News Release

SHAREHOLDER MEETING AND RENEWAL OF CAUTIONARY ANNOUNCEMENT

At the annual general meeting held on 7 May 2010, AngloGold Ashanti shareholders approved with a 94.3% majority, a resolution giving authority to the directors of AngloGold Ashanti to issue convertible bonds. On 15 September 2010, AngloGold Ashanti announced the pricing of the US\$789,086,750 6.00% mandatory convertible subordinated bonds due 2013 (the “Mandatory Convertible Bonds”) offering (the “Offering”) by its wholly-owned subsidiary AngloGold Ashanti Holdings Finance plc.

Given that the specific terms of the Mandatory Convertible Bonds were not known at the time of the launch of the Offering, the directors of AngloGold Ashanti will now seek a specific authority and approval from shareholders for the directors of AngloGold Ashanti to allot and issue up to 18,140,000 ordinary shares of R0.25 each in the authorised but unissued share capital of the Company for purposes of the conversion of the Mandatory Convertible Bonds. The specific authority will enable AngloGold Ashanti to allot and issue AngloGold Ashanti ordinary shares underlying the American Depositary Shares (“ADSs”) deliverable upon conversion of the Mandatory Convertible Bonds.

Prior to the grant of the specific authority, upon conversion, the Mandatory Convertible Bonds are subject to automatic cash settlement. Thereafter, the automatic cash settlement provisions will cease to apply and the Mandatory Convertible Bonds will be convertible into AngloGold Ashanti ADSs. Gross proceeds of US\$789,086,750 were raised upon the issue of the Mandatory Convertible Bonds. The Mandatory Convertible Bonds, subject to the approval of the specific authority, are initially convertible into a maximum of 18,140,000 AngloGold Ashanti ADSs at the initial price of US\$43.50 and are initially convertible into a minimum of approximately 14,511,937 AngloGold Ashanti ADSs at the threshold appreciation price of approximately US\$54.375 (representing a premium of 25% over the initial issue price of US\$43.50). This means that, subject to the approval of the specific authority, should the price of AngloGold Ashanti ordinary shares increase such that the AngloGold Ashanti ADS price is at or above US\$54.375 at maturity of the Mandatory Convertible Bonds, AngloGold Ashanti will be required to allot and issue approximately 14,511,937 AngloGold Ashanti ordinary shares (which would represent the same number of ADSs), which is 3,628,063 AngloGold Ashanti ordinary shares less than the maximum number of 18,140,000 AngloGold Ashanti ordinary shares for which the approval to allot and issue is sought under the specific authority. Furthermore, should the price of AngloGold Ashanti ordinary shares fall such that the AngloGold Ashanti ADS price is at or below the initial price of US\$43.50, AngloGold Ashanti will only be required to allot and issue a maximum number of 18,140,000 AngloGold Ashanti ordinary shares (which would represent the same number of ADSs).

A circular, convening a general meeting of shareholders regarding the granting of the specific authority to be held on Tuesday, 26 October 2010 at 10:00 SA time at the Auditorium, 76 Jeppe Street, Newtown, Johannesburg, South Africa will be posted to shareholders today, Thursday 23 September 2010.

Pro forma financial effects of Mandatory Convertible Bonds

The unaudited *pro forma* financial information of AngloGold Ashanti was prepared in order to illustrate the effects of the issue and conversion of the Mandatory Convertible Bonds, assuming that the issue and conversion of the Mandatory Convertible Bonds took place on 1 January 2010 for purposes of the income statement and on 30 June 2010 for purposes of the balance sheet. The *pro forma* financial information below assumes that the Mandatory Convertible Bonds are converted for AngloGold Ashanti ADSs at the 0.91954 Conversion Ratio, which is equivalent to a convertible price of approximately US\$54.375 per AngloGold Ashanti ADS. The information has been prepared for illustrative purposes only and may not, because of its nature (including the assumption of the initial price, conversion ratio and conversion price) give a true picture of the financial position of AngloGold Ashanti. It does not purport to be indicative of what the financial results would have been if the conversion of the Mandatory Convertible Bonds had actually occurred at an earlier date. The *pro forma* financial information is the responsibility of the directors.

The *pro forma* historical financial effects of the issue and conversion of the Mandatory Convertible Bonds are as follows:

**For the six months ended 30 June
2010 (per AngloGold Ashanti
ordinary share)**

**Before the
Mandatory
Convertible
Bonds Issue
After
Conversion of

380,270,792 4%

The negative swings in basic loss per share, diluted loss per share and headline loss per share are primarily due to the realisation of non-hedge derivatives losses.

Notes:

- (1) *Net asset value per share is computed by dividing total equity of \$2,959 million before conversion (\$3,748 million after conversion) by the number of shares in issue being 365,758,792 shares before conversion (380,270,792 shares after conversion). Net tangible asset value per share is computed by dividing total equity (excluding intangible assets) of \$2,792 million before conversion (\$3,581 million after conversion) by the number of shares in issue being 365,758,792 shares before conversion (380,270,792 after conversion).*
- (2) *Basic loss per share is computed by dividing net loss by the weighted average number of shares in issue.*
- (3) *The diluted loss per share is computed by dividing net loss by the weighted average diluted number of shares in issue.*
- (4) *Headline loss removes items of a capital nature from the calculation of loss per share. Headline loss per share is computed by dividing headline loss by the weighted average number of shares in issue.*
- (5) *The weighted average number of AngloGold Ashanti ordinary shares in issue was 366,961,310 for the six months ended 30 June 2010 and as a result of the issuance of 14,512,000 AngloGold Ashanti ordinary shares at a price of US\$54.375, the weighted average number of AngloGold Ashanti ordinary shares in issue for that period would have been 381,473,310.*
- (6) *The weighted average diluted number of AngloGold Ashanti ordinary shares in issue for the six months ended*

30 June

2010 does not assume the effect of 971,993 shares issuable upon the exercise of the share incentive options as well as

15,384,615 shares issuable upon the conversion of the convertible bond issued in May 2009, as their effects are anti-dilutive.

(7) The number of AngloGold Ashanti ordinary shares in issue as at 30 June 2010 was 365,758,792 and, as a result of the

issue, the number of AngloGold Ashanti ordinary shares in issue as at that date would have been 380,270,792.

Renewal of cautionary announcement

The outcome of the shareholder's meeting may have a material impact on AngloGold securities. AngloGold Ashanti shareholders are therefore advised to exercise caution when dealing in AngloGold Ashanti's securities until a further announcement is made on the outcome of the shareholders' meeting.

This announcement shall not constitute an offer to sell or the solicitation of an offer to buy securities, nor shall there be any sale of the securities described herein, in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of such jurisdiction.

This announcement includes "forward-looking information" within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are, or may be deemed to be, forward-looking statements, including, without limitation those concerning: AngloGold Ashanti's strategy to reduce its gold hedging positions including the extent and effect of the reduction of its gold hedging positions; the economic outlook for the gold mining industry; expectations regarding gold prices, production, cash costs and other operating results; growth prospects and outlook of AngloGold Ashanti's operations, individually or in the aggregate, including the completion and commencement of commercial operations at AngloGold Ashanti's exploration and production projects; the completion of announced mergers and acquisitions transactions; AngloGold Ashanti's liquidity and capital resources and expenditure; the outcome and consequences of any pending litigation proceedings; and AngloGold Ashanti's Project One performance targets. These forward-looking statements are not based on historical facts, but rather reflect AngloGold Ashanti's current expectations concerning future results and events and generally may be identified by the use of forward-looking words or phrases such as "believe", "aim", "expect", "anticipate", "intend", "foresee", "forecast", "likely", "should", "planned", "may", "estimated", "potential" or other similar words and phrases. Similarly, statements that describe AngloGold Ashanti's objectives, plans or goals are or may be forward-looking statements.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the AngloGold Ashanti's actual results, performance or achievements to differ materially from the anticipated results, performance or achievements expressed or implied by these forward-looking statements. Although AngloGold Ashanti believes that the expectations reflected in these forward-looking statements are reasonable, no assurance can be given that such expectations will prove to have been correct.

For a discussion of such risk factors, shareholders should refer to the annual report on Form 20-F for the year ended 31 December 2009, which was filed with the Securities and Exchange Commission ("SEC") on 19 April 2010 and amended on 18 May 2010 and the prospectus supplements filed in connection with the Offering on 15 September 2010. These factors are not necessarily all of the important factors that could cause AngloGold Ashanti's actual results to differ materially from those expressed in any forward-looking statements. Other unknown or unpredictable factors could also have material adverse effects on future results.
