Report of Independent Registered Public Accounting Firm

Plan Administrator  
Peoples Bancorp Inc. Retirement Savings Plan  
Marietta, Ohio

We have audited the accompanying statements of net assets available for benefits of the Peoples Bancorp Inc. Retirement Savings Plan as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audits included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Peoples Bancorp Inc. Retirement Savings Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplementary information as listed in the table of contents is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information is the responsibility of the Plan's management. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Notes to Financial Statements  
December 31, 2012 and 2011

Note 1. Description of the Plan

The following is a description of the Peoples Bancorp Inc. Retirement Savings Plan (“the Plan”) and provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Peoples Bancorp Inc. (“Peoples”) for the benefit of its eligible employees age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Reliance National Trust Company is the trustee and serves as the custodian of the Plan.

The Plan consists of both an Employee Stock Ownership Plan (“ESOP”) component and a non-ESOP component. Peoples intends both components together to constitute a single plan under U.S. Treasury Regulation Section 1.414(1) 1(b)(1). Accordingly, the provisions set forth in the other sections of the Plan apply to the ESOP component in the same manner as those provisions apply to the non-ESOP component, except to the extent that those provisions by their terms are inapplicable to the ESOP component.

Employee Stock Ownership Plan

The ESOP component of the Plan is not leveraged and is designed to invest primarily in Peoples Bancorp Inc. Common Stock. The ESOP component consists of the portion of the assets of the Plan that are invested in the Peoples Bancorp Inc. Common Stock Fund. The ESOP feature is intended to qualify as a stock bonus plan under Internal Revenue Code Section 401(a) and as an employee stock ownership plan under Internal Revenue Code Section 4975(e)(7).

Contributions

The Plan permits eligible employees through a salary deferral election to make annual contributions of up to 100% of eligible compensation. Employee rollover contributions are also permitted to be made to the Plan. In 2012 and 2011, Peoples made matching contributions equal to 100% of the employees' salary deferral amounts up to 3% of the employees' compensation and 50% of the employees' salary deferral amounts on the next 2% of the employees' compensation. Peoples' profit-sharing contributions are discretionary as determined by the Peoples' Board of Directors (none were made in 2012 and 2011). Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Participants direct the investment of their contributions and Peoples' matching contributions into any of the separate investment accounts and may change their allocations daily.

The Plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise.

Notes to Financial Statements  
December 31, 2012 and 2011

#### Participant Accounts

Each participant's account is credited with the participant's contribution, Peoples' contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### Vesting

Participants are immediately vested in their voluntary contributions as well as Peoples' matching and profit sharing contributions plus earnings thereon.

#### Payment of Benefits

Upon termination of service, an employee may elect to receive either a lump-sum amount equal to the value of his or her account or monthly, quarterly, or annual installments over a period of not more than the participant's assumed life expectancy. At December 31, 2012, Plan assets included \$19,722 allocated to accounts of terminated or retired participants who have elected payment from the Plan but have not yet been paid, and there were none at December 31, 2011.

#### Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000.

Participants may only have one loan outstanding at any given time. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence, which may exceed the five year term with approval from the Plan Administrator) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Notes receivable from participants are reported at amortized principal balance plus accrued but unpaid interest. The accrual of interest on loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Past due status is based on contractual terms of the loan. Delinquent loans are recorded as distributions once deemed uncollectible, and are a reduction to the participant's account balance.

All interest accrued but not collected for loans placed on nonaccrual or charged off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

#### Plan Termination

Although it has not expressed an intention to do so, Peoples has the right under the Plan to discontinue its matching contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed in the preparation of the financial statements:

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are stated at fair value based on quoted market prices on the valuation date. Investments traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

The investment in Peoples Bancorp Inc. Common Stock, has been unitized and is comprised of cash and Peoples Bancorp Inc. Common Stock. The Plan holds between 3% and 5% of these units in cash in order to provide liquidity for timely distributions. At December 31, 2012 and 2011, these units are comprised of 209,229 and 223,563 shares of Peoples Bancorp Inc. Common Stock and cash of \$162,639 and \$184,304, respectively.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis while dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Plan Tax Status

The Plan obtained its latest determination letter on January 30, 2004, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan (and the related trust) are currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 4. Fair Value Measurements

The measurement of fair value under US GAAP uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Level 1: Quoted prices in active exchange markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 including quoted prices for similar assets or liabilities, quoted prices in less active markets, or other observable inputs that can be corroborated by observable market data.

Level 3: Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation; also includes observable inputs for single dealer nonbinding quotes not corroborated by observable market data.

There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a non-recurring basis. The following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis, including the general classification of such instruments pursuant to the fair value hierarchy:

Mutual Funds: These investments are valued using quoted prices in an active market and classified within Level 1 of the valuation hierarchy.

Peoples Bancorp common stock units: Peoples Bancorp common stock units are held in a unitized fund and are comprised of cash and common stock in Peoples Bancorp Inc. The underlying common stock is valued at the closing price of the common stock reported on the NASDAQ Global Select Market® under the symbol "PEBO" and is classified within Level 1 of the valuation hierarchy.

Note 5. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such employer or employee association, or relatives of such persons.

The Plan holds common stock of Peoples Bancorp Inc., which is the plan sponsor. The Plan also invests in certain funds of the Plan trustee. Certain administrative services are provided at no cost to the Plan by Peoples. The Plan paid \$53,676 and \$62,518 of record keeping fees to The Hartford during 2012 and 2011, respectively.

Note 6. Risks and Uncertainties

The Plan provides for various investments in common stock and mutual funds. Such investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of these investments will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Note 7. Current Economic Conditions

The current economic environment presents employee benefit plans with unprecedented circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 8. Subsequent Events

In 2013, management identified that the Plan did not withhold participants' contributions on compensation received in the form of restricted stock, and the corresponding employer match was not recorded for individuals that had not reached the contribution limit. This occurred for the years of 2007 through 2012, and is not believed to have a material impact on the Plan's financial statements, therefore no receivable has been recorded. The Plan is working with legal counsel to remediate the finding as soon as practicable.
