## **Report of independent auditors on the Review of Quarterly Information**

To the Board of Directors and Shareholders

Braskem S.A.

### **Introduction**

We have reviewed the accompanying parent company and consolidated interim accounting information of Braskem S.A., included in the Quarterly Information Form (ITR) for the quarter ended March 31, 2014, comprising the balance sheet as at that date and the statements of operations, comprehensive income, changes in equity and cash flows for the quarter then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21 - Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

### **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and

consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion on the parent**

**company interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

---

**Conclusion on the consolidated**

**interim information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the CVM.

**Other matters**

**Statements of value added**

We have also reviewed the parent company and consolidated statements of value added for the quarter ended March 31, 2014. These statements are the responsibility of the Company's management, and are required to be presented in accordance with standards issued by the CVM applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which do not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been prepared, in all material respects, in a manner consistent with the parent company and consolidated interim accounting information taken as a whole.

**14.3. Sensitivity analysis**

Financial instruments, including derivatives, may be subject to changes in their fair value as a result of the variation in commodity prices, foreign exchange rates, interest rates, shares and share indexes, price indexes and other variables. The sensitivity of the derivative and non-derivative financial instruments to these variables are presented below:

**(a) Selection of risks**

On March 31, 2014, the main risks that can affect the value of Braskem's financial instruments are:

- Brazilian real/U.S. dollar exchange rate;
- U.S. dollar/Mexican peso exchange rate;
- U.S. dollar/Euro exchange rate;
- Libor floating interest rate;
- CDI interest rate; and
- TJLP interest rate.

For the purposes of the risk sensitivity analysis, Braskem presents the exposures to currencies as if they were independent, that is, without reflecting in the exposure to a foreign exchange rate the risks of the variation in other foreign exchange rates that could be directly influenced by it.

**Braskem S.A.****Notes to the financial statements****at March 31, 2014****All amounts in thousands of reais, except where stated otherwise****(b) Selection of scenarios****(b.1) Probable scenario**

The *Market Readout* published by the Central Bank of Brazil on March 28, 2014 was used to create the probable scenario for the U.S. dollar/Brazilian real exchange rate and the CDI interest rate, using the reference date of March 31, 2014. The *Market Readout* presents a consensus of market expectations based on a survey of the forecasts made by various financial and non-financial institutions.

The *Market Readout* does not publish forecasts for the interest rates Libor and TJLP. Therefore, Braskem considered the expectations for the CDI interest rate for determining the probable scenario for those rates, given their correspondence. The probable scenario for the TJLP is an increase of 0.5% from the current rate of 5%, in line with the size of the government's most recent decisions to increase or decrease the rate, and accompanying the forecast for the cumulative increase in the CDI rate by end-2014 of 0.50%.

**(b.2) Possible and extreme adverse scenarios**

The sensitivity values in the table below are the changes in the value of the financial instruments in each scenario and show the changes in future cash flows:

**(a) Petros Plans**

In August and October 2012, the Brazilian Private Pension Plan Superintendence (PREVIC - Superintendência Nacional de Previdência Complementar) approved the withdrawal of the sponsorship by Braskem of these plans, which required the payment of the mathematical reserves of the respective beneficiaries and in turn the monetization

of the assets of the plans managed by Petros. In view of the unlikelihood of said monetization after almost two years since the approval by PREVIC, Management of the Company had no other option but to start all necessary procedures to resume the sponsorship of the plans. This decision was formalized through a legal injunction dated April 3 2014 that had the main goal of safeguarding Braskem's rights. Management expects that during the next months, the conditions for the resumption of sponsorship of the plan, including the preparation of the actuarial reports, would be established as a result of the discussions that will necessarily be conducted with PREVIC and Petros. The provision booked by the Company, measured based on the criteria that has been adopted since the decision to withdraw sponsorship, was increased by the estimate of the past service cost (Note 23) and was reclassified to non-current liabilities.

## **19. Contingencies**

Braskem has contingent liabilities related to lawsuits and administrative proceedings arising from the normal course of its business, of a labor and social security, tax, civil and corporate nature, which involve risks of losses that are classified by the Company's management as possible.

A detailed presentation of the Company's contingent liabilities was presented in the 2013 annual financial statements of the Company, in Note 28.
