EXPLANATORY NOTE

This Amendment No. 1 on Form 10-Q/A (this "Amendment") to the Quarterly Report on Form 10-Q of Tompkins Financial Corporation (the "Company") for the quarter ended March 31, 2014, originally filed with the U.S. Securities and Exchange Commission (the "SEC") on May 12, 2014 (the "Original Filing"), is being filed solely for the purpose of correcting three typographical errors appearing in Item 1, Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements on page 16 of the Original Filing. These errors are related to the outstanding principal balance and the carrying amount of the Company's loans acquired in the VIST Bank acquisition. At December 31, 2013, the outstanding principal balance of Acquired Credit Impaired Loans was \$62,146, not \$59,979; the carrying amount of Acquired Non-Credit Impaired Loans was \$620,231, not \$59,979; and the outstanding principal balance of Total Acquired Loans was \$692,746, not \$736,816.

These disclosures appeared in Note 5 of the Notes to Unaudited Condensed Consolidated Financial Statements, which has been corrected and restated below in its entirety:

Disposals (loans paid in full)	(211)
Reclassifications to/from nonaccretable difference ¹	752
Other changes in expected cash flows ²	0
Balance at March 31, 2014	\$10,231

¹ Results in increased interest income as a prospective yield adjustment over the remaining life of the loans, as well as increased interest income from loan sales, modification and prepayments.

² Represents changes in cash flows expected to be collected due to factors other than credit (e.g. changes in prepayment assumptions and/or changes in interest rates on variable rate loans).

During the first quarter of 2014 we increased our estimate of future cash flows on acquired loans to reflect our current outlook for prepayment speeds on these balances and increases in interest rates on variable rate loans. The decreases in prepayment speed assumptions and increases in interest rate assumptions increased our accretable discount by \$752,000. This change did not materially impact our current quarter interest income or net interest margin.

At March 31, 2014, acquired loans included \$24.1 million of covered loans. VIST Bank had previously acquired these loans in an FDIC assisted transaction in the fourth quarter of 2010. In accordance with a loss sharing agreement with the FDIC, certain losses and expenses relating to covered loans may be reimbursed by the FDIC at 70% or, if net losses exceed certain levels specified in the loss sharing agreements, 80%. See Note 7 – “FDIC Indemnification Asset Related to Covered Loans” for further discussion of the loss sharing agreements and related FDIC indemnification assets.

The Company has adopted comprehensive lending policies, underwriting standards and loan review procedures. Management reviews these policies and procedures on a regular basis. The Company discussed its lending policies and underwriting guidelines for its various lending portfolios in Note 6 – “Loans and Leases” in the Notes to Consolidated Financial Statements contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013. There have been no significant changes in these policies and guidelines. As such, these policies are reflective of new originations as well as those balances held at March 31, 2014. The Company’s Board of Directors approves the lending policies at least annually. The Company recognizes that exceptions to policy guidelines may occasionally occur and has established procedures for approving exceptions to these policy guidelines. Management has also implemented reporting systems to monitor loan origination, loan quality, concentrations of credit, loan delinquencies and nonperforming loans and potential problem loans.

Loans are considered past due if the required principal and interest payments have not been received as of the date such payments are due. Generally loans are placed on nonaccrual status if principal or interest payments become 90 days or more past due and/or management deems the collectability of the principal and/or interest to be in question as well as when required by regulatory agencies. When interest accrual is discontinued, all unpaid accrued interest is reversed. Payments received on loans on nonaccrual are generally applied to reduce the principal balance of the loan. Loans are generally returned to accrual status when all the principal and interest amounts contractually due are brought current, the borrower has established a payment history, and future payments are reasonably assured. When management determines that the collection of principal in full is improbable, management will charge-off a partial amount or full amount of the loan balance. Management considers specific facts and circumstances relative to each individual credit in making such a determination. For residential and consumer loans, management uses specific regulatory guidance and thresholds for determining charge-offs.

Acquired loans that met the criteria for nonaccrual of interest prior to the acquisition may be considered performing after the date of acquisition, regardless of whether the customer is contractually delinquent, if we can reasonably estimate the timing and amount of the expected cash flows on such loans and if the Company expects to fully collect the new carrying value of the loans. As such, we may no longer consider the loan to be nonaccrual or nonperforming and may accrue interest on these loans, including the impact of any accretable discount. To the extent we cannot reasonably estimate cash flows, interest income recognition is discontinued. The Company has determined that it can reasonably estimate future cash flows on our acquired loans that are past due 90 days or more and accruing interest and the Company expects to fully collect the carrying value of the loans.

The below table is an age analysis of past due loans, segregated by originated and acquired loan and lease portfolios, and by class of loans, as of March 31, 2014 and December 31, 2013.
