MEDIA RELEASE
Mining and Processing Suspended at All South
African Operations
Johannesburg, Friday, January 25, 2008: Gold Fields Limited ("Gold
Fields") (NYSE, JSE, DIFX: GFI) reports all mining activities have been
suspended at its South African Operations.
```

This is due to Eskom requesting their Key Industrial Consumers (KIC) of which Gold Fields is one, to reduce its consumption to the minimum load possible. This communication was received yesterday evening.

A decision was taken to put no shifts down last night and no shifts were put down this morning. Eskom has indicated that "KIC loads will be reduced to 'survival levels' or switched out totally for the next two to four weeks."

"This will have a serious effect on the South African operations and will negatively affect our gold production. The South African Operations produce approximately 7000 ounces per day. We are looking at ways to continue operations and will work closely with Eskom to try and resolve this problem" said Ian Cockerill, Chief Executive Officer of Gold Fields.
