Item 2.02 Results of Operations and Financial Condition

On May 2, 2019, MRC Global Inc. (“MRC Global” or the “Company”) issued a press release announcing its financial results for the three months ended March 31, 2019. A copy of the press release is furnished as Exhibit 99.1 to this Form 8-K and is incorporated herein by reference.

In accordance with General Instruction B.2 of Form 8-K, the information in Item 2.02 of this Current Report on Form 8-K, including Exhibit 99.1, shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 7.01 Regulation FD Disclosure.

MRC Global expects the following results with respect to the operations and performance of the Company for the 2019 fiscal year:

- The Company expects 2019 revenue to be between \$4,070 million and \$4,270 million.
- Sequentially, the Company expects second quarter 2019 revenue to be up approximately 6%-9% from the first quarter of 2019.
- Given MRC Global’s current mix of products, the Company expects a gross profit percentage between 17.4% and 18.0% and an Adjusted Gross Profit percentage between 19.7% and 19.9% for 2019. Adjusted Gross Profit percentage is a non-GAAP measure that is not necessarily better than gross profit percentage. The Company defines Adjusted Gross Profit as sales, less cost of sales, plus depreciation and amortization, plus amortization of intangibles, and plus or minus the impact of its last-in, first-out (“LIFO”) inventory costing methodology. The Company presents Adjusted Gross Profit because the Company believes it is a useful indicator of the Company’s operating performance without regard to items, such as amortization of intangibles, that can vary substantially from company to company depending upon the nature and extent of acquisitions of which they have been involved. Similarly, the impact of the LIFO inventory costing method can cause results to vary substantially from company to company depending upon whether they elect to utilize LIFO and depending upon which method they may elect. The Company uses Adjusted Gross Profit as a key performance indicator in managing its business. The Company believes that gross profit is the financial measure calculated and presented in accordance with U.S. generally accepted accounting principles that is most directly comparable to Adjusted Gross Profit.

The following table reconciles gross profit and gross profit percentage, GAAP measures, to Adjusted Gross Profit and Adjusted Gross Profit percentage, non-GAAP measures (in millions):

Edgar Filing: MRC GLOBAL INC. - Form 8-K

	Expected for the Year Ended 2019	Percentage of Expected Revenue*
Gross profit	\$ 736	17.7%
Depreciation and amortization	23	0.5%
Amortization of intangibles	42	1.0%
Increase in LIFO reserve	25	0.6%
Adjusted Gross Profit	\$ 826	19.8%

\* Percentages are based on the midpoint of revenue guidance provided above.

Edgar Filing: MRC GLOBAL INC. - Form 8-K

- The Company expects LIFO expense to be between \$20 million and \$30 million in 2019.
- The Company expects selling, general and administrative expense to be between \$555 million and \$575 million in 2019.
- The Company expects equity-based compensation expense to be \$15 million in 2019.
- The Company expects to generate between \$150 million and \$200 million of cash from operations in 2019.
- The Company expects to have an effective tax rate of 25% for the full year of 2019.
  - The Company expects its total capital expenditures for 2019 to be between \$20 million and \$25 million.
- The Company expects diluted income per common share to be between \$0.70 and \$1.00.
- The Company expects to have net income (before preferred stock dividend) between \$85 million and \$110 million and Adjusted EBITDA between \$260 million and \$290 million in 2019. Adjusted EBITDA is a non-GAAP measure that is not necessarily better than net income. The Company defines Adjusted EBITDA as net income plus interest, income taxes, depreciation and amortization, amortization of intangibles and certain other expenses, including non-cash expenses (such as equity-based compensation, severance and restructuring, changes in the fair value of derivative instruments and asset impairments, including inventory) and plus or minus the impact of our LIFO inventory costing methodology. The Company presents Adjusted EBITDA because the Company believes it provides investors a helpful measure for comparing our operating performance with the performance of other companies that have different financing and capital structures or tax rates. We believe that net income is the financial measure calculated and presented in accordance with U.S. generally accepted accounting principles that is most directly comparable to Adjusted EBITDA.

The following table reconciles net income, a GAAP measure, with Adjusted EBITDA, a non-GAAP measure, based on the mid-point of the guidance (in millions):

for the  
Year

various markets and the company's expectations, beliefs, plans, strategies, objectives, prospects and assumptions are not guarantees of future performance. These statements are based on management's expectations that involve a number of business risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors, most of which are difficult to predict and many of which are beyond our control, including the factors described in the company's SEC filings that may cause our actual results and performance to be materially different from any future results or performance expressed or implied by these forward-looking statements.

With respect to net income (before preferred stock dividend) and diluted earnings per share, these risks include actual share count, LIFO expense and the other component expectations listed above meeting the Company's expectations for each component. These risks and uncertainties also include (among others) decreases in oil and natural gas prices; decreases in oil and natural gas industry expenditure levels, which may result from decreased oil and natural gas prices or other factors; increased usage of alternative fuels, which may negatively affect oil and natural gas industry expenditure levels; U.S. and international general economic conditions; the company's ability to compete successfully with other companies in MRC Global's industry; the risk that manufacturers of the products the company distributes will sell a substantial amount of goods directly to end users in the industry sectors the company serves; unexpected supply shortages; cost increases by the company's suppliers; the company's lack of long-term contracts with most of its suppliers; suppliers' price reductions of products that the company sells, which could cause the value of the company's inventory to decline; decreases in steel prices, which could significantly lower MRC Global's profit; increases in steel prices, which the company may be unable to pass along to its customers which could significantly lower its profit; the company's lack of long-term contracts with many of its customers and the company's lack of contracts with customers that require minimum purchase volumes; changes in the company's customer and product mix; risks related to the company's customers' creditworthiness; the success of the company's acquisition strategies; the potential adverse effects associated with integrating acquisitions into the company's business and whether these acquisitions will yield their intended benefits; the company's significant indebtedness; the dependence on the company's subsidiaries for cash to meet its debt obligations; changes in the company's credit profile; a decline in demand for certain of the products the company distributes if import restrictions on these products are lifted; environmental, health and safety laws and regulations and the interpretation or implementation thereof; the sufficiency of the company's insurance policies to cover losses, including liabilities arising from litigation; product liability claims against the company; pending or future asbestos-related claims against the company; the potential loss of key personnel; interruption in the proper functioning of the company's information systems and the occurrence of cyber security incidents; loss of third-party transportation providers; potential inability to obtain necessary capital; risks related to adverse weather events or natural disasters; impairment of our goodwill or other intangible assets; adverse changes in political or economic conditions in the countries in which the company operates; exposure to U.S. and international laws and regulations, including the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act and other economic sanction programs; risks associated with international stability and geopolitical developments; risks relating to ongoing evaluations of internal controls required by Section 404 of the Sarbanes-Oxley Act; risks related to the Company's intention not to pay dividends; and risks arising from compliance with and changes in laws and regulations in the countries in which we operate, including (among others) changes in tax law, tax rates and interpretation in tax laws, changes in trade and other treaties that lead to differing tariffs and trade rules, the expansion of currency exchange controls, export controls or additional restrictions on doing business in countries subject to sanctions in which we operate or intend to operate. In addition, the Company's intention to continue to repurchase shares of the Company's common stock is also subject to the trading price of the stock being at prices that the Company believes are favorable to stockholders and to the Company's debt and liquidity levels being at levels the Company deems sufficient to repurchase shares.

For a discussion of key risk factors, please see the risk factors disclosed in the company's SEC filings, which are available on the SEC's website at [www.sec.gov](http://www.sec.gov) and on the company's website, [www.mrcglobal.com](http://www.mrcglobal.com). Our filings and

other important information are also available on the Investor Relations page of our website at [www.mrcglobal.com](http://www.mrcglobal.com).

Undue reliance should not be placed on the company's forward-looking statements. Although forward-looking statements reflect the company's good faith beliefs, reliance should not be placed on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which may cause the company's actual results, performance or achievements or future events to differ materially from anticipated future results,
