questions by directors. However, when the Committee sets levels and components of compensation, management is ultimately excused from the meeting to permit the Committee to meet with Towers Watson and legal and accounting advisors in executive session and to vote. The Committee may ask the CEO to be present for the deliberations on the compensation of the other Named Executive Officers, but he is excused from the deliberations and vote on his own compensation.

***Elements of Executive Compensation***

The compensation of our executive officers consists of the following elements:

Base salary

Annual cash incentive (bonus) awards

Long-term equity incentive awards, including:

Restricted stock

Performance shares

Management share purchase rights

In-service and post-employment benefits

Perquisites

The Committee has used these elements of compensation to create a flexible package that reflects the cyclical nature of the poultry business and can reward both the short and long-term performance of the Company and the individual. Each item of compensation is considered individually, followed by consideration of the overall package, with the goal of treating executives equitably and rewarding outstanding performance. The Committee also considers how our executive pay compares to the peer and reference companies and to similar positions included in published survey data, with respect to both levels and components of total pay. Generally, the Committee does not consider the amounts realizable from prior compensation in setting future benefits. However, the Committee has restructured our long-term performance incentives to reflect more fairly the conditions in our industry when past awards have failed to vest because of cyclical downturns in the poultry market and inefficiencies stemming from our significant internal growth. This is discussed in more detail below.

The CEO's 2014 total compensation, as reported in the Summary Compensation Table below, was approximately 179% and 242%, respectively, higher than the total compensation for the COO and CFO because of his higher level of responsibility within our Company and his more pervasive influence over our performance. The compensation of the COO and CFO was likewise approximately 426% and 329%, respectively, higher than the Secretary's for the same reasons.

In 2009, we entered into employment agreements with the CEO, the COO and the CFO. The agreements provide those executives will remain employed until their agreements are terminated either by the Company or the executive for any reason. Among other benefits, the agreements provide for a severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause; or

the officers resign for good reason.

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

The Committee believes these benefits are important officer retention tools that will protect the Company and its stockholders against an unexpected departure of our most senior management. In addition, the commitment to pay severance is counterbalanced by an agreement from the officers not to disclose confidential information about us during and after their employment, and not to engage in certain competitive activity during their employment and for two years after the termination of their employment for any reason other than poor performance. The Committee also believed it was crucial to structure the agreements so that, except in the case of a change in control, the officers will not be paid severance if they are terminated for poor performance. In the context of a change in control, the severance is not payable unless the officer is subsequently terminated without cause. This is sometimes referred to as a "double trigger." In the case of a merger or other transaction that would allow our stockholders to profit from a sale of control of our Company, such provisions can help ensure that management will not be distracted in the transaction negotiations by concerns that they will be arbitrarily terminated by new management without any economic protection after the change of control is complete.

**Table of Contents**

The agreements are discussed further below in the narrative following the table entitled, Grants of Plan-Based Awards.

***Base Salaries***

Salaries are used to provide a fixed amount of compensation for the executive's regular work. The Committee reviews the salaries of the Named Executive Officers annually in October, with input from the outside compensation consultant, and makes final salary decisions at that time. Salary increases are based on an evaluation of Company performance, the individual's performance, and the individual's level of pay compared to the pay levels for similar positions in the peer group. Although the peer group suggests a range of competitive levels for base salaries, exact levels are determined by the Committee based on each executive's merit. The Committee also takes into account years of service, responsibilities, our future growth plans and our current ability to pay.

For fiscal year 2012 and fiscal year 2013, the Committee determined, due to industry-wide challenges and the competitive nature of our then-current salaries, not to increase the base salaries of the CEO, COO and CFO. Effective November 1, 2012, Tim Rigney was appointed to the position of Secretary and received an initial salary of \$179,000. For fiscal 2014, the Committee determined to award a five percent merit based increase to the CEO, COO and CFO, in light of Company performance and considering that those officers had not had a salary increase for fiscal 2012 or 2013. The Committee also decided to increase Mr. Rigney's salary to \$215,000, which is within the range of salaries of the Company's senior managers. For more information about the factors the Committee considered in setting fiscal 2014 compensation, see the subsection below entitled Evaluation of Executive Performance.

The effective date for salary increases typically is November 1 of each year. Salary increases can also occur upon an individual's promotion.

***Annual Cash Bonus Awards***

We maintain a bonus award plan under which our salaried employees, including the Named Executive Officers, are eligible for fiscal year-end cash incentive awards equal to a percentage of their base salary based on the Company's performance ( Bonus Award Program ). These awards are designed to reward short-term performance and the achievement of designated operational results. For officers and key management employees, the total award has two components: a percentage based on our achieving certain target earnings per share goals, and a percentage based on our operational performance versus our industry peers as measured by Agristats.

The earnings per share targets established under the Bonus Award Program are set each year, and reflect our growth and ability to generate earnings. We have experienced significant growth in production capacity over the past 15 years, and our ability to generate earnings has likewise grown significantly. As a result, the earnings per share targets established under the Bonus Award Program have moved higher to reflect our increased earnings capacity. We have historically performed at or near the top of the industry in operational measures, and the targets set for operational goals under the Bonus Award Program reflect our culture and expectations of achieving superior performance relative to our peers. However, it is possible that even if we operate at the top of the industry, we still might not achieve an acceptable level of profitability, due to factors such as the cyclical nature of the industry, external forces that influence profitability that are beyond the control of management, and our significant internal growth in recent years and resulting short-term inefficiencies. Therefore, unless we achieve at least an 8% return on average stockholders' equity (computed after taking into account any bonus to be paid), no payments are made under the Bonus Award Program even if the operational targets are reached, and payments are not cumulative.

Generally, earnings per share targets are established by reference to our five-year average return on sales and what earnings level would result in an acceptable return on average equity. Through this review, we establish a dollar earnings target that would generate acceptable levels of return on sales and return on equity, and that is then translated into an earnings per share target for purposes of the Bonus Award Program. While the Committee recognizes that there are many factors beyond the control of management that might affect our ability to achieve these results, it attempts to make the program competitive by awarding a relatively high percentage of salary payouts in years in which we achieve these aggressive targets. Likewise, the Committee sets aggressive targets when setting operational goals. Before fiscal 2014, the plan required the Company itself to rank in the top 30% of companies participating in Agristats in operating profit per head. In 2014, the Committee determined, after consulting Towers Watson, to modify the plan so that a bonus is payable if the Company's chickens rank in the top 30% of all chickens included in Agristats. The Committee and Towers Watson agreed this change would be a better metric of Company performance. For participants to earn the top bonus, our chickens must rank in the top 10% of the industry.

Also in 2014, the Committee asked Towers Watson to review the plan in comparison to plans of peer group companies to determine whether, in years of strong Company performance, payouts under the plan mirrored total shareholder return. Towers Watson concluded that while the rate of payouts under the plan were commensurate with the peer group plans, the amount of awards

**Table of Contents**

paid was comparatively low, even though the Company's return on equity outperformed the peer group in years in which a bonus was paid. As a result, Towers Watson recommended that over a period of two years, starting with the fiscal 2014 plan, the maximum bonus opportunity should be increased to the 50<sup>th</sup> percentile of market levels. The Committee adopted Towers Watson's recommendation.

The following table shows, for fiscal 2014, the percentage of base salary that the Named Executive Officers were eligible to receive from each component of the bonus award. These levels reflect the first phase of increases described above.

Actual cash awards for past years are shown in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table that follows this Compensation Discussion and Analysis. For fiscal 2014, the Company's actual performance reflected favorable market prices for poultry products and lower grain prices compared with the prior year.

<b>Position</b>	<b>Maximum Bonus Award Opportunity as a Percentage of Base Salary</b>	<b>Percentage of Base Salary Actually Earned under Bonus Award Program</b>	<b>Dollar Amount of Actual Awards</b>

CFO	130%	108 1/3%	\$ 617,318
Secretary	65%	54 1/6%	\$ 116,454

The Committee normally reviews and reconsiders the Bonus Award Program each January, along with the maximum bonus opportunities, the performance criteria under the program and the earnings per share targets for the then-current fiscal year. As part of its review, it receives reports from the outside compensation consultant concerning the level of similar short-term cash incentives paid by the peer group companies. It also receives management's recommendations as to the appropriate targets for earnings per share and operational performance based on management's estimates of what would qualify as superior performance.

The Committee generally adopts the program in January for the current fiscal year. The parameters of the program and the performance criteria are then communicated to the participants. In general, once the Committee adopts the program, the bonus awards are determined solely according to the program criteria and are not subject to the discretion of the Committee. The program does provide that adjustments can be made to awards in the event of

extraordinary operating conditions, errors in Agristats reporting or significant changes in the number of Agristats participants, changes in law or accounting procedures or substantial and unforeseen fluctuations in sales pounds or dollars during the year. We have never made any such adjustments. Bonuses earned for a completed fiscal year are usually paid in December following that fiscal year.

***Long-Term Equity Incentive Awards***

Equity-based compensation and ownership ensures that our executive officers and directors have a continuing stake in the long-term success of the Company. Generally, the Committee considers equity incentive awards to the Named Executive Officers each October, after its annual evaluation of executive pay. The awards, if made, usually become effective in November at the start of the Company's new fiscal year.

Under the Stock Incentive Plan, the Board may grant restricted stock, performance shares, stock options, stock appreciation rights, phantom stock, management share purchase rights and other stock-based awards. Since its inception in 2005, awards to the Named Executive Officers under the plan have consisted of restricted stock, performance shares and management share purchase rights.

## **Table of Contents**

The Committee strives to be conservative in the rate of usage, or run rate, of shares under the Stock Incentive Plan. In determining fiscal 2014 awards, the Committee noted the Company's three-year average historical run rate at the time of approximately 0.9%, compared to the peer group median of 0.8%.

The Committee, with input from Towers Watson, has made specific grants by comparing each executive's current long-term incentive levels with the market range established by published survey and peer proxy statement data. Based on market studies, it has then identified a typical multiple of the average base salary for the individual's management level that his or her long-term incentives should represent. These multiples are reconsidered annually based on the then-current market data. For fiscal 2013, the Committee adopted Towers Watson's recommended multiples of 300% for the CEO, 150% for the COO, 145% for the CFO, and 45% for the Secretary. For fiscal 2014, the Committee adopted Towers Watson's recommendations to increase the multiples for the COO and CFO to 160% and 150% respectively.

The multiple of the officer's salary yields a target annual long-term incentive award level that is then converted into a recommended number of shares to be awarded using the approximate stock price quoted on Nasdaq at that time. As discussed above, the Committee also bases its final decisions as to the award level on factors such as individual merit, responsibilities, individual and Company performance, and the dilutive effect of the award on our stockholders. The Committee then divides the total recommended share award equally between performance shares and restricted stock.

All of our restricted stock and Management Share Purchase Plan agreements provide that stock awarded under those plans will become fully vested in the event of a change in control of our Company and fully or partially vested upon certain other events, as described more fully in the Potential Payments Upon Termination or Change-in-Control section below. These provisions were adopted because they are customary for equity incentive awards of those types and because the Board of Directors deemed them to be reasonable and fair to our management. In the context of a merger or other transaction that would allow our stockholders to profit from a sale of control of our Company, such provisions can help ensure that management will not be distracted in the transaction negotiations by concerns that the value of their awards will decline after the change of control is complete. The potential payments under these provisions played no part in the Committee's decisions regarding other elements of our executive compensation.

### **Restricted Stock**

Shares of restricted stock are shares granted subject to a vesting period during which the shares may not be transferred. Most of our restricted stock awards have a vesting period of four years. The CEO, COO, CFO and Secretary and certain other salaried employees of the Company received restricted stock as part of their long-term incentive award in November 2013 for the 2014 fiscal year. The fiscal 2014 restricted stock generally will vest on November 1, 2017, as long as the holder remains continuously employed by us during the restricted period.

Recipients of restricted stock have all the rights of a stockholder of the Company, including the right to receive dividends, beginning on the grant date. In the event a recipient forfeits shares of restricted stock before such shares vest, the shares are cancelled.

### **Performance Shares**

Performance shares provide a material incentive to executives by offering potential increased stock ownership in the Company tied directly to our stockholders' return. The CEO, COO, CFO, Secretary and certain other salaried employees received performance share grants as part of their long-term incentive awards in November 2013. The

performance share program entitles the holder to earn shares of Sanderson Farms common stock if we achieve certain relative levels of performance on stockholder return over a multi-year period following the grant, as long as the holder remains continuously employed by us until the end of the performance period and any additional vesting period. The length of the performance period reflects the cyclical nature of the poultry business, and is designed, generally, to measure our performance over an industry cycle. Currently, the performance period is two years and there is an additional one-year vesting period before the shares are issued.

Performance shares carry no dividend or voting rights until they are issued after achievement of the performance objectives and the expiration of any additional vesting period.

The Board of Directors may pay earned performance shares in cash, shares of Sanderson Farms common stock, or in a combination of both. Once the performance criteria are established and the awards are granted, the payment of earned shares is generally not subject to the discretion of the Committee or the Board, but adjustments can be made in limited circumstances.

Performance share awards are made in a target amount of shares based on our average return on equity (which we call ROE) and a target amount based on our average return on sales (which we call ROS). The award establishes three possible non-discretionary percentages of those target amounts that the recipient could actually receive, depending on our actual performance measured at the end of the performance period.

**Table of Contents**

As a result, the performance criteria for fiscal 2014 awards were structured as follows:

**2014 Performance Share Criteria**

<b>Measure</b>	<b>Weight</b>	<b>Threshold (50% Payout)</b>	<b>Target (100% Payout)</b>	<b>Maximum (200% Payout)</b>
ROE	50%	9.3%	10.7%	21.4%
ROS	50%	2.6%	3.5%	4.8%

If our average ROE or average ROS is otherwise between the threshold and maximum percentages, the number of performance shares for which the award recipient is eligible will be calculated using a straight-line interpolation. If average ROE or ROS is less than the threshold, the recipient will not be entitled to receive any shares of that portion of the target award measured by that metric.

The threshold level represents our median performance over the course of 22 historical two-year periods. The target level represents the 65th percentile of performance during the historical measurement period and the maximum level represents the 83rd percentile. Average ROE is equal to the mathematical average of the net return on average equity for each of the two years in the performance period. Net return on average equity is computed by adding together stockholders' equity at the beginning and end of each fiscal year on our audited financial statements and dividing by two. The resulting number is then divided into net income for the fiscal year as reported on our audited financial statements to reach net return on average equity for the year. Average ROS is equal to the mathematical average of the net return on net sales for the two years in the performance period. Net return on net sales is computed by dividing net income by net sales, as both numbers are reported on our audited financial statements for the year.

Using the methodology described above and 23 two-year periods, the performance criteria for the fiscal 2015 awards were established as follows:

**2015 Performance Share Criteria**

<b>Measure</b>	<b>Weight</b>	<b>Threshold (50% Payout)</b>	<b>Target (100% Payout)</b>	<b>Maximum (200% Payout)</b>
ROE	50%	9.6%	11.5%	20.9%
ROS	50%	2.8%	3.5%	4.7%

Since the inception of the Stock Incentive Plan, we have granted ten cycles of performance shares, one for each of the fiscal years from 2006 through 2015. Only the performance shares granted for fiscal years 2008, 2009, 2012 and 2013 have been earned. The Committee determined in December 2013 and 2014, respectively, that the fiscal 2012 and 2013 shares were earned at the levels shown in the table below. The fiscal 2013 shares are subject to an additional one-year holding period before they are paid out.

**Performance Shares Earned****Performance Criteria**

Performance Period	Payout Date <sup>(1)</sup>	Threshold (50% Payout)		Target (100% Payout)		Maximum (200% Payout)		Actual Company Performance	
		ROE	ROS	ROE	ROS	ROE	ROS	ROE	ROS
11/1/11-10/31/13	10/31/2014	9.7%	3.0%	11.6%	3.6%	22.3%	4.9%	15.80%	3.56%
11/1/12-10/31/14	10/31/2015	9.6%	2.8%	11.0%	3.5%	21.9%	4.9%	26.56%	6.92%

- <sup>(1)</sup> The Committee on December 30, 2014 determined that the fiscal 2013 awards were earned, but the awards are subject to an additional one-year vesting period before they will be paid out.

**Table of Contents**

The following table shows the number of shares actually earned by each Named Executive Officer according to the percentage payouts reflected in the table above.

Position	Performance Period Ending 10/31/2013		Performance Period Ending 10/31/2014	
	Target Award (#) <sup>(1)</sup>	Actual Shares Earned (#) <sup>(2)</sup>	Target Award (#) <sup>(1)</sup>	Actual Shares Earned (#) <sup>(2)</sup>
CEO	39,750	46,955	43,250	86,500
COO	10,000	11,813	10,500	21,000
CFO	8,750	10,338	8,750	17,500
Secretary	225	267	1,000	2,000

- (1) 50% of the target amount of shares is allocated to the ROE component and 50% is allocated to the ROS component.
- (2) This number is obtained by multiplying the percentage of the payout achieved for each of the two components of an award and adding the result. For example, the COO's award earned in 2013 was calculated as follows: ROE component:  $(100\% \times 5,000) + (39.2\% \times 5,000) = 6,960$ ; ROS component:  $(100\% \times 2,500) + (94.1\% \times 2,500) = 4,853$ ;  $6,960 + 4,853 = 11,813$ .

#### Management Share Purchase Rights

Under our Management Share Purchase Plan, executive officers and other key employees may elect to reduce their annual base salaries by up to 15% and their bonuses earned under the Bonus Award Program by up to 75% and instead receive those amounts in the form of restricted stock at the current market price. The Company matches 25% of the employee's contribution to the plan to grant additional shares. The shares purchased or granted through the plan generally vest on the third anniversary of their acquisition by the participant. Recipients of the shares purchased or granted have all the rights of a stockholder during the restricted period. If the shares fail to vest, any dividends paid on the Company matched shares must be returned to us. In fiscal 2014, the Secretary was the only Named Executive Officer who participated in the plan. You can find more information about the plan in the narrative accompanying the Grant of Plan-Based Awards table, below.

#### In-Service and Post-Employment Benefits

As mentioned above, we believe strongly in aligning the interests of management with those of our stockholders. We were among the first in our industry to adopt an Employee Stock Ownership Plan, and each of the Named Executive Officers participates in the plan on the same basis as all of our other employees. Participants are automatically enrolled in the plan after one year of service and become fully vested after six years. We contribute funds to the plan in profitable years, and on October 31, 2014, we contributed \$15 million to the plan for the 2014 fiscal year.

We also sponsor a 401(k) retirement plan that is available to all of our employees after one year of service. The Named Executive Officers participate on the same basis as all other employees. Eligible employees may contribute up to 15% of their salary to the plan on a pre-tax basis through payroll deductions. We began matching employee contributions to the plan in 2000, and will match 100% of an employee's contribution up to 3% of his or her salary, and 50% of such contribution that exceeds 3% but does not exceed 5% of his or her salary. Sanderson Farms common stock is not an investment option under the plan.

We also provide other benefits such as medical, dental and long-term/short-term disability (up to 66 2/3% of salary not exceeding \$180,000 per year in long-term disability payments) coverage, as well as vacation and other paid holidays. Beginning with our 2001 fiscal year, we began paying premiums on term life insurance policies for all employees. The death benefit under these policies depends on the amount of the employee's annual salary, up to a maximum benefit of \$100,000 and a minimum of \$50,000 for salaried employees. These benefit programs are comparable to those provided at other large companies. They are designed to provide certain basic quality of life benefits and protections to our employees and at the same time enhance our attractiveness as an employer.

In 2008, the Committee adopted a Supplemental Disability Plan for the CEO. The plan provides that if the CEO becomes disabled as defined in our long term disability plan for all our salaried employees, he will receive a monthly benefit equal to 66 2/3% of his salary beginning one year from the date of disability until the date that he has received five years of payments or his 70th birthday, whichever occurs first, with a minimum of 12 months of payments. This is the same benefit that is provided to all participants in our long term disability plan who are 60 years or older. Participants who become disabled before their 60<sup>th</sup> birthday would receive the benefit until they reach age 65. The Committee adopted the supplemental plan because our long term disability plan places an annual dollar limit on the benefit that participants can receive, which would have resulted, if the CEO became disabled at the time the supplemental plan was adopted, in a benefit to him of only 26% of his then current salary. The employment agreements that the Company entered into with the COO and CFO in 2009 made those officers participants in the supplemental plan.

**Table of Contents**

The Company's portion of the cost of health benefits provided in the 2014 fiscal year for the Named Executive Officers was as follows:

**2014 Health Benefits**

<b>Officer</b>	<b>Cost to Company of Active Health Benefits</b>
CEO	\$ 9,080
COO	\$ 9,080
CFO	\$ 9,080
Secretary	\$ 9,080

The 401(k) contribution, health plan and life insurance premiums, as well as dividends paid on restricted stock and matching charitable contributions under our charitable gift program are ratified by the Committee in January of the year following the year for which they were made. The Board of Directors approves the annual ESOP contribution, if any, in October of each year.

All employees may elect to continue participating in our health benefit plan following their retirement, but they must pay 100% of the premium cost.

In rare instances, we have continued, because of the applicable circumstances, to pay the base salaries of certain key employees for a short period of time after their deaths. None of those employees served at any time as an executive officer of Sanderson Farms. However, the employment agreements we entered into with the CEO, COO and CFO in 2009 provide that we will continue to make base salary payments to their designated beneficiary or estate for a period of one year from the date of the officer's death.

***Perquisites***

We provide certain perquisites to our executives, which consist primarily of personal use of our Company aircraft by the CEO and his immediate family. This perquisite provides flexibility to the CEO and increases travel efficiencies, allowing more productive use of executive time, in turn allowing greater focus on Sanderson Farms-related activities. The Company also permits the COO and CFO to use Company aircraft in times of family or other emergencies. In some cases, the Company also permits and pays for the Named Executive Officers' spouses to accompany them on the corporate aircraft. The amounts of these perquisites are ratified by the Committee in January of the year following payment. More detail on our perquisites may be found in the narrative following the Summary Compensation Table, below.

***Compensation Recoupment Policy***

In 2010, the Committee adopted a policy requiring the Board or the Committee to seek to recoup incentive-based compensation paid to our directors, executive officers or other personnel whenever required by law or the rules of the Nasdaq Stock Market. In addition, the Board or the Committee, in its discretion, may determine, as a result of a restatement of our financial statements or misconduct that adversely affects us by a member of our management executive committee or a director, to take such actions it deems necessary or appropriate and in our best interests with respect to the executive committee member, or the director in the case of director misconduct, to address the restatement or misconduct. Such actions may include, to the extent permitted by law and our charter and By-Laws:

Requiring the executive or director to repay some or all of any incentive compensation paid, including bonus, performance shares or restricted stock;

Requiring the executive or director to repay gains realized on the exercise of stock options or the sale of vested stock;

Cancelling all or part of the executive's or director's incentive awards;

Adjusting the executive's or director's future cash or non-cash compensation or fees, as applicable;

Terminating the executive or seeking to remove the director; or

Initiating legal action against the executive or director.

The recoupment policy is in addition to the authority under the Stock Incentive Plan to cancel awards or recoup the value of shares in the event of detrimental activity by the participant.

**Table of Contents*****Stock Ownership Guidelines***

In October 2004, the Committee recommended and the Board of Directors adopted non-binding stock ownership guidelines for our management, in an effort to encourage increased ownership of our Company by key employees and directors. Towers Watson has periodically reviewed the guidelines and in 2013, at Towers Watson's recommendation, the Committee determined to recalculate the guidelines for officers using fiscal 2014 salaries. We believe that these guidelines are reasonable to achieve and will be a long-term benefit to all of our stockholders by helping to align management and stockholder interests. They also encourage officers and directors to hold purchased shares and vested option shares, restricted stock and performance shares, as applicable, for long-term investment. Stock ownership includes stock owned directly, indirectly through the 401(k) plan or Employee Stock Ownership Plan, restricted stock, and earned performance shares. The guidelines are based on a multiple of base salary and director annual retainer fees, and are set forth in the table below. As of our 2014 fiscal year, the CEO, COO, CFO and directors had exceeded the guidelines below. Timothy Rigney became our Secretary and Controller effective November 1, 2012, and has not yet reached the ownership guideline for his new position. Officers are encouraged to achieve the guidelines over a period of four years.

**Stock Ownership Guidelines**

<b>Position</b>	<b>Base Salary/ Average Annual Retainer</b>	<b>Desired Ownership Multiple</b>	<b>Number of Shares</b>
CEO	\$ 1,362,984	6	125,351 <sup>1</sup>
COO	\$ 665,004	4	40,772 <sup>1</sup>
CFO	\$ 569,832	4	34,937 <sup>1</sup>
Secretary	\$ 214,992	3	9,886 <sup>1</sup>
Director	\$ 25,000	8	4,000

(1) In recalculating ownership guidelines in 2013 for the Named Executive Officers, the committee used \$65.24 per share, which was the approximate share price at the time.

It is Sanderson Farms' policy that our directors and all employees, including the Named Executive Officers, not trade their vested Sanderson Farms stock, other than shares underlying options, on a short-term basis (i.e., shares must be held for a minimum of six months). Employees and directors may not purchase Sanderson Farms stock on margin, buy or sell put or call options linked to Sanderson Farms stock, or hold Company securities in a margin account. Finally, employees and directors may not pledge Company securities as collateral for a loan, although an employee or director can request a waiver of this policy where he or she can clearly demonstrate the financial capacity to repay the loan without resort to the pledged securities.

***Tax and Accounting Considerations***

For income tax purposes, we may not deduct any portion of compensation that is in excess of \$1 million paid in a taxable year to the CEO, CFO, COO and Secretary, unless that compensation qualifies as performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended (referred to as the Code). Our Bonus Award Program and certain awards we may make under our Stock Incentive Plan, like the performance shares, are based on the Company meeting specified performance criteria. However, Section 162(m) of the Code requires that the performance criteria and material terms of these plans be approved by our stockholders every five years and that

we comply with certain other requirements in order for awards to meet the definition of performance-based and thus be fully deductible. While the Committee generally strives to structure employee compensation in order to preserve maximum deductibility, it may from time to time make awards that do not meet the Code's definition of performance-based compensation. For example, we have not sought to qualify our Bonus Award Program under Section 162(m) because Section 162(m) would require us to remove certain discretionary features of the program that we believe are critical for management retention, and therefore are in the best interest of our stockholders.

In the first quarter of our 2006 fiscal year, we adopted Revised Statement of Financial Accounting Standards No. 123, Share-Based Payment (FAS 123(R)). FAS 123(R) requires all share-based payments to employees, including grants of employee stock options, restricted stock and performance shares, to be recognized in our income statement based on their fair values. Before the adoption of FAS 123(R), we accounted for share-based payments to employees using an intrinsic value method and, therefore, we generally recognized no compensation cost for employee stock options. Based upon the provisions of FAS 123(R), we are required to accrue stock-based compensation expense as it is earned. This change in accounting rules has influenced the Committee to make restricted stock and performance share awards in lieu of option awards. Other factors that have made restricted stock and performance share awards more attractive than option awards include their generally smaller dilutive effect and the performance incentive they provide even in times when our stock price is depressed.

***Evaluation of Executive Performance***

In evaluating the performance of the individual Named Executive Officers before setting or adjusting compensation, the Committee and the Board of Directors do not rely solely on predetermined formulas. Rather, they focus on those officers' individual objectives. The Committee evaluates the CEO's performance in consultation with the Board, and it evaluates the other Named Executive Officers with the input of the CEO.

In 2013, the Committee based its decisions for fiscal 2014 compensation on the assessment of the Company's fiscal 2013 performance and the Named Executive Officers' objectives and strategies, as follows:

Our margins improved significantly during 2013 as compared to 2012 due to several factors, including improved poultry market prices, more favorable prices for feed grains in the last quarter of the fiscal year, better demand for chicken products at food service caused, in part, by relatively high prices for competing protein, especially beef, and a favorable product mix. These factors led to net income per share of \$5.68, compared to net income per share of \$2.35 for 2012.

Due to these favorable market conditions, we began to increase production in May 2013, and we returned to full production at all of our facilities in June 2013.

The additional pounds of poultry we processed were the result of our successful growth strategy and solid execution in our operations.

Our CEO was pleased with the contribution of the other officers to the Company's performance in 2013, including their management of our growth and identification of areas of opportunity that allowed us to achieve operating efficiencies in 2013.

Among other accomplishments, our executive officers successfully negotiated a new revolving credit facility with an increase in committed credit from \$500 million to \$600 million, and flexible financial covenants that will allow us to continue our long term strategic growth plan with the addition of up to two potential new poultry complexes.

Improved margins and solid performance allowed the Company to significantly reduce outstanding debt, and put the Company in a position to continue its growth strategy. The Company began construction of its new poultry complex in Palestine, Texas in October. The new complex will increase capacity by over sixteen percent.

The executive officers continued participation in various leadership, mentoring and talent development programs designed to develop the next generation of leadership for the Company, and continued to exhibit a commitment to the long term success and health of the Company by developing future managers.

Each of the officers continued to express a long term commitment to continuing the Company's strategic growth.

In addition to the factors discussed above, the Committee considered that the target level total direct compensation of the Named Executive Officers is near or, in the case of the CEO, COO and Secretary, below the 50<sup>th</sup> percentile of the peer group and published survey levels. The Committee also took into account that the CEO, COO and CFO had not had a salary increase for either of fiscal years 2012 or 2013.

Accordingly, the Committee determined to award a merit salary increase to the CEO, COO and CFO of 5%, a slightly higher level than the 3% increase recommended by Towers Watson. The Committee also determined to increase the salary of the Secretary, who was promoted to that position effective November 1, 2012, from \$179,000 to \$215,000, in line with the salary range of other employees at his management level.

On the recommendation of Towers Watson, the Committee also determined to make long term equity incentive awards to the Named Executive Officers at levels in line with market trends. The levels for the COO and CFO were based on multiples of average base salary of 160% and 150%, respectively, slightly higher than the levels for 2013, while levels for the CEO and Secretary were unchanged.

In making these awards, the Committee took note of the Company's conservative three-year average share usage rate under the Stock Incentive Plan of 0.9%.

In 2014, the Committee considered the following factors in setting our fiscal 2015 compensation:

We had record sales in fiscal 2014 of \$2.77 billion, a 3.4% increase over the previous record set in fiscal 2013. These results were driven by favorable supply and demand factors, slightly higher poultry market prices, higher

**Table of Contents**

volumes resulting from the execution of our growth strategy, and a significant reduction in our grain costs for the year, which dropped \$0.073 per pound and resulted in 17.2 % lower feed costs. These factors led to record earnings by our Company of \$10.80 per share, compared to \$5.68 per share for fiscal 2013.

Our operational performance relative to other companies in our industry as reported by Agristats, the benchmarking company we use to measure our relative performance in our industry, including our live production costs, processing plant costs and plant yields, ranked near the top of our industry. As a result of our superior operational results coupled with strong sales performance, our margins earned per bird sold ranked in the top 15% of our industry, allowing not only our executive officers, but all key managers in the company, to earn bonuses for their performance.

Our prepared foods division performed exceptionally well, and sold an additional 27.2 million pounds, which represented a 55% increase over fiscal 2013.

We continued to execute our internal growth strategy by bringing the construction of our new complex in Palestine, Texas near to completion. As mentioned above, once the new plant comes on line and reaches full production, it will generate a 16% increase in our production capacity in our most profitable poultry market, big bird de-boning.

In addition to executing our growth strategy, our executive officers continued to develop a long range strategy beyond the new Palestine, Texas facility that will continue to increase the Company's production capacity, creating opportunities for our employees, value for our shareholders and product for new customers.

Our CEO was pleased with the performance of the other officers in fiscal 2014. Our financial position ranks among the strongest in our industry, and outstanding margins allowed us to continue to reduce outstanding debt to just \$20 million as of the end of the 2014 fiscal year. In addition, we returned over \$30.5 million to our stockholders in regular and special dividends. We also amended our \$600 million revolving credit facility to increase the capital expenditure limitations in the agreement. Our financial performance allowed the Company to fund construction of the new Palestine, Texas complex from cash flow.

The Committee took note of a strong correlation between the Company's performance and our executive pay, with our three-year total stockholder return and the CEO's three-year realizable pay both measuring in the 80th percentile of the peer group.

Accordingly, the Committee determined to award a merit salary increase to the CEO, COO and CFO of 3%, and awarded a \$20,000 increase to the Secretary, in line with the salaries of other top managers in the Company.

The Committee also adopted Towers Watson's recommendations to make long term equity incentive awards to the Named Executive Officers at the same levels used for fiscal 2014.

Based on the assessment detailed above, the Committee approved the following compensation for the Named Executive Officers for fiscal 2015. These actions include a reaffirmation of the second phase of increases in the maximum cash bonus opportunity as recommended by Towers Watson, described above.

### Fiscal 2015 Compensation Actions

Position	Salary	Percent Increase	Number of Shares of Restricted Stock	Grant Value of Restricted Stock Awards	Target Number of Performance Shares	Grant Value of Target Performance Share Awards	Maximum Bonus Award Opportunity as a Percentage of Base Salary

COO	\$ 684,960	3%	6,000	508,620	6,000	\$ 508,620	160%
CFO	\$ 586,932	3%	4,750	402,658	4,750	\$ 402,658	140%

Elements of compensation paid for the 2014 fiscal year are set forth in the Summary Compensation Table, below.

***Director Compensation***

The Nominating and Governance Committee is charged with recommending all cash and non-cash compensation of our non-employee directors. Towers Watson reviews and reassesses our director pay periodically and makes recommendations to the Nominating and Governance Committee. Towers Watson conducted a review of director pay in October 2014, and determined that the current levels were competitive.

**Table of Contents**

In fiscal 2014, our non-employee directors received cash fees for their service on the Board and its committees as set forth below:

**Director Cash Fees**

	<b>Amount</b>
Annual Stipend	\$ 25,000
Each Board of Directors meeting attended in person	\$ 7,500
Each telephonic Board of Directors or Board committee meeting attended	\$ 1,000 <sup>(1)</sup>
Each committee meeting attended in person, not in conjunction with a Board meeting	\$ 6,000
Received annually by Audit Committee Chair	\$ 10,000
Received annually by other committee chairs	\$ 6,000
Received annually by the Lead Independent Director	\$ 20,000

(1) We also pay this fee to directors who join telephonic committee meetings by invitation, even though they are not committee members. If a telephonic committee meeting is held in conjunction with a telephonic full Board meeting, only one \$1,000 fee is paid for directors who participate in both calls.

Non-employee directors receive an annual grant of 2,300 shares of restricted stock, or 6,900 shares over the course of their three-year term. The annual grants have staggered one, two or three-year vesting periods, so that upon the expiration of a director's three-year term, he or she has 6,900 vested shares. These awards combined with the cash fees achieve an approximate 60-40 equity and cash pay mix.

The Nominating and Governance Committee recommended and the Board has approved an annual allowance of up to \$10,000 for outside directors to attend continuing education seminars related to corporate board of directors service and other topics relevant to the Company. The chairman of our Nominating and Governance Committee must pre-approve the particular seminar requested by a director for reimbursement.

Non-employee directors may participate in the Management Share Purchase Plan by reducing their director fees by up to 100% and instead receiving those amounts in the form of restricted shares of Sanderson Farms common stock. The Company matches 25% of the director's contribution to grant additional restricted shares. Restricted shares held through the plan generally vest on the third anniversary of their acquisition by the director, as long as, with respect to the matching portion, he or she has served on the Board continuously through that date.

Non-employee directors may also participate in the Company's medical plan, but they must pay 100% of the premium cost with after-tax dollars.

More information about the actual compensation paid to non-employee directors is set forth in the Director Compensation table, below.

**Compensation Committee Report**

The Compensation Committee has reviewed and discussed with management the foregoing Compensation Discussion and Analysis section of our 2015 Proxy Statement. Based on its review and discussions with management, the

Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in our Proxy Statement for 2015.

(1) The amounts for Mr. Sanderson include the aggregate incremental cost to the Company of his personal use, or use by his immediate family, of Company and charter aircraft of \$61,304 for fiscal 2012, \$61,093 for fiscal 2013 and \$132,477 for fiscal 2014. The amounts shown for Mr. Butts include \$1,390 of such costs for fiscal 2012, \$5,323 for fiscal 2013 and \$14,111 for fiscal 2014. The amounts shown for Mr. Cockrell include \$2,436 of such costs for fiscal 2014. These amounts were calculated by taking into account the direct variable operating cost of a personal trip on an hourly basis, including all costs that may vary by the hours flown, but excluding fixed costs incurred for the overall ownership and staffing of the aircraft. Variable costs include fuel and oil; travel, lodging and other expenses for the crew; the prorated amount of repairs and maintenance; catering; landing fees and permits; insurance required for a particular flight; crew overtime; telecommunication expenses; and the amount of any disallowed tax deductions associated with the personal use.

The amounts shown in this column also include the value of other travel expenses incurred by the immediate family of Messrs. Sanderson, Butts and Cockrell while accompanying them on Company business of \$1,298, \$5,599 and \$0 respectively, for fiscal 2012, \$1,865, \$4,200 and \$0, respectively, for fiscal 2013 and \$3,874, \$6,345 and \$909,

- (1) The estimated payments shown reflect the minimum, mid-point and maximum amounts that could have been earned under our fiscal 2014 Bonus Award Program. For a discussion of how bonus awards are determined, see CD&A section, above.
- (2) The estimated payouts shown reflect the number of shares of stock that potentially could be paid out for performance shares granted in fiscal 2014 under our Stock Incentive Plan upon the achievement of specified performance criteria at the end of the performance period.
- (3) Consists of shares of restricted stock granted pursuant to the matching contribution provisions of our Management Share Purchase Plan. Participants under the plan purchase restricted shares of Company stock on the last business day of each calendar quarter with forgone salary, or on our annual bonus payment date with forgone bonus amounts, as described in the CD&A section, above. We match 25% of the participant's contribution in additional restricted shares on each purchase date. In fiscal 2014, Mr. Rigney purchased 41 shares under the plan that are not reflected in the table above that had an average grant date fair value of \$87.19 per share.

- (4) Reflects the grant date fair value of each equity award computed under FAS 123R and FASB ASC Topic 718. Grant date values for performance shares are based on probable outcome of the performance conditions as of the grant date.

**Table of Contents**

**Discussion of Summary Compensation and Grants of Plan-Based Awards Table**

Performance share awards granted for the 2014 fiscal year are subject to a two-year performance period and an additional one-year vesting period during which the recipient must remain continuously employed by us. The number of shares actually issued depends upon our achieving certain prescribed levels of return on equity and return on sales, as described above in the CD&A section.

Shares of restricted stock granted under our restricted stock program vest generally on the fourth anniversary of the award, as long as the holder remains continuously employed by us during the restricted period. Restricted stock granted for fiscal 2014 vests on November 1, 2017.

Shares of restricted stock granted as matching contributions under our Management Share Purchase Plan are subject to a three-year vesting period starting on the date they are acquired by the participant. The participant must remain continuously employed by us during the vesting period.

In 2009, we entered into employment agreements with the CEO, the COO and the CFO. The term of each agreement began September 15, 2009 and ends when the officer's employment terminates under the provisions of the agreement. Each agreement provides for the officer's fiscal 2009 salary and bonus to be paid in accordance with the levels and bonus program that we previously disclosed in our definitive proxy statement for our 2009 annual meeting of stockholders. The officers' compensation is reassessed annually.

The agreements provide for a severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause or

the officers resign for good reason.

Cause means, among other things, conviction of certain felonies, willful misconduct by the officer, failure or refusal by the officer to comply with our policies or a material breach by the officer of the employment agreement. Good reason means, among other things, a material breach of the agreement by us, a reduction of the officer's base salary or bonus that is not part of a reduction program affecting all senior executives generally, the relocation of the officer's principal place of employment by more than 40 miles, or after a change in control, the alteration of the officer's position that results in a material diminution of his position.

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

In addition, the agreement provides, in the case of the officer's death, for the continuation of his annual salary payments for one year from the date of his death. The agreements for Messrs. Butts and Cockrell also designate them as participants in our Supplemental Disability Plan.

The agreements prohibit the officers from disclosing confidential information about us during and after their employment, and prohibit the officers from engaging in certain competitive activity during their employment and for two years after the termination of their employment for any reason other than poor performance.

**Table of Contents**

See the Potential Payments Upon Termination or Change-in-Control section, below, for a discussion of the impact of a change in control of our Company and certain other events, including competitive activity, on an officer's unearned performance shares or restricted stock. Dividends are paid at rates applicable to all our stockholders on performance shares once they are paid out. Dividends (at normal rates) are paid on shares of restricted stock as soon as the shares are issued to the officer.

Amounts that could have been earned for fiscal 2014 under our Bonus Award Program were determined by reference to our earnings per share and operational performance versus our peers as described in the CD&A section, above. Unless severance is payable under the provisions of the employment agreements described above, a participant must have been employed in a designated position at Sanderson Farms for nine months before the end of the fiscal year, and must have been employed on October 31 of the applicable fiscal year, to receive a bonus. However, if a Bonus Award Program participant dies, becomes disabled or retires before the end of the fiscal year, and if the participant had been employed at Sanderson Farms in a designated position for at least nine months, he or she will still receive a bonus award for the fiscal year (assuming the performance criteria are met). See the Potential Payments Upon Termination or Change-in-Control section, below, for a discussion of the impact of certain events on a participant's annual bonus award.

For fiscal 2014, salary accounted for the following percentages of each officer's total compensation:

<b>Name</b>	<b>Salary as a Percentage of Total Compensation</b>
Mr. Sanderson	23%
Mr. Butts	31%
Mr. Cockrell	33%
Mr. Rigney	53%

At the time the Board of Directors adopted the Stock Incentive Plan in February 2005, the Company had not made any awards under the Stock Option Plan, or any other long-term incentive or equity-based awards, for almost three years. Therefore, in March 2005 on the recommendation of the Committee, the Board made extraordinary grants of restricted stock to the Named Executive Officers to bring their long-term incentive levels in line with market standards. The amounts granted were based on competitive annual long-term values as seen in published surveys, and adjusted to reflect a two-year period. This special grant vests, in general, on March 3, 2015 (the tenth anniversary of the award) as long as the holder remains continuously employed by us during the restricted period. Subsequent grants of restricted stock usually vest on the fourth anniversary of the award, as long as the holder remains continuously employed by us during the restricted period.

The restricted shares awarded for fiscal 2011, following approval by our stockholders in February 2011 of an increase in the number of shares issuable under our Stock Incentive Plan as restricted stock, vested on November 1, 2014.

The performance periods for performance shares end on the dates shown below.

\* These shares are subject to an additional one-year vesting period after the expiration of the performance period before they are issued.

The performance shares granted on November 1, 2012 are shown in the table at the level at which the Committee determined they were actually earned. In accordance with Instruction 3 to Item 402(f)(2) of SEC Regulation S-K, the performance shares granted on November 1, 2013 are shown in the table at the maximum level, based on our actual performance in fiscal 2014, the first year of the performance period.

(3) Values of equity awards are based on our closing stock price on the Nasdaq Stock Market of \$83.98 per share on October 31, 2014.

**Table of Contents**

Restricted shares held in the Management Share Purchase Plan are purchased by the participant on the last business day of each calendar quarter with forgone salary. A participant may also elect to reduce his or her bonus by a certain percentage and instead receive that amount in restricted shares purchased through the plan on the bonus payment date. We match 25% of the participant's contribution in additional restricted shares that we issue simultaneously with the purchased shares. Each share of restricted stock held in the plan vests fully on the third anniversary of its acquisition by the participant, subject to certain exceptions that are described below under Potential Payments Upon Termination or Change-in-Control.

**Potential Payments Upon Termination or Change-in-Control**

In fiscal 2009, we entered into employment agreements with the CEO, COO and CFO. We have no other employment agreements with any other employees of our Company. However, our annual cash bonus and Stock Incentive Plan awards provide for accelerated payments in the circumstances described below, and we have company policies that provide for minimal severance payments for all our salaried employees generally. Except as described below, the Named Executive Officers receive no payments upon the termination of their employment or a change in control of Sanderson Farms that are not received by all salaried employees generally.

***Employment Agreements***

The term of each of our agreements with the CEO, COO and CFO began on September 15, 2009 and ends when the officer's employment terminates under the provisions of the agreement. Each agreement provides for the officer's fiscal 2009 salary and bonus to be paid in accordance with the levels and bonus program that we previously disclosed in our definitive proxy statement for our 2009 annual meeting of stockholders. The officers' compensation is reassessed

annually.

The agreements provide for a lump sum severance payment to be paid to the officers if:

before a change in control of our Company, the officers are terminated without cause, except in the case of poor performance;

at or after a change in control, the officers are terminated without cause or

the officers resign for good reason.

Cause means, among other things, conviction of certain felonies, willful misconduct by the officer, failure or refusal by the officer to comply with our policies or a material breach by the officer of the employment agreement. Good reason means, among other things, a material breach of the agreement by us, a reduction of the officer's base salary or bonus that is not part of a reduction program affecting all senior executives generally, the relocation of the officer's principal place of employment by more than 40 miles, or after a change in control, the alteration of the officer's position that results in a material diminution of his position.

## **Table of Contents**

The amount of the severance payments will be, in the case of Mr. Sanderson, three times, and in the case of Messrs. Butts and Cockrell, two times, the following amounts:

the officer's annual base salary in effect at the time of his termination, plus

fifty percent of the maximum bonus available to the executive under the Company's bonus program in effect for the year of termination.

If any severance payments are due, the officer is also entitled to the continuation of medical benefits that the officer would otherwise be eligible to receive as an active employee of the Company for 24 months or, if earlier, until such time as the officer becomes eligible for substantially similar benefits from a subsequent employer.

In addition, the agreement provides, in the case of the officer's death, for the continuation of his annual salary payments for one year from the date of his death according to the Company's regular payroll schedule.

The agreements prohibit the officers from disclosing confidential information about us during and after their employment, prohibit the officers from engaging in certain competitive activity with us during their employment and for two years after the termination of their employment for any reason other than poor performance and contain a mutual non-disparagement clause. The officers are also prohibited from soliciting the Company's customers and employees during their employment and for the two years after the termination of their employment for any reason.

If the officers breach the foregoing provisions, the agreements provide that they must return any portion of the severance payments we have already paid them and their entitlement to continued medical benefits ceases. We are also entitled to pursue other equitable and legal remedies such as restraining orders or damages.

### ***Annual Cash Bonus Awards***

An employee must be employed with the Company through October 31 to earn any bonus that may be payable under the Bonus Award Program for that fiscal year. However, if a Bonus Award Program participant dies, becomes disabled or retires before that time, and if the participant had been employed in a designated position at Sanderson Farms for at least nine months, he or she will still receive a cash bonus award for the fiscal year (assuming the performance criteria are met). The participant's base salary during the portion of the fiscal year in which he or she was employed in the designated position is used to calculate the amount of the bonus award.

### ***Restricted Stock***

Restricted stock with a 10-year vesting period

If a change in control of our Company occurs, all unvested shares of restricted stock become fully vested. In August 2009, the Committee amended these awards to provide that they vest fully if a holder of restricted stock terminates employment with Sanderson Farms because of his death or disability or after attaining eligibility for retirement, regardless of when those events may occur. Previously, vesting of the awards under those circumstances was only permitted when death, disability or retirement occurred after the fifth anniversary of the grant.

Restricted stock with a four-year vesting period

If a change in control of our Company occurs before the end of the restricted period, all shares of restricted stock become fully vested. For outstanding restricted stock granted through the fiscal 2013 awards, if a holder dies, becomes disabled or ends employment after attaining retirement eligibility during the restricted period, a pro rata percentage of the shares will immediately vest based on the number of years of the restricted period that have passed before the triggering event occurred, and the unvested portion is forfeited. Beginning with our fiscal 2014 awards, the Committee determined to provide that all unvested shares will vest fully in the event of the holder's death or disability, but they will continue to vest on a pro rata basis in the event a holder terminates employment after eligibility for retirement.

***Shares Held in the Management Stock Purchase Plan***

If an employee dies, becomes disabled or terminates employment after attaining eligibility for retirement, or if there is a change in control of Sanderson Farms, in each case before the end of the restricted period, all unvested shares of restricted stock held through the plan become fully vested. If an employee's employment terminates for any other reason, then any unvested shares we granted to the employee through matching contributions are forfeited and dividends paid on those shares must be returned, and we have the right to repurchase all shares that the employee purchased through the plan with salary or bonus at the price the employee paid for them, less the amount of dividends paid. If we do not exercise that right, the purchased shares will vest on the third anniversary of their acquisition.

**Table of Contents*****Performance Shares***

If a holder of unpaid performance shares dies, becomes disabled or terminates employment after attaining eligibility for retirement, or if there is a change in control of Sanderson Farms, the holder is entitled to receive a pro rata portion of the number of performance shares he would have been entitled to in proportion to the number of months he was employed during the performance period, assuming the performance criteria are met.

***Anti-Competition Provisions***

If the Board of Directors determines that a holder of restricted stock or performance shares has engaged in certain competitive activity against us while employed by us or during the two years after the holder's voluntary termination or termination by us for cause, then he or she forfeits all unvested shares of restricted stock and all unissued performance shares. If restricted shares have already vested or performance shares have been issued, the holder must repay us the fair market value of the shares on their grant or issue date, respectively. In the case of the Management Share Purchase Plan, unvested shares of matching stock are forfeited and dividends paid on those shares must be returned, and we have the right to repurchase all shares that the employee purchased through the plan with salary or bonus at the price the employee paid for them, less the amount of dividends paid. If Company matching shares have already vested, the holder must repay us the fair market value of the shares on the date they were issued and any dividends paid.

***Company Severance Policy***

We pay severance to all our salaried employees generally upon their termination of employment, except in cases of retirement, death or disability. We pay up to two weeks of severance to employees who resign after at least one year of service. If an employee is dismissed without cause, we pay two weeks of severance, plus one additional week for every year of the employee's service, up to three months.

The following tables show the payments that the Named Executive Officers would be entitled to in the event of (a) a change in control of Sanderson Farms, (b) termination without cause or for good reason, (c) retirement, (d) disability and (e) death, in each case assuming such event occurred on October 31, 2014, the last business day of our 2014 fiscal year, and based on the closing market price of our common stock on that day. The amounts shown do not include payments that would be payable to all salaried employees generally. We have not included the value of our fiscal year 2012 performance shares, because those shares actually vested and were required to be paid out on October 31, 2014, regardless of whether a triggering event listed above occurred. We based the values of our fiscal 2013 performance shares on the level at which the Committee actually determined those shares have been earned. For our fiscal 2014 performance shares, we based the values on management's current view that it cannot determine that it is probable that we will achieve the minimum level of ROE and ROS for the grant, such that none of these shares would be earned.

**Compensation and Risk Management**

In 2010, the Compensation Committee engaged Towers Watson to formally assess the level of risk arising from our compensation policies and practices. The Committee believes that Towers Watson was best equipped to perform this assessment because of the depth of its understanding and experience with the current executive compensation landscape for public companies.

Towers Watson reviewed our annual Bonus Award Program and Stock Incentive Plan and the following five factors related to our compensation process and design:

The extent of oversight of our pay plans by top management and the Compensation Committee.

Whether the roles of management and the Committee in overseeing the alignment of our pay plans with our business goals and risk tolerance are reasonable and clearly defined.

The extent of the balance in our plans between fixed and variable pay, cash and equity, short and long-term incentives, and overall company versus individual performance goals.

The presence of red flags in our plan design, such as steep incentive curves, unreasonable goals or thresholds, uncapped payouts, awards based solely on formulas, misalignment in the timing of payouts or undue focus on any one element of pay mix; compared with risk-mitigating features, such as exercise of the Committee's discretion, clawback policies and stock ownership requirements.

Whether performance criteria reflect appropriate risk and the use of capital, quality and sustainability of results and employee influence on meeting performance goals.

Based on this framework, Towers Watson concluded that our pay plans represent a low level of risk to our Company. In particular, they noted the following:

They consider that the Bonus Award Program has appropriate performance metrics and reasonable levels of potential payouts.

Awards under the bonus plan are not paid out until our independent audit is complete, thus providing a safeguard from manipulation.

The balance in our long-term incentive plan between performance-based pay and time-based restricted stock mitigates the potential for undue risk-taking, and the use of earnings per share and return on equity metrics focus the plan on profitable growth and efficient use of capital.

**Table of Contents**

Our stock ownership guidelines are also a risk-mitigating factor.

Change in control benefits for our three senior officers assist with executive retention and mitigate the risk of a conflict of interest in the context of a potential acquisition of our Company.

The Board and the Committee regularly review and address our financial performance.

Based on Towers Watson's assessment and the Committee's independent analysis, the Committee has concluded that there are no risks arising from our compensation policies and practices that are reasonably likely to have a material adverse effect on us. In reaching this conclusion, the Committee has also considered the fact that our business is primarily driven by the performance of the commodities markets, specifically the markets for fresh chicken, corn and soybean meal. These markets are external to our business and therefore the Committee does not believe that our performance-based compensation promotes excessive or inappropriate risk-taking by our management.

In addition, in 2010 the Board adopted a policy under which it has the discretion to, among other things, recoup the compensation of our senior management if we have a financial restatement or if the manager in question has engaged in misconduct adversely affecting the Company. This should further help to mitigate any risk associated with our compensation programs.

**PROPOSAL NO. 2**

**ADVISORY VOTE ON EXECUTIVE COMPENSATION**

The Dodd-Frank Wall Street Reform and Consumer Protection Act, enacted in 2010, requires that at least every three years, our stockholders have a non-binding advisory vote on our executive compensation, also known as Say on Pay. Sanderson Farms' executive compensation program received substantial stockholder support in our Say on Pay votes held at our 2011 and 2014 Annual Meetings, and was approved at each meeting, on an advisory basis, by 99 percent of the votes cast. Our Compensation Committee and Board of Directors believe these votes reflected our stockholders' strong approval of the compensation decisions made by the Committee for our Named Executive Officers.

In 2014, our stockholders voted on an advisory basis, and our Board of Directors determined, to hold a Say on Pay vote every year.

Management is committed to engagement and open dialog with our shareholders and other members of the investment community concerning all aspects of the Company's business, including our pay practices. The feedback we have received concerning our compensation programs and proxy disclosures has been positive and, following the overwhelming approval by our shareholders of the compensation decisions made by the Committee, the Committee has subsequently reaffirmed the structure of our executive compensation programs.

Executive compensation is an important matter both for us and for our stockholders. The core of Sanderson Farms' executive compensation philosophy and practice continues to be to pay for performance. Our executive officers are compensated in a manner consistent with our strategy, sound corporate governance principles, and stockholder interests and concerns. We believe our compensation program is strongly aligned with the long-term interests of our stockholders. We urge you to read the Compensation Discussion and Analysis section of this proxy statement for additional details on our executive compensation, including our compensation philosophy and objectives and the 2014 compensation of the Named Executive Officers.

We are asking stockholders to vote on the following proposal, which gives you the opportunity to endorse or not endorse our pay program for our Named Executive Officers by voting for or against the following resolution. This resolution is required pursuant to Section 14A of the Securities Exchange Act of 1934, as amended.

**RESOLVED**, that the stockholders of Sanderson Farms, Inc. (the Company) approve, on an advisory basis, the compensation of the Company's Named Executive Officers, as disclosed pursuant to Item 402 of Securities and Exchange Commission Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables and narrative disclosures.

As an advisory vote, this proposal is non-binding. Although the vote is non-binding, the Board of Directors and the Compensation Committee value the opinions of our stockholders, and will consider the outcome of the vote when making future compensation decisions for our Named Executive Officers.

For this proposal to be adopted, more votes must be cast in favor of it than votes cast against it. Abstentions and broker non-votes will not be counted as votes cast FOR or AGAINST the proposal.

**The Board of Directors recommends that the stockholders vote FOR the proposal to approve the compensation of Sanderson Farms' Named Executive Officers as disclosed in its proxy statement relating to its 2015 Annual Meeting of Stockholders pursuant to the SEC's compensation disclosure rules.**

Audit-Related Fees include fees for the audit of the Company's benefit plans and accounting consultations related to financial accounting and reporting standards, and Tax Fees consists of amounts paid for tax compliance, advice and planning, including advice related to Hurricane Katrina related tax credits and the preparation and filing of required federal and state income and other tax forms. The Audit Committee has considered whether the provision of services by Ernst & Young LLP for the Company other than audit services is compatible with maintaining Ernst & Young LLP's independence, and has concluded that it is compatible.

The Audit Committee preapproves all auditing services and permitted non-audit services (including the fees and terms of those services) to be performed for the Company by its independent auditor prior to engagement, subject to the de minimus exceptions for non-audit services permitted by the Securities Exchange Act of 1934 which are approved by the Audit Committee prior to the completion of the audit. The Audit Committee may form and delegate authority to subcommittees of one or more Audit Committee members, including authority to grant preapprovals of audit and non-audit services, provided that any decision of that subcommittee to grant preapproval is presented to the full Audit Committee at its next scheduled meeting. For fiscal 2014, the Audit Committee pre-approved all non-audit services performed by the independent auditors.

The Audit Committee of the Company's Board of Directors has selected the firm of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2015. Stockholder approval and ratification of

this selection is not required by law or by the By-Laws of the Company. Nevertheless, the Board has chosen to submit it to the stockholders for their approval and ratification as a matter of good corporate practice. Of the shares represented and entitled to vote at the annual meeting (whether in person or by proxy), more votes must be cast in favor of than votes cast against the proposal to ratify and approve the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2015, in order for this proposal to be adopted. The Proxyholders named in the accompanying proxy card will vote FOR the foregoing proposal unless otherwise directed therein. Abstentions will not be counted either as a vote FOR or as a vote AGAINST the proposal to ratify and approve the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2015. If more votes are cast AGAINST this proposal than FOR, the Board of Directors will take such decision into consideration in selecting independent auditors for the Company.

**The Board of Directors recommends a vote FOR the approval and ratification of the selection of Ernst & Young LLP as the Company's independent auditors for the fiscal year ending October 31, 2015.**
