On January 13, 2004, Newgold, Inc. (the "Company") announced that it had entered into a letter of intent to acquire two mining leasehold interests known as the Red Caps Project and the BXA Project. Both properties are located in Lander County, Nevada. The Company will enter into a joint venture arrangement with ASDi LLC, an entity owned by A. Scott Dockter, the CEO of Newgold. The agreement will require the Company to make annual expenditures of \$250,000, \$500,000 and \$850,000 over the next three years, respectively, on these leaseholds. When each annual expenditure requirement is satisfied, Newgold will earn a 22.22% interest in the joint venture. Newgold will be the operator of the joint venture. The letter of intent contemplates a definitive agreement being entered into by March 31, 2005.

The Company also announced that it is in negotiations to acquire a substantial interest in an industrial mineral mining project located in Amador County, California. The property consists of approximately 1200 acres containing aggregate, clay, silica sands and coal. The Company hopes to negotiate final terms of this acquisition by March 31, 2005.
