On July 12, 2015 the Company reached an agreement with Ketut Jaya to purchase the machinery and equipment utilized to produce the INSULTEX material. The purchase price is \$700,000 which was to be paid in four installments. The first installment of \$300,000 was to be paid at the execution of the agreement. The second installment of \$200,000 was to be paid when the machinery and equipment is ready to be shipped to the United States. The third installment of \$100,000 is to be paid once the machinery and equipment is producing INSULTEX, and the fourth and final installment of \$100,000 is to be made after the first commercial production run of INSULTEX is completed. As of July 31, 2018, the Company has made payments of \$500,000 in accordance with the agreement and made a \$100,000 pre-payment as the machine is not yet producing INSULTEX. Additionally, the Company has incurred \$17,000 of additional expenses related to shipping, site improvements and installation of the equipment. On November 4, 2016, the Federal Trade Commission (FTC) filed a complaint against the Company in the U.S. District Court Western District of Pennsylvania, number 16-1669. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The following information should be read in conjunction with the financial statements and the notes thereto and in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended October 31, 2017.

Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of the Private Securities Reform Act of 1995. All statements other than statements of historical fact, including statements regarding future results of operation, made in this Quarterly Report on Form 10-Q are forward-looking statements. We use words such as expects, believes, intends, and similar expressions to identify forward-looking statements. Forward looking-looking statements reflect management's current expectations and are inherently uncertain. Actual results could differ materially for a variety of reasons, including, among others, an adverse outcome in our legal matter with the Federal Trade Commission, competition in our cold weather markets, our inability to secure sufficient funding to maintain and/or expand our current level of operations and the seasonality of our cold weather product line. These risks and uncertainties, as well as other risks and uncertainties that could cause our actual results to differ significantly from management's expectations, are described in greater detail in our Annual Report on Form 10-K for the fiscal year ended October 31, 2017. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise except as required by law.

Revenues for the three month period ended July 31, 2018 were \$34,149 compared to revenues of \$41,811 for the three month period ended July 31, 2017. The decrease in revenue is attributable to the FTC matter with regard to our House Wrap products as we no longer advertise the insulating quality of these products. The decrease in revenue for our apparel products is attributable, in part, to the fact that we are devoting significant portion of our limited resources to the FTC matter and the fact that this period is normally a slow period for apparel sales on account of the season. See Note 11 of the Notes to the Condensed Financial Statements appearing elsewhere in this Report for a description of our segment products sales. Our net loss for the three month period ended July 31, 2018 was (\$154,221).

Our selling, general and administrative expenses were \$127,604 for the three month period ended July 31, 2018 compared to \$183,868 for the three month period ended July 31, 2017. Professional fees for the three month period

ended July 31, 2018 were \$22,944 compared to \$82,258 for the three month period ended July 31, 2017. The majority of our professional fees relate to the legal fees incurred in connection to the FTC matter. We expect our professional fees to continue to be substantial during the course of this legal matter.

Revenues for the nine month period ended July 31, 2018 were \$167,515 compared to revenues of \$250,183 for the nine month period ended July 31, 2017. The decrease is caused, by the decrease in our apparel sales and the sales in our House Wrap product line. The apparel sales were adversely affected by warm weather. In December 2016, we voluntarily ceased advertising our House Wrap products as a result of the legal action brought by the Federal Trade Commission ("FTC"). See Note 11 of the Notes to the Condensed Financial Statements appearing elsewhere in this Report for a description of our segment product sales. During the nine month period ended July 31, 2018 House Wrap sales totaled \$70,544 in comparison with \$89,168 during the nine month period ended July 31, 2017. Our net loss for the nine month period ended July 31, 2018 was (\$458,493).

Our selling, general and administrative expenses were \$473,303 for the nine months ended July 31, 2018 compared to \$562,080 for the nine month period ended July 31, 2017. The decrease was a result, in part, by lower seasonal help expense and less advertising and promotional expense and a significant decrease in professional fees. We do not expect our seasonal help expense or advertising and promotional expenses to increase in the current fiscal year ending October 31, 2018.

Liquidity and Capital Resources

During the period ended July 31, 2018, we funded our operations from revenues from sales and sale of our common stock. During the three month period ended July 31, 2018, we sold our common stock in private transactions and raised \$5,000 from the sales. Also, in May 2018, we entered into a loan agreement for \$50,000.

Subsequent to the period, in August 2018 we sold our common stock in a private transaction and raised \$25,000. See Note 13 of the Notes to the Financials Statements appearing elsewhere in this Report.

Short Term: We will continue to fund our operations from sales and the sale of our securities. We continue to pay our creditors when payments are due. We will require more funds to be able to order the material for our INSULTEX products and to purchase equipment needed for the manufacture of the INSULTEX product. The Company reached an agreement with the manufacturer of the INSULTEX material to purchase a machine capable of producing the INSULTEX material. Also included in the proposed agreement will be the propriety formula that creates INSULTEX. The Company took delivery of the equipment in December 2015. The Company will have to have the machine installed and ensure that it can be operated in compliance with all environmental rules and regulations. The Company has not made an estimate of the cost required for bringing the operation of the machine into compliance with the environmental regulations but it is considered to be a substantial amount. We are in the permitting stage relating to environmental issues necessary to begin the installation of the equipment. However, given our current limited financial resources we are not devoting the resources needed to complete the permitting process. The Company has currently made deposits of \$600,000 on the equipment. The Company has incurred \$17,000 of additional expenses related to shipping. The Company will produce INSULTEX under its own brand name. See Note 10 of the Notes to the Condensed Financial Statements.

Long Term: The Company will continue to fund its operations from revenues, borrowings from private parties and the possible sale of our securities. Should we not be able to rely on the private sources for borrowing and /or increased sales, our operations would be severely affected as we would not be able to fund our purchase orders to our suppliers for finished goods and our efforts to produce our own INSULTEX would be delayed.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDING

On November 4, 2016, the Federal Trade Commission (FTC) filed a complaint against the Company in the U.S. District Court Western District of Pennsylvania, number 16-1669. In the complaint, the FTC alleges, that, among other matters, the Company does not have substantiation of claims made by the Company regarding the R value and energy efficiency of its INSULTEX House Wrap products. The complaint asks as redress of rescission of revenue the Company received from the sale of House Wrap and a permanent injunction. A trial date has been set for January 22, 2019.

The Company strongly denies the allegation and intends to vigorously defend itself. It is the Company's belief that the complaint is based on improper testing of the INSULTEX products using the wrong type of testing equipment.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information otherwise required by this Item.

ITEM 4T. CONTROLS AND PROCEDURES

Management has developed and implemented a policy and procedures for reviewing, on a quarterly basis, our disclosure controls and procedures. During the period ended July 31, 2018, our principle executive/financial officer concluded that these controls and procedures were ineffective. At this time, we do not have the financial resources to employ a financial staff with accounting and financial expertise. Once we have the necessary financial resources, we plan to hire and designate an individual responsible for identifying reportable developments and to implement procedures designed to remediate the material weakness by focusing additional attention and resources in our internal accounting functions. During the first, second, and third quarter of 2018, the Company was not able to close the books and records in a timely fashion. Consequently, the Company was unable to file its Form 10-Q for the periods ended January 31, 2018 and July 31, 2018 within the timeline established by the SEC and was required to seek an extension for filing the form.

Changes in Internal Control Over Financial Reporting

During the most recent fiscal quarter, there were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13(a)-15 or 15d-15 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Until the Company has the financial resources to employ a financial staff with accounting and financial expertise, to be able to properly account for internal financial reporting, errors that may have a material effect on the financial statements have the potential to occur.
