Item 7.01 Regulation FD Disclosure.

From time to time, senior management of Pioneer Energy Services (the “Company”) meets with groups of investors and business analysts. The slides attached to this report have been prepared in connection with management's participation in such meetings and participation in the Goldman Sachs 2019 Global Energy Conference. The slides provide an update on the Company's operations, revised guidance, and certain recent developments, which among others, include the following:

Fourth Quarter Update and Revised Guidance

Production services revenue is estimated to be down approximately 8% sequentially versus previous guidance of flat to down 4%. In addition, gross margin as a percentage of revenue is estimated to be at the low end or just below the previous guidance of 20% to 23%. Both revenue and gross margin percentage were impacted by softer than expected activity in wireline as completion activity slowed late in the fourth quarter.

Domestic drilling margin per day is expected to be at the high end of the current guidance of \$9,700 to \$10,200 per day.

In Colombia, seven rigs are currently earning revenue.

The slides are included in Exhibit 99.1 to this report and are incorporated herein by reference. The slides are available on the Company's website at [www.pioneerres.com](http://www.pioneerres.com).
