General American Investors' net asset value (NAV) per Common Share (assuming reinvestment of all dividends) increased 18.4% for the year ended December 31, 2017. The U.S. stock market was up 21.8% for the year, as measured by our benchmark, the Standard & Poor's 500 Stock Index (including income). The return to our Common Stockholders was 21.2% and the discount at which our shares traded to their NAV continued to fluctuate and on December 31, 2017, it was 15.0%.

The table that follows provides a comprehensive presentation of our performance and compares our returns on an annualized basis with the S&P 500.

<i>Years</i>	<i>Stockholder Return (Market Value)</i>	<i>NAV Return</i>	<i>S&P 500</i>

At year end we continue to enjoy the second-longest bull market in history. The economy has expanded in tandem and has accelerated modestly during the last nine months. At 9 years old, the U.S. equity market looks robust fundamentally, and may be capable of further gains as interest rates, though higher, remain subdued with modestly higher inflation due largely to increasing services costs. The passage of the tax bill may have created opportunities not yet fully appreciated, with nearly 2,500 large and medium size companies either raising wages or paying individual workers substantive one-time bonuses. Wage gains are more likely to positively affect consumption on a long-term basis than the bonus payments, but regardless, each is accretive to the U.S. economy's performance over the near-term. Significant deregulation has been proposed legislatively and implemented by fiat in the U.S. which may have also lubricated the economy with reduced friction costs.

Equity markets have risen further than many analysts had predicted and valuations may appear high and already discounting much of the tax benefits. In consequence, the behavior of central banks and their decisions with respect to interest rates over the course of the next year or two may be taking center stage since earnings multiples are generally the inverse of yields. This is not to suggest markets have peaked since yields are rising from historically depressed levels. It is merely an observation that volatility which has been unusually constrained over the past several years may begin to rise as uncertainty over the push and pull of potentially shrinking earnings multiples are met by accelerating earnings growth. According to a recent study, reported earnings growth among nearly 20,000 listed firms worldwide is anticipated to rise by nearly 19% in 2017. While inflation is expected to rise over the business cycle, equities remain better positioned with respect to inflation than most other asset classes, short of commodities, as firms that have pricing power need not experience margin contraction.

The many countervailing forces in the current environment and the absence of a significant market correction over the past 19 months implies caution. The economy and the equity markets appear capable of withstanding some headwinds and continuing their advance, short of some geopolitical event or a central bank-led excess withdrawal of liquidity. In short, Goldilocks appears fine as the bears are in the woods and not yet in the house. We remain sanguine on the equity markets, but vigilant given this historically unusual environment.

Mr. Daniel M. Neidich, a director since 2007, decided not to stand for re-election at the annual meeting held in April 2017. His wisdom, judgment, and service have been invaluable to the Board of Directors and we express our deep gratitude and appreciation for his distinguished service to the Company.

We are pleased to announce that on January 18, 2017, Ms. Clara E. Del Villar, and on May 30, 2017, Ms. Rose P. Lynch, were appointed to the Board of Directors of the Company. Ms. Del Villar has extensive experience in the financial services, technology, energy, and publishing industries as a portfolio manager at Neuberger Berman and as the Founder, Chief Executive Officer, and Editor-in-Chief of the Hispanic Post, among others. These roles and experience provide Ms. Del Villar with an extremely diverse background in numerous disciplines and industries.

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

Ms. Lynch has extensive executive level strategic marketing, financial and operating experience in the fashion, apparel and beauty industries. Ms. Lynch currently serves on the Board of Directors of Steven Madden, Ltd., and is the Founder and President of Marketing Strategies, LLC. Ms. Lynch's familiarity with these industries and her senior level executive and board experience will be of great value to the Company.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, etc., is available on our website, which can be accessed at www.generalamericaninvestors.com.

By Order of the Board of Directors,

Jeffrey W. Priest

President and Chief Executive Officer

Corporate Overview

General American Investors, established in 1927, is one of the nation's oldest closed-end investment companies. It is an independent organization that is internally managed. For reg-

ulatory purposes, the Company is classified as a diversified, closed-end management investment company; it is registered under and subject to the Investment Company Act of 1940 and Sub-Chapter M of the Internal Revenue Code.

Investment Policy

The primary objective of the Company is long-term capital appreciation. Lesser emphasis is placed on current income.

In seeking to achieve its primary objective, the Company

invests principally in common stocks believed by its management to have better than average growth potential.

The Company's investment approach focuses on the selection of individual stocks, each of which is expected to meet a clearly defined portfolio objective. A continuous investment research program, which stresses fundamental security analysis, is carried on by the officers and staff of the Company under the oversight of the Board of Directors. The Directors have a broad range of experience in business and financial affairs.

Portfolio Manager

Mr. Jeffrey W. Priest, has been President of the Company since February 1, 2012 and has been responsible for the management of the Company since January 1, 2013 when

he was appointed Chief Executive Officer

"GAM" Common Stock

As a closed-end investment company, the Company does not offer its shares continuously. The Common Stock is listed on The New York Stock Exchange (symbol, GAM) and

can be bought or sold in the same manner as all listed stocks. Net asset value is computed and published on the Company's website daily (on an unaudited basis) and is also furnished upon request. It is also available on most electronic quotation services using the symbol "XGAMX." Net asset value per share (NAV), market price, and the discount or premium from NAV as of the close of each week, is published in *Barron's* and *The Wall Street Journal*, Monday edition.

While shares of the Company usually sell at a discount to NAV, as do the shares of most other domestic equity closed-end investment companies, they occasionally sell at a premium over NAV.

Since March 1995, the Board of Directors has authorized the repurchase of Common Stock in the open market when the shares trade at a discount to NAV of at least 8%. To date, 26,140,167 shares have been repurchased.

"GAM Pr B" Preferred Stock

On September 24, 2003, the Company issued and sold in an underwritten offering 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B with a liquidation

preference of \$25 per share (\$200,000,000 in the aggregate). The Preferred Shares are rated "A1" by Moody's Investors Service, Inc. and are listed and traded on The New York Stock Exchange (symbol, GAM Pr B). The Preferred

and Portfolio Manager. Mr. Priest joined the Company in 2010 as a senior investment analyst and has spent his entire 30-year business career on Wall Street. Mr. Priest succeeds Mr. Spencer Davidson who served as Chief Executive Officer and Portfolio Manager from 1995 through 2012.

Shares are available to leverage the investment performance of the Common Stockholders; higher market volatility for the Common Stockholders may result.

The Board of Directors authorized the repurchase of up to 1 million Preferred Shares in the open market at prices below \$25 per share. To date, 395,313 shares have been repurchased.

Dividend and

Policy

The Company's dividend and distribution policy is to distribute to stockholders before year-end substantially all ordinary income estimated for the full year and capital gains

realized during the ten-month period ended October 31 of that year. If any additional capital gains are realized and available or ordinary income is earned during the last two months of the year, a "spill-over" distribution of these amounts may be paid. Dividends and distributions on shares of Preferred Stock are paid quarterly. Distributions from capital gains and dividends from ordinary income are allocated proportionately among holders of shares of Common Stock and Preferred Stock.

Dividends from income have been paid continuously on the Common Stock since 1939 and capital gain distributions in varying amounts have been paid for each of the years 1943-2017 (except for the year 1974). (A table listing dividends and distributions paid during the 20-year period 1998-2017 is shown at the bottom of page 4.) To the extent that shares can be issued, dividends and distributions are paid to Common Stockholders in additional shares of Common Stock unless the stockholder specifically requests payment in cash.

Policies, Procedures and Record

The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and the Company's proxy voting record for the 12-month period ended June

30, 2017 are available: (1) without charge, upon request, by calling the Company at its toll-free number (1-800-436-8401), (2) on the Company's website at www.generalamerican.com

Direct Registration

The Company makes available direct registration for its Common Shareholders. Direct registration, an element of the Investors Choice Plan administered by our transfer agent, is

a system that allows for book-entry ownership and electronic transfer of our Common Shares. Accordingly, when Common Shareholders, who hold their shares directly, receive new shares resulting from a purchase, transfer or dividend payment, they will receive a statement showing the credit of the new shares as well as their Plan account and certificated share balances. A brochure which describes the features and benefits of the Investors Choice Plan, including the ability of shareholders to deposit certificates with our transfer agent, can be obtained by calling American Stock Transfer & Trust Company at 1-800-413-5499, calling the Company at 1-800-436-8401 or visiting our website: www.generalamericaninvestors.com - click on Distributions & Reports, then Report Downloads.

Privacy Policy and Practices

The Company collects non-public personal information about its direct stockholders with respect to their transactions in shares of the Company's securities (those

stockholders whose shares are registered directly in their names). This information includes the stockholder's address, tax identification or Social Security number and dividend elections. We do not have knowledge of, nor do we collect personal information about, stockholders who hold the Company's securities in "street name" registration.

We do not disclose any nonpublic personal information about our current or former stock-

holders to anyone, except as permitted by law. We restrict access to nonpublic personal information about our stockholders to those few employees who need to know that information to perform their responsibilities. We maintain safeguards to comply with federal standards to secure our stockholders' information.

Total return on \$10,000 investment for 20 years ended December 31, 2017

The investment return for a Common Stockholder of General American Investors (GAM) over the 20 years ended December 31, 2017 is shown in the table below and in the accompanying chart. The return based on GAM's net asset value (NAV) per Common Share in comparison to the change in the Standard & Poor's 500 Stock Index (S&P 500) is also displayed. Each illustration assumes an investment of \$10,000 at the beginning of 1998.

Stockholder Return is the return a Common Stockholder of GAM would have achieved assuming reinvestment of all dividends and distributions at the actual reinvestment price and of all cash dividends and distributions at the market price on the ex-dividend date.

Net Asset Value (NAV) Return is the return on shares of the Company's Common Stock based on the NAV per share, including the reinvestment of all dividends and distributions at the reinvestment prices indicated above.

Standard & Poor's 500 Return is the total rate of return on this widely-recognized, unmanaged index which is a measure of general stock market performance, including dividend income.

Past performance may not be indicative of future results.

The following tables and graph do not reflect the deduction of taxes that a stockholder would pay on Company distributions or the sale of Company shares.

NOTES TO FINANCIAL STATEMENTS

General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the “Company”), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The accompanying financial statements have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) pursuant to the requirements for reporting; Accounting Standards Codification 946, Financial Services - Investment Companies (“ASC 946”), and Regulation S-X.

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income, expenses and gains and losses during the reported period. Changes in the economic environment, financial markets, and any other parameters used in determining these estimates could cause actual results to differ, and these differences could be material.

a. **SECURITY VALUATION** Equity securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Equity securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ equity securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for options written) on the valuation date. Equity securities traded primarily in foreign markets are

1. SIGNIFICANT ACCOUNTING POLICIES - (Continued from previous page.)

valued at the closing price of such securities on their respective exchanges or markets. Corporate debt securities, domestic and foreign, are generally traded in the over-the-counter market rather than on a securities exchange. The Company utilizes the latest bid prices provided by independent dealers and information with respect to transactions in such securities to determine current market value. If, after the close of foreign markets, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to specific procedures appropriate to each security as established by and under the general supervision of the Board of Directors. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the price used by other investors or the price that may be realized upon the actual sale of the security.

b. **OPTIONS** The Company may purchase and write (sell) put and call options. The Company purchases put options or writes call options to hedge the value of portfolio investments while it purchases call options and writes put options to obtain equity market exposure. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options are reported as a liability on the Statement of Assets and Liabilities. Those that expire unexercised are treated by the Company on the expiration date as realized gains on written option transactions in the Statement of Operations. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss on written option transactions in the Statement of Operations. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss on investments in the Statement of Operations. If a written put option is exercised, the premium reduces the cost basis for the securities purchased by the Company and is parenthetically disclosed under cost of investments on the Statement of Assets and Liabilities. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option. See Note 4 for option activity.

c. **SECURITIES TRANSACTIONS AND INVESTMENT INCOME** Securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

d. **FOREIGN CURRENCY TRANSLATION AND TRANSACTIONS** Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies versus U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Company's Board of Directors. The Company does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability or the level of governmental supervision and regulation of foreign securities markets.

e. **DIVIDENDS AND DISTRIBUTIONS** The Company expects to pay dividends of net investment income and distributions of net realized capital and currency gains, if any, annually to common shareholders and quarterly to preferred shareholders. Dividends and distributions to common and preferred shareholders, which are determined in accordance with Federal income tax regulations are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified to paid-in capital as they arise.

f. **FEDERAL INCOME TAXES** The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required. In accordance with U.S. GAAP requirements regarding accounting for uncertainties in income taxes, management has analyzed the Company's tax positions taken or expected to be taken on Federal and state income tax returns for all open tax years (the current and the prior three tax years) and has concluded that no provision for income tax is required in the Company's financial statements.

g. **CONTINGENT LIABILITIES** Amounts related to contingent liabilities are accrued if it is probable that a liability has been incurred and an amount is reasonably estimable. Management evaluates whether there are incremental legal or other costs directly associated with the ultimate resolution of a matter that are reasonably estimable and, if so, they are included in the accrual.

1. SIGNIFICANT ACCOUNTING POLICIES - (Continued from previous page.)

h. INDEMNIFICATIONS In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

2. FAIR VALUE MEASUREMENTS

Various data inputs are used in determining the value of the Company's investments. These inputs are summarized in a hierarchy consisting of the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities (including money market funds which are valued using amortized cost and which transact at net asset value, typically \$1 per share),

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.), and

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Company's net assets as of December 31, 2017:

Assets	Level 1	Level 2	Level 3	Total
Common stocks	\$1,111,669,233	—	—	\$1,111,669,233

Liabilities				
Options written	(\$612,500)	—	—	(\$612,500)

Transfers of Level 3 Securities, if any, are reported as of the actual date of reclassification. No such transfers occurred during the year ended December 31, 2017.

3. PURCHASES AND SALES OF SECURITIES

Purchases and sales of securities (other than short-term securities and options) during 2017 amounted to \$216,996,261 and \$341,267,505, on long transactions, respectively.

5. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value. With respect to the Common Stock, 26,453,136 shares were issued and outstanding; 8,000,000 Preferred Shares were originally issued and 7,604,687 were outstanding on December 31, 2017.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares were noncallable for the 5 year period ended September 24, 2008 and have a liquidation preference of \$25.00 per share plus accumulated and unpaid dividends to the date of redemption.

On December 10, 2008, the Board of Directors authorized the repurchase of up to 1 million Preferred Shares in the open market at prices below \$25.00 per share. This authorization has been renewed annually thereafter. To date, 395,313 shares have been repurchased.

5. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS - (Continued from previous page.)

The Company allocates distributions from net capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from net capital gains, they will be paid from investment company taxable income, or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% of the Preferred Stock. In addition, pursuant to Moody's Investor Service, Inc. Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds a Basic Maintenance Amount. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends. In addition, failure to meet the foregoing asset coverage requirements could restrict the Company's ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

Holders of Preferred Stock will elect two members to the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company presents its Preferred Stock, for which its redemption is outside of the Company's control, outside of the net assets applicable to Common Stock in the Statement of Assets and Liabilities.

Transactions in Common Stock during 2017 and 2016 were as follows:

	SHARES		AMOUNT

Net decrease	(767,979)	(1,075,582)	(\$26,730,152)	(\$34,305,699)

At December 31, 2017, the Company held in its treasury 5,527,736 shares of Common Stock with an aggregate cost of \$180,582,009.

The tax basis distributions during the year ended December 31, 2017 are as follows: ordinary distributions of \$17,329,407 and net capital gains distributions of \$80,713,640. As of December 31, 2017, distributable earnings on a tax basis included \$16,747,116 from undistributed net capital gains and \$580,692,277 from net unrealized appreciation on investments if realized in future years. Reclassifications arising from permanent “book/tax” difference reflect non-tax deductible expenses during the year ended December 31, 2017. As a result, additional paid-in capital was decreased by \$1,517 and over-distributed net investment income was decreased by \$1,517. As of December 31, 2017, the Company had straddle loss deferrals of \$131,762. Net assets were not affected by this reclassification.

6. OFFICERS' COMPENSATION

The aggregate compensation accrued and paid by the Company during the year ended December 31, 2017 to its officers (identified on page 20) amounted to \$6,688,000 of which \$1,698,000 was payable as of year end.

7. BENEFIT PLANS

The Company has funded (qualified) and unfunded (supplemental) defined contribution thrift plans that are available to its employees. The aggregate cost of such plans for 2017 was \$982,992. The qualified thrift plan acquired 69,658 shares in the open market, sold 26,963 shares in the open market, and distributed to a retired employee 31,908 shares of the Company’s Common Stock during the year ended December 31, 2017. It held 628,692 shares of the Company’s Common Stock at December 31, 2017.

The Company also has both funded (qualified) and unfunded (supplemental) noncontributory defined benefit pension plans that cover its employees. The pension plans provide a defined benefit based on years of service and final average salary with an offset for a portion of Social Security covered compensation. The investment policy of the pension plan is to invest not less than 80% of its assets, under ordinary conditions, in equity securities and the balance in fixed income securities. The investment strategy is to invest in a portfolio of diversified registered investment funds (open-end and exchange traded) and an unregistered partnership. Open-end funds and the unregistered partnership are valued at net asset value based upon the fair market value of the underlying investment portfolios. Exchange traded funds are valued based upon their closing market price.

7. BENEFIT PLANS - (Continued from previous page.)

The Company recognizes the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability in the Statement of Assets and Liabilities and recognizes changes in funded status in the year in which the changes occur through other comprehensive income.

The estimated amount that will be amortized from accumulated other comprehensive income into net periodic benefit cost in 2018 is \$225,116 which is comprised of \$224,531 of actuarial loss and \$585 of service cost.

8. OPERATING LEASE COMMITMENT

In 2007, the Company entered into an operating lease agreement for office space which expires in 2018 and provided for aggregate rental payments of approximately \$10,755,000, net of construction credits. The lease agreement contains clauses whereby the Company receives free rent for a specified number of months and credit towards construction of office improvements, and incurs escalations annually relating to operating costs and real property taxes and to annual rent charges beginning in 2013. The Company has extended the lease for two months through March 2018. Rental expense approximated \$1,286,000 for the year ended December 31, 2017. Minimum rental commitments under the operating lease are approximately \$192,200 in 2018 which includes the cost of extending the lease to March 31, 2018.

In February 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-02, Leases, which requires lessees to reassess if a contract is or contains lease agreements and assess the lease classification to determine if they should recognize an asset and offsetting liability on the statement of assets and liabilities that arises from entering into a lease, including an operating lease. Existing U.S. GAAP does not require the lessee to record an asset and offsetting liability associated with an operating lease. Generally consistent with existing U.S. GAAP, the annual cost of an operating lease will continue to be reflected as an expense in the statements of operations and changes in net assets and disclosure of the terms of a lease will continue to be reported in the footnotes to the financial statements. ASU 2016-02 is effective for financial statements issued for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application is permitted and likely by the Company in conjunction with the expiration of its current operating lease on January 31, 2018 and entrance into a new operating lease which is anticipated to be effective in the first quarter of 2018. This will necessitate reporting an asset and offsetting liability on the statement of assets and liabilities of the Company at that time.

The Company entered into a new operating lease agreement for office space which will expire in 2028 and provide for aggregate rental payments of approximately \$6,437,500. The lease agreement contains clauses whereby the Company will receive free rent for a specified number of months and credit towards construction of office

improvements and incurs escalations annually relating to operating costs and real property taxes and to annual rent charges beginning in 2023. The Company has the option to extend the lease for an additional five years at market rates. Minimum rental commitments under this operating lease are approximately:

2018:	\$104,000 (2 months)
2019:	\$624,000
2020:	\$624,000
2021:	\$624,000
2022:	\$624,000
Thereafter:	\$3,836,500

AND STOCKHOLDERS OF
GENERAL AMERICAN INVESTORS COMPANY, INC.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of General American Investors Company, Inc. ("the Company"), including the statements of investments and options written as of December 31, 2017, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCOAB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of the Company's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Previous purchases of the Company's Common and Preferred Stock are set forth in Note 5, on pages 15 and 16. Prospective purchases of Common and Preferred Stock may be made at such times, at such prices, in such amounts and in such manner as the Board of Directors may deem advisable.

The policies and procedures used by the Company to determine how to vote proxies relating to portfolio securities and the Company's proxy voting record for the twelve-month period ended June 30, 2017 are available: (1) without charge, upon request, by calling us at our toll-free telephone number (1-800-436-8401), (2) on the Company's website at www.generalamericaninvestors.com and (3) on the Securities and Exchange Commission's website at www.sec.gov.

In addition to distributing financial statements as of the end of each quarter, General American Investors files a Quarterly Schedule of Portfolio Holdings (Form N-Q) with the Securities and Exchange Commission ("SEC") as of the end of the first and third calendar quarters. The Company's Forms N-Q are available at www.generalamericaninvestors.com and on the SEC's website: www.sec.gov. Copies of Forms N-Q may also be obtained and reviewed at the SEC's Public Reference Room in Washington, DC. or through the Company by calling us at 1-800-436-8401. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC-0330.

On April 13, 2017, the Company submitted a CEO annual certification to the New York Stock Exchange ("NYSE") on which the Company's principal executive officer certified that he was not aware, as of that date, of any violation by the Company of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Company's principal executive and principal financial officer made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q relating to, among other things, the Company's disclosure controls and procedures and internal control over financial reporting, as applicable.

The Company is a stand-alone fund. All Directors serve for a term of one year and are elected by Stockholders at the time of the annual meeting. The address for each Director is the Company's office. All information is as of December 31, 2017.

ITEM 2. CODE OF ETHICS.

On July 9, 2003, the Board of Directors adopted a code of ethics that applies to registrant's principal executive and senior financial officers. The code of ethics is available on registrant's Internet website at <http://www.generalamericaninvestors.com/governance/code-of-ethics.php>. Since the code of ethics was adopted there have been no amendments to the code nor have there been granted any waivers from any provisions of the code of ethics.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Board of Directors has determined that none of the members of registrant's audit committee meets the definition of "audit committee financial expert" as the term has been defined by the U.S. Securities and Exchange Commission (the "Commission"). In addition, the Board of Directors has determined that the members of the audit committee have sufficient financial expertise and experience to perform the duties and responsibilities of the audit committee.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

(a) **AUDIT FEES** The aggregate fees paid and accrued by the registrant for professional services rendered by its independent auditors, Ernst & Young LLP, for the audit of the registrant's annual financial statements for 2017 and 2016 were \$167,900 and \$163,000, respectively.

(b) **AUDIT RELATED FEES** The aggregate fees paid or accrued by the registrant for audit-related professional services rendered by Ernst & Young LLP for 2017 and 2016 were \$32,900 and \$32,000, respectively. Such services and related fees for 2017 and 2016 included: review of quarterly employee security transactions and

issuance of report thereon (\$30,900 and \$30,000, respectively) and other audit-related services (\$2,000 and \$2,000, respectively).

(c) TAX FEES The aggregate fees paid or accrued by the registrant for professional services rendered by Ernst & Young LLP for the review of the registrant's federal, state and city income tax returns and excise tax calculations for 2017 and 2016 were \$21,600 and \$21,000, respectively.

(d) ALL OTHER FEES No such fees were billed to the registrant by Ernst & Young LLP for 2017 or 2016.

(e)(1) AUDIT COMMITTEE PRE-APPROVAL POLICY All services to be performed for the registrant by Ernst & Young LLP must be pre-approved by the audit committee. All services performed during 2017 and 2016 were pre-approved by the committee.

(2) Not applicable.

(f) Not applicable.

(g) The aggregate fees paid or accrued by the registrant for non-audit professional services rendered by Ernst & Young LLP to the registrant for 2017 and 2016 were \$54,500 and \$53,000, respectively.

(h) Not applicable.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

(a) The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the audit committee are: John D. Gordan, III, Chairman, Arthur G. Altschul, Jr., Rodney B. Berens, Lewis B. Cullman, Clara E. Del Villar, and Henry R. Schirmer.

(b) Not applicable.

ITEM 6. SCHEDULE OF INVESTMENTS

The schedule of investments in securities of unaffiliated issuers is included as part of the report to stockholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General American Investors Company, Inc.

PROXY VOTING POLICIES AND PROCEDURES

General American Investors Company, Inc. (the "Company") is uniquely structured as an internally managed closed-end investment company. Our research efforts, including the receipt and analysis of proxy material, are focused on the securities in the Company's portfolio, as well as alternative investment opportunities. We vote proxies relating to our portfolio securities in the best long-term interests of the Company.

Our investment approach stresses fundamental security analysis, which includes an evaluation of the integrity, as well as the effectiveness of management personnel. In proxy material, we review management proposals and management recommendations relating to shareholder proposals in order to, among other things, gain assurance that management's positions are consistent with its integrity and the long-term interests of the company. We generally find this to be the case and, accordingly, give significant weight to the views of management when we vote proxies.

Proposals that may have an impact on the rights or privileges of the securities held by the Company would be reviewed very carefully. The explanation for a negative impact could justify the proposal; however, if such justification were not present, we would vote against a significant reduction in the rights or privileges associated with any of our holdings.

Proposals relating to corporate governance matters are reviewed on a case-by-case basis. When they involve changes in the state of incorporation, mergers or other restructuring, we would, if necessary, complete our review of the rationale for the proposal by contacting company representatives and, with few exceptions, vote in favor of management's recommendations. Proposals relating to anti-takeover provisions, such as staggered boards, poison pills and supermajorities could be more problematic. They would be considered in light of our assessment of the capability of current management, the duration of the proposal, the negative impact it might have on the attractiveness of the company to future "investors," among other factors. We can envision circumstances under which we would vote against an anti-takeover provision.

Generally, we would vote with management on proposals relating to changes to the company's capital structure, including increases and decreases of capital and issuances of preferred stock; however, we would review the facts and circumstances associated with each proposal before finalizing our decision.

Well-structured stock option plans and management compensation programs are essential for companies to attract and retain high caliber management personnel. We generally vote in favor of proposals relating to these issues; however, there could be an occasion on which we viewed such a proposal as over reaching on the part of management or having the potential for excessive dilution when we would vote against the proposal.

Corporations should act in a responsible manner toward their employees, the communities in which they are located, the customers they serve and the world at large. We have observed that most stockholder proposals relating to social issues focus on a narrow issue and the corporate position set forth in the proxy material provides a well-considered response demonstrating an appropriate and responsible action or position. Accordingly, we generally support management recommendations on these types of proposals; however, we would consider each proposal on a case-by-case basis.

We take voting proxies of securities held in our portfolio very seriously. As indicated above, it is an integral part of the analytical process at General American Investors. Each proposal and any competing interests are reviewed carefully on a case-by-case basis. Generally, we support and vote in accordance with the recommendations of management; however, the overriding basis for the votes we cast is the best long-term interests of the Company.

Item 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

As of December 31, 2017 and the date of this filing, Mr. Jeffrey W. Priest, President and Chief Executive Officer, serves as the Portfolio Manager of the registrant and is responsible for its day-to-day management. Mr. Priest has been employed by the registrant since October, 2010, becoming its President in February 2012, and its Chief Executive Officer in January 2013. Mr. Priest does not provide such services for any other registered investment companies, pooled investment vehicles, or other accounts. For performing such responsibilities, Mr. Priest receives cash compensation in the form of a fixed salary and an annual performance bonus. The annual performance bonus is principally based upon the absolute performance of the registrant and its relative performance to a closed-end management investment company peer group (comprised of core equity funds) and the S&P 500 Index. Performance is evaluated in December by the Compensation Committee of the Board of Directors (the members of which are independent and consult with the full Board of Directors), based upon the registrant's net asset value return and total investment return during the twelve months ended October 31. Additional consideration is given to performance during the subsequent intervening period and to market compensation data provided by a noted industry compensation consulting firm. Mr. Priest beneficially owns in excess of \$1 million of the registrant's outstanding equity securities.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Directors as set forth in the registrant's Proxy Statement, dated February 20, 2018.

ITEM 11. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of December 31, 2017, an evaluation was performed under the supervision and with the participation of the officers of General American Investors Company, Inc. (the "Registrant"), including the principal executive officer ("PEO") and principal financial officer ("PFO"), to assess the effectiveness of the Registrant's disclosure controls and procedures. Based on that evaluation, the Registrant's officers, including the PEO and PFO, concluded that, as of December 31, 2017, the Registrant's disclosure controls and procedures were reasonably designed so as to ensure: (1) that information required to be disclosed by the Registrant on Form N-CSR and on Form N-Q is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission; and (2) that material information relating to the Registrant is made known to the PEO and PFO as appropriate to allow timely decisions regarding required disclosure.

(b) There have been no significant changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d)) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

ITEM 12. EXHIBITS

(a)(1) As indicated in Item 2., the code of ethics is posted on the registrant's Internet website.

(a)(2) The certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 are attached hereto as Exhibit 99 CERT.

(a)(3) There were no written solicitations to purchase securities under the Rule 23c-1 under the Investment Company Act of 1940 during the period covered by the report.

(b) The certifications of the principal executive officer and the principal financial officer pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 are attached hereto as Exhibit 99.906 CERT.
