New York	13.9%
Massachusetts	11.3%
Others, representing less than 10% individually	74.8%

The Trust invests primarily in debt securities issued by municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at February 28, 2019, 15.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution or financial guaranty assurance agency ranged from 0.1% to 7.1% of total investments.

- (1) Security represents the municipal bond held by a trust that issues residual interest bonds.
- (2) Amount is less than 0.05%.
- (3) Represents a payment-in-kind security which may pay interest in additional principal at the issuer's discretion.
- (4) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended. These securities may be sold in certain transactions in reliance on an exemption from registration (normally to qualified institutional buyers). At February 28, 2019, the aggregate value of these securities is \$26,837,407 or 5.2% of the Trust's net assets applicable to common shares.
- (5) Variable rate demand obligation that may be tendered at par on any day for payment the lesser of 5 business days or 7 calendar days. The stated interest rate, which resets weekly, represents the rate in effect at February 28, 2019.
- (6) Issuer is in default with respect to interest and/or principal payments.
- (7) Security is in default and making only partial interest payments.
- (8) Security was received in connection with the restructuring of an insured zero-coupon bond issued by the Puerto Rico Sales Tax Financing Corporation (COFINA) (the Original Bond). The notional amount of the combined taxable and tax-exempt trust units reflects the accreted amount of the Original Bond from original issuance through the restructuring date. Each trust certificate represents an ownership interest in various coupon paying and zero-coupon COFINA bonds and potential insurance payments pursuant to an insurance policy with National Public Finance Guarantee Corporation. The trust units have no stated coupon interest rate but accrete income to maturity at the annual rate of approximately 5.04%, the same rate as the Original Bond.

Under generally accepted accounting principles for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

In cases where the inputs used to measure fair value fall in different levels of the fair value hierarchy, the level disclosed is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At February 28, 2019, the hierarchy of inputs used in valuing the Trust's investments, which are carried at value, were as follows:

Asset Description	Level 1	Level 2	Level 3	Total
Tax-Exempt Municipal Securities	\$	\$ 790,543,842	\$	\$ 790,543,842
Taxable Municipal Securities		21,819,353		21,819,353
Trust Units		8,484,289		8,484,289
Corporate Bonds & Notes		4,359,732		4,359,732
Total Investments	\$	\$ 825,207,216	\$	\$ 825,207,216
